Course Descriptions 254

Associate Professor Jonathan Runstadler lectures in his immunology class in the Bunnell Building on the Fairbanks campus.
How to Read the Course Descriptions

This section contains complete information for all UAF courses. Unless otherwise indicated, course frequency refers to the offering of courses at the Fairbanks campus. The courses listed in this catalog are not offered at all UAF sites but may be offered if demand warrants and qualified faculty are available.

Courses are regularly offered at Bristol Bay Campus at Dillingham, Chukchi Campus at Kotzebue, Kuskokwim Campus at Bethel and Northwest Campus at Nome. Through the Interior-Aleutians Campus, courses are available at Fort Yukon, Galena, McGrath, Nenana, Tok and Unalaska. Information about the frequency of courses at these community sites can be obtained from the local UAF representative.

Course Numbers

The first numeral of a course numbered in the hundreds indicates the year in which a student typically takes the course. For example, ENGL F111X is usually for first-year students and ENGL F318 is for third-year students. Freshman and sophomore students are cautioned to register for upper-division (300- and 400-) level courses only if they have adequate preparation and background to undertake advanced study in the field in which those courses are offered.

000-049—Non-credit courses

Developmental courses are preparatory courses that do not apply to associate, baccalaureate or graduate degree requirements.

050-099—Developmental courses

Developmental courses are preparatory courses that do not apply to associate, baccalaureate or graduate degree requirements.

100-299—Lower-division courses

Freshman and sophomore students may be required to obtain special permission to take 300- and 400-level courses unless the courses are required in the first two years of their curriculum as printed in this catalog.

300-499—Upper-division courses

Freshman and sophomore students may be required to register for upper-division (300- and 400-) level courses only if they have adequate preparation and background to undertake advanced study in the field in which those courses are offered.

500-599—Graduate courses

A few well-qualified undergraduates may be admitted to graduate courses with approval of the instructor. Students may not apply such a course to requirements for both a baccalaureate and a graduate degree.

Stacked and Cross-listed Courses

Some courses are offered by an interdisciplinary program (such as Women's Studies) with a specific disciplinary content (e.g., History). Some courses containing interdisciplinary content are sponsored by several departments (e.g., Theatre/Art/Music F200X). These courses are “cross-listed” and are designated in the class listings by “cross-listed with____.”

Courses are also sometimes offered simultaneously at different levels (for example: 100/200 or 400/600) with the higher level credit requiring additional effort and possibly a higher order of prerequisites from students. Such courses are referred to as “stacked” and are designated in the class listings by “stacked with ____.” In the case of 400/600-level stacked courses, graduate student enrollment and a higher level of effort and performance is required on the part of students earning graduate credit.

Courses simultaneously stacked and cross-listed are designated in the class listing as “Stacked with ____ and cross-listed with ____.”

For all stacked courses, the course syllabus (not the catalog) must stipulate course content and requirements for each level. The catalog should indicate the difference in prerequisites for each level.

Graduate students may not take any 600-level courses for credit if they have already received 400-level credit for that course in their undergraduate work. Individual exceptions to this rule include those courses where there has been a major shift in focus, and should be judged by the instructor and the department.

Special or Reserved Numbers

Courses with the suffix X (ENGL F111X, MATH F103X), meet specific baccalaureate core requirements. Courses with suffixes W or O meet upper-division writing intensive or oral communication intensive course requirements for the baccalaureate core.

Courses identified with numbers ending in -92 are seminars, covering various topics which may include group discussions and guest speakers; ending in -93 are special topics courses, normally offered one time only; -94, trial courses, offered in anticipation of becoming a permanent course; -95, special topics summer session courses, offered only during the summer; -97, individual study in subject areas not normally available; -98, non-thesis research/ project, preparing for professional practice; and -99, thesis/ dissertation, preparing for scholarly or research activity.

Courses identified with these special or reserved numbers may be available at all levels (e.g., 193, 293, 393, etc.) at the discretion of any department, although offerings above the level of approved programs must be approved in advance by the Provost (e.g., 600-level offerings in areas without approved graduate programs or 300- and 400-level
courses in areas without approved baccalaureate programs). These courses may be repeated for credit.

**Course Credits**

One credit represents satisfactory completion of 800 minutes of lecture, 1,600 or 2,400 minutes of laboratory (or studio or other similar activity), whichever is appropriate. (It is understood that an average student will be expected to spend 1,600 minutes of study and preparation outside of class in order to meet the learning objectives for the unit of credit in lecture.)

The following standards establish the minimum requirements for an academic unit of credit:

1. 800 minutes of lecture (plus 1,600 minutes of study)
2. 1,600 or 2,400 minutes of laboratory (or studio or other similar activity)
3. 2,400–4,800 minutes of supervised practicum
4. 2,400–8,000 minutes of internship (or externship, clinical)
5. 2,400–4,800 minutes of supervised scholarly activity

Credit hours may not be divided, except half-credit hours may be granted at the appropriate rate. For short courses and classes of less than one semester in duration, course hours may not be compressed into fewer than three days per credit. Any course compressed to less than six weeks must be approved by the college or school’s curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.

Following the title of each course, the number of credits is listed for each semester. Thus “3 credits” means three credits may be earned. Credit may not be given more than once for a course unless the course has been designated as repeatable for credit. Figures in parentheses at the end of course descriptions indicate the number of lecture; laboratory; and practicum, internship or scholarly activity hours the class meets each week for one semester. The first number represents lecture hours; the second, laboratory; and the third, practicum, internship or scholarly activity. For example (2+3) indicates that a class has two hours of lecture and three of laboratory work each week. A designation of (1+0+6) indicates that the course meets for one hour each week of lecture and 6 hours each week of practicum, internship or other scholarly activity.

**Identifying Courses**

**X—The Baccalaureate Core**

Courses used to satisfy general baccalaureate core requirements have course numbers ending with the suffix X. For example, English F111X and Communication F141X meet specific core requirements. See baccalaureate core requirements for a listing of other specific courses.

**O—Oral Communication Intensive Course**

**W—Writing Intensive Course**

Courses meeting upper-division writing and oral communication intensive requirements for the baccalaureate core are identified in the course description section of the catalog with the suffixes O and W. Two courses designated O/2 are required to complete the oral communication intensive requirement.

**Specific Degree Requirements**

Courses that may be used to satisfy specific degree requirements (e.g., humanities elective for the B.A. degree, or natural science elective for the B.S. degree) are identified in the course description section by the following degree requirement designators:

- **h**—humanities
- **s**—social science
- **m**—mathematics
- **n**—natural science
- **x**—content is relevant to northern, arctic or circumpolar studies

For example, you may use ANTH F309—Arctic Prehistory (s), to satisfy the “social science elective” requirement for a bachelor of arts degree. Some courses, including all special topics and individual study courses, are not given course classifications.

**Course Frequency**

A frequency of offering designator such as “Offered Fall” or “Offered Alternate Spring” follows many course descriptions. Every effort is made to ensure this designator is correct. However, students should review the current class schedule or check with individual departments for the most accurate and up-to-date information on future course offerings.

**How to Read the Course Descriptions**

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.
ACCOUNTING (ACCT)

Students enrolling in School of Management courses are expected to have completed the necessary prerequisites for each course.

A per-semester student enrolling in one or more School of Management courses (AIS, ACCT, BA and ECON) except ECON F100X. This fee is in addition to any materials fees.

ACCT F261 Accounting Concepts and Uses I (s) 3 Credits
An understanding of basic financial statements from a user perspective (investors, managers and creditors) is strongly emphasized. Topical coverage of financial and managerial issues is integrated throughout the semester. Material is presented in a fashion that promotes development of communication skills. The conceptual approach used in this course will sensitize the student to the implications of accounting decisions related to business transactions, while avoiding the detailed procedures that only accountants need to know. Prerequisites: Sophomore standing or higher; placement, concurrent enrollment, or completion of MATH at the F100-level or above. (3+0)

ACCT F262 Accounting Concepts and Uses II 3 Credits
Continuation of ACCT F261 with introduction of advanced topics. Prerequisites: ACCT F261. (3+0)

ACCT F263 Accounting Processes 1 Credit
Laboratory covering processes and procedures of accounting. Includes journals, ledgers and recording techniques, and understanding of contemporary accounting issues. Prerequisites: AIS F101; ACCT F261; ACCT F262 or concurrent enrollment in ACCT F262. (3+0)

ACCT F330 Income Tax 3 Credits
Survey of basic concepts of federal taxation with emphasis on taxation of individuals and the impact of taxes on business and investment planning. Prerequisites: ACCT F361. (3+0)

ACCT F342 Managerial Cost Accounting 3 Credits
Offered Fall or Spring
Cost accounting with managerial emphasis on planning, control and decision making. Topics include cost-volume profit analysis, costing systems, profit planning, flexible budgets, standard costs, responsibility accounting, inventory costing alternatives and relevant costs for decision making. For accounting majors. Note: No credit may be earned for more than one of ACCT F342 or ACCT F352. Prerequisites: ACCT F262. (3+0)

ACCT F352 Management Accounting 3 Credits
Offered Fall or Spring
Business policy profit planning, resource planning, control concepts, reporting for management control and impact of public reporting on management decisions. Note: For non-accounting majors only. No credit may be earned for more than one of ACCT F342 or ACCT F352. Prerequisites: ACCT F261; ACCT F262. (3+0)

ACCT F356 Internship in Accounting 1 – 3 Credits
Offered As Demand Warrants
Supervised accounting work experience in an approved position related to the student's career interests. Number of credits earned depends upon the type of position and time worked. No student may count more than 9 internship credits towards an undergraduate degree, with these credits being electives. Internship credits may not be taken as one of the two required senior-level accounting electives. Prerequisites: Permission of the SOM advisor. (0+6 – 14)

ACCT F361 Intermediate Accounting 3 Credits
Offered Fall
Discussions of financial accounting topics from the perspective of both accounting practice and theory. Working capital and fixed asset accounts are emphasized. Ethical and international accounting issues are emphasized throughout the sequence. Prerequisites: ACCT F262. (3+0)

ACCT F362 Intermediate Accounting 3 Credits
Offered Spring
Discussion of financial accounting topics from the perspective of both accounting practice and theory. Long-term liabilities and stockholders equity are emphasized. Ethical and international accounting issues are emphasized throughout. Prerequisites: ACCT F361. (3+0)

ACCT F401 Advanced Accounting 3 Credits
Offered Fall or Spring
Accounting for business combinations: parent-subsidiary and home office/branch relationships, partnerships and multinational enterprises. Prerequisites: ACCT F362. (3+0)

ACCT F404 Advanced Cost Accounting and Controllership 3 Credits
Offered Fall or Spring
Study of the controllership function with emphasis on advanced cost and managerial accounting topics related to contemporary organizations. Prerequisites: ACCT F342. (3+0)

ACCT F414 Governmental and Nonprofit Accounting 3 Credits
Offered Fall or Spring
Accounting for governmental units, public schools, colleges and universities, health care providers, voluntary health and welfare organizations and other nonprofit organizations. Prerequisites: ACCT F362; ACCT F452. (3+0)

ACCT F430 Advanced Taxes 3 Credits
Offered Fall or Spring
Advanced study of income taxation, emphasizing federal taxation of corporations and partnerships. Prerequisites: ACCT F330. (3+0)

ACCT F452 W Auditing 3 Credits
Offered Fall or Spring
Introduction to the professional standards and procedures applicable to an auditor's examination of financial statements. Compliance and Operational auditing, ethical and legal responsibilities, and international auditing issues emphasized. Prerequisites: ACCT F362; AIS F316; ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

ACCT F472 Advanced Auditing 3 Credits
Offered Fall or Spring
Internal auditing including financial, compliance and performance audits. An overview of auditing concepts and practice is discussed with specific application to internal auditing and governmental auditing, including federal and state single audits. For auditor practitioners and students without field experience in auditing. Prerequisites: ACCT F362 or instructor permission. (3+0)

ACCT F656 Internship in Accounting 1 – 3 Credits
Offered As Demand Warrants
Supervised accounting experience in an approved position related to the student's career interests. (Note: Number of credits earned depend on the type of position and time worked. No graduate student may count more than six internship credits towards a graduate degree with these credits being electives.) Prerequisites: M.B.A. standing or approval of M.B.A. director. (0+6 – 14)
ACCOUNTING AND INFORMATION SYSTEMS

Students enrolling in School of Management courses are expected to have completed the necessary prerequisites for each course. A per-semester student computing facility user fee will be assessed for student enrolling in one or more School of Management courses (AIS, ACCT, BA and ECON) except ECON F100X. This fee is in addition to any materials fees.

AIS F101 Effective Personal Computer Use
3 Credits
Using and understanding advanced computing software applications. Course develops conceptual and practical knowledge of advanced presentation/communications software, database programs and operating systems. (3+0)

AIS F224 Advanced MS Excel
1 Credit
Advanced features of the Microsoft Excel spreadsheet program. Includes spreadsheet design and layout, customized graphics, customized reports using database features, optimization/statistical techniques and programming with the Excel macro language. Prerequisites: AIS F101 or permission of instructor. Student is assumed to have basic proficiency with Microsoft Excel. (1+0)

AIS F225 Windows Networking and Administration
1 Credit
Offered As Demand Warrants
Network engineering skills required to implement and support the Microsoft Windows OS. Includes installation, configuration, peer-to-peer networking, interoperability with Novell Netware, tuning and troubleshooting. Prerequisites: AIS F101; Experience using the Microsoft Windows OS; or permission of instructor. (1+0)

AIS F310 Management of Information Systems
3 Credits
The role information technology plays in organizations including its impact on information systems, management and business strategy. A conceptual model of system design is introduced and basic business internal controls are surveyed. Prerequisites: AIS F101. (3+0)

AIS F312 W Information Systems Technology
3 Credits
Offered As Demand Warrants
Introduction to the hardware and software underlying information systems; provides background to understand computer marketing literature and to select among technology alternatives. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

AIS F316 Accounting Information Systems
3 Credits
Offered Fall or Spring
Accounting systems for business and public entities. Emphasis on internal control functions and design concepts. Prerequisites: AIS F101; ACCT F262. (3+0)

AIS F410 Systems Analysis and Program Design
3 Credits
Offered As Demand Warrants
The system development life cycle for database-oriented information systems in both mainframe and microcomputer environments. Includes programming in one or more fourth-generation languages and a term project. Prerequisites: AIS F310 or AIS F312. (3+0)

AIS F414 Database Design for Management Information
3 Credits
Offered As Demand Warrants
Combines advanced systems analysis using modern techniques of data modelling with study of management and administrative problems in coordination and management of organization data resources; focusing on needs of medium-sized and large organizations. Prerequisites: AIS F310 or CS F401. (3+0)

AIRFRAME AND POWERPLANT

AFPM F111 General Airframe and Powerplant
3 Credits
Offered As Demand Warrants
Shop practices, basic math, applied physics, FAA regulations, basic electricity, aircraft weight and balance, ground operations and servicing, cleaning and corrosion control, and materials and process. Preparation for the FAA Mechanics Airframe Structures Written, Oral and Practical Exam. Special fees apply. Prerequisites: Experience requirements of FAR 65.77 or permission of instructor. (3+0)

AFPM F143 Basic Mathematics
1 Credit
Offered As Demand Warrants
Review of applied and technical mathematics related to the construction and engines of aircrafts. Common, decimal, fractions and mixed numbers; extracting square roots and raising numbers to a given power; solving ratios, proportions and percentage problems; fundamental algebraic operations. Special fees apply. Prerequisites: Admission to Airframe & Powerplant program or permission of instructor. (1+0)

AFPM F146 Basic Electricity
2 Credits
Offered As Demand Warrants
Electrical theory and concepts for the aviation mechanic. Ohm’s law, electrical circuits, diagrams, batteries and a variety of electrical components. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2+0)

AFPM F147 Physics for Mechanics
0.5 Credit
Offered As Demand Warrants
Applications of mechanics; levers, sound, fluid and heat dynamics. Basic aircraft structures and aerodynamics. (Course does not fulfill natural science requirements for any degree.) Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (0.5+0)

AFPM F148 Aircraft Drawing
1 Credit
Offered As Demand Warrants
Basic drafting. Drawings, symbols and schematic diagrams, sketches of repairs and alterations, blueprint information, graphs and charts. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1+0)

AFPM F149 Fluid Lines and Fittings
0.5 Credit
Offered As Demand Warrants
Rigid and flexible fluid lines and fittings, fabrication and installation. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (0.5+0)

AFPM F150 Materials and Processes
2 Credits
Offered As Demand Warrants
Basic shop practices, including selection, identification and installation of aircraft hardware and materials, precision measuring tools and operations, basic heat treating processes, forms of nondestructive inspections. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2+0)

AFPM F151 Cleaning and Corrosion Control
1 Credit
Offered As Demand Warrants
Basic aircraft cleaning materials, methods and corrosion control. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1+0)

AFPM F152 Federal Aviation Regulations
1 Credit
Offered As Demand Warrants
Federal Aviation Regulations for maintenance of aircraft. Maintenance forms and records, publications, privileges and limitations of aircraft mechanics. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1+0)
AIRFRAME AND POWERPLANT (AFPM)

AFPM F153 Weight and Balance
1 Credit Offered As Demand Warrants
Weighing procedures, weight, arms, moments, center of gravity computations and placarding. Aircraft loading, required forms, weighing. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1+0)

AFPM F154 Ground Operations and Servicing
0.5 Credit Offered As Demand Warrants
Starting, moving, servicing, securing and fueling aircraft. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (0.5+0)

AFPM F205 Airframe Structures
3 Credits Offered As Demand Warrants
Aircraft wood, dope, fabric finishes, welding, sheet metal, assembly and rigging and inspection. Preparation for the FAA Mechanics Airframe Structures written, oral and practical exam. Special fees apply. Prerequisites: Experience requirements of FAR 65.77 or permission of instructor. (3+0)

AFPM F206 Airframe System and Components
2 Credits Offered As Demand Warrants
Aircraft electrical, hydraulic and pneumatic systems. Landing gear, instruments, fuel, communication and navigation, cabin atmosphere control, and fire protection systems. Inspection, checking, troubleshooting, repair and servicing. Preparation for the FAA Mechanics Airframe Structures written, oral and practical exam. Special fees apply. Prerequisites: Experience requirements of FAR 65.77 or permission of instructor. (2+0)

AFPM F213 MOS Powerplant Theory/Maintenance
2 Credits Offered As Demand Warrants
Jet engine fundamentals, analysis and testing. Inspecting turbo jets, turbo shaft and turbo fan engines. Overhaul, inspection and fundamentals of reciprocating engines. Preparation for the FAA Mechanics Airframe Structures written, oral and practical exam. Special fees apply. Prerequisites: Experience requirements of FAR 65.77 or permission of instructor. (2+0)

AFPM F216 MOS Powerplant System/Components
3 Credits Offered As Demand Warrants
Fuel metering, induction systems, propellers, control systems and powerplant electricity. Repair, inspection, service and troubleshooting. Preparation for the FAA Mechanics Airframe Structures written, oral and practical exam. Special fees apply. Prerequisites: Experience requirements of FAR 65.77 or permission of instructor. (3+0)

AFPM F230 Aircraft Electrical Systems
2.5 Credits Offered As Demand Warrants
Wiring, control, indication and protection devices for AC and DC systems. Inspection, troubleshooting service and repair of these systems. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2.5+0)

AFPM F231 Powerplant Electrical Systems
1.5 Credits Offered As Demand Warrants
Installation, inspection, testing, servicing engine electrical system wiring, controls, indicators and protective devices. Repair and service of electrical generating systems. Special fees apply. (1.5+0)

AFPM F235 Aircraft Reciprocating Engines
4.5 Credits Offered As Demand Warrants
History and development of the aircraft reciprocating engine. Repair, overhaul and inspection of various types of engines. Operation and troubleshooting of engines. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (4.5+0)

AFPM F240 Turbine Engines
2 Credits Offered As Demand Warrants
Development, theory and operation of turbine engines. Engine design, performance, accessories and subsystems. Engine maintenance and overhaul. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2+0)

AFPM F244 Lubricating Systems
1.5 Credits Offered As Demand Warrants
Identification and selection of lubricants for aircraft powerplants. Inspection, service, troubleshooting and repair of the lubrication systems and components. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1.5+0)

AFPM F245 Ignition Systems
2 Credits Offered As Demand Warrants
Overhaul, inspection and troubleshooting of reciprocating and gas turbine ignition systems. Repair and bench testing of components. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2+0)

AFPM F246 Fuel Metering Systems
2 Credits Offered As Demand Warrants
Fundamental operation of fuel metering systems in aircraft powerplants. Technical data to repair and overhaul carburetors and components. Inspecting, troubleshooting and adjusting turbine engine fuel metering systems and electronic fuel controls. Special fees apply. Prerequisites: Admission to the A & P Program or permission of instructor. (2+0)

AFPM F248 Induction Systems
0.5 Credit Offered As Demand Warrants
Operation and service of aircraft induction, preheat, anti-ice and supercharger systems. Special fees apply. (0.5+0)

AFPM F249 Powerplant Cooling Systems
0.3 Credit Offered As Demand Warrants
Inspection, service and repair of engine cooling systems - both air and liquid cooled installations. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (0.3+0)

AFPM F250 Powerplant Exhaust Systems
0.5 Credit Offered As Demand Warrants
Inspection, service and repair of engine exhaust systems. Includes operations of turbo compounded engines, thrust reversers and noise suppressors. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (0.5+0)

AFPM F251 Fuel Systems
1.5 Credits Offered As Demand Warrants
Inspection, servicing, troubleshooting and repair of aircraft and engine fuel systems and components. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1.5+0)

AFPM F252 Propellers
2 Credits Offered As Demand Warrants
Identification and nomenclature of aircraft propellers. Operation, control and repair of both reciprocating and turbine engine installations. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (2+0)

AFPM F253 Transport Category Aircraft
1 Credit Offered As Demand Warrants
Introduction to transport category aircraft systems and components. Special fees apply. Prerequisites: Admission to A & P Program or permission of instructor. (1+0)

AFPM F254 Ice and Rain Control Systems
0.5 Credit Offered As Demand Warrants
Inspection, operation and troubleshooting of de-ice and anti-ice systems. Special fees apply. (0.5+0)

not satisfy core curriculum requirements. Prerequisites: ANL F121 in the same language or permission of instructor. (1 – 3+0)

ANL F141  Beginning Athabascan-Koyukon or Gwich’in (h)  5 Credits  Offered Fall  Introduction to an Alaska Athabascan language. Class will deal with one of the eleven Athabascan languages spoken in Alaska. Literacy and grammatical analysis for speakers. For non-speakers, a framework for learning to speak, read and write the language. (5+0)

ANL F142  Beginning Athabascan (h)  5 Credits  Offered Spring  Introduction to an Alaska Athabascan language. Class will deal with one of the eleven Athabascan languages spoken in Alaska. Literacy and grammatical analysis for speakers. For non-speakers, a framework for learning to speak, read and write the language. Prerequisites: ANL F141 in the same language or permission of instructor. (5+0)

ANL F150  Interpretive Communication  1 Credit  Offered As Demand Warrants  Communication processes in Yup’ik and English speaking cultures. Solutions to identify problem areas in cross-cultural communication. Situations such as conversations, meetings, translating and interpreting. Interpreting meaning in what is communicated between people of different sociocultural backgrounds. Kuskokwim Campus only. (1+0)

ANL F151  Interethnic Communications  3 Credits  Offered As Demand Warrants  Understanding differences in cross-cultural interaction. Application of cross-cultural interactions to various communication settings. Concentrates on Yup’ik ways of communication. Kuskokwim Campus only. (3+0)

ANL F199  Practicum in Native Language Education  3 Credits  Offered As Demand Warrants  Individualized work experience. Variable credit (depending on the quantity and quality of the work experience). Offered on campus and via distance delivery. When offered via distance delivery, a local mentor (usually principal or teacher) must be willing to work with the student on the local level. (3+0)

ANL F208  Advanced Athabascan Literacy (h)  1 – 3 Credits  Offered As Demand Warrants  Expository and creative writing for native speakers; reading Athabascan literature; elicitation, transcription and editing of cultural materials from elders. (1 – 3+0)

ANL F221  Intermediate Conversational Alaska Native Language (h)  1 – 3 Credits  Offered As Demand Warrants  Continuation of ANL F121, ANL F122. Focus on conversational skills in a particular Alaska Native language. On completion of this course the student should not only be able to function at a low level of fluency but should also have the skills necessary to increase fluency through continued use of the language. Prerequisites: ANL F121; ANL F122; or permission of instructor. (1 – 3+0)

ANL F241  Intermediate Athabascan-Koyukon or Gwich’in (h)  3 Credits  Offered Fall  Continuation of beginning Athabascan-Koyukon or Gwich’in. One of these two languages will be taught. Development of conversational ability, additional grammar and vocabulary. Prerequisites: ANL F141 and ANL F142 in the same language or permission of instructor. (3+0)

ANL F242  Intermediate Athabascan-Koyukon or Gwich’in (h)  3 Credits  Offered Spring  Continuation of beginning Athabascan-Koyukon or Gwich’in. One of these two languages will be taught. Development of conversational ability, additional grammar and vocabulary. Prerequisites: ANL F141 and ANL F142 in the same language or permission of instructor. (3+0)

ANL F251  Introduction to Athabascan Linguistics (h)  3 Credits  Offered Summer, As Demand Warrants  An introduction to the linguistic structure of the Athabascan family of languages, drawing on examples from the Athabascan languages of Alaska. Writing systems, word structure, texts, and language relationships. Techniques for accessing linguistic reference materials and the role of linguistic documentation in language revitalization and language learning. (3+0)

ANL F255  Introduction to Alaska Native Languages: Eskimo-Aleut  3 Credits  Offered As Demand Warrants  Overview of languages native to Alaska with special attention to the Eskimo-Aleut languages. Focus on a specific language or language area (optional as most relevant to a regional student body). Includes history, present and future of basic language structure, oral, linguistic and educational literature. (3+0)

ANL F287  Teaching Methods for Alaska Native Languages (h)  3 Credits  Offered As Demand Warrants  Methodological approaches and practice in teaching Native language and literacy to both speakers and non-speakers. Prerequisites: Knowledge of a Native language. (3+0)

ANL F288  Curriculum and Materials Development for Alaska Native Languages (h)  3 Credits  Offered As Demand Warrants  Preparation and evaluation of curriculum and classroom materials for teaching Native languages. Prerequisites: ANL F287; Knowledge of a Native language; or permission of instructor. (3+0)

ANL F289  Practicum in Native Language Education II  3 or 4 Credits  Offered As Demand Warrants  Individualized work experience. Supervised teaching with an experienced teacher overseeing student instructional activities and assisting with the class as needed. Note: Course may be repeated once for credit. Graded Pass/Fail. Prerequisites: ANL F199; ANL F287; ANL F288. (3 or 4+0+10)

ANL F313  Alaska Native Languages: Eskimo-Aleut (h)  3 Credits  Offered As Demand Warrants  A survey of the Native languages of Alaska, particularly Eskimo-Aleut: history, present and future, with examples of language structure, present situation and prospects as a cultural force. Open to all students. (3+0)

ANL F315  Alaska Native Languages: Indian Languages (h)  3 Credits  Offered As Demand Warrants  A survey of all Native languages of Alaska; particularly the Indian languages: Athabascan-Eyak-Tlingit, Haida and Tsimshian. History, present and future; examples of language structure, present situation and prospects as a cultural force. Open to all students. (3+0)

ANL F316  Alaska Native Languages Apprenticeship (h)  5 Credits  Offered As Demand Warrants  Structured study of an Alaska Native Language. Select and work intensively with a mentor (a native speaker of the language selected). Choice of mentor requires faculty approval. Meet regularly with mentor (minimum 10 hours per week) and participate in regular training sessions to work
toward fluency. Graded Pass/Fail. Prerequisites: One year university-level study in language of internship or permission of instructor. (0.5+10+10)

**ANL F402** Alaska Native Language Apprenticeship (h) *(s)*
3 Credits
Offered As Demand Warrants
Structured study of an Alaska Native language. Select and work intensively with a mentor (a native speaker of the language selected). Choice of mentor requires faculty approval. Meet regularly with mentor (minimum 10 hours per week) and participate in regular training sessions to work toward fluency. Graded Pass/Fail. Prerequisites: ANL F401. (0.5+10+10)

**ANL F452** Principles of Linguistic Analysis for Alaska Native Languages *(s)*
3 Credits
Offered As Demand Warrants
Systematic principles of phonology, morphology, syntax and semantics for the Athabaskan-Eyak-Tlingit, Haida, Tsimshian and Eskimo-Aleut language family. This language family is central to this course; the specific Alaska Native language emphasized will be dependent on student interest. Includes exposure to a variety of references and tools available for research in Alaska Native languages and linguistics. Prerequisites: LING F450; ANL F402. (3+0)

**ANL F601** Seminar in Language Revitalization *(s)*
3 Credits
Offered As Demand Warrants
Language teaching and acquisition strategies appropriate to underdocumented and less commonly taught languages. Students write an applied research proposal related to local language endangerment issues and strategies for improving teaching either at the school or community level. Emphasis on students’ class presentation and research ideas. Prerequisites: LING F450; ANTH F451 or LING F601. (3+0)

**ANL F608** Indigenous Knowledge Systems *(s)*
3 Credits
Offered Fall
A comparative survey and analysis of the epistemological properties, world views and modes of transmission associated with various indigenous knowledge systems. Emphasis on knowledge systems practiced in Alaska. Prerequisites: Graduate standing or approval of instructor. Cross-listed with CCS F608; ED F608; RD F608. (3+0)

**ANL F651** Topics in Athabascan Linguistics *(s)*
3 Credits
Offered Fall
Even-numbered Years
Graduate-level introduction to important topics in Athabascan linguistics, including both foundational literature and current research. Topics may include laryngeal features; tonogenesis; the syntax-morphology interface; argument structure; lexical semantics; and discourse. Course may be repeated once for credit with permission of instructor. Prerequisites: LING F601 or equivalent; graduate standing. Recommended: LING F603; LING F604. Cross-listed with LING F651. (3+0)

**ANL F690** Seminar in Cross-Cultural Studies *(s)*
3 Credits
Offered As Demand Warrants
Investigation of current issues in cross-cultural contexts. Opportunity for students to synthesize their prior graduate studies and research. Seminar is taken near the terminus of a graduate program. Prerequisites: Advancement to candidacy and permission of student’s graduate committee. Cross-listed with CCS F690; ED F690; RD F690. (3+0)

**ANS F101** Introduction to Alaska Native Studies (h) *(s)*
3 Credits
Offered Fall
Introductory information on the Alaska Native community. Overview of significant Native issues. Review of pertinent literature and resources. (3+0)

**ANS F102** Orientation to Alaska Native Education *(s)*
2 Credits
A seminar in issues related to Alaska Native and rural education. Through weekly meetings held both on campus and in Fairbanks schools, students examine and discuss issues with Alaska Native educators on topics related specifically to rural and urban Alaska Native education. Issues include: Native ways of knowing, local control, curriculum development for small/multi-graded/rural schools, cultural differences in teaching and learning, and bilingual programs. Graded Pass/Fail. Prerequisites: Permission of instructor. Cross-listed with ED F102. (2+0)

**ANS F111** History of Alaska Natives (s) *(s)*
3 Credits
Offered Fall
The history of Alaska Natives from contact to the signing of the Land Claims Settlement Act. Cross-listed with HIST F110. (3+0)

**ANS F150** Topics in Alaska Regional Cultural History *(s)*
3 Credits
Offered As Demand Warrants
Cultural history of the peoples of a selected region of Alaska, which will vary depending on demand and instructor expertise. Methods including physical anthropology, ethnology, linguistics, archaeology, social anthropology, ethnography, ecology and climatology will be used. Includes the issues of culture-change due to Alaska Native and Euro-American contacts. Recommended: ANS F242. (3+0)

**ANS F160** Alaska Native Dance (h) *(s)*
1 Credit
Traditional Native Alaskan dancing, singing and drumming of songs from Alaska’s major indigenous groups taught by guest Native elders and dancers. If there is sufficient interest, a dance group will be assembled using class members for spring presentations primarily in the Fairbanks area, including the Festival of Native Arts. Graded Pass/Fail. (0+2)

**ANS F161** Introduction to Alaska Native Performance (h) *(s)*
3 Credits
Offered Fall
For Native and non-Native students with no prior acting or theatre experience. Includes both academic and practical components to examine traditional Alaska Native theatre mythology, ritual, ceremony and performance methods. Application of exercises and developmental scenes drawn from Alaska Native heritage. Cross-listed with THR F161. (3+0)

**ANS F202X** Aesthetic Appreciation of Alaska Native Performance (h) *(s)*
3 Credits
Offered Fall
Understanding and application of the cultural principles of Alaska Native oral narrative performances. Topics are arranged by the five broad Alaska Native regions and include lectures on culture, principles of visual arts analysis of oral narratives, musical expression and hands-on involvement in Alaska Native theatrical arts. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. (3+0)

**ANS F223** Alaska Native Music (h) *(s)*
3 Credits
Offered As Demand Warrants
Eskimo and Indian dance and song styles in Alaska. Emphasis on the traditional Aleut, Eskimo and Indian (Athabascan and Tlingit) cultures of Alaska. Eskimo and Indian cultures in Canada. Linguistic and cultural groupings, population changes, subsistence patterns, social organization and religion in terms of local ecology. Pre-contact interaction...
between groups. Also available via e-Learning and Distance Education. Cross-listed with ANTH F242. (3+0)

ANS F250 Current Alaska Native Leadership Perspectives (s) 3 Credits Offered As Demand Warrants Prominent leaders in the Native community are brought into direct classroom contact with students to discuss important issues in rural Alaska and the larger Native community. (3+0)

ANS F251 Practicum in Native Cultural Expression 3 Credits Provides individual supervised activities in the formal organization, promotion and expression of Alaskan Native cultural heritage. May be repeated to a maximum of three credits. Graded Pass/Fail. Prerequisites: Permission of the department head. (1 – 3+0)

ANS F268 Beginning Native Art Studio (h) 3 Credits Understanding and applying traditional designs and techniques of Native art. Special fees apply. Prerequisites: ART F105 or permission of instructor. Cross-listed with ART F268. (1+4)

ANS F275 Yup'ik Practices in Spirituality and Philosophy (h) 3 Credits Offered As Demand Warrants Exploration of the processes in Yup'ik natural religion and the underlying philosophy that is the basis for Yup'ik existence in the spiritual realm. Wholeness of Yup'ik existence as it integrates into Western religion and philosophy. (3+0)

ANS F300 W Alaska Native Writers Workshop (h) 3 Credits Offered As Demand Warrants Rhetorical methods of creative expression of the Alaska Native experience. Emphasis on the student’s development of expressive abilities in a variety of Native and Western forms. Publication of student work a possibility. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; and permission of instructor. (3+0)

ANS F310 Indigenous Land Settlements (s) 3 Credits Offered Spring Native corporation goals and methods as they implement the Alaska Native Claims Settlement Act and establish themselves within the larger political economy. An examination of other indigenous land claims agreements in the circumpolar north and beyond. Also available via e-Learning and Distance Education. Prerequisites: ANTH F242 or PS F263 or HIST F110; or permission of instructor. (3+0)

ANS F315 Tribal People and Development (s) 3 Credits Offered Spring Even-numbered Years Impact of socioeconomic development processes on tribal peoples in less developed world societies. Implications of these processes for Alaska Native people. Prerequisites: Junior standing or permission of instructor. Cross-listed with RD F315. (3+0)

ANS F320 W Language and Culture in Alaska (s) 3 Credits Offered Alternate Spring Course surveys relationships between language, culture and society with a special focus on the languages and cultures of Alaska. We review the study of linguistic anthropology; consider cultural variation in the socialization to language; multilingualism; language change, language shift, cultural variation in conversational practices, and relationships between language and identity (gender, ethnicity, nationalism). Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; LING F101. Cross-listed with ANTH F320. (3+0)

ANS F325 Native Self Government (s) 3 Credits Offered As Demand Warrants Indigenous political systems, customary law and justice in Alaska emphasizing the organization of Native governance under federal Indian law and Alaska state-chartered local government. Comparisons between Alaska Native political development and those of tribes in the contiguous 48 states and northern hemisphere tribal people. Prerequisites: HIST F110; PS F263; or permission of instructor. Cross-listed with PS F325. (3+0)

ANS F330 Yup'ik Parenting and Child Development (h) 1 – 3 Credits Offered As Demand Warrants Processes, methods and evaluation of Yup'ik child rearing including how it is affected by other cultures and how these can be integrated into the process. Only offered at Kuskokwim Campus. Prerequisites: PSY F240 or permission of instructor. (1 – 3+0)

ANS F335 Native North Americans (s) 3 Credits Offered As Demand Warrants Interdisciplinary examination of the ecological, cultural, historical and political experiences of Native Americans. Includes archaeological evidence, ethnographic data and indigenous accounts. Readings selected from all of North America with an emphasis on Alaska Natives. Prerequisites: ANS F101; ANS F242; or permission of instructor. (3+0)

ANS F340 Contemporary Native American Literature (h) 3 Credits Offered Fall Contemporary Native American writing in English, including novels, short stories, poetry and plays. Examples of Native American film when related to a written work. Works discussed in relation to cultural contexts and interpretations. Prerequisites: ENGL F111X or permission of instructor. Cross-listed with ENGL F340. (3+0)

ANS F347 Voices of Native American Peoples (h) 3 Credits Offered Spring Even-numbered Years Exploration of the forms by which Native American peoples have narrated their life experiences. Includes oral narratives, written autobiographies, memoirs and speeches, and an introduction to the social, historical and cultural content surrounding these texts. Readings selected from all of North America with an emphasis on Alaska Natives. Prerequisites: ENGL F111X. Cross-listed with ENGL F347. (3+0)

ANS F348 W Native North American Women (s) 3 Credits Offered As Demand Warrants Interdisciplinary examination of the relationship between Native American women and their social settings and cross-cultural experiences. Includes issues of political, economic and social solutions as employed by women in a large multi-ethnic nation-state. Prerequisites: ANS F101; ANTH F100X; ENGL F111X; ENGL F211X or ENGL F213X; SOC F100X; or permission of instructor. Cross-listed with WGS F348. (3+0)

ANS F349 Narrative Art of Alaska Native Peoples (in English Translation) (h) 3 Credits Offered Fall Even-numbered Years Traditional and historical tales by Aleut, Eskimo, Athabaskan, Eyak, Tlingit, Haida and Tsimshian storytellers. Bibliography, Alaska Native gendered viewpoints, and structural and thematic features of tales. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X or permission of instructor. Cross-listed with ENGL F349. (3+0)

ANS F350 WO Cross Cultural Communication: Alaskan Perspectives (s) 3 Credits Offered Fall Culture influences on communication patterns. Examines how misunderstandings may develop from differently organized ways of speaking and thinking when cultures come in contact. Focus on Alaska, with its diversity of cultures and languages, as a microcosm for examining these issues, particularly as they affect Native and non-Native communication in institutional settings. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ANS F351 Practicum in Native Cultural Expression 3 Credits Offered As Demand Warrants Individual supervised activities in advanced organization, promotion and expression of Alaskan Native cultural heritage projects (Festival of Native
Arts leadership, Tuma Theatre, Theata magazine, etc.). Continuation of ANS F251. Graded Pass/Fail. Prerequisites: Permission of instructor. (1 – 3+0)

ANS F360 Advanced Native Dance (h)★★
1 Credit
Offered Spring
Advanced dance techniques with emphasis on the cultural meanings of the performance. Graded Pass/Fail. Prerequisites: ANS F160 or permission of instructor. (1+0+1)

ANS F361 Advanced Alaska Native Performance (h)★★
3 Credits
Offered As Demand Warrants
In-depth study of Alaska Native theatre techniques and tradition, including traditional dance, song and drumming techniques, mask characterization, and performance application and presentation of a workshop production developed by the students during the semester. Prerequisites: ANS/THR F161. Cross-listed with THR F361. (2+3)

ANS F365 Native Art of Alaska (h)★★
3 Credits
Offered Fall
Art forms of the Eskimo, Indian and Aleut from prehistory to the present. Changes in forms through the centuries. Prerequisites: Advanced standing or permission of instructor. Cross-listed with ANTH F365; ART F365. (3+0)

ANS F366 Northwest Coast Indian Art (h)★★
3 Credits
Offered As Demand Warrants
Arts of the Northwest Coast Indians and the place of art in their culture. Cross-listed with ANTH F366; ART F366. (3+0)

ANS F368 Intermediate Native Art Studio (h)★★
3 Credits
Understanding and applying advanced traditional designs and technologies of Native art. Special fees apply. Prerequisites: ART F268 or permission of instructor. Cross-listed with ART F368. (1+4)

ANS F370 Issues in Alaska Bilingual and Multicultural Education
1 Credit
Offered As Demand Warrants
Current issues related to Alaska bilingual and multicultural education. Students must attend all three days of the annual Alaska Bilingual/Multicultural Education and Equity Conference and write a paper reflecting on how they will use information gained from the conference in their own multicultural education context. Course may be repeated for credit since the content of the conference changes each year. Graded Pass/Fail. Prerequisites: Prior course work at the lower-division level. Cross-listed with ED F370. (1+0)

ANS F375 Native American Religion and Philosophy (h)★★
3 Credits
Offered Spring Even-numbered Years
Philosophical aspects of Native American world views. Systems of belief and knowledge, explanations of natural phenomena, relationship of humans to natural environment through ritual and ceremonial observances. Recommended: PHIL F102. (3+0)

ANS F381 W Alaska Natives in Film (h)★★
3 Credits
Offered Spring Odd-numbered Years
Analysis of the portrayal of Alaska’s Inupiaq and Yup’ik peoples (with some on Canada’s Inuit) through select films and readings. Learning to critically analyze films and understanding how various film techniques are accomplished while focusing on feature films’ treatment and use of Northern peoples in film, as well as looking at the social impact of such films. Also available through e-Learning and Distance Education. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Recommended: ART/MUS/THR F200X. Cross-listed with FLM F381. (1.5+2 – 4)

ANS F401 Cultural Knowledge of Native Elders (h)★★
3 Credits
Offered Fall
Study with prominent Native tradition-bearers in Native philosophies, values and oral traditions. Traditional knowledge elicited through the cultural heritage documentation process. Analysis of existing interactions between cultural traditions and contemporary American life as experienced by Native elders. Prerequisites: HIST F110; ANTH F242; upper-division standing. Cross-listed with RD F401. (3+0)

ANS F420 Alaska Native Education (s)★★
3 Credits
Offered Fall
School systems historically serving Native people, current efforts toward local control and the cross-cultural nature of this education. Field experience required. Prerequisites: ANTH F242 or permission of instructor. Stacked with ED F606. (3+0)

ANS F423 Federal Indian Law and Alaska Natives (s)★★
3 Credits
Offered Fall Even-numbered Years
The special relationship between the federal government and Native Americans based on land transactions and recognition of tribal sovereignty. Federal Indian law and policy evolving from this relationship. Legal rights and status of Alaska Natives. Prerequisites: PS F101; HIST F110; or permission of instructor. Recommended: PS F263. Cross-listed with PS F425. (3+0)

ANS F450 Comparative Indigenous Rights and Policies (s)★★
3 Credits
Offered As Demand Warrants
A case-study approach in assessing aboriginal rights and policies in different nation-state systems. Seven aboriginal situations examined for factors promoting or limiting self-determination. Prerequisites: Upper-division standing or permission of instructor. Cross-listed with PS F450. (3+0)

ANS F461 Native Ways of Knowing (h)★★
3 Credits
Offered Spring
Focus on how culture and worldview shape who we are and influence the way we come to know the world around us. Emphasis on Alaska Native knowledge systems and ways of knowing. Prerequisites: Upper-division standing. Cross-listed with ED F461. (3+0)

ANS F468 Advanced Native Art Studio (h)★★
3 Credits
Advanced traditional designs and technologies of Native art. Use of contemporary materials to interpret traditional forms. Special fees apply. Prerequisites: ART F368 or permission of instructor. Cross-listed with ART F468. (3+0)

ANS F472 W Rural Alaska, Natives and the Press (h)★★
3 Credits
Offered As Demand Warrants
Analysis of the historical role rural Alaska and Alaska Natives have played in the statewide press, including Native and non-Native journalists/publishers and their impact on Alaska history and the public mind. Analysis of the rural press, portrayal of rural Alaska in the urban press and the role of cultural journalism. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

ANS F475 Alaska Native Social Change (s)★★
3 Credits
Offered As Demand Warrants
Tradition and change in Native social institutions in contemporary society. Methods of identifying and analyzing significant Native social change processes for public understanding. Prerequisites: ANTH F242 or permission of instructor. (3+0)
# American Sign Language (ASLG) — Anthropology (ANTH)

## ASLG F101  American Sign Language I (h)
3 Credits  Offered As Demand Warrants
Visual-gestural language used by most deaf Americans. Acquisition of receptive and expressive conversational skills. Cultural aspects of everyday life experiences of deaf people. (3+0)

## ASLG F110  American Sign Language Practice (h)
1 Credit  Offered As Demand Warrants
Skill development in use of American Sign Language. Conducted entirely in sign language with aspects of deaf culture included. All skill levels. May be repeated twice for credit. Graded Pass/Fail. (1+0)

## ASLG F202  American Sign Language II (h)
3 Credits  Offered As Demand Warrants
Expressive and receptive conversational skills. Understanding the culture that is an integral part of the language. Continuation of American Sign Language I. Prerequisites: ASLG F101 or permission of instructor. (3+0)

## ASLG F203  American Sign Language III (h)
3 Credits  Offered As Demand Warrants
Grammar, conceptual structure and lexical items of American Sign Language. Cultural awareness and expressive and receptive signing skills for communicating and understanding American Sign Language in diverse contexts. Continuation of ASLG F101 and ASLG F202. Prerequisites: ASLG F202 or permission of instructor. (3+0)

## ASLG F204  American Sign Language IV (h)
3 Credits  Offered As Demand Warrants
Spontaneous and interactive use of American Sign Language. Grammar, structure and lexical components. Cultural aspects supporting communication in American Sign Language at an advanced level. A continuation of ASLG F203. Prerequisites: ASLG F203 or permission of instructor. (3+0)

## ASLG F205  American Sign Language V (h)
3 Credits  Offered As Demand Warrants
Highly advanced analysis of American Sign Language, including classifiers, grammar and lexicon. Expanded receptive and expressive skill development based in extensive cultural knowledge of the Deaf community in America. Prerequisites: ASLG F204 or permission of instructor. (3+0)

## ANTH F100X  Individual, Society and Culture (s)
3 Credits
An examination of the complex social arrangements guiding individual behavior and common human concerns in contrasting cultural contexts. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. (3+0)

## ANTH F101  Introduction to Anthropology (s)
3 Credits  Offered As Demand Warrants
Human societies and cultures based on the findings of the four subfields of the discipline: archaeological, biological, cultural and linguistic. Also available via e-Learning and Distance Education. (3+0)

## ANTH F111  Ancient Civilizations (s)
3 Credits  Offered Fall
Major civilizations of the Old and New World from a comparative, anthropological perspective. Antecedents and influences of these civilizations on their neighbors. Economics, science, religion and social organization of these civilizations. (3+0)

## ANTH F211  Fundamentals of Archaeology (s)
3 Credits  Offered Fall
Methods and techniques of archaeological field and laboratory research. (2+3)

## ANTH F214  World Prehistory (s)
3 Credits  Offered Spring Even-numbered Years
Explores the archaeological evidence from the Old and New Worlds for the development of human culture, from the very beginning of human-kind to the rise of ancient urban societies. Prerequisites: ANTH F100X or ANTH F111 or ANTH F211 or permission of instructor. (3+0)

## ANTH F215  Fundamentals of Social/Cultural Anthropology (s)
3 Credits  Offered Spring
Introduction to the basic concepts, subfields and techniques of social/cultural anthropology. Includes non-Western and Western ethnographic topics, and discussion of career options. Recommended: ANTH F211. (3+0)

## ANTH F221  Fundamentals of Biological Anthropology (s)
3 Credits  Offered Fall
Survey of genetics, evolutionary mechanisms, adaptation, primate studies, the human fossil record and human variation. Provides a basic understanding of humans from a biological, evolutionary and temporal perspective. (3+0)

## ANTH F230  The Oral Tradition: Folklore and Oral History (h)
3 Credits  Offered As Demand Warrants
Study and collection of folklore and oral history. Importance of oral tradition in human communication and the advantages and disadvantages of recording and studying it. Sociocultural anthropology and anthropological linguistics in relation to oral traditions. Methods of folklorists, historians and academicians. Field project required. (3+0)

## ANTH F242  Native Cultures of Alaska (s)
3 Credits
The traditional Aleut, Eskimo and Indian (Athabascan and Tlingit) cultures of Alaska. Eskimo and Indian cultures in Canada. Linguistic and cultural groupings, population changes, subsistence patterns, social organization and religion in terms of local ecology. Pre-contact interaction between groups. Also available via e-Learning and Distance Education. Cross-listed with ANS F242. (3+0)

## ANTH F243  Culture and Global Issues (s)
3 Credits  Offered As Demand Warrants
Introduces students to the anthropological study of globalization and global issues including the deterritorialization of culture, global social movements, culture and capital, immigration and culture, and modern and postmodern approaches to the study of culture and society. Begins with the history of global ethnography, but focuses primarily on contemporary issues. Prerequisites: ANTH F100X. (3+0)

## ANTH F301  World Ethnography (s)
3 Credits  Offered Spring Even-numbered Years
Survey of ethnographic research on peoples and cultures of selected geographic regions of the world, in both historical and contemporary perspective. Content of the course varies and is contingent on available faculty expertise. Course may be repeated once for credit when content varies. Prerequisites: ANTH F100X or permission of instructor. (3+0)

## ANTH F302  Siberia: Past, Present, Future (s)
3 Credits  Spring Even-numbered Years
Survey of anthropological research on peoples and cultures of Siberia, including the Russian Far East. This includes sections on prehistory and colonial history of the region, as well as a major focus on contemporary lives and future prospects. While the emphasis is on the indigenous peoples of Siberia, settler populations will be discussed as well. Prerequisites: ANTH F100X or permission of instructor. (3+0)
ANTH F308 W,O Language and Gender (s) 3 Credits Offered Fall Odd-numbered Years Examination of relationships between language and gender, drawing on both ethnographic and linguistic sources. Topics include power, socialization and sexism. Prerequisites: COMM F313X or COMM F414X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with LING F308; WGS F308. (3+0)

ANTH F309 Circumpolar Archaeology (s) 3 Credits Offered Fall Odd-numbered Years Archaeology of the circumpolar world from initial occupations through the historic period. Cultural and chronological variability in human adaptation to high latitudes. Causes and consequences of population movement, environmental change and cultural interaction in the Old and New World, as understood through archaeology. Prerequisites: Permission of instructor. (3+0)

ANTH F315 Human Variation (n) 3 Credits Offered Spring Even-numbered Years Biology of recent and modern human populations, including systematics, behavior, ecology and inter- and intrapopulation genetic and morphological variations. Human adaptations to heat, cold, high altitudes and changing nutritional and disease patterns. Human skeletal biology, including metrical and non-metrical variation, aging and sexing skeletal remains, and paleopathology. Prerequisites: ANTH F221 or BIOL F103X. (2+3)

ANTH F317 Human Growth and Development 3 Credits Offered As Demand Warrants Life-span approach to physiological and cognitive growth and development in fossil through modern humans. Begins with a summary of human biology and genetics. Proceeds through major phases in life: prenatal, infancy, childhood, adolescence, adult and old age. Includes detailed soft and hard tissue developments in these phases of life. Prerequisites: ANTH F221. (3+0)

ANTH F320 W Language and Culture in Alaska (s) 3 Credits Offered Alternate Spring Course surveys relationships between language, culture, and society with a special focus on the languages and cultures of Alaska. We review the study of linguistic anthropology, consider cultural variation in the socialization to language, multilingualism, language change, language shift, cultural variation in conversational practices and relationships between language and identity (gender, ethnicity, nationalism). Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; LING F101; or permission of instructor. Cross-listed with ANTH F320. (3+0)

ANTH F365 Native Art of Alaska (h) 3 Credits Offered Fall Art forms of the Eskimo, Indian and Aleut from prehistory to the present. Changes in forms through the centuries. Prerequisites: Advanced standing or permission of instructor. Cross-listed with ANTH F365; ART F365. (3+0)

ANTH F384 History of Anthropology 3 Credits Offered Fall Major theoretical approaches in anthropology chronologically from formulation of the discipline of anthropology to current theory. Nature of the discipline, its goals and methods, and the relevance of theoretical perspectives to interpretations in anthropology. Prerequisites: ANTH F215 or permission of instructor. (3+0)

ANTH F403 W,O Political Anthropology (s) 3 Credits Offered Spring Odd-numbered Years Political systems and the law: Case studies from nonindustrial societies, developing nations and parapolitical systems or encapsulated societies, such as Native peoples in the U.S. Political structures and institutions; social conflict, dispute settlement, social control and the law, political competition over critical resources; and ethnicity. Prerequisites: ANTH F215; COMM F313X or COMM F414X; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Stacked with ANTH F603. (3+0)

ANTH F405 W Archaeological Method and Theory (s) 3 Credits Offered Spring Even-numbered Years Archaeological methods and analysis as the framework for different perspectives in anthropology. Application to specific research problems. Prerequisites: ANTH F211; ENGL F111X; ENGL F211X; or ENGL F213X. Stacked with ANTH F605. (3+0)

ANTH F407 Kinship and Social Organization (s) 3 Credits Offered Spring Even-numbered Years Forms of relatedness in diverse sociocultural systems. Principles of organizing individuals into social groups and roles. Forms and functions of family, marriage, incest taboos around the world. Classical and new approaches to the study of kinship; alliance theory, symbolic kinship, kinship and gender, the substance of kinship, kinship and biotechnology. Prerequisites: ANTH F215 or permission of instructor. Stacked with ANTH F607. (3+0)

ANTH F409 Anthropology of Religion (s) 3 Credits Offered Fall Odd-numbered Years Religion or supernatural belief from the perspective of anthropology. Religion in the context of circumpolar societies as well as a global phenomenon. Religious practitioners, ritual, belief systems and the relationship of religious phenomena to other aspects of social life. New relational and cognitive approaches to the study of religion. Prerequisites: ANTH F100X; ANTH F215; or permission of instructor. Stacked with ANTH F609. (3+0)

ANTH F411 O Senior Seminar in Anthropology (s) 3 Credits Offered Spring The integrated nature of anthropological inquiry. Includes a four-field approach to anthropology in a discussion-intensive setting. Student may focus on an interdisciplinary theme or a topic other than their own specialization. Prerequisites: COMM F313X or COMM F414X, Anthropology major with senior standing, or permission of instructor. (3+0)

ANTH F412 Human-Environment Research Methods 3 Credits Offered Spring Overview of qualitative and quantitative social science methods for studying human-environment relationships. Introduction to research ethics, research design, data collection, data analysis and data reporting. Methods and data analysis techniques include interviews, text analysis, surveys, scales, cognitive anthropology and ethnography, social networks, behavioral observation, and visual methods. Provides hands-on training in data collection and data analysis software. Prerequisites: FISH 411; junior or senior standing; or permission of instructor. Cross-listed with ANTH F412. (3+0)

ANTH F415 Zooarchaeology and Taphonomy 3 Credits Offered Fall Even-numbered Years Identification of bones, how vertebrate bone remains may be used to study archaeological site formation processes, site organization, subsistence practices and animal procurement strategies. Preservation in modern depositional environments, paleoecology, vertebrate mortality profiles and demographic structure, site seasonality, bone breakage, taphonomy and faunal remains, and human land use practices. (2+3)

ANTH F422 Human Osteology 3 Credits Human skeletal analysis: bone biology, skeletal anatomy, aging and sexing, metric and non-metric traits of skeleton and dentition, paleopathology and paleodemography. Inferences on genetic relationships between and patterned behavior within prehistoric groups derived from skeletal material. Prerequisites: ANTH F221 or permission of instructor. Stacked with ANTH F625. (3+0)

ANTH F423 Human Origins 3 Credits Offered Spring Odd-numbered Years Analysis of the Plio-Pleistocene hominid fossil record, including comparative primate and hominid skeletal and dental anatomy, systematics, taphonomy and long-term biobehavioral adaptations. Prerequisites: ANTH
**ANTH F432  Field Methods in Descriptive Linguistics (h)**  
3 Credits  
Offered Fall Odd-numbered Years  
Introduction to general issues in language field work and to issues specific to working with little studied and/or endangered languages in particular. Focus on introduction to writing systems, making recordings, computers and transcriptions, planning consultant sessions, working with consultants, interviewing and ethics in the field. Projects include making transcriptions of familiar language, and later, working on unfamiliar language with a language consultant, selecting and carrying out a well-defined project, resulting in a term paper. **Prerequisites:** LING F311X; LING F211X or LING F213X; junior standing; or permission of instructor. Cross-listed with LING F431. (3+0)

**ANTH F434  Field Methods in Descriptive Linguistics II**  
3 Credits  
Offered Fall Odd-numbered Years  
Second semester of Field Methods sequence. Plan a linguistic field project, including field trip, caring for equipment, data handling, community contacts, intellectual property and repatriation. Course work includes lectures and group elicitation with a speaker of a non-Indo-European language. Projects may involve either the traditional field work involving finding and working with a consultant, or work involving research in archival materials on languages no longer spoken. **Prerequisites:** LING F431 or ANTH F432. Cross-listed with LING F434. (3+0)

**ANTH F445  Gender in Cross-Cultural Perspective (s)**  
3 Credits  
Offered Spring Even-numbered Years  
Gender as both cultural construction and social relationship is examined through readings in comparative ethnographies portraying gender roles in a broad variety of societies, from hunter-gatherer to industrial. New theoretical and methodological approaches in anthropology for exploring and understanding the experiences of women and men in their cultural variety are presented. **Prerequisites:** ANTH F215 or WGS F201 or permission of instructor. Cross-listed with WGS F445. (3+0)

**ANTH F446  Economic Anthropology (s)**  
3 Credits  
Offered Fall Even-numbered Years  
Relationships between economic and other social relations. Pre-industrial societies. Relevance of formal economics to small-scale societies and developing nations. Exchange, formal and substantive economics, market economics, rationality, political economy and the economics of development. **Prerequisites:** A cultural anthropology class or permission of instructor. Stacked with ANTH F646. (3+0)

**ANTH F451  Quaternary Seminar**  
3 Credits  
Offered As Demand Warrants  
Discussion of the Quaternary Period (relatively recent past - spanning the past two million years) in order to gain a better understanding of the landscape, biota and climate of the present day. Quaternary studies are concerned with the historical dimension of the natural sciences. This seminar will range widely over diverse interdisciplinary subjects of Quaternary interest, such as paleoclimatology, paleoecography, vertebrate paleontology, and sedimentology. **Prerequisites:** GEOS F315; GEOS F304; GEOS F322. Cross-listed with GEOS F452. (3+0)

**ANTH F460  Cross-Cultural Filmmaking (h)**  
3 Credits  
Offered Fall Odd-numbered Years  
The use of film as a documentary tool for describing and understanding scientific and cultural phenomenon has led to the education of generations. Understanding the implications of our film work with a theoretical base for cultural understanding, scientific need and educational potentials will strengthen the film's integrity and production methods in creating video documents useful as a scientific/cultural record. Pre-production will include research of archival visual media, oral histories and print materials; analysis of educational and scientific funding and distribution options and preliminary interviews, location scouting and film treatment. Production will include time on location with small film crews, media logging and record keeping. Post-production will include basic editing of sequences for distribution. **Prerequisites:** Junior, senior or graduate standing or permission of instructor. Cross-listed with ART F460 and FLM F460. (3+0)

**ANTH F465  Geoarchaeology**  
3 Credits  
Offered As Demand Warrants  
Geological context of archaeological sites and the geologic factors that affect their preservation, with emphasis on Alaska. Includes a one or two-day weekend field trip in late April or early May. Special fees apply. **Prerequisites:** GEOS F101X, an introductory course in archaeology, or permission of instructor. Cross-listed with GEOS F465. (3+0)

**ANTH F470  Oral Sources: Issues in Documentation (h)**  
3 Credits  
Offered Alternate Fall  
Preparation for recording and use of oral resources. Examines how meaning is conveyed through oral traditions and personal narratives and the issues involved with recording and reproducing narratives. Includes management of oral recordings, ethical and legal considerations, issues of interpretation and censorship, and the use of new technologies to access and deliver recordings. **Prerequisites:** At least one undergraduate ANTH course and one undergraduate HIST course, or permission of instructor. Cross-listed with NORS F470. (3+0)

**ANTH F472  Culture and History in the North Atlantic (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
Ancient Norse culture and society. Includes readings of Old Norse poetry and Icelandic sagas in translation, with secondary analyses and archaeological background. Includes Greenlandic myths and contemporary ethnographic accounts of Iceland, Greenland and the Faroe Islands. **Prerequisites:** ANTH F100X. Recommended: ANTH F215. (3+0)

**ANTH F603  Political Anthropology**  
3 Credits  
Offered Spring Odd-numbered Years  
Political systems and the law. Case studies from nonindustrial societies, developing nations and parapolitical systems or encapsulated societies, such as Native peoples in the United States and Canadian and other indigenous peoples. **Prerequisites:** ANTH F306. Recommended: ANTH F215. (3+0)

**ANTH F605  Archaeological Method and Theory**  
3 Credits  
Offered Spring Even-numbered Years  
Archaeological methods and analysis as the framework for different perspectives in archaeology. Application to specific research problems. **Prerequisites:** ANTH F211 or permission of instructor. Stacked with ANTH F405. (3+0)
ANTH F606  Folklore and Mythology: Anthropological Perspective  
3 Credits  
Offered As Demand Warrants  
Intensive introduction to anthropology theory concerning oral traditions and the verbal arts. Attention is paid to classic historical approaches, but discussion of contemporary focus on context and performance is highlighted. Students will research topics of individual interest. Prerequisites: Upper-division undergraduate anthropology course or permission of instructor. (3+0)

ANTH F607  Kinship and Social Organization  
3 Credits  
Offered Spring Even-numbered Years  
Forms of relatedness in diverse sociocultural systems. Principles of organizing individuals into social groups and roles. Forms and functions of family, marriage, incest taboo around the world. Classical and new approaches to the study of kinship; alliance theory, symbolic kinship, kinship and gender, the substance of kinship, kinship and biotechnology. Prerequisites: Graduate standing or permission of instructor. Stack with ANTH F407. (3+0)

ANTH F609  Anthropology of Religion  
3 Credits  
Offered Fall Odd-numbered Years  
Religion or supernatural belief from the perspective of anthropology. Religion in the context of circumpolar societies as well as a global phenomenon. Religious practitioners, ritual, belief systems and the relationship of religious phenomena to other aspects of social life. New relational and cognitive approaches to the study of religion. Prerequisites: Graduate standing or permission of instructor. Stacked with ANTH F409. (3+0)

ANTH F610  Northern Indigenous Peoples and Contemporary Issues  
3 Credits  
Offered Fall Odd-numbered Years  
This course examines a number of issues affecting northern indigenous peoples from a comparative perspective, including perspectives from Alaska, Canada, Greenland and the Soviet Union. Issues include the impact of the alienation of land on which these peoples depend; the relationship between their small, rural microeconomies and the larger agroindustrial market economies of which they are a part; education, language loss and cultural transmission; alternative governmental policies towards indigenous peoples; and contrasting world views. Prerequisites: Graduate standing or upper-division standing with permission of instructor. Cross-listed with NORS F610. (3+0)

ANTH F612  Paleoenecology  
3 Credits  
Offered As Demand Warrants  
Advanced study of Quaternary environments. The influences of climatic change and the interrelationships of physical and biological factors on the distribution and evolution of biota, including humans, will be discussed. Prerequisites: Graduate standing or permission of instructor. (3+0)

ANTH F616  Anthropologic Background for Resilience and Adaptation  
1 Credit  
Offered Fall  
Provides the anthropological background that is necessary for understanding the role of anthropology in complex systems involving interactions among biological, economic, and social processes. Designed for incoming students of the Resilience and Adaptation Program (RAP), who have not received training in anthropology. Prerequisites: Graduate student enrollment or permission of instructor. (1+0)

ANTH F617  Resilience Internship  
2 Credits  
Offered Fall  
Students of the Resilience and Adaptation Program participate in internships to broaden their interdisciplinary training, develop new research tools and build expertise outside their home disciplines. Internships are for eight to ten weeks of full time commitment and take place during the student’s first summer in the program. In autumn students meet to discuss their internship experiences and make public presentations. Prerequisites: ANTH/BIO/ECON/NRM F667; ANTH/BIO/ECON/NRM F668; or permission of instructor. Cross-listed with BIOI F613; ECON F613; NRM F613. (2+0)

ANTH F623  Human Origins  
3 Credits  
Offered Spring Odd-numbered Years  
Analysis of the Plio-Pleistocene hominid fossil record, including comparative primate and hominid skeletal and dental anatomy, systematics, taphonomy and long-term biobehavioral adaptations. Prerequisites: Graduate standing or permission of instructor. Stacked with ANTH F423. (2+3)

ANTH F624  Analytical Techniques  
3 Credits  
Offered Fall Even-numbered Years  
Classification, sampling, collection and analysis of anthropological data: parametric and nonparametric significance tests and measures of association, analysis of frequency data, estimating resemblance using multiple variables, computer simulations and analysis. Prerequisites: Graduate standing in Anthropology. Stacked with ANTH F424. (3+0)

ANTH F625  Human Osteology  
3 Credits  
Offered Fall Odd-numbered Years  
Human skeletal analysis: bone biology, skeletal anatomy, aging and sexing, metric and non-metric traits of skeleton and dentition, paleopathology, and paleodemography. Inferences on genetic relationships between and patterned behavior within prehistoric groups derived from skeletal material. Prerequisites: ANTH F315; graduate standing; or permission of instructor. Stacked with ANTH F425. (3+0)

ANTH F626  Bioarchaeology  
3 Credits  
Offered Spring Even-numbered Years  
Innovative methods for studying past interactions between biological and cultural factors as revealed through human and faunal skeletal and plant remains. From these data sources, health, diet, social organization and interactions and life histories of past populations, as well as the environments in which they lived, are reconstructed and examined. Prerequisites: Graduate standing; or permission of instructor. Recommended: ANTH F413; ANTH F625. (3+0)

ANTH F629  Structures of Anthropological Argument  
3 Credits  
Offered Fall  
Reading and analysis of examples from various paradigms in anthropology, past and present. Presents a thorough grounding in forms of anthropological argument and preparation for the research and writing process. Includes evolutionary, Boasian, structural-functional, structural as well as subdisciplinary linguistic, archaeological and biological forms of argument. Prerequisites: Graduate standing or permission of instructor. (3+0)

ANTH F630  Anthropological Field Methods  
3 Credits  
Offered Spring Odd-numbered Years  
Concentration on the practical concerns and aspects of conducting anthropological field research. Includes the relevant literature and significant discussions on the different aspects of fieldwork. In addition, students will gain practical experience in the problems, techniques and methods of fieldwork involving people from similar or distinct cultural backgrounds. The preparation of research proposals is also given attention. Prerequisites: Graduate standing in Anthropology or permission of instructor. (3+0)

ANTH F631  Linguistic Anthropology: Language, Thought, and Action  
3 Credits  
Offered Spring Even-numbered Years  
Language and social life. Course surveys the history of linguistic anthropology and the methods and questions that have driven and distinguished the field. Topics include descriptive and structural linguistics, historical linguistics, ethnographic approaches to the study of language and culture, language and action, ethnoscientific and cognitive anthropology, linguistic relativity, semiotics, and language ideologies. Prerequisites: Graduate standing (3+0)

</table>
ANTH F672  Culture and History in the North Atlantic  
3 Credits  
Offered Spring Odd-numbered Years  
Study of ancient Norse culture and society. Includes readings of Old Norse poetry and Icelandic sagas in translation, with secondary analyses and archaeological background. Includes Greenlandic myths and contemporary ethnographic accounts of Iceland, Greenland and the Faroe Islands.  
Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F672. (3+0)

ANTH F675  Political Ecology of the Oceans  
3 Credits  
Offered Alternate Spring  
Introduction to the field of political ecology in the marine sphere. Topics include the sociology of scientific knowledge, traditional and local ecological knowledge, politics of resource management, processes of marine enclosure, environmental values, marine conservation, environmental justice, and colonialism and economic development. Prerequisites: Graduate standing or permission of instructor. Cross-listed with FISH F675. (3+0)

ANTH F680  Marine Sustainability Internship  
2 Credits  
Offered Fall  
Internship program in marine ecosystem sustainability to broaden students’ interdisciplinary training, develop new research tools, build expertise outside their home discipline, gain exposure to careers, and gain a unique perspective on research problems. Internships are for a minimum of 8 weeks and take place during the summer. In the autumn students report on and meet to discuss their internship experiences. Prerequisites: MSL F680 or permission of instructor. Cross-listed with FISH F680. (0+0+5 – 16)

APAR F107  Beading  
1 Credit  
Offered As Demand Warrants  
Application of beads to various materials, three kinds of stitches and use of a bead loom. (1+1)

APAR F140  Clothing Construction  
1 Credit  
Offered As Demand Warrants  
Techniques of clothing construction for the home sewer. Development of sewing skills necessary to create garments for the beginner as well as the more experienced sewer. (1+0)

