B.S. Degree

Minimum Requirements for Degree: 134 credits

Geological engineering deals with the application of geology. Geological engineers work with the environment in the true sense of the word. Properties of earth materials exploration activities, geophysical and geochemical prospecting, site investigations and engineering geology are all phases of geological engineering.

The program prepares students for employment with industry, consulting companies and government agencies.

Major—B.S. Degree

1. Complete the general university requirements (page 107).
2. Complete the B.S. degree requirements (page 114).
3. Complete the following program (major) requirements:*  
   CHEM 105X—General Chemistry** ..............................................4  
   CHEM 106X—General Chemistry** ..............................................4  
   ES 201—Computer Techniques .....................................................3  
   ES 208—Mechanics .........................................................................4  
   ES 331—Mechanics of Materials .....................................................3  
   ES 341—Fluid Mechanics .............................................................3  
   GE 101—Introduction to Geological Engineering ...........................1  
   GE 261—General Geology for Engineers ........................................3  
   GE 365—Geological Materials Engineering ....................................3  
   GE 375—Principles of Engineering Geology and Terrain Analysis ...3  
   GE 381W—Field Methods and Applied Design I ............................2  
   GE 382W—Field Methods and Applied Design II ...........................4  
   GE 405—Exploration Geophysics ...................................................4  
   GE 420—Subsurface Hydrology .....................................................3  
   GE 471—Remote Sensing for Engineering ......................................3  
   GE 480W—Senior Design ................................................................3
   GEOS 213—Mineralogy .................................................................3  
   GEOS 214—Petrology and Petrography ..........................................4  
   GEOS 332—Ore Deposits and Structure ..........................................3  
   GEOS 421—Sedimentology .............................................................3  
   MATH 200X—Calculus** ................................................................4  
   MATH 201X—Calculus** ................................................................4  
   MATH 202X—Calculus** ................................................................4  
   MATH 302—Differential Equations ..................................................3  
   MIN 202—Mine Surveying ..............................................................3  
   MIN 370—Rock Mechanics ............................................................3  
   MIN 408O—Mineral Valuation and Economics ...............................3  
   PHYS 211X—General Physics** ...................................................4  
   PHYS 212X—General Physics** ...................................................4  
   STAT 200—Elementary Probability and Statistics ..........................3  
   Technical electives*** .....................................................................6

4. Minimum credits required ................................................................134

* Student must earn a C grade or better in each ES, GE, GEOS, MIN and technical elective courses.

** Satisfies core or B.S. degree requirements but not both.

*** Technical elective credits must contain engineering design and be selected by the student from a list of approved technical electives from the geological engineering program in conference with his or her advisor and approved by the department.

Note: Candidates for the B.S. degree in geological engineering are required to take a proficiency exam at the end of their sophomore year. They must also take a comprehensive exit exam in their general field before graduation (as well as the state of Alaska Fundamentals of Engineering examination). Fundamentals of Engineering examination is a first step toward registration as professional engineers.

Note: Students may initiate their geological engineering program in Anchorage and transfer to Fairbanks upon completion of the freshman and sophomore years. Students intending to transfer to UAF should communicate with a faculty member of the UAF mining and geological engineering department.

Note: Page numbers refer to the UAF 2005-2006 academic catalog, which can be viewed online at www.uaf.edu/catalog/.
# Baccalaureate Core Requirements

All degrees (e.g. B.A., B.S., etc.) require additional courses. Refer to specific degree and program requirements.

## COMMUNICATION (9)

Complete the following:
- ENGL 111X ................................................................. (3)
  
  ENGL 190H may be substituted.

Complete one of the following:
- ENGL 211X OR ENGL 213X ........................................... (3)

Complete one of the following:
- COMM 131X OR COMM 141X ....................................... (3)

## PERSPECTIVES ON THE HUMAN CONDITION (18)

Complete all of the following four courses:
- ANTH 100X/100X ......................................................... (3)
- ECON 100X OR PS 100X ............................................... (3)
- HIST 100X ................................................................. (3)
- ENGL/FL 200X ............................................................ (3)

Complete one of the following three courses:
- ART/MUS/THR 200X, HUM 201X OR ANS 202X ............... (3)

Complete one of the following six courses:
- BA 323X, COMM 300X, JUST 300X, NRM 303X, PS 300X OR PHIL 322X .................................................. (3)

OR complete 12 credits from the above courses PLUS
- two semester-length courses in a single Alaska Native language or other non-English language OR
- three semester-length courses (9 credits) in American Sign Language taken at the university level.

## MATHEMATICS (3)

Complete one of the following:
- MATH 107X, MATH 161X OR MATH 103X ....................... (3–4)
  * No credit may be earned for more than one of MATH 107X or 161X.

OR complete one of the following:
- MATH 200X, MATH 201X, MATH 202X,
  MATH 262X OR MATH 272X ........................................... (4)
  * Or any math course having one of these as a prerequisite

## NATURAL SCIENCES (8)

Complete any two (4-credit) courses:
- ATM 101X ............................................................... (4)
- BIOL 100X .............................................................. (4)
- BIOL 103X .............................................................. (4)
- BIOL 104X .............................................................. (4)
- BIOL 105X .............................................................. (4)
- BIOL 106X .............................................................. (4)
- BIOL 111X .............................................................. (4)
- BIOL 112X .............................................................. (4)
- CHEM 100X ............................................................ (4)
- CHEM 103X ............................................................ (4)
- CHEM 104X ............................................................ (4)
- CHEM 105X ............................................................ (4)
- CHEM 106X ............................................................ (4)
- GEOG 205X ............................................................ (4)
- GEOS 100X ............................................................ (4)
- GEOS 101X ............................................................ (4)
- GEOS 112X ............................................................ (4)
- GEOS 120X ............................................................ (4)
- GEOS 123X ............................................................ (4)
- MSL 111X ............................................................... (4)
- PHYS 102X ............................................................. (4)
- PHYS 103X ............................................................. (4)
- PHYS 104X ............................................................. (4)
- PHYS 115X ............................................................. (4)
- PHYS 116X ............................................................. (4)
- PHYS 173X ............................................................. (4)
- PHYS 211X ............................................................. (4)
- PHYS 212X ............................................................. (4)
- PHYS 213X ............................................................. (4)

## LIBRARY AND INFORMATION RESEARCH (0–1)

Successful completion of library skills competency test OR
- LS 100X or 101X prior to junior standing ...................... (0–1)

## UPPER-DIVISION WRITING AND ORAL COMMUNICATION (0)

Complete the following:
- Two writing intensive courses designated (W) .................. (0)
- One oral communication intensive course designated (O) .... (0)
- OR two oral communication intensive courses designated (O/2), at the upper-division level (see degree and/or major requirements) ..... (0)

## TOTAL CREDITS REQUIRED .............................................. 38–39