APAR F150  Introduction to Traditional Crafts  
1 – 3 Credits  
Offered As Demand Warrants  
Introduction to traditional crafts such as basket weaving, birch bark basket-making, beading, carving, canoe or kayak making, etc. Topics vary based on community need and interest and will be identified each semester. Course may be repeated for credit with each new topic. (1 – 3+0)

APAR F157  Skin Sewing  
1 – 2 Credits  
Offered As Demand Warrants  
Fundamentals of skin sewing. Projects (e.g. slippers, mukluks, mittens, fur hats, vests and ruffs) dependent upon student ability and experience. (1 – 2+0)

ABUS F051  Bookkeeping For Business  
3 Credits  
Offered As Demand Warrants  
Basic concepts and procedures of practical bookkeeping. Recording and reporting financial data for service and merchandising business. Covers businesses owned by one individual only (sole proprietorships.) Special fees apply. (3+0)

ABUS F070  Job Readiness Skills  
1 Credit  
Pre-employment and human relation skills necessary for job success, including how to identify career choices and employment opportunities; how to prepare a resume, job applications, cover and follow-up letters; and how to develop human relation skills. The student will select, prepare and be interviewed for jobs which match his/her skills identified through a self-assessment inventory. Offered at Northwest Campus. Also offered pass/fail as ABUS F070P. Special fees apply. (1+0)

ABUS F101  Principles of Accounting I  
3 Credits  
Accounting concepts and procedures for service businesses and for merchandising businesses owned by a single proprietor. A preparer’s approach emphasizes the use of debits and credits to account for the details of business transactions. Also available via e-Learning and Distance Education. (3+0)

Supervised training and work experience (local or foreign study abroad). Analysis of work experience and relationship of the job to career and academic goals. Managerial concepts, problems of working with groups and individuals, organizational structures, communications and planning. Prerequisites: Permission of instructor. (0+0)

ART F101 Introduction to Ceramics 3 Credits Offered As Demand Warrants
Making and firing clay objects. Study of clay methods, forming decorations, glazing and firing. For beginning students only. (3+0)

ART F104 Introduction to Drawing 1 – 3 Credits Offered As Demand Warrants
Still life, portrait, interior and landscape compositions using basic drawing materials. Emphasizes self-expression by developing spontaneous artistic ideas into a more focused style. For the student with little or no training in drawing to explore his or her drawing abilities. (1 – 3+0)
ART F105  Beginning Drawing (h)  
3 Credits  
Basic elements in drawing. Emphasis on a variety of techniques and media. Special fees apply. (1+4)

ART F127  Introduction to Weaving (h)  
3 Credits  
Fundamentals of weaving taught through basic techniques and processes for four-shaft loom woven structures. Includes loom terminology and function, warping and threading, basic pattern drafting and designing, color and texture. Introduces tapestry techniques. Special fees apply. (1+4)

ART F161  Two-Dimensional Design (h)  
3 Credits  
Fundamentals of pictorial form; principles of composition, organization, and structure. Special fees apply. (1+4)

ART F162  Color and Design (h)  
3 Credits  
Fundamentals of color principles and interactions. Emphasis on two dimensions. Special fees apply. (1+4)

ART F163  Three-Dimensional Design (h)  
3 Credits  
Provides an introduction to fundamental concepts and organization of three-dimensional forms, which include but are not limited to the applied arts and industrial design. Various materials such as clay, glass, metal and wood will be utilized. Special fees apply. (1+4)

ART F172  Previsualization and Preproduction for Digital Cinema (h)  
3 Credits  
Offered Spring Even-numbered Years  
Previsualization is a collaborative process that generates preliminary versions of shots or sequences, predominantly using 3D animation tools and a virtual environment. It enables filmmakers to visually explore creative ideas, plan technical solutions and communicate a shared vision for efficient production. Laying a foundation for cinema production, this course will explore screenwriting, storyboarding, previsualization animation, animatics and film pre-production approaches. This course will focus on developing original stories for animation or dramatic film productions and preparing those concepts for cinematic production. Cross-listed with THR F172 and FML F172. (3+0)

ART F200X  Aesthetic Appreciation: Interrelation of Art, Drama, and Music (h)  
3 Credits  
Understanding and appreciation of art, drama, and music through an exploration of their relationships. Topics include the creative process, structure, cultural application and diversity, the role of the artist in society, and popular movements and trends. Prerequisites: placement in ENGL F111X or higher; sophomore standing; or permission of instructor. Cross-listed with MUS F200X; THR F200X. (3+0)

ART F201  Beginning Ceramics (h)  
3 Credits  
Foundation experience with clay. Overview of the medium of ceramics and its possibilities. Special fees apply. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F205  Intermediate Drawing (h)  
3 Credits  
Exploration of pictorial composition and creative interpretation of subjects. Special fees apply. Prerequisites: ART F105. (1+4)

ART F207  Beginning Printmaking (h)  
3 Credits  
Concepts and techniques of printmaking. Subject areas taken from relief, intaglio, serigraphy and lithography. Special fees apply. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F209  Beginning Metalsmithing and Jewelry (h)  
3 Credits  
Basic techniques of fine metalsmithing and jewelry. Special fees apply. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F211  Beginning Sculpture (h)  
3 Credits  
Basic sculpture techniques and principles. Special fees apply. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F213  Beginning Painting (Acrylic or Oil) (h)  
3 Credits  
Basic materials and techniques in either medium. Pictorial principles and organization of paintings. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F223  Watercolor Painting (h)  
3 Credits  
Offered As Demand Warrants  
Painting in various transparent and opaque media (watercolor, tempera, polymer, casein). Emphasis on techniques and subjects. Prerequisites: ART F105; ART F161 or ART F162 or ART F163; or permission of instructor. (1+4)

ART F227  Woven Fabric Design (h)  
3 Credits  
Continuation of ART F127. Exploration of color and texture in loom structures. Includes basic fiber technology and color theory. Topics vary each semester and include blocks, units, laces, twills and R.A.G.S. recycle. Course may be repeated for credit when topic changes. Prerequisites: ART F127. (1+4)

ART F233  Beginning Field Painting (h)  
1 Credit  
Offered As Demand Warrants  
Introductory course consists of three or four days painting at outdoor locations, usually in the summer. Lectures and directed study are used to establish student understanding of landscape painting from drawing and/or small painted studies to finished oil and acrylic paintings. Use of basic painting and drawing materials will be covered. Concepts of space, light, color, composition, scale and specific elements of landscape paintings such as water, reflections, skies, aerial and linear perspective will be addressed. Sessions will be in the field with some supporting sessions in the studio. Courses in the past have been held at Denali, McCarthy, Brooks Range, Valdez and Cordova. Recommended: ART F105; ART F213. (0.5+1.5)

ART F247  Introduction to Theatrical Design (h)  
3 Credits  
Offered Fall  
Introduction to all the design elements used in the theatre. Analysis of line, texture, color, and how they relate to designing for the theatre including costumes, scenery and lighting. Cross-listed with THR F247. (3+0)

ART F261  History of World Art (h)  
3 Credits  
Offered Fall  
Origins of art and its development from the beginning through contemporary painting, sculpture and architecture. ART F261 – F262 may be taken in reverse order; however, course content is presented in a chronological sequence beginning with fall semester. Prerequisites: Sophomore standing. (3+0)

ART F262  History of World Art (h)  
3 Credits  
Offered Spring  
Origins of art and its development from the beginning through contemporary painting, sculpture and architecture. ART F261 – F262 may be taken in reverse order; however, course content is presented in a chronological sequence beginning with fall semester. Prerequisites: Sophomore standing. (3+0)
ART F268  Beginning Native Art Studio  
3 Credits  
Understanding and applying the traditional designs and technologies of Native art. Special fees apply. Prerequisites: ART F105 or permission of instructor. Cross-listed with ANS F268. (1+4)

ART F283  Basic Darkroom Photography  
3 Credits  
Photography fundamentals, including use of an adjustable camera, film and exposure techniques, filters and flash techniques, and an introduction to darkroom procedures including black and white film processing and printing, photograph design and composition. Students must have use of an adjustable camera. Special fees apply. Cross-listed with JRN F203. (2+3)

ART F284  Basic Digital Photography  
3 Credits  
Introduction to the technical and aesthetic aspects of basic digital photography via digital SLR cameras and editing through digital photo suites such as Adobe Photoshop. Students are expected to have intermediate computer knowledge. Topics include controlling digital SLRs on manual settings, photographing creatively, basic and advanced editing techniques, negative scanning and digital printing. Special fees apply. Cross-listed with JRN F204. (3+0)

ART F301  Intermediate Ceramics  
3 Credits  
Continuation of beginning ceramics. Emphasis on developing proficiency in ceramic studio practices and processes. Special fees apply. Prerequisites: ART F201 or permission of instructor. (1+4)

ART F305  Advanced Drawing  
3 Credits  
Offered Spring  
Development and refinement of individual problems in drawing. Can be repeated for credit with permission of instructor. Special fees apply. Prerequisites: ART F205 or permission of instructor. (1+4)

ART F307  Intermediate Printmaking  
3 Credits  
Continuation of ART F207 with emphasis on refinement of technique and color printing. Special fees apply. Prerequisites: ART F207 or permission of instructor. (1+4)

ART F309  Intermediate Metalsmithing and Jewelry  
3 Credits  
Further investigation of material processes and techniques; some emphasis on design. Special fees apply. Prerequisites: ART F209 or permission of instructor. (1+4)

ART F311  Intermediate Sculpture  
3 Credits  
Exploration in materials and concepts of sculpture. Emphasis on personal creativity and skill development. Special fees apply. Prerequisites: ART F211 or permission of instructor. (1+4)

ART F313 O  Intermediate Painting  
3 Credits  
Continued development of expressive skills in painting in any media. Emphasis on pictorial and conceptual problems. Prerequisites: ART F213; COMM F131X or COMM F141X. (1+4)

ART F324  Watercolor Painting and Composition  
3 Credits  
Offered Every Third Spring  
Development of individual approach to watercolor media. Can be repeated for credit with permission of instructor. Prerequisites: ART F223. (1+4)

ART F333  Intermediate Field Painting  
1 Credit  
Offered As Demand Warrants  
Intermediate course consists of three or four days painting at outdoor locations, usually in the summer. Lectures and directed study are used to broaden student understanding of landscape painting from drawings and/or small painted studies to finished oil and acrylic paintings. Concepts of space, light, color, composition, scale and specific elements of landscape paintings such as water, reflections, skies, aerial and linear perspective will be addressed. Sessions will be in the field with some supporting sessions in the studio. Courses in the past have been held at Denali, McCarthy, Brooks Range, Valdez and Cordova. Prerequisites: ART F213 or ART F233. Recommended: ART F105; ART F205. (0.5+1.5)

ART F347 O  Lighting Design  
3 Credits  
Offered Fall  
Even-numbered Years  
Principles and techniques of theatrical lighting design. The student will conduct practical experiments and design projects applying the experience gained. Student will spend approximately $40 for materials for this class. Also available via e-Learning and Distance Education. Prerequisites: COMM F131X or COMM F141X; THR F343; or permission of instructor. May be taken concurrently with THR F343. Cross-listed with FLM F347; JRN F347; THR F347. (3+0)

ART F363 W  History of Modern Art  
3 Credits  
Offered Spring  
Odd-numbered Years  
Development of modern art forms and theories in the visual arts from the late 19th century to the present. Concentration on the artistic pluralism of 20th century art forms: Cubism, Futurism, Surrealism, Expressionism, Constructivism, Nonobjective Art, Abstract Expressionism, Pop Art, Realism and many other “isms.” Prerequisites: ART F262; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

ART F364 W  Italian Renaissance Art  
3 Credits  
Offered Spring  
Even-numbered Years  
Development of the Renaissance from early Florentine to the High Renaissance of Venice. Study of art by Masaccio, Michelangelo, DaVinci, Titian, etc. Prerequisites: ART F261; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

ART F365 W  Native Art of Alaska  
3 Credits  
Offered Fall  
Changes in forms through the centuries. Prerequisites: Advanced standing in art. Art forms of the Eskimo, Indian and Aleut from prehistory to the present. Cross-listed with ANS F365; ANTH F365. (3+0)

ART F368  Intermediate Native Art Studio  
3 Credits  
Understanding and applying advanced traditional designs and technologies of Native art. Special fees apply. Prerequisites: ART F268 or permission of instructor. Cross-listed with ANS F368. (1+4)

ART F371 O  Digital Photography and Pixel Painting  
3 Credits  
An introduction to the world of digital imaging with applications in fine and commercial art. It is expected that students will become competent at creating real-looking images of impossible subjects as well as detecting their creation by others. The varied ethical issues engendered by this expertise will be addressed in depth. Students will be required to gain proficiency in visual design for electronic and print publication. Special fees apply. Prerequisites: COMM F131X or COMM F141X; Macintosh OS or Windows OS experience with graphic applications; one college level studio art course. Cross-listed with JRN F371; FLM F371. (1+4)

ART F401  Advanced Ceramics  
3 Credits  
Emphasis on developing as aesthetically perceptive and technically proficient ceramic artist. Individual and group projects include kiln firings. May be repeated for credit with permission of instructor. Special fees apply. Prerequisites: ART F301 or permission of instructor. (1+4)
ART F407 O Advanced Printmaking (h) 
3 Credits
Individual development of technical and creative processes. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F307; COMM F131X or COMM F141X. (1+4)

ART F409 Advanced Metalsmithing and Jewelry (h) 
3 Credits
Materials and processes; introduction to holloware skills and forging. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F309 or permission of instructor. (1+4)

ART F411 Advanced Sculpture (h) 
3 Credits
Principles, practices and concepts of sculpture. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F311 or permission of instructor. (1+4)

ART F413 O Advanced Painting (h) 
3 Credits
Individual experimentation and technical/conceptual development in painting. Can be repeated for credit with permission of instructor. 
Prerequisites: ART F313; COMM F131X or COMM F141X. (1+4)

ART F417 Lithography (h) 
3 Credits
Offered Every Third Spring
An exploration of stone and metal plate lithography. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F105; ART F207; or permission of instructor. (1+4)

ART F419 Life Drawing (h) 
3 Credits
Drawing from life; study of artistic anatomy. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F305 or permission of instructor. (1+4)

ART F424 O Field Artists of the North (h)† 
3 Credits
Offered As Demand Warrants
Study of field artists and their work, from the explorer artists of yester-year to today's field artists using a variety of traditional and contemporary media in their creations. Students will conceive and conduct their own study projects, producing a body of work that will demonstrate the principles and practice of a field artist. 
Prerequisites: ART F105; a studio art course (ART F161, ART F162, ART F163, ART F205, ART F211, ART F213 or JRN F203); COMM F131X or COMM F141X. Stacked with ART F624; NORS F624. (3+0)

ART F425 W Visual Images of the North ✱ 
3 Credits
Examination of the imagery of the people and landscapes of the polar regions, centering on such issues as depiction of arctic peoples and customs by Europeans, documentary versus artistic goals, translations from original sketches to published images, relationship of polar imagery to prevailing historical styles and the influence of changing world views on modes of polar representation between the 16th and 20th centuries. 
Prerequisites: ENGL F111X; ENGL F211X or F213X; or permission of instructor. Cross-listed with NORS F425. (3+0)

ART F427 Relief (h) 
3 Credits
Offered Every Third Fall
Woodcut and monotype with emphasis on color. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F105; ART F207; ART F213; or permission of instructor. (1+4)

ART F433 Advanced Field Painting (h) 
1 Credit
Offered As Demand Warrants
Advanced course consists of three or four days painting at outdoor locations, usually in the summer. Lectures and directed study are used to broaden and develop student understanding of landscape painting from drawings and/or small painted studies to finished oil and acrylic paintings. Concepts of space, light, color, composition, scale and specific elements of landscape paintings such as water, reflections, skies, aerial and linear perspective will be addressed. Emphasis will be on individual experimentation and technical/conceptual development. Sessions will be held in Studio 4 with some support in Cordova. Courses have been held at Denali, McCarthy, Brooks Range, Valdez and Cordova. 
Prerequisites: ART F313 or ART F333. (0.5+1.5)

ART F437 Intaglio (h) 
3 Credits
Intaglio printmaking with emphasis on experimentation and color photo intaglio printing. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F105; ART F162; ART F207; or permission of instructor. (1+4)

ART F447 Silkscreen (h) 
3 Credits
Offered As Demand Warrants
Silkscreen printing with photo process. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F105; ART F162; ART F207; or permission of instructor. (1+4)

ART F453 Kiln Design and Construction (h) 
3 Credits
Offered As Demand Warrants
Kiln design and construction including building and firing a kiln. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F201 or permission of instructor. (1+4)

ART F460 Cross-Cultural Filmmaking (h) 
3 Credits
Offered Fall Odd-numbered Years
The use of film as a documentary tool for describing and understanding scientific and cultural phenomenon has led to the education of generations. Understanding the implications of our film work with a theoretical base for cultural understanding, scientific need and educational potentials will strengthen the film's integrity and production methods in creating video documents useful as a scientific/cultural record. Pre-production will include research of archival visual media, oral histories and print materials; analysis of educational and scientific funding and distribution options and preliminary interviews, location scouting and film treatment. Production will include time on location with small film crews, media logging and record keeping. Post-production will include basic editing of sequences for distribution. 
Prerequisites: Junior, senior or graduate standing or permission of instructor. Cross-listed: ANTH F460 and FLM F460. (3+0)

ART F463 Seminar in Art History (h) 
3 Credits
Offered Fall Odd-numbered Years
A seminar providing a forum for discussion of a particular historical period or art historical idea. Topics vary each semester and will not be repeated during a two-year period. Topics include: art since 1945, women in twentieth-century art, the American landscape tradition, etc. Stacked with ART F663. (3+0)

ART F465 Advanced Photography Seminar 
3 Credits
Offered Spring
Advanced discussion of photographic topics. Topics range from the photographic essay to the history of photography and working in series. Weekly classroom meetings supplemented by field, studio and darkroom sessions. Special fees apply. 
Prerequisites: JRN F402; JRN F404; or permission of instructor. Cross-listed with JRN F405. Stacked with JRN F605. (2+3)

ART F467 Photoprocess Printmaking (h) 
3 Credits
Offered Every Third Spring
Production of etchings, lithographs and silkscreen prints using photo mechanical processes. Elements of electrophotography and desktop publishing explored. May be repeated for credit with permission of instructor. Special fees apply. 
Prerequisites: ART F105; ART F262; ART F207; or permission of instructor. (1+4)
ART F468  Advanced Native Art Studio  (h)(g)  3 Credits  
Advanced traditional designs and technologies of Native art. Use of contemporary advanced designs and technologies to interpret traditional forms. May be repeated for credit with permission of instructor. Special fees apply. Prerequisites: ART F368 or permission of instructor. Cross-listed with ANS F468. (1+4)

ART F469 W  Architecture: Art, Design, Technology and Social Impact  (h)  3 Credits  
Offered Spring Even-numbered Years  
Concepts of environmental, urban and industrial design. Relationship of human and natural environment is stressed in this history of architecture with special attention given to contemporary conditions in urban areas and effects of industrialization and mechanization on human living and working spaces, artistic design and aesthetics. Prerequisites: ART F261 and ART F262 or HUM F201X and HUM F202; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Cross-listed with HUM F469. (3+0)

ART F471 O  Advanced Digital Design  (h)  3 Credits  
Offered Spring  
Project-oriented class in graphic design with applications from journalism to fine and commercial art. Students will be expected to have a background in programs likely to include web design, digital photography and graphic design. May be repeated for credit with permission of instructor. Special fees apply. Prerequisites: ART F371 or equivalent; COMM F131X or COMM F141X; JRN F250; JRN F350 or ART F371 or JRN F371; one college level studio art course. Cross-listed with JRN F471. (1+4)

ART F472 O  Visualization and Animation  (h)  3 Credits  
Offered Fall  
An introduction to visualization and animation with applications in fine and commercial art and science. Students will produce a series of three dimensional animation projects which will introduce them to the tools and concepts used by animation and visualization professionals. Note: May be repeated for credit. Special fees apply. Prerequisites: ART F371 or equivalent; COMM F131X or COMM F141X. Cross-listed with FLM F472; JRN F472. (1+4)

ART F474 W  History of the Role of the Artist  (h)  3 Credits  
Offered Spring Even-numbered Years  
Survey of theory and practices of professional training and education of the artist in relationship to political, social and philosophical conditions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Recommended: ART F261; ART F262. (3+0)

ART F475  Digital Video Compositing  (h)  3 Credits  
Offered As Demand Warrants  
Digital compositing techniques for creating moving imagery. The course covers video manipulation, layering images, synthesizing realistic video imagery, integration of live action and computer generated animation. Course can be repeated for a total of nine credits with permission of instructor. Prerequisites: ART F472 or JRN F472 or FLM F472 or equivalent. Cross-listed with FLM F475. (1+4)

ART F483  Advanced Photography  (h)  3 Credits  
Offered Spring  
Continuation of ART F283/JRN F203. Emphasis on continuing development of photographic skills by application of basic technical skills to a variety of areas of photography. Special fees apply. Prerequisites: ART F283/JRN F203 or instructor permission. Cross-listed with JRN F402. (2+3)

ART F484  Multimedia Theory and Practice  (h)  3 Credits  
Offered Spring  
Study of techniques needed to produce multimedia with a special project for a university or community agency as the required final project. For the purpose of this course multimedia is defined as computer-based, user-driven products with audio, visual and text components and also video or film where appropriate. Primary program is Flash. Special fees apply. Prerequisites: Understanding of computer graphics [programs like Illustrator, Freehand, etc.] plus some mastery of a specialty like writing, art, or television production. Cross-listed with JRN F484. (3+3)

ART F487  Digital Darkroom  3 Credits  
Offered Fall  
Learn to make ink jet prints from various photographic sources, including digital capture and scanned film. Emphasis on applying Photoshop methods for making fine prints in black and white and color. Special fees apply. Prerequisite: ART F283/JRN F203 or permission of instructor. Cross-listed with JRN F407 (2.5+2)

ART F490  Current Problems  3 Credits  
Offered Fall Even-numbered Years  
A forum for discussion of those aesthetic and professional problems confronted by artists. Topics are agreed upon by instructor and students, and students research and lead discussion on these topics. Topics may include: approaches to figuration of contemporary painting and sculpture, health hazards for the professional artist, portfolio development and access to galleries, making art far from major cultural centers, etc. Stacked with ART F690. (3+0)

ART F499  Thesis Project  1 – 3 Credits  
Directed work toward individual exhibition; completed outside regularly scheduled classes. Required for B.F.A. candidates. Prerequisites: Senior standing. (0+0)

ART F601  Ceramics  1 – 6 Credits  
Offered As Demand Warrants  
Exploration of selected topics in ceramics with lectures, demonstrations, independent research and production of ceramics at a level commensurate with graduate standing. May be repeated for credit. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (0+0)

ART F603  Graduate Photography  2 – 6 Credits  
Offered As Demand Warrants  
Exploration of selected topics in photography, with lectures, demonstrations, independent research and production of photography at a level commensurate with graduate standing. May be repeated for credit. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (1+2 – 8)

ART F605  Drawing  1 – 6 Credits  
Offered As Demand Warrants  
Exploration of topic in general drawing with lectures, demonstrations and independent research and production of drawing at a level commensurate with graduate standing. May be repeated for credit. Prerequisites: ART F305 or equivalent; and graduate standing. (0+0)

ART F607  Printmaking  1 – 6 Credits  
Offered As Demand Warrants  
Exploration of selected topics in printmaking with lectures, demonstrations, independent research and production of printmaking at a level commensurate with graduate standing. May be repeated for credit. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (0+0)

ART F611  Sculpture  1 – 6 Credits  
Offered As Demand Warrants  
Exploration of selected topics in sculpture with lectures, demonstrations, independent research and production of sculpture at a level commensurate with graduate standing. May be repeated for credit. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (0+0)

ART F613  Painting  1 – 6 Credits  
Offered As Demand Warrants  
Exploration of selected topics in painting with lectures, demonstrations, independent research and production of painting at a level commensurate with graduate standing. Stacked with ART F612. (3+3)
with graduate standing. May be repeated for credit. **Prerequisites:**
Graduate standing or permission of instructor. (0+0)

**ART F619** Life Drawing
1 – 6 Credits
Exploration of selected topics in drawing with lectures, demonstrations, independent research and production of drawing at a level commensurate with graduate standing. May be repeated for credit. **Prerequisites:** Graduate standing or permission of instructor. (0+0)

**ART F624** Field Artists of the North ✹
3 Credits Offered As Demand Warrants
Study of field artists and their work, from the explorer artists of yesterday to today’s field artists using a variety of traditional and contemporary media in their creations. Students will conceive and conduct their own study projects, producing a body of work that will demonstrate the principles and practice of a field artist. **Prerequisites:** ART F105 and a studio art course (ART F161, ART F162, ART F163, ART F205, ART F211, ART F213 or JRN F203.) Cross-listed with NORS F624. (3+0)

**ART F625** Visual Images of the North ✹
3 Credits Offered Spring Odd-numbered Years
Examination of the two-dimensional imagery of the people and landscapes of the polar regions, centering on such issues as depiction of arctic peoples and customs by Europeans, documentary vs. artistic goals, translations from original sketches to published images, relationship of polar imagery to prevailing historical styles, and the influence of changing world views on modes of polar representation between the 16th and 20th centuries. Cross-listed with NORS F625. (3+0)

**ART F633** Graduate Field Painting (h)✹
1 Credit
Consists of three or four days painting at outdoor locations, usually in the summer. Lectures and directed study are used to further develop understanding of landscape painting from drawings and/or small painted studies to finished oil and acrylic paintings. Concepts of space, light, color, composition, scale and specific elements of landscape paintings such as water, reflections, skies, aerial and linear perspective will be addressed. Emphasis will be on individual experimentation and technical/conceptual development consistent with graduate level art courses. Sessions will be in the field with some supporting sessions in the studio. Courses have been held at Denali, McCarthy, Brooks Range, Valdez and Cordova. **Prerequisites:** ART F413; ART F433; or permission of instructor. (6+21)

**ART F648** Native Arts ✹
1 – 6 Credits
Advanced traditional designs and technologies of Native art. Use of contemporary materials to interpret traditional forms. May be repeated for credit with permission of instructor. Special fees apply. **Prerequisites:** ART F468; graduate standing; or permission of instructor. (0+0)

**ART F661** Mentored Teaching in Art
1 Credit Offered As Demand Warrants
Mentored teaching provides consistent contact of course-related issues between teaching assistants and mentoring faculty. Graduates are required to be enrolled in a mentored teaching section while teaching. Note: May be repeated for credit. Graded Pass/Fail. **Prerequisites:** Graduate standing or permission of instructor. (1+0)

**ART F663** Seminar in Art History
3 Credits Offered Fall Odd-numbered Years
A forum for discussion of a particular historical period or art historical idea. Topics vary each semester and will not be repeated during a two-year period. Topics include art since 1945, women in twentieth-century art, the American landscape tradition, etc. **Prerequisites:** Graduate standing or permission of instructor. Stacked with ART F463. (3+0)

**ART F671** Two- and Three-Dimensional Computer Design
1 – 6 Credits
Visualization and animation with applications to two- and three-dimensional computer design and typography. Emphasis on visual design for electronic and print publication. Includes animation of the components of 3-D models. May be repeated for credit. Special fees apply. **Prerequisites:** ART F471; graduate standing; or permission of instructor. (0+0)

**ART F672** Advanced Computer Visualization in Art
1 – 6 Credits Offered As Demand Warrants
Computer visualization in art with production and reproduction of projects chosen from a wide range of topics. Includes lectures, demonstrations and laboratory experience. May be repeated for credit. Special fees apply. **Prerequisites:** Graduate standing or permission of instructor. (0+0)

**ART F673** History of the Role of the Artist
3 Credits Offered Spring Even-numbered Years
Survey of theory and practices of professional training and education of the artist in relationship to political, social and philosophical conditions. **Prerequisites:** Graduate standing or permission of instructor. Stacked with ART F474. (3+0)

**ART F684** Multimedia Theory and Practice
3 Credits Offered Spring
Study of techniques needed to produce multimedia with a special project for some university or community agency as the required final project. For the purpose of this course multimedia is defined as computer based, user-driven products with audio, visual and text components, and also video or film where appropriate. Primary program is Flash. Special fees apply. **Prerequisites:** ART: Understanding of computer graphics (programs like Illustrator, Freehand, etc.) plus some mastery of a specialty like writing, art, or television production. Cross-listed with JRN F684. (3+0)

**ART F690** Current Problems
3 Credits Offered Fall Even-numbered Years
A forum for discussion of aesthetic and professional problems confronted by artists. Topics are agreed upon by instructor and students, and students research and lead discussion on these topics. Topics may include: approaches to figuration of contemporary painting and sculpture, health hazards for the professional artist, portfolio development and access to galleries, making art far from major cultural centers, etc. **Prerequisites:** Graduate standing or permission of instructor. Stacked with ART F490. (3+0)

**ATM F101X** Weather and Climate of Alaska (n)✹
4 Credits Offered Spring
Focus on the Alaska atmosphere as an important part of our environment. Includes fundamental laws of physics and chemistry, the behavior of atmospheres on rotating planets, clouds, precipitation and weather systems. Includes societal impacts of weather worldwide and investigations into global climate change. **Prerequisites:** Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor. (3+3)

**ATM F401** Introduction to Atmospheric Sciences
3 Credits Offered Fall
Fundamentals of atmospheric science. Includes energy and mass conservation, internal energy and entropy, atmospheric water vapor, cloud microphysics, equations of motion, hydrostatics, phase oxidation, heterogeneous chemistry, the ozone layer, fundamentals of biogeochemical cycles, solar and terrestrial radiation and radiative-convective equilibrium. Also includes molecular, cloud and aerosol absorption and scattering. **Prerequisites:** CHEM F105X; CHEM F106X; MATH F302; PHYS F212X. Stacked with ATM F603; CHEM F601. (3+0)
Course Descriptions

ATM F413  Atmospheric Radiation
3 Credits  Offered Fall Odd-numbered Years
Atmospheric radiation including the fundamentals of blackbody radiation theory and radiative properties of atmospheric constituents. Discussion of gaseous absorption including line absorption, broadening effects and radiative transfer. Includes scattering, radiative properties of clouds and radiation climatology. Prerequisites/co-requisites: ATM F401. Cross-listed with PHYS F413. Stacked with ATM F613 and PHYS F613 (3+0)

ATM F444  Synoptic Analysis and Forecasting
3 Credits  Offered Spring Even-numbered Years
Weather systems and the techniques used to understand and predict their behavior. Topics include atmospheric observations, synoptic analysis techniques, satellite image interpretation, kinematics, fronts and frontogenesis, life cycles of extratropical cyclones, mesoscale phenomena, numerical weather prediction and interpretation of forecast products. Prerequisites: ATM F401; ATM F445. Stacked with ATM F644. (3+0)

ATM F445  Atmospheric Dynamics
3 Credits  Offered Fall Even-numbered Years
Fundamentals of equations of motion, conservation laws, balance relationships and coordinate systems. Vorticity dynamics includes vortex filaments and tubes, vorticity equations, Rossby-Haurwitz waves, Ertel's PV principle for the potential vorticity, EPV in isotropic coordinates. Includes balance and quasi-geostrophy, QG theory, scaling of the QG system, the w equation, QG and numerical modeling. Prerequisites/co-requisites: ATM F401. Stacked with ATM F645. (3+0)

ATM F456  Climate and Climate Change
3 Credits  Offered Fall Odd-numbered Years
The climate of planet Earth and its changes with time. Radiative fluxes, energy budget, hydrological cycle, the atmospheric composition and climatic zones. Physical and chemical reasons for climatic change. Prerequisites: Any 400 level Physics or Chemistry course or ATM F401 or permission of instructor; basic computer skills. (3+0)

ATM F488  Undergraduate Research
1 – 3 Credits
Advanced research topics from outside the usual undergraduate requirements. Prerequisites: Permission of instructor. Recommended: A substantial level of technical/scientific background. (0+0)

ATM F601  Introduction to Atmospheric Sciences
3 Credits  Offered Fall
Fundamentals of atmospheric science. Includes energy and mass conservation, internal energy and entropy, atmospheric water vapor, cloud microphysics, equations of motion, hydrostatics, phase oxidation, heterogeneous chemistry, the ozone layer, fundamentals of biogeochemical cycles, solar and terrestrial radiation and radiative-convective equilibrium. Also includes molecular, cloud and aerosol absorption and scattering. Prerequisites: Graduate standing. Cross-listed with CHEM F601. (3+0)

ATM F606  Atmospheric Chemistry
3 Credits  Offered Spring Odd-numbered Years
Chemistry of the lower atmosphere (troposphere and stratosphere) including photo chemistry, kinetics, thermodynamics, box modeling, biogeochemical cycles and measurements techniques for atmospheric pollutants. Study of important impacts to the atmosphere which result from anthropogenic emissions of pollutants, including acid rain, the “greenhouse” effect, urban smog and stratospheric ozone depletion. Prerequisites/co-requisites: ATM F601 or permission of instructor. Cross-listed with CHEM F606. (3+0)

ATM F613  Atmospheric Radiation
3 Credits  Offered Fall Odd-numbered Years
Fundamentals of blackbody radiation theory and radiative properties of atmospheric constituents. Discussion of gaseous absorption including line absorption, broadening effects and radiative transfer. Includes scattering, radiative properties of clouds, and radiation climatology. Prerequisites/co-requisites: ATM F601; graduate standing. Cross-listed with PHYS F613. Stacked with ATM F413 (3+0)

ATM F615  Cloud Physics
3 Credits  Offered Spring Even-numbered Years
Basic properties of condensed water vapor in the atmosphere. Formation and behavior of clouds including the nature of atmospheric aerosols, nucleation and growth of water droplets and ice crystals, the development of precipitation, nature of mixed-phase (water and ice) clouds, how transfer of radiation depends on the character of clouds, and how humans are modifying clouds and precipitation both intentionally and unintentionally. Field trips will collect data at the Arctic Facility for Atmospheric Remote Sensing (AFARS). Microscopic examination and have available for use of a sophisticated cloud model. Prerequisites: ATM F601; graduate standing; or permission of instructor. (3+0)

ATM F620  Climate Journal Club Seminar
1 Credit  Offered Spring
The “Climate Group” is in informal meeting for researchers and graduate students. The seminars alternate between progress reports on ongoing research and journal club contributions. The main interests articles, formal and informal presentation by locals and visitors will be on the agenda. Participating students will be exposed to a free format discussion of modern ideas in climate related disciplines. All students are encouraged to contribute and students taking the course for credit are required to lead the discussion for one session. This may include the presentation of a research plan/results, or a discussion of a journal article. Students will be graded on at least one presentation and participation in the class. Graded Pass/Fail. Prerequisites: Graduate standing or permission of instructor. (1+0)

ATM F621  Oceanic/Atmospheric Gravity Waves
3 Credits  Offered Spring: As Demand Warrants
An introduction to the dynamics of surface and internal gravity waves in non-rotating and rotating fluids including, derivation/solutions of the wave equation, approximations to the governing equations, particle motions and wave energetics, dispersion relationships, phase and group velocities, normal mode and WKB theory, refraction, reflection, critical layer absorption, wave instabilities. Prerequisites: MSL F620; MATH F302; or permission of instructor. Cross-listed with MSL F624. (3+0)

ATM F631  Environmental Fate and Transport
3 Credits  Offered Spring Even-numbered Years
Examination of the physical properties that govern the behavior, fate and transport of contaminants released into the environment. Topics include air-water partitioning and exchange, organic solvent-water partitioning, diffusion, sorption, chemical and biological transformation reactions, and modeling concepts. Cross-listed with CHEM F631. (3+0)

ATM F644  Synoptic Analysis and Forecasting
3 Credits  Offered Spring Even-numbered Years
Weather systems and the techniques used to understand and predict their behavior. Topics include atmospheric observations, synoptic analysis techniques, satellite image interpretation, kinematics, fronts and frontogenesis, life cycles of extratropical cyclones, mesoscale phenomena, numerical weather prediction and interpretation of forecast products. Prerequisites: ATM F601; ATM F645. Stacked with ATM F444. (3+0)
ATM F645  Atmospheric Dynamics
3 Credits  Offered Fall Even-numbered Years
Examination of the fundamental forces and basic conservation laws that govern the motion of the atmosphere. Topics include momentum, continuity equations, circulation, vorticity, thermodynamics, the planetary boundary layer and synoptic scale motions in mid-latitudes. Prerequisites/ co-requisites: ATM F601; graduate standing. Stacked with ATM F443. (3+0)

ATM F647  Fundamentals of Geophysical Fluid Dynamics
3 Credits  Offered Fall Odd-numbered Years
Introduction to the mechanics of fluid systems, the fundamental processes, Navier-Stokes’ equations in rotating and stratified fluids, kinematics, conservation laws, vortex motion, irrotational flow, laminar flow, boundary layer phenomena, waves, instabilities, turbulent flows and mixing. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PHYS F647. (3+0)

ATM F656  Climate and Climate Change
3 Credits  Offered Fall Odd-numbered Years
The climate of planet Earth and its changes with time. Radiative fluxes, greenhouse effects, energy budget, hydrological cycle, the atmospheric composition and climatic zones. Physical and chemical reasons for climatic change. Prerequisites: Graduate standing; calculus, physics or related courses at F400-level, basic computer skills. Recommended: ATM F601 or ATM F401; basic computer knowledge to plot and analyze climate data. (3+0)

ATM F662  Numerical Modeling and Parameterization Methods
3 Credits  Offered Spring Even-numbered Years
Construction of models from fundamental equations and the necessity of parameterizations. Simplification and discretization of equations, numerical methods, model-grids, analytical modeling, boundary and initial conditions, parameterizations and evaluation of model results. Scale-dependency, limitations of parameterizations and coupled modeling are elucidated. Students apply and code aspects of models themselves. Prerequisites: Graduate standing; calculus, physics or related F400-level basic computer skills. Recommended: ATM F601; basic knowledge in Fortran and UNIX/LINUX. (3+0)

ATM F666  Atmospheric Remote Sensing
3 Credits  Offered Spring Odd-numbered years
Modern atmospheric research is becoming increasingly reliant on measurements made from afar using instruments sensing various portions of the electromagnetic spectrum. Using principally microwave radars and visible-wavelength laser lidars, often combined with passive measurements from radiometers, many properties of the atmosphere can be routinely profiled by remote sensors located at the ground, from aircraft, or satellite. This course will concentrate on the fundamentals of these families of active remote sensors including their designs and operating principles, applicable backscattering and extinction theories, and derive their basic radar equation. Prerequisites: ATM F401 or ATM F601; graduate standing or permission of instructor. (3+0)

ATM F678  Mesoscale Dynamics
3 Credits  Offered As Demand Warrants
A comprehensive explanation of mesoscale air motions — their phenomenology, basic physics and mechanisms, why they build and how mesoscale motions interact with the micro and large scale. Classical and non-classical mesoscale circulations, super cell, single and multiple cell thunderstorm dynamics and tornado formation. Prerequisites: ATM F401 or ATM F601 or permission of instructor. Recommended: 400-level physics, calculus 1 to III. (3+0)

ATM F688  Atmospheric Science Informal Seminar
1 Credit
Review of ongoing research in atmospheric science to learn about research results, ideas and direction long before they are published in journals. Presentations cover the broad range of atmospheric sciences and links to other disciplines as required to answer questions on global variability, climate change and assessment studies. Graded Pass/Fail. Prerequisites: Graduate standing in physical sciences or permission of instructor. (1+0)

AUTOMOTIVE

AUTO F080  Driver and Safety Education
2 Credits  Offered As Demand Warrants
Driver education for the beginning driver. Alaska Driver's Manual, material necessary to gain an Alaska Driver's Permit. Defensive driving methods for accident-free driving and basic mechanical information. (2+0)

AUTO F081  Behind-the-Wheel Training
1 Credit  Offered As Demand Warrants
Practical driver training in actual situations. Expected student outcome is obtaining a State of Alaska driver's license. Prerequisites: Must have a valid Alaska Driver's Permit. (0+3)

AUTO F100  Introduction to Small Engine Repair
1 Credit  Offered As Demand Warrants
Parts and functions of a small engine and its electrical system. Dismantling procedures, cleaning and reassembly techniques, gasket-making, lubrication, troubleshooting, and minor repairs. (1+0)

AUTO F102  Introduction to Automotive Technology
3 Credits  Offered As Demand Warrants
Provides career information in the automotive industry. Shop safety, hand tools, fasteners, fittings, and an introduction to the major automotive systems. Special fees apply. (2+2)

AUTO F106  Auto/Diesel Engine Cooling and Climate Control Systems
4 Credits  Offered As Demand Warrants
Theory, diagnostics and repair of motor vehicle A/C, heating, engine cooling and automatic temperature control systems. Covers R-12 and R-143 refrigerant recovery, and related EPA regulations. Special fees apply. Recommended: AUTO F110. (3+3)

AUTO F110  Basic Electrical Systems
3 Credits  Offered As Demand Warrants
The history and origins of electrical theory, the generation of electricity and diagnosis, minor repair and general servicing of alternators, starters and batteries. Special fees apply. (2+2)

AUTO F113  Gasoline Fuel Delivery Systems
4 Credits  Offered As Demand Warrants
Basics of carburation and electronic fuel injection. Emphasis on theory, diagnostic/repair skills, inputs and outputs of the PCM, engine performance, use of on-board diagnostic data (OBD II) and special test equipment. Special fees apply. Recommended: AUTO F110. (2+2)

AUTO F122  Engine Theory and Diagnosis
3 Credits  Offered As Demand Warrants
Introduction to fundamental aspects of engine design, general diagnosis and engine related service, to include combustion process, engine noise, basics of exhaust emissions, vacuum/pressure, compression, intake and exhaust systems, valve and ignition timing. Special fees apply. Prerequisites: AUTO F102 or instructor permission. Recommended: AUTO F110. (2+2)

AUTO F131  Automotive Electrical II
3 Credits  Offered As Demand Warrants
Theory, diagnosis and repair of automotive electrical/electronic systems to include testing tools, schematics and on-board computers. Special fees apply. Prerequisites: AUTO F110 or permission of instructor. Recommended: AUTO F102. (2+2)
AUTO F150  Brake Systems
4 Credits  Offered As Demand Warrants
Theory, diagnosis and servicing of light- and heavy-duty vehicle hydraulic break and traction control systems. Includes discussion and tasks on disc brakes, drum brakes, power assist systems and anti-lock/traction controls. Special fees apply. Prerequisites: AUTO F110. (3+3)

AUTO F162  Suspension Alignment
4 Credits  Offered As Demand Warrants
Theory, diagnosis and repair of suspension, steering and wheel alignment of automobiles and trucks. Special fees apply. (3+3)

AUTO F170  Snowmobile Maintenance and Repair
1 Credit  Offered As Demand Warrants
Fundamental skills for operation and repair. Engine tune-up, lubrication, belt and track repair, alignment and basic problems encountered during operation. Graded Pass/Fail. Special fees apply. (1+0)

AUTO F172  All-Terrain Vehicle Maintenance and Repair
1 Credit  Offered As Demand Warrants
Teaches fundamental skills for maintenance and repair of an All-Terrain Vehicle (ATV). Only one type of ATV will be the focus of the class, examples being: 4-wheelers, dirt bikes, hoverscrafts. Engine tune-up, lubrication, clutch and belt, if applicable, transmission troubleshooting, tire and wheel repair, alignment and other basic problems encountered during operation along with safe shop procedures. Graded Pass/Fail. Graded Pass/Fail. (1+0)

AUTO F190  Automotive Practicum I
1 – 6 Credits  Offered as Demand Warrants
Provides supervised workplace experience in selected industry settings. Integrates knowledge and practice to achieve competencies in basic skills. A maximum of 6 credits may be earned. Prerequisites: Advisor approval required. (0+0+1 – 6)

AUTO F202  Auto Fuel and Emissions Systems
4 Credits  Offered As Demand Warrants
Builds on the skills and knowledge gained in AUTO F122. Combustion chemistry, volumetric efficiency, design and function of emission control devices, laws and regulations concerning vehicle emissions are covered, with an emphasis on interfacing with on-board computers, automotive computer networking, and four and five gas analysis. Special fees apply. Prerequisites: AUTO F102; AUTO F122. (3+2)

AUTO F209  Automatic Transmissions and Transaxles
5 Credits  Offered As Demand Warrants
Automatic transmissions and transaxes. Includes the operation, diagnostics and repair of planetary gears, clutches, pumps, hydraulic controls and electronic shifting controls. Study and hands-on tasks. Special fees apply. Recommended: AUTO F110 strongly recommended. (4+3)

AUTO F215  Engine Analyzer, Scopes and Scan Tools
4 Credits  Offered As Demand Warrants
Use and interpretation of diagnostic analyzers for spark ignition engines, digital data, fault code and input/output information retrieval, scan tool usage and other diagnostic tools used in the vehicle repair industry. Special fees apply. Recommended: AUTO F110. (3+3)

AUTO F219  The Auto/Diesel Repair Business
2 Credits  Offered as Demand Warrants
Overview of practices common in the vehicle repair industry. Includes flat rate, repair order write-up, customer relations, repair industry related OSHA and EPA regulations, and financing and acquiring a repair business. Special fees apply. (2+0)

AUTO F222  Automotive Engine Performance
3 Credits  Offered as Demand Warrants
Builds on skills and knowledge gained in AUTO F122 and AUTO F202. Applies strategies for diagnosing fuel and ignition systems, automotive computers and multiplexing. Includes communication strategies, on-board diagnostics, testing and diagnosis of engine performance-related components. Special fees apply. Prerequisites: AUTO F122; AUTO F202; or permission of instructor. (2+2)

AUTO F227  Automotive Electrical III
3 Credits  Offered As Demand Warrants
The theory, diagnosis and repair of automotive electrical and electronic systems to include accessories. Special fees apply. Prerequisites: AUTO F131. (2+2)

AVIATION TECHNOLOGY

AVTY F100  Private Pilot Ground School
4 Credits  Offered As Demand Warrants
Study of aircraft and engine operation and limitations, aircraft flight instruments, navigation, navigation computers, national weather information and dissemination services. Federal aviation regulations, flight information publications, radio communications and navigation. Preparation for FAA private pilot-airplane written exam. Also available via e-Learning and Distance Education. (4+0)

AVTY F101  Private Pilot Flight Training
2 Credits  Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training will meet federal aviation regulations. Course completion requires awarding of private pilot certificate. Prerequisites: Department approval required. (2+0)

AVTY F102  Commercial Ground Instruction
3 Credits  Offered As Demand Warrants
Advanced study of aircraft performance, airplane systems (including complex single engine, multi-engine and turboprop aircraft), navigation, regulations and meteorology. Employment considerations for commercial pilots surveyed. Preparation for the FAA commercial pilot-airplane written exam. (3+0)

AVTY F103  Commercial Flight Training
2 Credits  Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training will meet federal aviation regulations. Course completion requires awarding of commercial pilot certificate. Prerequisites: Private pilot certificate, AVTY F102 or concurrent enrollment, or passing score on FAA Commercial Pilot written exam, department approval required. (2+0)

AVTY F105  Seaplane Flight Training
1 Credit  Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training will meet federal aviation regulations. Course completion requires awarding of single-engine sea rating. Prerequisites: Private pilot certificate or higher, department approval required. (1+0)

AVTY F107  Multi-Engine Flight Training
1 Credit  Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training will meet federal aviation regulations. Course completion requires awarding of multi-engine rating. Prerequisites: Private pilot certificate or higher, department approval required. (1+0)

AVTY F108  Introduction to Skis
1 Credit  Offered As Demand Warrants
Pilot instruction with a certified flight instructor or flight school in techniques of ski-plane operation and cold weather maintenance. The student is responsible for making arrangements for an appropriate aircraft, instructor and financing. Prerequisites: Private pilot certificate. (1+0)
AVTY F109 Glider Flight Training
1 Credit Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training will meet federal aviation regulations. Course completion requires awarding of glider and private or commercial pilot certificate with a glider category rating. Prerequisites: Department approval. (1+0)

AVTY F111 Fundamentals of Aviation
3 Credits
Basic concepts associated with the aircraft and its environment. Aircraft and its components, including basic systems, Federal Aviation Administration regulations, airports and airspace utilization, aeronautical charts, navigation, weather theory, medical and emergency factors. (3+0)

AVTY F116 Aviation History
3 Credits Offered As Demand Warrants
Aviation from its early days to the present. People, places and machines contributing to the development of Alaskan aviation. (3+0)

AVTY F121 Introduction to Aviation Safety
2 Credits Offered As Demand Warrants
An introduction to aviation safety designed to develop a positive attitude toward safety, refresh aeronautical knowledge and improve aeronautical skills. Prerequisites: Pilot’s Certificate or enrollment in Aviation program. Proof required first day of class. (2+0)

AVTY F155 Preventive Maintenance
1 – 3 Credits Offered As Demand Warrants
Mechanics of the airplane, its powerplant and systems to enable the student to evaluate malfunctions and make maintenance decisions. Designed for the pilot-owner. Special fees apply. Prerequisites: Pilot’s Certificate or enrollment in Aviation program. Proof required first day of class. (1 – 3+0)

AVTY F200 Instrument Ground School
4 Credits Offered As Demand Warrants
Instrument flight operations in detail, altitude instrument flying, air traffic control and navigation facilities, pilot responsibilities. IFR enroute charts, instrument approach procedures. Federal Aviation Regulations, flight planning, human factors and meteorology. Includes optional visits to FAA, RAPCO and ARTCC facilities. Prerequisites: Pilot’s Certificate or enrollment in Aviation program. Proof required first day of class. (1+0)

AVTY F201 Instrument Pilot Training
2 Credits Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Cost of flight instruction varies with location of instruction. Training will be in accordance with current Federal Aviation Regulations. Course completion requires awarding of instrument rating. Prerequisites: Private or Commercial Pilot Certificate or AVTY F200 or concurrent enrollment or passing score on FAA Private or Commercial Pilot written exam, or permission of instructor; department approval. (2+0)

AVTY F202 Flight Instructor Ground School
3 Credits Offered As Demand Warrants
Preparation for the FAA certified flight instructor or advanced ground instructor written exam. Prerequisites: Commercial pilot certificate or permission of instructor. (3+0)

AVTY F203 Flight Instructor Flight Training
2 Credits Offered As Demand Warrants
Flight instruction is arranged by student through approved pilot school or independent flight instructor. Training meets federal aviation regulations. Course completion requires awarding of certified flight instructor certificate. Prerequisites: Commercial pilot certificate with instrument rating; AVTY F202; or concurrent enrollment; or passing score on FAA flight instructor written exams; department approval. (2+0)

AVTY F205 Instrument Instructor Flying
3 Credits Offered As Demand Warrants
Preparation for certification as an instrument flight instructor. Prerequisites: Commercial flight instructor certificate and department approval. (3+0)

AVTY F206 ATP Ground Instruction
4 Credits Offered As Demand Warrants
Preparation for the FAA airline transport pilot written exam. Prerequisites: Compliance with FAR 61.151 and 61.155 or department permission. (4+0)

AVTY F207 ATP Flying
2 Credits Offered As Demand Warrants
Qualification for single- or multi-engine FAA airline transport pilot certificate. Prerequisites: Commercial pilot certificate, 1500 hours of flight time as pilot or equivalent as described in FAR 61.155; AVTY F206 or passing score on FAA airline transport pilot written exam; current FAA first class medical certificate. (2+0)

AVTY F220 Basic Flight Physiology
3 Credits Offered As Demand Warrants
Understanding the physiology of flight and using this knowledge to explain why certain phenomena occur to the mind and body during flight. Prerequisites: Pilot’s Certificate or enrollment in Aviation program. Proof required first day of class. (3+0)

AVTY F225 Flight Engineer Ground School
4 Credits Offered As Demand Warrants
A comprehensive examination of the major systems of one of the following aircraft: turbojet (B-727, DC-8, B-707); turboprop (L-382, L-188); or reciprocating (DC-6). Preparation for the FAA flight engineer written exam. Prerequisites: FAA commercial pilot license and instrument rating or equivalent; department approval. (4+0)

AVTY F231 Arctic Survival
3 Credits Offered As Demand Warrants
Use of principles, procedures, techniques and equipment to survive extreme arctic conditions and assist in safe recovery. Lab required. Special fees apply. Cross-listed with EMS F257. (3+0)

AVTY F232 Aviation Astronomy and Navigation
3 Credits Offered As Demand Warrants
Air navigation and astronomy, including charts, equipment, star and constellation identification, and calculations. (3+0)

AVTY F233 Elements of Weather
3 Credits Offered As Demand Warrants
Weather as it affects aircraft operators with an emphasis on interior Alaska. (3+0)

AVTY F239 Aircraft Dispatcher
4 Credits Offered As Demand Warrants
Coordinating functions involving the aircraft and other departments of an airline business. Those wanting to be eligible for aircraft dispatcher certificate must be 23 years of age. (4+0)

AVTY F402 Aircraft Management
3 Credits Offered As Demand Warrants
Securing, dispatching and monitoring aircraft operations. Safety, security, community relations, cost-effective scheduling and personnel management for mission scheduling. (3+0)

AVTY F405 Advanced Aircraft Operations
3 Credits Offered As Demand Warrants
Techniques and requirements associated with the operation of turbine-powered aircraft, remotely piloted aircraft, helicopters and STOL aircraft for pilots and air works; safety; systems; aerodynamics; operating characteristics. Prerequisites: AVTY F100 or AVTY F111 or AVTY F301 or permission of instructor. (3+0)
AVIATION TECHNOLOGY (AVTY) — BIOLOGY (BIOL)

AVTY F410 Techniques of Bush Flying 2 Credits
Offered As Demand Warrants
Flight training emphasizing emergency procedures in remote locations, off-airport operations, critical flight attitudes, low-level flight, terrain flying, special maneuvers and unique soft and short field takeoffs and landings. Prerequisites: AVTY F231; AVTY F235; AVTY F301; commercial rating; 20 hours taildragger time. (1+2)

BIOLOGY

BIOL F100X Human Biology (n) 4 Credits
Offered Fall; As Demand Warrants
Introduction to scientific methodology and biological principles with a focus on humans as biological organisms. Topics include organization of the human body, human genetics, human development and the relationship between our bodies and health. Includes lecture, discussion, lab and projects. Offered through e-learning. Offered at the Northwest campus as demand warrants. May not be used as biology elective credit for a major in biological sciences. Note: Intended for non-science majors and those seeking preliminary instruction before beginning study in health-related areas. Offered through UAF Community and Technical College and Rural campuses as demand warrants. Prerequisites: Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor. (3+3)

BIOL F103L Biology and Society Laboratory 1 Credit
Offered Spring
A laboratory section only of BIOL 103X designed for transfer students that are non-science majors who have completed a natural science course with no laboratory at another institution. This lab cannot be used as a biology elective by biological science majors. Special fees apply. Prerequisites: A natural science course with no laboratory and permission of instructor. (0+3)

BIOL F103X Biology and Society (n) 4 Credits
Offered Spring; Fall at Northwest Campus
Fundamental principles of biology; emphasis on their application to humans in the modern world. Lectures, laboratory demonstrations, experiments and discussions of contemporary biological topics. For non-science majors; cannot be used as a biology elective by biological science majors. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor. (3+3)

BIOL F104X Natural History of Alaska (n) 4 Credits
Offered Fall
The physical environment peculiar to the North and important in determining the biological setting; major ecosystem concepts to develop an appreciation for land use and wildlife management problems in both terrestrial and aquatic situations. May not be used as biology elective credit for a major in biological science. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor. (3+3)

BIOL F111X Human Anatomy and Physiology I (n) 4 Credits
Offered Fall
Integrated view of human structure and function for students in pre-professional allied health programs, biology, physical education, psychology and art. Covers cells, tissues and organs, skeletal and muscle systems, the nervous system, and integument. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor. Recommended: High school biology; High school algebra; CHEM F105X-CHEM F106X or CHEM F103X-CHEM F104X. (3+3)

BIOL F112X Human Anatomy and Physiology II (n) 4 Credits
Offered Spring
Integrated view of human structure and function for students in pre-professional allied health programs, biology, physical education, psychology and art. Examines circulatory, respiratory, digestive, excretory, endocrine and reproductive systems. Special fees apply. Prerequisites: BIOL F111X; placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor. Recommended: High school biology, high school algebra, CHEM F105X-CHEM F106X or CHEM F103X-CHEM F104X; ENGL F111X. (3+3)

BIOL F113X Fundamentals of Biology I (n) 4 Credits
Offered Fall
Introduction to the principles of biology for science majors, with emphasis on chemistry of life, cell structure, metabolism, genetics and animal form and function. Students for whom this course is required for their major will be given preference when space is limited. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in MATH F107X or higher; CHEM F105X (may be taken concurrently) or permission of the instructor. Recommended: High school biology. (3+3)

BIOL F116X Fundamentals of Biology II (n) 4 Credits
Offered Spring
Continuation of topics addressed in BIOL F115X, with emphasis on evolutionary biology, diversity of life, plant form and function and ecology. Students for whom this course is required for their major will be given preference when space is limited. Special fees apply. Prerequisite: BIOL F115X. (3+3)

BIOL F135 The Third Kingdom: Mushrooms and other Fungi 3 Credits
Offered Fall Even-numbered Years
Introduction to fungi of the world with an emphasis on Alaska arctic, subarctic and subantarctic environments. Designed to encourage more in-depth study, but is primarily for traditionally non-science orientations. Form, function, symbiosis, taxa, social, industrial and technological applications are emphasized. (3+0)

BIOL F150 Introduction to Marine Biology 3 Credits
Offered Spring
Survey of marine organisms, evolution of marine life, habitats and communities of ocean zones, productivity and marine resources. For non-science majors; may not be used as biology elective credit for a major in biological science. Only available via e-Learning and Distance Education. (3+0)

BIOL F239 Introduction to Plant Biology (n) 4 Credits
Offered Fall
Plant biology including plant form and function (morphology, physiology and development), ecology (including interactions with herbivores, pollinators and microbes), conservation, evolution and economic botany. Emphasis on vascular plants (particularly angiosperms) but includes comparisons with nonvascular plants. Prerequisites: BIOL F113X; BIOL F116X. (3+3)

BIOL F240 Beginnings in Microbiology 4 Credits
Offered As Demand Warrants
Fundamentals of microbiology. Survey of the microbial world, interactions between microbes and host, microbial human diseases, the environmental and economic impact of microorganisms. Provides background in basic and applied microbiology with emphasis on the role microorganisms play in human health and life. Offered at UAF Community and Technical College. Special fees apply. Prerequisites: One course in high school or college-level biology required, or permission of the instructor. Recommended: One course in chemistry. Note: May not be used as biology elective credit for a major in biological sciences. (3+3)

BIOL F261 Introduction to Cell and Molecular Biology (n) 4 Credits
Offered Fall
An introduction to the structure and function of cells. Topics include: the structure and function of cellular components, including proteins,
membranes and organelles; understanding how cells communicate; and how information is processed in the cell via DNA replication, transcription and translation. Special fees apply. **Prerequisites:** BIOL F115X; BIOL F116X; CHEM F105X; CHEM F106X or concurrent enrollment. Cross-listed with CHEM F261. (3+3)

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Offered</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL F271</td>
<td>Principles of Ecology</td>
<td>4</td>
<td></td>
<td>Basic principles in physiological, ecosystem, population and community ecology. Environmental factors and their influence on plants and animals. Structure, growth and regulation of populations. The ecosystem concept, biogeochemical cycles, and the structure and function of major terrestrial biomes. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; LS F100 or LS F101 or successful completion of library skills competency test; or permission of instructor. (3+3)</td>
</tr>
<tr>
<td>BIOL F277</td>
<td>Introduction to Conservation Biology</td>
<td>3</td>
<td>Spring</td>
<td>Introduction to the basic ecological, genetic, management, legal and historical developments in conservation biology, and focused efforts to manage biological diversity resources, with a status review of important habitats and endangered species. <strong>Prerequisites:</strong> BIOL F115X, BIOL F116X. Cross-listed with NRM F277. (3+0)</td>
</tr>
<tr>
<td>BIOL F288</td>
<td>Fish and Fisheries of Alaska</td>
<td>3</td>
<td>Spring</td>
<td>Offered Spring Even-numbered Years This course will provide mid-level undergraduate students with an introduction to the biology and fisheries of Alaskan fish, shellfish and marine mammals with important finfishes as the main focus of the course. First, we will examine important recreational, subsistence and commercial shellfish and finfish species. Next we will brieﬂy cover ﬁsheries economics and then turn our attention to lesser known freshwater and marine fish species. Finally, we will conclude with a brief overview of marine mammal fisheries in Alaska. The amount of coverage of each of these topics will vary depending on what is known about each group of organisms. Before enrolling students should have a basic understanding of basic biological and ecological concepts. This course is required of all fisheries students but should appeal to anyone interested in Alaska’s fish and fisheries. <strong>Prerequisites:</strong> BIOL 116X and FISH 101; or permission of instructor Cross-listed with FISH F288. (3+0)</td>
</tr>
<tr>
<td>BIOL F301</td>
<td>Biology of Fishes</td>
<td>4</td>
<td>Fall</td>
<td>Offered Fall A broad overview of the biological diversity of fishes presented from the comparative and organismal perspectives. The course examines the relationship between physical and biological properties of aquatic environments and the anatomy, physiology, behavior and geographical distribution of living fish lineages. Topics include fish evolution, biogeography, classiﬁcation, gross and ﬁne anatomy, sensory biology, and form-function relationships. Topics are presented to highlight essential concepts generally relevant in biology. <strong>Prerequisites:</strong> BIOL F116X or equivalent; junior or senior standing. Recommended: BIOL F317. Cross-listed with FISH F301. (3+3)</td>
</tr>
<tr>
<td>BIOL F303</td>
<td>Principles of Metabolism and Biochemistry</td>
<td>4</td>
<td>Fall</td>
<td>Offered Fall Introduction to metabolism at the molecular level. Topics include structure and function of proteins, allostery and feedback, biological regulation and the major pathways of carbon and nitrogen metabolism. Presented in an evolutionary and ecological context. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; CHEM F105X; CHEM F106X. (3+3)</td>
</tr>
<tr>
<td>BIOL F305</td>
<td>Invertebrate Zoology</td>
<td>4</td>
<td>Spring</td>
<td>Offered Spring Even-numbered Years Classification, structure, function, evolution and life histories of invertebrate animals. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; BIOL F271. (3+3)</td>
</tr>
<tr>
<td>BIOL F310</td>
<td>Animal Physiology</td>
<td>4</td>
<td></td>
<td>Offered Fall Animal function, including respiration, digestion, circulation, nerve and muscle function, hormones and reproduction. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; CHEM F105X; CHEM 106X. (3+3)</td>
</tr>
<tr>
<td>BIOL F317</td>
<td>Comparative Anatomy of Vertebrates</td>
<td>4</td>
<td>Spring</td>
<td>Offered Spring Anatomy, phylogeny and evolution of the vertebrates. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X. (2+6)</td>
</tr>
<tr>
<td>BIOL F331</td>
<td>Systematic Botany</td>
<td>4</td>
<td>Spring</td>
<td>Offered Spring Classification of flowering plants with emphasis on Alaskan ﬂora; taxonomic principles, classical and experimental methods of research. Preregistration is required to ensure that each student will prepare a plant collection. Special fees apply. <strong>Prerequisites:</strong> BIOL F239 or permission of instructor. Recommended: BIOL F332. (2+6)</td>
</tr>
<tr>
<td>BIOL F345</td>
<td>Principles of Epidemiology</td>
<td>3</td>
<td>Spring</td>
<td>Offered Spring Even-numbered Years Introduction to the basic concepts of epidemiology, with examples from human to veterinary medicine, including chronic and infectious disease epidemiology, social epidemiology, outbreak investigation, properties of tests, and an introduction to study design and surveillance. <strong>Prerequisites:</strong> STAT F200X or higher or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>BIOL F346</td>
<td>Microbiology</td>
<td>4</td>
<td>Spring</td>
<td>Offered Spring Morphology and physiology of microorganisms. The role of these organisms in the environment and their relationship to humans. Concepts of immunology. Laboratory stresses aseptic techniques for handling microorganisms. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; CHEM F105X. (3+3)</td>
</tr>
<tr>
<td>BIOL F362</td>
<td>Principles of Genetics</td>
<td>4</td>
<td></td>
<td>Offered Fall Principles of inheritance; physiochemical properties of genetic systems. Special fees apply. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; CHEM F105X; MATH F107X or higher. (3+3)</td>
</tr>
<tr>
<td>BIOL F372</td>
<td>Biomedical and Research Ethics</td>
<td>3</td>
<td>Fall</td>
<td>Offered Fall Issues in biomedical ethics. Topics will vary but include discussion of moral principles and problems of research ethics and medical ethics, such as: animal and human experimentation; data management; informed consent; therapeutic and non-therapeutic research; physician/patient relationship; autonomy; assisted reproductive technologies; euthanasia; organ transplantation; and allocation of scarce medical resources. <strong>Prerequisites:</strong> ENGL F111X; either ENGL F211X or ENGL F213X; junior or senior standing; a course in philosophy, science, or nursing; permission of instructor. Recommended: A course in philosophy, science or nursing. Cross-listed with PHIL F402. (3+0)</td>
</tr>
<tr>
<td>BIOL F406</td>
<td>Entomology</td>
<td>4</td>
<td></td>
<td>Offered Spring Odd-numbered Years Biology of insects and related arthropods, with emphasis on evolution, ecology, behavior, biodiversity, morphology and systematics. Lab emphasizes identiﬁcation and collection. <strong>Prerequisites:</strong> BIOL F115X; BIOL F116X; BIOL F271; or permission of instructor. (3+3)</td>
</tr>
</tbody>
</table>
Course Descriptions

**Biology (BIOL)**

**BIOL F417 O**  Neurobiology
3 Credits  Offered Spring Even-numbered Years
Organization and function of the vertebrate nervous system from the subcellular to the organismal levels. Neural bases of sensations, specific behaviors and homeostasis. Applications of basic neurobiological research to pathological conditions. Examples taken mostly from the recent vertebrate literature. **Prerequisites: BIOL F310; COMM F31X or COMM F41X; or permission of instructor.** Cross-listed with BIOL F617. (3+0)

**BIOL F418**  Biogeography
3 Credits  Offered Fall
This course explores the geography of life by examining linkages between climate, geomorphology, and ecological communities with emphasis on the biogeography of subarctic, polar and alpine regions. **Prerequisites: BIOL F271 or NRM/BIOL F277; junior/senior standing or permission of instructor.** Cross-listed with GEOG F418 Stacked with BIOL F618 and GEOG F618 (3+0)

**BIOL F425**  Mammalogy (n)
3 Credits  Offered Fall
Variety of mammals, their behavior, life histories, identification, phylogeny and systematics, morphology, distribution and zoogeography. **Prerequisites: BIOL F317 or permission of instructor; junior standing or above.** (2+3)

**BIOL F426 W,O/2**  Ornithology (n)
3 Credits  Offered Spring
Evolution, anatomy, physiology, distribution, migration, breeding biology of birds, their classification and identification. **Prerequisites: BIOL F115X; BIOL F116X; COMM F31X or COMM F41X; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor.** (2+3)

**BIOL F427**  Ichthyology (n)
4 Credits  Offered Spring
Major groups of fishes, emphasizing fishes of northwestern North America. Classification structure, evolution, general biology and importance to man. Cross-listed with FISH F427. (3+3)

**BIOL F433**  Conservation Genetics
3 Credits  Offered Spring
Concepts of population genetics, phylogenetics, pedigree analysis, systematics and taxonomy as they apply to conservation of species. Evaluating the impact of small population size, population fragmentation, inbreeding, hybridization, taxonomic uncertainties and other factors on viability and management of species. **Prerequisites: BIOL F271 or equivalent; BIOL F362 or equivalent; or permission of instructor. Recommended: BIOL F277; NRM F277. Cross-listed with WLF F433.** (3+0)

**BIOL F441 W,O/2**  Animal Behavior (n)
3 Credits  Offered Fall
Genetic and physiological bases of behavior, evolutionary and ecological principles of individual and social behavior, sociobiology and techniques of behavioral observation and analysis. **Prerequisites: BIOL F271; BIOL F310; COMM F313X or COMM F414X; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor.** (2+3)

**BIOL F443 W**  Microbial Ecology
3 Credits  Offered Fall Odd-numbered Years
Interactions of microorganisms with their environment, emphasizing microbial responses to the environment, microbial processes such as nutrient cycling and pollutant biodegradation, and microbial interactions with each other, plants and animals. **Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; BIOL F271 or BIOL F432; or permission of instructor.** (3+0)

**BIOL F445 W,O**  Molecular Ecology and Evolution (s)
3 Credits  Offered Fall Odd-numbered Years
An introduction to theory and computational techniques used to analyze and interpret DNA sequence variation among populations and closely related species. Special fees apply. **Prerequisites: BIOL F362; BIOL F481.** Cross-listed with BIOL F645. (2+3)

**BIOL F455 W,O**  Environmental Toxicology
3 Credits  Offered Fall Even-numbered Years
Environmental toxicology will focus on the general properties and principles of persistent and/or poisonous (toxic) chemicals commonly encountered in air, water, fish and wildlife. Numerous natural and synthetic chemicals in the environment will be discussed from a global perspective with some bias towards arctic and subarctic regions. Special fees apply. **Prerequisites: CHEM F451 or BIOL F303; or one semester each of organic chemistry and cell or molecular biology; or permission of instructor.** Cross-listed with CHEM F455. Stacked with BIOL F656; CHEM F655. (0+0)

**BIOL F459 O/2**  Wildlife Nutrition
4 Credits  Offered Fall
The energy nutrient requirements of vertebrate animals in relation to their ecology, physiology and life history. Concepts and techniques used by wildlife biologists to understand relationships between wild animals and their habitats. Techniques for constructing energy and nutrient budgets of wild animals and applications of these budgets to population-level processes and habitat management. **Prerequisites: COMM F313X or COMM F414X; BIOL F310; BIOL F271; or permission of instructor.** Cross-listed with WLF F450. Stacked with BIOL F659; WLF F660. (3+3)

**BIOL F462 O**  Concepts of Infectious Disease
3 Credits  Offered Spring
Covers infectious disease biology using examples of different pathogens and exploring the concepts of their biology and the implication of these principles on pathology, epidemiology and sociology of infectious diseases. **Prerequisites: BIOL F261 or BIOL F342; or permission of instructor.** Stacked with BIOL F662. (3+0)

**BIOL F465**  Immunology
3 Credits  Offered Spring Odd-numbered Years
Adaptive immune response including its components and activation from cells to molecules, clonal selection, antigen recognition, and discrimination between foreign and self. Concepts applied on the level of intact organisms addressing allergies, autoimmune, transplantation, tumors and disease (AIDS). **Prerequisites: BIOL F115X and BIOL F116X and BIOL F310; or BIOL F111X and BIOL F112X; or permission of instructor.** (3+0)

**BIOL F469 O**  Landscape Ecology and Wildlife Habitat
3 Credits  Offered Spring
A problem-based learning and critical thinking approach to modern methods in landscape ecology, including geographic information systems, remote sensing, modeling, software and the Internet. Graduate students are expected to help undergraduates with occurring problems and questions. Special fees apply. **Prerequisites: BIOL F271 or equivalent; COMM F313X or COMM F414X.** Cross-listed with WLF F469. (2+3)

**BIOL F471**  Population Ecology (n)
3 Credits  Offered Spring
Structure of populations of plants and animals, including population structure, natality, mortality, population growth, regulation of population size, population interactions in competition, herbivory, predation and parasitism. **Prerequisites: A calculus course and BIOL F271.** (2+3)

**BIOL F472 W**  Community Ecology (n)
3 Credits  Offered Fall Even-numbered Years
Structure of plant and animal communities and their organization. Structuring forces of competition, predation, herbivory, mutualisms, and the flow of energy and nutrients. Lattitudinal gradients in species richness and biogeography. **Prerequisites: BIOL F271; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor.** (2+3)

282 Course Descriptions
BIOL F473 W  Limnology
4 Credits  Offered Fall
The ecology of inland waters emphasizing lakes and rivers. Lecture provides graphically oriented view of concepts. Workshops provide role-playing exercises for integrating social, economic and ecological aspects of managing freshwater systems. Laboratory involves team-based original research from proposal to manuscript. Special fees apply. Prerequisites: BIOL F115X; BIOL F116X; BIOL F271; CHEM F105X; CHEM F106X; ENGL F111X; ENGL F211X or F213X or permission of instructor. (2+3+2)

BIOL F475  Vegetation Description and Analysis 🌿
3 Credits  Offered Fall Even-numbered Years
Methods of vegetation science including sampling, classification, gradient analysis, ordination, field description and mapping. Field trips to the plant communities of interior Alaska. Special fees apply. Prerequisites: BIOL F239 or BIOL F233 or BIOL F271 or BIOL F331; or permission of instructor. Stacked with BIOL F689 (2+3)

BIOL F476  Ecosystem Ecology
3 Credits  Offered Fall Odd-numbered Years
Focus on the biological and physical principles that govern functioning of terrestrial ecosystems. Emphasis on how plants, animals and microorganisms control the movement of water, carbon and nutrients through ecosystems. Discussion of how changes in these processes have altered global cycles of carbon, water and nutrients and sustainability of the world's ecosystems. Prerequisites: BIOL F271 or BIOL F239 or permission of instructor. (3+0)

BIOL F481  Principles of Evolution
4 Credits
Patterns and processes of evolutionary change are used to explore the unifying principles of the biological sciences. Basic models of population genetics, quantitative genetics, development, phylogenetics and systematics are used to build a conceptual framework for study of living systems. Special fees apply. Prerequisites: BIOL F271 or BIOL F239 or BIOL F271 or BIOL F331; junior standing; or permission of instructor. Note: STAT F200X may be taken concurrently. Stacked with BIOL F681. (3+3)

BIOL F483  Stream Ecology
3 Credits  Offered Spring
The ecology of streams and rivers focusing on physical, chemical and biological processes. Prerequisites: BIOL F115X; BIOL F116X; BIOL F271. Recommended: CHEM F105X; CHEM F106X. (3+0)

BIOL F485  Global Change Biology 🌍
3 Credits  Offered Fall Odd-numbered Years
Contemporary science and policy concerns of global change that involve biological processes. Includes structural and functional responses and sensitivities of biological processes to environmental changes (such as climate and human uses of land and biological resources); implications of biological responses to global change for conservation and management of biological resources; and the social and economic consequences of biological responses to global change. Prerequisites: BIOL F271; CHEM F105X; CHEM F106X. Cross-listed with WLF F485. (3+0)

BIOL F486  Vertebrate Paleontology (n)
3 Credits  Offered Spring Odd-numbered Years
The study of vertebrate evolution through geologic time. Covers the temporal range, diversity and systematics of major vertebrate groups as documented in the fossil record, with an emphasis on current problems in vertebrate evolutionary pattern and process. Labs emphasize comparative morphology and identification of major vertebrate groups. Prerequisites: BIOL F310; or BIOL F317; or GEOS F313; or permission of instructor. Cross-listed with GEOS F486. (2+3)

BIOL F487  Conceptual Issues in Evolutionary Biology
3 Credits  Offered Spring Odd-numbered Years
Analysis of some of the main models which explain evolutionary change, followed by consideration of the practical implications these models have on the study of biological phenomena in general. Cross-listed with PHIL F487. (3+0)

BIOL F488  Arctic Vegetation Ecology: Geobotany
3 Credits  Offered Spring Even-numbered Years
Arctic plants in relationship to Earth, including arctic plant identification, climate, geology and geography controls on arctic plant communities, snow ecology, applications to wildlife studies and current Arctic issues. Lecture, labs, and 1 winter field trip. Special fees apply. Prerequisites: BIOL F115 and BIOL F116 or equivalent; BIOL F239 or BIOL F271; or approval of instructor. Stacked with: BIOL F688 (3+1)

BIOL F602  Research Design
3 Credits  Offered Fall
An introduction to the philosophy, performance and evaluation of hypothetic/ deductive research in the biological sciences, with emphasis on hypothesis formulation and testing. Each student will develop a research proposal. Prerequisite: Graduate standing or permission of instructor. Cross-listed with WLF F602. (3+0)

BIOL F604  Scientific Writing, Editing, and Revising in the Biological Sciences
3 Credits  Offered Spring
For students who are ready to produce a manuscript or thesis chapter. Topics include the publishing process (e.g., the role of editors and reviewers), preparing to write (selecting a journal, authorship), the components of the scientific paper, revising and editing manuscripts, and responding to reviews. Students will produce a complete manuscript. Prerequisites: Graduate standing in Biology, Wildlife, or related discipline and permission of instructor. Cross-listed with WLF F604. (3+0)

BIOL F605  Animal Stable Isotope Ecology
3 Credits  Offered Spring Odd-numbered Years
Recent primary literature in stable isotope ecology, which uses naturally occurring variation in stable isotopes of carbon, nitrogen, oxygen, hydrogen and sulphur as markers of organismal and ecological processes. The focus will be on animal studies, including diet reconstruction, mixing models, food web, metabolism, nutrient allocation and migration. Prerequisite: Graduate standing; or permission of instructor. (3+0)

BIOL F613  Resilience Internship
2 Credits  Offered Fall
Students of the Resilience and Adaptation Program participate in internships to broaden their interdisciplinary training, develop new research tools, and build expertise outside their home disciplines. Internships are for eight to ten weeks of full time commitment and take place during the student's first summer in the program. In the autumn students meet to discuss their internship experiences and make public presentations. Prerequisites: ANTH/BIOL/ECON/NRM F667; ANTH/BIOL/ECON/NRM F668; or permission of instructor. Cross-listed with ANTH F617; ECON F613; NRM F613. (2+0)

BIOL F614  Foraging Ecology
2 Credits  Offered Fall Even-numbered Years
The dynamics of herbivory, emphasizing the foraging process, and including mechanisms of feeding, feeding behavior, habitat and plant selection, physiological influences on feeding, plant and community level responses, plant defenses against herbivory and management of plant-herbivore systems. Prerequisites: Graduate standing or approval of instructor. Cross-listed with WLF F614. (2+0)

BIOL F615  Systematic and Comparative Biology
3 Credits  Offered Fall Even-numbered Years
Concepts of systematic biology basic to a rigorous and complete understanding of modern evolutionary theory. Systematics provides the historical framework critical to a variety of comparative analyses in biology. Recent innovations in phylogenetic analyses will be explored. Prerequisites: Graduate standing in biology or permission of instructor. (3+0)
BIOL F616 Ecological Background for Resilience and Adaptation
1 Credit Offered Fall
Provides the ecological background that is necessary for understanding the role of ecology in complex systems involving interactions among biological, economic, and social processes. Designed for incoming students of the Resilience and Adaptation Program (RAP), who have not received training in ecology. Prerequisites: Graduate student enrollment or permission of instructor. Cross-listed with NRM F616. (1+0)

BIOL F617 Neurobiology
3 Credits Offered Spring Even-numbered Years
Organization and function of the vertebrate nervous system from the subcellular to organizational levels. Neural bases of sensations, specific behaviors and homeostasis. Applications of basic neurobiological research to pathological conditions. Examples taken mostly from the recent vertebrate literature. Prerequisites: BIOL F310 and graduate standing; or permission of instructor. Stacked with BIOL F417. (3+0)

BIOL F618 Biogeography
3 Credits Offered Fall
This course explores the geography of life by examining linkages between climate, geomorphology, and ecological communities with emphasis on the biogeography of subarctic, polar and alpine regions. Prerequisites: Graduate standing or permission of instructor. Cross-listed with GEOG F618. Stacked with BIOL F418 and GEOG F418. (3+0)

BIOL F622 Current Issues in Conservation Biology
3 Credits Offered Spring Odd-numbered Years
Critical discussion of contemporary issues concerning extinction patterns, population viability and the preservation, design and management of habitats for populations/species of concern. Stresses integration of principles and policies into strategies for biological conservation. Prerequisites: Graduate standing; BIOL F471 or WLF F410; or permission of instructor. Cross-listed with GEOG F622. (3+0)

BIOL F629 Advanced Animal Behavior
3 Credits Offered Fall Even-numbered Years
Adaptive nature of behavior in relation to the physical, biological and social environment. Focus on mechanistic (endocrinological and molecular) approaches to studying behavior. Prerequisites: BIOL F441 and graduate standing; or permission of instructor. (3+0)

BIOL F633 Conservation Genetics
4 Credits Offered Spring
Concepts of population genetics, phylogenetics, pedigree analysis, systematics and taxonomy as they apply to conservation of species. Evaluating the impact of small population size, population fragmentation, inbreeding, hybridization, taxonomic uncertainties and other factors on viability and management of species. Prerequisites: BIOL F271 and BIOL F362 or equivalent or permission of instructor. Recommended: BIOL F277; NRM F277. Cross-listed with WLF F633. (3+3)

BIOL F644 Advanced Topics in Evolution
3 Credits Offered Spring
Modern theory and subdisciplinary directions in the expanding field of evolutionary biology. Topics include adaptation, speciation, reinforcement, comparative method, group selection, phylogeography, advanced systematics, geographic variation and the role of evolutionary biology in society. May be repeated for credit when content varies. Prerequisites: Undergraduate course in evolution or permission of instructor. (3+0)

BIOL F645 W,O Molecular Ecology and Evolution
3 Credits Offered Fall Odd-numbered Years
An introduction to theory and computational techniques used to analyze and interpret DNA sequence variation among populations and closely related species. Special fees apply. Prerequisites: BIOL F362; BIOL F481; graduate standing or permission of instructor. Stacked with BIOL F445. (2+3)

BIOL F647 Global to Local Sustainability
3 Credits Offered Fall
Explores basic principles that govern resilience and change of ecological and social systems. Principles are applied across a range of scales from local communities to the globe. Working within and across each of these scales, students address the processes that influence ecological, cultural and economic sustainability, with an emphasis on northern examples. Prerequisites: Graduate standing in a natural science, social science, humanities, or interdisciplinary program at UAF; and permission of instructor. Cross-listed with ANTH F647; ECON F647; NRM F647. (3+0)

BIOL F649 Integrated Assessment and Adaptive Management
3 Credits Offered Spring
Interdisciplinary exploration of the theoretical and practical considerations of integrated assessment and adaptive management. Students survey concepts important in understanding societal and professional-level decision-making. Students work as individuals and as a team to undertake case studies with relevance to integrated assessment and adaptive management. The class builds a portfolio of cases and conducts an integrated assessment. Note: In case of enrollment limit, priority will be given to graduate students in the Resilience and Adaptation Program in order for them to be able to meet their core requirements. Prerequisites: Graduate student standing in a natural science, social science, humanities or interdisciplinary program at UAF or another university; or permission of instructor. The course is designed to fit into the sequence of Resilience and Adaptation Program's core courses. It is open to other graduate students interested in and prepared to conduct interdisciplinary studies relating to sustainability. Recommended: ANTH/BIOL/ECON/NRM F647; ANTH/BIOL/ECON/NRM F667. In case of enrollment limits, priority will be given to graduate students in the Resilience and Adaptation Program in order for them to be able to meet their core requirement. Cross-listed with ANTH F649; ECON F649; NRM F649. (3+0)

BIOL F656 Environmental Toxicology
3 Credits Offered Fall Even-numbered Years
Environmental toxicology will focus on the general properties and principles of persistent and/or poisonous (toxic) chemicals commonly encountered in air, water, fish and wildlife. Numerous natural and synthetic chemicals in the environment will be discussed from a global perspective with some bias towards arctic and subarctic regions. Special fees apply. Prerequisites: CHEM F451; BIOL F303; or one semester each of organic chemistry and cell or molecular biology or permission of instructor. Cross-listed with CHEM F655. Stacked with BIOL F455; CHEM F455. (3+0)

BIOL F659 Wildlife Nutrition
4 Credits Offered Fall
The energy nutrient requirements of vertebrate animals in relation to their ecology, physiology and life history. Concepts and techniques used by wildlife biologists to understand relationships between wild animals and their habitats. Techniques for constructing energy and nutrient budgets of wild animals and applications of these budgets to population-level processes and habitat management. Special fees apply. Prerequisites: BIOL F310; BIOL F271; graduate standing; or permission of instructor. Cross-listed with WLF F660. Stacked with BIOL F459; WLF F460. (3+3)

BIOL F662 Concepts of Infectious Disease
3 Credits Offered Spring
Covers infectious disease biology using examples of different pathogens and exploring the concepts of their biology and the implication of these principles on pathology, epidemiology and sociology of infectious diseases. Prerequisites: Graduate standing; BIOL F261 or BIOL F342; or permission of instructor. Stacked with BIOL F462. (3+0)

BIOL F665 Aquatic Entomology
2 Credits Offered Fall Odd-numbered Years
Aquatic invertebrate taxonomy, mostly to the family level, and ecology. Includes field trips to learn collecting techniques and habitats. Special fees apply. Prerequisites: Graduate standing or permission of instructor;
Students must be able to safely wade in streams and wetlands. Cross-listed with FISH F665. (1+3)

BIOL F666 Scientific Teaching
2 Credits Offered Spring Even-numbered Years
This course explores methods for teaching science at the university level. Emphasis is placed on methods of course design, instructional techniques, assessment and course management that have been shown by research to improve student learning. This course is intended for graduate students in the sciences who have an interest in improving their teaching skills. The course format will be a mixture of discussion, workshops and seminars. If the course is over-enrolled, priority will be given to teaching assistants who are assigned to teach large, introductory level (100 or 200 level) courses during the semester they are taking this course. **Prerequisites:** Graduate standing or permission of the instructor. Cross-listed with CHEM F666 and GEOS F666 (2+0)

BIOL F667 Resilience Seminar I
1 Credit Offered Fall
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. A considerable portion of the seminar is student-directed, with students assuming leadership in planning seminar activities with the instructor. Graded Pass/Fail. **Prerequisites:** Student must be enrolled in Resilience and Adaptation graduate program or permission of instructor. Recommended: ANTH/BIO/L/CON/NRM F647 (taken concurrently). Cross-listed with ANTH F667; ECON F667; NRM F667. (2+0)

BIOL F668 Resilience Seminar II
1 Credit Offered Spring
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. The seminar provides support to each student planning his/her summer internship and preparing and presenting a thesis research prospectus. Graded Pass/Fail. **Prerequisites:** Student must be enrolled in Resilience and Adaptation graduate program or permission of instructor. Cross-listed with ANTH F668; ECON F668; NRM F668. (2+0)

BIOL F669 Landscape Ecology and Wildlife Habitat
3 Credits Offered Spring
A problem based learning and critical thinking approach to modern methods in landscape ecology, including geographic information systems, remote sensing, modeling, software and the Internet. Graduate students are expected to help undergraduates with occurring problems and questions. Special fees apply. **Prerequisites:** Graduate standing. Cross-listed with WLF F669. (2+3)

BIOL F672 Ecosystem Processes
3 Credits Offered Fall Odd-numbered Years
A comparative approach to the structural and functional components of terrestrial ecosystems, emphasizing primary and secondary production and the dynamics of nutrient cycling processes. Interactions between producers, consumers and decomposition processes, and effects on the efficiencies of nutrient and energy transfers. **Prerequisites:** Graduate standing or permission of instructor. (2+2)

BIOL F675 Plant Physiological Ecology
3 Credits Offered Fall Even-numbered Years
Physiological ecology of dormancy, germination, growth, photosynthesis, water relations and nutrition with an emphasis on northern and other stressful environments; relationship to community and ecosystem processes. **Prerequisites:** Graduate standing; BIOL F239; BIOL F334; BIOL F474; or permission of instructor. (2+3)

BIOL F676 Interdisciplinary Modeling of High Latitude Global Change
4 Credits Offered Fall Even-numbered Years
Introduces students to approaches to modeling how regional and global environmental change influences biological and social systems in high latitudes and how the responses of these systems influence the regional and global functioning of the earth system. **Prerequisites:** STAT F200X or equivalent; graduate standing; or permission of instructor. Cross-listed with NRM F676. (3+3)

BIOL F677 Advanced Topics in Plant Ecology and Systematics
3 Credits Offered Spring
One of four topics is covered each year: 1) Current issues and concepts in plant population and community ecology. 2) Reproductive ecology — pollination, seed dispersal, breeding systems and coevolution. 3) Plant families of the world. 4) Plant-plant interactions — evolution and ecology. Note: May be repeated for credit when topic differs. **Prerequisites:** BIOL F474; graduate standing; or permission of instructor. (3+0)

BIOL F679 Cellular and Molecular Neuroscience
3 Credits Offered Fall Even-numbered Years
The goal of this course is to provide an overview of the cellular and molecular underpinnings of signaling in the nervous system. Discussions will be focused on properties of excitable membranes, synaptic transmission, and neurological integration. Fundamentals of the functional properties of neurons will provide the background for discussions of small neuronal circuits that regulate behavior, the cellular/molecular basis of learning and memory, and pharmacological approaches for the treatment of neuronal pathologies. **Prerequisites:** Two F300-level courses in BIOL or CHEM; MATH F200 or MATH F272; or permission of the instructor Recommended: MATH F201 Cross-listed with CHEM F470; CHEM F670 (3+0)

BIOL F680 Data Analysis in Biology
3 Credits Offered Fall Even-numbered Years
Biological applications of nonparametric statistics, including tests based on binomial and Poisson distributions, analysis of two-way and multi-way contingency tables, and tests based on ranks; multivariate statistics, including principal component analysis, ordination techniques, cluster analysis, and discriminate analysis; and time-series analysis. Introduction to the use of the computer and use of statistical packages. Each student will analyze a data set appropriate to the student's research interests. **Prerequisites:** STAT F200X; STAT F401; either graduate standing in a biologically oriented field; or permission of instructor. Cross-listed with WLF F680. (2+3)

BIOL F681 Principles of Evolution
4 Credits
Patterns and processes of evolutionary change are used to explore the unifying principles of the biological sciences. Basic models of population genetics, quantitative genetics, development, phylogenetics and systematics are used to build a conceptual framework for study of living systems. Special fees apply. **Prerequisites:** Graduate standing with courses in genetics, ecology and statistics; or permission of instructor. Stacked with BIOL F481. (3+3)

BIOL F686 Vertebrate Paleontology
3 Credits Offered Spring Odd-numbered Years
The study of vertebrate evolution through geologic time. Covers the temporal range, diversity and systematics of major vertebrate groups as documented in the fossil record, with an emphasis on current problems in vertebrate evolutionary pattern and process. Labs emphasize comparative morphology and identification of major vertebrate groups. **Prerequisites:** BIOL F310; or BIOL F317; or GEOS F315; or permission of instructor. Cross-listed with BIOL F486; GEOS F486. (2+3)

BIOL F687 Conceptual Issues in Evolutionary Biology
3 Credits Offered Spring Odd-numbered Years
Analysis of some of the main models which explain evolutionary change followed by consideration of the practical implications these models have on the study of biological phenomena in general. Cross-listed with PHIL F687. (3+0)
### BUSINESS ADMINISTRATION

Students enrolling in School of Management courses are expected to have completed the necessary prerequisites for each course.

A per-semester student computing facility user fee will be assessed for student enrolling in one or more Management courses (AIS, ACCT, BA and ECON) except ECON F100X. This fee is in addition to any materials fees.

**BA F151 Introduction to Business (s)**
3 Credits
Business organization, nature of major business functions such as management, finance, accounting, marketing, personnel administration. Opportunities and requirements for professional business careers. Also available via e-Learning and Distance Education. (3+0)

**BA F241 Advertising, Sales and Promotion**
3 Credits
Offered Fall or Spring
Advertising, publicity, sales management, sales promotion, direct marketing and the interrelationships necessary for effective promotions in domestic or international, small or large, goods or services, and for-profit or nonprofit organizations. (3+0)

**BA F233 Internship in Business**
1 – 3 Credits
Supervised work experience in an approved position related to the student's career interests or objectives. Number of credits depends on type of position and time worked. No student can count more than eight internship credits towards a degree. Prerequisites: Approval of program or department head. (1 – 3+1 – 3)

**BA F254 Personal Finance**
3 Credits
Emphasis on personal investments and financial management. (3+0)

**BA F280 Sports Leadership**
3 Credits
Offered As Demand Warrants
Provides leadership theory and develop leadership skills for application internal and external to their sport. Focus on the identification and development of leadership skills/abilities and application within the classroom, a sport and for an on-campus project. (3+0)

**BA F281 Sports Management**
3 Credits
Offered As Demand Warrants
Provides a basic understanding of managing amateur and professional sports organizations and the legal issues involved. Topics such as stadium financing, risk management contracts and human resource management, public versus private sector labor laws, collective bargaining and drug testing will be examined. Prerequisites: Sophomore standing. (3+0)
BA F423 W  Investment Analysis  
3 Credits  Offered Spring  
Introduction to investment analysis. Presents an understanding of the investment environment and analytical tools in investing. Intended for undergraduate students. Prerequisites: BA F325; ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

BA F424  Real Estate and Alternative Investments  
3 Credits  Offered Spring  
Develop skills required to value and finance residential and commercial real estate. Financing instruments, markets and taxation issues specific to real estate are covered in the first half; alternative investments such as REITs will be presented in the second half of the course. Prerequisites: BA F325. (3+0)

BA F436  Consumer Behavior  
3 Credits  Offered Fall or Spring  
Effects of nationality, culture, social class, family, personality, symbolism and persuasion on consumptive behavior. Qualitative methodologies such as focus groups covered. Prerequisites: BA F343 or PSY/SOC F330. (3+0)

BA F443 W  Marketing Research  
3 Credits  Offered Fall or Spring  
Basic processes and tools of marketing research with emphasis on utilization of research findings as an integral part of the managerial decision-making process. Techniques of qualitative and quantitative data-gathering and analysis to solve a marketing problem. Practices appropriate to domestic or international, small or large, goods or services, and for-profit or nonprofit organizations. Prerequisites: BA F343; ECON F227; ENGL F111X; ENGL F211X or ENGL F213X; upper division B.B.A. standing; or permission of the SOM advisor. (3+0)

BA F447 W,O  Compensation Management  
3 Credits  Offered Fall or Spring  
Theory and practice of wage and salary, benefits and risk management. Planning, administration, auditing, adjusting and budgeting for compensation and risk. Prerequisites: BA F307; COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

BA F452 W  Internship in Emergency Management  
3 Credits  Offered As Demand Warrants  
A supervised practical work experience to enable students to apply their coursework in a fire department or closely related field of emergency services. Admission dependent upon approved sponsorship arrangements. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; B.E.M. degree major; upper division standing; permission of instructor. Recommended: Four semesters of bachelor core; business administration courses. (0+6)

BA F453  Internship in Business Administration  
1 – 3 Credits  Offered As Demand Warrants  
A supervised practical work experience to enable students to apply their coursework in a business environment. Admission dependent upon approved sponsorship arrangements. Repeated for a maximum of six credits. Prerequisites: Accumulative 3.0 GPA in ACCT and BA courses. (0+2 – 9)

BA F454 O  Student Investment Fund  
3 Credits  
Hands-on experience in portfolio management. Students will be making investment and diversification decisions affecting the $500,000 Student Investment Fund. Prerequisites: COMM F131X or COMM F141X; BA F325 or equivalent; upper division B.B.A. standing; permission of the SOM advisor or instructor. (3+0)

BA F455  Portfolio Management  
3 Credits  
The second course involved with the hands-on management of the $500,000 Student Investment Fund. Students will carry out the duties of officers of the fund and will be responsible for portfolio diversification and management decisions affecting the fund. Prerequisites: BA F454; upper division B.B.A. standing; permission of the SOM advisor or instructor. (3+0)

BA F456 W  Small Business Management  
3 Credits  Offered Fall or Spring  
Operations and special problems of the small business with emphasis on both existing firms and new ventures. Starting new businesses, buying going concerns, acquiring and operating franchises, establishing lines of credit, management, legal matters, profit planning, pricing, inventory levels, record systems, tax regulations and employee supervision. Prerequisites: ACCT F261; ACCT F262; ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

BA F457  Training and Management Development  
3 Credits  Offered Fall or Spring  
Theory and practice of employee training programs, needs assessments, learning theories, instructional design, training techniques and evaluation, management development and career development techniques and practices. Prerequisites: BA F307. (3+0)

BA F460 O  International Business  
3 Credits  Offered Fall or Spring  
Relationships among nations with particular emphasis on the business, economic, and sociocultural institutions that influence the performance of managers. Formulation of objectives, strategies and organizational structures within the context of international diversity. Prerequisites: COMM F131X or COMM F141X. Recommended: Senior standing. (3+0)

BA F461  International Finance  
3 Credits  Offered Fall or Spring  
Development of analytical skills, logical thought processes and information literacy necessary to make and implement investment decisions in a global setting. Prerequisites: BA F325. (3+0)

BA F462 O  Corporate Strategy  
3 Credits  
An integrative approach to strategy formation and implementation to achieve organization goals. Students will be introduced to theoretical perspectives and associated methodologies directed toward resolving the unstructured problems and opportunities which confront general managers at the highest levels of an organization. Prerequisites: COMM F131X or COMM F141X; ACCT F262; BA F325; BA F343; BA F360; BA F390; ECON F321 or ECON F322 or ECON F324 or ECON F350; upper division B.B.A. standing; or permission of the SOM advisor. ACCT F352 or ACCT F342. (3+0)

BA F467  Current Topics in Management  
3 Credits  Offered Fall or Spring  
Examines current management trends with regard to major theories and practices in the field. Topics of interest could include organizational development, performance appraisal, personnel selection and international human resources management. Prerequisites: BA 307, BA 390. (3+0)

BA F490  Services Marketing  
3 Credits  Offered Fall or Spring  
Marketing principles in the service sector with special emphasis on such service industries as banking, healthcare, recreation, retailing and tourism. Includes practices appropriate to domestic or international, small or large, and for-profit organizations. Prerequisites: BA F343. (3+0)

BA F491  Current Topics in Marketing  
3 Credits  Offered Fall or Spring  
Examines current marketing trends with regard to production, distribution, promotion, pricing and target markets. Focus on trends in Alaska, the U.S. and worldwide. Prerequisites: BA F343. (3+0)
CHEMISTRY

A per-semester fee for computer facilities will be assessed for one or more CHEM courses at the F200-level and above. This fee is in addition to any lab/materials fees.

CHEM F100X Chemistry in Complex Systems (n) 4 Credits Fundamentals of chemistry with an emphasis on the role of chemistry in environmental and life systems. The role of feedback systems on chemical behavior is illustrated in atmospheric, aquatic, nuclear and nutritional systems. For non-science majors. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor. (3+3)

CHEM F103X Basic General Chemistry (n) 4 Credits Fundamentals of chemistry including historical and descriptive aspects as well as basic mathematical concepts. Fulfills the laboratory part of the natural science requirement and prepares the student for CHEM F105X. Note: This course satisfies elective credit only. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor. (3+3)

CHEM F104X A Survey of Organic Chemistry and Biochemistry (n) 4 Credits Offered Spring Fundamentals of chemistry as applied to biological systems. Bridges the gap between a general chemistry course and biochemical concepts of other health-related sciences. Recommended for health-science degree candidates and non-science majors interested in the central role of chemistry in life. May be used to meet the general laboratory science requirement or for preparation for CHEM F105X. Special fees apply. Prerequisites: CHEM F103X; placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor. (3+3)

CHEM F105X General Chemistry I (n) 4 Credits CHEM F105X – F106X, together, constitute the standard one-year engineering and science-major general chemistry course with laboratory. Major subjects include measurements, calculations, atomic and molecular structure, gas laws, stoichiometry, an introduction to organic chemistry, chemical reactions and related energy changes. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in MATH F107X or higher; or a B or better in CHEM F103X; or permission of instructor and department chair. Co-requisite: CHEM F105L. Students must be enrolled in both CHEM F105X and CHEM F105L to receive full credit. (3+3)

CHEM F106X General Chemistry II (n) 4 Credits Students employ the scientific method to approach a problem of personal interest. Student work is molded into a research paper delivered orally in a formal scientific presentation for judges with wide-ranging experiences. Graded Pass/Fail. Special fees apply. Prerequisites: C Grade or better in CHEM F105X; placement in ENGL F111X or higher; placement in MATH F107X or higher; or permission of instructor and department chair. Co-requisite: CHEM F106L. Students must be enrolled in both CHEM F106X and CHEM F106L to receive full credit. (3+3)

CHEM F190 Alaska Statewide High School Science Symposium 2 Credits Offered Spring Students employ the scientific method to approach a problem of personal interest. Student work is molded into a research paper delivered orally in a formal scientific presentation for judges with wide-ranging experiences. Graded Pass/Fail. Special fees apply. Prerequisites: High School student grades 9 – 12. Recommended: Research completion, abstract and paper writing/submission, ASHSSS presentation. (0+10)

CHEM F202 Basic Inorganic Chemistry (n) 3 Credits Offered Spring Introduction to coordination theory, crystal field theory, kinetics and mechanisms of substitutions and redox reactions, unit cells and ionic bonding, periodic law, and descriptive chemistry of selected main group elements. Special fees apply. Prerequisites: CHEM F106X. (2+3)

CHEM F212 Chemical Equilibrium and Analysis (n) 4 Credits Offered Fall Aqueous chemical equilibrium as applied to chemical analysis, separations, spectrophotometry, potentiometry and factors considered in the analytical approach. Lab portion will include introductory experiments in analytical and instrumental techniques. Special fees apply. Prerequisites: Grade of C or better in CHEM F106X; MATH F107X or equivalent. (3+3)

CHEM F261 Introduction to Cell and Molecular Biology (n) 4 Credits An introduction to the structure and function of cells. Topics include: the structure and function of cellular components, including proteins, membranes and organelles; understanding how cells communicate; and how information is processed in the cell via DNA replication, transcription and translation. Special fees apply. Prerequisites: BIOL F115X; BIOL F116X; CHEM F105X; CHEM F106X. Cross-listed with BIOL F261. (3+3)

CHEM F313 Chemical Analysis of Dynamic Systems (n) 2 Credits Offered Fall Introduction to modern methods of chemical analysis for the solution of specific environmental or biochemical problems. Focus on planning efficient experiments, assuring reliable results and specific operations done in the lab. Laboratory experiments are multi-week projects requiring bench chemistry and instrumental methods. Collaborative groups are used in the laboratory and in writing laboratory reports. Special fees apply. Co-requisite: CHEM F212 or junior standing. (1+4)

CHEM F321 Organic Chemistry I 3 Credits Offered Fall A systematic study of the more important functional groups of carbon compounds, including their mechanisms of reaction, methods of synthesis, and physical and spectroscopic properties. Prerequisites: CHEM F106X or permission of instructor. (3+0)

CHEM F322 Organic Chemistry II 3 Credits Offered Spring A systematic study of the more important functional groups of carbon compounds, including their mechanisms of reaction, methods of synthesis and physical and spectroscopic properties. Prerequisites: CHEM F321 or permission of instructor. (3+0)

CHEM F323 Organic Chemistry Laboratory 3 Credits Offered Spring A laboratory designed to illustrate modern techniques of isolation, purification, analysis and structure determination of covalent, principally organic, compounds. Intended for health science majors; chemistry majors must take CHEM F324W instead. Co-requisite: CHEM F322. (1+6)

CHEM F324 W Advanced Organic Chemistry Laboratory (n) 4 Credits Offered Spring A laboratory designed to illustrate modern techniques of isolation, purification, analysis and structure determination of covalent, principally organic, compounds. Emphasis on research techniques including 2D nuclear magnetic resonance spectroscopy. Intended for chemistry majors. Special fees apply. Prerequisites: ENGL 211X or ENGL F213X; CHEM F212 or permission of instructor. Co-requisites: CHEM F322. (2+6)

CHEM F331 Physical Chemistry I 4 Credits Offered Fall Principles of thermodynamics and kinetics with applications to phase equilibria, solutions, chemical equilibrium and electrochemistry. Course teaches these concepts using both lecture and laboratory instruction.
CHEM F322 Physical Chemistry II  
4 Credits  
Offered Fall  
Atomic and molecular structure, and spectroscopy, and statistical mechanics. Course teaches these concepts using both lecture and laboratory instruction. Prerequisites: CHEM F331; MATH F202X; or permission of instructor. (3+3)

CHEM F402 Inorganic Chemistry  
3 Credits  
Offered Fall  
Symmetry and group theory, molecular orbital theory, solid state chemistry, acids and bases, redox reactions, non-aqueous solvents, descriptive chemistry of some main group elements. Prerequisites: CHEM F202; CHEM F322; CHEM F332. (1+6)

CHEM F406 Atmospheric Chemistry  
3 Credits  
Offered Spring Odd-numbered Years  
Chemistry of the lower atmosphere (troposphere and stratosphere) including photochemistry, kinetics, thermodynamics, box modeling, biogeochemical cycles and measurement techniques for atmospheric pollutants; study of important impacts to the atmosphere which result from anthropogenic emissions of pollutants, including acid rain, the “greenhouse” effect, urban smog and stratospheric ozone depletion. Prerequisites: CHEM F332 or equivalent or permission of instructor. Stacked with CHEM F606; ATM F606. (3+0)

CHEM F413 W Analytical Instrumental Laboratory (n)  
3 Credits  
Offered Spring  
A laboratory course focusing on the acquisition and interpretation of chromatographic and spectroscopic data for quantitative chemical measurements. Students will learn effective experimental planning and execution, critical evaluation of experimental data and written communication in the context of the chemical sciences. Special fees apply. Prerequisites: CHEM F212; ENGL F111X; ENGL F211X or ENGL F213X; Co-requisite: CHEM F332; Chemistry major or permission of instructor. (1+6)

CHEM F420 NMR Spectroscopy of Natural Products  
3 Credits  
Offered Fall Even-numbered Years  
Use of nuclear magnetic resonance (NMR) spectroscopy for the interpretation of the structure of organic molecules. Both one- and two-dimensional techniques will be covered. Theory will be introduced but most of the course will be structural elucidation by NMR. Includes training and use of the Varian Mercury NMR instrument. Prerequisites: CHEM F321; CHEM F322. Stacked with CHEM F620. (3+0)

CHEM F434 W Chemistry Capstone Laboratory (n)  
3 Credits  
Offered Fall  
A capstone laboratory course with three major components: 1) experiments related to concepts learned in physical, analytical and inorganic chemistry courses emphasizing kinetics, spectroscopy and thermodynamics; 2) computer use in problem solving, data analysis and word processing; and 3) technical writing with emphasis on preparation of papers for publication. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; CHEM F212; CHEM F202 or permission of instructor. Co-requisites: CHEM F332. (1+6)

CHEM F450 General Biochemistry — Macromolecules  
3 Credits  
Offered Fall  
Focuses on the biochemistry of the two principal macromolecules: nucleic acids and proteins. Topics include: nucleotides metabolism, DNA structure and topology, DNA replication, DNA repair and recombination, cell cycle regulation, RNA transcription and processing. Gene expression, translation and protein metabolism. Biomedical relevance and contemporary techniques will be addressed if appropriate. Prerequisites: CHEM F322 or permission of instructor. (3+0)

CHEM F451 General Biochemistry — Metabolism  
3 Credits  
Offered Spring  
The biochemistry of metabolism. Topics include: chemistry of amino acids and its implication, protein structure-function, enzyme catalysis, glucose and glycogen metabolism and regulation, bioenergetics, lipid metabolism and biomembranes, amino acid metabolism and regulation of metabolism. Biomedical relevance and contemporary techniques will be addressed if appropriate. Prerequisites: CHEM F321; or permission of instructor. Recommended: CHEM F331. (3+0)

CHEM F453 W,O Environmental Toxicology  
3 Credits  
Offered Fall Even-numbered Years  
Environmental toxicology will focus on the general properties and principles of persistent and/or poisonous (toxic) chemicals commonly encountered in air, water, fish and wildlife. Numerous natural and synthetic chemicals in the environment will be discussed from a global perspective with some bias towards arctic and subarctic regions. Special fees apply. Cross-listed with BIOL F455. Stacked with CHEM F655; BIOL F656. (0+0)

CHEM F470 Cellular and Molecular Neuroscience  
3 Credits  
Offered Fall Even-numbered Years  
The goal of this course is to provide an overview of the cellular and molecular underpinnings of signaling in the nervous system. Discussion will be focused on properties of excitable membranes, synaptic transmission, and neurological integration. Fundamentals of the functional properties of neurons will provide the background for discussions of small neuronal circuits that regulate behavior, the cellular/molecular basis of learning and memory, and pharmacological approaches for the treatment of neuronal pathologies. Prerequisites: Two F300-level courses in BIOL or CHEM; MATH F200 OR MATH F272; or permission of instructor. Recommended: MATH F201 Stacked with: CHEM F670 Cross-listed with: BIOL F679. (3+0)

CHEM F474 Neurochemistry  
3 Credits  
Offered Spring Even-numbered Years  
Covers basic and applied aspects of interneuronal signaling of specific neurotransmitter systems. Lectures will be based on chapters from assigned text as well as recent and historical literature relevant to these topics. Basic concepts introduced in lectures will be applied through guided discussion of original research papers. Students will learn to prepare “peer reviews” of selected papers and critically discuss original research. Prerequisites: BIOL F115X; CHEM F322; BIOL F4170 or CHEM F470 or PSY F335. (3+0)

CHEM F481 Seminar  
1 Credit  
Offered Fall  
Introduction to the techniques and style of technical oral presentation generally accepted by professional chemists. Class will meet two hours per week, the first hour in closed session, the second, open to the public. Seminar attendance and participation in observing and critiquing presentations by graduate students, chemistry faculty, and their peers is required. Note: Oral communication intensive credit is earned upon successful completion of CHEM F482. Graded Pass/Fail. Prerequisites: COMM F313X or COMM F414X. (2+0)

CHEM F482 O Seminar  
2 Credits  
Offered Fall  
Introduction to the techniques and style of technical oral presentation generally accepted by professional chemists. Class will meet two hours per week, the first hour in closed session, the second, open to the public. Preparation of a 40 minute presentation to be delivered twice, first, to others in the course in the closed session for critiquing and suggestions for improvement and later, in the open seminar for evaluation by all. Prerequisites: CHEM F481; COMM F313X or COMM F414X. (2+0)
CHEM F488 Undergraduate Chemistry and Biochemistry Research
2 – 3 Credits
Advanced research topics from outside the usual undergraduate laboratory offerings. The student will be required to make presentations and turn in a final report. Research areas range from atmospheric chemistry to molecular biology. A substantial level of chemistry or biochemistry background is assumed. Special fees apply. Prerequisites or Co-prerequisites: CHEM F324 or CHEM F434 or CHEM F413, or permission of instructor. (0+6 – 9)

CHEM F601 Introduction to Atmospheric Science
3 Credits Offered Fall
Fundamentals of atmospheric science. Includes energy and mass conservation, internal energy and entropy, atmospheric water vapor, cloud microphysics, equations of motion, hydrostatics, phase oxidation, heterogeneous chemistry, the ozone layer, fundamentals of biogeochemical cycles, solar and terrestrial radiation and radiative-convective equilibrium. Also includes molecular, cloud and aerosol absorption and scattering. Prerequisites: Graduate standing. Cross-listed with ATM F601. (3+0)

CHEM F602 Bioinorganic Chemistry
3 Credits Offered Fall Even-numbered Years
Survey of structure, functions and chemical properties of natural metalloproteins and metalloenzymes. Role of metalloproteins in nucleic acid formation and replication, metal-based medicines. Prerequisites: CHEM F450 or CHEM F451. (3+0)

CHEM F603 Aquatic Chemistry
3 Credits Offered Fall Even-numbered Years
Chemistry of aquatic systems, including the development of equilibrium and kinetic models to understanding the speciation, transformation and partitioning of inorganic chemical species in natural and engineered water systems. Emphasis is on the study of acid-base chemistry, complexation, precipitation-dissolution and reduction-oxidation reactions. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ENVE F641. (3+0)

CHEM F606 Atmospheric Chemistry
3 Credits Offered Spring Odd-numbered Years
Chemistry of the lower atmosphere (troposphere and stratosphere) including photochemistry, kinetics, thermodynamics, box modeling, biogeochemical cycles and measurement techniques for atmospheric pollutants; study of important impacts to the atmosphere which result from anthropogenic emissions of pollutants, including acid rain, the “greenhouse” effect, urban smog and stratospheric ozone depletion. Prerequisites/Co-requisite: ATM F601 or permission of instructor. Cross-listed with ATM F606. (3+0)

CHEM F609 Environmental Geochemistry
3 Credits Offered Spring Odd-numbered Years
Focus on advanced topics and methods in chemistry of aquatic and soil environments. Detailed treatment of the thermodynamic, kinetic and structural principles involved in the description and modeling of low-temperature aqueous geochemical systems. Particular emphasis on heterogeneous interactions, including dissolution/precipitation, sorption and microbial processes, involved in the partitioning, transformation and transport of chemical species in the environment. Prerequisites: ENVE F641 or GEOS F618 or permission of instructor. Cross-listed with GEOS F633. (3+0)

CHEM F618 Crystallography and Diffraction
3 Credits Offered Spring Even-numbered Years
The structure of solid-state materials and the analysis of materials using X-ray scattering techniques. Material structure topics will include crystal lattices, space-group symmetry, projections, the reciprocal lattice, and crystal chemistry. Methods for investigating the structure of materials and identification of phase will be covered in depth including fundamentals of X-ray scattering, diffraction from single crystals, powder diffraction (quantitative) phase analysis, Rietveld refinements, texture analysis, and reflectivity. Students will be trained in the use of modern X-ray disciplines including materials chemistry, mineralogy, petrology, and engineering materials with an emphasis on methods of data collection and analysis. Special fees apply. Prerequisite: Graduate standing or permission of the instructor. (3+2)

CHEM F620 NMR Spectroscopy of Natural Products
3 Credits Offered Fall Even-numbered Years
Use of nuclear magnetic resonance (NMR) spectroscopy for the interpretation of the structure of organic molecules. Both one- and two-dimensional techniques will be covered. Theory will be introduced but most of the course will be structural elucidation by NMR. Includes training and use of the Varian Mercury NMR instrument. Prerequisites: Graduate standing or permission of instructor. Stacked with CHEM F420. (3+0)

CHEM F621 Enzymology and Bio-Orgainc Chemistry
3 Credits Offered Spring Even-numbered Years
Applications of the methods and concepts of physical organic chemistry to enzyme-catalyzed reactions. Prerequisites: CHEM F451. (3+0)

CHEM F622 Biosynthesis of Plant Natural Products
3 Credits Offered Fall Even-numbered Years
Three major pathways of plant secondary metabolism: terpene, shikimate and acetogenic pathways. Includes discussion of offshoots of these pathways to various classes of alkaloids. Use of stable and radioisotopes in conjunction with modern NMR spectroscopy and kinetic isotope effects will be stressed. Prerequisites: CHEM F322. (3+0)

CHEM F623 Molecular Modeling
3 Credits Offered Spring Even-numbered Years
Theory and practice of quantum and molecular mechanics methods in organic, physical, inorganic and environmental chemistry and biochemistry; applications of computational software on workstations and multi-processor servers. Prerequisites: Graduate standing in chemistry of biochemistry, one year each of undergraduate organic, physical and analytical chemistry or equivalent or permission of instructor. Recommended: CHEM F402. (2+0+3)

CHEM F631 Environmental Fate and Transport
3 Credits Offered Spring Even-numbered Years
Examination of the physical properties that govern the behavior, fate and transport of contaminants released into the environment. Topics include air-water partitioning and exchange, organic solvent-water partitioning, diffusion, sorption, chemical and biological transformation reactions, and modeling concepts. Cross-listed with ATM F631. (3+0)

CHEM F632 Molecular Spectroscopy
3 Credits Offered Fall Odd-numbered Years
Application of quantum mechanics to molecular bonding and spectroscopy. Topics include: applications of lasers to probe chemical reactivity, photochemistry and the detection of trace compounds in mixtures. Variable content. May be repeated for credit. Prerequisites: CHEM F332 or permission of instructor. (3+0)

CHEM F654 Protein Structure and Function
3 Credits Offered Fall Odd-numbered Years
Contemporary topics in peptide and protein biochemistry. Topics include peptide synthesis, protein modification, comparative aspects of structure, protein engineering, enzyme and receptor function as well as molecular modeling. Prerequisites: CHEM F451. (3+0)

CHEM F655 Environmental Toxicology
3 Credits Offered Fall Even-numbered Years
Environmental toxicology will focus on the general properties and principles of persistent and/or poisonous (toxic) chemicals commonly encountered in air, water, fish and wildlife. Numerous natural and synthetic chemicals in the environment will be discussed from a global
CHEM F657 Molecular Foundations of Gene Expression
3 Credits Offered Fall Off-numbered Years
The molecular regulation of gene expression in prokaryotes and eukaryotes in the context of development and disease. Major topics include: protein/DNA interactions, structure-function relations of transcription factors, signal transduction, control of transcription and translation, chromatin structure and DNA replication. Prerequisites: CHEM F451; CHEM F456; CHEM F461 or equivalent; or permission of instructor. (3+0)

CHEM F658 Current Techniques in Biochemistry
3 Credits Offered Spring Even-numbered Years
Focuses on current techniques in biochemistry. This is a laboratory intensive course covering: Restriction Enzymes, polymerase chain reaction (PCR), DNA electrophoresis, Enzyme Linked Immunosorbert Assays (ELISA), DNA recombination and cloning, protein purification by affinity chromatography, protein electrophoresis, Western blots, enzyme kinetics, protein quantification by spectrophotometry, and basic tissue culture techniques. It is an important goal of this graduate course to emphasize experimental design, evaluation, and trouble shooting within each of the biochemical techniques and also to challenge students to develop their own experimental designs, evaluate the scope and limitations of the design/technique, and propose solutions for potential problems. Special fees apply. Prerequisite: CHEM F450; CHEM F451; graduate standing; or permission of the instructor. (3+0)

CHEM F660 Chemical Oceanography
3 Credits Offered Spring
An integrated study of the chemical, biological and physical processes that determine the distribution of chemical variables in the sea. The distribution of stable and radiotopes are used to follow complex chemical cycles, with particular emphasis on the cycles of nutrient elements. The chemistry of carbon is considered in detail. Implications of the mid-ocean ridge vent system to ocean chemistry are examined. Prerequisites: Graduate standing or permission of the instructor. Cross-listed with MSL F660. (3+0)

CHEM F666 Scientific Teaching
2 Credits Offered Spring Even-numbered Years
This course explores methods for teaching science at the university level. Emphasis is placed on methods of course design, instructional techniques, assessment and course management that have been shown by research to improve student learning. This course is intended for graduate students in the sciences who have an interest in improving their teaching skills. The course format will be a mixture of discussion, workshops and seminars. If the course is over-enrolled, priority will be given to teaching assistants who are assigned to teach large, introductory level (100 or 200 level) courses during the semester they are taking this course. Prerequisites: Graduate standing or permission of the instructor. Cross-listed with BIOL F666 and GEOS F666. (2+0)

CHEM F670 Cellular and Molecular Neuroscience
3 Credits Offered Fall Even-numbered Years
The goal of this course is to provide an overview of the cellular and molecular underpinnings of signaling in the nervous system. Discussions will be focused on properties of excitable membranes, synaptic transmission, and neurological integration. Fundamentals of the functional properties of neurons will provide the background for discussions of small neuronal circuits that regulate behavior, the cellular/molecular basis of learning and memory, and pharmacological approaches for the treatment of neuronal pathologies. Prerequisites: Two F300-level courses in BIOL or CHEM; MATH F200 OR MATH F272; or permission of instructor Recommended: MATH F201 Stacked with CHEM F670 Cross-listed with BIOL F679. (3+0)

CHEM F674 Membrane Biochemistry and Biophysics
3 Credits Offered Spring Odd-numbered Years
Basic biophysical and molecular processes associated with membrane-mediated events in the context of cellular physiology. Major topics includes biochemical and biophysical characteristics of membrane lipids; structure-function relation of membrane proteins; protein trafficking/targeting; vesicle transport and membrane fusion/exocytosis; the nature of membrane excitability; and the role of membrane in bioenergetics. Prerequisites: CHEM F451; CHEM F456; CHEM F461 or equivalent; or permission of instructor. (3+0)

CHEM F673 Cellular Signaling
3 Credits Offered Fall Even-numbered Years
Cellular signaling is of vital importance in complex biomolecular systems, development, physiology, and pathology and thus constitutes a major topic in modern medical and pharmacological research. This course concentrates on cellular signal transduction and regulation in higher animals and humans. Major topics include G-proteins, Protein kinases, Ca2+, cAMP, lipid mediators, adaptors proteins and signal recognition domains. Prerequisites: Upper division or graduate biochemistry or neurochemistry course or permission of instructor. (3+0)

CHEM F688 Biochemical and Molecular Biology Seminar
0 – 1 Credit
A seminar on various topics related to biochemistry and molecular biology including discussions of recent literature and research results. (1+0)

CHEM F691 Research Presentation Techniques
1 Credit Offered Fall
Review of recent research in chemistry to expose students to recent findings, methodologies and concepts in a broad range of chemistry and related disciplines. How to present and defend research proposals. Course may be repeated for credit. Prerequisites: Graduate standing in physical sciences or permission of instructor. (1+0)

CHEM F692 Seminar
1 – 6 Credits
(1 – 6+0)

CHINESE

Note: Two semester length courses in a single Alaska Native Language or other non-English language taken at the university level may replace 6 credits in the Perspectives on the Human Condition section of the Core. CHNS F101 – F102 may be used to meet this requirement but then may not be used to meet the humanities degree requirement.

CHNS F100A Chinese Culture and Conversation IA
3 Credits Offered As Demand Warrants
An introductory course in Chinese language and culture with an emphasis on the spoken pronunciation, and contemporary use of the language. This class does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. (3+0)

CHNS F100B Chinese Culture and Conversation IB
3 Credits Offered As Demand Warrants
A continuation of introduction to the Chinese language and culture with an emphasis on the spoken and written language. Course will focus on language skills to include grammar, vocabulary, pronunciation, and contemporary use of the language. This class does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. Prerequisites: CHNS F100A or permission of the instructor. (3+0)
CHNS F100C | Chinese Culture and Conversation IIA  
3 Credits | Offered As Demand Warrants  
This is the first semester course of second-year examination of Chinese culture and conversation (a continuation of CHNS F100B). The student will continue to progress in the basic skills of listening, speaking, reading, and writing by learning more characters/vocabulary and broadened sentence patterns. Grammar and sentence pattern analysis will be presented systematically with respect to the course materials to help students establish a solid foundation for the use of language.  
Prerequisites: CHNS F100B or permission of the instructor. (3+0)

CHNS F100D | Chinese Culture and Conversation IIB  
3 Credits | Offered As Demand Warrants  
The second semester course of second-year examination of Chinese culture and conversation (a continuation of CHNS F100C). The student will continue to progress in the basic skills of listening, speaking, reading, and writing by learning more characters/vocabulary and broadened sentence patterns. Grammar and sentence pattern analysis will be presented systematically with respect to the course materials to help students establish a solid foundation for the use of language.  
Prerequisites: CHNS F100C or permission of the instructor. (3+0)

CHNS F101 | Elementary Chinese I (h)  
5 Credits | Offered Fall Odd-numbered Years  
First year spoken and written Chinese. Emphasis on the basic elements of the language to acquire skills in listening, speaking, reading and writing. About 300 characters will be taught. Cultural aspects will be presented. (5+0)

CHNS F102 | Elementary Chinese II (h)  
5 Credits | Offered Spring Even-numbered Years  
First year spoken and written Chinese. Emphasis on the basic elements of the language to acquire skills in listening, speaking, reading and writing. Approximately 300 characters will be taught. Cultural aspects are presented.  
Prerequisites: CHIN F101 or equivalent. (5+0)

CHNS F201 | Intermediate Chinese I (h)  
4 Credits | Offered Fall Even-numbered Years  
Continuation of CHNS F102. Continue to gain language skills by learning more characters/vocabulary and broadened sentence patterns. About 200 characters and 700 vocabulary words will be taught.  
Prerequisites: CHNS F102 or equivalent. (4+0)

CHNS F202 | Intermediate Chinese II (h)  
4 Credits | Offered Spring Odd-numbered Years  
Continuation of CHNS F102. Continue to gain language skills by learning more characters/vocabulary and broadened sentence patterns. About 200 characters and 700 vocabulary words will be taught.  
Prerequisites: CHNS F201 or equivalent. (4+0)

CIVIL ENGINEERING

A per-semester fee for computing facility user fee is assessed for CEM engineering courses. This fee is in addition to any lab/materials fee.

CE F112 | Elementary Surveying  
3 Credits | Offered Spring  
Basic plane surveying; use of transit, level, theodolite and total station. Traverses, public land system, circular curves, cross-sectioning and earthwork. Special fees apply.  
Prerequisites: MATH F108. (2+3)

CE F302 | Introduction to Transportation Engineering  
3 Credits | Offered Spring  
Introduction to multimodal transportation systems and the factors that influence the planning, design and operation of the systems.  
Prerequisites: CE junior standing or permission of instructor. (3+0)

CE F326 | Introduction to Geotechnical Engineering  
4 Credits | Offered Spring  
Fundamentals of geotechnical engineering including identification and classification of soil, physical and mechanical properties of soil, subsurface exploration, laboratory testing techniques, seepage, compaction, stresses in soil, soil consolidation, and drained and undrained shear strength of soil. Special fees apply.  
Prerequisites: ES F331; GE F261. (3+3)

CE F331 | Structural Analysis  
3 Credits | Offered Spring  
Analysis of statically determinate and indeterminate structures to include beams, trusses and frames. Internal force resultants, shear and moment diagrams, deflections, internal stresses. Influence lines and criteria for moving loads. Indeterminate analysis to include methods of consistent deflections, slope deflection and moment distribution. Introduction to matrix methods. Special fees apply.  
Prerequisites: ES F209; ES F331. (2+3)

CE F334 | Properties of Materials  
3 Credits | Offered Fall  
Prerequisites: ES F209; ES F331. (2+3)

CE F341 | Environmental Engineering  
4 Credits | Offered Spring  
Fundamentals of environmental engineering including theory and application of water and wastewater, solid waste and air quality engineering practice; natural processes that influence pollutant fate and use of these processes in engineered systems for pollution control.  
Prerequisites: CHEM F106X; ES F341; or graduate standing. (3+3)

CE F344 | Water Resources Engineering  
3 Credits | Offered Fall  
Fundamentals of engineering hydrology and hydraulic engineering. Water cycle and water balance, precipitation, evaporation, runoff, statistical methods, flood control, open channels and groundwater. Special fees apply.  
Prerequisites: ES F341. (3+0)

CE F400 | FE Exam  
0 Credits  
Complete the FE application and take the State of Alaska Fundamentals of Engineering Exam in the same semester of course enrollment. Graded Pass/Fail.  
Prerequisites: Senior standing in civil engineering. (0+0)

CE F405 | Highway Engineering  
3 Credits | Offered Fall  
Design of geometric elements of streets and highways with emphasis on safety and efficiency. Roadway functional classification, design controls, vertical and horizontal alignments, cross sections, intersections and interchanges.  
Prerequisites: CE F302 or permission of instructor. (2+3)

CE F406 | Traffic Engineering  
3 Credits | Offered Spring  
Operation and control of transportation systems with emphasis on traffic on highways and streets. Traffic control devices, data collection, capacity and level of service analysis, intersection signalization, traffic impact analysis, accident analysis and other safety considerations.  
Prerequisites: CE F405 or permission of instructor. (2+3)

CE F422 | Foundation Engineering  
3 Credits | Offered Fall  
Prerequisites: CE F326; ES F301. (3+0)
CE F424 Introduction to Permafrost Engineering
3 Credits
Offered Spring Odd-numbered Years
Introduction to permafrost and frozen ground engineering, types of permafrost and ways of its formations, factors important for permafrost existence, hazards related to permafrost, index, thermal, and mechanical properties of frozen and thawing soils, methods of thermal analysis of soil freezing and thawing, foundations design alternatives, pipelines, roads and airfields in the permafrost region. Prerequisites: CE F326; or permission of instructor. Recommended: CE F422; GE F384. (3+0)

CE F432 Steel Design
3 Credits
Offered Fall
Design philosophies and current practice related to steel design are covered. Describes how the understanding modes of failure are used to design structural members with an appropriate factor of safety to satisfy strength and serviceability (performance). Tension members, fasteners, welds, column buckling, beam behavior and beam-columns will be discussed. The current AISC specifications are used. Special fees apply. Prerequisites: CE F331; ES F331. (2+3)

CE F433 Reinforced Concrete Design
3 Credits
Offered Spring
Behavior of reinforced concrete members. Design philosophies and current practices. Flexural members, to include: rectangular, T-beams and one-way slabs. Crack control, anchorage, development lengths and deflections. Axially loaded members. Current ACI 318 Code used. Special fees apply. Prerequisites: CE F331; ES F331. (3+0)

CE F434 Timber Design
3 Credits
Offered Fall Odd-numbered Years

CE F435 Design and Construction of Bridges
3 Credits
Offered Spring
Design-build technology for bridge structures is introduced. A bridge system is developed for a given crossing with predetermined specifications. Alternate designs are developed. These alternatives are based on design calculations, prepared drawings and suitability. Design ideas are developed and tested to verify if the idea meets the design assumptions. Techniques in design, fabrication, fund raising, project management, fiscal responsibility, safety, public speaking and teamwork are learned and used during the semester. The final structure will be load tested and graded based on meeting the goals of the specification. Prerequisites: Permission of instructor. Recommended: CE F432. (1+6)

CE F438 W,O Design of Engineered Systems
3 Credits
Offered Spring
System design principles for large-scale constructed facilities. Application of ethics, liability and legal principles to professional practice. Emphasis on teamwork and leadership. Prerequisites: COMM F131X or COMM F141X; ENGL F111X or ENGL F211X or ENGL F213X; CE F405 or CE F422 or CE F432 or CE F433 or CE F434 or CE F442 or CE F445; last year of civil engineering B.S. program. (3+0)

CE F442 Environmental Engineering Design
3 Credits
Offered Fall
Design of pollution control and remediation systems. Theories and principles for the design of engineering systems for environmental protection, management and control. Water and wastewater treatment and solid waste management. Special fees apply. Prerequisites: CE F341. (3+0)

CE F445 Hydrologic Analysis and Design
3 Credits
Offered Spring
Design and analysis; extended coverage of hydrologic concepts from CE F344. Precipitation, snow cover and evaporation analysis; groundwater hydraulics; runoff analysis and prediction; statistical hydrology; application of simulation models. Design of structures such as culverts, reservoirs, wells, pumps and pipe networks. Prerequisites: CE F344. (2+3)

CE F451 Construction Cost Estimating and Bid Preparation
3 Credits
Offered Fall
Compilation and analysis of the many items that influence and contribute to the cost of projects to be constructed. Preparation of cost proposals and study of bidding procedures. Recommended: College math. (3+0)

CE F470 Civil Engineering Internship
1 Credit
Supervised work experience in engineering organizations. Assignments individually arranged with cooperating organizations and agencies. Course may be repeated three times. Each repeat must be for a different type of project. As part of the requirements for earning credit, the student must have a letter of release of information from the company, prepare a written report and make an oral presentation. Program must be approved in advance by the department. Prerequisites: Upper division standing; permission of department coordinator. (0+3)

CE F490 – F491 Civil Engineering Seminar
0.5 Credit
Offered Fall
CE F490 – F491, together, constitute the standard one-year engineering seminar. The class is designed to provide the student with exposure to the latest information available from researchers and practicing professionals in industry. Graded Pass/Fail. Prerequisites: Junior/senior standing. (0.5+0)

CE F490 Civil Engineering Seminar
0.5 Credit
Offered Spring
CE F490 – F491, together, constitute the standard one-year engineering seminar. The class is designed to provide the student with exposure to the latest information available from researchers and practicing professionals in industry. Graded Pass/Fail. Prerequisites: Junior/senior standing. (0.5+0)

CE F603 Arctic Engineering
3 Credits
Application of engineering fundamentals to problems of advancing civilization to polar regions. Logistics, foundations on frozen ground and ice thermal aspects of structures, materials, transport and communications, and heating and ventilating. Special fees apply. Recommended: Senior standing or B.S. degree in engineering; or permission of instructor. (3+0)

CE F605 Pavement Design
3 Credits
Offered As Demand Warrants
Current design techniques for flexible and rigid pavements. Materials characterization, loading considerations, empirical design methods, mechanistic design methods and rehabilitation. Recommended: CE F402; graduate standing; or permission of instructor. (3+0)

CE F620 Construction Project Management
3 Credits
Offered As Demand Warrants
Construction equipment, methods, planning and scheduling, construction contracts, management and accounting, construction estimates, costs, and project control. Recommended: ESM F450 or equivalent. (3+0)

CE F622 Foundations and Retaining Structures
3 Credits
Offered As Demand Warrants
Advanced study of shallow and deep foundations; analyses and design of retaining walls, free-standing sheet-pile walls, braced excavations, slurry walls, tied-back retention systems, reinforced earth, frozen soil walls, anchored bulkheads, and cellular cofferdams. Prerequisites: CE F422 or permission of instructor. (3+0)
CIVIL ENGINEERING (CE)

CE F623  Soil Stabilization and Embankment Design
3 Credits  Offered As Demand Warrants
Soil and site improvement using deep and shallow compaction, additives, pre-loading, vertical and horizontal drains, electro-osmosis and soil reinforcement, dewatering and stabilization; embankment design, earth pressure theories and pressure in embankment, embankment stability, embankment construction, control and instrumentation. Prerequisites: CE F422 or permission of instructor. (3+0)

CE F626  Thermal Geotechnics
3 Credits  Offered As Demand Warrants
Fundamentals of thermal regimes of soils and rocks. Thermal impact of structures on soils. Thawing of permafrost beneath roads, buildings and around pipelines. Natural and artificial freezing of soils. Engineering means to maintain thermal regime of soils. Thermal design considerations. Prerequisites: CE F326; CE F422; CE F425; or permission of instructor. Cross-listed with GE F626. (3+0)

CE F627  Geotechnical Earthquake Engineering
3 Credits  Offered As Demand Warrants
Introduction to soil dynamics and geotechnical aspects of earthquakes; influences of soils on ground motion, determination of soil response under strong seismic motion, causes of soil failures, soil liquefaction, lateral spreading, the seismic response of earth structures, and seismic-deformation procedures for slopes. Prerequisites: CE F326 or permission of instructor. (3+0)

CE F628  Unsaturated Soils Mechanics
3 Credits  Offered As Demand Warrants
Fundamentals of soil behavior under load; pore pressure during monotonic loading; Ladd's "Simple Clay" model; densification and drained cyclic loading of sand; undrained cycle loading of soil. Prerequisites: CE F326. (3+0)

CE F630  Advanced Structural Mechanics
3 Credits  Offered As Demand Warrants
Shear and torsion, non-symmetrical bending, shear center, curved beams, introduction to composite material mechanics, application in bridge engineering. Prerequisites: Math F302; ES F331. Recommended: Graduate standing in engineering. (3+0)

CE F631  Advanced Structural Analysis
3 Credits  Offered Spring Odd-numbered Years
Derivation of the basic equations governing linear structural systems. Application of stiffness and flexibility methods to trusses and frames. Solution techniques utilizing digital computers. Planar structures and space structures (trusses and frames) will be covered. Both exact and approximate solution techniques will be reviewed. Prerequisites: CE F331 or permission of instructor. (3+0)

CE F633  Theory of Elastic Stability
3 Credits  Offered Spring Odd-numbered Years
The theory and implementation of the buckling of slender elements will be covered. Both lateral and local buckling concepts will be discussed. Emphasis will be placed on developing the ability to evaluate if a member is likely to buckle. The course will cover elastic and inelastic buckling of columns. Other topics include lateral torsional buckling of beams, potential buckling of beam-columns and rigid frame members and the buckling of non standard shapes. Prerequisites: CE F331; CE F432; MATH F302. (3+0)

CE F634  Structural Dynamics
3 Credits  Offered As Demand Warrants
This course covers the theory of structural dynamics. Subjects include equations of motion for un-damped single and multiple degree of freedom systems. Free vibration and response to harmonic and periodic excitations will be studied. Response to arbitrary, step and pulse type excitations are studied in preparation for a study of earthquake type loading. The basic concepts related to the interaction of a structure to an earthquake event will be discussed. Prerequisites: ES F210; CE F331; MATH F302. (3+0)

CE F635  Numerical Methods for Geo-Mechanics and Soil-Structure Interaction
3 Credits  Offered As Demand Warrants
Applications of numerical methods for problems involving seepage, consolidation, foundation on expansive soils and pile installation. Finite difference and element methods, non-linear analysis techniques, elastoplastic formulation with a tangent stiffness approach, seepage analysis, flow-deformation, coupled analysis, models for soil-structure interaction, solution accuracy and reliability. Prerequisites: CE F326; graduate standing; or permission of instructor. Recommended: MATH F302. (3+0)

CE F637  Earthquakes: Seismic Response of Structures
3 Credits  Offered As Demand Warrants
Fundamentals of structural earthquake engineering; strong ground motion phenomena; dynamic analysis of structural systems for seismic motion; response spectrum and time history methods, design of structural systems for lateral forces; shearwalls and diaphragms; moment-resistive frames, braced frames; current design criteria and practice; connection details, serviceability requirement; story drift, non-structural building elements; soil-structure interaction. Prerequisites: ES F210 or permission of instructor. (3+0)

CE F640  Prestressed Concrete
3 Credits  Offered As Demand Warrants

CE F646  Structural Composites
3 Credits  Offered As Demand Warrants
The basics of structural composite theory. Basic design procedures related to structural composite members and the structural analysis of members made of various materials to create laminates or sandwich panels will be covered. Prerequisites: ES F331; CE F331 or permission of instructor. (3+0)

CE F650  Bridge Engineering
3 Credits  Offered As Demand Warrants
Covers structural systems, loading and analysis by influence lines. Slab and girder bridges considering composite design, prestressed and concrete bridges and how these bridges are designed and rated using AASHTO specifications. Prerequisites: CE F432; CE F433; or permission of instructor. (3+0)

CE F661  Advanced Water Resources Engineering
3 Credits  Offered Spring Odd-numbered Years
Engineering hydraulics and hydrology including use of standard computer models to solve water resource engineering problems. Saint Venant shallow water equations. Introduction to perturbation method. Recommended: Permission of instructor. (3+0)

CE F662  Open Channel and River Engineering
3 Credits  Offered Spring Even-numbered Years
Principles of open channel flow, specific energy, hydraulic jump, transitions and controls, uniform and non-uniform flows, steady and unsteady flows, numerical solution for unsteady flows. River engineering, stream channel mechanics, and mechanics of sedimentation. Recommended: Permission of instructor. (3+0)

CE F663  Groundwater Dynamics
3 Credits  Offered Fall Even-numbered Years
Fundamentals of geohydrology, hydraulic of flow through porous media, well hydraulics, groundwater pollution, and groundwater resources development. Recommended: Permission of instructor. (3+0)
COMM F131X  Fundamentals of Oral Communication: Group Context  
3 Credits  
Speaking skills for individual, group and joint presentations. Includes 
oral and nonverbal communication, critical thinking in selecting and organizing materials, audience 
analysis, informative and persuasive speaking, and team presentations. Student evaluations are based 
on nationally normed speaking competencies. (3+0)

COMM F141X  Fundamentals of Oral Communication: Public Context  
3 Credits  
Speaking skills for individual presentation. Includes verbal and nonverbal 
skills, critical thinking in selecting and organizing materials, audience 
analysis, informative and persuasive speaking, and actual presentations. 
Student evaluations are based on nationally normed speaking competencies. (3+0)

COMM F180  Introduction to Human Communication (s)  
3 Credits  
Offered Spring  
Critical thinking about fundamental concepts in human communication 
in interpersonal, group, public, organizational and intercultural settings. 
Introduction to inquiry into human communication as a social and 
human science. (3+0)

COMM F300X  Communicating Ethics (h)  
3 Credits  
An examination of ethical choices which are communicated in every-
day encounters. Examines human moral development from a variety of 
perspectives, including feminist interpretations. Creation and commu-
nication of human values explored through the discussion of a series 
of contemporary dilemmas. Also available via e-Learning and Distance 
Education. Prerequisites: Junior standing; placement in ENGL F111X or 
higher; or permission of instructor. (3+0)

COMM F320  Communication and Language (s)  
3 Credits  
Examination of the nature of language and its place in human communica-
tion, with special attention to the creation of meaning in conversation. 
Prerequisites: Any lower-division communication course or permission 
of instructor. (3+0)

COMM F321 W  Nonverbal Communication (s)  
3 Credits  
Non-lexical behavior in human communication, including consideration 
of space, physical environment, physical appearance and dress, kinesics, 
facial expression and non-lexical vocal behavior. Prerequisites: Any lower-
division communication course or permission of instructor. (3+0)

COMM F322 W  Communication in Interpersonal Relationships (s)  
3 Credits  
An examination of communication in the most basic human context, the 
relational dyad. Emphasis on the ongoing, co-construction of the relation-
ship as communicative action. Discussion of interpersonal relationships 
generally, and extensive discussion of communication in the patterns 
of coming together, relationship maintenance, relational and personal 
growth in relationships, relational conflict, and relational disengagement. 
Theoretical and practical perspectives. Prerequisites: ENGL F111X; ENGL 
F211X or ENGL F213X; or permission of instructor. (3+0)

COMM F330  Intercultural Communication (s)  
3 Credits  
Offered Spring  
The nature and sources of problems in communication that may arise 
when persons with different cultural backgrounds interact. Emphasis on 
problems in intercultural communication in Alaska. Prerequisites: Any 
lower-division communication course or permission of instructor. (3+0)

COMM F331 O  Advanced Group Communication (s)  
3 Credits  
Current research and theory in intergroup and intragroup relations. 
Topics include the study of leadership, power, group structure, partici-
pation and conflict. Prerequisites: COMM F131X or COMM F141X; any 
lower-division communication course; or permission of instructor. (3+0)

COMM F335 O  Organizational Communication (s)  
3 Credits  
Examines current theoretical and methodological approaches undergird-
ing the construction of organizations via the communication process.
Includes functional (message flow, load and network analysis) as well as interpretive (metaphors, narratives and organizational culture) approaches to the study of organizational communication. Prerequisites: COMM F313X or COMM F314X; any lower-division communication course; or permission of instructor. (3+0)

COMM F351 Gender and Communication (s) 3 Credits Offered Fall Basic socialization differences exist in the communication practices of women and men in every culture, resulting in differing cultural constructions of male and female gender. Those differences are addressed in the interpersonal, organizational and cultural contexts. Exploration of cultural female/male dichotomy as well as individual similarities. Prerequisites: Any lower-division communication course or permission of instructor. Cross-listed with WGS F351. (3+0)

COMM F352 Family Communication (s) 3 Credits Exploration of the functions of communication in marriage and the family, sequences and patterns of family communication, family communication as a continual process of coping with dialectical tensions, and the complexity of changing family life in Western societies. Prerequisites: Any lower-division communication course or permission of instructor. Recommended: COMM F322. (3+0)

COMM F353 Conflict, Mediation, and Communication (s) 3 Credits Examines conflict as a complex communication event, together with the role of the mediator in building constructive outcomes in conflicts. Emphasis on developing skills to engage in mediation. Prerequisites: Any F100-level communication course or permission of instructor. (3+0)

COMM F380 Communication and Diversity (s) 3 Credits Offered Spring Provides students with a cognitive and experiential foundation for understanding how the communication process works in the context of diversity. Includes an in-depth examination of those processes and products of processes that lead communicators to devalue differences in one another. (3+0)

COMM F401 Communication Research Methods (s) 3 Credits Offered Fall Quantitative research methodologies employed in the conduct of research on communication phenomena. Prerequisites: Any F300-level communication course; senior standing; or permission of instructor. (3+0)

COMM F425W Communication Theory (s) 3 Credits Offered Spring Theories of human communication, as well as of the nature of inquiry into human communication phenomena. Issues include the nature of communication as a discipline, critical and scientific inquiry, and major paradigms or perspectives within which communication theories are created. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; any F300-level communication courses; senior standing; or permission of instructor. (3+0)

COMM F441 Persuasion (s) 3 Credits Examination of communication situations which involve attempts to modify the beliefs, attitudes, values, intentions or behaviors of another individual or group of individuals. Explores the process, methods and ethics of attempts to affect change via persuasive communication. Prerequisites: Any F300-level communication course or permission of instructor. (3+0)

COMM F462W Communication in Health Contexts (s) 3 Credits Health communication as an established context for communication study will be explored. Problems in health communication will be examined as well as how those problems are exacerbated by the various matters of diversity, language and setting. Communication between health care professionals, between health care providers and health care consumers, between health care facilities and communities, and the legal perspectives of health communication will be topical. Prerequisites: Any F300-level communication course; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

COMM F469 Communication Internship 1 – 3 Credits Offered As Demand Warrants Links academic and professional on-site learning. Students must arrange an appropriate internship. The internship must be relevant to communication, provide guided learning experiences in a profession that would be appropriate and of interest for employment after graduation, and include a minimum of 150 hours on-site. COMM F469 receives a deferred grade, which will then be completed following (or concurrent) fall semester when the student enrolls in COMM F470. Evaluation will be done by both site supervisor and course instructor, and the grade assigned will apply to the credits for both COMM F469 and COMM F470. Prerequisites: Junior or senior standing; permission of instructor. (0+0+10 – 30)

COMM F470 Communication Internship Seminar 3 Credits Offered As Demand Warrants Will improve job-hunting and networking skills and apply organizational communication theories (workplace socialization processes, cultural rituals, negotiation of power, social capital, emotional labor, etc.). COMM F469 receives a deferred grade, which will then be completed following (or concurrent) fall semester when the student enrolls in COMM F470. Evaluation will be done by both site supervisor and course instructor, and the grade assigned will apply to the credits for both COMM F469 and COMM F470. Prerequisites: COMM F469; junior or senior standing; permission of instructor. (3+0)

COMM F475W Applied Communication in Training and Development (s) 3 Credits Offered Spring Applies communication theory and research to organizational settings. Includes the identification and assessment of problems and opportunities that would benefit from the application of communication interventions including training, development and transformation technologies. Prerequisites: Any F300-level communication course; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

COMM F482W Communication Internship Seminar (s) 3 Credits Offered Fall Original research to demonstrate ability to read and understand research, synthesize information, formalize a research question and use research skills. This senior capstone course requires a research project presented in a public speaking forum. Prerequisites: COMM F313X or COMM F314X; COMM F401; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

COMM F500 Introduction to Professional Communication 3 Credits Offered Fall An introduction to professional practices important to communication careers. Professional writing and editing methods and techniques used in academic and/or professional careers. Development and presentation of professional reports which would include quantitatively- and qualitatively-based support. A.P.A. style guide will be covered. Prerequisites: Enrollment in M.A. in Professional Communication or permission of instructor. (3+0)

COMM F601 Communication Research Methodologies: Social Science 3 Credits Offered Fall Introduction to the range of methodologies used to produce both practical and theoretic knowledge in the discipline. Presents the relationships between scientific questions, appropriate selection of methodology and types of knowledge products. Note: COMM/JRN F601 is a required core course for the M.A. in Professional Communication. Cross-listed with JRN F601. (3+0)
COMM F602  Communication Research Methodologies: Human Science  
3 Credits  
Offered Fall  
An introduction to research using a constructionist epistemology and the methodologies of the human science contexture. Includes evaluation and preparation of research using a variety of methodologies and to employ the data collection techniques that are implied by those methodologies.  
Prerequisites: COMM F601; COMM F625; or permission of the instructor.  
(3+0)  

COMM F622  Interpersonal Interaction  
3 Credits  
All understandings of communication study begin at the interpersonal level because this is the context in which the relation of self and the social is most clear. Interpersonal Interaction will provide students an opportunity to investigate a particular communication context of their choice (health, family, aging, conflict, relational, education, etc.) and ways in which interpersonal interactions interconnect human social life at all levels of lived experience. Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F625  Communication Theory  
3 Credits  
Offered Fall  
Required course for the master's degree in Professional Communication. The course is designed to acquaint students with both the historical evolution of the discipline against the backdrop of the evolution of the social sciences and with the theoretical perspectives of knowledge-building that have marked that disciplinary evolution. Students will learn the contextual interconnectedness of philosophy and theory. Finally, Communication Theory will also make the essential connections between theoretical perspectives and their professional uses. Cross-listed with JRN F625.  
(3+0)  

COMM F631  Teambuilding  
3 Credits  
Offered As Demand Warrants  
Small group communication theory and methods linked to professional applications. Ways to create, maintain and reward productive work teams. Face-to-face and mediated group sessions will be discussed as well as the impact of professional work groups on organizational teambuilding. Students will work with teambuilding interventions that they will be able to apply in a variety of organizational settings. Prerequisites: COMM F600. Recommended: COMM F625.  
(3+0)  

COMM F635  Organizational Culture and Communication  
3 Credits  
Contemporary perspectives on communication in the organizational context. The interpretive paradigm will be examined in terms of the broad range of knowledge currently being generated by communication scholars and other professionals who are looking more closely at the ways communication produces the social contexts in which it occurs. Human organizations and their transparency to the communication of their members is the pragmatic substance of the course. Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F642  Health Communication  
3 Credits  
Offered As Demand Warrants  
Health Communication is intended to give students and interested professionals in related fields access to the most current research in this area. The course will address human communication at every level of interaction in the provision of health care: interpersonal (e.g., doctor/patient), small group (e.g., clinic cardiac team), intra-organizational (e.g., medical staff and business staff), inter-organizational (e.g., hospital and schools), public campaigns (e.g., Center for Disease Control and prevention initiatives on drunk driving), and associated communication factors such as culture and diversity. Includes involvement in research and grant-proposal writing. Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F661  Mentored Teaching in Communication  
1 Credit  
Mentored teaching provides consistent contact on course-related issues between teaching assistants and mentoring faculty. Graded Pass/Fail. Prerequisites: Enrollment in M.A. of Professional Communication or permission of instructor; award of teaching assistantship in communication. Note: Teaching assistants are required to be enrolled in a mentoring teaching section while teaching. May be repeated up to four times for credit.  
(1+0)  

COMM F675  Training and Development Communication  
3 Credits  
Offered Spring  
Training and Development Communication offers students practical, current understandings of planned training, development and transformation processes as they are applied in the organizational setting. The information and class projects will help prepare training and development specialists, consultants and others whose interest is in this growing communication field. Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F680  Communication and Diversity in the Professional World  
3 Credits  
Offered Spring  
Case study methods applied to the ever-expanding problems of communication in a changing workplace. The diversity of gender, race, ethnicity, nationality, physical ability, sexual orientation and age are reshaping the professional world at every level and communication professionals are increasingly called upon to formulate ways of accommodating this change. The course will prepare students to address diversity and planned changes in the workplace. Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F682  Seminar in Communication  
3 Credits  
Offered As Demand Warrants  
A variable content seminar intended to give students an opportunity to work closely with communication faculty in the study of topics, ideas or methodologies significant to the communication discipline (e.g., relational conflict, social construction, narrative research, etc.). Prerequisites: Enrollment in M.A. in Professional Communication degree or permission of instructor.  
(3+0)  

COMM F699  Thesis  
1 – 9 Credits  
Every candidate for the communication concentration of the master’s degree in professional communication will complete a thesis project. The requirement consists of an original piece of communication research directed by a member of the graduate faculty in the communication department. The completed and accepted thesis will be presented in an appropriate public forum. Graded Pass/Fail.  
(8+0)  

COMMUNITY HEALTH  

CHP F131  Community Health Aide — Session I  
8 Credits  
Offered As Demand Warrants  
Introduction to providing village primary health care services with remote supervision of a physician. Topics include CHP standard of care, use of the CHA/P Manual, history-taking and physical exam, lab tests, reporting to the physician, medical charting and medication administration. Supervised clinical experiences prepare the student to conduct patient evaluation of common village health problems of children and adults. Introduction to human anatomy and function, wellness and disease concepts, crisis intervention and emergency care. A 200-hour field component at the students’ village clinic follows the didactic program. Graded Pass/Fail. Prerequisites: Employed as CHA by a health corporation or permission of the instructor.  
(8+0)
Community Health (CHP)

CHP F132  Community Health Aide — Session II
8 Credits  Offered As Demand Warrants
Reinforces problem-oriented patient encounter process. Includes patient education, introduction to prenatal and well child care, sexuality transmitted diseases, HIV, substance abuse, mental illness and death and dying issues. Session I material and emergency care are reinforced and expanded upon. Includes 200-hour field component at the student's village clinic. Graded Pass/Fail. Prerequisites: CHP F131. (6+0)

CHP F133  Community Health Aide — Session III
8 Credits  Offered As Demand Warrants
Session II content reinforced and expanded upon. Additional topics include prenatal care, family planning, fetal alcohol syndrome, emergency delivery techniques, newborn and well child care including immunizations, nutrition, dental health, adult health surveillance, family violence and sexual abuse/rape and clinic management. A 200-hour field component at the students' village clinic follows the didactic program. Graded Pass/Fail. Prerequisites: CHP F132. (8+0)

CHP F134  Community Health Aide — Session IV
8 Credits  Offered As Demand Warrants
Common patient problems within the body systems are reviewed with a focus on assessment skills and management plans. Previous session content is reviewed. Follow-up care for patients with chronic illness, injury prevention, tuberculosis, cancer, environmental health, post partum care, adolescent care and older adult/elder care. A 200-hour field component at the students' village clinic follows the didactic program. Graded Pass/Fail. Prerequisites: CHP F133. (8+0)

CHP F135  Community Health Aide Preceptorship
2 Credits  Offered As Demand Warrants
Supervised primary care clinical experience. Minimum of 30 contact hours of direct patient care required. Students provide patient care in a variety of clinical settings including outpatient (acute and emergency care), prenatal, well child and chronic care clinics. Additional experiences are scheduled with the referral center (hospital) departments. Graded Pass/Fail. Prerequisites: CHP F134. (2+0)

CHP F203  Clinical Update for Community Health Practitioners
1 – 3 Credits  Offered As Demand Warrants
Review, update and reinforcement of knowledge and skills taught in CHP F131, CHP F132, CHP F133 and CHP F134. Emphasis is on patient evaluation skills, use of the manual, patient treatment plan, medicines, prenatal care, well-child care, chronic patient care and emergency care. Clinical training is provided. Prerequisites: CHP F134. (1 – 3+0)

CHP F207  Maternal and Infant Health
1 – 3 Credits  Offered As Demand Warrants
Review of the anatomy of the reproductive system, family planning, pregnancy, fetal development, prenatal care, prenatal education, emergency delivery, postpartum care for mother and baby, and well-child evaluations and immunizations. Prerequisites: CHP F134 or permission of instructor. (1 – 3+0)

CHP F208  Communicable Diseases
1 – 3 Credits  Offered As Demand Warrants
Expands concepts in relation to diagnosis, management and prevention of sexually transmitted diseases. Skills taught include male and female genitalia exam, pelvic exam, pap smear, gonorrhea culture and chlamydia culture. Prevention and patient education are emphasized. Prerequisites: CHP F134 or permission of instructor. (1 – 3+0)

CHP F210  CHAM Use and Documentation
1 Credit
Review and explore many types of patient encounters encompassed by the scope of practice of the Alaska Community Health Aide/Practitioner (CHA/P). Focus is on professional standards of care issues and provision of competent and legal documentation of patient encounters. Emphasis on proper use of the Alaska Community Health Aide/Practitioner (CHAM) to conduct and document the encounter and its legal significance. Prerequisites: CHP F131; CHP F132. Special restrictions: Employed as a Community Health Aide by a Native Tribal Health Organization. (0+3+0)

CHP F211  Health Education
1 – 3 Credits  Offered As Demand Warrants
Methods and philosophy of health education, use and sources of audiovisual materials, presentation planning and participation in school and community health programs are included. A variety of teaching methods including role playing for individual and group presentations permit CHPs to practice their health education knowledge and skills. (1 – 3+0)

CHP F212  Diabetes: Primary Prevention and Village Medical Care
1 – 3 Credits  Offered As Demand Warrants
Pathophysiology, primary prevention and follow-up treatment of the disease diabetes. Topics include the problem of Type II diabetes in rural Alaska, CHP role in the village health care system, Type I and Type II diabetes, primary prevention of Type II diabetes, village medical care and referral, patient education, emergency care and diabetes medications. The clinical training portion of the course is available for Community Health Aides/Practitioners only. (1 – 3+0)

CHP F214  Cancer: Risks, Diagnosis and Treatment
3 Credits  Offered Spring, As Demand Warrants
Causes and facts about cancer in the Alaska Native population. Includes cancer risk factors, healthy lifestyle behaviors and the importance of early screening. Presents cancer diagnosis and treatment. Explores pain management, loss and grief. Includes self-care, stress and burnout issues for family and caregivers. Recommended: CHP F134. (3+0)

CHP F215  Death and Dying
3 Credits  Offered As Demand Warrants
Focusing on contemporary primary care issues relating to death and dying. Improving individual coping skills in loss and grief situations. Topics include theories of grief and loss, care of the terminally ill patient, suicide, euthanasia, traumatic death and neonatal death. Cultural perspectives on dying, body preparation, burial rites, advanced directives, death certificates and legal issues reviewed. (3+0)

CHP F220  Women's Health: Breast and Cervical Cancer Screening
2 Credits  Offered As Demand Warrants
Review of anatomy, physiology and pathophysiology of the female breasts and genitals, with reinforcement of identification of risk factors as they relate to the development of breast and cervical cancer. Skills taught include female breast and genital history taking, examination to include Pap, chlamydia and gonorrhea specimen collection, development of appropriate assessments and plans. Areas emphasized: prevention and/or early detection. Prerequisites: CHP F134 or permission of instructor. (2+0)

CHP F225  Current Issues in Rural Health Care
1 – 3 Credits  Offered As Demand Warrants
Selected current issues in medical education intended for, but not limited to, community health aides/practitioners with emphasis on expanding concepts relating to understanding, diagnosis and management of illnesses common to rural Alaskan communities. May be repeated for credit. Community Health majors may apply up to a maximum of three credits towards the F220-level major specialty requirements for A.A.S. degree. Graded Pass/Fail. (1 – 3+0)

**Course Descriptions**

**CITS F201 Microcomputer Operating Systems Support**

Comprehensive exploration of a current microcomputer operating system: use, configuring, installing and administering. Topics include end-user and technical support. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

**CITS F202 Microcomputer Hardware Support**

Fundamental hardware and software (associated with hardware) configuration and troubleshooting. Includes installing, removing and configuring computer hardware components; installing and configuring software applications and operating systems to support hardware; diagnosing hardware and software problems; and developing troubleshooting and configuration procedures. Recommended: CITS F201 or equivalent skills. (1 – 3+0)

**CITS F203 Information Technology Support Fundamentals**

Overview of skills and knowledge required by professional computer support technicians to support and troubleshoot computer operating systems and computer hardware, including the purpose and function of the internal components of a computer, how to assemble a computer system, install an operating system and the basic skills and knowledge required to connect to and share resources in a network environment. Course covers objectives defined for CompTIA A+ certification. Recommended: CIOS F150 or equivalent skills. (4+0)

**CITS F204 Introduction to Network Support and Administration**

Features and functions of networking components and the knowledge and skills needed to install, configure and troubleshoot basic networking hardware, protocols and services. Develop technical ability in the areas of media and topologies, protocols and standards, network implementation and basic network administration and support. Course covers objectives defined for CompTIA Network+ certification. Recommended: CITS F203 (may be taken concurrently) or equivalent skills. (3+0)

**CITS F205 Introduction to Microcomputer Programming**

Microcomputer programming focused on programming concepts for applications, operating systems and web technologies. Supplemetning and integrating computer applications with built-in programming tools. Prerequisites: Math placement at the 100-level or instructor approval. (1 – 3+0)

**CITS F212 Server Operating Systems**

Fundamentals in installing, configuring and maintaining server operating systems. Learn how to configure and administer network accounts, resources, and common services deployed on server operating systems. Course covers foundation server operating system knowledge required for Microsoft Certified Technology Specialist (MCTS) certification exams related to server technologies. Prerequisite: CITS F204 (may be taken concurrently) or equivalent skills. (3+0)

**CITS F219 Microcomputer Operating Systems: Topics**

In-depth and comprehensive technical class covering operating system skills and concepts. Course may be repeated for credit. Recommended: CITS F203 and CITS F204 or equivalent skills. (1 – 4+0)

**CITS F220 Implementing Internet Tools and Technologies**

Exploration of advanced Internet topics. Building a presence on the Internet — evaluate web hosting services, domain names and registration services. How to implement and understand web communication tools and develop and understand the impact of participating in social networks and the changing nature of these networks. Recommended: CIOS F150 or equivalent skills. (3+0)

**CITS F221 Graphics and Multimedia for the Web**

Creating graphics and multimedia content for the Web. Graphic topics include formats, size and resolution, optimization and design fundamentals. Multimedia topics include animation, interactivity and combining sound, speech, graphics, photographs and video. Recommended: CIOS F150; or equivalent skills. (3+0)

**CITS F222 Website Design**

Comprehensive survey of professional website design and authoring tools used to create Internet websites. Topics include: website design and planning; HTML, XHTML and CSS. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

**CITS F224 Web Scripting**

Introduction to client-side Web page scripting. Covers basic programming concepts, including data representation, functions, control structures and arrays. Topics include client-side scripting with JavaScript, object-oriented JavaScript, design issues, error handling, security, the Document Object Model and dynamic HTML and AJAX. Prerequisite: CITS F205 or CS F103; CITS F222; or equivalent skills. (3+0)

**CITS F225 Web Databases and Programming**

Programming and database design as it relates to creating dynamic web sites and applications. Develop web applications to automate websites, create and access web databases, provide tools for users to modify parts of their own website, create and access files on the fly and reduce repetitive maintenance. Course topics include CSS, SSI, DHTML, SQL, PHP and other web technologies. Prerequisites: CITS F205 or CS F103; CITS F222; or equivalent skills. (3+0)

**CITS F228 Advanced Website Design and Development**

Plan and implement professional and comprehensive websites that utilize and integrate multiple website design and development technologies such as XHTML, CSS, XML, Ajax, Web APIs, client-side and server-side programming, graphics and multimedia, and web communication tools. Prerequisites: CITS F221; F222; F224; F225; or equivalent skills. (3+0)

**CITS F240 System and Network Services Administration**

Implement and administer the core network services operating within a network environment. Topics include: DHCP, DNS, remote access, file and print, security and network management services. Develop a conceptual understanding of each network service and learn how to plan, implement and administer each service. Course covers system and network services objectives required for Microsoft Certified Technology Specialist (MCTS) certification exams related to server technologies. Prerequisites: CITS F212 (may be taken concurrently) or equivalent skills. (3+0)

**CITS F241 Networking and LAN Infrastructure Basics**

Design and implementation of networks in small- to medium-sized environments. Focuses on network terminology and protocols, local-area networks (LANs), wide-area networks (WANs), open systems interconnection model, cabling, cabling tools, routers, router programming,
Ethernet, Internet protocol addressing and network standards. Special fees apply. Recommended: CITS F201; CITS F202; or equivalent skills. (4+0)

**CITS F242** Routers and Routing Concepts  
4 Credits  
Offered As Demand Warrants  
The skills and knowledge necessary to configure routers, manage router software, configure routing protocols. Troubleshooting internets and implementing IP-based networks. This course is the second of four courses that cover objectives required for the Cisco Certified Networking Associate (CCNA) certification. Prerequisites: CITS F241 or permission of instructor. (4+0)

**CITS F243** Intermediate Networking and LAN Infrastructure  
4 Credits  
Offered As Demand Warrants  
Provide an understanding of the intermediate LAN technologies and protocols used to build hierarchical networks. Learn how to configure and integrate LAN devices and technologies into hierarchical internetworks. Topics include: switch configuration, virtual LANs, spanning tree protocol, and VLAN trunking protocol, inter-VLAN routing, and wireless LANs. This course is the third of four courses that cover objectives required for the Cisco Certified Networking Associate (CCNA) certification. Prerequisites: CITS F241; or permission of instructor. (4+0)

**CITS F244** Advanced Network Infrastructure Services  
4 Credits  
Offered As Demand Warrants  
Provides the skills and knowledge to select and implement advance services used within a network infrastructure. Learn to implement and configure common wide area network (WAN) data link protocols, how to create and implement security policies, access control lists and advanced addressing services. Learn to detect, troubleshoot and correct common network implementation issues. Topics include: WAN technology and terminology, PPP, frame relay, network security, DHCP, NAT, IPv6 and network troubleshooting. This course is the fourth of four courses that cover objectives required for the Cisco Certified Networking Associate (CCNA) certification. Prerequisites: CITS F242; CITS F243; or permission of instructor. (4+0)

**CITS F249** Networking and Communications: Topics  
1 – 4 Credits  
Offered As Demand Warrants  
In-depth technical and comprehensive coverage of networking and communications skills and concepts. Note: May be repeated for credit. Special fees apply. Recommended: CITS F204 or equivalent skills. (1 – 4+0)

**CITS F261** Computer and Network Security  
3 Credits  
Offered As Demand Warrants  
The fundamental concepts of computer and network security. Course topics include: understanding threats to a computing infrastructure, understanding encryption technologies, securing network communications and applications, security policies and responding to incidents. Course covers objectives defined for CompTIA Security+ certification. Prerequisites: CITS F204 or equivalent skills. (3+0)

**CITS F265** Directory Services Administration  
3 Credits  
Offered As Demand Warrants  
The purpose and components that make up directory services and the role these services play in storing, organizing and managing information in a network environment. How to create and configure directory service objects to manage access to network resources, to implement and manage group policy objects, and to backup, restore, monitor and troubleshoot directory service related issues. Course covers directory services administration objectives required for Microsoft Certified Technology Specialist (MCTS) certification exams related to server technologies. Prerequisite: CITS F212 (may be taken concurrently) or equivalent skills. (3+0)

**CITS F281** Professional Practices in IT  
1 – 3 Credits  
Offered As Demand Warrants  
Prepares students for work as an IT professional. Topics include: providing computer technical support, user support management, soft skills in IT, resume writing and career exploration, diagnosing problems, researching and documenting solutions, meeting user needs, developing training materials and giving workshops and lessons. Prerequisites: 24 credits in CITS courses or permission of instructor. (1 – 3+0)

**CITS F282** IT Troubleshooting Skills  
1 – 3 Credits  
Offered As Demand Warrants  
Practical IT troubleshooting skills, including hardware, software, networks and operating systems. The course will include practical and useful troubleshooting scenarios. Prerequisites: CITS F203; CITS F204 or equivalent skills. (1 – 3+0)

**CITS F284** Independent Project  
1 – 3 Credits  
Offered As Demand Warrants  
Student created project or internship that includes learning new skills, applying the skills to significant problems, and demonstrating the results to other computer users. Includes application of learned skills in a professional manner. Prerequisites: 12 credits in CITS courses or permission of instructor. (1 – 3+0)

**CITS F285** Cooperative Work Experience  
3 Credits  
Offered As Demand Warrants  
On-the-job training related to occupational objectives. Weekly seminar with coordinator required. Prerequisites: 12 credits in CITS courses and permission of instructor. (3+0)

**CITS F288** Professional Certification Review  
1 – 3 Credits  
Offered As Demand Warrants  
Prepares students for national or industry specific certification examination. (1 – 3+0)

**CITS F289** Information Technology: Topics  
1 – 3 Credits  
Offered As Demand Warrants  
Comprehensive coverage of a specific information technology topic. Recommended: CITS F203 or equivalent skills. (1 – 3+0)

---

**COMPUTER INFORMATION AND OFFICE SYSTEMS**

**CIOS F100** Introduction to Personal Computers  
1 Credit  
Offered As Demand Warrants  
Introduction to basic computer skills including using the mouse and menus, opening and exiting applications, creating basic word processing and spreadsheet files, basic file management, web browsing, email and virus protection. Graded Pass/Fail. (1+0)

**CIOS F103** Computer Survey  
1 – 3 Credits  
Offered As Demand Warrants  
An introduction to the world of computers emphasizing microcomputers. Provides computer terminology and how to use computers as a tool to make work easier and to extend the reach of the mind. (1 – 3+0)

**CIOS F128** Microcomputer Operating Systems  
3 Credits  
Offered As Demand Warrants  
Introduces students to the use and configuration of a current microcomputer operating system. Topics include: basic use, configuration, troubleshooting and maintenance, connecting to the Internet and security basics and safe computing practices. Prerequisites: Recommended: CIOS F150 or equivalent skills. (3+0)

**CIOS F130** Microcomputer Word Processing  
1 – 3 Credits  
Offered As Demand Warrants  
Comprehensive exploration of topics related to using microcomputer word processors. Includes creating, formatting and revising documents; using proofreading and editing tools; implementing styles; using templates; and customizing the application. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)
CIOS F133  Microcomputer Presentation Software  
1 – 3 Credits  Offered As Demand Warrants  
Designing effective presentations. Includes organizing and designing an effective presentation of information using current microcomputer software. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F135  Microcomputer Spreadsheets  
1 – 3 Credits  Offered As Demand Warrants  
Comprehensive exploration of topics related to using microcomputer spreadsheets. Includes creating, formatting and revising spreadsheets; creating formulas, graphics and charts; and using spreadsheets to organize, analyze and query information. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F146  Using Internet Tools and Technologies  
1 – 3 Credits  Offered As Demand Warrants  
Presentation of the Internet. Includes using and configuring current World Wide Web and email, and other communication tools; developing searching strategies; current and future trends; and basic web authoring. Develop a basic understanding of technologies and protocols used on the Internet. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F150  Computer Business Applications  
1 – 3 Credits  Offered As Demand Warrants  
Designed to develop computer literacy in the use and understanding of computer systems, office productivity applications and the Internet. Topics include operating system fundamentals, file management, word processing and spreadsheet fundamentals and safe, secure and effective use of Internet technologies. (1 – 3+0)

CIOS F189  Microcomputer Applications: Topics  
1 – 3 Credits  Offered As Demand Warrants  
Extensive coverage of a specific microcomputer application. May be repeated for credit. (1 – 3+0)

CIOS F216  Information Technology Certification II  
1 – 4 Credits  Offered As Demand Warrants  
In-depth technical and comprehensive coverage of skills required for the intermediate stage of a specific information technology certification. Course may be repeated for different certifications. Special fees apply. Prerequisites: Instructor approval. (1 – 4+0)

CIOS F231  Introduction to Desktop Publishing  
1 – 2 Credits  Offered As Demand Warrants  
Entry-level desktop publishing course introducing the chief features of a page layout program. Step-by-step instructions to create at least three simple publications. Prerequisites: Previous computer experience. (1 – 2+0)

CIOS F233  Desktop Publishing  
1 – 3 Credits  Offered As Demand Warrants  
Publication design and layout using desktop publishing software. Includes integrating text and graphics, page layout design, scanning and basic image editing. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F240  Microcomputer Databases  
1 – 3 Credits  Offered As Demand Warrants  
Comprehensive introduction to microcomputer databases. Includes basic database concepts; how to maintain and update databases; how to build and use queries and forms; and how to build reports. Introduction to database design. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F255  Microcomputer Graphics  
1 – 3 Credits  Offered As Demand Warrants  
Comprehensive survey of microcomputer graphics using a graphics application. Includes use of professional-level graphics programs to create sophisticated graphics for a variety of uses. Also available via e-Learning and Distance Education. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F257  Digital Video  
1 – 3 Credits  Offered As Demand Warrants  
Comprehensive survey of creating and editing digital video using microcomputer tools. Includes the use of professional-level digital video applications to create short videos for a variety of uses. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F258  Digital Photography  
1 – 3 Credits  Offered As Demand Warrants  
Comprehensive survey of tools and methods to create and edit digital images using microcomputer tools. Includes the use of professional-level digital photography applications. Recommended: CIOS F150 or equivalent skills. (1 – 3+0)

CIOS F503  Applying Telecommunications  
1 Credit  
Design and implementation of an approved project using telecommunications in the classroom or work place, or an in-depth research paper. Ongoing Independent Learning. Special fees apply. Prerequisites: CIOS F502. (1+0)

**COMPUTER SCIENCE**

A per-semester fee for computing facilities will be assessed for one or more CS courses. This fee is in addition to any materials fees.

CS F101  Computers and Society (m)  
3 Credits  
Computer literacy for everyone. Overview of computing machines and automatic data processing. Interaction between social institutions and automated decision-making. Introduction to business applications software and electronic mail. Some programming for understanding, not for skill development. Also available via e-Learning and Distance Education. Prerequisites: Two years of high school mathematics, including at least one year of algebra. (3+0)

CS F102  Introduction to Computer Science (m)  
3 Credits  
Introduction to computer science including a discussion of binary numbers, data representation, hardware, software, programming layers, operating systems, applications and networks. This web-based course is offered through e-Learning and Distance Education. Prerequisites: Two years of high school mathematics including at least one year of algebra. (3+0)

CS F201  Introduction to Computer Programming (m)  
3 Credits  
Programming for non-majors and for those computer science students without the background for CS F201. Concepts of object-oriented programming and algorithm design within the syntax of the JAVA programming language. Prerequisites: Math placement at the 100-level. (3+0)
CS F201 Computer Science I (m)
3 Credits
The discipline of computer science including problem solving, algorithm development, structured programming, top-down design, good programming style, object-oriented programming and elementary data structures. Concepts implemented with extensive programming experience in a structured language and with a group programming project. Prerequisites: One year high school level programming or CS F103 and mathematics placement at the F200-level. (3+0)

CS F202 Computer Science II (m)
3 Credits
The discipline of computer science including problem solving, algorithm development, structured programming, top-down design, good programming style, object-oriented programming and elementary data structures. Concepts implemented with extensive programming experience in a structured language and with a group programming project. Prerequisites: CS F201. (3+0)

CS F205 C Programming (m)
3 Credits
Offered As Demand Warrants
A high-level programming course using C for students with some experience in other programming languages such as Java, Perl, Basic, Pascal or Fortran. Prerequisites: One year high school programming, CS F103 or CS F201 or ES F201. (3+0)

CS F301 Assembly Language Programming (m)
3 Credits
Offered Fall
Organization of computer registers, I/O and control. Digital representation of data. Symbolic coding, instructions, addressing modes, program segmentation, linkage, macros and subroutines. Prerequisites: CS F201. (3+0)

CS F307 Discrete Mathematics (m)
3 Credits
Logic, counting, sets and functions, recurrence relations graphs and trees. Additional topics chosen from probability theory. Prerequisites: MATH F201X or permission of instructor. Cross-listed with MATH F307. (3+0)

CS F311 Data Structures and Algorithms (m)
3 Credits
Data structures and the algorithms for their manipulation. Object-oriented programming, arrays, tables, stacks, queues, trees, linked lists, sorting, searching and hashing. Prerequisites: CS F202. (3+0)

CS F321 Operating Systems (m)
3 Credits
Offered Spring
Functions of files and operating systems. Review of required architectural features. The PROCESS concept. Storage management, access methods and control, interrupt processing, scheduling algorithms, file organization and management, and resource accounting. Prerequisites: CS F301. (3+0)

CS F331 Programming Languages (m)
3 Credits
Offered Spring
Syntax and semantics of widely differing programming languages. Syntax specification, block structure, binding, data structures, operators and control structures. Comparison of several languages such as ALGOL, LISP, SNOBOL and APL. Prerequisites: CS F311. (3+0)

CS F361 Systems Security and Administration (m)
3 Credits
Offered Alternate Fall Odd-numbered Years
Advanced systems programming including privileged instructions and system services, authentication technologies, host-based and network-based security issues. Applications to asynchronous I/O, process control and communication, device drivers and file management. Prerequisites: CS F301. (3+0)
CS F451 Automata and Formal Languages (m)

3 Credits

Offered Spring Odd-numbered Years

Finite automata, regular languages, phrase structured grammars, context free language, push down automata, deterministic context free languages, recursive and recursively enumerable languages, Turing machines, decision problems, and undecidability. Prerequisites: MATH F307; CS F201. (3+0)

CS F460 Introduction to Digital Forensics

3 Credits

Offered Fall Odd-numbered Years

Takes a hands-on approach to the forensics examination of computer technology. Focuses on the forensic process, methods, and tools utilized to collect and preserve and examine digital evidence. Course topics include: collection, preservation and examination of evidence from computers including file systems, email and malicious code. Prerequisites: CS F321; or permission of instructor. (3+0)

CS F462 Intrusion Detection Systems

3 Credits

Offered Fall Even-numbered Years

Focus on IDS theory and practice and its importance; the origin and resolution of common security threats and vulnerabilities; host and network approaches to IDS implementation; and the legal, ethical, and privacy issues associated with IDS use and policies. Prerequisites: CS F361; or permission of instructor. (3+0)

CS F463 Cryptography and Data Security

3 Credits

Offered Spring Odd-numbered Years

Specialized study of cryptography and its application in securing data systems, with an emphasis on applied cryptography. Topics include history of cryptography, encryption, digital signatures, authentication, electronic commerce, key distribution and management, private and public key cryptography, and protocols. Prerequisites: MATH F307; CS F311; or permission of instructor. (3+0)

CS F471 W Software Engineering (m)

3 Credits

Offered Fall

Introduction to basic software engineering principles, techniques, methods and standards as applied to the engineering of complex software systems. Topics from software system development process models, multiple view system modeling and specification using UML, classification of software systems, project management and legal issues. Prerequisites: Senior standing; CS F311; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Cross-listed with SWE F471. (3+0)

CS F472 W,O Senior Project and Professional Practice

3 Credits

Offered Spring

Group projects in a real computer industry environment and produce appropriate documentation and reports. Nature, ethics, and legal considerations of the computer science profession are discussed with an emphasis on ethics. Additional topics include project management, design methodologies, technical presentation, human-machine interface and programming team interactions. Prerequisites: Senior standing; CS F471; COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

CS F480 Topics in Computer Science

3 Credits

Offered As Demand Warrants

Topics include, but are not limited to: computational linear algebra, cryptography, parallel algorithm development and analysis. Note: Course may be repeated when topics change. (O+3)

CS F481 Topics in Computer Graphics (m)

3 Credits

Offered Spring

Hardware, software and techniques used in computer graphics taken from topics such as volume rendering, particle systems, shading, image processing, computer aided design, video effects, animation and virtual environments. Prerequisites: CS F381. (3+0)

CS F490 Student Internship (m)

1 – 3 Credits

Students work on computer science project under the joint direction of a faculty member and participating industry or governmental agency. Graded Pass/Fail. Prerequisites: Junior standing and acceptance in an approved internship program. (0+0)

CS F602 Software Project Management

3 Credits

Offered Spring

Work in an IT project environment to produce appropriate documentation and reports. Nature, ethics and legal considerations of managing IT projects are discussed. Includes project management, design methodologies, scope management, risk management, human-machine interface and IT team interactions. Prerequisites: Graduate standing or permission of instructor. (3+0)

CS F605 Artificial Intelligence

3 Credits

Offered Spring Even-numbered Years

Study and writing of AI programs: expert systems, expert system shells, blackboard systems, neural networks. Representation of knowledge, pattern analysis, inference networks, neural network training. Study of software engineering aspects of AI software. Prerequisites: Graduate standing or permission of CS graduate advisor. (3+0)

CS F611 Complexity of Algorithms

3 Credits

Offered Fall

Theoretical analysis of various algorithms; topics include sorting, searching, selection, polynomial evaluation, NP completeness, decidability. Prerequisites: CS F411. (3+0)

CS F621 Advanced Systems Programming

3 Credits

Offered As Demand Warrants

Multiprogramming and multiprocess systems. File and program security. Scheduling optimization and system tuning, I/O processing, archiving and system recovery, and initialization. Study of current systems. Prerequisites: CS F311 and CS F321. (3+0)

CS F625 Database Systems Design

3 Credits

Offered Fall

The design and analysis of database systems including data independence, relationships, and organization. Focus on data models, file organization and security, index organization, data integrity and reliability. Review of current database software packages. Design and implementation of a database application project. Prerequisites: CS F311. (3+0)

CS F631 Programming Language Implementation

3 Credits

Offered Fall

Formal treatment of programming language translation and compiler design. Parsing context-free languages, translation specifications, machine independent code, NBF, scanners, symbol tables, parsers and recursive descent. Programming of compiler or interpreter segments as projects. Prerequisites: CS F331. (3+0)

CS F641 Advanced Systems Architecture

3 Credits

Offered Spring

A study of advanced single processor systems. Detailed study of multiprocessor architectures, such as vector architectures, massively parallel processors and shared-memory multi-processors. Prerequisites: CS F441 or permission of Computer Science graduate advisor. (3+0)

CS F642 Advanced Computer Networks

3 Credits

Offered Fall

A study of networks of interacting computers. The problems, rationales and possible solutions for both distributed processing and distributed databases will be examined. Major national and international protocols will be presented. Prerequisites: Graduate standing or permission of Computer Science graduate advisor. (3+0)
CS F651  The Theory of Computation
3 Credits  Offered Spring Odd-numbered Years
Languages and formal models of algorithms: Turing machines, phrase
structured grammars and recursive functions. Undecidability, the halting
problem, Rice's Theorem. Prerequisites: CS F451. (3+0)

CS F661  Optimization
3 Credits  Offered Fall Even-numbered Years
Linear and nonlinear programming, simplex method, duality and dual
simplex method, post-optimal analysis, constrained and unconstrained
nonlinear programming, Kuhn-Tucker condition. Applications to manage-
ment, physical and life sciences. Computational work with the computer.
Prerequisites: Knowledge of calculus, linear algebra, and computer pro-
gramming. Cross-listed with MATH F661. (3+0)

CS F670  Computer Science for Software Engineers
3 Credits
An overview and survey of the theoretical underpinnings of computer
science. Topics are taken from the areas of algorithms and data struc-
tures; computer architecture; computer networks, communications and
operating systems; computability and formal languages; languages and
compilation. Also available via e-Learning and Distance Education.
Prerequisites: Graduate standing. Cross-listed with SWE F670. (3+0)

CS F671  Advanced Software Engineering
3 Credits  Offered Spring
Advanced software development as an engineering discipline. Includes
investigation of current tools, standards, foundation and trends in soft-
ware engineering from component-ware, software system composition,
e-systems, software architecture and CASE tools. Prerequisites: CS F471.
Cross-listed with SWE F671. (3+0)

CS F672  Software Process Improvement
3 Credits  Offered Spring Odd-numbered Years
Commonly applied methods for improving the software development
process. Emphasis on the Software Engineering Institute's Capability
Maturity Model, and specifically on the key process areas of Level 2 and
Level 3 of that model. These include software configuration management,
software quality assurance and software standards. Prerequisites: CS F671
or permission of instructor. Cross-listed with SWE F672. (3+0)

CS F673  Software Requirements Engineering
3 Credits  Offered As Demand Warrants
Focus on the requirements analysis phase of the software development
life cycle. Study ways to obtain, analyze and specify complete and correct
sets of requirements. Critique of selected requirements analysis models.
Study of current large scale software developments that have failed or are
failing. Development of software requirements specifications for large and
real software systems via team efforts. Also available via e-Learning and Distance Education.
Prerequisites: CS F671 or permission of instructor. Cross-listed with SWE F673. (3+0)

CS F674  Software Architecture
3 Credits  Offered Spring
Software architectural styles are introduced and defined as structural
descriptions of software systems. Methods for constructing and binding
software systems are introduced and specified as operational views. The
architectural approach, as a classical engineering method for describing
structure and behavior of technical artifacts, will be applied for the com-
position of software systems. Prerequisites: CS F671. Cross-listed with
SWE F674. (3+0)

CS F680  Topics in Computer Science
1 – 4 Credits  Offered As Demand Warrants
Example topics include, but are not limited to, software requirements
engineering, cryptography, parallel algorithm development and analysis.
May be repeated for credit with change of topic. Prerequisites: Varies with
each topic. Recommended: Varies with each topic. (1 – 4+0)

CS F681  Topics in Computer Graphics
3 Credits  Offered Spring
Hardware, software and techniques used in computer graphics taken from
topics such as refresh, storage, raster scan technology, volume rendering,
particle systems, shading, image processing, computer aided design, video
effects, animation and virtual environments. Prerequisites: CS F481 and
MATH F314. (3+0)

CS F690  Graduate Seminar and Project
1 – 6 Credits  Offered Fall
First semester of two-semester seminar in which students will, individu-
ally or in teams, work on and present the results of major programming or
literature survey projects in computer science or software engineering.
Written and oral reports will be required. Graded Pass/Fail. Prerequisites:
12 credits in graduate computer science or software engineering courses; or
permission of Computer Science or Software Engineering graduate advisor.
Cross-listed with SWE F690. (1 – 6+0)

CS F691  Graduate Seminar and Project
3 Credits  Offered Spring
Second semester of a two-semester seminar in which students will, individu-
ally or in teams, work on and present the results of major pro-
gramming or literature survey projects in computer science or software
engineering. Written and oral reports will be required. Graded Pass/Fail.
Prerequisites: CS F690; 12 credits in graduate computer science or software
engineering courses; or permission of Computer Science or Software
Engineering graduate advisor. Cross-listed with SWE F691. (3+0)

CONSTRUCTION MANAGEMENT

CM F102  Methods of Building Construction
3 Credits  Offered As Demand Warrants
Introduces basic knowledge of building materials, technical specifi-
cations, techniques, and systems. Outlines structural systems, construction
processes, and assemblies. Includes a field project student team research
of current Alaskan building type. Special fees apply. (3+0)

CM F123  Codes and Standards
3 Credits  Offered As Demand Warrants
Provides an introduction and overview of the fundamental provisions of
the building codes used for plan review, life-safety evaluation of build-
ings, and community development. Special fees apply. (3+0)

CM F142  Mechanical and Electrical Technology
4 Credits  Offered As Demand Warrants
Introduces the basic mechanical and electrical systems required in all
buildings for the safety, health, comfort, and convenience of the occu-
pants. Emphasizes design criteria, code requirements and interpretation
of construction drawings. Special fees apply. (3+2)

CM F163  Building Construction Cost Estimating
3 Credits  Offered As Demand Warrants
Presents methods and techniques for preparing accurate cost estimates for
building construction projects. Emphasizes quantity surveys, productivity,
bidding and negotiation procedures, and cost control systems. Special fees
apply. Prerequisites: CM F102; DRT F170; MATH F107X. (2+2)

CM F201  Construction Project Management
3 Credits  Offered As Demand Warrants
Examines construction project management methods and processes.
Includes project delivery systems, contract agreements, contract general
and supplementary conditions and contract administration procedures.
Special fees apply. Prerequisites: CM F102; DRT F170. (3+0)
CM F202  Project Planning and Scheduling  3 Credits  Offered As Demand Warrants
Examines concepts and methods for planning and scheduling of construction projects. Includes identifying work elements, analyzing resources, determining activity durations, preparing CPM schedules using computer scheduling software, preparing schedule updates and analyzing planning versus actual progress for cost control. Special fees apply. Prerequisites: CM F201; MATH F108. (2+2)

CM F205  Construction Safety  3 Credits  Offered As Demand Warrants
Examines safety and health practices for the construction industry. Includes developing and implementing construction project site-specific safety plans, analyzing the laws and regulations that govern safety, evaluating construction site hazards and environmental conditions and incident investigation and reporting. Special fees apply. Prerequisites: CM F201. (3+0)

CM F213  Civil Technology  4 Credits  Offered As Demand Warrants
Outlines elements of civil design, including soils and soil mechanics, foundations, roads, and utilities using local, state and federal regulations. Students will also be introduced to elements of construction surveying. Special fees apply. Prerequisites: CM F102; DRT F170. (2+4)

CM F231  Structural Technology  4 Credits  Offered As Demand Warrants
Examines structural theory and the physical principles that underlie structural behavior. Includes the use of materials in a manner to maintain structural stability against such natural forces as gravity, wind, snow and earthquakes. Covers connection detailing and code requirements for wood, steel and reinforced concrete. Special fees apply. Prerequisites: CM F102; DRT F170. (2+4)

CM F263  Civil Construction Cost Estimating  3 Credits  Offered As Demand Warrants
Presents methods and techniques for preparing accurate cost estimates for earthwork, roads, highways, underground utilities and site work. Emphasizes quantity surveys, unit costs, production factors, bidding and construction equipment management. Special fees apply. Prerequisites: CM F213; MATH F108. (2+2)

CM F299  Construction Management Internship  3 Credits  Offered As Demand Warrants
Places students in building construction offices related to student's educational program and occupational objectives. Direct supervision by contractor professional, program faculty and Career Services coordinator. Graded Pass/Fail. Prerequisites: Department approval. (0+0+225)

CONSTRUCTION TRADES TECHNOLOGY

CTT F100  Construction Technology Core  3 Credits  Offered As Demand Warrants
Basic construction techniques using OSHA approved standards by stressing how to follow safe work practices and procedures, how to safely use hand and power tools, how to extract information from construction blueprints and drawings, good housekeeping habits, and material handling on the construction site. This course is divided into six modules. Each module must be successfully completed. May be repeated twice for credit. (Alternative: CTT F101; CTT F102; CTT F103; CTT F104.) (2.5+1.5)

CTT F101  Basic Construction Safety  1 Credit  Offered As Demand Warrants
Introduction to basic construction safety using OSHA approved standards. Focus is on safe work practices and procedures, the proper inspection of safety equipment before use and the proper use of safety equipment. (Alternative to CTT F100 when taken with CTT F102; CTT F103; CTT F104.) (1+0.5)

CTT F102  Introduction to Hand and Power Tools  1 Credit  Offered As Demand Warrants
Introduction to basic hand and power tools used in construction and maintenance and the importance of their care and use. Valuable safety information for each type of tool is discussed. Understanding proper usage helps trainees to prevent accidents. Some specialty tools used by different crafts are also introduced. (Alternative to CTT F100 when taken with CTT F101; CTT F103; CTT F104.) Prerequisites: CTT F101 or permission of instructor. (0.5+1)

CTT F103  Introduction to Blueprint Reading  1 Credit  Offered As Demand Warrants
Introduction to basic blueprint terms, components and symbols. Different types of construction drawings commonly used on job sites and why each type of drawing is important will be presented. Standardized information contained on blueprints such as identification, revision status, symbols, project titles, dimension and scale will be covered. (Alternative to CTT F100 when taken with CTT F101; CTT F102; CTT F104.) Prerequisites: CTT F102 or permission of instructor. (1+1)

CTT F104  Basic Communication and Employability Skills  2 Credits  Offered As Demand Warrants
Techniques for communicating effectively with co-workers and supervisors. Includes critical thinking and problem-solving skills and reviews effective relationship skills, effective presentation and key workforce issues such as sexual harassment, stress and substance abuse. (Alternative to CTT F100 when taken with CTT F101; CTT F102; CTT F103.) Prerequisites: CTT F103 or permission of instructor. (2+0)

CTT F106  Construction Mathematics  3 Credits  Offered As Demand Warrants
Introduction to basic mathematical procedures commonly used in the construction and maintenance crafts. Includes multiplication, subtraction, addition, division, working with fractions and measuring areas, volume and capacity of shapes. (3+0)

CTT F110  Residential Carpentry — Level I  8.5 Credits  Offered As Demand Warrants
Introduction to basic materials and framing techniques used in the construction trades. Includes an orientation, introduction to materials and advanced tools used in the trades. Includes techniques used in framing a structure and to exterior doors and windows commonly installed on construction projects and their proper installation. This course is divided into seven modules. Each module must be successfully completed. (Alternative: CTT F111; CTT F112; CTT F113; CTT F114.) Prerequisites: CTT F100 or permission of instructor. (5+7)

CTT F111  Materials and Tools Used in the Trade  2.5 Credits  Offered As Demand Warrants
Examines the sources and uses of various softwoods and hardwoods, the grading system for lumber and plywood, composition and uses of various engineered sheet materials and laminated lumber products and the many kinds of fasteners and adhesives used with wood and masonry construction. Expands on the hand and power tool information provided in the construction technology core and introduces the carpentry trainee to additional tools used in the carpentry trade. (Alternative to CTT F110 when taken with CTT F112; CTT F113; CTT F114.) Prerequisites: CTT F100 or permission of instructor. (2+1)

CTT F112  Floor Systems, Wall and Ceiling Framing  2 Credits  Offered As Demand Warrants
Focuses on framing basics. Includes the procedures for laying out and constructing a wood floor using common lumber as well as engineered building materials, procedures for laying out and framing walls and ceilings, roughing in doors and window openings, construction corners and partition Ts, bracing walls and ceilings, and applying sheathing. (Alternative to CTT F110 when taken with CTT F111; CTT F113; CTT F114.) Prerequisites: CTT F111 or permission of instructor. (1+2)
CONSTRUCTION TRADES TECHNOLOGY (CTT)

CTT F113 Roof Framing, Windows, and Exterior Doors
2 Credits
Offered As Demand Warrants
Describes the various kinds of roofs and instructions for laying out rafters for gable roof, hip roof and valley intersections. Includes both stick built and truss built roofs, various types of windows, skylights, exterior doors, and instructions for installing weather stripping and lock sets. (Alternative to CTT F110 when taken with CTT F111; CTT F112; CTT F114.) Prerequisites: CTT F112 or permission of instructor. (1+2)

CTT F114 Introduction to Concrete Materials and Forms
2 Credits
Offered As Demand Warrants
Introduction to various cements and other materials which when mixed form various types of concrete. Includes concrete volume estimates, concrete tests, concrete curing methods, reinforcement materials such as rebar, bar supports and welded-wire fabric and tasks in the construction of foundations and flat work. (Alternative to CTT F110 when taken with CTT F111; CTT F112; CTT F113.) Prerequisites: CTT F113 or permission of instructor. (1+2)

CTT F115 Residential Carpentry — Level II
12 Credits
Offered As Demand Warrants
This course builds upon the skills learned in CTT F110. Includes methods and techniques used to locate structures and install exterior siding and related element protection. Various types of roofing and installation of those materials, types and methods of drywall and its installation and interior finish applications. This course is divided into eleven modules. Each module must be successfully completed. (Alternative: CTT F116; CTT F117; CTT F118; CTT F119.) Prerequisites: CTT F110 or permission of instructor. (6+12)

CTT F116 Reading Plans and Site Layout — Level I
2 Credits
Offered As Demand Warrants
This course builds upon CTT F110. Introduces the principles, equipment and methods used to perform site layout tasks of distance measurements, differential leveling and the site layout responsibilities of individuals on the site. (Alternative to CTT F115 when taken with CTT F117; CTT F118; CTT F119.) Prerequisites: CTT F110 or permission of instructor. (1+2)

CTT F117 Exterior Finish and Moisture Protection
2 Credits
Offered As Demand Warrants
Introduction to materials and installation techniques used in various types of siding. Includes the installation procedures and basic requirements for insulation, moisture control and ventilation. (Alternative to CTT F115 when taken with CTT F116; CTT F118; CTT F119.) Prerequisites: CTT F116 or permission of instructor. (1+2)

CTT F118 Roofing, Stairs and Metal Studs Applications
3 Credits
Offered As Demand Warrants
Introduction to materials and installation techniques for a number of basic types of roofing. Includes installation techniques of stairs and metal studs. (Alternative to CTT F115 when taken with CTT F116; CTT F117; CTT F119.) Prerequisites: CTT F117 or permission of instructor. (2+2)

CTT F119 Drywall and Interior Finish Applications
5 Credits
Offered As Demand Warrants
Introduction to materials, tools and procedures used to install and finish gypsum drywall on walls and ceilings and to correct drywall finishing problems. Includes installation of various types of doors and their related hardware in several types of walls, materials, tools and procedures used to lay out, install, and maintain suspended ceilings and the different types of trim. (Alternative to CTT F115 when taken with CTT F116; CTT F117; CTT F118.) Prerequisites: CTT F118 or permission of instructor. (2+6)

CTT F211 Train the Trainer
2 Credits
Journeypersons are needed to transfer their skills to younger workers and this program will provide the skilled person with an intense series of discussions related to teaching strategies, classroom management and leadership, group dynamics and evaluation of training. Program completes may qualify for adjunct status with UAF. Prerequisites: Skilled journeyperson in specific skill area or permission of instructor. (2+0)

CTT F310 Introduction to Facilities Maintenance
1 Credit
Offered As Demand Warrants
Provides students with basic safety instruction of hand and power tools and chemicals used in the facilities maintenance occupation in accordance with Federal OSHA regulations. The students will be instructed in the safe work practices of Personal Protective Equipment (PPE) requirements which support awareness of job-site hazards and protections, such as lockout/tag out and hazardous communications. (0+0)

CTT F311 Interior Repairs: Drywall, Woodwork Trim, Window Replacement
1 Credit
Offered As Demand Warrants
Provides students with basic theory of drywall repair (removing, replacing, texturing and painting). Special tools will be used in applying trim to ceilings, walls and doors frames. Instruction will be given in selecting cutting and fastening trim, removing and replacing damaged windows, replacing opening and closure mechanisms and in reapplying trims and paintings. (0+0)

CTT F312 Flooring Installation: Vinyl, Wood and Parquet
1 Credit
Offered As Demand Warrants
Introduces students to concepts and practical applications of installing vinyl, wood and parquet floor coverings. Students will learn how to install underlayment, vinyl flooring tiles, trim and baseboard components, as well as, use special tools for correctly installing parquet flooring with subflooring installation. (0+0)

CTT F313 Cabinet Installation with Countertops
1 Credit
Offered As Demand Warrants
Students participate with basic concepts of installing cabinets with countertops and identify different types of cabinet construction (stock, semi-custom and custom built). Students will be shown different types of wood products and be introduced to special tools. Face-to-face instruction and practical application of different techniques of installing base cabinets and top or wall cabinets will be shown. (0+0)

CTT F314 Garbage Disposal Installation
1 Credit
Offered As Demand Warrants
Inform students of the basic knowledge of installing a garbage disposal unit in a basic kitchen cabinet. Students will learn how to use special tools in connecting drain and waste piping and venting systems from a house unit. Students will review safety issues related to the proper handling of plumbing hand and power tools in the installation process. (0+0)

CTT F315 Boiler Troubleshooting and Burner Repair
2 Credits
Offered As Demand Warrants
Focuses on the basic components of boilers and burners used in industry for heating residential and commercial properties. Key concepts and strategies related to the process and safety operations of combustion, boiler thermodynamics, control systems, fuel pumps, ignition systems, draft and venting principles and boiler operation according to hydronic principals and Alaska code. (0+0)

CTT F316 Landscaping and Horticulture
2 Credits
Offered As Demand Warrants
Introduces students to the process/procedure of preparing and landscaping a grounded area. Students will be introduced to concepts of placement of appropriate plants and vegetation, maintenance of edged and mowed lawn area, weed and fertilization control and watering schedules. (0+0)

CTT F317 Appliance Troubleshooting and Repair
2 Credits
Offered As Demand Warrants
Provides students with conceptual and practical applications in troubleshooting and repairing appliances. Students will be instructed in diagnostic skills that support repairing and replacing components in various equipment such as refrigerators, washing machines, dishwashers, clothes dryer and oven and cook-tops. Prerequisite: Instructor approval. (0+0)
CTT F138  Troubleshooting HVAC Systems  2 Credits  Offered As Demand Warrants
Provides conceptual and practical applications for students wishing to become a HVAC technician. Topics will explore diagnosis of equipment problems in operation, testing and adjusting conventional and electronic thermostats. Students will also receive instruction on the operation of common electrical and electronic circuits used to control HVAC systems.  Recommended: Instructor approval if student has not taken CTT courses.  (0+0)

CTT F150  Plumbing — Level I  4 Credits  Offered As Demand Warrants
Introduction to basic plumbing techniques, math, hand and power tools, extraction of information from construction drawings and materials used in the plumbing trade. This course is divided into ten (10) modules. Each module must be successfully completed. (Alternative: CTT F151; CTT F152; CTT F153; and CTT F154.)  Prerequisites: CTT F110 or permission of instructor.  (3+2)

CTT F151  Introduction to Plumbing Tools and Drawings  1 Credit  Offered As Demand Warrants
Introduction to a plumber's basic hand and power tools, their care and maintenance, and safety procedures. Includes the basics of reading plumbing blueprints and drawings and specific plumbing drawings such as isometric and oblique pictorial drawings, orthographic drawings and schematic drawings. (Alternative to CTT F150 when taken with CTT F152; CTT F153; and CTT F154.)  Prerequisites: CTT F110 or permission of instructor approval.  (1+0.5)

CTT F153  Plastic and Copper Pipe and Fittings  1 Credit  Offered As Demand Warrants
Introduction to the various types of plastic and copper pipe used in the plumbing industry. Includes various methods of joining plastic and copper pipe and a variety of fittings commonly found in commercial and residential dwellings. (Alternative to CTT F150 when taken with CTT F151; CTT F152; CTT F154.)  Prerequisites: CTT F110 or permission of instructor.  (0.5+1)

CTT F154  Fixtures, Faucets and Venting Systems  1 Credit  Offered As Demand Warrants
Covers the various types of fixtures plumbers install, including sinks, bathtubs, water closets, garbage disposals, dishwashers and mop basins. An overview of the drain, waste and vent system from inside the building, where the liquid drains into pipes, to the sewer and waste treatment plants. (Alternative to CTT F150 when taken with CTT F151; CTT F152; CTT F153.)  Prerequisites: CTT F110 or permission of instructor.  (0.5+1)

CTT F155  Plumbing — Level II  8 Credits  Offered As Demand Warrants
Introduction to basic plumbing techniques, math, hand and power tools, extraction of information from construction drawings and materials used in the plumbing trade. This course is divided into thirteen modules. Each module must be successfully completed. Generally, each will have two components, a written exam and a hands-on competency test. (Alternative: CTT F156; CTT F157; CTT F158; CTT F159.)  Prerequisites: CTT F150 or permission of instructor.  (4+5+7)

CTT F160  Photovoltaic Systems — Part I  5 Credits  Offered As Demand Warrants
This course is a practical introduction to electric power generation through photovoltaic cells. During this course the student will build a solar panel to understand its operation, installation and maintenance.  Prerequisites: CTT F106 or permission of instructor.  (4+2)

CTT F161  Photovoltaic Systems — Part II  5 Credits  Offered As Demand Warrants
This course covers practical methods of installing photovoltaic systems in residential settings. The students will also learn basic troubleshooting techniques.  Prerequisites: CTT F160 or permission of the instructor.  (4+2)

CTT F170  Residential Electrical — Level I  9 Credits  Offered As Demand Warrants
Introduction to basic electrical techniques, electrical theory, and extraction of information from construction drawings, tools, and materials used in the electrical trades. Course is divided into twelve modules. Each module must be successfully completed. (Alternative: CTT F171; CTT F172; CTT F173; CTT F174.)  Prerequisites: CTT F115 or permission of instructor.  (5+4+2)

CTT F171  Electrical Safety and Electric Theory  2 Credits  Offered As Demand Warrants
Course covers the safety rules as applied to handling and working with electrical systems and circuits. Includes the required OSHA mandated lockout/tag out procedure, basic electric theory and circuit calculations involving the application of Ohm's and Kirchoff's laws. The student is made aware of precautions to take for various electrical hazards found on the job site. (Alternative to CTT F170 when taken with CTT F172; CTT F173; CTT F174.)  Prerequisites: CTT F115 or permission of instructor.  (2+0)

CTT F172  Alternating Current, Electrical Test Equipment and the NEC  2 Credits  Offered As Demand Warrants
Introduction to the principles of alternating current and the operation and applications of various types of electrical test equipment. Includes National Electrical Code. (Alternative to CTT F170 when taken with CTT F171; CTT F173; CTT F174.)  Prerequisites: CTT F171 or permission of instructor.  (2+0)

CTT F173  Residential Electrical — Level II  8 Credits  Offered As Demand Warrants
Introduction to basic electrical techniques, electrical theory and extraction of information from construction drawings, tools and materials used in the electrical trades. This course is divided into ten modules. Each module must be successfully completed. (Alternative: CTT F176; CTT F177; CTT F178; CTT F179.)  Prerequisites: CTT F170 or permission of instructor.  (4+8)

CTT F175  Student Practicum I  1 – 3 Credits  Offered As Demand Warrants
Provides the student the opportunity to practice and develop the skills learned in the classroom. Skills will be developed under the guidance of journeyman and/or qualified personnel on the job site. Course may be repeated twice for a total of three credits.  Prerequisites: CTT F115 or permission of instructor.  (0+2 – 6)

CTT F240  Introduction to Project Development for Tribal Residenal Construction  3 Credits  Offered As Demand Warrants
This course introduces the roles and responsibilities of project managers who manage and supervise the construction of housing projects in rural Alaska. Because they are funded predominantly by the U.S. Department of Housing and Urban Development (HUD) through the Native American Housing Assistance and Self-Determination Act (NAHASDA), projects conducted by rural housing authorities and tribal organizations have unique planning and administrative requirements. Project managers working in rural Alaska also require specialized training due to complicating factors such as problematic soil conditions, materials availability, transportation and other logistical challenges, and variable workforce capacity. Students will gain skills in developing plans and specifications for rural construction projects, ensure building codes are met during project development, and learn processes and materials unique to isolated locations with limited services.  Prerequisites: CTO S150, CTT F106, Certificate in Construction Trades Technology or permission of instructor.  (3+0)
### Counseling

<tbody>
<tr>
<td>COUN F615</td>
<td>Foundations of Counseling</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Prerequisites: Admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F623</td>
<td>Counseling Theories and Applications I</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Prerequisites: Admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F627</td>
<td>Developmental Interventions</td>
<td>3</td>
<td>Offered Spring</td>
<td>Prerequisites: COUN F623; admittance to the Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F628</td>
<td>Child and Adolescent Development</td>
<td>3</td>
<td>Offered Fall</td>
<td>Focus on developmental processes and sequences of change that children experience within each developmental domain from birth through adolescence. Prerequisites: Admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F629</td>
<td>Counseling Interventions for Adults</td>
<td>3</td>
<td>Offered Spring</td>
<td>Examines various intervention strategies for working primarily with adult individuals in a variety of situations. Attention is placed on assisting adults in accomplishing developmental tasks appropriate to their psychosocial growth. Descriptive intervention techniques with respect to assessing individuals in crisis will be discussed and strategies for handling those crises situations will be examined. Prerequisites: COUN F623; admittance to the Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F630</td>
<td>Appraisal for Counselors</td>
<td>3</td>
<td>Offered Fall As Demand Warrants</td>
<td>Introduction to the kinds of assessment information school and community counselors utilize in the assessment process. Prerequisites: COUN F623; admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F632</td>
<td>Career Development</td>
<td>3</td>
<td>Offered Fall</td>
<td>An introduction to the theories of career development, career choices and how to translate theory into practice. Emphasis will be on career education development and the utilization of information resources for facilitating the career choice decision-making process. Prerequisites: COUN F615; admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F634</td>
<td>Practicum in Individual Counseling</td>
<td>3</td>
<td>Offered Spring Summer As Demand Warrants</td>
<td>Supervised practice in basic counseling skills and techniques. Supervised work with one-on-one counseling relationships. Actual practice in listening, problem identification, goal setting and session management. Prerequisites: COUN F623; admittance to Counseling program; permission of instructor.</td>
</tr>
<tr>
<td>COUN F636</td>
<td>Internship I</td>
<td>3</td>
<td>Offered</td>
<td>Supervised practice in school or community setting. Focus on directed practice of particular skills relevant to the counselor’s role. Weekly seminars will cover actual and role playing situations providing opportunities to operationalize theory in counseling, interventions and ethical issues. (3 credits required for elementary internship; 3 credits required for secondary internship; 3 credits required for community internship. Class is repeatable for credit once; students may take either elementary or secondary; and community). Special fees apply. Prerequisites: COUN F634; admittance to Counseling program; permission of instructor.</td>
</tr>
<tr>
<td>COUN F638</td>
<td>Adult Development</td>
<td>3</td>
<td>Offered Spring As Demand Warrants</td>
<td>An overview of physical, cognitive, personality and social development across the adult life span, from high school graduation through death. Major theories and research findings in the field of adult development are explored with an emphasis on examining how individuals progress through a series of predictable stages during their lifetime. Prerequisites: COUN F615; admittance to Counseling program; or permission of instructor.</td>
</tr>
<tr>
<td>COUN F646</td>
<td>School Counseling</td>
<td>3</td>
<td>Offered Fall</td>
<td>Topics related to the role of the school counselor such as consultation, career guidance and culturally appropriate assessment. Prerequisites: COUN F623; admittance to Counseling program; or permission of instructor.</td>
</tr>
</tbody>
</table>
COUN F647 Professional Ethics
3 Credits
Offered Fall
The ethical standards of the American Counseling Association and the American School Counseling Association will be examined, discussed and compared. Students will be provided with opportunities to apply these general principles to specific cases. Students will be expected to demonstrate knowledge of the principles of these ethical codes in practice. Prerequisites: Admittance to Counseling program, or permission of instructor. (3+0)

COUN F650 Cross-Cultural Psychopathology
3 Credits
Offered Fall
An overview of contemporary perspectives on child and adult psychological disorders from the perspective of cultural psychology. Fundamentals of therapeutic interviewing. Training in use of the DSM-IV diagnostic system. Examination of the role of culture, ethnicity, gender and social class in symptom formation and the experience of illness, and critical examination of these issues in clinical application of the DSM-IV. Training in DSM-IV cultural formulation. Prerequisites: PSY F345; COUN F623; admittance to the Counseling program; or permission of instructor. Cross-listed with PSY F650. (3+0)

COUN F660 Cross-Cultural Counseling
3 Credits
Offered Spring, As Demand Warrants
An examination of cultural and ethnic variables in human nature and their effect on the counseling process. Specific focus will be placed on the nature and function of culture, cultural variables in the context of the human experience, universal and culture specific aspects of the counseling process, barriers to effective cross-cultural counseling, specific ethnic and cultural considerations, and methods of intellectual training with special emphasis on Alaskan applications. Prerequisites: Admittance to the Counseling program; or permission of instructor. Cross-listed with PSY F661. (3+0)

COUN F666 Family and Network Therapy
3 Credits
Offered Spring
Survey of concepts and theories of function and dysfunction in the area of couples and families as social networks. In addition, it provides an introduction to the skills necessary for one who would intervene in these systems. Prerequisites: COUN F623; admittance to the Counseling program; or permission of instructor. Cross-listed with PSY F666. (3+0)

COUN F674 Group Counseling
3 Credits
Offered Spring, Alternate Summer, As Demand Warrants
Kinds and types of groups with emphasis on methods, problems and needed skills in working with groups in a counseling situation. Prerequisites: COUN F623; admittance to Counseling program; permission of instructor. Cross-listed with PSY F674. (3+0)

COUN F686 Internship II
3 – 9 Credits
Opportunity to perform all the activities that a regularly employed counselor would be expected to perform in a school or community setting. At the completion of the internship the student will be able to demonstrate knowledge and skills needed to administer school and/or community counseling services. (3 credits required for elementary internship; 3 credits required for secondary internship; 3 credits required for community internship; student may take all three.) Prerequisites: COUN F634; COUN F636; permission of instructor. (0+3 – 9)

COUN F687 Internship III
3 Credits
The course is designed to give counseling program candidates experience and supervised practice in the broad scope of activities (i.e. record keeping, individual and group counseling, information and referral, consultation, in-service and staff/faculty meetings, supervision) engaged in by either fully credentialed school counselors or licensed professional counselors. Prerequisites: COUN F686; admittance to the Counseling program; permission of instructor. (3+0+20)

COUN F688 Internship IV
3 Credits
The course is designed to give counseling program candidates experience and supervised practice in the broad scope of activities (i.e. record keeping, individual and group counseling, information and referral, consultation, in-service and staff/faculty meetings, supervision) engaged in by either fully credentialed school counselors or licensed professional counselors. Prerequisites: COUN F687; admittance to the Counseling program; permission of instructor. (3+0+20)

COUN F690 Internship II
3 – 9 Credits
Opportunity to perform all the activities that a regularly employed counselor would be expected to perform in a school or community setting. At the completion of the internship the student will be able to demonstrate knowledge and skills needed to administer school and/or community counseling services. (3 credits required for elementary internship; 3 credits required for secondary internship; 3 credits required for community internship; student may take all three.) Special fees apply. Prerequisites: COUN F634; COUN F636; permission of instructor. (0+3 – 9)

CROSS-CULTURAL STUDIES

CCS F454 Comparative Farming and Sustainable Food Systems
3 Credits
Offered Fall
Principles of food systems geography and food security. Cross-cultural examination of dietary traditions, poverty, hunger, equity and food access and distribution. Comparison of multiple varieties and scales of agricultural systems in the context of social, ecological and economic sustainability. Considers Alaskan and other high-latitude food systems, including country food, wild game harvest and rural to urban nutrition transition. Junor standing and ENGL 211X or 213X; or permission of instructor. Cross-listed with NRM F454 and GEOG F454. (3+0)

CCS F602 Cultural and Intellectual Property Rights
3 Credits
Offered Spring
Examines issues associated with recognizing and respecting cultural and intellectual property rights with respect to the documentation, publication and display of knowledge, practices, beliefs and artifacts of cultural traditions. Appropriate research principles, ethical guidelines and legal protections will be reviewed for their application to cross-cultural studies. Prerequisites: Graduate standing or approval of the instructor. (3+0)

CCS F603 Field Study Research Methods
3 Credits
Focus on techniques for conducting both quantitative and qualitative field research. Particular emphasis on considerations for conducting field research in cross-cultural settings. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ED F603. (3+0)

CCS F604 Documenting Indigenous Knowledge
3 Credits
Offered Fall
A thorough grounding in research methodologies and issues associated with documenting and conveying the depth and breadth of indigenous knowledge systems and their epistemological structures. Includes a survey of oral and literate data-gathering techniques, a review of various modes of analysis and presentation, and a practical experience in a real-life setting. Recommended: Graduate-level survey course in research methods or approval of the instructor. Cross-listed with ED F604. (3+0)

CCS F608 Indigenous Knowledge Systems
3 Credits
Offered Fall
A comparative survey and analysis of the epistemological properties, world views and modes of transmission associated with various indigenous knowledge systems. Emphasis on knowledge systems practiced in Alaska. Prerequisites: Graduate standing or approval of instructor. Cross-listed with RD F608; ED F608; ANL F608. (3+0)

---

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.
CAH F145  Bakery Production I  5 Credits
Basic commercial baking skills and procedures. Standardized recipes and procedures stressed. End product critiqued daily. Emphasis on sanitary food handling practices and professional work habits. Special fees apply. (5+0)

CAH F146  Introduction to Baking and Pastry  4 Credits
Students learn to apply fundamental baking skills in preparing yeast breads, quick breads, cookies, pies, pastries, cakes, custards, creams and sauces. Students will gain confidence in their abilities while learning in a professional bakery setting. Special fees apply. Prerequisite/co-requisite: CAH F101; CAH F140; CAH F150. (1+6)

CAH F150  Food Service Sanitation  2 Credits
Designed for entry-level through supervisory personnel of food service establishments. Basic microbiology, safe food handling techniques, good hygienic practices, pest control, employee training, and the Alaska laws governing food service establishments. Upon successful completion the student can earn ServSafe Managers Certification from the National Restaurant Association Education Foundation; the course also satisfies a requirement for certification with the American Culinary Federation. (2+0)

CAH F152  Supervisory Development  2 Credits
Problems and challenges that food service supervisors deal with every day: Development of personnel management methods. (2+0)

CAH F154  Food and Beverage Service  2 Credits
Introduce students to dining room and front-of-the-house operations. Students will gain competence in dining room operation and table service techniques. Students will perform duties in the dining room of our student-run restaurant. Prerequisites CAH F150. Note CAH F150 may be taken concurrently. (0.5+3)

CAH F160  Principles of Nutrition  2 Credits
Basic principles of nutrition with emphasis on nutrients and their function in relation to human health. (2+0)

CAH F161  Pastry Tube Art  1.5 Credits
Basic cake and food product techniques including borders, flowers, cake designing and proper use of pastry tube bags. Special fees apply. (0.5+2)

CAH F170  Gourmet Cooking  2 Credits
Preparation and service of gourmet beef, poultry and seafood entrees for the home cook. Recipes represent new ideas in home entertainment and menus change every semester. Graded Pass/Fail. Special fees apply. (2+0)

CAH F171  Gourmet Baking  2 Credits
Preparation of a wide range of breads, pastries, fancy desserts, French pastry and simple tortes. Recipes represent traditional methods of baking along with current trends in home entertainment. Graded Pass/Fail. Special fees apply. (0.5+3)

CAH F172  Gourmet Asian Cooking  2 Credits
Preparing and serving Asian dishes. Study and use of proper cooking methods will be emphasized. Students prepare and enjoy a full meal during each class session. Graded Pass/Fail. Special fees apply. (0.5+3)

CAH F174  Vegetarian Cooking  2 Credits
Preparation and service of vegetarian foods and balanced meals. Use of nourishing condiments will be explored. Recipes will include some seasonal, ethnic and gourmet foods; however the emphasis will be on preparing quick, healthful, tasty meatless meals. Graded Pass/Fail. Special fees apply. (0.5+3)

CAH F175  Protein Fabrication  3 Credits
Study focuses on the identification and fabrication of protein items to include poultry, beef, veal, pork, lamb, shellfish, and finfish. Students will be introduced to the concepts of protein cookery. Emphasis is on product fabrication to practical industry applications. Special fees apply. (1+4)

CAH F176  Heart Healthy and Diabetic Cooking  2 Credits
Demonstrations of healthy cooking using glycemic index and other heart healthy and diabetic texts, in order to encourage participants to monitor weight, control blood sugar, reduce risk of heart disease and manage type 1 and 2 diabetes. Graded Pass/Fail. Special fees apply. Prerequisites: Students must be 21 years of age to enroll. (0.5+1)

CAH F177  Understanding Brewing and Fermentation  1 Credit
The student will receive an introduction to the history, science and process of brewing. Focus will be on the importance of sanitation for the home brewery, brewing traditional styles with an introduction to specialty brews. Attention will be given to the pairing of beer styles to food. Graded Pass/Fail. Special fees apply. Prerequisites: Students must be 21 years of age to enroll. (0.5+1)

CAH F178  Intermediate Brewing and Fermentation  1 Credit
Emphasis in brewing will focus on the use of adjuncts and their specific purposes. The effects they have on the brewing/fermentation process will be paramount. Focus will be on the more advanced style of brewing called partial mash. We may, time and weather permitting, brew a batch from grain. All brews done in this class will make use of adjuncts and/or grains. Graded Pass/Fail. Special fees apply. Prerequisites: CAH F177; student must be 21 years of age to enroll. (0.5+1)

CAH F199  Culinary Arts Externship  2 Credits
The student will complete a 240 hour externship. Student will begin to apply their education within the industry providing genuine experience that reflects the student's career goals. The student will study in an approved establishment and will be evaluated by both the employer and the instructor. Enrollment in this class will be after completing the 2nd, 3rd or 4th semester. Prerequisites: Departmental approval required. (0+0+18)

CAH F230  Menu Planning  1 Credit
The importance of the menu in various food operations. The menu is considered to be the controlling factor in both commercial and noncommercial food service operations. Using a menu as a management tool in every area of the operation from planning the facility, purchasing food items, promoting items to customers and providing excellent service to help ensure success. The student will plan and write a variety of menus. Recommended: CAH F140; CAH F146; CAH F150. (1+0)

CAH F242  Culinary III — Vegetables and Starch  4 Credits
Students study and apply cooking methods of scratch cookery through small batch assignments. Areas of study include rice and grains, potato products, wheat based products to include pastas, dumplings, beans and soy products, fruits, vegetables, salads, center-of-the plate items and sandwiches. Students will continually be given the opportunity to express themselves through the art of plate presentation and garnishing. Special fees apply. Prerequisites: CAH F140. (1+6)
CAH F243  Culinary IV — À la Carte Cookery
4 Credits
Study focuses on the preparation of food items for service in a guest-centered à la carte environment. Students will work in an à la carte stations to include salads, broiler, saute, expediter, and tournant. Line cooking skills for fine dining as well as time budgeting and management will be emphasized. Students will gain proficiency in the areas of kitchen sense, mise en place, and hustle. An increased focus on the concepts of food presentation is emphasized. Projects include menu design, research and design of dishes to include plate presentation. Students plan and prepare up-scale theme menus. Special fees apply. Prerequisites: CAH F141, CAH F175, CAH F242 or permission of instructor. (1+6)

CAH F247  Bakery Production III
5 Credits
Continuation of CAH F146 with emphasis on specialty breads, desserts, cakes, tarts and French pastries. Ability to plan and organize production, schedule and supervise other students emphasized. Special fees apply. Prerequisites: CAH F146 or permission of instructor. (5+0)

CAH F248  Intermediate Baking and Pastry
4 Credits
This course is designed to give the student an overall appreciation and increased understanding of bread and fine pastry. Students will learn to effectively produce a variety of specialty dough, pastries, and desserts such as flans, tarts, individual and miniature pastries, soufflés, chocolates, plated desserts, ice cream and sugar work, tarts and mousse tortes. Special fees apply. Prerequisites: CAH F146, CAH F150 or permission of instructor. (1+6)

CAH F250  Garde Manger
4 Credits
Students study traditional upscale pantry preparation. Students practice techniques for artistic displays of hors d’oeuvres, canapé, paté, terrines and charcuterie. The student gains practical experience preparing and serving theme buffets for guests. Special fees apply. Prerequisites: CAH F146, CAH F150 or permission of instructor. (1+6)

CAH F253  Storeroom Purchasing and Receiving
2 Credits
Purchasing and receiving methods and specifications in a variety of food operations are covered in this course. Students will gain exposure to purchasing specifications for a variety of foods, using general purchasing methods, requirements, procedures and ethics. (2+0)

CAH F255  Human Resource and Supervision in Hospitality
3 Credits
Approaches for effective culinary or hospitality supervision are considered in this course. Methods of recruiting, selecting, training, and evaluating personnel are covered. Team building and conflict management concepts are examined. Skills in communication, empowerment and planning are introduced. This course fulfills a requirement of certification with the American Culinary Federation. (3+0)

CAH F256  Restaurant and Hospitality Cost Management
2 Credits
A course designed to relate principles of calculation to the food service industry. Recipe computations, food cost estimates, cash procedures, and payroll practices are studied. Practices for controlling portions, inventories and costs are explored as they affect business operations. Prerequisites: CAH F101. (2+0)

CAH F257  Introduction to Wine Appreciation
1 Credit
This is a foundation wine course with a focus on learning systematic professional tasting techniques, identifying the classic grape varietals, understanding the characteristics of wine, learning the language of wine, and beginning to identify how to pair wine with food. Proper service techniques and how to navigate an extensive wine list will also be explored. Graded Pass/Fail. Special fees apply. Prerequisites: Students must be at least 21 years of age to enroll. (0.5+1)

CAH F258  Intermediate Wine Appreciation
1 Credit
This course will focus on the study of wine from around the world with an emphasis on the similarities and differences of those regions. Consideration will be given to the influence of climate, topography, and culture along with many other factors that affect the grapes. A goal will be to identify the varietals through focused blind tastings. Focus will be on preparing the new sommelier with special attention given to selecting wines with integrity for a cellar. Costing and inventory controls will also be covered. Graded Pass/Fail. Special fees apply. Prerequisites: CAH F257 or permission of the instructor. Must be 21 years of age to enroll. (0.5+1)

CAH F259  Advanced Oenology
1 Credit
Offered As Demand Warrants
The study and evaluation of the wines of France and Germany. Emphasis on the marketing production, serving and control of wine sales. Graded Pass/Fail. Special fees apply. Prerequisites: CAH F257; CAH F258; or permission of instructor. Must be at least 21 years of age to enroll. (1+0)

DENTAL ASSISTING

DA F132  Administrative Procedures for the Dental Assistant
2 Credits
Offered Fall
Administrative responsibilities performed by dental assistants in dental facilities. Includes duties of the office assistant, receptionist or secretary, and insurance coordinator. Focus on reception, telephone procedures, scheduling, public relations, insurance and professionalism. Prerequisites: High school graduation, GED, or permission of instructor. (2+0)

DA F150  Dental Radiography
4 Credits
The study of film and digital radiographic techniques in the dental practice. Introduces student to radiographic anatomy and radiation physics. Includes safety in exposing, processing and mounting dental radiographs. Presents hazardous materials handling, equipment operation and maintenance. Prepares students for the Dental Assisting National Board’s radiology health and safety examination. Special fees apply. (3+2)

DA F151  Dental Infection Control
2 Credits
Principles and practices of infection control in the dental office. Includes knowledge of disease, microbiology, transmission prevention and methods of compliance with OSHA and CDC regulations. Prepares students for the Dental Assisting National Boards infection control examination. (2+0)

DA F152  Dental Materials and Applications
4 Credits
Physical and chemical properties of restorative dental materials and the application of those materials. Includes properties and manipulation of gypsum material, impression materials and custom trays, basic crown and bridge procedures. Special fees apply. Prerequisites: HLTH F151 or may be taken concurrently. (2+4)

DA F153  Anatomy for Dental Assistants
3 Credits
Study of anatomy as it applies to the field of dental assisting. Includes basic body systems and an in-depth examination of dental embryology, histology, morphology and head/neck anatomy. (3+0)

DA F231  Clinical Chairside I for Dental Assistants
6 Credits
Introduction to dental assisting. Beginning skills necessary to function as a chairside dental assistant in a general dentistry practice. Emphasis
DENTAL HYGIENE

DH F111  Dental Anatomy, Embryology and Histology
2 Credits  Offered Fall
Introduction to embryology and histology of the periodontal tissues. Includes discussion of dental accretions and cariolog. Special fees apply. Prerequisites: Admission to the dental hygiene program or permission of department. (2+0)

DH F112  Techniques I for Dental Hygienists
7 Credits  Offered Fall
A pre-clinical course introducing the basic dental hygiene procedures including data gathering, patient education and basic instrumentation. Emphasis is placed on skill development in basic instrumentation and infection control. Special fees apply. Prerequisites: Admission to the dental hygiene program. (3+8)

DH F114  Anatomy of the Orofacial Structures
2 Credits  Offered Fall
Provides students with knowledge to perform technical skills within the oral cavity, especially those relating to dental screening and record-taking. Special fees apply. Prerequisites: Permission of department. (2+0)

DH F121  Periodontics I
2 Credits  Offered Fall
Introduction to periodontal disease. Emphasis is placed on recognition of periodontal disease and treatment planning. Prerequisites: Admission to the dental hygiene program. (2+0)

DH F122  Techniques II for Dental Hygienists
4 Credits  Offered Spring
Introduces adjunctive techniques used in dental hygiene treatment. Basic manipulation of dental materials. Emphasis is placed on care of materials and restorations that are encountered intra-orally during dental hygiene treatment. Radiology lab provides opportunity to develop competence in exposing radiographs on patients under direct faculty supervision. Special fees apply. Prerequisites: Admission to the dental hygiene program. (2+4)

DH F132; HLTH F150; HLTH F152; HLTH F153; HLTH F234; HLTH F251; HLTH F252; HLTH F253; enrollment by special permission only. (1+0+20)

DA F252  Clinical Chairside II for Dental Assistants
6 Credits
Emphasizes advanced dental assisting skills necessary in general dentistry. Includes taking impressions for study models, radiography, matrix assembly, rubber dam application, assisting with the administration of local anesthetics, temporary crowns, oral health and nutrition. Includes introduction to specialty practices. Special fees apply. Prerequisites: HLTH F251. (3+6)

DA F253  Clinical Chairside III for Dental Assistants
3 Credits
Continued learning in the dental specialties including prosthodontics, endodontics, periodontics, pedodontics, orthodontics, and oral and maxillofacial surgery. Special fees apply. Prerequisites: HLTH F251; HLTH F252; permission of program coordinator. (2+2)

DA F254  Dental Assistant Practicum
4 Credits
Clinical, off-campus course for dental assisting students. Placement in general and specialty dental offices under direct supervision by participating dentist and program faculty. Includes seminars to discuss progress and experiences. Graded Pass/Fail. Prerequisites: HLTH F122; HLTH F132; HLTH F150; HLTH F152; HLTH F153; HLTH F234; HLTH F251; HLTH F252; HLTH F253; enrollment by special permission only. (1+0+20)
DEVELOPMENTAL MATH (DEVM) — DENTAL HYGIENE (DH) — PREPARATORY COLLEGE WRITING (DEVE)

DEVM F050 Precalculus 3 Credits
Operations with whole numbers, fractions, decimals, percents and ratios, signed numbers, evaluation of algebraic expressions and evaluation of simple formula. Metric measurement system and geometric figures. Also available via e-Learning and Distance Education. Prerequisites: Appropriate placement test scores. (3+0)

DELTA F285 Clinical Practicum III 6 Credits Offered Spring
Provides opportunity to achieve clinical skill competency with individuals presenting themselves with moderate to advanced periodontal disease. Learning occurs through student practice and individualized instruction. Special fees apply. Prerequisites: Completion of all F100-level dental hygiene classes with a C grade (2.0) or better. (0+0+18)

DEVM F286 Clinical Seminar III 1 Credit Offered Spring
Discussion and evaluation of clinical experiences encountered in DH F285. Emphasis is placed on review of treatment plans and case presentations of patients exhibiting mild to moderate periodontal disease. Prerequisites: Completion of all F100-level dental hygiene classes with a C grade (2.0) or better. (20+0)

DEVM F310 Oral Pain Control for Dental Hygienists 3 Credits Offered Fall
Examines pharmacology, armamentarium, anatomical and physiological consideration, administration techniques and potential complication of local anesthetic. Analyzes pharmacology, techniques, medical contraindications and management complications accompanying administration and monitoring of nitrous oxide. Special fees apply. Prerequisites: Completion of all F100-level dental hygiene classes with a C grade (2.0) or better or current Alaska licensure in dental hygiene; permission of department; current certification in cardiopulmonary resuscitation. (1.5+3)

DEVELOPMENTAL ENGLISH

DEVE F060 Preparatory College Writing I 3 Credits
Intensive work in the process of writing and revising to improve one’s writing skills. Prerequisites: Appropriate placement test scores or permission of instructor. (3+0)

DEVE F068 College Writing Skills 1 – 3 Credits
Individualized instruction in written language skills. Open entry/open exit, one credit modules in spelling/vocabulary, writing and grammar usage. Enrollment in one or more modules based on diagnosed need or student decision; may be repeated. Does not fulfill degree requirements in written communications or humanities. Graded Pass/Fail. (1 – 3+0)

DEVE F070 Preparatory College Writing II 3 Credits
Instruction in writing to improve students’ fluency, accuracy and comprehension skills. Preparation for ENGL F111X. Also available via e-Learning and Distance Education. Prerequisites: Appropriate placement test scores or permission of instructor. (3+0)

DEVE F109 Preparatory College Writing III 3 Credits
Strengthens preparatory college writing skills they need for ENGL F111X, including research, writing and revising, and critical reading skills. Prerequisites: Appropriate placement test scores or permission of instructor. (3+0)

DEVELOPMENTAL MATHEMATICS

DEVM F051 Math Skills Review 1 Credit
Offered As Demand Warrants
Develops and reviews basic mathematical terminology, theory and operations as outlined by the Alaska State Mathematics Standards. Mathematics topics focus on reviewing the six basic “strands” of mathematical content: numeration, measurement, estimation and computation, function and relationship, geometry, and statistics and probability. Approaches to problem solving will emphasize the process of mathematical thinking, communication and reasoning. It is an appropriate course for those preparing for the High School Qualifying Exam in Alaska or those needing a review of basic math skills in preparation for a math placement test at UAF. May be repeated for a total of three credits. Graded Pass/Fail. (1+0)

DEVM F056 Math Fast Track: Prealgebra/Elementary Algebra Review 1 Credit
Offered 3 times per year: Augustmester, Wintermester, Maymester
A 20-hour intensive review of math concepts offered prior to each semester. Covers prealgebra and elementary algebra topics to prepare qualified students to potentially improve their math course placement. Students should have a history of being successful in equivalent levels of math, although they may not recall enough information to place well on the placement test. Students who are successful in this class have the possibility of advancing through one or two semesters of development math. Graded Pass/Fail. Prerequisites: Placement into DEVM F050 or DEVM F060. (1+0)

DEVM F060 Elementary Algebra 3 Credits
First year high school algebra. Evaluating and simplifying algebraic expressions, solving first degree equations and inequalities, integer exponents, polynomials, factoring, rational expressions, equations and graphs of lines. Also available via e-Learning and Distance Education. Prerequisites: Grade of C or better in DEVM F050; or ABUS F155, or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEVM F061 Review of Elementary Algebra 1 Credit
Designed to assist students in reviewing material covered by DEVM F060. Individuals who have not previously taken an elementary algebra course are recommended to enroll in DEVM F060. Available via e-Learning and Distance Education only. (1+0)

DEVM F062 Alternative Approaches to Math: Elementary Algebra 3 Credits
Algebraic topics. Includes operations with polynomial expressions, first- and second-degree equations, graphing, integral and relational exponents, and radicals using alternative teaching styles. Prerequisites: Grade of C or better in DEVM F050; or ABUS F155; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEVM F065 Mathematics Skills 1 – 3 Credits
Designed to assist students in reviewing and reinforcing course concepts covered by DEVM F050, DEVM F060, DEVM F062, DEVM F105 and DEVM F106. Consists of instruction which may include lab instruction, individual student work or group work. May be repeated. Recommended for students who need more time and help to master the material in Developmental Math courses. (1 – 3+0)
DEVM F066 Advanced Math Fast Track: Elementary/Intermediate Algebra Review
1 Credit
Offered 3 times per year: Augustmester, Wintermester, Maymester.

A 20-hour intensive review of math concepts offered prior to each semester. Covers elementary and intermediate algebra topics to prepare qualified students to potentially improve their math course placement. Students should have a history of being successful in equivalent levels of math, although they may not recall enough information to place well on the placement test. Students who are successful in this class have the possibility of advancing through one or two semesters of development math. Graded Pass/Fail. Prerequisites: Placement into DEVM F060 or DEV F105 or DEV F106. (1+0)

DEVS F071 Review of Intermediate Algebra
1 Credit
Course reviews material covered by DEVM F105. Individuals who have not taken an intermediate algebra course on the high-school level are recommended to enroll in DEVM F105. Available via e-Learning and Distance Education only. (1+0)

DEVS F105 Intermediate Algebra
3 Credits
Second year high school algebra. Operations with rational expressions, radicals, rational exponents, logarithms, inequalities, quadratic equations, linear systems, functions, Cartesian coordinate system and graphing. To matriculate to MATH F107X from DEV F105 a grade of B or higher is required. Also available via e-Learning and Distance Education. Prerequisites: Grade of C or better in DEV F060; or DEV F062; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEVS F106 Intensive Intermediate Algebra
4 Credits
Algebraic topics. Includes exponents, radicals, graphing, systems of equations, quadratic equations and inequalities, logarithms and exponentials, and complex numbers using alternative teaching styles. Note: This course satisfies elective credit only. Prerequisites: Grade of C or better in DEV F060; or DEV F062; or DEV F105; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (4+0)

DEVS F032 Reading Enhancement
3 Credits
Intensive instruction in reading designed to increase vocabulary and comprehension skills necessary for successful reading in the content areas of college courses. Focus is on improved reading comprehension and vocabulary development. Prerequisites: Placement or permission of instructor. (3+0)

DEVS F038 Reading Skills
1 – 3 Credits
Offered As Demand Warrants
Course emphasis is on improving reading comprehension using texts and other materials. Focus is on paragraph structure to recognize main idea, supporting details and author’s purpose. Study techniques for recognizing new vocabulary. Small groups allow individually designed course of instruction to meet the needs of the students. May be repeated. Graded Pass/Fail. Prerequisites: Placement or permission of instructor. (1 – 3+0)

DEVS F100 Introduction to Science
4 Credits
Introduction to skills needed to succeed in core science courses. Topics include scientific terminology, scientific mathematical notation, and the fundamentals of chemistry, physics, and biology. Includes basic scientific lab techniques and the skills needed to learn scientific material. Prerequisites: Elementary algebra and college reading level. (3+3)

DEVS F101 Skills for College and Career Success
3 Credits
A diverse menu of study skills for the student entering the college environment. Skills include active listening, effective reading, taking usable notes, test taking, communication, time and money management. Students learn personal development skills that assist in addressing intrusive issues that impact the learning process, increasing self-esteem, and relating these skills to the classroom and later to a career. Class sessions offer diverse learning experiences. (3+0)

DEVS F102 Introduction to Distance Education
1 – 3 Credits
Offered As Demand Warrants
A diverse menu of study skills for the student entering the distant learning college environment. Skills include: active listening, effective reading, taking usable notes, test preparation and test taking strategies, communication, and the use of technology as a study resource, all in the distance learning context. Additionally, personal development elements such as time management, working with university representatives, and accessing local resources will provide skills to maximize the learning experience and address the intrusive issues that impact the learning process. (1 – 3+0)

DEVS F104 University Communications
1 – 3 Credits
Offered As Demand Warrants
Introduces the unique methods of communication required at the college level. May link with selected lecture courses. May be repeated. (1 – 3+0)

DEVS F105 Academic Reading for College
3 Credits
Strengthens academic and critical reading and literacy skills required for college-level courses. Emphasizes practice and transfer of reading and study skills that increase comprehension and retention of narrative and expository materials typically encountered in college courses, e.g. textbooks, websites, research articles, etc. Prerequisites: Placement or permission of instructor. (3+0)

DEVS F107 Reader-Writer Workshop
3 Credits
Offered As Demand Warrants
A reader-writer workshop to develop fluency in reading and writing skills for persons whose first language is not English. Intensive speaking, listening, reading and writing activities. Prerequisites: Placement by examination or student decision. (3+0)

DEVS F108 Study Skills Lab
1 Credit
Offered As Demand Warrants
Improvement of study skills in areas of greatest need on an individual or small group basis in the lab or other workshop or individualized format. Topics include time and stress management, listening/note taking, library research and memory. Course may be repeated for credit when content varies. (1+0)

DEVS F110 College Success Skills
1 Credit
An introduction and overview of the diverse skills, strategies and resources available to ensure success in the college experience. Topics include study skills, time management, career planning, stress management, communication skills, test taking and personal development. Graded Pass/Fail. (1+0)

DEVS F111 Reading in the Mathematical Sciences
1 Credit
Will improve reading skills in math and will support students in their math class. Will provide a supplement instruction time focusing on the introduction and/or development of reading skills that will aid in solving math problems and understanding and retaining the math information delivered in the class. This course will be linked to a math course. Graded Pass/Fail. (1+0)
DEVS F112  Reading in the Natural Sciences  
1 Credit  
Will improve student success in their current and future natural science classes. Will provide a supplement instructional time focusing on introducing and/or developing reading skills that will aid in reading, understanding, and retaining science information delivered in the natural science lecture and lab. Skills emphasized will include identifying, organizing and prioritizing topic, main idea, and details, note taking, and using effective reading to improve test performance. Must be linked to freshman level science class. Graded Pass/Fail. (1+0)

DEVS F114  Reading in the Humanities/Social Sciences  
1 Credit  
Offered Fall  
Introduction and application of effective reading strategies for increased comprehension and retention of course content delivered through written formats, e.g., textbooks, articles, web pages, etc. Graded Pass/Fail.  
Co-requisite: Core humanities/social science course. (1+0)

DEVS F150  Life Work Planning  
1 Credit  
Planning for a satisfying career choice based on realistic assessment of self, accurate knowledge of the world of work and experience with ways to activate career plans. Enables students to evaluate potential careers and to make educational and job search plans. Graded Pass/Fail. (1+0)

DEVS F160  The Resume: Key to Success  
1 Credit  
Use the resume writing process to develop job seeking skills; locating the hidden market; researching job potential; learning to fill out effective applications; designing and printing a custom resume; assembling a portfolio; and developing effective interview skills.  
Recommended: DEVS F150. (1+0)

DEVS F183  Straight Thinking  
3 Credits  
Offered As Demand Warrants  
A study of inductive, deductive and seductive thinking, and skill building to recognize and use all three. Critical thinking skills to analyze newspaper, magazine and spoken arguments. Political speeches and other media presentations examined. Effective and convincing presentation of one’s own ideas including formal and informal logic. (3+0)

DIESEL TECHNOLOGY

DSLT F101  Safety Including Rigging and Lifting  
1 Credit  
Offered Fall  
Materials covered will be the importance of and proper use of personal protective gear and air ventilation systems; how to identify harmful chemicals in a shop atmosphere and how to use them in a safe manner; the importance of identifying the weight of an item before lifting with lifting equipment or by hand, and proper lifting procedures of heavy items when using a lifting device. Special fees apply. (1+0)

DSLT F103  Basic Equipment and Truck Operation  
1 Credit  
Offered Fall  
Basic operation of heavy equipment and diesel trucks to include: stating, clutching, braking, and steering procedures. Basic forklift operation to include: lifting weight, calculation and point of balance of machine versus lifting load. Special fees apply. (0.5+1.5)

DSLT F105  Preventive Maintenance  
3 Credits  
Offered Fall  
Perform scheduled preventive maintenance on vehicles and heavy equipment. Gain knowledge of lubricants, filters, lubrication points and proper fluid levels and understanding of what to look for when performing a visual inspection. Special fees apply. Prerequisites: DSLT F101; DSLT F103. (1.5+3)

DSLT F107  Basic Electrical Systems and Electronic Fuel Injection  
3 Credits  
Offered Fall  
DC voltage and amperage, fuses, circuit breakers, relays and junction boxes will be covered along with an understanding of wiring schematics and identification of and repair of lighting. Special fees apply. (1.5+3)

DSLT F123  Heavy Duty Braking Systems  
3 Credits  
Offered As Demand Warrants  
Braking systems for commercial trucks and heavy equipment applications; compressor testing and overhaul, relay valves, actuators, wear limits, acceptable tolerances, brake lining replacement, government regulations and pneumatic controls; evolving technologies such as anti-lock brakes. Remove and replace brake shoes, drums, hardware, S-cams and air chambers. Includes the inspection, preventive maintenance and overhaul of a commercial truck or heavy equipment braking system. Special fees apply. Prerequisites: DSLT F101; DSLT F103. (1.5+3)

DSLT F134  Diesel Fuel Injection  
3 Credits  
Offered Fall  
Theory and functional operation of all common diesel fuel injection systems including those produced by modern Bosch, Mack, Cummins, Caterpillar and Detroit Diesel. Direct injection and pre-combustion fuel injection systems. Testing procedures, when testing high pressure diesel injection pumps and injectors as well as removing, installing and adjusting the most common systems used in the heavy truck and heavy equipment industry. Special fees apply. (2+2)

DSLT F201  Manual Transmissions and Differentials  
3 Credits  
Offered As Demand Warrants  
Theory, diagnosis and repair of manual transaxles and transmissions, transfer cases, differentials, clutch assemblies, power take off units, drivshafts and axles as well as removing and installing clutches, transmissions and differentials in a truck or piece of heavy equipment. Preventive maintenance and cold weather component problems will also be covered. Special fees apply. Prerequisites: DSLT F101; DSLT F103. (1+4)

DSLT F202  Heavy Duty Automatic Transmissions  
2 Credits  
Offered Spring  
Theory, operation and troubleshooting of heavy duty automatic transmissions; hydraulic, electrohydraulic, pneumatic and electronic controls. Prepares the student to overhaul Allison, ZF and similar automatic transmissions. Special fees apply. (1+3)

DSLT F254  Engine  
5 Credits  
Offered Fall  
Understanding the two cycle and four cycle diesel engine. Performing tune-ups, as well as disassembling and reassembling a modern diesel engine commonly found in the heavy truck or heavy equipment industry. Special fees apply. Prerequisites: DSLT F101; DSLT F103; DSLT F105; or permission of instructor. (2.5+3)

DRAFTING TECHNOLOGY

DRT F101  Introduction to Drafting  
3 Credits  
Offered As Demand Warrants  
Introduction to basic drafting skills necessary to communicate in the building, construction, design and process technology industries for freshman-level students and for associate degree-seeking students. Limited manual drafting techniques will be used to gain basic skills and to contrast the speed and accuracy to that of computer-aided drafting (CAD). Special fees apply. (2+2)

DRT F110  Computer Literacy for Technicians  
3 Credits  
Offered As Demand Warrants  
Introduction to operating systems and their applications to technology. Emphasis will be placed on computer literacy for technology and
industrial business applications relevant to technicians. Special fees apply. (2+2)

<td>Foundation in child development prenatal to age 3. Includes anticipating the emerging development during the rapid growth of these critical years. Focuses on domains, theories, cultural perspectives and multiple influences on development, with an emphasis on prenatal development, healthy childbirth, the importance of relationships, and meaningful environments. Includes observation, reflection, early intervention and labs. (2.5+1)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### ECE F105  Developmentally Appropriate Practice
**1 Credit**
Introduction to developmentally and culturally appropriate teaching practice in early childhood settings. Topics include basic verbal skills, inclusion, the teaching process, organizing a class, lesson planning and curriculum development. Note: Successful completion of this course is required prior to enrollment in any of the ECE activity classes. This class may be taken concurrently (in the same semester) with the ECE activity classes. (0.75+0.5)

### ECE F106  SEED Level I (Alaska System for Early Education Development)
**1 Credit**
Offered As Demand Warrants
An entry level overview of the Alaska System for Early Education Development (SEED). Through class instruction and guided self-study, students explore the basics of an early childhood career path. Graded Pass/Fail. (1+0)

### ECE F107  Child Development II: The Preschool and Primary Years (s)
**3 Credits**
Foundation in development for the study of children ages 3 – 8, including developmental domains, theories, milestones and cultural influences, including indigenous and traditional practices. The emphasis is on helping students use their knowledge of child development to predict and promote optimal growth in children. Practical experiences, such as observations and laboratory participation, will be included. **Recommended: ECE F104.** (2.5+1)

### ECE F110  Safe, Healthy, Learning Environments
**3 Credits**
Establishing and maintaining safe, healthy and inclusive environments for children ages 0 – 8. Emphasis is on environments that are developmentally and culturally appropriate and encourage play, exploration and learning. Topics include common illnesses, preventative health care, safety aspects in indoor and outdoor settings as well as on field trips. Laws and regulations relative to course content are included. Lab required. Note: Alternative: ECE F112; ECE F113; ECE F114. (2.5+1)

### ECE F111  Nutrition for Young Children
**1 Credit**
Offered Spring
Appropriate ways to meet the nutritional needs of infants and young children, including laws, regulations and appropriate practices relative to food handling service. (1+0)

### ECE F112  Healthy Environments for Young Children
**1 Credit**
Offered Spring
Establishing and maintaining a physically and psychologically safe environment for children, including common illnesses, preventative health care and Alaska laws and regulations relating to the health of young children. Note: Alternative to ECE F110 when taken with ECE F113 and ECE F114. (1+0)

### ECE F113  Safe Environments for Young Children
**1 Credit**
Offered Spring
Establishing and maintaining a physically and psychologically safe environment for children, including safety aspects of caring for young children and Alaska laws and regulations relating to safety. Note: Alternative to ECE F110 when taken with ECE F112 and ECE F114. (1+0)

### ECE F114  Learning Environments
**1 Credit**
Offered Spring
Space, relationships, materials and routines as resources for constructing interesting, secure and enjoyable environments that encourage play, exploration and learning. Note: Alternative to ECE F110 when taken with ECE F112 and ECE F113. (1+0)

### ECE F115  Responsive and Reflective Teaching
**3 Credits**
Offered Fall
How to be ethical, responsive, productive, and well-informed practitioners in the field of early childhood. Emphasis on using traditional and local knowledge and values to inform practice, manage personnel and programs, and provide appropriate services and support to young children and their families. Includes the NAECY Code of Ethics and NAECY Standards. Use of observation to transform teaching and management practices. Lab required. This course combines existing courses ECE F171 (1), ECE F172 (1) and ECE F173 (1), and is comparable to ECE F170. Students should take either ECE F115 or ECE F170 or the three one-credit courses (ECE F171, F172, and F173) to meet the practicum and reflection requirement for the Certificate and AAS degree. **Prerequisites: ECE F101; placement in ENGL F111X or higher; or permission of instructor. Recommended: Computer with adequate and appropriate software, access to printer, audio conference and internet, and fax machine as needed.** (2+2)

### ECE F117  Math Skills for Early Childhood Educators
**3 Credits**
Offered Spring
Computation involving percentages, estimation, problem solving, reading and creating graphs and tables, data organization and interpretation. Emphasis on applications of computational skills. Cross-listed with HUMS F117. (3+0)

### ECE F118  Nutrition, Health and Safety
**3 Credits**
Offered Fall
Establishing and maintaining physically and psychologically safe, healthy, inclusive and appropriate environments for children ages 0 – 8 that emphasize local and community knowledge. Includes nutrition and safe food handling, common illnesses, preventative health care and safety practices indoors and outdoors. Incorporates laws and regulations relative to course content. Lab required. This course combines existing courses ECE F111, ECE F112 and ECE F113. Students should take either ECE F118 or the three one-credit courses (ECE F111, F112 and F113) to meet the nutrition, health and safety course requirement for the Certificate and AAS degree. **Prerequisites: ECE F101; placement in ENGL F111X or higher; or permission of instructor. Recommended: Computer with adequate and appropriate software, access to printer, audio conference and internet, and fax machine as needed.** (2+2)

### ECE F119  Curriculum I: Principles and Practices
**3 Credits**
Methods of creating and facilitating individually and culturally appropriate curriculum for young children. Establishing integrated, meaningful and relevant experiences applied to the area of language and literacy. Includes a balance of individual and small group experiences, child-centered curriculum and teacher-directed times, as well as transitions. Focus on emergent curriculum, active learning and play. The use of local materials and resources is incorporated. Labs required. (2.5+1)

### ECE F120  Curriculum II: Thinking, Reasoning, and Discovery
**3 Credits**
Emphasizes culturally and developmentally appropriate curriculum and activities to advance the cognitive development of young children, with particular focus on science, math and creativity. Includes a variety of approaches to curriculum development, assessment and necessary skills for early childhood teachers. Lab required. **Recommended: ECE F104, F107 and F119. Note: Alternative: ECE F122; F124; F125.** (2.5+1)

### ECE F121  Physical Activities for Young Children
**1 Credit**
Offered Fall
Essentials of creating an environment which provides space, materials, equipment and activities to promote the physical development of children. Note: Alternative to ECE F120A when taken with ECE F105, ECE F123. (1+0)

<td>1</td>
<td>Offered Spring</td>
<td>Overview of how children construct mathematical meanings. Introduction to mathematical learning principles and experiences for children, 3 – 8 years. Note: Alternate to ECE F120B when taken with ECE F122 and ECE F124. Prerequisites: ECE F105 or concurrent enrollment. (1+0)</td>
</tr>
<tr>
<td>ECE F126</td>
<td>Activities for School-Age Child Care</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>For child care staff who work in after-school and/or summer programs. Focus on daily activity schedules and appropriate, fun, challenging activities and projects for young school-age children. (1+0)</td>
</tr>
<tr>
<td>ECE F127</td>
<td>Language and Creative Expression</td>
<td>3</td>
<td></td>
<td>Culturally and developmentally appropriate curriculum to promote language and literacy, creativity, and physical development. Emphasis on emergent curriculum, active learning, play observation and creative expression methodologies. Understanding of emergent literacy in young children and how to promote children's development in pre-reading activities. Emphasizes incorporating indigenous knowledge, local materials, resources, elders, artists and parents in addressing language and creative expression development in young children. Lab required. This course combines existing courses ECE F121, ECE F123 and ECE F124, and is comparable to ECE F120A. Students should take either ECE F127 or ECE F120A or the three one-credit courses (ECE F121, F123 and F124) to meet curriculum requirements for the Certificate and AAS Degree. Prerequisites: ECE F101, ECE F104 combined with ECE F107 or ECE F245 and ECE F220, ECE F113; placement in ENGL F111X or higher. Recommended: Computer with adequate and appropriate software, access to printer, audio conference and internet, and fax machine as needed. (2+2)</td>
</tr>
<tr>
<td>ECE F128</td>
<td>Thinking, Reasoning, and Discovery</td>
<td>3</td>
<td></td>
<td>Emphasizes developmentally and culturally appropriate curriculum in the area of cognition. Development and implementation of curriculum that fosters children's development in numeracy, problem solving, intellectually autonomous decision-making, and inquiry in physical and natural sciences based on the individual needs and characteristics of young children. Emphasizes the principles and practices of culturally appropriate, local knowledge and resources being used with young children. Lab required. This course combines existing courses ECE F105, ECE F122 and ECE F125, and is comparable to ECE F120B. Students should take either ECE F128 or ECE F120B or the three one-credit courses (ECE F105, ECE F122 and ECE F125) to meet curriculum requirements for the Certificate and AAS Degree. Prerequisites: ECE F101; ECE F104; ECE F107 or ECE F245; ECE F220; ECE F115; placement in ENGL F111X or higher. Recommended: Computer with adequate and appropriate software, access to printer, audio conference and internet, and fax machine as needed. (2+2)</td>
</tr>
<tr>
<td>ECE F129</td>
<td>Foundations of Nutrition and Physical Wellness</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Appropriate ways to meet the physical needs of infants and young children including nutrition, movement and exercise. Includes laws, regulations and appropriate practices in child nutrition as well as initiatives and trends to combat malnutrition and obesity in young children. Includes providing positive role modeling and helping families understand the essentials of good health in the home, starting with prenatal maternal health and including breastfeeding and traditional and local foods. Explores space, materials, equipment and activities to promote physical health and fitness. (2.5+1)</td>
</tr>
<tr>
<td>ECE F130</td>
<td>Culture, Learning and the Young Child</td>
<td>2</td>
<td>Offered Fall</td>
<td>Ways each child within a culture comes to know, accept and take pride in himself or herself. Maintaining a culturally appropriate, open, friendly and cooperative caring relationship with each child's family. (2+0)</td>
</tr>
<tr>
<td>ECE F132</td>
<td>Young Child and the Family</td>
<td>1</td>
<td>Offered Spring</td>
<td>Introduction to the importance of a positive and productive relationship between families and the child development centers. Emphasis on using this relationship to coordinate child rearing efforts of both the family and the educator. (1+0)</td>
</tr>
<tr>
<td>ECE F135</td>
<td>Family Day Care Home Provider Training</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Operation of safe, successful day care home or family day care program. Overview of laws and regulations, business practices, parental concerns, health and safety, activities, space planning, snack and meal service, community support, and provider concerns. (1+0)</td>
</tr>
<tr>
<td>ECE F140</td>
<td>Positive Social and Emotional Development</td>
<td>3</td>
<td></td>
<td>Explores the importance of self-regulation, a strong self-concept and methods for helping children develop positive self-esteem. Focus on emotional intelligence, pro-social orientation, and social competence. Anti-bias curriculum is included. Techniques explored for working with groups of children birth – 8 years old including social problem solving and developing skills for making friends. Note: Alternative: ECE F141; ECE F142; ECE F143. (2.5+1)</td>
</tr>
<tr>
<td>ECE F141</td>
<td>Class Management</td>
<td>1</td>
<td>Offered Fall</td>
<td>Classroom management for teachers working with groups of children 3 – 8 years old. Explores skills needed to provide an environment in which children can begin to learn and practice appropriate and acceptable behaviors as individuals and as a group. Appropriate guidance including: setting limits, use of logical and natural consequences and helping children learn social problem solving, conflict resolution and negotiation. Note: Alternative to ECE F140 when taken with ECE F142 and ECE F143. (1+0)</td>
</tr>
<tr>
<td>ECE F142</td>
<td>Social Development of the Young Child</td>
<td>1</td>
<td>Offered Fall</td>
<td>Explores skills that help each child feel accepted in the group. Encourages communication empathy and mutual respect among children and adults. Emphasis on methods used to promote pro-social skills such as sharing, making friends, helping children learn social problem solving, conflict resolution and negotiation. Note: Alternative to ECE F140 when taken with ECE F141 and ECE F143. (1+0)</td>
</tr>
</tbody>
</table>
ECE F143 Developing Positive Self-Concepts in Young Children
1 Credit  Offered Fall
Explores the importance of a strong self-concept and methods for helping children develop positive self-esteem. Emphasis on providing success-oriented activities, encouraging acceptance and expression of children's feelings and developing pride as an individual and as a member of a cultural/ethnic group. Note: Alternative to ECE F140 when taken with ECE F141 and ECE F142. (1+0)

ECE F170 Practicum I
1 – 3 Credits
A guided student teaching experience in working with a group of 0 – 8 year old children. Students apply skill in providing quality early care and education based on the knowledge of early childhood theories and approved practices. Assumes increasing responsibility for planning and lead teaching. Prerequisites: ECE F101; ECE F104; ECE F107; ECE F110; ECE F119; ECE F120; ECE F129; ECE F140. (0.5+0)

ECE F171 Program Management
1 Credit  Offered As Demand Warrants
The importance of coordination and communication among staff in the classroom. Emphasis on effective group planning, using resources, improving communication, sharing information about children, maintaining records, and establishing and following policies, rules and regulations. Note: Alternative to ECE F170 when taken with ECE F172, ECE F173. (1+0)

ECE F172 Professionalism
1 Credit  Offered As Demand Warrants
Awareness of one's own personal qualities, feelings, and values that affect the teaching atmosphere; one's relationships with children; one's own teaching style. Note: Alternative to ECE F170 when taken with ECE F171, ECE F173. (1+0)

ECE F173 Reflective Teaching
1 Credit  Offered As Demand Warrants
Students will develop and expand their capacities to be self-reflective teachers. Promote skills to understand and reflect on early childhood principles, theories and their teaching practices in programs for young children birth to age eight. Note: Alternative to ECE F170 when taken with ECE F171, ECE F172. Prerequisites: ECE F101; ECE F104; ECE F120A; ECE F120B; ECE F140; ECE F245. (0+3.5)

ECE F210 Child Development and Guidance
3 Credits  Offered Spring
Guidance and discipline approaches for young children, based on an understanding of child development and of developmentally appropriate education practices. Such an understanding assists teachers and parents in addressing the cause of a behavior problem rather than the symptoms. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. (3+0)

ECE F213 Curriculum II: Thinking, Reasoning, and Discovery
3 Credits
Emphasizes culturally and developmentally appropriate curriculum and activities to advance the cognitive development of young children, with particular focus on science, math and creativity. Includes a variety of approaches to curriculum development, assessment and necessary skills for early childhood teachers. Lab required. Recommended: ECE F104, F107, and F119. Note: Alternative: ECE F122; F124; F125. (2.5+1)

ECE F214 Curriculum III: Infant and Toddlers
3 Credits
Developmentally appropriate care and nurturement of infants and toddlers, with an emphasis on the importance of building relationships as the foundation of curriculum. Course will include segments which will prepare students to create, facilitate, and evaluate infant/toddler curriculum utilizing relationship-based practices, knowledge of child development, and routines. Includes activities to stimulate development and learning and support communication, guidance and health. Research-based techniques and cultural practices included. Weekly practice labs (14 hours) required. Prerequisites: ECE F104 or permission of instructor. (2.5+1)

ECE F220 Curriculum III: Infant and Toddlers
3 Credits
Developmentally appropriate care and nurturement of infants and toddlers, with an emphasis on the importance of building relationships as the foundation of curriculum. Course will include segments which will prepare students to create, facilitate, and evaluate infant/toddler curriculum utilizing relationship-based practices, knowledge of child development, and routines. Includes activities to stimulate development and learning and support communication, guidance and health. Research-based techniques and cultural practices included. Weekly practice labs (14 hours) required. Prerequisites: ECE F104 or permission of instructor. (2.5+1)

ECE F229 Foundations in Nutrition and Physical Wellness
3 Credits  Offered As Demand Warrants
Appropriate ways to meet the physical needs of infants and young children including nutrition, movement and exercise. Includes laws, regulations and appropriate practices in child nutrition as well as initiatives and trends to combat malnutrition and obesity in young children. Includes providing positive role modeling and helping families understand the essentials of good health in the home, starting with prenatal maternal health and including breastfeeding and traditional and local foods. Explores space, materials, equipment and activities to promote physical health and fitness. (2.5+1)

ECE F230 Introduction to Children with Special Needs
3 Credits  Offered As Demand Warrants
An overview of categories of exceptionality includes hearing and visual impairments; learning, speech and language disabilities; emotional disturbances; physical and mental challenges; and the gifted and talented. Prerequisites: ECE F245; placement in ENGL F111X or higher; or permission of instructor. (3+0)

ECE F235 Screening, Assessment and Recording
2 Credits  Offered As Demand Warrants
Information to help teachers of young children understand the purpose of screening. Presents use of good screening procedures. Explores the importance of assessing young children's development and provides tools and practice for recording and evaluating children's progress towards goals. Includes a variety of evaluation tools for assessing young children's development. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. Recommended: ECE F105. (2+0)

ECE F240 Inclusion of Children with Special Needs (s)
3 Credits  Offered Fall
Developmental, social, educational and legal (PL94-142 and 99-457) issues related to the education of young children with special needs. Includes the role of the teacher in identifying, assessing and individualizing educational programs for young children with special needs. Emphasis on including the children in the least restrictive and most responsive environments. Prerequisites: ECE F245; placement in ENGL F111X or higher; or permission of instructor. (3+0)

ECE F242 Child and Family Ecology
3 Credits  Offered As Demand Warrants
Examines the influences the family has on the child, family dynamics and issues impacting families. Focus on the importance of understanding relationship building, support for families and interpersonal skill development that is culturally conducive with individual communities. Examines the ECE program's policies and procedures on families and parental involvement. Includes practical applications of course reading and content. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. (2.5+1)

| ECE F350    | Play: Foundation for Development | 3 | Offered As Demand Warrants. Concepts, theories and empirical research on the role of the play in the total development of children. Utilizing three major ideas — the effective
Course Descriptions

ECE 360  Assessment in Early Childhood
3 Credits  Offered Spring
Examination of policies and practices related to evaluation and assessment of young children's progress. Includes legal, ethical and professional responsibilities in assessment. Exploration of "what, when, why and how" to assess young children. Includes practice and analysis of various assessment styles and tools as well as how to use information gained through assessment. Prerequisites: ENGL F211X or ENGL F213X or ECE F240; ECE F310; ECE F360 (3+0)

ECE 405  Seminar in Culture and Child Rearing Practices
3 Credits  Offered As Demand Warrants
Seminar course providing opportunity for students, cross regionally throughout Alaska and beyond, to engage in the comparative study of issues associated with culture and child rearing practices of families within Alaska and throughout the world. An emphasis will be placed on the role of caregiver working with children aged birth through three years of age. Prerequisite: ENGL F211X or ENGL F213X Recommended: ECE F104, or ECE/PSY/ED F245, ECE F310, ECE F342 (3+0)

ECE 410  Supporting Family Relationships through Mentoring
3 Credits  Offered Fall
Focus on policies, leadership and professional practices inherent of successful relationships with parents. Consideration of individual communication styles and cultural diversity emphasized in relation to best mentoring practices. Prerequisites: ECE F242; and ENGL F211X or ENGL F213X. (3+0)

ECE 420 W  Developing Literacy in the Early Years
3 Credits  Offered Fall
Principles and practices in understanding and supporting young children's emerging literacy. Links the importance of oral language and early exploration with later reading and writing skills. Strategies for assisting emergent readers and writers are included, as well as how to use play and children's interests to assist in developing their literacy. Prerequisites: ECE F310; ECE F360; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; upper-division standing. (3+0)

ECE 430  Fine Arts for the Early Years (h)
3 Credits  Offered Spring
Focused on promoting the arts in children's lives. Explores the role of the teacher in helping children become aware of the beauty around them and to appreciate the variety and skill of many different kinds of art including: theatre, two- and three-dimensional art, crafts, vocal and instrumental music and dance. Strategies for assessing artistic development and working with families are incorporated. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; ECE F240; ECE F310 (2.5+0+1.5)

ECE 440  Exploring Math and Science
3 Credits  Offered Fall Odd-numbered Years
Focused on constructivist teaching of math and science. Explores the role of the teacher in helping children become theory builders in an environment designed to promote learning in math and science. Includes specific examples in chemistry, biology, ecology, numbers, patterns, geometry, measurement and data analysis. Emphasis is on teaching children an interactive, analytic and reflective process of inquiry. Prerequisites: ECE F310; ECE F360; upper-division standing. Recommended: Completion of at least one natural science course. (2.5+1)

ECE 442  Family Resource Management
3 Credits  Offered Fall As Demand Warrants
Management of resources which help families meet and alter the increasing complexities of life. Involves purposeful actions that affect the use of time, money, energy, skills, talents and knowledge. Explores roles, goals and decision-making within our multicultural society throughout the life cycle. Prerequisites: ECE F242; ENGL F111X; ENGL F211X or ENGL F213X. (3+0)

ECE 445 W  Adolescence through the Lifespan
3 Credits  Offered Spring Odd-numbered Years
Study of the inter-relationships between early childhood and future development from adolescence through adulthood. Achievement in school, anorexia, chemical dependency and other health issues, family happiness, personal confidence and career success have all been linked to the early years. This course helps students understand these vital connections. Prerequisites: One of the following courses: ECE F107 or ED F245 or PSY F245 and ENGL F111X, ENGL F211X or ENGL F213X (2.5+0+1.5)

ECE 470  Advanced Practicum
3 Credits  Offered As Demand Warrants
Advanced practicum requiring 200 hours of work in an early childhood program or early childhood agency as a teacher, curriculum specialist, family advocate or in another related position. A capstone course available only to those who have completed the other required course work for the B.A. in Child Development and Family Studies degree and their designated specialty. Prerequisites: Senior standing; permission of instructor. (2+1)

ECE 471  Clinical Practice: Organizational Action Research
3 Credits  Offered Spring Odd-numbered Years or As Demand Warrants
Theory and application of action research within an organization. Emphasis on use of personal reflection to understand practice and the development of a planned theory of action. Techniques for observing action through the use of examining the evidence are learned. Students should expect to be involved within an early childhood and administrative setting for some or all of the day for a minimum of 10 weeks. Prerequisites: ENGL F211X or ENGL F213X; completion of all CDFS core major and Administration or Family Support concentration coursework. (1+0+14)

ECE 472  Clinical Practice: Classroom Research
3 Credits  Offered Spring or As Demand Warrants
Theory and application of classroom research with emphasis on teacher as researcher. Techniques of classroom research will be studied and applied; including observation, question posing, note taking, data analysis, data interpretation, practica, and research report writing. Students should expect to be involved in the classroom setting for some or all of the school day for the entire university semester- approximately 200 hours. Prerequisites: ENGL F211X or ENGL F213X and completion of all CDFS core major and concentration course work, excluding ECE 473. (1+0+14)

ECE 473  Clinical Practice: Classroom Management
3 Credits  Offered Spring or As Demand Warrants
Supervised clinical field practice within an early childhood setting. Intent of this course is to provide a capstone for students who have completed all course work within the Curriculum and Teaching or Infant and Toddler concentration of the Child Development and Family Studies BA program. Practica activity will demonstrate application of appropriate curriculum, assessment and classroom environments developed to enhance the learning and development of young children. Prerequisites: ENGL F211X
or ENGL F213X and completion of all CDFS core major and concentration course work, excluding ECE 472. This course may be taken in conjunction with ECE F480 (1+0+14)

ECE F480 Child Development and Family Studies Portfolio 1 Credit Offered Fall and Spring As Demand Warrants A capstone project demonstrating the graduating candidate’s professional development as a result of the Child Development and Family Studies program and documenting teaching or professional practices congruent with the goals of the program. The portfolio is recommended for the Child Development and Family Studies BA degree program in lieu of a written comprehensive exam or thesis. Also may be offered through e-Learning and Distance Education. Graded Pass/Fail. Prerequisites: Required completion of all CDFS core major and concentration course work. This course may be taken in conjunction with ECE F471, 472 or 473. (0.5+0+1)

ECON F100X Political Economy (s) 3 Credits Survey of the evolution and operation of the American domestic political economy with consideration of market failures and government responses. Review of major issues in political economy such as inflation, poverty and budget deficits. Exploration of linkages between American and global systems. Also available via e-Learning and Distance Education. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. Cross-listed with PS F100X. (3+0)

ECON F111 Economics of Rural Alaska 3 Credits Offered As Demand Warrants Basic economic concepts as they relate to issues and problems of contemporary regional development in rural Alaska. Socioeconomic consequences of the introduction of new technologies, modern economic infra-structures and corporate relationships to traditional, small scale communities. (3+0)

ECON F201 Principles of Economics I: Microeconomics (s) 3 Credits Price and market theory, income distribution, public policy, labor markets, market structure, and externalities. (3+0)

ECON F202 Principles of Economics II: Macroeconomics (s) 3 Credits Analysis and theory of national income, money and banking, stabilization policy, and international trade and finance. (3+0)

ECON F227 Intermediate Statistics for Economics and Business 3 Credits Extension of topics developed in STAT F200X. Development of statistical techniques and their application to economic and business problems. Simple and multiple regression and correlation, analysis of variance, forecasting techniques, quality control, nonparametric methods and decision theory. Prerequisites: AIS F101 or equivalent; STAT F200X; or permission of instructor. (3+0)

ECON F235 Introduction to Natural Resource Economics (s) 3 Credits Offered Fall Microeconomic principles and their application to natural resource issues. Topics include supply, demand, marginality, optimality, elementary production economics, economic rent and comparative advantage. These principles applied to agency budget allocation decisions, multiple use, resource valuation, conservation, market failure and public outdoor recreation problems. (3+0)

ECON F237 The Alaskan Economy (s) 3 Credits Offered Spring Economic problems in Alaska with analysis of historical trends and current patterns of economic growth; emphasis on present and future alternative economic policies and their potential impacts. Also available via e-Learning and Distance Education. (3+0)

ECON F321 Intermediate Microeconomics (s) 3 Credits Analysis of demand and supply under various market forms, cost and theory of production, factor pricing and theory of distribution, and survey of welfare economics. Prerequisites: ECON F201 and ECON F202; MATH F262X or equivalent. (3+0)

ECON F322 Managerial Economics 3 Credits Offered Fall or Spring Interpretation of economic data and applications of economic theory in business firms. Bridging the gap between theory and practice through empirical studies, cases and decision problems. Emphasis upon decision-making using analysis of research data. Prerequisites: ECON F201 and ECON F202; MATH F262X or equivalent. (3+0)

ECON F324 Intermediate Macroeconomics (s) 3 Credits Offered Fall or Spring Concepts and measurement of income, analysis of aggregate demand and supply and their relation to the level of prices, employment and economic growth. Prerequisites: ECON F201 and ECON F202; MATH F262X or equivalent (3+0)

ECON F335 O Intermediate Natural Resource Economics (s) 3 Credits Offered Fall or Spring Extension of concepts developed in ECON F235, using a higher level of economic analysis. Topics include welfare economics and economic efficiency concepts, benefit/cost analysis, resource allocation over time, resource taxation, common property problems, externalities, public goods, valuation of non-market resources, and land use planning issues. Prerequisites: COMM F131X or COMM F141X; ECON F201 and ECON F202, or ECON F235; MATH F262X or equivalent. (3+0)

ECON F350 Money and Banking (s) 3 Credits Offered Fall or Spring The liquid wealth system in the United States, including the commercial banking system, the Federal Reserve System and nonbank financial institutions; the regulation of money and credit and its impact on macroeconomic policy objectives. Also available via e-Learning and Distance Education. Prerequisites: ECON F201 and ECON F202. (3+0)

ECON F351 Public Finance (s) 3 Credits Offered Fall Economic justifications for government; federal, state and local government, taxation, spending and debt; their effects on allocation, distribution, stabilization and growth. Prerequisites: ECON F201; ECON F202; MATH F262X or equivalent. (3+0)

ECON F409 W Industrial Organization and Public Policy (s) 3 Credits Offered Fall The relationship of market structure to the economic conduct and performance of firms and industries, the determinants, measurement and classification of market structure, public policy toward mergers, industrial and aggregate concentration. Prerequisites: ECON F201 and ECON F202; ENGL F111X, ENGL F211X or F213X (or permission of instructor); MATH F262X or equivalent; upper division standing. (3+0)

<td>Offered</td>
<td>Odd-numbered Years An extension of concepts introduced in ECON F235, using a higher level of economic analysis. An analysis of the economic forces involved in environmental degradation, preservation and regulation. Topics include pollution, biodiversity, wilderness and climatic change. Prerequisites: ECON F201 and ECON F202, or ECON F235; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Stacked with ECON F639. (3+0)</td>
</tr>
<tr>
<td>ECON F439 W</td>
<td>Energy Economics</td>
<td>3</td>
<td>Offered</td>
<td>Odd-numbered Years Market forces and institutions affecting the allocation of energy resources. Special attention to intertemporal allocative decisions and the role that public policy plays in influencing the rate at which energy resources are used over time. Prerequisites: ECON F201 and ECON F202, or ECON F235; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Stacked with ECON F639. (3+0)</td>
</tr>
<tr>
<td>ECON F451 W</td>
<td>Public Expenditure Analysis</td>
<td>3</td>
<td>Offered</td>
<td>Spring Odd-numbered Years Purposes and economic effects of governmental expenditures, budgeting techniques, and their effects on resource allocation. Prerequisites: ECON F201 and ECON F202; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; MATH F262X or equivalent. (3+0)</td>
</tr>
<tr>
<td>ECON F463 W</td>
<td>International Economics</td>
<td>3</td>
<td>Offered</td>
<td>Fall or Spring Pure theory of international trade: comparative cost, terms of trade, and factor movements. International disequilibrium: balance of payments and its impact on national economy, capital movement and economic development through international trade. Prerequisites: ECON F201 and ECON F202; ENGL F111X; ENGL F211X or F213X or permission of instructor; MATH F262X or equivalent. (3+0)</td>
</tr>
<tr>
<td>ECON F601</td>
<td>Microeconomic Theory I</td>
<td>3</td>
<td>Offered</td>
<td>Fall Analysis of consumer and producer theory, price determination and welfare economics. Prerequisites: ECON F321 or equivalent; MATH F200X or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F602</td>
<td>Economic Modeling</td>
<td>3</td>
<td>Offered</td>
<td>Fall A hands on approach to applied microeconomics and resource modeling. Students extend their training in economic theory and econometrics to model real life problems in the areas of renewable and exhaustible resources, non-market valuation and environmental economics. Special emphasis will be given to the use of econometric analyses. Prerequisites: ECON F601; ECON F626 or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F603</td>
<td>Macroeconomic Theory I</td>
<td>3</td>
<td>Offered</td>
<td>Spring Analysis of the underlying causes of unemployment, economic instability, inflation and economic growth. Prerequisites: ECON F321 or equivalent; ECON F324 or equivalent; MATH F200X or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F613</td>
<td>Resilience Internship</td>
<td>2</td>
<td>Offered</td>
<td>Fall Students of the Resilience and Adaptation Program participate in internships to broaden their interdisciplinary training, develop new research tools and build expertise outside their home disciplines. Internships are eight to ten weeks of full time commitment and take place during the student's first summer in the program. In the autumn students meet to discuss their internship experiences and make public presentations. Prerequisites: ANTH/BIOL/ECON/NRM F667; ANTH/BIOL/ECON/NRM F668; or permission of instructor. Cross-listed with ANTH F617; BIOL F613; NRM F613. (2+0)</td>
</tr>
<tr>
<td>ECON F616</td>
<td>Economics Background for Resilience and Adaptation</td>
<td>1</td>
<td>Offered</td>
<td>Fall Provides the economics background that is necessary for understanding the role of economics in complex systems involving interactions among biological, economic, and social processes. Designed for incoming students of the Resilience and Adaptation Program (RAP), who have not received training in ecology. Graded Pass/Fail. Prerequisites: Graduate student enrollment or permission of instructor. (1+0)</td>
</tr>
<tr>
<td>ECON F623</td>
<td>Mathematical Economics</td>
<td>3</td>
<td>Offered</td>
<td>Fall Mathematical techniques including matrix algebra, differential and integral calculus. Particular attention is given to static and comparative statics analysis and dynamic models. Prerequisites: MATH F200X or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F626</td>
<td>Econometrics</td>
<td>3</td>
<td>Offered</td>
<td>Spring Introduction to econometric theory. Single equation and multiple equation system estimation, including inference and hypothesis testing and results of assumption violation. Prerequisites: ECON F227 or equivalent; MATH F200X or equivalent; STAT F401; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F627</td>
<td>Advanced Econometrics</td>
<td>3</td>
<td>Offered</td>
<td>Fall Advanced Econometrics is the second graduate econometrics course in the Ph.D. in Resource Economic program. This course builds upon the theoretical and empirical tools developed in ECON F626. Large sample theory and the Maximum Likelihood estimation theory are covered. Limited dependent variable models widely used in applied microeconomic modeling are developed and extended. Univariate and multivariate time series modeling and forecasting is developed. Prerequisites: ECON F626 or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F633</td>
<td>Renewable Resource Economics</td>
<td>3</td>
<td>Offered</td>
<td>Fall The theory, methods of analysis and current literature of natural resource economics and policy for fisheries, forests and wildlife. Topics include externalities, property rights, public goods, benefit-cost analysis, amenity values and other non-market resource services, and environmental policy. Prerequisites: ECON F321; ECON F335 or equivalent; MATH F200X or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F636</td>
<td>Non-Renewable Resource Economics</td>
<td>3</td>
<td>Offered</td>
<td>Spring Exploration of issues relating to the mineral and energy markets. The analysis of energy and mineral use over time, capital investment problems and world market dynamics are explored. Topics include futures markets, present value, energy value and entropy. Prerequisites: ECON F321; ECON F335 or equivalent; MATH F200X or equivalent; graduate standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>ECON F637</td>
<td>Evolution of Conservation Concepts and Policy</td>
<td>3</td>
<td>Offered</td>
<td>Spring Resource policy issues development and implementation including forestry, mining, fisheries, oil, wildlife and other topics as demand warrants.</td>
</tr>
</tbody>
</table>
Focus on policy issues involved in management of Alaska's resources.

**Prerequisites:** Graduate standing or permission of instructor. Cross-listed with NRM F637. (3+0)

**ECON F639** | Energy Economics ✽
---|---
3 Credits | Offered Fall Odd-numbered Years
Market forces and institutions affecting the allocation of energy resources. Special attention to intertemporal allocative decisions and the role that public policy plays in influencing the rate at which energy resources are used over time. **Prerequisites:** ECON F201 and ECON F202, or ECON F235; graduate standing; or permission of instructor. Stacked with ECON F439. (3+0)

**ECON F647** | Global to Local Sustainability ✽
---|---
3 Credits | Offered Fall
Explores the basic principles that govern resilience and change of ecological and social systems. Principles are applied across a range of scales from local communities to the globe. Working within and across each of these scales, students address the processes that influence ecological, cultural and economic sustainability, with an emphasis on northern examples. **Prerequisites:** Graduate standing in a natural science, social science, humanities or interdisciplinary program at UAF; permission of instructor. Cross-listed with ANTH F647; BIOL F647; NRM F647. (3+0)

**ECON F649** | Integrated Assessment and Adaptive Management ✽
---|---
3 Credits | Offered Spring
Interdisciplinary exploration of theoretical and practical considerations of integrated assessment and adaptive management. Students survey concepts important in understanding societal and professional-level decision-making. Students work as individuals and as a team to undertake case studies with relevance to integrated assessment and adaptive management. Collectively, the class builds a portfolio of cases and conducts an integrated assessment. Note: In case of enrollment limit, priority will be given to graduate students in the Resilience and Adaptation Program in order for them to be able to meet their core requirement. **Prerequisites:** Graduate student standing in a natural science, social science, humanities or interdisciplinary program at UAF or another university, or permission of instructor. The course is designed to fit into the sequence of the Resilience and Adaptation program’s core courses. It is open to other graduate students interested in and prepared to conduct interdisciplinary studies related to sustainability. Recommended: ANTH/BIOL/ECON/NRM F647; ANTH/BIOL/ECON/NRM F648 and ANTH/BIOL/ECON/NRM F667 previously or concurrently. Cross-listed with ANTH F649; BIOL F649; NRM F649. (3+0)

**ECON F667** | Resilience Seminar I ✽
---|---
1 Credit | Offered Fall
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. A considerable portion of the seminar is student-directed, with students assuming leadership in planning seminar activities with the instructor. Graded Pass/Fail. **Prerequisites:** Enrollment in Resilience and Adaptation graduate program or have permission of instructor. Recommended: ANTH/BIOL/ECON/NRM F647 taken concurrently. Cross-listed with ANTH F667; BIOL F667; NRM F667. (2+0)

**ECON F668** | Resilience Seminar II ✽
---|---
1 Credit | Offered Spring
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. The seminar provides support to each student planning his/her summer internship and preparing and presenting a thesis research prospectus. Graded Pass/Fail. **Prerequisites:** ANTH/ BIOL/ECON/NRM F647; ANTH/BIOL/ECON/NRM F667; or permission of instructor. Cross-listed with ANTH F668; BIOL F668; NRM F668. (2+0)

**ECON F670** | Seminar in Research Methodology
---|---
1 Credit | Offered Spring
Philosophy of research and importance of the scientific method to solution of research problems. Graded Pass/Fail. **Prerequisites:** Graduate standing. (1+0)

**ED F100** | Language, Education, Linguistics (h)
---|---
3 Credits | Offered Spring
Introduction to the field of linguistics as it pertains to the field of education. Includes discussions of language structure, acquisition and bilingualism, and variation and public policy. The course does not satisfy requirements for the B.A. in Linguistics. Cross-listed with LING F100. (3+0)

**ED F102** | Orientation to Alaska Native Education ✽
---|---
2 Credits | Offered Fall
A seminar in issues related to Alaska Native and rural education. Through weekly meetings held both on campus and in Fairbanks schools, students examine and discuss issues with Alaska Native educators on topics related specifically to rural and urban Alaska Native education. Issues include: Native ways of knowing, local control, curriculum development for small/multi-graded/rural schools, cultural differences in teaching and learning, and bilingual programs. Graded Pass/Fail. **Prerequisites:** Permission of instructor. Cross-listed with ANS F102. (2+0)

**ED F110** | Becoming a Teacher in the 21st Century ✽
---|---
1 Credit | Offered Fall
Introduction to the B.A. in Elementary Education degree along with the resources available through the UAF School of Education. Overview of what it means to be an elementary teacher in Alaska's culturally, linguistically and geographically diverse schools through review of current educational context and various entities that shape educational policy and familiarization with UAF/AK Teacher Standards and assessment. Participation in an elementary classroom is required. Graded Pass/Fail. Graded Pass/Fail. (1+0)

**ED F201** | Introduction to Education ✽
---|---
3 Credits | Offered Fall
Introduction to the profession of education and specifically, the field of teaching. Review of social, political, cultural and historical factors that influence education and schools at the national and Alaska state level. Field experience required. **Prerequisites:** ED F110; ENGL F111X; sophomore standing; or permission of instructor. (3+0)

**ED F204** | Literature for Children
---|---
3 Credits | Offered Fall
Examination of effective uses of literature to promote learning. Critical analysis of authors, illustrators and content of children's literature representative of multiple genres and diverse peoples and perspectives — including Alaska literature. Review of criteria for book selection and application of review process to books selected by students based on professional recommendations and reviews. Field experience required. **Prerequisites:** ED F201. (3+0)

**ED F237A** | Technology Tools for Teachers: Graphical Organizers
---|---
0.5 Credit | Offered Fall, Spring, As Demand Warrants
Designed to equip pre-service teachers with the necessary technology skills to be successful in their pre-service programs. Successful challenge or completion of all modules is a prerequisite for ED F329. May be repeated once for credit. Each module will require approximately 6 hours of direct instruction and 4 – 8 hours of lab work. It is divided into 4 separate modules. This module covers creating outlines and diagrams, concept maps, exporting to other applications (requires Inspiration). Graded Pass/ Fail. (0.5+2)
ED F237B Technology Tools for Teachers: Publishing
0.5 Credit Offered Fall, Spring, As Demand Warrants
Designed to equip pre-service teachers with the necessary technology skills to be successful in their pre-service programs. Successful challenge or completion of all modules is a prerequisite for ED F329. May be repeated once for credit. Each module will require approximately six hours of direct instruction and four to eight hours of lab work. It is divided into four separate modules. This module covers publishing: word processing, graphics and page layout. Graded Pass/Fail. (0.5+2)

ED F237C Technology Tools for Teachers: Presentations
0.5 Credit Offered Fall, Spring, As Demand Warrants
Designed to equip pre-service teachers with the necessary technology skills to be successful in their pre-service programs. Successful challenge or completion of all modules is a prerequisite for ED F329. May be repeated once for credit. Each module will require approximately six hours direct instruction and four to eight hours of lab work. It is divided into four separate modules. This module covers presentation/graphical organizers: PowerPoint and Inspiration. Graded Pass/Fail. (0.5+2)

ED F237D Technology Tools for Teachers: Spreadsheets/ Databases
0.5 Credit Offered Fall, Spring, As Demand Warrants
Designed to equip pre-service teachers with the necessary technology skills to be successful in their pre-service programs. Successful challenge or completion of all modules is a prerequisite for ED F329. May be repeated once for credit. Each module will require approximately six hours of direct instruction and four to eight hours of lab work. It is divided into four separate modules. This module covers spreadsheets/databases: databases (Appleworks, Access) and spreadsheets (Excel). Graded Pass/Fail. (0.5+2)

ED F245 Child Development
3 Credits
A study of the physical, cultural, emotional, cognitive and social aspects of a child’s development from prenatal period through early adolescence. Focus on developmental theories including Erickson, Gardner, Gilligan, Kagen, Sternberg, Vygotsky and other contemporary theories of child and adolescent development. Prerequisites: PSY F101 or permission of instructor. Cross-listed with PSY F245. (3+0)

ED F303 W,O Language Acquisition
3 Credits Offered as Demand Warrants
Theories of the acquisition and development of first and second languages, including consideration of biological and sociocultural factors. Survey of traditional and contemporary theories, and implications for pedagogy and public policy. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Recommended: LING F101. Cross-listed with LING F303. (3+0)

ED F309 Elementary School Music Methods
3 Credits Offered Fall Even-numbered Years
Principles, procedures and materials for teaching music to children at the elementary level. Cross-listed with MUED F309. (3+0)

ED F329 Teaching with Technology
3 Credits
Participants will examine multiple strategies for the effective use of computers and related technologies in the classroom. Emphasis will be on the use of mainstream cross-platform productivity applications to develop understanding of the schemes for using databases, spreadsheets, page layouts, digital video, presentations and graphical organizers in transformed instructional settings. Students must have access to Word, PowerPoint, Excel, and Inspiration. Prerequisites: ED F237 or passing the equivalent competency test, or permission of instructor; laptop computer required. (3+0)

ED F330 Assessment of Learning
3 Credits
Review and examination of the range of traditional and alternative assessment and evaluation approaches used in educational contexts. Focus is on developing assessment practices and policies that are appropriate for the diverse student population in Alaska’s rural and urban schools. Field experience required. Prerequisites: ED F201; a mathematics baccalaureate core course; or permission of instructor. (3+0)

ED F344 W Foundations of Literacy Development
3 Credits
Language, reading, and writing development examined in children of varying ages and within a range of social and cultural contexts, with emphasis on a developmental approach to literacy development in school and home settings. Introduction to best practices in research-based methods for teaching and learning of reading and writing. Field experience required. Prerequisites: ED F201; ED F204; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; upper-division standing; laptop computer required. (3+0)

ED F345 Sociology of Education
3 Credits Offered Fall Odd-numbered Years
Theoretical perspectives on various dimensions of the relationship between education and society, including the institutional context for schooling, the impact of schooling on social stratification and social organization within the school and classroom. Special attention is given to issues of equity and contemporary education reform efforts. Prerequisites: SOC F100X or permission of instructor. Cross-listed with SOC F345. (3+0)

ED F350 Communication in Cross-Cultural Classrooms
3 Credits
Interdisciplinary examination of communication and language in cross-cultural educational contexts, including language, literacy and interethnic communication related to classrooms in Alaska. Prerequisites: ED F201. (3+0)

ED F370 Issues in Alaska Bilingual and Multicultural Education
1 Credit Offered As Demand Warrants
Current issues related to Alaska bilingual and multicultural education. Students must attend all three days of the annual Alaska Bilingual/Multicultural Education and Equity Conference and write a paper reflecting on how they will use information gained from the conference in their own multicultural education context. Course may be repeated for credit since the content of the conference changes each year. Graded Pass/Fail. Prerequisites: Prior course work at the lower-division level. Cross-listed with ANS F370. (1+0)

ED F380 Cultural Influences in Education
3 Credits Offered As Demand Warrants
Interdisciplinary study of the educational problems, concerns and successes in a variety of cultural contexts. Social, cultural and psychological factors inherent in the educational process and how they are affected by a multicultural setting. Attention given to curriculum improvement and teaching strategies appropriate for the multicultural classroom and school. Prerequisites: Junior standing. (3+0)

ED F385 International Perspectives on Education
3 Credits Offered As Demand Warrants
A comparative analysis of the influences of changing political, social and economic conditions and relationships with other countries in the world on U.S. and Alaska education policies. Examination of school systems in several industrialized and developing countries with focus on understanding Alaska’s educational system within the context of this wider global community. Prerequisites: Junior standing. (3+0)
ED F411  Reading, Writing, Language Arts: Methods and Curriculum Development
3 Credits  Offered Fall
Study and application in the classroom of best practices from research-based strategies for the teaching and learning of reading, writing, and language arts concepts. Includes content and methods for students in elementary classrooms with diverse populations. Requires development and classroom implementation of integrated reading and writing units. Concurrent internship required. Prerequisites: Admission to Internship Year. (3+0)

ED F412 W  Integrated Social Studies and Language Arts: Methods and Curriculum Development
3 Credits  Offered Fall
Study and application in the classroom of best practices from research-based strategies for the teaching and learning of social studies concepts, content, and methods integrated with language arts for students in elementary classrooms with diverse populations. Requires development and classroom implementation of integrated social studies and language arts unit. Concurrent internship required. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; admission to Internship Year. (3+0)

ED F414  Art, Music and Drama in Elementary Classrooms
2 Credits  Offered Spring
Exploration and application, in the classroom, of theory, practice, methods and materials used in teaching in and through visual art, music and drama. Concurrent internship required. Prerequisites: Admission to the Internship Year. (1+2)

ED F417  Physical and Health Education for Elementary Teachers
2 Credits
Introduction and application of the relationship between physical fitness and good health in a school setting. Includes introducing students to fundamental movement activities and games. Includes incorporating health curriculum and first aid procedures into practices and policies, and issues specific to the Alaska context. Concurrent internship required. Prerequisites: Admission to the Internship Year. (1+2)

ED F420  Alaska Native Education (s)
3 Credits  Offered Fall
School systems historically serving Native people, current efforts toward local control, and the cross-cultural nature of this education. Field experience required. Prerequisites: ANTH F242 or permission of instructor. Cross-listed with ANS F420. Stacked with ED F606. (3+0)

ED F431  Web 2.0 Fundamentals: Participate, Produce, Publish
3 Credits  Offered Fall as Demand Warrants
Examine the impact of Web 2.0, cloud computing and mobile technologies on K-12 education and other social institutions. Establish and publish methods and materials used in teaching in and through visual art, music and drama. Concurrent internship required. Prerequisites: Admission to the Internship Year. (3+0)

ED F432  Fundamentals of Media Design
3 Credits  Offered As Demand Warrants
Create and publish materials with proper media design for use in teaching and learning. Topics include photo and graphics formatting, video production, video podcast production, SMART technologies, static screen capture and motion screen capture. These productions will be included on students’ MIIT e-portfolios. This course is a prerequisite for subsequent MIIT courses and should be taken before or concurrently with ED F432, Fundamentals of Media Design. Prerequisites: Admission to the Master of Education program or permission of instructor. (3+0)

ED F440  Gender and Education (s)
3 Credits  Offered Spring Even-numbered Years
Educational practices and processes and their relation to the changing situation of women in society. Examination of schools as sites of pervasive gender socialization and discrimination as well as offering new possibilities for liberation. Topics include social construction of gender, patterns of access and achievements, gender as an organizing principle in schools and classrooms, and feminist agendas and strategies for change. Prerequisites: Junior standing or permission of instructor. Cross-listed with WGS F440. Stacked with ED F640. (3+0)

ED F449  Elementary Art Methods
3 Credits  Offered Spring
Methodologies of instruction and assessment in art education at the elementary level. Focus is on the knowledge and tools necessary to become excellent elementary art educators. Students will be expected to construct lessons reflecting theory and practice that are developmentally appropriate for elementary level students of all ages. Particular attention will be given to using and understanding the National Standards for Art Education, Alaska Content/Performance Standards, and key curriculum documents in an elementary context. Prerequisites: Admission to K-12 Art post-baccalaureate licensure program or to M.Ed. in Curriculum and Instruction option for post-baccalaureate students. Stacked with ED F649. (3+0)

ED F450  Education and Cultural Transmission
3 Credits  Offered As Demand Warrants
Education as a process for transmitting culture with examination of issues related to cultural transmission in a multicultural environment. Emphasis on dynamics of cultural change. Prerequisites: Junior standing. (3+0)

ED F451  Practicum in Education
1 – 9 Credits
Practical application of general ideas and techniques addressed in methods courses in which the student is currently enrolled or previously completed. Prerequisites: Permission of Office of Practical Experiences. (0+0)

ED F452 O  Elementary Internship
3 – 13 Credits
Supervised teaching in elementary schools approved by the School of Education. Students should expect to be involved in the school setting for some or all of the school day (depending on number of credits taken) for the entire university semester. The School of Education may limit enrollment, determine assignments and cancel the registration of students doing unsatisfactory work. Graded Pass/Fail. Special fees apply. Prerequisites: COMM F131X or COMM F141X; successful completion of methods practicum and methods course work with a C or better. Post-baccalaureate students must be admitted to the Art K-12 licensure program. Passing Praxis I scores. Cross-listed with ART F458. (1+0+42)

ED F453 O  Secondary Internship
3 – 13 Credits
Supervised teaching in secondary schools approved by the School of Education. Students should expect to be involved in the school setting for some or all of the school day (depending on number of credits taken) for the entire university semester. The School of Education may limit enrollment, determine assignments and cancel the registration of students doing unsatisfactory work. Graded Pass/Fail. Special fees apply. Prerequisites: COMM F131X or COMM F141X; and successful completion of methods practicum and methods course work with a C or better. Post-baccalaureate students must be admitted to K-12 Art licensure program. Passing Praxis I scores. Cross-listed with ART F459. (1+0+42)

ED F454 O  Student Teaching K-12
15 Credits
Supervised teaching in both elementary and secondary schools approved by the Music Department and the School of Education. Open only to
Music majors seeking K-12 certification. Students should expect to be involved in the school setting for the entire school day for the entire university semester. The department may limit enrollment, determine assignments and cancel the registration of students doing unsatisfactory work. Graded Pass/Fail. Special fees apply. Prerequisites: COMM F131X or COMM F141X, successful completion of methods practicum and methods course work with a C or better. Passing Praxis scores. For Bachelor of Music students, see B.M. degree requirements. (1+0+42)

<td>Math Methods and Curriculum Development</td>
<td>2</td>
<td>Offered Fall</td>
<td>Study and application in the classroom of best practices from research-based strategies for the teaching and learning of mathematical concepts, content and methods for students in elementary classrooms with diverse populations. Requires development and classroom implementation of mathematics unit. Concurrent internship required. Prerequisites: Admission to Internship Year. Stacked with ED F678. (2+0)</td>
</tr>
<tr>
<td>ED F479</td>
<td>Science Methods and Curriculum Development</td>
<td>2</td>
<td>Offered Spring</td>
<td>Study and application in the classroom of the best practices from research-based strategies for the teaching and learning of science concepts, content and methods for students in elementary classrooms with diverse populations. Requires development and classroom implementation of science unit. Classroom internship required. Prerequisites: Admission to Internship year; concurrent enrollment in other internship year courses; Alaska passing scores for three Praxis I exams. Stacked with ED F688. (2+0)</td>
</tr>
<tr>
<td>ED F486 O/2</td>
<td>Media Literacy (h)</td>
<td>3</td>
<td>Offered Spring</td>
<td>Promotes critical thinking skills that empower people to make independent judgments and informed decisions in response to information conveyed through the channels of mass communications. Emphasis on developing students and others into critical viewers, listeners and readers of media. Also available via e-Learning and Distance Education. Prerequisites: COMM F131X or COMM F141X; junior standing; laptop computer. (3+0)</td>
</tr>
<tr>
<td>ED F601</td>
<td>Introduction to Applied Social Science Research</td>
<td>3</td>
<td>Offered Fall</td>
<td>Review of the most common educational research paradigms, data gathering techniques and analytical tools used in the study of human behavior and educational institutions. Attention will be given to collaborative research models, with a focus on the translation of research results into practical application. (3+0)</td>
</tr>
<tr>
<td>ED F603</td>
<td>Field Study Research Methods</td>
<td>3</td>
<td>Offered Fall</td>
<td>Focus on techniques for conducting both quantitative and qualitative field research. Particular emphasis on considerations for conducting field research in cross-cultural settings. Prerequisites: ED F601. Cross-listed with CCS F603. (3+0)</td>
</tr>
<tr>
<td>ED F604</td>
<td>Documenting Indigenous Knowledge</td>
<td>3</td>
<td>Offered Fall</td>
<td>A thorough grounding in research methodologies and issues associated with documenting and conveying the depth and breadth of indigenous knowledge systems and their epistemological structures. Includes a survey of oral and literate data-gathering techniques, a review of various modes of analysis and presentation, and a practical experience in a real-life setting. Recommended: Graduate-level survey course in research methods or approval of instructor. Cross-listed with: CCS F604. (3+0)</td>

</table>
ED F608  Indigenous Knowledge Systems  
3 Credits  
Offered Fall  
A comparative survey and analysis of the epistemological properties, world views and modes of transmission associated with various indigenous knowledge systems. Emphasis on knowledge systems practiced in Alaska. Prerequisites: Graduate standing or permission of instructor. Cross-listed with CCS F608; RD F608; ANL F608. (3+0)

ED F610  Education and Cultural Processes  
3 Credits  
Offered As Demand Warrants  
Advanced study of the function of education as a cultural process and its relation to other aspects of a cultural system. Students will be required to prepare a study in which they examine some aspect of education in a particular cultural context. Also available via e-Learning and Distance Education. Cross-listed with CCS F610. (3+0)

ED F611  Culture, Cognition and Knowledge Acquisition  
3 Credits  
Offered Fall  
An examination of the relationship between learning, thinking and perception in multicultural contexts. Particular emphasis will be on the implications of these relationships for schooling. Content will focus on cultural influences on perception, conceptual processes, learning, memory and problem solving. Content will also reflect concern for practical teaching problems. Recommended: ED F610. Cross-listed with CCS F611. (3+0)

ED F612  Foundations of Education  
3 Credits  
Offered Fall  
Introduces a range of philosophical thought with emphasis on schooling in the cross-cultural context and on issues of social justice and quality in education. Students will explore the interplay between cultural processes and various philosophical positions adopted by educators in the design and practice of pedagogy, learn the history of public school education in the U.S. and Alaska and analyze the policies affecting public school education today. (3+0)

ED F613  Alaska Standards for Culturally Responsive Schools  
3 Credits  
Offered As Demand Warrants  
Guidelines, rationale and resources for adapting educational policies, programs and practices to better address the cultural well-being of the students and communities they serve. Content will be grounded in the Alaska Standards for Culturally Responsive Schools, including standards for students, teachers, curriculum, schools and communities. Cross-listed with CCS F613. (3+0)

ED F616  Education and Socioeconomic Change  
3 Credits  
Offered As Demand Warrants  
An examination of social change processes, particularly in relation to the deliberate development of new institutions and resulting forms of new consciousness. Emphasis is placed on the role of education and schooling in this development dynamic. Also available via e-Learning and Distance Education. Cross-listed with: CCS F616 (3+0)

ED F620  Language, Literacy and Learning  
3 Credits  
Offered Fall  
The relationships among language, culture and thinking as issues of literacy and learning. Specific areas of emphasis include linguistic relativity, discourse, role of context in communications, variant language learning strategies and styles, speech community, open and closed linguistic systems, cognitive styles, and literacy as a cultural and cognitive phenomenon. (3+0)

ED F621  Cultural Aspects of Language Acquisition  
3 Credits  
An expanded view of the ways in which individuals become socialized into particular patterns of first and second language and literacy. The ongoing acquisition of both oral and written language(s) from early childhood through adult life. Topics will include: the cultural dimensions of language development; the relationship between communication and culture; bilingualism; and the role of language in the transmission of sociocultural knowledge. Cross-listed with LING F621. (3+0)

ED F624  Foundations of Education in Alaska: From Segregation to Standards  
3 Credits  
Offered Summer, As Demand Warrants  
Review of major Alaska educational reform efforts as a means of understanding historical and current state, national and international policies and practices related to development of curriculum, pedagogy and assessment that respond to the needs and interests of culturally and linguistically diverse populations. Examination of Alaska Quality Schools Initiative reform effort with focus on use of Alaska Standards for Culturally Responsive Schools. Prerequisites: Admission to Internship Year or permission of instructor; a laptop computer. (3+0)

ED F625  Exceptional Learners and Child Development: Individual and Cultural Characteristics  
3 Credits  
Offered Summer, As Demand Warrants  
Foundation for understanding, identifying and teaching to developmental abilities of children and early adolescents. Human development examined in context of cognition, personality, social behavior, language and physical development with focus on understanding and using cross-cultural influences specific to Alaska. Emphasis on development of children with exceptional abilities. Design, develop and modify curriculum and instruction to developmentally and culturally appropriate approaches. Theory is applied to practice in practicum. Prerequisites: Admission to Internship Year or permission of instructor. (3+0)

ED F626  Teaching Reading, Writing and Language Arts  
3 Credits  
Offered Summer, As Demand Warrants  
Examination of the nature and process of reading and writing for elementary students and focus on process of developing a language arts program. Includes acquisition and role of language in this process. Examination and evaluation of materials and methods of teaching language arts, including those used in some Alaska districts. Examination and evaluation of children's literature. Practicum with application of language arts concepts. Prerequisites: Admission to Internship Year or permission of instructor. (3+0)

ED F630  Curriculum Development  
3 Credits  
Offered Fall  
Basic definition of curriculum. Includes the present need for curriculum improvement, criteria for selection of broad goals, types of curriculum frameworks and consideration of the organization of specific learning experiences as part of the curriculum structure. (3+0)

ED F631  Culture, Community and the Curriculum  
3 Credits  
Offered Fall  
Salient issues involved with the development of effective programs of instruction in small schools, including foundational design, conceptual models, organizational strategies, technical skills, current issues and trends, and their implications and application to the environment of rural Alaska. Also available via e-Learning and Distance Education. Cross-listed with: CCS F631 (3+0)

ED F635  Strategies for Cooperating/Mentor Teachers  
3 Credits  
Offered As Demand Warrants  
Study of effective teaching using alternative strategies appropriate to differing goals. Consideration will also be given to teaming with and/or supervising interns as a technique for improving instruction. Course may be repeated for credit as readings and topics change. Prerequisites: Licensed teacher employed in a school district. (3+0)

ED F636  Improvement of Elementary Teaching  
3 Credits  
Offered As Demand Warrants  
Emphasis on improvement of elementary teaching through professional development in which mentor teachers read, reflect and collaborate with
one another and with university faculty to develop new approaches for
their own professional development as well as developing and refining
strategies that contribute to the preparation of student interns who can
successfully demonstrate competence in the Alaska Teacher Standards
and the Alaska Standards for Culturally Responsive Schools. Course may
be repeated for credit as readings and topics change. (3+0)

ED F640 Gender and Education
3 Credits Offered Spring Even-numbered Years
Educational practices and processes and their relation to the chang-
ing situation of women in society. Schools will be examined as sites of
pervasive gender socialization and discrimination as well as offering
new possibilities for liberation. Topics include the social construction
of gender, patterns of access and achievement, gender as an organizing
principle in schools and classrooms, and feminist agendas and strategies
for change. Stacked with ED F440; WGS F440. (3+0)

ED F642 Portfolio Preparation: Integrating Theory and
3 Credits Offered Spring
Continued systematic collection of selected work, and final prepara-
tion and presentation of required portfolios that document and provide
evidence of professional development and achievement as beginning
teachers relative to Alaska Teacher Standards and Alaska Student
Content Standards, integrated with the Alaska Standards for Culturally
Responsive Schools. Processes and products involved in portfolio prepara-
tion serve as basis for goal setting and assessment by interns, peers,
mentors and university faculty. Portfolios must provide tangible evidence
of the range of knowledge, dispositions and skills that the intern poss-
esses. Technology focus: utilization of technology to prepare portfolios.
Addresses Alaska Teacher Standards. Prerequisites: Admission to the post-
baccalaureate elementary or secondary licensure program or permission of
instructor. (2+0+3)

ED F649 Elementary Art Methods
3 Credits Offered Spring
Methodologies of instruction and assessment in art education at the
elementary level. Focus is on the knowledge and tools necessary to
become excellent elementary art educators. Students will be expected to
construct lessons reflecting theory and practice that are developmentally
appropriate for elementary level students of all ages. Particular attention
will be given to using and understanding the National Standards for Art
Education, Alaska Content/Performance Standards and key curriculum
documents in an elementary context. Prerequisites: Admission to K-12
Art post-baccalaureate licensure program or M.Ed. in Curriculum and
Instruction option for post-baccalaureate students. Stacked with ED F449.
(3+0)

ED F650 Current Issues in Technology
3 Credits Offered Fall as demand warrants.
The primary objective for the course is to develop a higher level of
awareness and responsibility regarding student's digital presence in an
ever-evolving technological landscape. Students will study a series of
social, professional, personal and research technology based topics while
developing connections between these current events, issues and emerg-
ing technologies. Students will then evaluate their social, personal and
professional presence in these technologies while seeking to extrapo-
late the possible ramifications of these current issues on their digital
footprints. Prerequisites: Admission to the Master of Education program or
permission of the instructor. (0+0+3)

ED F653 Instructional Design
3 Credits Offered Spring As Demand Warrants
Instructional design combines technology skills with application of
learning theory to maximize the effectiveness of education. This course
explores instructional design from a practical perspective. Students will
acquire hands-on practice with a variety of computer-based tools while
exploring instructional methods and principles of design. Prerequisite:
Admission to the Master of Education program or permission of instructor.
(3+0)

ED F654 Digital Citizenship, Internet Legal Issues, Digital
Copyright and Fair Use
3 Credits Offered Fall As Demand Warrants
An examination of critical elements of digital citizenship, a survey of
contemporary legal issues, and an exploration of copyright, fair use, and
intellectual property relevant to educators and instructional designers.
Also available through e-Learning and Distance Education. Prerequisites:
Admission to the Master of Education program or permission of the instruc-
tor. (3+0)

ED F655 Online Pedagogy
3 Credits Offered Fall As Demand Warrants
A study of theory, tools and methods for teaching online courses. Topics
include prominent learning theories, affordance of new technologies,
strategies for assessment and techniques for classroom management in
an online environment. Students will develop and articulate a personal
philosophy of teaching and learning appropriate for the 21st Century.
Prerequisite: Admission to the Master of Education program or permission of
instructor. (3+0)

ED F659 Multimedia Tools for Teachers
3 Credits Offered Spring
Emerging technologies and software applications in education. The use of
multimedia in designing teaching/learning experiences will be empha-
sized. Students will develop a multimedia classroom presentation and
will demonstrate knowledge of Internet resources. (1+6)

ED F660 Educational Administration in Cultural
Perspective
3 Credits Offered As Demand Warrants
Issues related to the social organization and socio-political context of
schools, administrative and institutional change processes and the chang-
ning role of administrators in education, using a cross-cultural framework
for analysis. Also available via e-Learning and Distance Education. (3+0)

ED F669 Reading, Language and Culture
3 Credits Offered Fall, As Demand Warrants
Introduction to the foundations of psycholinguistic and sociolinguist-
ic theories as they relate to oral and written language acquisition and
development. Focus on issues of language and literacy education practices
in the Alaska context. Topics include bi-lingual and bi-literacy education,
school and community languages and literacies, and culturally respon-
sive pedagogy. Emphasis on teachers/students developing the skills and
dispositions to become researchers of culture, language and literacy in
their communities. (3+0)

ED F670 Developing Reading: ECE-12
3 Credits Offered Fall
Literacy from early childhood through grade 12. Emphasis on develop-
mental aspects of literacy, underlying social and cognitive processes, and
the pedagogical implications for teachers. Additional emphasis on the
current roles of reading/literacy coaches. (3+0)

ED F671 Reading and Cognition
3 Credits Offered Spring
Theory and process of reading cognition, particularly the relationship
between reading and thinking. Exploration of issues related to the mean-
ing of text and the development of comprehension. Review of literature
concerning research and theory about reading processes. Additional
preparation for the role of the reading/literacy coach in schools, districts
and communities. (3+0)

ED F672 Literature and Reading: Supporting Readers at All
Levels
3 Credits Offered Summer
Read, analyze and design ways to use literature to support readers at all
levels. Includes critical and personal response to literature, knowledge of
a wide range of appropriate reading material; Includes interdisciplinary
study using children's literature in varied genres. Classroom, family and
community applications are emphasized. (3+0)
ED F673  Reading and Literacy in the Content Area 3 Credits  Offered Fall
Development of knowledge of reading strategies that support literacy in the content areas/disciplines. Emphasis on interrelated processes of writing, reading, listening and speaking as they relate to content area literacy development. Exploration of the role of the reading/literacy coach in working with classroom teachers, families and communities. (3+0)

ED F676  Supporting Learning in Diverse Systems 3 Credits  Offered Spring As Demand Warrants
Provides students with the skills necessary to support student learning in a variety of managed and unmanaged computing environments. Students will explore methods of local and remote support, perform tasks to ensure an optimal managed learning environment for students and teachers, and create documentation for student and teacher use. Finally, students will step through the entire process of taking an idea for improving their learning environment by evaluating, implementing and instructing use of a solution of their choice. Prerequisites: Admission to the Master of Education program or permission of the instructor. (3+0)

ED F677  Digital Storytelling 3 Credits  Offered Spring As Demand Warrants
This course examines the principles of storytelling in general and digital storytelling in particular, paying close attention to the use of digital storytelling to inform, persuade and entertain across a variety of social and cultural institutions. Elements of digital storytelling will be investigated and used to create original digital stories in a variety of media. Prerequisites: Admission to the Master of Education program or permission of the instructor. (3+0)

ED F678  Mathematics Methods and Curriculum Development 2 Credits  Offered Fall
Study and application in the classroom of best practices from research-based strategies for the teaching and learning of mathematical concepts, content and methods for students in elementary classrooms with diverse populations. Requires development and classroom implementation of mathematics unit. Concurrent internship required. Prerequisites: Admission to the post-baccalaureate elementary licensure program; graduate standing; or permission of instructor. Stacked with ED F478. (2+0)

ED F681  Place-Based Education 3 Credits  Offered Spring
An examination of the relationship between local landscape and community and the development of human perception. Emphasis on the importance of the development of ecologically appropriate community-based educational programs in rural and urban schools. Priority placed on project-centered programs lending themselves to experimental learning opportunities. Includes literature review, discussion, curriculum exploration and design and on-site community exploration of active place-based educational programs. (3+0)

ED F682  Rethinking Multicultural Education 3 Credits  Offered Fall
This course focuses on: 1) rethink the concept of multicultural education; 2) critically analyze and reflect on current multicultural education issues at the national, state and local levels; and 3) translate/apply the results of analysis into local classrooms, school districts, communities and beyond. Topics include: children of immigrants, Alaska Native education, culturally relevant education, social justice education and exploring ways to create stronger family-community-school partnerships. Prerequisite: Graduate standing. (3+0)

ED F683  Instruction and Assessment in Reading I 3 Credits  Offered Summer
Examination of standardized literacy assessments and current reading programs and how they are used in schools today. Includes norm-referenced and criterion-referenced tests as well as informal and classroom-based assessments for whole group, small group and individual students. Participants analyze and evaluate assessment and evaluation tools. The links between assessment and instruction are highlighted and their application for classroom teachers, families and the community is also addressed. Enrollment restriction: Student must hold a Type A teaching certificate and be admitted to the Master of Education in Reading Program, or permission of instructor. (3+0)

ED F684  Instruction and Assessment in Reading II 3 Credits  Offered Fall
Teaching and assessment of reading with a focus on the reading behaviors of individual students, and effective practices associated with developing students' skills. Includes study of cognitive processes and social factors which contribute to variations in reading ability. The links between assessment and individual instructional plans are highlighted and their application for classroom teachers, families and the community are addressed. Enrollment restriction: Student must hold a Type A teaching certificate and be admitted to the Master of Education in Reading Program, or permission of instructor. (3+0)

ED F686  Assessment and Testing in K-12 Public Schools 3 Credits  Offered Spring
Designed to provide students with a basic knowledge of assessment in K-12 public schools. Students will be required to gain a basic understanding of assessment in Alaska and to gain the confidence to interpret, analyze and discuss various, multiple and alternative assessments common in the U.S. public school system, as well as standardized tests. Issues surrounding the history of educational accountability, content standards, instructional objectives and the goals of the K-12 curriculum will be discussed. Prerequisites: Admission to the M.Ed. program, or permission of instructor. Recommended: Successful completion of ED F630; ED F601; ED F612. (3+0)

ED F687  Alaska: Resources, People and Perspectives 3 Credits  Offered Spring
Introduces a broad range of essential Alaska information for educators including information on history, geography, literature, economics and politics. (3+0)

ED F688  Science Methods and Curriculum Development 2 Credits  Offered Spring
Study and application in the classroom of the best practices from research-based strategies for the teaching and learning of science concepts, content and methods for students in elementary classrooms with diverse populations. Requires development and classroom implementation of science unit. Classroom internship required. Prerequisites: Admission to the post-baccalaureate elementary licensure program; graduate standing; or permission of instructor. Stacked with ED F479. (2+0)

ED F689  Proseminar in Applied Educational Research 3 Credits  Offered As Demand Warrants
Application of social science and educational research methods to the description and analysis of the student's research topic. The research topic chosen will be the substance of each student's literature review and synthesizing paper. Conceptually integrated with ED F698 (to be taken a subsequent semester), where the final master's project is completed. Completion and approval of the synthesizing paper, by the committee, is required for successful completion of this course. Graded Pass/Fail. Prerequisites: Acceptance into an M.Ed. degree program; completion of all required core courses; at least nine credits in the area of concentration. (3+0)

ED F690  Seminar in Cross-Cultural Studies 3 Credits  Offered As Demand Warrants
Investigation of current issues in cross-cultural contexts. Opportunity for students to synthesize prior graduate studies and research. Seminar is taken near the terminus of a graduate program. Prerequisites: Advancement to candidacy; permission of student's graduate committee. Cross-listed with CCS F690; ANL F690; RD F690. (3+0)
ED F691  \hspace{1em} \textbf{Contemporary Issues in Education}  
3 Credits  \hspace{1em} Offered As Demand Warrants  
A critical overview of the current status of the field of education. Students will participate in a thorough investigation of select problems, trends and issues that presently characterize the institution of public education. Seminar sessions will focus on student research regarding the development, present impact and potential implications of each topic discussed. \hspace{1em} (3+0)

EDSC F205  \hspace{1em} \textbf{Introduction to Secondary Education}  
3 Credits  \hspace{1em} Offered Spring  
Introduction to the profession of teaching in middle/high school. Incorporates historical, cultural and sociological factors, with attention to the Alaska context influencing current practice. Students will have the opportunity to explore current issues and reform facing educators today and to observe master teachers in the field. Prerequisites: ENGL F111X; sophomore standing; or permission of instructor. \hspace{1em} (3+0+0.5)

EDSC F402  \hspace{1em} \textbf{Methods of Teaching in the Secondary School}  
3 Credits  \hspace{1em} Offered Fall  
Focus on methodologies appropriate for teaching middle and high school students in a variety of settings. Candidates explore the structure of schools, the nature of their audiences and will plan, implement and assess both teacher and student centered instructional strategies. Includes Alaska Content/Performance Standards. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. \hspace{1em} (3+0)

EDSC F407  \hspace{1em} \textbf{Developing Literacy in the Content Areas}  
3 Credits  \hspace{1em} Offered Summer or As Demand Warrants  
Preparation for secondary teachers (middle school, junior, and senior high school) to integrate listening, speaking, reading, writing and viewing strategies into a content area of the classroom. Candidates examine and evaluate learning theories related to literacy development and varied methods of instruction and assessment to help design and develop an appropriate pedagogical model for teaching. Completion of EDSC F205 or EDSC F415 is recommended prior to enrollment in this course. Prerequisites: ENGL F111X; junior standing or above; or permission of instructor. \hspace{1em} (3+0)

EDSC F414  \hspace{1em} \textbf{Learning, Development and Special Needs Instruction}  
3 Credits  \hspace{1em} Offered Summer  
Survey of learning theory, adolescent development and special needs instruction. Attention will be given to the cognitive, social and moral theories of development, and to current theories of learning. Consideration will be given to cultural and individual differences among learners including those with special needs. Completion of EDSC F205 or EDSC F415 is recommended prior to enrollment in this course. Prerequisites: ENGL F111X; junior standing or above; or permission of instructor. Stacked with EDSC F614. \hspace{1em} (3+0)

EDSC F415  \hspace{1em} \textbf{Foundations of Modern Educational Practice}  
3 Credits  \hspace{1em} Offered Summer  
Historical, political, sociological and curricular foundations of secondary education in the U.S. with particular attention to Alaska. For pre-service teachers to understand and reflect on the teaching profession at the secondary level and to explore current issues and controversies confronting education at national, state and local levels. Prerequisites: ENGL F111X; sophomore standing or permission of instructor. \hspace{1em} (3+0)

EDSC F424  \hspace{1em} \textbf{Culturally Responsive Small School Programs for Alaska}  
3 Credits  \hspace{1em} Offered Spring  
Exploration of effective programs in small rural schools and in urban schools using school-within-a-school and multi-age models. Emphasis on interdisciplinary models and innovative programs with multi-cultural perspectives. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. \hspace{1em} (3+0)

EDSC F431  \hspace{1em} \textbf{Secondary Instruction and Assessment in the Content Area}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in the candidate's specific content area. Course is taught by content specialists. Discusses current issues, methodologies and teaching strategies specific to the various disciplines. A maximum of nine credits may be earned. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F631. \hspace{1em} (3+0)

EDSC F432  \hspace{1em} \textbf{English/Language Arts Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in English/language arts. Course is taught by content specialists. Includes discussion of current issues, methodologies and teaching strategies specific to English/language arts. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F632. \hspace{1em} (3+0)

EDSC F433  \hspace{1em} \textbf{Mathematics Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in mathematics. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies and practical application lessons for teaching mathematics. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F633. \hspace{1em} (3+0)

EDSC F434  \hspace{1em} \textbf{Science Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in science. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies, inquiry-based lessons, laboratory experiences and field trips for teaching science. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F634. \hspace{1em} (3+0)

EDSC F435  \hspace{1em} \textbf{Social Studies Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in social studies. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies, project-based activities and community-as-laboratory experiences for teaching social studies. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F635. \hspace{1em} (3+0)

EDSC F436  \hspace{1em} \textbf{Art Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall  
Methodologies of instruction and assessment in art. Course is taught by content specialists. Includes discussion of current issues, methodologies and teaching strategies specific to arts. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F636. \hspace{1em} (3+0)

EDSC F437  \hspace{1em} \textbf{World Language Secondary Instruction and Assessment}  
3 Credits  \hspace{1em} Offered Fall, As Demand Warrants  
Methodologies of instruction and assessment in world languages. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies, and current application of teaching strategies and assessment specific to world languages. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F637. \hspace{1em} (3+0)
EDSC F442  Technology Applications in Education
3 Credits  Offered Spring
Focuses on educational technology as resource for the delivery of instruction to enhance student learning. Designed for participants who will use technology tools to implement and create instructional material in a variety of media to support and assess learning, including distance educational media and methods, and to provide the tools to enhance professional productivity, collaboration and communication. Participants will create a professional electronic portfolio that demonstrates professional development and achievement relative to the ISTE National Technology Standards for Students and Teachers, Alaska Education Standards, and integrated with Standards for Culturally Responsive Schools. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F642. (3+0)

EDSC F457  Multicultural Education and School-Community Relations
4 Credits  Offered Spring
Focuses on the philosophy and theories underlying multicultural education as well as the development of positive school community relationships. Encourages pre-service educators to identify their own philosophy and culture and to recognize their cultural background as they instruct, assess and manage their students. Helps educators clarify the value of diversity in the classroom setting. Candidates discern the influence of diversity factors on students’ educational careers and the value of diversity to the Alaskan community. Acquaints candidates with teaching in rural Alaska. Explores models for effective teaching, means of village socialization, cultural information and programs that are particularly effective in rural and small school settings. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F657. (3+0+1)

EDSC F458  Classroom Organization and Management
3 Credits  Offered Fall
Focus on establishment of a positive learning environment, development of a successful discipline plan consistent with an educator’s philosophy of education and a review of the major discipline models. Candidates will examine the role that factors such as culture, gender, interest, ability and exceptionality play in student’s behavior. Techniques to maintain positive student-teacher interactions in the classroom and establish a positive relationship with parents. Developing strategies to incorporate local knowledge and community culture in to classroom practice. Field experience required. Completion of EDSC 205 or EDSC 415 is recommended prior to enrollment in this course. Prerequisites: ENGL F111X; junior standing or above; or permission of instructor. Stacked with EDSC F658. (3+0)

EDSC F471  Secondary Teaching: School Internship I and Seminar
3 Credits  Offered Fall
Supervised observation and teaching in secondary schools approved by the School of Education. Seminar topics may include special attention to school-community relations, special needs, curriculum development, teaching strategies and the integration of technology across the curriculum. The School of Education may limit enrollment, determine assignments and cancel registration of candidates doing unsatisfactory work. Graded Pass/Fail. Special fees apply. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. (1+0+35)

EDSC F472  Secondary Teaching: School Internship II and Seminar
3 Credits  Offered Spring
Supervised observation and teaching in secondary schools approved by the School of Education. Seminar topics may include special attention to school-community relations, special needs, curriculum development, teaching strategies and the integration of technology across the curriculum. The School of Education may limit enrollment, determine assignments and cancel registration of candidates doing unsatisfactory work. Graded Pass/Fail. Special fees apply. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. (1+0+35)

EDSC F614  Learning, Development and Special Needs Instruction
3 Credits  Offered Summer
Survey of learning theories, adolescent development and special needs instruction. Attention will be given to the cognitive, social and moral theories of development, and to current theories of learning. Consideration will be given to cultural and individual differences among learners including those with special needs. Completion of EDSC 205 or EDSC 415 is recommended prior to enrollment in this course. Stacked with EDSC F414. (3+0)

EDSC F631  Secondary Instruction and Assessment in the Content Area
3 Credits  Offered Fall
Methodologies of instruction and assessment in the candidate’s specific content area. Course is taught by content specialists. Discusses current issues, methodologies and teaching strategies specific to the various disciplines. A maximum of nine credits may be earned. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F431. (3+0)

EDSC F632  English/Language Arts Secondary Instruction and Assessment
3 Credits  Offered Fall
Methodologies of instruction and assessment in English/language arts. Course is taught by content specialists. Includes discussion of current issues, methodologies and teaching strategies specific to English/language arts. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F432. (3+0)

EDSC F633  Mathematics Secondary Instruction and Assessment
3 Credits  Offered Fall
Methodologies of instruction and assessment in mathematics. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies and practical application lessons for teaching mathematics. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F433. (3+0)

EDSC F634  Science Secondary Instruction and Assessment
3 Credits  Offered Fall
Methodologies of instruction and assessment in science. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies, inquiry-based lessons, laboratory experiences and field trips for teaching science. Prerequisites: Admission to the secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F434. (3+0)

EDSC F635  Social Studies Secondary Instruction and Assessment
3 Credits  Offered Fall
Methodologies of instruction and assessment in social studies. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies, project-based activities and community associated laboratory experiences for teaching social studies. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F435. (3+0)

EDSC F636  Art Secondary Instruction and Assessment
3 Credits  Offered Fall
Methodologies of instruction and assessment in art. Course is taught by content specialists. Includes discussion of current issues, methodologies and teaching strategies specific to arts. Prerequisites: Admission to
EDSC F637 World Language Secondary Instruction and Assessment
3 Credits
Methodologies of instruction and assessment in world languages. Course is taught by content specialists. Includes discussion of current issues, diverse methodologies and current application of teaching strategies and assessment specific to world languages. Prerequisites: Admission to secondary post-baccalaureate licensure program or permission of instructor. Stacked with EDSC F442. (3+0)

EDSE F422 Curriculum and Strategies II: High Incidence
3 Credits
Methods of instruction and strategies for addressing the needs of students with mild learning and behavior problems. A theoretical basis for selecting approaches is presented along with practical strategies that can be used in the classroom. Field experience required. Prerequisites: ED F201; EDSE F482. Stacked with EDSE F602. (3+0+1)

EDSE F482 Inclusive Classrooms for All Children
3 Credits
An in-depth understanding of concepts, strategies and issues that surround supporting the needs of students who experience disabilities in the general education classroom. Field experience required. Prerequisites: ED F201. Note: Elementary Education students are required to submit Praxis I scores to School of Education prior to enrolling in EDSE F482. (3+0)

EDSE F605 Early Childhood Special Education
3 Credits
Offered Fall; As Demand Warrants
Survey of philosophical, legal, and programmatic foundations of early childhood special education; characteristics of young children with disabilities; strategies to support young children with disabilities in inclusive settings; development, implementation, and evaluation of Individual Family Services Program (IFSP) plans in culturally diverse settings. Field experience required. (3+0+1)

EDSE F610 Assessment of Students with Disabilities
3 Credits
Offered Summer; As Demand Warrants
Techniques and methods used for assessing students with disabilities. Focuses on the purpose of assessment, testing terminology and statistics, and administration and interpretation of formal and informal assessment procedures. Address assessment issues in all Alaskan communities. Field experience required. (3+0+1)

EDSE F612 Curriculum and Strategies I: Low Incidence
3 Credits
Offered Summer; As Demand Warrants
Development, implementation and evaluation of Individual Education Program (IEP) plans for students with intensive needs. Provides in-depth understanding of best practice strategies for supporting students with low incidence disabilities in all Alaska communities. Field experience required. (3+0+1)

EDSE F622 Curriculum and Strategies II: High Incidence
3 Credits
Offered Fall As Demand Warrants
Development, implementation support and evaluation of Individual Education Program (IEP) plans for students with high incidence disabilities such as attention/deficit hyperactivity disorder, specific learning disabilities, emotional and behavioral disorders, and communication disorders. Provides in-depth understanding of best practice strategies for supporting students with high incidence disabilities. Field experience required. Stacked with EDSE F422. (3+0+1)

EDSE F624 Social/Emotional Development, Assessment, and Intervention
3 Credits
Offered Fall; As Demand Warrants
Review current research in both normal and abnormal social/emotional development. Emphasizes the use of research-based practices in assessment and intervention. Explores academic and cultural diversity in the social/emotional growth of students with learning differences. Field experience required. (3+0+1)

EDSE F625 Teaching Mathematics to Special Learners
3 Credits
Offered Fall; As Demand Warrants
Provides assessment and instructional strategies in mathematics for teachers of students with disabilities. Focuses on standards-based instruction, explicit instruction, curriculum-based assessments and preparation of students for high stakes testing. Field experience required. (3+0+1)

EDSE F632 Special Education Law: Principles and Practices
3 Credits
Offered Fall; As Demand Warrants
Examines three federal laws that form the foundation of disability law: Individuals with Disabilities Education Act (IDEA) 2004; Section 504 of the Rehabilitation Act of 1973; and the Americans with Disabilities Act. Focuses on substantive principles that underlie procedural requirements including due process issues, case law analysis, policy changes and the
EDSE F633  Autism: Communication and Social Disorders  
3 Credits  
Offered Spring; As Demand Warrants  
Current methods for assessment and intervention of students with autism. Current issues and trends affecting educational practices are analyzed. Case study method used to make assessment and instructional decisions. Parent communication is emphasized. Field experience required. (3+0+1)

EDSE F640  Collaboration and Consultative Methods  
3 Credits  
Offered Spring; As Demand Warrants  
How to coordinate with regular education teachers, paraprofessionals, speech language therapists, Alaska Native Education Liaisons, coaches, principals, counselors and outside agencies. (3+0+1)

EDSE F642  Autism and Asperger Syndrome: Social and Behavioral Issues  
3 Credits  
Offered Summer; As Demand Warrants  
Review functional behavioral assessments, development of behavior plans, use of social stories, social skills and life skills instruction to assist inclusive practices of students with autism or Asperger Syndrome. Field experience required. (3+0+1)

EDSE F677  Reading Assessment, Curriculum and Strategies  
3 Credits  
Offered Spring; As Demand Warrants  
Use and interpretation of reading assessments. The development of effective, research-based instructional strategies for students with disabilities who experience difficulties reading in any Alaska community. Field experience required. (3+0+1)

EDSE F678  Special Education Clinical Practice: Initial  
3 Credits  
Offered Every Fall, Spring, Summer  
For initial licensure candidates only. Part-time fieldwork experience (minimum 120 hours) with individuals who have disabilities in approved K-12 public schools and affiliated facilities. Fieldwork assignments are in inclusive pullout and self-contained settings. Includes immersion in special education planning and teaching under the direction of a supervising teacher and university supervisor. Includes regularly scheduled seminars. Must be completed before enrollment in EDSE F680. Special fees apply. Prerequisites: Successful completion of 18 approved credits in graduate level special education coursework. (3+0+2)

EDSE F680  Special Education Clinical Practice  
3 Credits  
For certified and initial licensure special education candidates. Full time field experience with individuals who have disabilities in approved K-12 public schools and affiliated facilities. Fieldwork assignments vary across areas of teaching specialization. Candidates assume full classroom responsibilities for planning, instruction and assessment under the direction of site and university supervisors. Includes regular seminars. Special fees apply. Prerequisites: Successful completion of 18 approved credits in graduate level special education coursework. EDSE F678 (for initial licensure students only) Must be taken concurrently with EDSE F681. (3+0)

EDSE F681  Special Education Portfolio  
3 Credits  
Offered Fall; As Demand Warrants  
Development of special education portfolio based on UAF School of Education conceptual framework, Council for Exceptional Children (CEC) Special Education Standards, Alaska Teacher Standards, and Assembly of Alaska Native Educators (AANE) Guidelines for Preparing Culturally Responsive Teachers for Alaska's Schools. Must be taken concurrently with EDSE F680. Prerequisites: Successful completion of 18 credits in graduate level special education coursework. Must be taken concurrently with EDSE F680. (3+0)

EDPA F110  Introduction to Para-Professional Education  
2 Credits  
Offered As Demand Warrants  
The roles and responsibilities of the para-professional educator, including requirements of confidentiality, school policies and procedures, and rights and responsibilities, of parents students and school staff. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F120  Classroom Management  
2 Credits  
Offered As Demand Warrants  
Comprehensive course to observe and document a variety of strategies for effective classroom organization, management and communication. Students will discuss and reflect upon the relationship between classroom management and student learning and learn strategies for establishing a positive classroom environment. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F130  Differentiating Instruction  
2 Credits  
Offered As Demand Warrants  
Different modalities of learning and teaching strategies necessary for meeting individual learners’ needs. Course may be repeated once for credit. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F140  Developing Children as Writers  
1 Credit  
Offered As Demand Warrants  
How to assist teachers in assessing student writing skills and developing children as writers. Para-professionals will become skilled in linking writing to the culture and environment of the child. Course may be repeated twice for credit. Graded Pass/Fail. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (1+0)

EDPA F150  Developing Children as Readers  
1 Credit  
Offered As Demand Warrants  
Developing skills necessary for assisting teachers in using best practices in teaching reading in the elementary classroom. Para-professionals will become skilled in linking reading to the culture and environment of the child. Course may be repeated twice for credit. Graded Pass/Fail. (1+0)

EDPA F160  Primary Math Methods  
1 Credit  
Offered As Demand Warrants  
Developing the skills necessary for assisting teachers in using best practices in teaching math in the primary classroom. Para-professionals will become skilled in linking mathematics to the culture and environment of the child. Must be taken concurrently with EDPA F120. (1+0)

EDPA F170  Upper Elementary Math Methods  
1 Credit  
Offered As Demand Warrants  
Developing the skills necessary for assisting teachers in using best practices in teaching math in the elementary classroom. Para-professionals will become skilled in linking mathematics to the culture and environment of the child. Course may be repeated three times for credit. Graded Pass/Fail. (1+0)

EDPA F190  Integrating Local Knowledge into the Curriculum  
1 Credit  
Offered As Demand Warrants  
Learn the prehistory, history and culture of the students' communities and regions, and strategies for integrating this knowledge into the school curriculum. Course may be repeated three times for credit. Graded Pass/Fail. (1+0)

EDPA F199  Practicum I  
1 Credit  
Offered As Demand Warrants  
Individualized work experience. The student will work as a para-professional in the classroom with a teacher or para-professional over a sustained period of at least three weeks. Course may be repeated once for credit. Graded Pass/Fail. Recommended: EDPA F110. (1+0)

EDPA F105  Differentiating Instruction  
2 Credits  
Offered As Demand Warrants  
Different modalities of learning and teaching strategies necessary for meeting individual learners’. Needs. Course may be repeated once for credit. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F110  Introduction to Para-Professional Education  
2 Credits  
Offered As Demand Warrants  
The roles and responsibilities of the para-professional educator, including requirements of confidentiality, school policies and procedures, and rights and responsibilities, of parents students and school staff. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F120  Classroom Management  
2 Credits  
Offered As Demand Warrants  
Comprehensive course to observe and document a variety of strategies for effective classroom organization, management and communication. Students will discuss and reflect upon the relationship between classroom management and student learning and learn strategies for establishing a positive classroom environment. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F130  Differentiating Instruction  
2 Credits  
Offered As Demand Warrants  
Different modalities of learning and teaching strategies necessary for meeting individual learners’ needs. Course may be repeated twice for credit. Graded Pass/Fail. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (2+0)

EDPA F140  Developing Children as Writers  
1 Credit  
Offered As Demand Warrants  
How to assist teachers in assessing student writing skills and developing children as writers. Para-professionals will become skilled in linking writing to the culture and environment of the child. Course may be repeated twice for credit. Graded Pass/Fail. Recommended: ABUS F170; DEVS F104; ENGL F111X or above. (1+0)

EDPA F150  Developing Children as Readers  
1 Credit  
Offered As Demand Warrants  
Developing skills necessary for assisting teachers in using best practices in teaching reading in the elementary classroom. Para-professionals will become skilled in linking reading to the culture and environment of the child. Course may be repeated twice for credit. Graded Pass/Fail. (1+0)

EDPA F160  Primary Math Methods  
1 Credit  
Offered As Demand Warrants  
Developing the skills necessary for assisting teachers in using best practices in teaching math in the primary classroom. Para-professionals will become skilled in linking mathematics to the culture and environment of the child. Must be taken concurrently with EDPA F120. (1+0)

EDPA F170  Upper Elementary Math Methods  
1 Credit  
Offered As Demand Warrants  
Developing the skills necessary for assisting teachers in using best practices in teaching math in the elementary classroom. Para-professionals will become skilled in linking mathematics to the culture and environment of the child. Course may be repeated three times for credit. Graded Pass/Fail. (1+0)

EDPA F190  Integrating Local Knowledge into the Curriculum  
1 Credit  
Offered As Demand Warrants  
Learn the prehistory, history and culture of the students’ communities and regions, and strategies for integrating this knowledge into the school curriculum. Course may be repeated three times for credit. Graded Pass/Fail. (1+0)

EDPA F199  Practicum I  
1 Credit  
Offered As Demand Warrants  
Individualized work experience. The student will work as a para-professional in the classroom with a teacher or para-professional over a sustained period of at least three weeks. Course may be repeated once for credit. Graded Pass/Fail. Recommended: EDPA F110. (1+0)
EDPA F210  Technology in the Classroom  
1 Credit  Offered As Demand Warrants  
Comprehensive introduction to various ways that technology can be utilized in the classroom. Students will be exposed to practical computer use such as exploring software, electronic grade books, lesson plans, graphics, digital photography, internet use and Internet safety. Course may be repeated once for credit. Prerequisites: CIOS F100. (0.5+1)

EDPA F250  Current Topics for Educators  
1 Credit  Offered As Demand Warrants  
Focus on in-service training offered through school districts to update and train para-professionals and teachers on the use of district curricula, policies, procedures, etc. Course may be repeated three times for credit. Graded Pass/Fail. (1+0)

EDPA F299  Practicum II  
1 Credit  Offered As Demand Warrants  
Individualized work experience. The student will work as a para-professional in the classroom with a teacher or a para-professional over a sustained period of at least three weeks. Course may be repeated once for credit. Graded Pass/Fail. Recommended: EDPA F110. (1+0)

### ELECTRICAL ENGINEERING

**EE F102**  Introduction to Electrical and Computer Engineering  
3 Credits  Offered Spring  
Basic modern devices, concepts, technical skills and instruments of electrical engineering. Special fees apply. Prerequisite or Co-requisites: MATH F200X. (2+3)

**EE F203**  Electrical Engineering Fundamentals I  
4 Credits  Offered Fall  
Analysis of alternating-current circuits using complex notation and phasor diagrams, resonance, transformers and three-phase circuits. Introduction to network and system analysis. Special fees apply. Prerequisites: MATH F200X, EE F102. Prerequisite or Co-requisite: MATH F201X. (3+3)

**EE F204**  Electrical Engineering Fundamentals II  
4 Credits  Offered Spring  
Electronics of solid state devices, amplifier design, digital circuits, electromechanics, control systems and instrumentation. Special fees apply. Prerequisites: EE F203, MATH F201X. Prerequisite or Co-requisite: MATH F202X. (3+3)

**EE F303**  Electrical Machinery  
4 Credits  Offered Fall  
Electromechanical energy conversion principles, characteristics and applications of transformers, synchronous and induction machines, DC machines, and special machines. Special fees apply. Prerequisites: EE F204. (3+3)

**EE F311**  Applied Engineering Electromagnetics  
3 Credits  Offered Fall  
Analysis and design of transmission lines and distributed linear circuits using impedance concepts. Development of electromagnetic field equations and their relation to circuit models. Magnetostatics and the magnetic circuit. Electromagnetic wave propagation. Application of the wave equation. Prerequisites: EE F204; MATH F202X; PHYS F212X. Prerequisite or Co-requisite: MATH F302. (3+0)

**EE F331**  High Frequency Lab  
1 Credit  Offered Fall  
Laboratory experiments in transmission lines, impedances, bridges, scattering parameters, hybrids and waveguides. Special fees apply. Co-requisites: EE F311. (0+3)

**EE F333 W**  Physical Electronics  
4 Credits  Offered Fall  
Basic properties of semiconductors. Principles of semiconductor devices, diodes, transistors and integrated circuits. Special fees apply. Prerequisites: EE F204; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. (3+3)

**EE F334**  Electronic Circuit Design  
4 Credits  Offered Spring  
Application of semiconductor devices in circuit design in computation, automatic control and communication. Special fees apply. Prerequisites: EE F333. (3+3)

**EE F341**  Digital and Computer Analysis and Design  
4 Credits  Offered Fall  
Modular structure of computer systems. Analysis, design and implementation of combinational and sequential logic circuits. Introduction to microprocessor architecture and microprocessor programming. Design with traditional and hardware description language techniques. Special fees apply. Prerequisites: CS F201; one year of college physics. (3+3)

**EE F343**  Digital Systems Analysis and Design  
4 Credits  Offered Fall  
Fundamental principles and practices of digital design. Analysis, design and implementation of combinational and sequential logic machines. Introduction to microprocessor architecture and microprocessor programming. Analysis of digital data transmission techniques and microprocessor interfacing. Design with traditional and hardware description language techniques. Implementation with both medium and large scale integrated (M/LSI) chips and programmable logic devices (PLDs). Special fees apply. Prerequisites: ES F201 or CS F201; EE F204; EE F333. Note: EE F333 may be taken concurrently. (3+3)

**EE F353**  Circuit Theory  
3 Credits  Offered Fall  
Analysis by Laplace transform, state variable, and Fourier methods, convolution, frequency selective networks, and two-port circuits. Prerequisites: EE F204; ES F201 or CS F201; MATH F202X. Prerequisite or Co-requisite: MATH F302. (3+0)

**EE F354**  Engineering Signal Analysis  
3 Credits  Offered Spring  
Analog signals and Fourier transformations. Discrete time signals and FFT. Probability theory and random variables. Random signals and noise. Prerequisites: EE F353; MATH F302. (3+0)

**EE F404**  Electrical Power Systems  
4 Credits  Offered Spring  
Electrical power transmission and distribution systems, power flow, symmetrical faults, and economic dispatch with computer-aided analysis. Special fees apply. Prerequisites: EE F303. (3+3)

**EE F406**  Electrical Power Engineering  
4 Credits  Offered Fall  
Economic operation of power systems, symmetrical and unsymmetrical faults, power system protection, dynamic power system stability, and computer-aided fault and transient stability analysis. Special fees apply. Prerequisites: EE F404 or equivalent. (3+3)

**EE F408 W.O**  Power Electronics Design  
4 Credits  Offered Spring  
Analysis and design of power electronic conversion, control and drive systems. Topics will include the theory and application of thyristors, rectifiers, DC-DC converters, inverters, resonant converters, DC and DC switches and regulators, power supplies, DC drives and adjustable-speed drives, including variable-frequency drives. Includes laboratory exercises using power electronic converter boards, PSPICE, and a complete power electronics design project. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; COMM F131X or COMM F141X; EE F303; EE F334; EE F354.
or permission of instructor. Prerequisites: Senior standing. Stacked with EE F608. (3+3)

EE F412 Electromagnetic Waves and Devices
3 Credits
Solution of Maxwell’s equations for the interaction of electromagnetic waves with conducting and dielectric media. Theory and design of antennas and waveguides. Prerequisites: EE F331; EE F331; MATH F302. (3+0)

EE F432 Electromagnetics Laboratory
1 Credit
Laboratory experiments with microwave sources, propagating electromagnetic waves, waveguides and antennas. Design, construction and testing of antenna systems. Co-requisites: EE F412. (0+3)

EE F434 W,O Instrumentation Systems
4 Credits Offered Spring
Analysis and design of instrumentation systems. Static and dynamic characteristics; accuracy, noise and reliability; sensors; signal conditioning; typical measurement systems and microprocessor applications. Special fees apply. Prerequisites: COMM F131X or COMM F141X; EE F334; EE F343; EE F345; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing. (3+3)

EE F443 Computer Engineering Analysis and Design
4 Credits Offered Spring
Advanced digital design, and principles and practices of computer engineering. Analysis and design of computer architecture and organization. Digital signal processing techniques and hardware. Microprocessor operation, control and interfacing. Design with traditional and hardware description language techniques. Implementation with both medium and large scale integrated (M/LSI) chips and programmable logic devices (PLDs). Special fees apply. Prerequisites: EE F341 or EE F343. (3+3)

EE F444 W,O Embedded Systems Design
4 Credits Offered Spring
Issues surrounding the design and implementation of microcontroller-based embedded systems. Topics include hardware architecture and glue logic, embedded programs design, analysis, and optimization, hardware/firmware partitioning, firmware architecture and design. Includes laboratory exercises using evaluation board and a complete embedded system design project. Emphasis on robust designs, energy efficiency, and proper documentation. Special fees apply. Prerequisites: COMM F131X or COMM F141X; EE F343 or EE F341; EE F354; EE F443; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing. Recommended: CS F301. Stacked with EE F643. (3+3)

EE F451 Digital Signal Processing
4 Credits Offered Fall
Time, frequency and Z-transformation domain analysis of discrete time systems and signals; discrete Fourier transformation (DFT) and FFT implementations; FIR/IR filter design and implementation techniques; discrete time random signals and noise analysis; quantization and round off errors; and spectral analysis. Includes applications to medical, speech, electromagnetic and acoustic signal analysis. Special fees apply. Prerequisites: EE F354 or equivalent. Stacked with EE F651. (3+3)

EE F461 Communication Systems
4 Credits Offered Fall
Theory, design and implementation of communication systems. Measurement of modulation, noise, channel spectrum, satellite link budget and microwave path design. Special fees apply. Prerequisites: EE F354; senior standing. (3+3)

EE F463 Communication Networks
3 Credits Offered Spring
Design of voice and data networks. Traffic measurement, network topology, circuit sizing and network performance measures. Tariffs and economic considerations. Cost-performance relationships. Cannot take both EE F463 and EE F464 for credit. Prerequisites: EE F354 and Senior standing. (3+0)

EE F464 W,O Communication Networks Design
4 Credits Offered Spring
Design of voice and data networks. Traffic measurement, network topology, circuit sizing and network performance measures. Tariffs and economic considerations. Cost-performance relationships. Cannot take both EE F464 and EE F463 for credit. Special fees apply. Prerequisites: COMM F131X or COMM F141X; EE F354; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing. (3+3)

EE F471 Fundamentals of Automatic Control
3 Credits Offered Spring
Linear system representation by transfer functions, signal flow graphs and state equations. Feedback, time and frequency response of linear systems. Identification, controllability and observability. Stability analysis by Routh-Hurwitz criterion and frequency domain methods. Specifications of higher order linear systems. System design and compensation. Prerequisites: EE F353; MATH F302. (3+0)

EE F488 Undergraduate Research
1 – 3 Credits
Advanced research topics from outside the usual undergraduate requirements. Prerequisites: Permission of instructor. Recommended: A substantial level of technical/scientific background. (0+0)

EE F608 W,O Power Electronics Design
4 Credits Offered Spring
Analysis and design of power electronic conversion, control and drive systems. Topics will include the theory and application of thyristors, rectifiers, DC-DC converters, inverters, resonant converters, AC and DC switches and regulators, power supplies, DC drives and adjustable-speed drives, including variable-frequency drives. Includes laboratory exercises using power electronic converter boards, PSPICE, and a complete power electronics design project. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; COMM F131X or COMM F141X; EE F303; EE F334; EE F354 or permission of instructor; senior standing. Stacked with EE F408. (3+1)

EE F611 Waves
3 Credits Offered Spring Odd-numbered Years
Introduction to waves and wave phenomena. Includes electromagnetic, acoustic, seismic, atmospheric and water waves and their mathematical and physical treatment in terms of Hamilton's principle. Discusses propagation, attenuation, reflection, refraction, surface and laminal guiding, dispersion, energy density, power flow, and phase and group velocities. Treatment limited to plane harmonic waves in isotropic media. Prerequisites: MATH F302 or MATH F421 or permission of instructor. (3+0)

EE F634 Microwave Design I
3 Credits Offered Fall Odd-numbered Years
Analysis, design and fabrication and measurement of passive microwave components and circuits using microstrip construction techniques. Theoretical and computer-aided design of transmission lines, power dividers, hybrids, directional couplers and filters. Special fees apply. Prerequisites: EE F334; EE F412; EE F432; or permission of instructor. (2+3)

EE F635 Microwave Design II
3 Credits Offered Spring Even-numbered Years
Analysis and design of solid-state microwave circuits. Amplifier and oscillator circuits are designed and fabricated using microstrip construction techniques and computer-aided design tools. Special fees apply. Prerequisites: EE F634 or permission of instructor. (2+3)

EE F643 Advanced Architectures for Parallel Computing
3 Credits Offered Fall Odd-numbered Years
This course covers massively parallel computer architectures and their application for computationally intensive engineering problems.
Fundamental hardware concepts and issues in designing such systems are introduced. Compute Unified Device Architecture (CUDA), developed by NVIDIA for the compute engines in their graphic processing units (GPUs), will be used as an example and a practical platform for student assignments. Through assignments and a project students will learn simulation, computational engineering, convolution, correlation, filtering, and similar problems of particular interest to engineering students. Prerequisites: CS F201 or ES F201; EE F443 graduate standing or permission of the instructor. (3+0)

EE F645 Embedded Systems Design
4 Credits Offered Spring
Issues surrounding the design and implementation of microcontroller-based embedded systems. Topics include hardware architecture and glue logic, embedded programs design, analysis, and optimization, hardware/firmware partitioning, firmware architecture and firmware design. Includes laboratory exercises using evaluation board and a complete embedded system design project. Emphasis on robust designs, energy efficiency, and proper documentation. Prerequisites: Graduate standing or permission of instructor. Stacked with EE F444 (3+3)

EE F646 Wireless Sensor Networks
3 Credits Offered Fall, Even-numbered years.
The course will survey the area of networked sensors, with a special focus on low-power wireless sensor networks. Topics covered will include communication standards and protocols for sensor networks, embedded operating systems, applications, collaborative processing, data fusion, and system architecture. Students will undertake a theoretical or practical research project. Prerequisites: CS F201 or ES F201; EE F343 or EE F341; graduate standing or permission of instructor. (3+0)

EE F651 Digital Signal Processing
4 Credits Offered Fall
Time, frequency and Z-transformation domain analysis of discrete time systems and signals; discrete Fourier transformation (DFT) and FFT implementations; FIR/IIR filter design and implementation techniques; discrete time random signals and noise analysis; quantization and round off errors; and spectral analysis. Includes applications to medical, speech, electromagnetic and acoustic signal analysis. Special fees apply. Prerequisites: Graduate standing or permission of instructor. Stacked with EE F451. (3+3)

EE F655 Adaptive Filters
3 Credits Offered Spring Even-numbered Years
Study to self-designing filters which recursively update depending on the statistics of the input data for optimum performance. Topics will include foundational material in probability of stochastic processes, spectral analysis, linear optimum filtering. Wiener-Hopf filters, Yule-Walker equations, forward and backward linear predictors, method of steepest descent, least squares techniques, and auto-regressive filters. Prerequisites: EE F451 or permission of instructor. (3+0)

EE F656 Space Systems Engineering
3 Credits Offered Spring Odd-numbered Years
A multidisciplinary team of students will perform a preliminary design study of a major space system. Design considerations will include requirements for project management, spacecraft design, power, attitude control, thermal control, communications, computer control and data handling. The students will present their final design in a written report and a public seminar. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ME F656. (3+0)

EE F662 Digital Communication Theory
3 Credits Offered Fall Even-numbered Years
Probability in communication systems, power spectral density, baseband formatting, bandpass modulation and demodulation, link analysis, coding and channel models. Sections of this course offered in Anchorage have an additional fee. Prerequisites: EE F461 or permission of instructor. (3+0)

EE F667 Satellite Communications
3 Credits Offered Fall Odd-numbered Years
Satellite orbital parameters, satellite hardware, link budgets, modulations and multiple access techniques, operational considerations, operating and proposed satellite communication systems. Prerequisites: EE F461; graduate standing; or permission of instructor. (3+0)

EE F671 Digital Control Systems
3 Credits Offered As Demand Warrants
Study of digital control theory. Topics will include signal conversion, Z-transforms, state variable techniques, stability, time and frequency domain analysis and system design. Prerequisites: EE F471 or permission of instructor. (3+0)

EE F673 Modern Control Engineering
3 Credits Offered Fall Even-numbered Years; As Demand Warrants
Introduction to state space systems in the study of dynamical systems; brief review of modeling and basic concepts of classical control theory and matrix algebra; stability analysis of feedback systems; design of output and state feedback control systems; controllability and observability of dynamical systems; state feedback; state observers; robust control; optimal control. Analysis and design using MATLAB and SIMULINK; demonstrations on PUMA 560 and Hardware-in-the-Loop simulator test-beds. Prerequisites: EE F471 or equivalent; permission of instructor. (3+0)

EE F675 Robot Modeling and Control
3 Credits Offered As Demand Warrants
Introduction to basic concepts in robotics; homogeneous transformations; Denavit-Hartenberg parameters, forward and inverse kinematics; velocity kinematics, Jacobians; dynamics and modeling, robot control: independent joint control, multivariable control, Lyapunov stability, PD+, computed torque, inverse dynamics control with the use of MATLAB/ SIMULINK, kinematics and control related demonstrations on the PUMA 560 manipulator. Prerequisites: EE F471, PHYS F212 or equivalent courses in automatic control systems, and mechanics. Recommended: EE F303 or equivalent electrical machinery courses and some experience with MATLAB. (3+0)

ELECTRONICS TECHNOLOGY

ELT F101 Basic Electronics: DC Physics
4 Credits Offered As Demand Warrants
Basic terms and units. Use of test equipment, hand tools and techniques of soldering. Ohm's law, fundamentals of magnetism, DC circuit analysis, inductance and capacitance in DC circuits. Special fees apply. Special fees apply. Prerequisites: Placement in DEVM F050 or TTCH F131 or permission of instructor. (4+0)

ELT F102 Basic Electronics: AC Physics
4 Credits Offered As Demand Warrants
Principles of alternating current, vectors, phase relationships, inductive and capacitive reactance and impedance. AC circuit analysis, series and parallel resonant circuits, transformers and network analysis. Special fees apply. Prerequisites: ELT F101, DEVF F105 which can be taken concurrently with this class, or permission of instructor. (4+0)

ELT F111 FCC Amateur and General Radiotelephone Operator (GROL) Licensing
1 – 3 Credits Offered As Demand Warrants
An introduction to the study of radio frequency transmission and receiving will be taught. Basic AC electronics in the radio frequency ranges will be studied. Some of the circuits studied are oscillators, modulators, mixers, amplifiers and filters. The classes will include a hands-on demonstration as part of the lecture. Completion of the class will give the student the instruction necessary to complete an Amateur Radio License test and a background for the General Radiotelephone Operator commercial test. (1 – 3+0)
EMERGENCY MEDICAL SERVICES

EMS F150 Wilderness Emergency Care
3 Credits
Introduction to medicine in a remote setting. Assessment and management of life-threatening and non-threatening injuries, common medical emergencies and a variety of environmental injuries. Academically challenging training includes basic anatomy and physiology, appropriate short-term to multi-day patient care, the incident command system and evacuation and considerations. (2+0)

EMS F152 Emergency Trauma Training First Responder
3 Credits
Basic emergency care knowledge and skills for the student who will provide the first emergency care. The objective of the first person on the emergency scene is to recognize the needs of the victim and deliver quality care to the patient, minimizing discomfort and preventing further complications. (2+2)

EMS F154 Emergency Trauma Training Refresher
1 Credit
For individuals who have been previously certified in Emergency Trauma Training (40 hrs.). Certification is valid for two years. Prerequisites: EMS F152 or ETT Certification which may not be expired more than one calendar year. (1+0)

EMS F160 Basic Trauma Life Support
1 Credit
Provides the first line of life support to the trauma patient as encountered in situ and to maintain life until the patient is handed off to the next level of medical help. Graded Pass/Fail. (1+0)

EMS F168 ETT to EMT Bridge Course
3 Credits
Allows certified emergency trauma technician (ETT) to progress to the emergency medical technician in an efficient manner. Credits the ETT with the knowledge and skills learned in primary training. Prerequisites: Current Emergency Trauma Technician certificate. (0.5+5)

EMS F170 EMT: Emergency Medical Technician I
6 Credits
Basic life support such as splinting, hemorrhage control, oxygen therapy, suction, CPR and use of automated external defibrillators (AEDs). EMT I is the foundation of all emergency medical training. Mastering of EMT I level knowledge and techniques must occur before moving on to advanced levels. Cross-listed with ARSK F170. (4+4)

EMS F172 EMT: Emergency Medical Technician I Refresher
1 Credit
Review of basic skills and emergency medical procedures at the Basic EMT I level. Covers emergency medical care procedural changes, newly developed equipment and its use, changes in state licensure or other medical-legal requirements. Also offered Pass/Fail as EMS F172P. Prerequisites: EMT I certification. (0.5+1)

EMS F173 EMT Internship
6 Credits
Synthesize cognitive and psychomotor skills from the EMT I course and observe skills performed by Advanced Care Providers. Designed for individuals planning to participate in the CTC paramedic program in the fall semester. Interns will perform all aspects of emergency care for an Alaska certified EMT I under the guidance of an Advanced Care Provider. Graded Pass/Fail. Prerequisites: EMS F170; concurrent EMT I certification; permission of instructor. (0+16)

EMS F176 Aeromedical Evacuations in Alaska
1 Credit
History of Alaska aeromedical transport; physiological aspects of pressure and atmosphere; physical effects of flight on the patient and escort; aircraft and equipment considerations; legal aspects of air transport; effects of aeromedical transport on specific medical situations. Graded Pass/Fail. Special fees apply. Prerequisites: EMT I certification or permission of instructor. (1+0)

EMS F181 Clinical Rotation I
4 Credits
Perform paramedic skills in the hospital setting under the guidance of a clinical preceptor. Rotations include the emergency department, ICU, operating room, respiratory therapy, and mental health units. Provides an in-depth look at the respiratory, circulatory and nervous systems. Includes interpretation of cardiac rhythms and advanced cardiac life support. Special fees apply. Prerequisites: Permission of program coordinator. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (0+4+4)

EMS F183 Clinical Rotation II
4 Credits
Perform paramedic skills in the hospital setting under the guidance of a clinical preceptor. Rotations include the emergency department, ICU, OR, labor and delivery, pediatrics and geriatrics. Prerequisites: EMS F181. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (0+4+4)

EMS F251 Basic Life Support Instructor
1 Credit
The American Heart Association Basic Life Support instructor’s course provides the knowledge and skills necessary to instruct and evaluate potential BLS providers. Balances what information to teach with how to teach BLS. The BLS instructor student will be monitored during the first class she/he teaches by the BLS instructor trainer. Graded Pass/Fail. Special fees apply. Prerequisites: Basic Life Support certified; permission of program coordinator. (1+0)

EMS F23 Alaska EMT Instructor Orientation
3 Credits
Adult education and learning environment, as well as regulations governing the teaching of EMTs in the state of Alaska. This course is designed to be an intensive learning experience with extensive out-of-class preparation. Proficiency with EMT skills and knowledge prior to entering this training program is expected as there will be no review of EMT skills or knowledge during this class. Graded Pass/Fail. Prerequisites: Current EMT I, II, III or MICP certification and three years of experience; evidence of successful completion of state of Alaska practical exam and written exam with a score of 90% within the last 12 months. Recommended: FIRE F216. (3+0)
EMERGENCY MEDICAL SERVICES (EMS) — ENGINEERING AND SCIENCE MANAGEMENT (ESM)

EMS F257 Arctic Survival ★
3 Credits
Offered Spring
Principles, procedures, techniques and equipment necessary to survive extreme arctic conditions and to assist in safe recovery. Lab required. Special fees apply. Cross-listed with AVTY F251. (3+0)

EMS F261 EMT: Emergency Medical Technician II
3 Credits
Offered Spring
Advancement of EMT I skills and knowledge through advanced techniques in fluid therapy and advance airway management. Includes use of specific drug therapy. Special fees apply. Prerequisites: EMT I certification and proof of 10 patient contacts as an EMT I. (2+2)

EMS F265 Emergency Medical Technician III
2 Credits
Offered Fall
Introduction to basic cardiac anatomy and physiology, cardiac electrophysiology, recognition and treatment of basic lethal arrhythmias, use of monitor, defibrillator and pharmacological management. Special fees apply. Prerequisites: EMT II certification and proof of 10 patient contacts and 10 venipunctures as an EMT II. (0.5+3)

EMS F267 Advanced Medical Procedures
1 Credit
Offered As Demand Warrants
State requirements for recertification at the EMT II or III levels. Reviews advanced medical skills and emergency medical procedures at the EMT II and III levels. Emergency medical care procedural changes, newly developed equipment and its use, changes in state certification and other medical-legal requirements. Course may be repeated ten times but not for credit. Graded Pass/Fail. Special fees apply. Prerequisites: Current EMT II or III certification. (0.5+1)

EMS F280 Paramedicine I
12 Credits
Offered Fall, As Demand Warrants
Introduction to emergency medical services, the roles and responsibilities of a paramedic and medical/legal/ethical issues. Basic pathophysiology, pharmacology, venous access and advanced airway management techniques. Also includes an in-depth look at the circulatory, respiratory and nervous systems which includes interpretation of cardiac rhythms, pharmacology and advanced cardiac life support. Note: Student must apply for admission into the Paramedic Academy. Applications are reviewed by the Paramedic Advisory board. Special fees apply. Prerequisites: EMS F170. Recommended: HTHL F114 or equivalent. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (8+8)

EMS F282 Paramedicine II
12 Credits
Offered Spring, As Demand Warrants
Assessment and management of medical emergencies, geriatrics, pediatrics and traumatic injuries. Includes pediatric advanced life support and basic trauma life support certifications. Special fees apply. Prerequisites: EMS F280. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (8+8)

EMS F283 Paramedic Internship
12 Credits
Offered Spring
Prehospital field experience under the guidance of a paramedic preceptor on an advanced life support ambulance. Interns perform all aspects of paramedic care. Special fees apply. Prerequisites: EMS F183; EMS F277. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (0+24)

EMS F287 Paramedic Refresher
3 Credits
Offered As Demand Warrants
Integration of paramedicine knowledge and techniques with evaluation of applied skills. Prerequisites: Current State of Alaska or National Registry paramedic license. Note: Student must have the strength to be able to move patients, sufficient vision to assess the condition of the patient and the dexterity to perform the skills of a paramedic. (2+2)

ENGINEERING AND SCIENCE MANAGEMENT

A per-semester fee for computing facilities will be assessed for one or more courses. This fee is in addition to any materials fees.

ESM F422 Engineering Decisions
3 Credits
Offered Spring
Risk and uncertainty in engineering decisions. Basic applied probability and statistics, data analysis, regression analysis and time series. Practical applications of decision tools: linear programming, inventory analysis, queuing, network models and utility theory. Engineering judgment and uncertainty. Public safety and ethics. Recommended: Calculus through MATH F302. Stacked with ESM F622. (3+0)

ESM F450 W Economic Analysis and Operations
3 Credits
Offered Spring, As Demand Warrants
Fundamentals of engineering economy, project scheduling, estimating, legal principles, professional ethics and human relations. Note: Not offered for credit toward the M.S. degree in Engineering Management or Science Management. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; ES F201 or CS F201; senior standing in engineering; or permission of instructor. Note: Undergraduate engineering students who are taking graduate ESM courses as technical electives should have completed or be concurrently enrolled in ESM F450. (3+0)

ESM F601 Managing and Leading Engineering Organizations
3 Credits
Offered Fall Even-numbered Years
Leadership knowledge and skills as applied to motivation, direction and communication within engineering and technical organizations, and their relations with other organizations and the public. Leadership training complements management knowledge and activities such as organizational structures, planning, monitoring, directing and controlling. The general tools of management are reviewed including management theory, communications, conflict management and resolution. Recommended: B.S. degree in engineering or physical science or permission of instructor. (3+0)

ESM F605 Engineering Economic Analysis
3 Credits
Offered Spring Even-numbered Years
The economic basis of engineering decisions. Graduate level studies of capital investment analysis techniques, including present worth, annual cash flow and rate of return. Applications to replacement problems, benefits/cost analysis and capital budgeting. Consideration of impacts of depreciation accounting, income taxes and inflation. Risk and uncertainty in economic decisions. Simulation. Recommended: Graduate standing. (3+0)

ESM F608 Legal Principles for Engineering Management
3 Credits
Offered Fall Odd-numbered Years
Those aspects of law specifically related to technical management. Contracts, sales, real property, business organization, labor, patents and insurance. Recommended: Graduate standing. (3+0)

ESM F609 Project Management
3 Credits
Offered Spring Even-numbered Years
Organizing, planning, scheduling and controlling projects. Use of CPM and PERT, computer applications. Case studies of project management problems and solutions. Recommended: Graduate standing or permission of instructor. (3+0)
ENGINEERING AND SCIENCE MANAGEMENT (ESM) — ENGLISH (ENGL)

ESM F621 Operations Research
3 Credits Offered As Demand Warrants
Mathematical techniques for aiding technical managers in decision making. Linear programming, transportation problem, assignment problem, network models, PERT/CPM, inventory models, waiting line models, computer simulation, dynamic programming. Emphasis on use of techniques in actual technical management situations. Computer applications. Recommended: MATH F202X; STAT F200X. (3+0)

ESM F622 Engineering Decisions
3 Credits Offered Spring
Risk and uncertainty in engineering decisions. Basic applied probability and statistics, data analysis, regression analysis and time series. Practical applications of decision tools: linear programming, inventory analysis, queuing, network models, utility theory. Engineering judgment and uncertainty. Public safety and ethics. A class project and paper are required. Recommended: Calculus through MATH F302. (3+0)

ESM F684 Engineering Management Project
3 Credits
Comprehensive study of an actual engineering management problem resulting in reports and presentations which include recommendations for action. Prerequisites: Graduate standing in Engineering Science Management or permission of instructor. (3+0)

ENGINEERING SCIENCE

A per-semester fee for computing facilities will be assessed for one or more CEM courses. This fee is in addition to any materials fees.

ES F101 Introduction to Engineering
3 Credits
Overview of the engineering profession and introduction to the fields of engineering. Basic concepts from engineering, physics and mathematics applied to engineering problem solving. Basic skills required of engineers, including an introduction to engineering communications: word processing, descriptive geometry, orthographic and isometric drawings, graphs, computer graphics and use of spreadsheets. Special fees apply. Prerequisites: MATH F107X. Prerequisite or Co-requisite: MATH F108 or calculus placement. (2+2)

ES F166 Electric Car Conversion
2 Credits Offered Summer
An introduction to the principles of electrical vehicle propulsion systems. Fundamentals of electrical motors, electrical motor controls, electrical energy storage systems and automotive power-train design. Students will conduct practical design projects culminating with a complete electric car conversion. Relevant codes and standards will be emphasized. (1+3)

ES F201 Computer Techniques
3 Credits
Basic computer programming, in C/C++, with applications from all fields of engineering. Introduction to MATLAB. Prerequisites: MATH F107X and MATH F108 OR enrollment in MATH F200X. (2+3)

ES F208 Mechanics
4 Credits
Engineering-oriented coverage of statics and dynamics. Vector methods used where appropriate. Prerequisites: ES F101 or GE F101 or MIN F103 or PETE F104; MATH F201X; PHYS F211X. (3+3)

ES F209 Statics
3 Credits
Force systems in two and three dimensions. Composition and resolution of forces and force systems; principles of equilibrium applied to various bodies, simple structures, friction, centroids, moments of inertia. Vector algebra used where appropriate. Prerequisites: ES F101. Prerequisite or Co-requisites: MATH F201X; PHYS F211X. (3+0)

ES F210 Dynamics
3 Credits
Motion of particles, kinematics and kinetics of plane motion of rigid bodies, and principles of work and energy, impulse and momentum. Vector methods used where appropriate. Prerequisites: ES F209. (3+0)

ES F301 Engineering Analysis
3 Credits
Application of mathematical tools to typical engineering design problems. Selected topics from all fields of engineering. Prerequisites: ES F201; Co-requisite: MATH F302. (3+0)

ES F307 Elements of Electrical Engineering
3 Credits Offered Fall
Elementary circuits and theorems, natural, forced and steady state response, principles of electronics, circuit models and system parameters, elements of measurement and instrumentation, characteristics of DC machines, and AC machines and transformers. Prerequisites: MATH F202X or permission of instructor. (3+0)

ES F331 Mechanics of Materials
3 Credits
Analysis of internal forces in members subjected to axial, torsional and flexural loads, singly and in combination. Stress-strain relationships and material property definitions; shear and moment diagrams, Mohr’s Circle. Applications include beams, columns, connections and indeterminate cases. Prerequisites: ES F208 or ES F209; MATH F201X. (3+0)

ES F341 Fluid Mechanics
4 Credits
Statics and dynamics of fluids; energy and momentum principles. Dimensional analysis; flow in open channels, closed conduits and around submerged bodies. Special fees apply. Prerequisites: ES F208 or ES F210; MATH F201X. (3+3)

ES F346 Basic Thermodynamics
3 Credits
Thermodynamic systems, properties, processes and cycles. Fundamental principles of thermodynamics (first and second laws), and elementary applications. Prerequisites: MATH F201X; PHYS F211X. (3+0)

ENGLISH

It is the policy of the English Department to drop from the class roll any student who fails to attend either of the first two meetings of a basic course (ENGL F111X, ENGL F200X, ENGL F211X, ENGL F213X) regardless of whether or not fees have been paid.

Developmental English

DEVE F060 Preparatory College Writing I
3 Credits
Intensive work in the process of writing and revising to improve one’s writing skills. Prerequisites: Appropriate placement test scores or permission of instructor. (3+0)

DEVE F068 College Writing Skills
1 – 3 Credits
Individualized instruction in written language skills. Open entry/open exit, one credit modules in spelling/vocabulary, writing and grammar usage. Enrollment in one or more modules based on diagnosed need or student decision; may be repeated. Does not fulfill degree requirements in written communications or humanities. Graded Pass/Fail. (1 – 3+0)

DEVE F070 Preparatory College Writing II
3 Credits
Instruction in writing to improve students’ fluency, accuracy and communication skills. Preparation for ENGL F111X. Also available via
e-Learning and Distance Education. **Prerequisites:** Appropriate placement test scores or permission of instructor. (3+0)

**DEVE F109** Preparatory College Writing III
3 Credits
Strengthen preparatory college writing skills they need for ENGL F111X, including research, writing and revising, and critical reading skills. **Prerequisites:** Appropriate placement test scores or permission of instructor. (3+0)

**English**

**ENGL F104** Institute on Language, Thought and Culture
3 Credits
Offered As Demand Warrants
Development of critical thinking, writing, and reading skills using the Bard College model. The intensive institute establishes and nurtures learning communities which support bold thinking, risk-taking, collaboration and independence. Offered only at the Kuskokwim Campus. (3+0)

**ENGL F111X** Introduction to Academic Writing
3 Credits
Instruction and practice in written inquiry and critical reading. Introduction to writing as a way of developing, exploring and testing ideas. Concentration on research methods and techniques. Available via e-Learning and Distance Education. **Prerequisites:** Placement examination. (3+0)

**ENGL F200X** World Literature (b)
3 Credits
Introduction to reading and appreciation of a wide variety of literary texts from different cultures. Includes exposure to a variety of approaches to myth, poetry, story telling and drama. Students will gain an understanding of cultural differences and universals in texts from American, American minority, Western European and non-Western sources. Specific content to be announced at time of registration. Course may be repeated for credit when content varies. **Prerequisites:** ENGL F111X or placement in ENGL F211X/ENGL F213X; sophomore standing; or permission of instructor. Cross-listed with FL F200X. (3+0)

**ENGL F211X** Academic Writing about Literature
3 Credits
Instruction in writing through close analysis of literature. Research paper required. Strongly recommended for English and other humanities majors. Also available via e-Learning and Distance Education. **Prerequisites:** ENGL F111X or its equivalent. Recommended: Sophomore standing. (3+0)

**ENGL F212** Business, Grant, and Report Writing
3 Credits
Offered As Demand Warrants
Forms and techniques of business, grant, and report writing. (Special emphasis may be placed on one or another of these topics in a given semester.) Does not fulfill the second half of the baccalaureate requirements in written communication. Also available via e-Learning and Distance Education. **Prerequisites:** ENGL F111X. (3+0)

**ENGL F213X** Academic Writing about the Social and Natural Sciences
3 Credits
Instruction in critical reading and argumentative writing by reading and responding to essays from the social and natural sciences. Concentration on the research methods and techniques necessary to create an extended written argument. Also available via e-Learning and Distance Education. **Prerequisites:** ENGL F111X or equivalent. Recommended: Sophomore standing. (3+0)

**ENGL F217** Introduction to the Study of Film (h)
3 Credits
Offered Spring
An appreciation course designed to introduce the student to the various forms of cinematic art with special emphasis on humanistic and artistic aspects. **Prerequisites:** ENGL F111X. Cross-listed with FLM F217; JRN F217. (2+2)

**ENGL F218** Themes in Literature (b)
3 Credits
Offered As Demand Warrants
Exploration of literary themes in various genres of literature, including fiction, poetry and drama. Such themes as “Women in Literature,” “Literature of the North,” and “Detective Stories in Literature and Film” may be offered. Specific theme is announced at registration. Course may be repeated for credit when content varies. **Prerequisites:** ENGL F111X or permission of instructor. (3+0)

**ENGL F219** Aleut Narrative Art *
3 Credits
Offered As Demand Warrants
Introduction to and survey of the oral and written literature of the Unangan, the Aleut people. All works in English translation, although some supplementary materials in the Aleut language (eastern and western dialects). Offered at the Interior Aleutian campus. **Prerequisites:** ENGL F111X or permission of instructor. (3+0)

**ENGL F230** English Language Proficiency
3 Credits
Offered As Demand Warrants
Intensive listening, speaking, reading and writing in English. Especially recommended for all students for whom English is a foreign language. This course does not meet general degree requirements in written communications and is not classified as a humanities. Course may be repeated once for credit. Note: Open only to students for whom English is a foreign language. **Prerequisites:** Permission of instructor. (3+0)

**ENGL F231** English Language Proficiency
3 Credits
Offered As Demand Warrants
Intensive listening, speaking, reading and writing in English. Especially recommended for all students for whom English is a foreign language. This course does not meet general degree requirements in written communications and is not classified as a humanities. Course may be repeated once for credit. **Prerequisites:** Permission of instructor. Note: Open only to students for whom English is a foreign language. (3+0)

**ENGL F271** Introduction to Creative Writing: Fiction (h)
3 Credits
Forms and techniques of fiction for beginning students; discussion of students’ work in class and in individual conferences. **Prerequisites:** ENGL F111X or permission of instructor. (3+0)

**ENGL F272** Introduction to Creative Writing: Poetry (h)
3 Credits
Offered Fall and Spring
Forms and techniques of poetry for beginning students; discussion of students’ work in class and in individual conferences. **Prerequisites:** ENGL F111X or permission of instructor. (3+0)

**ENGL F273** Introduction to Creative Nonfiction
3 Credits
Offered Spring
Forms and techniques of nonfiction writing in memoir and the personal essay for beginning students; discussion of students’ work in class and in individual conferences. **Prerequisites:** ENGL F111X or permission of instructor. (3+0)

**ENGL F280** Introduction to Colonial and Postcolonial Literature (b)
3 Credits
Offered Fall Even-numbered Years
Includes readings from the literature of formerly colonized nations. Texts may be chosen from African, Asian, American and Pacific Rim cultures. Although the colonial and postcolonial periods will be central to our investigations, pre-colonial and ancient cultures may also be considered for the purpose of establishing cultural perspectives. May be repeated twice for credit. **Prerequisites:** ENGL F211X or ENGL F213X. **Recommended:** ENGL F200X. (3+0)
ENGL F290  Summer Reading Program (Honors) (h)  
2 Credits  
Offered Fall  
Selected readings in a variety of disciplines. Group discussions and written responses to the readings follow in the fall. Students keep a summer journal. May be repeated for credit. Prerequisites: ENGL F111X; enrollment in the Honors Program; or permission of instructor. (2+0)

ENGL F301  Continental Literature in Translation: The Ancient World (h)  
3 Credits  
Offered Fall Even-numbered Years  
Readings from the works of such writers as Dante, Macchiavelli, Petrarch, Boccaccio, Rabelais, Marguerite de Navarre, Calderon della Barca and Cervantes. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F302  Continental Literature in Translation: Medieval and Renaissance (h)  
3 Credits  
Offered Fall Odd-numbered Years  
Readings from the works of such writers as Dante, Macchiavelli, Petrarch, Boccaccio, Rabelais, Marguerite de Navarre, Calderon della Barca and Cervantes. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F306  Survey of American Literature: Beginnings to the Civil War (h)  
3 Credits  
Offered Fall  
Comprehensive study of American thought as reflected in the works of early explorers, Calvinists, Rationalists and Transcendentalists. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F307  Survey of American Literature: Civil War to the Present (h)  
3 Credits  
Offered Spring  
Comprehensive study of American thought as reflected in the writers of Realism, Naturalism, Modernism, and Post-modernism. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F308  Survey of British Literature: Beowulf to the Romantic Period (h)  
3 Credits  
Offered Fall  
Survey of writers and works in Old and Middle English, including Chaucer, through Elizabethan period (Shakespeare), Restoration, and Neoclassic period of the 18th century. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F309  Survey of British Literature: Romantic Period to the Present (h)  
3 Credits  
Offered Spring  
Survey of writers and works from the early Romantic period (Blake and Burns), through the Victorian period, James Joyce, and stream-of-consciousness, to the present. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F310  Literary Criticism (h)  
3 Credits  
Offered Spring  
History and principles of literary criticism, from earliest days to present. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F313 W  Writing Nonfiction Prose (h)  
3 Credits  
Offered Spring  
Instruction in writing for students who wish to develop proficiency in organizing and composing essays on factual material in which they have genuine interest. Readings and research paper required. Course does not fulfill the second half of the general degree requirement in written communication. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

ENGL F314 W,O/2  Technical Writing (h)  
3 Credits  
Writing business letters (letters of inquiry, complaint, evaluation, and job application with resume), preparing tables, graphs, process descriptions, technical instructions, abstracts, grant proposals, and technical reports (progress, laboratory, survey, incident, inspection, feasibility and research). Course does not fulfill the second half of the requirement in written communication. Also available via e-Learning and Distance Education. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

ENGL F317  Traditional English Grammar (h)  
3 Credits  
Offered Fall  
Identification and usage of the more common types of phrase and sentence structures. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F318  Modern English Grammar (h)  
3 Credits  
Offered Spring  
Structure of current English as seen through traditional and contemporary grammatical theories. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F333  Women's Literature (h)  
3 Credits  
Offered Fall  
Contemporary Native American writing in English, including novels, short stories, poetry and plays. Examples of Native American film when related to a written work. Works discussed in relation to cultural contexts and interpretations. Prerequisites: ENGL F111X or permission of instructor. Cross-listed with ANS F340. (3+0)

ENGL F341  Contemporary Alaska Native Literature (h)  
3 Credits  
Offered As Demand Warrants  
Contemporary Alaska Native literature including novels, short stories, poetry and plays. Bibliography, genres and viewpoints, structural and thematic features of stories. May concentrate on specific regional areas of the state. Prerequisites: ENGL F111X or permission of instructor. (3+0)

ENGL F347  Voices of Native American Peoples (h)  
3 Credits  
Offered Spring Even-numbered Years  
Exploration of the forms by which Native American peoples have narrated their life experiences. Includes oral narratives, written autobiographies, memoirs and speeches, and an introduction to the social, historical and cultural content that surround these texts. Readings selected from all of North America with an emphasis on Alaska Natives. Prerequisites: ENGL F111X. Cross-listed with ANS F347. (3+0)

ENGL F349  Narrative Art of Alaska Native Peoples (in English Translation) (h)  
3 Credits  
Offered Fall Even-numbered Years  
Traditional and historical tales by Aleut, Eskimo, Athabaskan Eyak, Tlingit, Haida and Tsimshian storytellers. Bibliography, Alaska Native genres and viewpoints, and structural and thematic features of tales. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X or permission of instructor. Cross-listed with ANS F349. (3+0)

<tr>
<td>ENGL F350</td>
<td>Literature of Alaska and the Yukon Territory (h)</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>Representative fiction, verse and nonfiction dealing with Alaska and the Yukon Territory. Also available via e-Learning and Distance Education.</td>
</tr>
<tr>
<td>ENGL F360</td>
<td>Multi-Ethnic Literatures of the United States (h)</td>
<td>3</td>
<td>Offered Fall Odd-numbered Years</td>
<td>Ethnic American writings. Includes Native American, Asian American, Hispanic American, African American, Jewish American, immigrant and other traditions of literary expression. Ethnic writings will be compared to mainstream American literature.</td>
</tr>
<tr>
<td>ENGL F371 W</td>
<td>Topics in Creative Writing (h)</td>
<td>3</td>
<td></td>
<td>Practice and guidance in writing fiction, poetry, drama or essays. Students' work read and discussed in class and in conference with the instructor. Close study of the techniques of established writers.</td>
</tr>
<tr>
<td>ENGL F380</td>
<td>Topics in Colonial and Postcolonial Literature (h)</td>
<td>3</td>
<td>Offered Spring Even-numbered Years</td>
<td>Focus on a particular topic in selected colonial and postcolonial literary texts. Readings will be chosen for their relevance to a particular theme, to be announced by the instructor. Topic will vary from one semester to another, but the goal will be to explore the significance and importance of the chosen topic as it manifests itself in the literature. Readings and discussions will foster in-depth understanding of texts dealing with the chosen topic. Possible topics might include: war and peace, economic imperatives, environmental perspectives, sickness and health, and gender issues. May be repeated three times for credit.</td>
</tr>
<tr>
<td>ENGL F410 W,0/2</td>
<td>Studies in American Literature to 1900 (h)</td>
<td>3</td>
<td>Offered Every Third Spring</td>
<td>Intensive study of variable topics in American literature to 1900. May focus on themes such as race or war in literature; a specific period such as novels of the 1850s; particular genres such as horror, Westerns, or travel writing; an important author; or an aspect of contemporary literary or cultural theory. Intensive readings and research in contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F414 W</td>
<td>Research Writing (h)</td>
<td>3</td>
<td>Offered Fall</td>
<td>Practice in reporting primary and secondary research in the forms and styles appropriate to the student's field. Preference given to seniors.</td>
</tr>
<tr>
<td>ENGL F415 W,0/2</td>
<td>Studies in 17th Century and 18th Century British Literature (h)</td>
<td>3</td>
<td>Offered Every Third Spring</td>
<td>Intensive study of variable topics in 17th century and 18th century British literature. May focus on themes or subjects such as gender or war in literature; a specific period such as literature of the 1660s; particular genres such as the gothic, satire, the sentimental novel; an important author; or an aspect of contemporary literary or cultural theory. Intensive readings and research in contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F420 W,0/2</td>
<td>Studies in Medieval and 16th Century British Literature (h)</td>
<td>3</td>
<td>Offered Every Third Fall</td>
<td>Intensive study of variable topics in medieval and 16th Century British literature. Themes may include Arthurian literature, fin’amor (courtly love), orality and literacy, and the Otherworld and other imaginary lands. Intensive readings and research in both primary texts and contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F422 W,0/2</td>
<td>Shakespeare: History, Plays and Tragedies (h)</td>
<td>3</td>
<td>Offered Fall</td>
<td>Major chronicle plays and tragedies, including significant criticism.</td>
</tr>
<tr>
<td>ENGL F425 W,0/2</td>
<td>Shakespeare: Comedies and Non-Dramatic Poetry (h)</td>
<td>3</td>
<td>Offered Spring</td>
<td>Major comedies and non-dramatic poems, including significant criticism.</td>
</tr>
<tr>
<td>ENGL F427</td>
<td>Topics in Film Studies (h)</td>
<td>3</td>
<td>Offered Spring</td>
<td>Close study of variable topics in film studies. May focus on themes such as race or war in film; a specific period such as films of the 1940s; particular genres such as horror, film noir, or the musical, an important director, or an aspect of contemporary film theory. Intensive readings and research in contemporary film theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated two times for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F435</td>
<td>Authors (h)</td>
<td>3</td>
<td>Offered Fall</td>
<td>Intensive, in-depth study of the works of an individual author. Readings from the author's oeuvre along with significant criticism and commentary on the author's works. Course may be repeated once for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F440 W,0/2</td>
<td>Studies in 20th and 21st Century British Literature (h)</td>
<td>3</td>
<td>Offered Every Third Spring</td>
<td>Variable subject matter in significant topics in modern and contemporary British literature. Focus may be prose (fiction and nonfiction), poetry, drama, film, or a combination of the above. Course may be repeated once for credit when content varies.</td>
</tr>
<tr>
<td>ENGL F450 W,0/2</td>
<td>Studies in 19th-Century British Literature (h)</td>
<td>3</td>
<td>Offered Every Third Fall</td>
<td>Intensive study of variable topics in 19th-century British literature. May take up a variety of concerns by focusing on literature associated with one or more specific 19th-century literary movements (e.g., Romanticism, Realism); historical developments (e.g., the Victorian Age, British colonialism); groups of related writers (e.g., the Lake Poets); social issues (e.g., industrialization, social reform, religion, gender); or an aspect of 19th-century literary theory. Intensive readings and research in contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies.</td>
</tr>
</tbody>
</table>
ENGL F453 W,O/2 Studies in 20th Century and 21st Century American Literature (h) 3 Credits Offered Every Third Spring Intensive study of variable topics in American literature. May focus on themes such as Modernism or Postmodernism, Urban Experience, Alienation, Multiculturalism, Race or War; a specific period such as literature of the 1960s; particular genres such as the novel or poetry, an important author; or an aspect of contemporary literary theory. Intensive readings and research in contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies. Prerequisites: COMM F131X or COMM F141X; ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ENGL F460 W,O/2 Studies in Comparative/World Literature (h) 3 Credits Offered Every Third Fall Intensive study of variable topics in Comparative/World Literature studies. May focus on themes, such as gender and race in world literature; a specific period, such as World Literature after 1945; a particular region, such as Africa; an important author; or an aspect of contemporary literary theory and criticism. Intensive readings and research in contemporary literary theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies. Prerequisites: COMM F131X or COMM F141X; ENGL F211X or F213X, or permission of instructor. (3+0)

ENGL F462 Applied English Linguistics (h) 3 Credits Offered Spring Even-numbered Years Topic(s) for each offering of the course are announced. Examples include teaching English as a second language, dialects and education, dictionaries, stylistics, and composition. Prerequisites: ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ENGL F465 Genre (h) 3 Credits Offered Spring Intensive study of genre focusing on variable subjects such as epic, romance, science fiction, horror narratives, detective narratives, utopian fiction, and roman noir. Intensive readings and research in both primary texts and genre theory will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies. Prerequisites: ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ENGL F471 W Undergraduate Writers’ Workshop (h) 3 Credits Discussion of craft and techniques and student work. For advanced students who prepare a manuscript as a final project. May be repeated one time for credit. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; ENGL F371; or permission of instructor. (3+0)

ENGL F472 History of the English Language (h) 3 Credits Offered Spring Odd-numbered Years Origin and development of the English language from prehistoric times to the present. Prerequisites: ENGL F211X or ENGL F213X or permission of instructor. Recommended: ENGL F318 or a linguistics course is desirable, but not required. (3+0)

ENGL F482 Topics in Language and Literature (h) 3 Credits Offered Every Fall and Spring Intensive study of variable topics in language and literature. May focus on themes, such as race, war, or the natural world; an aspect of language and linguistics; or an aspect of contemporary literary theory. Intensive readings and research in contemporary theory will foster in-depth understanding of chosen topic. Course may be repeated once for credit when content varies. Prerequisites: ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ENGL F485 Teaching Composition in the Schools 3 Credits Offered Spring Even-numbered Years Theoretical background and workshop experience for teaching composition in middle and high schools with current pedagogy on teaching of writing stressed. Variety of teaching methods demonstrated, practiced and discussed. Prerequisites: ENGL F211X or ENGL F213X or permission of instructor. (3+0)

ENGL F488 W Dramatic Writing (h) 3 Credits Offered Fall Odd-numbered Years Introduction to the craft of dramatic writing for theater and film, with an emphasis on dramatic storytelling. Course will focus on giving students a practical understanding of the uses of story structure, setting, character, plot and dialogue, and how these elements work together to create compelling drama. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with FLM F488; THR F488. (3+0)

ENGL F601 Theory, Criticism and Methods 3 Credits Offered Spring A study of the theoretical debates that inform contemporary criticism, and of the methods for conducting and evaluating research. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F603 Studies in British Literature: Old and Middle English 3 Credits Offered Fall Odd-numbered Years Variable subject matter in significant topics in Anglo-Saxon and Middle English literature. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F604 Studies in British Literature: Renaissance and 17th Century 3 Credits Offered Fall Even-numbered Years Variable subject matter in significant topics in 16th and 17th-century British literature. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F606 Studies in British Literature: Restoration and 18th Century 3 Credits Offered Fall Odd-numbered Years Variable subject matter in significant topics in British literature of the Restoration period and the 18th century. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F607 Studies in British Literature: 19th Century 3 Credits Offered Fall Even-numbered Years Variable subject matter in significant topics in British literature of the Romantic and Victorian periods. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F608 Studies in British Literature after 1900 3 Credits Offered Spring Odd-numbered Years Variable subject matter in significant topics in modern British literature. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F609 Early and Romantic American Literature 3 Credits Offered Fall Odd-numbered Years Variable subject matter in significant topics of the colonial, national, and romantic periods of American literature. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F611 American Realism and Modernism 3 Credits Offered Spring Even-numbered Years Variable subject matter in significant topics in American literature of the late 19th and early 20th centuries. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F612 Twentieth Century American Literature 3 Credits Offered Spring Even-numbered Years Variable subject matter in American Literature of the 20th century. Prerequisites: Graduate standing or permission of instructor. (3+0)
ENGL F614 Studies in Comparative Literature
3 Credits Offered Spring Odd-numbered Years
Advanced study in literature on a transnational basis with varying emphases, including literature of particular locales, modes or themes. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F615 Contemporary Literature
3 Credits Offered Spring Even-numbered Years
Variable subject matter in significant topics in post-Second World War II literature. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F620 Images of the North
3 Credits Offered Spring Even-numbered Years
Interdisciplinary approaches to the very variety of images created about and by the people and environment of the circumpolar North. The course will analyze conceptualizations of the North as expressed in a number of media such as film, art, literature, travel journals and oral tradition employing methodologies from many disciplines. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F661 Mentored Teaching in English
1 Credit
Mentored teaching provides consistent contact on course related issues between teaching assistants and mentoring faculty. Graded Pass/Fail. Prerequisites: Acceptance into the M.A., M.F.A. in creative writing program, or M.F.A./M.A. combined degree program, and a teaching assistantship award. Note: Teaching assistants are required to be enrolled in a mentored teaching section while teaching. May be repeated up to six times, for one credit per semester. (1+0+2)

ENGL F671 Writers’ Workshop
3 Credits
The writing of verse, fiction, drama or nonfiction prose in accordance with the individual student’s needs and the instructor’s specialization. Depending on available staff, the workshop may be limited during any semester to work in a particular genre. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F681 Forms of Poetry
3 Credits Offered Every Third Semester
Intensive study of the forms and techniques of poetry writing. Includes readings and poetry writing exercises. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F682 Forms of Fiction
3 Credits Offered Every Third Semester
Advanced study in narrative technique through analysis of selected fiction and the students’ own writing. Variable content in terms of the writers to be studied and the kinds of narrative writing to be assigned. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F684 Forms of Nonfiction Prose
3 Credits Offered Every Third Semester
Intensive study of the forms and techniques of nonfiction. Includes readings and writing exercises. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F685 Teaching College Composition
3 Credits Offered Fall An investigation into current practice and theory with demonstrations and reports on pedagogy. Required of all teaching assistants in English. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F686 Teaching Writing in a Cross-Cultural Context
3 Credits Offered As Demand Warrants
Contemporary methods of teaching writing in middle school and high school classrooms, with special emphasis on cross-cultural issues and pedagogy and on contemporary rhetorical theory. Includes methodologies and theoretical underpinnings of teaching grammar and fiction writing. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F688 Writing for Film and Television
3 Credits Offered Spring Odd-numbered Years
Advanced training in dramatic writing for film and television, with a focus on cinematic story structure, visual imagery, dialogue, pacing, continuity and manuscript format. Prerequisites: Graduate standing or permission of instructor. (3+0)

ENGL F692 Graduate Seminar
3 Credits Offered As Demand Warrants
Intensive study of selected topics in the discipline. (0+0+3)

ENGLISH AS A SECOND LANGUAGE

ESLG F051 Speaking English as a Second Language
1 – 3 Credits Offered As Demand Warrants
Engaging in English conversation. For students who do not speak English as their first language, but who can understand and follow simple instructions in English. The emphasis is on large quantities of comprehensible English, and building student confidence in understanding and speaking it. May be repeated up to nine credits. (1 – 3+0)

ESLG F061 Reading English as a Second Language
1 – 3 Credits Offered As Demand Warrants
Language experience approach and other methods are used to increase students’ abilities and to build their confidence in reading English as it is encountered everyday. For students whose first language is not English, this class provides an opportunity to develop the skills involved in reading simple passages in English. May be repeated up to nine credits. (1 – 3+0)

ESLG F071 Writing English as a Second Language
1 – 3 Credits Offered As Demand Warrants
Developing skills at writing simple English compositions. For students whose first language is not English. The emphasis is on writing large quantities of English which is understandable to native English speakers, and on building students’ confidence in communicating through written English. May be repeated up to nine credits. (1 – 3+0)

ENVIRONMENTAL ENGINEERING/ENVIRONMENTAL QUALITY SCIENCE

ENVE F458 Energy and the Environment
3 Credits Offered Fall Odd-numbered Years
Overview of basic concepts of energy supply, demand, production of heat and power impacts of energy use on the environment. Extensive discussion of mitigation technologies and strategies for meeting energy needs while preserving environmental quality. Prerequisites: CHEM F106X; ES F346 or equivalent; MATH F201X; PHYS F211X. Cross-listed with ME F458. (3+0)

ENVE F642 Contaminant Hydrology
3 Credits Offered Spring Odd-numbered Years
Theoretical and applied aspects of the movement of contaminants through saturated and unsaturated soil. Recommended: CE F663 or equivalent; graduate standing; or permission of instructor. (3+0)

ENVE F644 Environmental Management and Law
3 Credits Offered Spring Odd-numbered Years
Topics of environmental impact statements, environmental law (local, state and federal), public involvement and environmental quality. Impact from projects of mining, highways, airports, pipelines, industrial development, water, wastewater and solid waste, and others — theoretical considerations and case studies. Recommended: Graduate standing or permission of instructor. (3+0)
ENVE F645 Unit Processes—Chemical and Physical
3 Credits Offered Spring Even-numbered Years
Theory and design of chemical and physical unit processes for water and wastewater. Sedimentation, coagulation, flocculation, filtration, ion exchange, adsorption/absorption, gas transfer and other special topics. Emphasis on arctic applications and design. Recommended: MATH F201X; CHEM F106X or equivalent; graduate standing; or permission of instructor. (3+0)

ENVE F646 Unit Processes — Biological
3 Credits Offered Fall Odd-numbered Years
Theoretical and applied aspects of biological wastewater treatment, including waste-activated sludge processes, trickling filters, lagoons, sludge digestion and processing, nutrient removal, biology of polluted waters, state and federal regulations. Recommended: Graduate standing or permission of instructor. (3+0)

ENVE F647 Biotechnology
3 Credits Offered Fall Even-numbered Years
Theoretical and applied aspects of bioengineering. Issues studied include microbiology, metabolism, genetics, genetic engineering, enzymes and catalysis, stoichiometry and kinetics, biological reactor design and biomediation. Recommended: Graduate standing or permission of instructor. (3+0)

ENVE F648 Solid Waste Management
3 Credits Offered Spring Even-numbered Years
Characterization, collection, disposal and treatment of municipal and industrial residuals. Emphasis on regulations that control waste management, waste generation rates, waste characterization procedures, the flow of materials in society, recycle/reuse and landfill disposal. Recommended: Graduate standing or permission of instructor. (3+0)

ENVE F649 Hazardous and Toxic Waste Management
3 Credits Offered Fall Odd-numbered Years
Course provides in-depth coverage of hazardous and toxic substance management including legal, economic and technical issues. Topics will include characterization of hazardous materials, economics of toxics minimization, hazardous materials use, storage and disposal, technical aspects of landfill siting, and selection and design of treatment technologies. Includes case studies of current waste management issues. Recommended: Bachelor's degree in science or engineering. Cross-listed with GE F649. (3+0)

ENVE F650 Advanced Topics
1 Credit Offered Fall
Presentations by students, faculty and outside experts on current issues in environmental science and engineering. Course may be repeated twice for credit. Prerequisites: Graduate Standing. (1+0)

ENVE F651 Environmental Risk Assessment
3 Credits Offered Spring Odd-numbered Years
The characterization of population exposures and the evidence used to identify environmental substances that may pose a human health risk. The theory and methods for estimating risk: hazard identification, dose-response assessment, exposure assessment and risk characterization. Recommended: Undergraduate degree in engineering or natural science. (3+0)

ENVE F652 Introduction to Toxicology for Engineers and Scientists
3 Credits Offered Fall Even-numbered Years
Introduction to the science of toxicology for graduate students in fields that use information about hazardous chemicals for input into decisions. Topics include an overview of the effects of chemicals on cells, organs and organ systems, and the toxic effects of classes of chemicals such as pesticides, metals and solvents. Use of data from animal testing and common lists, factors and extrapolation are reviewed. Recommended: Undergraduate degree in engineering or natural science. (3+0)

ENVE F653 Environmental Measurements Laboratory
1 Credit Offered Spring
Introduction to analytical methods and measurement techniques used in environmental engineering and environmental quality science. Students will design, conduct and report on a laboratory experiment. Includes sample preparation techniques and analytical methods such as microscopy, atomic adsorption spectroscopy, gas chromatography, liquid chromatography and mass spectrometry. Recommended: ENVE F641. (0+3)

ENVE F658 Energy and the Environment
3 Credits
Basic concepts of energy supply, demand, production of heat and power impacts of energy use on the environment. Extensive discussion of mitigation technologies and strategies for meeting energy needs while preserving environmental quality. Recommended: CHEM F106X; ES F346 or equivalent; MATH F201X; PHYS F211X; graduate standing. Cross-listed with ME F658. (3+0)

ENVIRONMENTAL STUDIES

ENVI F101 Introduction to Environmental Science
3 Credits Offered Spring
Introduces the interconnected topics that make up environmental science. By exploring Earth's systems, environmental questions are investigated such as how to sustainably use natural resources and the influence of population growth on ecosystems. The course takes a holistic approach to reinforce scientific principles. Key topics covered include ecosystem functions, energy, biodiversity, resource management, landscape alteration and climate change. Recommended: F100-level biology, chemistry or geology class. (3+0)

ENVI F110 Introduction to Water Quality I: Measurement
1 Credit Offered Spring
Introduces students to standard water quality methods used and applies them to rural Alaska. Students will become familiar with EPA water quality standards and programs that help preserve water quality in rural communities. Key topics covered include: stream ecology, wastewater management, storm water runoff and data analysis. (0.5+0+1.5)

ENVI F120 Home Energy Basics
1 Credit Offered Fall
Basics of space heating and electricity use and production for Alaskan homes. Main topics include fundamentals of physics related to home energy, lighting and appliances, energy bills, building science, retrofits, home renewable energy systems. Course emphasizes how to decrease fossil fuel consumption of homes. Graded Pass/Fail. (1+0)

ENVI F130 Introduction to the National Environmental Policy Act
1 Credit Offered Spring
Provides a brief introduction to the National Environmental Policy Act (NEPA). This course will explain what community members need to do to be heard in the NEPA process with special emphasis on public involvement and Environmental Impact Analysis (EIA). The course covers the roles and the content of scoping and Environmental Assessments in relation to key natural resource development projects in rural Alaska. (1+0)

ENVI F160 Internship in Environmental Studies
1 – 2 Credits Offered As Demand Warrants
Under the guidance of a UAF Bristol Bay Campus-approved agency or business (public or private that monitors, tests, analyzes or studies the environment), students gain supervised pre-professional experience.
in environmental studies. The intern will explore the interdisciplinary aspects of field or laboratory research, build practical expertise and make contacts. Internships make one to ten weeks of full-time commitment to the agency or business and when completed make public presentations on the experience. Graded Pass/Fail. Prerequisites: ENVI F105; ENVI F101; ENVI F120; or permission of instructor. (3+0)

Note: Two-semester-length courses in a single Alaska Native Language or other non-English language taken at the university level may replace 6 credits in the Perspectives on the Human Condition section of the Core. ESK F101 – F102, F111 – F112, F201 – F202 or F211 – F212 may be used to meet this requirement but may not be used to meet humanities degree requirement.

ENVI F104

Entry-level course to learn to speak and understand Yup’ik Eskimo. Focus on communication in everyday situations. Kuskokwim and Northwest Campuses only. Prerequisites: ESK F103 or permission of instructor. (1 – 3+0)
and mentor required to participate in 10 hr orientation, maintain weekly contact with instructor of record, and participate in monthly assessment. Kuskokwim campus only. Special Conditions: Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. (1+10)

**ESK F122**  
Elementary Central Yup'ik Apprenticeship II  
4 Credits  
Offered As Demand Warrants  
Continuation of ESK F121. Increasing emphasis on listening and speaking skills. Kuskokwim campus only. Prerequisites: ESK F121 or formal assessment indicating equivalent speaking and listening skills. Special Conditions: Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. (1+10)

**ESK F123**  
Elementary Central Yup'ik Apprenticeship III  
4 Credits  
Offered As Demand Warrants  
Continuation of ESK F122. Increasing emphasis on listening and speaking skills. Kuskokwim campus only. Prerequisites: ESK F122 or formal assessment indicating equivalent speaking and listening skills. Special Conditions: Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. (1+10)

**ESK F130**  
Beginning Yup'ik Grammar (h)  
3 Credits  
Offered Spring  
Literacy and grammatical analysis of Central Yup'ik language for language learners. Students will learn basic grammatical concepts and literacy skills, with consideration given to dialect differences. Prerequisites: ESK F103 or ESK F122 or basic conversational Yup'ik skills. (3+0)

**ESK F155**  
Conversational Siberian Yup'ik  
1 – 3 Credits  
Offered As Demand Warrants  
Introductory courses for students who wish to acquire the ability to speak in Siberian Yupik, the language of St. Lawrence Island and parts of the Chukchi Peninsula in Siberia. Students first learn to understand simple spoken language, then to speak simple Siberian Yupik, developing a beginning level of communicative competence in the language. Northwest Campus only. (1 – 3+0)

**ESK F156**  
Conversational Siberian Yup'ik  
1 – 3 Credits  
Offered As Demand Warrants  
Introductory courses for students who wish to acquire the ability to speak in Siberian Yupik, the language of St. Lawrence Island and parts of the Chukchi Peninsula in Siberia. Students first learn to understand simple spoken language, then to speak simple Siberian Yupik, developing a beginning level of communicative competence in the language. Northwest Campus only. (1 – 3+0)

**ESK F138**  
Siberian Yupik Orthography  
1 – 3 Credits  
Offered As Demand Warrants  
Introduction to the standard writing system (orthography) of Siberian Yupik. Students learn the skills of spelling, reading and writing words in Siberian Yupik, which are the fundamentals of basic literacy. Northwest Campus only. Prerequisites: Ability to speak Siberian Yupik or permission of instructor. (1 – 3+0)

**ESK F201**  
Intermediate Central Yup'ik (h)  
3 Credits  
Offered Fall  
Continuation of ESK F101 and ESK F102. Increasing emphasis on speaking, reading and writing. Prerequisites: ESK F102 or permission of instructor. (3+0)

**ESK F202**  
Intermediate Central Yup'ik (h)  
3 Credits  
Offered Spring  
Continuation of ESK F101 and ESK F102. Increasing emphasis on speaking, reading and writing. Prerequisites: ESK F102 or permission of instructor. (3+0)

**ESK F203**  
Conversational Central Yup'ik III (h)  
3 Credits  
Offered Fall  
A continuation of ESK F103 and ESK F104. Kuskokwim campus only. Prerequisites: ESK F104 or permission of instructor. (3+0)

**ESK F204**  
Conversational Central Yup'ik IV (h)  
3 Credits  
Offered Spring  
Continuation of ESK F203. Development of proficiency in the Central Yup'ik language, vocabulary for everyday situations, reading and writing. (3+0)

**ESK F205**  
Regaining Fluency in Yup'ik (h)  
3 Credits  
Offered Fall  
Yup'ik speaking skills and fluency for those with some background in the language. Prerequisites: ESK F205 or permission of instructor. Each potential student must be evaluated for language capabilities. (3+0)

**ESK F206**  
Regaining Fluency in Yup'ik II (h)  
3 Credits  
Offered Spring  
Continuation of ESK F205. Speaking skills and fluency for those with some background in the language. Prerequisites: ESK F205 or permission of instructor. Each potential student must be evaluated for language capabilities. (3+0)

**ESK F208**  
Yup'ik Composition (h)  
3 Credits  
Offered Spring  
An examination of the development of written Yup'ik and exploration of writing for entertainment, information, transcription of oral narratives and note taking in meetings where Yup'ik is the dominant language. New writing styles are examined, rather than simply translating the standard categories of English composition. Students receive extensive practice in Yup'ik orthography and participate in the evaluation of each other's writings. Prerequisites: ESK F109. (3+0)

**ESK F211**  
Intermediate Inupiaq Eskimo (h)  
3 Credits  
Offered Fall  
Continuation of ESK F111 and ESK F112, concentrating on development of conversational ability, with presentation of additional grammar and vocabulary. Prerequisites: ESK F112. (3+0)

**ESK F212**  
Intermediate Inupiaq Eskimo (h)  
3 Credits  
Offered Spring  
Continuation of ESK F211, concentrating on development of conversational ability, with presentation of additional grammar and vocabulary. Prerequisites: ESK F211. (3+0)

**ESK F218**  
Inupiaq Composition  
3 Credits  
Offered As Demand Warrants  
An examination of the development of written Inupiaq uses to entertain, inform, persuade, transcribe oral narratives and take notes on such occasions as city council meetings. Open to new genres, rather than simply translating the standard categories of English composition. Students receive extensive practice in the Inupiaq orthography and actively participate in evaluation of each other's writing. Prerequisites: ESK F118 or equivalent. (3+0)

**ESK F221**  
Intermediate Central Yup'ik Apprenticeship I  
3 Credits  
Offered As Demand Warrants  
Intermediate-level learning to speak and understand Yup'ik. Local speaker acts as mentor/primary resource. Focus on everyday situations. Yup'ik faculty member serves as instructor of record. Student and mentor required to participate in ten hour orientation, maintain weekly contact with instructor of record, and participate in monthly assessment. Kuskokwim campus only. Prerequisites: ESK F213 or formal assessment indicating equivalent speaking and listening skills. Special Conditions: Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. (1+10)

**ESK F222**  
Intermediate Central Yup'ik Apprenticeship II  
3 Credits  
Offered As Demand Warrants  
Continuation of ESK F221. Increasing emphasis on listening and speaking skills. Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. Kuskokwim campus only. Prerequisites: ESK F221 or formal assessment indicating equivalent speaking and listening skills. (1+10)
ESK F233  Intermediate Central Yup'ik Apprenticeship III  3 Credits  Offered As Demand Warrants
Continuation of ESK F222. Increasing emphasis on listening and speaking skills. Dependent on ability to identify willing mentor who meets Yup'ik faculty approval. Kuskokwim campus only. Prerequisites: ESK F222 or formal assessment indicating equivalent speaking and listening skills. (1+10)

ESK F230  Introduction to Interpreting and Translating I  3 Credits  Offered As Demand Warrants
Introduction to interpreting and translating, designed for both those wishing to enter the field and those who wish to upgrade their skills. Discussion of problems which arise during interpreting and translating along with suggestions on how to handle them. Prerequisites: Must be fluent in English and Yup'ik; permission of instructor. (3+0)

ESK F231  Introduction to Interpreting and Translating II (h)  3 Credits  Offered As Demand Warrants
Continuation of ESK F230. Prerequisites: ESK F230. (3+0)

ESK F240  Introduction to Reading and Writing Yup’ik  3 Credits  Offered Fall Odd-numbered Years
Emphasis on reading and writing Yup’ik for practical purposes (posters, brochures, pamphlets, newsletters, signs) and continued language learning (short stories, descriptions and narratives). Prerequisites: ESK F130; ESK F204 or ESK F222. (3+0)

ESK F250  Yup’ik Literature for Children  3 Credits  Offered As Demand Warrants
Students explore and practice reading children’s literature in Yup’ik. Students are exposed to a variety of genres (fiction, nonfiction, traditional stories, poetry, songs, etc.). Reader leveling will be discussed. Students are required to write targeted readers for specific reading levels in Yup’ik. Kuskokwim campus only. Prerequisites: ESK F208 or equivalent reading and writing skills. (3+0)

ESK F251  Teaching Beginning Yup’ik Reading and Writing  3 Credits  Offered As Demand Warrants
Teaching strategies in Yup’ik literacy. Focus on reading and writing at the primary-early entry through intermediate levels. Students develop lessons for reading, writing and word study, manage instructional time, and use assessment for placement and instructional purposes. Materials, reading resources, and instructional guides will be reviewed and used for the development of lessons. Kuskokwim campus only. Prerequisites: ESK F208 or equivalent reading and writing skills. (3+0)

ESK F260  Siberian Yupik Eskimo (h)  3 Credits  Offered As Demand Warrants
A course in Eskimo language of St. Lawrence Island and the opposing area of Chukotka in Russia. Concentration on literacy and grammar with background given for conversation. Open to speakers of the language and to others if they have taken one or more years of Central Yup’ik or Inupiaq courses. Prerequisites: Ability to speak Siberian Yupik or one year study of other Eskimo language. (3+0)

ESK F261  Siberian Yupik Eskimo (h)  3 Credits  Offered As Demand Warrants
A course in Eskimo language of St. Lawrence Island and the opposing area of Chukotka in Russia; concentration on literacy and grammar (with background given for conversation); open to speakers of the language and to others if they have taken one or more years of Central Yup’ik or Inupiaq courses. Prerequisites: Ability to speak Siberian Yupik or one year study of other Eskimo language. (3+0)

ESK F301  Advanced Central Yup’ik Eskimo (h)  3 Credits  Offered Fall
Continuation of ESK F201 and F202. Completes the basic study of the Central Yup’ik grammar. Prerequisites: ESK F101; ESK F102; ESK F201; ESK F202; or permission of instructor. (3+0)

ESK F330 W  Yup’ik Literature/Yup’ittiq Quliraitneq Igyarrayaq (h)  3 Credits  Offered Fall Even-numbered Years
Central Yup’ik literature with exposure to a variety of literary styles, including qulirat, qaneryaraqetaraat, ak’alaitqulit, qanuyuatet alerquit. Broad range of regional, stylistic and orthographic traditions through a variety of short papers and a final paper/project. Specific content to be announced at time of registration. Taught entirely in Yup’ik. Kuskokwim campus only. Prerequisites: ESK F111X; ESK F211X or ESK F213X or permission of instructor; ESK F208; ESK F240. (3+0)

ESK F375 O  Yup’ik Philosophy/Umuyurtteqsaqaraq (h)  3 Credits  Offered Fall Even-numbered Years
Exploration of Yup’ik philosophy and spirituality, including exploration of the relationship between modern and traditional belief systems and the influence of western religion and philosophy. Taught entirely in Yup’ik. Kuskokwim campus only. Prerequisites: COMM F131X or COMM F141X; ESK F208. (3+0)

ESK F413  Additional Topics in Advanced Yup’ik Eskimo (h)  3 Credits  Offered Spring
Further study of Yup’ik linguistics. Includes text transcription, editing, analysis and discussion. Yup’ik dialectology. Study of related Eskimo languages from the standpoint of Central Yup’ik. Additional topics to be studied depending upon the interests of the students and the instructor. Prerequisites: ESK F101; ESK F102; ESK F201; ESK F202; or permission of instructor. (3+0)

ESK F417  Advanced Inupiaq Eskimo (h)  3 Credits  Offered Spring
Advanced study in Inupiaq Eskimo. Continuation of ESK F212. Prerequisites: ESK F111; ESK F112; ESK F211; ESK F212; or permission of instructor. (3+0)

ESK F488 W  Documenting Yup’ik Traditions/Caliarkaq (h)  3 Credits  Offered Fall Even-numbered Years
Major research project relating to Yup’ik language and culture (e.g. traditional narratives, personal/local histories, local customs/beliefs). Project formats include (but are not limited to) research papers, video/audio-tapes, curricula and public presentations. Note: As a writing intensive course, all formats will include a significant written component. Taught entirely in Yu’pik. Kuskokwim campus only. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; ESK F330; senior standing; or permission of instructor. (3+0)

ETHNObOTANY

EBOT F100  Introduction to Ethnobotany  3 Credits
Basic concepts of botany and ethnobotany, with emphasis on the native flora of Alaska and how people use these plants. Basic plant biology and taxonomy; scientific methods of plant collection, including identification and curation; use of native Alaskan plants for food and medicines; ethnobotanical methods of collecting plant-use information from indigenous cultures and ways that this information contributes to other fields of study, such as resource management, community development, and human health. (2+3)
EBOT F200 Seminar in Ethnobotany
1 Credit Offered Spring Odd-numbered Years.
Surveys basic concepts of ethnobotany and ethnoecology, with emphasis on how people use plants, the role of plants in traditional food systems, and the dynamics of human-plant -ecosystem interactions in a context of rapid social, ecological and climatic change. Lectures and discussion focus specifically on plant use in Alaska and other high latitude geographic and ecological settings, but ethnobotanical research in mid latitude and tropical settings will be referenced where appropriate.
Students will gain a basic understanding of plant biology and taxonomy; plants and ecosystem services; the use of native Alaska plants for food and medicines; the economics of innovative plant-based businesses; and the cultural and economic significance of plant use to other cultures worldwide. Prerequisites: EBOT F100; or permission of instructor. (1+0)

EBOT F210 Ethical Wildcrafting
1 Credit Offered Fall
Provides an understanding of the industry of wildcrafting: the gathering, harvesting, processing and in some cases, marketing of non-timber forest products. Specific examples from Alaska will be used to illustrate all aspects of this course, from identification of native flora, to a conceptualization of the unique market niche that Alaskan natural products fill, to native plant propagation and effects of invasive plants. Prerequisites: EBOT F100; or permission of instructor (1+0)

EBOT F220 Ethnobotanical Techniques
2 Credits Offered Spring
Provides required skills for conducting field investigations into the human use of plants. Focuses on interviewing elders about native plant use and methods for conducting structured and non-structured interviews, plant collection, participant observation and data analysis. Ethical issues in ethnobotany, e.g., intellectual property rights, benefit-sharing and conservation of native plants. Prerequisites: EBOT F100; EBOT F200. (1.5+0+1.5)

EBOT F230 Ethnobotanical Chemistry
3 Credits Offered Fall
Basic understanding of chemical structure and function of medicinally active plant compounds. How and why plants produce primary and secondary compounds, how humans use these compounds and methods used to isolate and deliver plant-derived compounds. How drugs are derived from plants and the ethics of bioprospecting. Medicinal flora of Alaska from a chemical perspective. Prerequisites: EBOT F100; CHEM F103X or CHEM F105X. (3+0)

FLM F217 Introduction to the Study of Film
3 Credits Offered Spring
An appreciation course designed to introduce the student to the various forms of cinematic art with special emphasis on humanistic and artistic aspects. Prerequisites: ENGL F111X. Cross-listed with ENGL F217; JRN F217. (2+2)

FLM F245 Stage and Film Production Management
3 Credits
Define and develop organizational skills to be a successful stage or film production manager. Creation of a prompt script including all forms and schedules necessary, working with actors, directors and designers. Creation of film production schedules, call sheets, shooting scripts, location management, and union requirements. Cross-listed with THR F245. (3+0)

FLM F251 Introduction to Video Production
4 Credits Offered Fall
An introduction to video production with an emphasis on television studio production. Special fees apply. Cross-listed with JRN F251. (2+5)

FLM F271 Let’s Make a Movie!
3 Credits Offered Fall
Produce a short dramatic video including concept and script development, basic camera and shooting techniques, working with actors/directing fundamentals, location scouting, production schedule development, basic non-linear editing techniques, and DVD authoring. Students do not need previous experience making movies to take this class. Special fees apply. Recommended: THR F121; THR F241. Cross-listed with THR F271. (3+0)

FLM F280 Video Storytelling
3 Credits Offered Fall
Basics of digital video production technology, composition, audio, lighting and editing as it relates to primarily nonfiction filmmaking. Students will conclude the course by producing their own short videos. Special fees apply. Cross-listed with JRN F280. (3+0)

FLM F290 Digital Video Editing
3 Credits Offered As Demand Warrants
Introduction to the technical and aesthetic aspects of non-linear digital video editing. Students will go from little or no experience in non-linear editing to being comfortable with some of the advanced editing techniques. Address motion picture editing theories that are not bound to time or specific editing technology. Special fees apply. Cross-listed with JRN F290. (3+0)

FLM F308 Film Criticism
3 Credits
Theoretical approaches to viewing, analyzing and evaluating film and television program content. Note: Available via e-Learning and Distance Education only. Cross-listed with JRN F308. (3+0)

FLM F310 Acting for the Camera
3 Credits Offered Fall Even-numbered Years
Students will apply skills introduced in Fundamentals of Acting to acting for the camera. By acting in numerous on-camera exercises, television, and film scenarios, the class will expand each performer's expressiveness for the camera. May be repeated twice for credit. Special fees apply. Prerequisites: THR F121. Recommended prerequisite: THR F221. Cross-listed with THR F310. (3+0)

FLM F331 Directing Film/Video
3 Credits Offered Fall Odd-numbered Years
Introduction to the history, theory and basic concepts of film direction. Includes interpretative script analysis, creative visualization, conceptualization, use of space, working with actors and designers, and direction of short scenes and videos. Special fees apply. Prerequisites: FLM/THR F221; FLM/THR F223; FLM/JRN F290 or permission of instructor. Recommended: FLM/ENGL F217; THR F212; THR F215. Cross-listed with THR F331. (1+4)
FLM F332  Directing Theatre (h)  3 Credits  Offered Spring  History, theory and basic concepts of stage direction. Interpretive script analysis, creative visualization, conceptualization, use of space, working with actors and designers and direction of short scenes. Recommended: THR F121. (3+0)

FLM F334 W  Movies and Films: Watching and Analyzing (h)  3 Credits  Offered Spring  Thematic topics in the study of the art of classic cinema (films) and popular mass media (movies). Comparative analysis of classics and recent motion pictures is used to present elements of film language, analysis and criticism in this writing intensive course. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with THR F334. (3+0)

FLM F347 O  Lighting Design (h)  3 Credits  Principles and techniques of theatrical lighting design. The student will conduct practical experiments and design projects applying the experience gained from the experiments. Students will spend approximately $40 for materials. Also available via e-Learning and Distance Education. Prerequisites: FLM F271 or JRN F280 Recommended: FLM F273. Cross-listed with ART F347; JRN F347; THR F347. (3+0)

FLM F348  Sound Design for the Entertainment Industry (h)  3 Credits  Offered Spring Odd-numbered Years  Exploration and application of the elements of design as they relate to sound for theatre, dance, film, video, and other art forms, and in life in American and other cultures. Production work is required. Special fees apply. Recommended: THR F241; THR F247. Cross-listed with THR F348. (2+2)

FLM F358  Lights, Camera, Audio! (h)  3 Credits  Spring Even-numbered Years  Focusing on what actually makes a video, we will explore lighting and sound design techniques to improve the quality of video projects. Idealized and practical tactics will be investigated. Graded Pass/Fail. Prerequisites: FLM F271 or JRN F280 Recommended: FLM F273. (3+0)

FLM F371 O  Digital Photography and Pixel Painting  3 Credits  An introduction to the world of digital imaging with applications in fine and commercial art. It is expected that students will become competent at creating real-looking images of impossible subjects as well as detecting their creation by others. The varied ethical issues engendered by this expertise will be addressed in depth. Students will be required to gain proficiency in visual design for electronic and print publication. Special fees apply. Prerequisites: COMM F131X or COMM F141X. Cross-listed: ANTH F460 and ART F460. (3+0)

FLM F381 W  Alaska Natives in Film (h)  3 Credits  Offered Spring Odd-numbered Years  Analysis of the portrayal of Alaska's Inupiaq and Yup'ik peoples (with some on Canada's Inuit) through select films and readings. Learning to critically analyze films and understanding how various film techniques are accomplished while focusing on feature films' treatment and use of Northern peoples in film, as well as looking at the social impact of such films. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Recommended: ART/MUS/THR F200X. Cross-listed with ANS F381. (1.5+2-4)

FLM F418  Internship in Film Production (h)  1 – 6 Credits  Offered As Demand Warrants  This course offers students unique opportunities to work in the professional film industry. Professional internships require a faculty advisor as well as professional evaluation for the supervised work. Course can be repeated twice for a maximum of 12 credits. Variable Credit, 40 hours of internship is equal to 1 credit. Prerequisites: 18 credits in upper division film classes or permission of instructor. Recommended: FLM F271, FLM F245. (0+0+1 – 6)

FLM F427  Topics in Film Studies (h)  3 Credits  Offered Spring  Intensive study of variable topics in film studies. May focus on themes such as race or war in film; a specific period such as films of the 1940's: particular genres such as horror, film noir, or the musical, an important director, or an aspect of contemporary film theory. Intensive readings and research in contemporary film theory and criticism will foster in-depth understanding of chosen topic. Course may be repeated two times for credit when content varies. Prerequisites: ENGL F217 or FLM F217; ENGL F211X or ENGL F213X; or permission of instructor. Cross-listed with ENGL F427. (2+2)

FLM F431  Advanced Film Production  3 Credits  Offered Spring even numbered years  In depth investigation into the history, theory and concepts of film and video direction. Script preparation, storyboard and animatics, blocking actors and staging the camera, sound design, special effects, and editing techniques will be explored. Each student will produce their own capstone film project. Prerequisites: FLM F273, FLM F331, FLM/JRN F290. Recommended: FLM F271, FLM F334. Cross-listed with THR F431. (3+0)

FLM F460  Cross-Cultural Filmmaking (h)  3 Credits  Offered Fall Odd-numbered Years  The use of film as a documentary tool for describing and understanding scientific and cultural phenomena has led to the education of generations. Understanding the implications of our film work with a theoretical base for cultural understanding, scientific need and educational potentials will strengthen the film's integrity and production methods in creating video documents useful as a scientific/cultural record. Pre-production will include research of archival visual media, oral histories and print materials; analysis of educational and scientific funding and distribution options and preliminary interviews, location scouting and film treatment. Production will include time on location with small film crews, media logging and record keeping. Post-production will include basic editing of sequences for distribution. Prerequisites: Junior, senior or graduate standing or permission of instructor. Cross-listed: ANTH F460 and ART F460. (3+0)

FLM F470  Advanced Film and Video Directing (h)  3 Credits  Offered Fall Even-numbered Years  In depth investigation into the history, theory and basic concepts of film and video direction. Script preparation, story board, blocking actors and staging the camera, sound and editing. Projects include directing and shooting short videos. Special fees apply. Recommended: FLM/TRH F331. Cross-listed with THR F470. (1+6)

FLM F472 O  Visualization and Animation (h)  3 Credits  Offered Fall  An introduction to visualization and animation with applications in fine and commercial art and science. Students will produce a series of three dimensional animation projects which will introduce them to the tools and concepts used by animation and visualization professionals. Note: May be repeated for credit. Special fees apply. Prerequisites: ART F371 or equivalent; COMM F131X or COMM F141X. Cross-listed with ART F472; JRN F472. (1+4)

FLM F475  Digital Video Compositing (h)  3 Credits  Offered As Demand Warrants  Digital compositing techniques for creating moving imagery. The course covers video manipulation, layering images, synthesizing realistic video imagery, integration of live action and computer generated animation. Course can be repeated for a total of nine credits with permission of instructor. Prerequisites: ART F472 or JRN F472 or FLM F472 or equivalent. Cross-listed with ART F475. (1+4)
### FIRE SCIENCE

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Offered</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIRE F101</td>
<td>Principles of Emergency Services</td>
<td>3</td>
<td>Fall</td>
<td>Overview of fire protection, career opportunities in fire protection and related fields, philosophy and history of fire protection/service. Fire loss analysis, organization and function of public and private protection services. Fire departments as part of local government, laws and regulations affecting fire services, fire service nomenclature, specific fire protection functions. Basic fire chemistry and physics, introduction to fire protection systems and introduction to fire strategy and tactics. (3+0)</td>
</tr>
<tr>
<td>FIRE F105</td>
<td>Fire Prevention</td>
<td>3</td>
<td>Fall</td>
<td>The history and philosophy of fire prevention, organization and operation of a fire prevention bureau. Use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education. Prerequisites: FIRE F101 or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>FIRE F107</td>
<td>Strategy and Tactics</td>
<td>3</td>
<td>Spring</td>
<td>The principles of fire control through utilization of personnel, equipment and extinguishing agents on the fire ground. Prerequisites: FIRE F101 or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>FIRE F110</td>
<td>Introduction to Hazardous Waste Operations and Emergency Response</td>
<td>3</td>
<td>Spring</td>
<td>Review of federal and state hazardous materials laws and regulations. Career opportunities related to the field of hazardous materials including transportation, emergency response, site clean up and Incident Command System (ICS). (3+0)</td>
</tr>
<tr>
<td>FIRE F115</td>
<td>Fire Apparatus and Equipment</td>
<td>3</td>
<td>Spring</td>
<td>Fire apparatus design, specifications and performance capabilities, effective use of apparatus in fire emergencies. Prerequisites: FIRE F101 or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>FIRE F117</td>
<td>Rescue Practices</td>
<td>3</td>
<td>Spring</td>
<td>Rescue situations and techniques including vehicle extrication, rescue carries, ventilation principles, structural rescue, use of portable hand and power tools, wildland/canine search and rescue, ice and water rescue and emergency life saving principles. Also Offered Pass/Fail as FIRE F117P. Special fees apply. Prerequisites: EMS F170, or permission of instructor. All students are required to wear a complete set of fire department-approved protective clothing (turnout gear). Limited quantities are available for loan through the emergency services program coordinator. An eight-hour personal protective equipment and self-contained breathing apparatus safety orientation must be completed in order to participate in live fire exercises. (3+0)</td>
</tr>
<tr>
<td>FIRE F121</td>
<td>Fire Behavior and Combustion</td>
<td>3</td>
<td>Fall</td>
<td>Theories and fundamentals of how and why fires start, spread, and how they are controlled. (3+0)</td>
</tr>
<tr>
<td>FIRE F123</td>
<td>Fire Investigations I</td>
<td>3</td>
<td>Spring</td>
<td>Fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the firesetter and types of fire causes. Prerequisites: FIRE F101 or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>FIRE F127</td>
<td>Vessel Safety: Emergency Equipment, Procedures and Drills</td>
<td>1</td>
<td>Fall</td>
<td>Introduction to safe boating practices and skills including boat handling, rules of navigation, proper safety equipment, weather, boat trailers, lines and knots, first aid and emergency procedures. Graded Pass/Fail. (1+0)</td>
</tr>
<tr>
<td>FIRE F131</td>
<td>Firefighter I, Series I</td>
<td>3</td>
<td>Spring</td>
<td>The initial phase in a four-phase process for achieving State of Alaska Fire Fighter I certification. Fundamental knowledge of fire behavior, fire organizations, types of fire equipment emergency response services possess and methods of their use. Successful completion of all four phases will qualify the student for Alaska State Fire Fighter I certification. Special fees apply. Prerequisites: All students are required to wear a complete set of fire department approved protective clothing (turnout gear). Limited quantities are available for loan through the Emergency Services Program coordinator. (3+0)</td>
</tr>
<tr>
<td>FIRE F133</td>
<td>Firefighter I, Series II</td>
<td>3</td>
<td>Fall</td>
<td>The second phase in a four-phase process for achieving State of Alaska Fire Fighter I certification. Fundamental knowledge of fire behavior, fire organizations, types of fire equipment emergency response services possess and methods of their use. Successful completion of all four phases will qualify the student for Alaska State Fire Fighter I certification. Special fees apply. Prerequisites: All students are required to wear a complete set of fire department approved protective clothing (turnout gear). Limited quantities are available for loan through the Emergency Services program coordinator. An 8 hour Personal Protective equipment (PPE) and Self-Contained Breathing Apparatus (SCBA) safety orientation offered each semester must be completed in order to participate in live fire exercises. (2+2)</td>
</tr>
<tr>
<td>FIRE F135</td>
<td>Firefighter I, Series III</td>
<td>3</td>
<td>Fall</td>
<td>The third phase in a four-phase process for achieving State of Alaska Fire Fighter I certification. Fundamental knowledge of fire behavior, fire organizations, types of fire equipment emergency response services possess and methods of their use. Successful completion of all four phases will qualify the student for Alaska State Fire Fighter I certification. Special fees apply. Prerequisites: All students are required to wear a complete set of fire department approved protective clothing (turnout gear). Limited quantities are available for loan through the Emergency Services program coordinator. Course Descriptions

FIRE F137  Firefighter I, Series IV
3 Credits  Offered Spring, As Demand Warrants
The final phase in a four-phase process for achieving State of Alaska Fire Fighter I certification. Fundamental knowledge of fire behavior, fire organizations, types of fire equipment emergency response services possess and methods of their use. Successful completion of all four phases will qualify the student for Alaska State Fire Fighter I certification. Special fees apply. (3+0)

FIRE F143  Firefighter Internship, Series 1
1 Credit  Offered Fall
Practical experience in fire operations and training by arrangement through local fire departments. Graded Pass/Fail. (0+2)

FIRE F145  Firefighter Internship, Series 2
1 Credit  Offered Spring, As Demand Warrants
Practical experience in fire operations and training by arrangement through local fire departments. Graded Pass/Fail. Prerequisites: FIRE F143. (0+2)

FIRE F147  Firefighter Internship, Series 3
1 Credit  Offered Spring, As Demand Warrants
Practical experience in fire operations and training by arrangement through local fire departments. Prerequisites: FIRE F145. (0+2)

FIRE F151  Wildland Fire Control I
3 Credits  Offered Spring
Designed to provide national certification for entry-level and experienced fire fighters with fundamental knowledge of wildland fire organization, fire behavior, air operations, suppression methods, safety and the incident command system. Successful course completion combined with national age and physical fitness requirements will qualify the student for an interagency fire qualification card (red card) with a rating of Firefighter (FFT2). (3+0)

FIRE F153  Advanced Wildland Firefighter
3 Credits  Offered Fall
Designed to provide national certification for advanced wildland firefighters with knowledge of water use, preliminary fire investigation and the duties and responsibilities of the squad boss. Prerequisites: FIRE F151 or instructor permission. (2.5+1)

FIRE F155  Wildland Fire Behavior
3 Credits  Offered Spring Odd-numbered Years
Fire behavior knowledge necessary to determine basic input data for fire behavior calculations such as rate of spread, fire line intensity, flame length and area/perimeter growth using fire behavior prediction systems. Prepare fire perimeter maps, assess and predict chances of extreme fire behavior conditions, assess fire line data and fire behavior estimations, identify fire suppression limitations, and make recommendations for fire line location and safe control tactics. Prerequisites: FIRE F151 or permission of instructor. (3+0)

FIRE F157  Wildland Air Operations and Safety
3 Credits  Offered Fall Odd-numbered Years
Basic use of aircraft in wildland fire operations including helicopter operations, types and capacities, helibase/helispot construction, logistics support and specialized missions. Fixed wing operations include establishment of air bases, retardant operations, aircraft fueling and paracargo support. Emphasis on aviation safety. Prerequisites: FIRE F151 or permission of instructor. (3+0)

FIRE F159  Wildland Fire Operations Function
3 Credits  Offered Fall Odd-numbered Years
Overview of the operations function including organization; implementation of the incident action plan; tactical use of crews, engines and bulldozers; appointment of supervisors in accordance with span of control; use of fixed wing and rotor wing aircraft and fire operations in the urban interface. Functional position of single resource boss/crew covered. Prerequisites: FIRE F151; FIRE F153; FIRE F155; FIRE F157; FIRE F254; or permission of instructor. (3+0)

FIRE F161  Wildland Fire Logistics Function
3 Credits  Offered Fall Even-numbered Years
Overview of the support and service branches of the logistics function within the incident command system. Emphasis on entry-level positions of ordering manager, receiving and distribution manager, base camp manager, equipment manager and medical unit leader. Prerequisites: FIRE F151 or permission of instructor. (3+0)

FIRE F165  Wildland Fire Planning Function
3 Credits  Offered Fall Odd-numbered Years
An overview of the planning process, organizational relationships with other functions, use of planning matrix board, check-in and resource status procedures, evaluation, analysis and display of incident information, documentation, demobilization, use of technical specialist and components of an incident action plan. Prerequisites: FIRE F151 or permission of instructor. (3+0)

FIRE F202  Fire Protection Hydraulics and Water Supply
3 Credits  Offered Spring
Provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and their application to analyze and solve water supply problems. Prerequisites: DEVM F060 or placement into DEVM F105; FIRE F101; or permission of instructor. (3+0)

FIRE F203  Hazardous Materials Chemistry I
3 Credits  Offered Fall
Basic fire chemistry relating to most categories of hazardous materials including problems of recognition, reactivity and health risks encountered by fire fighters. Prerequisites: Satisfactory demonstration of basic chemistry knowledge (pretest) or permission of instructor. (3+0)

FIRE F206  Building Construction for Fire Protection
3 Credits  Offered Spring
The components of building construction that relate to fire and life safety. Focuses on fire fighter safety. Includes elements of construction and design of structures shown to be key factors when inspecting buildings, preplanning fire operations and operating emergencies. Prerequisites: FIRE F101 or employment or experience in related field, such as fire protection, insurance, construction architecture, or engineering. (3+0)

FIRE F207  Hazardous Materials Technician
3 Credits  Offered As Demand Warrants
Advanced information for protection and safety of personnel engaged in response and field cleanup of hazardous materials and substances at the hazardous materials technician level (EPA course #165.13). Special fees apply. Prerequisites: FIRE 205 or permission of instructor. (3+0)

FIRE F210  Fire Administration I
3 Credits  Offered Fall
Organization and management of a fire department and the relationship of government agencies to the fire service. Emphasis on fire service leadership from the perspective of the company officer. Prerequisites: FIRE F101 or permission of instructor. (3+1)

FIRE F212  Building and Fire Codes
3 Credits  Offered Spring Even-numbered Years
Introduction to life safety aspects of the uniform building code. Emphasis on uniform fire code for fire inspections on existing buildings, flammable liquids, hazardous materials and special processes. Preparation for the uniform fire code exam administered by the International Conference of Building Officials. Prerequisites: FIRE F101; FIRE F206; or permission of instructor. (3+0)

FIRE F214  Fire Protection Systems
3 Credits  Offered Fall
Features of design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, fire protection systems integration, fire protection systems applications, and fire protection systems maintenance. Prerequisites: FIRE F151; FIRE F153; FIRE F155; FIRE F157; FIRE F254; or permission of instructor. (3+0)
systems, water supply for fire protection and portable fire extinguishers. 
**Prerequisites:** FIRE F101 or permission of instructor. (3+0)

**FIRE F215**  
Advanced Hazardous Materials Technician  
3 Credits  
Offered As Demand Warrants  
Provides increased hands-on skills for personnel with a hazardous materials technician rating. Emphasis will be placed on task proficiency in spill containment, plugging, patching, diking and valve shut-offs on large commercial transporters. Stabilization of large and small chlorine leaks and decontamination will also be covered. Special fees apply. 
**Prerequisites:** FIRE F207 or permission of instructor. (2+2)

**FIRE F216**  
Methods of Instruction for Emergency Services Training  
3 Credits  
Offered Spring Odd-numbered Years  
Skills necessary to instruct emergency service courses including adult education techniques, classroom setup, use of audiovisual equipment, presentation, and evaluation methods of students and instruction. (3+0)

**FIRE F217**  
Hazardous Materials Technician Refresher  
1 Credit  
Offered As Demand Warrants  
Information and skills required for protection and safety of personnel engaged in response and field cleanup of hazardous materials and substances at the hazardous materials technician level. Special fees apply. 
**Prerequisites:** FIRE F206 or equivalent with certification that may not be expired for more than one calendar year. (1+0)

**FIRE F218**  
Advanced Rescue Practices  
3 Credits  
Offered Fall  
Provides instruction in four of the most common rescue situations that fire departments encounter in an Interior Alaska rescue: vehicular extrication, rope rescue, confined space rescue and ice/water rescue. Class stresses basic knowledge and hands-on experience. All students are required to wear a complete set of fire department-approved protective clothing (turnout gear). Limited quantities are available for loan through the Emergency Services Program Coordinator. Special fees apply. 
**Prerequisites:** EMS F170; FIRE F117; or permission of instructor. (3+0)

**FIRE F219**  
Rapid Intervention Company Operations  
3 Credits  
Offered As Demand Warrants  
Provides firefighters with the knowledge and skills necessary to work safely and respond appropriately to life-threatening situations. Includes rapid intervention team building skills, self rescue techniques and the knowledge to handle a mayday or high risk/threat situation. Completion of course will qualify students for the state of Alaska certification testing process. All students are required to wear full firefighter personal protective equipment. Limited quantities of PPE are available for loan through the program coordinator. Special fees apply. 
**Prerequisites:** FIRE F117, FIRE F131, FIRE F133, FIRE F135 and FIRE F137; or department head approval. (2.5+1)

**FIRE F232**  
Fire Fighter II  
3 Credits  
Offered Summer, As Demand Warrants  
Advanced technical study of fire alarms, communications, fire behavior, self-contained breathing apparatus, rescue, safety, ladders, fire hose, nozzles and appliances, fire streams, water supplies, sprinklers, overhaul and inspections. All students are required to wear a complete set of fire department approved protective clothing (turnout gear). Limited quantities are available for loan through the emergency services program coordinator. Special fees apply. 
**Prerequisites:** FIRE F131; FIRE F133; FIRE F135; FIRE F137; or permission of instructor. Note: An eight-hour personal protective equipment and self-contained breathing apparatus safety orientation must be completed in order to participate in live fire exercises. (2+2)

**FIRE F244**  
Firefighter Internship, Series 4  
1 Credit  
Offered Fall  
Practical experience in fire operations and training by arrangement through local fire departments. 
**Prerequisites:** FIRE F145 or FIRE F147. (0+2)

**FIRE F246**  
Firefighter Internship, Series 5  
1 Credit  
Offered Spring  
Practical experience in fire operations and training by arrangement through local fire departments. 
**Prerequisites:** FIRE F244. (0+2)

**FIRE F248**  
Firefighter Internship, Series 6  
1 Credit  
Offered Summer, As Demand Warrants  
Practical experience in fire operations and training by arrangement through local fire departments. 
**Prerequisites:** FIRE F246. (0+2)

**FIRE F252**  
Wildland Fire Prevention  
3 Credits  
Offered Spring Even-numbered Years  
Overview of wildland fire prevention including data collection, problem identification, problem analysis, action planning, fire reporting, fire cause determination, enforcement of laws and ordinances, public fire education, and the economics of fire prevention. 
**Prerequisites:** FIRE F151; FIRE F153; or permission of instructor. (3+0)

**FIRE F254**  
Wildland Fire Finance Function  
3 Credits  
Offered Fall  
Fire business management objectives, including duties and responsibilities of a fire finance section relating to management practices and programs. Procedures required in various finance positions including financial management of a large complex wildland fire. 
**Prerequisites:** FIRE F151; FIRE F153; or permission of instructor. (3+0)

**FIRE F256**  
Wildland Fire Planning and Multiple Use Management  
3 Credits  
Offered Fall Odd-numbered Years  
Fire management and its role in a multiple use resource program. Includes prescribed and wildfire practices, environmental concerns, management goals and objectives, and pre-fire planning. 
**Prerequisites:** FIRE F151; FIRE F153; FIRE F155; or permission of instructor. (3+0)

**FIRE F258**  
Wildland Fuels Management  
3 Credits  
Offered Spring Even-numbered Years  
Use of fire as a resource management tool. Natural and prescribed fire planning. Development and procedures to meet management objectives, components for conducting safe, prescribed burning. 
**Prerequisites:** FIRE F151; FIRE F153; FIRE F155; FIRE F158; FIRE F262; or permission of instructor. (3+0)

**FIRE F262**  
Wildland Fire Control II  
3 Credits  
Offered Fall Even-numbered Years  
Instruction in tactical operations of fire line construction. Use of hand crews, heavy equipment, water and engines, firing operations, wildland/urban interface and using combinations of resources. Advanced level course for trained and experienced wildland fire fighters. 
**Prerequisites:** FIRE F151; FIRE F153; FIRE F155; FIRE F157; FIRE F159; FIRE F254; or permission of instructor. (3+0)

**FIRE F270**  
Wildland Fire Command Function  
3 Credits  
Offered Spring Odd-numbered Years  
An overview of the command function including use of single and unified command, roles and responsibilities of the incident commander and staff, development and implementation of strategic decisions, providing information to the media, and managing the incident from initial attack of small, non-complex fires to larger, more complex initial attack suppression organizations dealing with escape attack situations. 
**Prerequisites:** FIRE F151; FIRE F153; FIRE F155; FIRE F252; or permission of instructor. (3+0)
**FIRST YEAR EXPERIENCE (FYE) — FISHERIES (FISH)**

### FISHERIES

#### FISH F100  
**Skeleton Articulation as an Introduction to Marine Conservation Biology**  
2 Credits  
Offered Spring  
Course designed for high school students; graded Pass/Fail. Graded Pass/Fail. Prerequisites: GPA of 2.5 or higher; offered to high school juniors and seniors with at least 1 biology and 1 math class completed. (2+0)

#### FISH F261  
**Introduction to Fisheries Utilization**  
3 Credits  
Offered Spring  
Application of harvesting, processing, preservation and marketing of Alaska's rich fisheries resources. Core course requirement for all B.A. students completing a minor in fisheries. Serves as an elective for B.S. fisheries students. Course is offered via videoconference. Prerequisites: BIOL F116X or CHEM F105X or permission of instructor. (3+0)

#### FISH F288  
**Fish and Fisheries of Alaska**  
3 Credits  
Offered Spring  
This course will provide mid-level undergraduate students with an introduction to the biology and fisheries of Alaskan fish, shellfish and marine mammals, with important fisheries as the main focus of the course. First, we will examine important commercial, subsistence and commercial fisheries, and then turn our attention to lesser known freshwater and marine mammal fisheries in Alaska. The amount of coverage of each topic will vary depending on what is known about each group of organisms. Before enrolling students should have a basic understanding of biological and ecological concepts. This course is required of all fisheries students but should appeal to anyone interested in Alaska's fish and fisheries. Prerequisites: BIOL 116X and FISH 101; or permission of instructor. Cross-listed with BIOL F288. (3+0)

#### FISH F290  
**Fisheries Internship**  
1 Credit  
Under the supervision of a fishery professional, students gain practical, professional experience through employment. Can be repeated up to four times, each for a different type of employment. The primary learning objectives for students are to gain professional experience in fisheries and refine career goals. Graded Pass/Fail. Prerequisites: Permission of the Fisheries Experiential Learning Coordinator/instructor; a student internship agreement form turned into the Experiential Learning Coordinator. Recommended: STAT F200X. (0+0+1+4)

#### FISH F301  
**Biology of Fishes**  
4 Credits  
Offered Fall  
A broad overview of the biological diversity of fishes presented from the comparative and organismal perspectives. The course examines the relationship between physical and biological properties of aquatic environments and the anatomy, physiology, behavior and geographical distribution of living fish lineages. Topics include fish evolution, biogeography, classification, gross and fine anatomy, sensory biology, and form-function relationships. Topics are presented to highlight essential concepts generally relevant in biology. Special fees apply. Prerequisites: BIOL F116X or equivalent; junior or senior standing. Recommended: BIOL F317. Cross-listed with BIOL F301. (3+3)

#### FISH F315  
**Freshwater Fisheries Techniques**  
3 Credits  
Offered Maymester Even-numbered Years  
Introduction to laboratory and field sampling methods in aquatic, limnology, and fisheries biology. Emphasis will be placed on the proper care and use of laboratory equipment and field sampling gears, as well as the development of sampling protocols for collecting representative, non-biased fisheries and aquatic sciences data. Special fees apply. Prerequisites: FISH F101; FISH F288; STAT F200X; or permission of instructor. (2+3)

#### FISH F336  
**Introduction to Aquaculture**  
3 Credits  
Offered Spring Odd-numbered Years  
Introduction to production systems and familiarization with Alaska systems. Team taught by SFOS specialists and featuring invited lecturers, laboratory demonstrations and field trips. This course is taught in Juneau. Prerequisites: BIOL F115X. (3+0)

#### FISH F411  
**Human Dimensions of Environmental Systems**  
3 Credits  
Offered Fall  
Study of human-environment relationships and applications to resource management. Draws on a range of social scientific approaches to the study of environmental systems, including: environmental anthropology, environmental history, historical ecology, political ecology, ethnecology, property theory, and environmental justice. Prerequisites: COMM F313X or F411X; ENGL F211X or F213X; F200-level course in cultural anthropology, human geography, sociology, or political science; or permission of instructor. (3+0)

#### FISH F412  
**Human-Environment Research Methods**  
3 Credits  
Offered Spring  
Overview of qualitative and quantitative social science methods for studying human-environment relationships. Introduction to research ethics, research design, data collection, data analysis and data reporting. Methods and data analysis techniques include interviews, text analysis, surveys, scales, cognitive anthropology and ethnecology, social networks, behavioral observation, and visual methods. Provides hands-on training in data collection and data analysis software. Prerequisites: FISH F411; junior or senior standing; or permission of instructor. Cross-listed with ANTH F412. (3+0)

#### FISH F414  
**Field Methods in Marine Ecology and Fisheries**  
3 Credits  
Offered Alternate Maymester  
A hands-on introduction to the methods used to study ecological patterns and processes in the marine environment. Class will consist of a series of group field exercises conducted in local marine habitats. These exercises will emphasize a variety of sampling methods for documenting patterns of distribution and abundance, experimental designs for testing hypotheses and statistical interpretation of results. These skills are fundamental to most basic and applied research in marine ecology and fisheries. Thus this course provides an essential foundation for a professional career in these areas. Prerequisites: FISH F101; BIOL F271; or permission of instructor. (13.3+20)

---

**356 Course Descriptions**  
2012 – 2013 CATALOG  
UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual:  
www.alaska.edu/titleIXcompliance/nondiscrimination.
FISH F421  Fisheries Population Dynamics
4 Credits
Offered Spring Even-numbered Years
Review and analysis of the major quantitative techniques available for assessing and predicting the status of fish populations. Demonstration and use of field and laboratory techniques and model verification; examples and case histories. This course is taught in Juneau. Prerequisites: STAT F200X [STAT S273-J]. Recommended: FISH F418. (4+0)

FISH F425  Fish Ecology
3 Credits
Offered Fall
Focus on the relationship of fishes to the physical, chemical, and biological features of their environment and the processes responsible for patterns of fish distribution and abundance. Concepts introduced in lectures will follow a logical progression, starting with the study of individual fish moving towards investigations of populations, metapopulations, and assemblages. Prerequisites: BIOL F115X; BIOL F271; FISH F101; or permission of instructor. Recommended: FISH F288. (3+0)

FISH F426  Behavioral Ecology of Fishes
3 Credits
Offered Spring Even-Numbered Years
This course will provide upper-level undergraduate and graduate students with an advanced understanding of behavioral responses and adaptations of fishes in both freshwater and marine systems to natural and anthropogenic environmental variables. It should provide students another option to fulfill upper-level undergraduate and graduate level elective coursework. Before enrolling, students should have a sound understanding of both ecological and biological concepts relating to fishes. Prerequisites: BIOL F271 or FISH F301 or FISH F427; or permission of instructor. Recommended: FISH F425; FISH F427. (3+0)

FISH F427  Ichthyology (n)
4 Credits
Offered Spring
Major groups of fishes, emphasizing fishes of northwestern North America. Classification structure, evolution, general biology and importance to man. Prerequisites: BIOL F317. Cross-listed with BIOL F427. (3+3)

FISH F428  Physiological Ecology of Fishes
3 Credits
Offered Spring Odd-numbered Years.
This course will provide upper-level undergraduate and graduate students with an advanced understanding of physiological responses and adaptations of fishes in both freshwater and marine systems to natural and anthropogenic environmental variables. It should provide students with another option to fulfill upper-level undergraduate and graduate level elective coursework. Before enrolling, students should have a sound understanding of both ecological and biological concepts relating to fish. Prerequisites: FISH F301 or BIOL F310 or FISH/BIOI F427; or permission of the instructor. (3+0)

FISH F433  Pacific Salmon Life Histories
3 Credits
Offered Fall Even-numbered Years
This course provides an introduction to the life histories of Pacific salmon (Oncorhynchus). We will explore variation in life history traits within and among species, as well as within an among populations, at each stage of the salmon life cycle. Life histories will be understood in evolutionary and ecological context. We will also discuss management and conservation of Pacific salmonid species throughout their range, but with focus on Alaska. This course is taught in Juneau. Also available via e-Learning and Distance Education. Prerequisites: FISH/BIOI F427 or permission of instructor. Stacked with FISH F633 (3+0)

FISH F450  Practicum in Fisheries: Fisheries Observer Program
3 Credits
Offered As Demand Warrants
Practical experience as a fisheries biologist onboard an Alaska commercial fishing vessel doing independent work at sea as an agent for the National Marine Fisheries Service or the Alaska Department of Fish and Game. Simultaneous to credit, the student/observer will be under contract and receive reimbursement for deployment. May be repeated for additional credit during different deployments as observer. Graded Pass/Fail. Special fees apply. Prerequisites: STAT F200X or permission of instructor. (0+1 – 12)

FISH F460  Food Science and Technology Internship
3 – 6 Credits
Offered As Demand Warrants
A combination of traditional and industrial training opportunities. Assigned required readings and discussion of appropriate topics in food science and technology. Information applied during hands-on experience in a food processing plant. Discussion includes fundamental information and solutions to industrial problems. Faculty mentor assigned to each intern. Required written evaluation of internship. 30 hours in-plant work experience for 12 – 24 weeks. Note: Course offered only in Kodiak. Prerequisites: 16 credits in natural sciences; MATH F200X or MATH F272X; or permission of instructor. (1+0+3)

FISH F487 W,O  Fisheries Management
3 Credits
Offered Spring
Theory and practice of fisheries management, with an emphasis on strategies utilized for the management of freshwater and marine fisheries. Application of quantitative methodologies for the assessment and manipulation of aquatic habitats, sport and commercial fish populations, and stock assessment are considered, as is the setting of appropriate goals and objectives for effective, science-based management. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; ENGL F414; FISH F425; or permission of instructor. Cross-listed with NRM F487. (3+0)

FISH F490  Experiential Learning — Fisheries Internship
1 Credit
Under the supervision of a faculty member and a fisheries professional, upper-division students gain professional experience through employment. Requirements are decided prior to enrollment based on a 3-way agreement between the employer, student, and faculty member, which contains learning objectives that reflect upper-division credit. Can be repeated up to 4 times, each for a different type of employment. Graded Pass/Fail. Prerequisites: Junior or senior standing plus permission of Faculty Sponsor and the Fisheries Experiential Learning Coordinator/instructor (the Coordinator can be a sponsor as well); signing of a student internship agreement form that contains learning objectives for the internship that reflects upper-division internship credit. Recommended: FISH F315; STAT F200X; STAT F401. (0+0 – 0+1 – 4)

FISH F499  Fisheries Senior Thesis
2 Credits
Prerequisites: ENGL F414; STAT F200X; Fisheries major with senior standing and a GPA of 3.2 or higher; permission of Faculty mentor and the Fisheries Experiential Learning Coordinator/instructor (the Coordinator may be a mentor) after submission of a proposal. Recommended: FISH F315; STAT F401; STAT F402. (0+0+2 – 4)

FISH F601  Quantitative Fisheries Science
3 Credits
Offered Spring Even-numbered Years
(2+3)

FISH F603  Writing for Fisheries and Ocean Sciences Workshop
1 Credit
Offered Spring
Skills required to prepare and present fisheries technical information in journal articles and other formats. Proficiency in writing, editing, peer reviewing written fisheries and ocean sciences communications. Requires graduate standing and requires students to write about data gathered for graduate thesis. Students bring their own research data as basis for work. Graded Pass/Fail. Prerequisites: ENGL F414 or ENGL F614 or permission of instructor. (1+0)

FISH F604  Modern Applied Statistics for Fisheries
4 Credits
Offered Odd-numbered Years
Covers general statistical approaches to quantitative problems in marine science and fisheries with guidance on how to collect and organize data,
how to select appropriate statistical methods and how to communicate results. A variety of advanced statistical methods for analyzing environmental data sets will be illustrated in theory and practice. Prerequisites: STAT F200; STAT F401; proficiency in computing with R or permission of instructor. Cross-listed with: MSL F604. (3+3)

**FISH F612 Fish Conservation Biology**
4 Credits
Offered Fall Odd-numbered Years

Conservation biology is an applied science that deals with maintaining and restoring threatened populations. Includes theoretical foundations of conservation biology and the practical lessons to be gained from studying historical conservation efforts. Emphasis on case studies. Note: This course is taught in Juneau. (3+2)

**FISH F615 Fish Bioenergetics**
3 Credits

Fundamentals of bioenergetics as they apply to sub-arctic fish. Basic components of fish growth, energy requirements and energy storage. Analysis of energy required to survive, feed and reproduce successfully. Ecosystem-level trophodynamics and their role in individual as well as population success; the use of biomass and energy-based models to quantify fish growth, consumption rates, biomass removals, assimilation efficiencies and developing bioenergetic models Course offered in Kodiak and via videoconference in Fairbanks and Juneau. (3+0)

**FISH F621 Estimation of Fish Abundance**
3 Credits
Offered Fall Even-numbered years

Estimation of abundance of fish and other aquatic populations, using mark-recapture, line-transect, catch-effort and change-in-ratio techniques. Computer lab work and homework from actual and simulated populations. Prerequisites: MATH F201X; STAT F401; familiarity with PC's including word processing and spreadsheets. Recommended: FISH F421; MATH F302; MATH F314. (2+2.5)

**FISH F622 Quantitative Fish Population Dynamics**
3 Credits
Offered Spring Odd-numbered years

Modeling fish population mortality, recruitment individual growth and fecundity. Models and assessment techniques for age- and length-structured populations. Biological reference points and management strategies derived from population and harvesting parameters. Computer lab work and homework from actual and simulated populations. This course is taught in Juneau. Prerequisites: MATH F201X; STAT F401; familiarity with PC’s including word processing and spreadsheets. Recommended FISH F421; MATH F302; MATH F314. (2+2.5)

**FISH F625 Population Dynamics of Vertebrates**
4 Credits
Offered Spring Odd-numbered Years

Sampling vertebrate populations, modeling their population dynamics and the implications for management. Focus will be on study design, model assumptions, estimation of population parameters, and population projections. State-of-the-art computer applications will be employed in laboratory exercises of actual and simulated data. This course is taught in Juneau. Prerequisites: BIOL F271; STAT F401. Cross-listed with WLF F625. (3+3)

**FISH F626 Behavioral Ecology of Fishes**
3 Credits
Offered Spring Even-numbered Years

This course will provide upper-level undergraduate and graduate students with an advanced understanding of behavioral responses and adaptations of fishes in both freshwater and marine systems to natural and anthropogenic environmental variables. It should provide students another option to fulfill upper-level undergraduate and graduate level elective coursework. Before enrolling, students should have a sound understanding of both ecological and biological concepts relating to fishes. Prerequisites: BIOL F271 or FISH F301 or FISH F427; or permission of instructor; Recommended: FISH F425 or FISH F427 (3+0)

**FISH F627 Statistical Computing with R**
2 Credits
Offered Fall, As Demand Warrants

Using the free, open-source software R to teach computing, programming, and modeling concepts for the statistical computing of fisheries and biological data. Prepares students for other graduate-level, quantitative fisheries courses and covers exploratory statistical and graphical analyses, as well as computer-intensive methods such as bootstrapping and randomization tests. Prerequisites: STAT F200X or equivalent, STAT F401 or equivalent, and proficiency with Excel; or permission of instructor. Cross-listed with MSL F627. (1+3)

**FISH F628 Physiological Ecology of Fishes**
3 Credits
Offered Spring Odd-numbered Years.

This course will provide upper-level undergraduate and graduate students with an advanced understanding of physiological responses and adaptations of fishes in both freshwater and marine systems to natural and anthropogenic environmental variables. It should provide students with another option to fulfill upper-level undergraduate and graduate level elective coursework. Before enrolling, students should have a sound understanding of both ecological and biological concepts relating to fish. Prerequisites: FISH F301 or BIOL F310, FISH/BIOL F427; or permission of instructor and graduate standing. (3+0)

**FISH F630 Natural Resource Modeling**
2 Credits
Offered Spring Odd-numbered Years

A hands-on introduction to the techniques and issues involved in modeling natural resources. Students will complete an individual modeling project related to each student's graduate research. This course is taught in Juneau. Prerequisites: FISH F421 and STAT F401 or equivalents. (1+3)

**FISH F631 Data Analysis in Community Ecology**
3 Credits
Offered Spring Odd-numbered years

This course will provide an overview of statistical methods that have been specifically developed to aid our understanding and interpretation of the structure, abundance, and distribution of species and communities in relation to resources and the environment. Prerequisites: STAT F200; STAT F401 or equivalent; FISH 627 (Stat Comp. with R) or familiarity with R, general ecology, graduate standing in fisheries or permission of instructor. Cross-listed with MSL F631. (3+0)

**FISH F633 Pacific Salmon Life Histories**
3 Credits
Offered Fall Even-numbered Years

This course provides an introduction to the life histories of Pacific salmon (Oncorhynchus). We will explore variation in life history traits within and among species, as well as within an among populations, at each stage of the salmon life cycle. Life histories will be understood in evolutionary and ecological context. We will also discuss management and conservation of Pacific salmonid species throughout their range, but with focus on Alaska. This course is taught in Juneau. Also available via e-Learning and Distance Education. Prerequisites: FISH/BIOL F427 or permission of instructor. Stacked with FISH F433 (3+0)

**FISH F640 Management of Renewable Marine Resources**
3 Credits
Offered Spring Even-numbered Years

Principles of fisheries management, along with case studies of successes and failures. Topics include management objectives, relationships of fished species to their environment, fishing methods, human dimensions, fishery data acquisition, harvest strategies, ecosystem effects of fishing, aquaculture and alternative management strategies, including ecosystem-based fishery management. Prerequisites: FISH F427. Recommended: FISH F487. (3+0)

**FISH F642 Bayesian Decision Theory for Resource Management**
4 Credits
Offered Spring Even-numbered Years

Application of decision theory to problems in natural resources management. Students will learn to perform Bayesian calculations and uncomplicated decision analysis themselves. Special fees apply. Prerequisites: FISH F621 or FISH F630 or permission of instructor. Cross-listed with STAT F642. (2+2)
**FISHERIES (FISH) — FOREIGN LANGUAGES (FL)**

**Course Descriptions**

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.
GEOG F300  Internship in Natural Resources Management and Geography  
1 – 3 Credits  Offered As Demand Warrants  
Supervised pre-professional experience in a business or agency (public or private). Open to students majoring or minoring in natural resources management and geography only. Course may be repeated for credit up to a maximum of 6 credits. Prerequisites: NRM F101 for natural resources management majors or GEOG F101 for geography majors; junior standing with 3.0 GPA; permission of instructor; an approved internship plan. Cross-listed with NRM F300. (0+0+3 – 10)

GEOG F302  Geography of Alaska  
3 Credits  Offered Fall  
Regional, physical and economic geography of Alaska. Special consideration of the state's renewable and nonrenewable resources and of plans for their wise use. Frequent class study of representative maps and visual materials. Also available via e-Learning and Distance Education. (3+0)

GEOG F303  Geography of the United States and Canada  
3 Credits  Offered Spring Odd-numbered Years  
In-depth examination of the natural, political, cultural, and economic characteristics of the U.S. and Canada and their major sub-regions. Explores contrasts in U.S. and Canadian historical, cultural and political geography; sources of national identity; and interactions with aboriginal peoples. Includes economic and political relationships between the two countries, and the role each has played in current and historical world affairs. Prerequisites: An introductory geography course or background in United States or Canadian history, social science, or cultures; or permission of instructor. (3+0)

GEOG F305 W  Geography of Europe  
3 Credits  Offered Spring Even-numbered Years  
In-depth examination of the natural, political, cultural and economic characteristics of Europe and its major sub-regions. Explores current political and economic transformations, historical and contemporary world influences, and issues of nationalism and identity. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; an introductory geography course or background in European history, social science, or culture; or permission of instructor. (3+0)

GEOG F306  Geography of Russia  
3 Credits  Offered Spring Even-numbered Years  
The physical, cultural and historical geography of Russia and the Ukraine, Central Asia, Siberia and parts of Eastern Europe. (3+0)

GEOG F307  Weather and Climate  
3 Credits  Offered Spring Even-numbered Years  
Weather systems and climate classification. Emphasis on weather system processes, measuring weather variables and physical processes of the atmosphere. Prerequisites: GEOG F111X; or permission of instructor. (3+0)

GEOG F309  Digital Cartography and Geo-Visualization  
4 Credits  Offered Spring Odd-numbered Years  
The concepts of map design, layout and presentation to effectively visualize and communicate complex spatial data. Special fees apply. Prerequisites: Permission of instructor. (4+0)

GEOG F311 W  Geography of Asia  
3 Credits  Offered Spring Odd-numbered Years  
Examines the natural, political, cultural, and economic characteristics of China, Japan, India-Pakistan, Southeast Asia, and the Asiatic countries of the Middle East. Explores historical and current political and economic transformations, historical, and contemporary world influences, and foundations of regional political, economic, and military conflicts. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; an introductory geography course or background in Asian history, social science, or culture; or permission of instructor. (3+0)

GEOG F312  People, Places, and Environment: Principles of Human Geography  
3 Credits  Offered Fall  
Examines how human activity manifests itself on the earth's surface through the geographic lenses of ethnicity, politics, industry, language, religion, and demographics. Explores spatial patterns, relationships and contrasts between places, origin and diffusion of traits, and human interactions with the environment. Prerequisites: GEOG F101 or GEOG F203; or permission of instructor. (3+0)

GEOG F338  Introduction to Geographic Information Systems  
3 Credits  Offered Fall  
Geographic data concepts including mapping systems, data sources, editing data, GIS analysis and computer mapping. Introduction to global positioning systems. GIS applications in natural resources management. Prerequisites: Knowledge of PCs or Unix workstations desirable. Cross-listed with NRM F338. (2+3)

GEOG F339  Maps and Landscape Analysis  
3 or 4 Credits  Offered Spring  
Topographic map interpretation for landscape analysis and geographic data acquisition, including topographic features, vegetation patterns, and political and cultural features. Emphasis on topographic maps for remote data acquisition and environmental impact analysis. Optional laboratory for one additional credit. Special fees apply. Prerequisites: GEOG F101 or GEOG F203; GEOG F111X; GEOS F304. (3+0 or 3)

GEOG F402  Resources and Environment  
3 Credits  Offered Fall Odd-numbered Years  
Interdisciplinary analysis of the Earth as a natural resource base, and the management issues of resource extraction, allocation, development, conservation and preservation. Prerequisites: GEOG F101; GEOG F111X. (3+0)

GEOG F405  Political Geography  
3 Credits  Offered As Demand Warrants  
Geographical analysis of the evolution, structure, internal coherence and sources of strength of individual nation states, with emphasis on nations of the Pacific realm and Arctic periphery. Consideration of regional blocs, spheres of influence and potential for international cooperation. Prerequisites: GEOG F101. (3+0)

GEOG F410  Geography of the Pacific Rim  
3 Credits  Offered Fall Odd-numbered Years  
Examines the physical and human geography of the Pacific Rim. Will employ both a global and topical approach and include aspects of environmental, historic, economic, social, and political issues. Regional studies on physical and human geographic attributes of selected countries will be analyzed and compared. Prerequisites: GEOG F101; GEOG F111X; or permission of instructor. (3+0)

GEOG F412  Geography of Climate and Environmental Change  
3 Credits  Offered Fall  
Serves as a “synthesis” breadth course focusing on the geography of climate and environmental change. The major concepts of global climate processes and climate change will be reviewed on multiple time scales. The impacts of natural and anthropogenic environmental change will be examined through selected case studies and readings (e.g. permafrost, invasive species, sea ice, fire, urbanization). Prerequisites: BIOL F271; GEOG F307 or permission of instructor. (3+0)

GEOG F418  Biogeography  
3 Credits  Offered Fall  
This course explores the geography of life by examining linkages between climate, geomorphology, and ecological communities with emphasis on the biogeography of subarctic, polar, and alpine regions. Prerequisites: BIOL F271 or BIOL/NRM 277; junior/senior standing or permission of the instructor. Cross-listed with BIOL F418. Stacked with BIOL F618 and GEOG F618.(3+0)

GEOG F663  Wilderness Concepts
3 Credits  Offered Fall
History and evolution of wilderness thought, the contemporary meaning of wilderness, and survey of economic and noneconomic wilderness values for individuals and society. Cross-listed with NRM F663. (3+0)

GEOG F692  Graduate Seminar
1 – 3 Credits
Topics in natural resources management and geography explored through readings, student presentations, group discussions and guest speakers. Prerequisites: Graduate standing or permission of instructor. Cross-listed with: NRM F692 (1 – 3+0)

### GEOLOGICAL ENGINEERING

GE F101  Introduction to Geological Engineering
1 Credit  Offered Fall
Multiple aspects of geological engineering as a profession; the area and scope of the field. Graded Pass/Fail. (1+0)

GE F261  General Geology for Engineers
3 Credits  Offered Spring
Study of common rocks and minerals, landforms and erosion. Geologic materials and engineering application of geology. Prerequisites: MATH F107X; MATH F108X or equivalent; Geology, science or engineering majors, or permission of instructor. (2+3)

GE F322  Erosion Mechanics and Conservation
3 Credits  Offered Spring or As Demand Warrants
Engineering mechanics of water and wind erosion processes, types of geologic or anthropogenic induced erosion, application of engineering principles for design, management and control of erosion and engineering analysis of conservation structures. Prerequisites: ES F341 or permission of instructor. (3+0)

GE F365  Geological Materials Engineering
3 Credits  Offered Fall
Identification and classification of soils, physical and mechanical properties of soil, interaction of soils with subsurface water, subsurface exploration and case studies with an emphasis on permafrost. Prerequisites: ES F208; GE F261; or permission of instructor. (2+3)

GE F371  Remote Sensing for Engineering
3 Credits  Offered Spring
Applications of remote sensing to geological engineering problems. Introduction to digital satellite image processing with hands-on practice. Prerequisites: PHYS F212X. (2+3)

GE F373  Principles of Engineering Geology and Terrain Analysis
3 Credits  Offered Fall
Evaluation of terrain characteristics using basic geomorphic and engineering principles. Alaskan applications are provided due consideration. Prerequisites: GE F261. (2+3)

GE F376  GIS Applications in Geological and Environmental Engineering
3 Credits  Offered Spring or As Demand Warrants
Fundamentals, concepts and components of geographic information systems (GIS) in engineering design. Introduction to acquiring, manipulating and analyzing digital terrain data for geological engineering and environmental applications, and the assessment to mineral resources. Prerequisites: GE F261 or equivalent; GE F375 or equivalent. NRM F338 Recommended. (2+3)

GE F381 W  Field Methods and Applied Design I
2 Credits  Offered Summer
Techniques and geologic mapping and geotechnical instrumentation applied to engineering design and resource evaluation. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; GE F261; GEOS F213; GEOS F214; GEOS F322; GEOS F332 or equivalent. (0+9+3)

GE F382 W  Field Methods and Applied Design II
4 Credits  Offered Summer
Techniques and geologic mapping and geotechnical instrumentation applied to engineering design and resource evaluation. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; GE F261; GEOS F213; GEOS F214; GEOS F322; GEOS F332 or equivalent. (0+9)

GE F384  Engineering Geology of Alaska ★
4 Credits  Offered Summer or As Demand Warrants
A survey of the geology of Alaska relevant to the definition of natural and human-induced geological engineering hazards, the evaluation of sources of and specifications for engineering materials, and the evaluation of engineering construction sites. Prerequisites: Upper-division standing; permission of instructor. (3+1+2)

GE F400  Geological Engineering Internship
1 – 3 Credits  Offered As Demand Warrants
Supervised work experience in engineering organizations. Assignments will be individually arranged with cooperating organizations from the private and public sectors. A report of activities must be completed and reviewed by the sponsoring organization. The report may be held in confidence at the request of the sponsoring organization. Graded Pass/Fail. Prerequisites: Upper-division standing; permission of instructor. (1 – 3+0)

GE F405  Exploration Geophysics
3 Credits  Offered Fall
Theory and application of gravity, magnetic, electrical, electromagnetic, radioactive and seismic methods as used for geophysical exploration. Some field work. Prerequisites: GE F375; MATH F200X; PHYS F211X or equivalent. (2+3)

GE F420  Subsurface Hydrology
3 Credits  Offered Fall
Hydrologic, geologic and other factors controlling groundwater flow, occurrence, development, chemistry and contamination. Elementary groundwater flow theory. Interactions between surface-subsurface hydrologic systems. Hydraulic characteristics of earth materials, engineering problems and models related to subsurface fluids, and properties of water. Prerequisites: GE F365; MATH F302; ES F341; or permission of instructor. Stacked with GE F610. (2+3)

GE F430  Geomechanical Instrumentation
3 Credits
Measurement of groundwater pressure, ground deformation, stress and temperature as well as the planning of monitoring programs, instrument calibration, maintenance and installation, data collection, interpretation, and reporting. Case histories are used. Prerequisites: ES F331; GE F261 or GEOS F101X. (3+0)

GE F435  Exploration Design
3 Credits  Offered Spring
Geologic, engineering and economic considerations applied to the design and development of mineral exploration programs. Prerequisites: GEOS F314 or permission of instructor. (3+0)

GE F440  Slope Stability
3 Credits  Offered Fall
Slope design for open pit mining and other excavations. Stability analysis by various methods and on-site measuring and monitoring techniques. Prerequisites: ES F331. (3+0)
GE F441 Geohazard Analysis
3 Credits Offered Fall
Procedures and techniques to evaluate geological factors for geohazards, such as landslides, earthquakes, volcanoes, flooding, coastal hazards and permafrost-related problems. Prerequisites: GE F365 or equivalent; or permission of instructor. (3+0)

GE F445 Design of Earth Dams and Embankments
3 Credits As Demand Warrants
Preliminary planning for design and construction of dams, site selection, reservoir assessment, foundation and other building materials, procedure for design of earth dams, design of abutment and spillway, estimation of volume of earthworks and storage capacities, site preparation for construction, excavation, slope stability issues and other geological engineering assessments. Prerequisites: GE F420 or permission of instructor. (3+0)

GE F471 Remote Sensing for Engineering
3 Credits Offered Fall
Applications of remote sensing to geological engineering problems. Introduction to digital satellite image processing with hands-on practice. Prerequisites: GE F375 or permission of instructor; PHYS F212X. (2+3)

GE F480 W Senior Design
3 Credits
Design factors and procedures for the solution of geological engineering problems. A design project is the focus of the course. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing in the geological engineering program with completion of GE F261; GE F365; GE F371; GE F373; GE F381 or equivalent; GE F382 or equivalent; GE F405; GE F420. (1+6)

GE F410 Subsurface Hydrology
3 Credits Offered Fall Odd-numbered Years
Hydrologic, geologic and other factors controlling groundwater flow, occurrence, development, chemistry and contamination. Elementary groundwater flow theory. Interactions between surface-subsurface hydrologic systems. Hydraulic characteristics of earth materials, engineering problems and models related to subsurface fluids, and properties of water. Prerequisites: Graduate standing in Engineering or permission of instructor. Stacked with GE F420. (2+3)

GE F620 Advanced Groundwater Hydrology
3 Credits Offered Fall Odd-numbered Years or As Demand Warrants
Study of groundwater hydrology with emphasis on solute and contaminant transport, chemical reaction and ion exchange, advection and diffusion and computer modeling. Prerequisites: GE F610 or equivalent; graduate standing or permission of instructor. (2+3)

GE F622 Unsaturated Soil Geoengineering
3 Credits Offered As Demand Warrants
Fundamentals of soil physical processes, multiphase flow and transport in unsaturated porous media such as soils. Application of principles of unsaturated flow to geoenvironmental and geotechnical systems. Methods for characterization of hydraulic properties in relation to soil physical parameters in the context of geoenengineering problems of flow and stability. Non-isothermal flow in unsaturated soils and its impact on subsurface environment. Biogeochemical processes affecting soil and groundwater contamination. Unsaturated flow and transport modeling including heat transfer relevant to active layer dynamics and permafrost underlain soils in Alaska and other similar cold regions. Prerequisites: GE F620 or equivalent course and Graduate standing in Engineering or permission of instructor. Stacked with GE F422. (3+0)

GE F624 Stochastic Hydrology and Geohydrology
3 Credits Offered As Demand Warrants
Overview of the stochastic methods used to study and analyze hydrologic and geohydrologic processes. Emphasis on modeling hydrologic processes using statistical methods and stochastic interplay of processes between surface and subsurface hydrology. Prerequisites: GE F620 or equivalent and graduate standing in Engineering; or permission of instructor. (3+0)

GE F626 Thermal Geotechnics
3 Credits Offered As Demand Warrants
Fundamentals of thermal regimes of soils and rocks. Thermal impact of structures on soils. Thawing of permafrost beneath roads, buildings and around pipelines. Natural and artificial freezing of soils. Engineering means to maintain thermal regime of soils. Thermal design considerations. Cross-listed with GE F626. (3+0)

GE F635 Advanced Geostatistical Applications
3 Credits Offered Spring
Introduction to the theory and application of geostatistics. Review of classical statistics, continuous and discrete distributions, hypothesis testing and global estimation. Presentation of fundamental geostatistical concepts including: variogram, estimation variance, block variance, kriging, geostatistical simulation. Emphasis on the practical application of geostatistical techniques. Prerequisites: MIN F408 or equivalent; graduate standing; or permission of instructor. Cross-listed with MIN F635. (2+3)

GE F665 Advanced Geological Materials Engineering
3 Credits Offered Spring
In-depth study of geological materials (aggregates — sand, gravel and crushed rock for construction purposes) exploration, evaluation, testing and production. Emphasis placed on geological materials used for construction in arctic and sub-arctic environments, economic analysis of pit and quarry operations and availability of materials in Alaska. Prerequisites: GE F365 or equivalent; permission of instructor. Recommended: MIN F408. (3+0)

GE F666 Advanced Engineering Geology
3 Credits Offered Fall-odd-numbered Years
The interaction between geology and engineering case histories. Prerequisites: GE F365; GE F372; graduate standing; or permission of instructor. (2+3)

GE F668 Tunneling Geotechniques
3 Credits Offered Fall-Even-numbered Years
Tunnel design, case histories, student report. Prerequisites: Graduate standing or permission of instructor. (3+0)

GE F692 Graduate Seminar
1 Credit
Topics in geological engineering explored through talks, group discussions and guest speakers with a high level of student participation. Graded Pass/Fail. Prerequisites: Graduate standing or permission of instructor. (1+0)

GEOLOGY AND GEOPHYSICS
A per-semester fee for computing facilities will be assessed for one or more GEOS courses at the F200 level and above. This fee is in addition to any materials fees.

GEOS F100X Introduction to Earth Science (n)
4 Credits Offered As Demand Warrants
Survey of four main disciplines of earth science: geology, oceanography, meteorology, and astronomy. Lab portion serves as a: vehicle to learn scientific methodology, evidence to support theories presented in lectures. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor. (3+3)

GEOS F101X The Dynamic Earth (n)
4 Credits
Physical geology: a study of the Earth, its materials, and the processes that effect changes upon and within it. Laboratory training in use of topographic maps and recognition of common rocks and minerals. Special
life includes field data collections using GPS, photo-interpretation using image electromagnetic radiations, map projections, basic computer science, data formats, map-reading and map-making. Practical exercises include field data collections using GPS, photo-interpretation using image processing and GIS software packages.

GEOS F103X Life in the Age of Dinosaurs (n) 4 Credits Offered Spring Even-numbered Years Promote a broader understanding of deep time through an examination of life and environments during the Mesozoic, or "Age of Dinosaurs." Discussions and exercises will focus on major events and processes that shaped the physical environments of the Mesozoic, such as the formation and breakup of continents, global climate, and changing sea levels. Building on this foundation, the course will examine the fossil record to learn what it reveals about the major patterns in the diversity of terrestrial and marine life. Special emphasis will be placed on the origin, extinction, and paleobiology of dinosaurs. Important groups of contemporary vertebrates and invertebrates, including marine reptiles, mammals, flying reptiles, and ammonites will also be examined. The rise of flowering plants and the importance of fossil floras in understanding Mesozoic climates will be explored. Labs will provide opportunities to examine and identify fossils and use them to reconstruct ancient environments. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105X or higher; or permission of instructor. (3+3)

GEOS F110X Life in the Age of Dinosaurs (n) 4 Credits Offered Spring Even-numbered Years Promote a broader understanding of deep time through an examination of life and environments during the Mesozoic, or "Age of Dinosaurs." Discussions and exercises will focus on major events and processes that shaped the physical environments of the Mesozoic, such as the formation and breakup of continents, global climate, and changing sea levels. Building on this foundation, the course will examine the fossil record to learn what it reveals about the major patterns in the diversity of terrestrial and marine life. Special emphasis will be placed on the origin, extinction, and paleobiology of dinosaurs. Important groups of contemporary vertebrates and invertebrates, including marine reptiles, mammals, flying reptiles, and ammonites will also be examined. The rise of flowering plants and the importance of fossil floras in understanding Mesozoic climates will be explored. Labs will provide opportunities to examine and identify fossils and use them to reconstruct ancient environments. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105X or higher; or permission of instructor. (3+3)

GEOS F112X The History of Earth and Life (n) 4 Credits Offered Spring Historical geologic interpretation, geologic time scale, stratigraphic record and interpretation. Sedimentation and plate tectonics, fossil record and utilization, biostratigraphy, and geologic evolution of the North American continent. Lab examination of fossils, interpretation of geologic maps and stratigraphic columns. Special fees apply. Prerequisites: GEOS F101X; placement in ENGL F111X or higher; placement in DEV M F105X or higher; or permission of instructor. (3+3)

GEOS F120X Glaciers, Earthquakes, and Volcanoes: Past, Present, and Future (n) 4 Credits Offered As Demand Warrants A survey course for the nonspecialist on the causes, effects, measurements and prediction of glaciers, earthquakes and volcanoes. Special fees apply. Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105X or higher; or permission of instructor. (3+3)

GEOS F121X Geology of Alaska (n) 3 Credits Offered As Demand Warrants Modern geologic processes in Alaska as a basis for understanding past geologic evolution of the region. The origin and recovery of Alaska's petroleum and mineral resources will be discussed. For non-majors. Special fees apply. Prerequisites: GEOS F101X or permission of instructor. (3+3)

GEOS F212X Structural Geology (n) 4 Credits Offered Spring In-depth exploration of the theory of Plate Tectonics including plate boundary interactions - which trigger volcanoes and earthquakes, form mountain belts and oceans - via geochemistry, sedimentology, geophysics and structure. Understanding the creation and evolution of the lithosphere and mantle, how we detect tectonic processes and how present tectonic environments help reconstruct ancient crustal events. Prerequisite: GEOS F112; GEOS F214 or GEOS F262 (either may be taken concurrently) or permission of instructor. (3+3)

GEOS F213 Mineralogy (n) 4 Credits Offered Fall Mineral chemistry, atomic structure, elementary crystallography, optical crystallography and descriptive and determinative mineralogy. Instrumental determinative techniques (x-ray diffraction, petrographic microscope). Special fees apply. Prerequisites or co-requisites: CHEM F105X; GEOS F101X; MATH F107X. (2+6)

GEOS F214 Petrology and Petrography (n) 4 Credits Offered Spring Origin, occurrence and classification of igneous and metamorphic rocks. Laboratory work involves hand lens identification and thin section examination of representative rocks. Special fees apply. Prerequisites: GEOS F213. (2+6)

GEOS F222 Fundamentals of Geospatial Sciences 3 Credits Offered Fall This course is an introduction to the principles and applications of geospatial science (remote sensing, GIS and GPS). Fundamental concepts include electromagnetic radiations, map projections, basic computer science, data formats, map-reading and map-making. Practical exercises include field data collections using GPS, photo-interpretation using image processing and GIS software packages. Prerequisites: GEOG F111 or GEOS F101 or permission of instructor. Cross-listed with: GEOG F222 (2.5+1.5)

GEOS F225 Field and Computer Methods in Geology 2 Credits Offered Spring Basic field methods, including field notes, topographic maps, measurement of structural elements, field safety, illustration, field mapping, and the use of GPS for field work are discussed and practiced. Use of computers for processing geologic field data and analytical data, and integration of field data into a simple Geographic Information System. Computers are used for the production of reports and technical illustration. This course will fulfill the department requirement for computer literacy. Special fees apply. Prerequisites: GEOS F101X. (1+3)

GEOS F262 Rocks and Minerals 3 Credits Offered Fall Even-numbered Years Physical properties of minerals and rocks, classification, mode of occurrence and economic applications. Labs on recognition and measurement of physical properties. Course may not be used to satisfy degree requirements in geology or geological engineering. Special fees apply. Prerequisites: GEOS F101X or equivalent. (2+3)

GEOS F304 Geomorphology 3 Credits Offered Fall In-depth exploration of the theory of Plate Tectonics including plate boundary interactions - which trigger volcanoes and earthquakes, form mountain belts and oceans - via geochemistry, sedimentology, geophysics and structure. Understanding the creation and evolution of the lithosphere and mantle, how we detect tectonic processes and how present tectonic environments help reconstruct ancient crustal events. Prerequisite: GEOS F112; GEOS F214 or GEOS F262 (either may be taken concurrently) or permission of instructor. (3+3)

GEOS F310 Tectonics 3 Credits Offered Spring Introductory overview of how rocks are deformed, types of geological structures including folds, faults and penetrative fabrics, and the associations of structures characteristic of different tectonic settings. Provides background in structural geology. Emphasis in the laboratory on examples and techniques that are broadly applicable in geology, especially the interpretation of geologic maps. Special fees apply. Prerequisites: GEOS F212 or concurrent enrollment in GEOS F214; PHYS F103X or PHYS F211X. (3+3)

GEOS F315 W Paleobiology and Paleontology (n) 4 Credits Offered Fall Survey of the history of life on Earth as represented in the fossil record. Contribution of paleontology to the study of evolution, past environments and paleogeography; biostatigraphically important invertebrate fossil groups and their temporal ranges; evolution of terrestrial flora and fauna; current issues in paleontology. Emphasis on recognition of major fossil groups and paleontological problem solving in labs and assignments. Special fees apply. Prerequisites: BIOL F103X or BIOL F115X or GEOS F112X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. (3+3)

GEOS F317 O Paleontological Research and Laboratory Methods 2 Credits Offered Spring Even-numbered Years Introduction to the research methods in paleontology. This course covers the fundamentals of fossil preparation, digital techniques for imaging and analyzing paleontological data, and discusses the current theory and practice of curation of fossil material in a museum setting. Common
GEOS F318  Solid Earth Geophysics
3 Credits  Offered Alternate Fall
Concepts and techniques of geophysics including origin of the Earth, its structure, and large scale dynamic processes responsible for its surface features. Geophysical techniques including seismology, gravity and magnetic methods are discussed along with measurements of the earth's thermal structure, rotation rates, and tidal effects. Prerequisites: GEOS F101X and GEOS F112X or permission of the instructor. (1+3)

GEOS F322  Stratigraphy and Sedimentation (n)
4 Credits  Offered Fall
Analysis and interpretation of sedimentary rocks in stratigraphic successions based on comparison with features found in modern depositional environments. Application of the principles of facies analysis and litho-, bio-, sequence, and chronostratigraphy in surface and subsurface examples. Emphasis in the laboratory on interpretation of depositional environments based on lithofacies, biofacies and sedimentary structures and correlation of stratigraphic sequences using surface and subsurface data. Special fees apply. Prerequisites: GEOS F101X or GE F261; GEOS F112X. (3+3)

GEOS F330  The Dynamic Alaskan Coastline
3 Credits  Offered Fall
Mountains, rivers, glaciers, fjords, estuaries, deltas, tidal zones, sediments, nutrients, elements, habitats, fish. This class will provide an interdisciplinary perspective on the dynamic Alaskan coastal landscape from Glacier Bay to the Arctic. We will delve into the driving geological, geochemical, and oceanographic processes occurring along Alaska's coast and linkages to various marine ecosystems. Students will learn the fundamental physical and geochemical processes in the coastal zone using various locations in Alaska as examples. Field trip required. Prerequisites: Junior standing; MSL F111X or GEOS F101; CHEM F105X; PHYS F103X or PHYS F211X. (3+0)

GEOS F332  Ore Deposits and Structure
3 Credits  Offered Spring
Distribution and characteristics (especially mineralogy, morphology, and structure) of major mineral deposit types with background on structural techniques. Emphasis on application to mineral exploration and development. Laboratory exercises stress recognition of major mineral deposit types, zoning and grade patterns; and use of structural techniques in mineral deposit exploration/development. Special fees apply. Prerequisites: GEOS F262 or permission of instructor. (1+6)

GEOS F331 W  Field Geology (n)
8 Credits  Offered Summer Odd-numbered Years; As Demand Warrants
Practical experience in a variety of field settings collecting and presenting basic geologic field data. Includes field mapping of stratigraphic and structural problems using topographic maps, airborne and satellite images. Students will prepare geologic maps in a variety of tectonic and lithologic settings and develop written reports detailing the geologic history for several study areas. Exercises in collection and use of geophysical data as an aid to geologic mapping. Hiking off trails in a variety of terrains with up to 2,000 vertical feet of elevation gain per day. Course fees cover transportation and subsistence outside of Fairbanks. Entrance by preregistration only; apply through the department. Early registration recommended. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; GEOS F214; GEOS F225; GEOS F314; GEOS F322; junior standing; permission of instructor. (8+0)

GEOS F370  Sedimentary and Structural Geology for Petroleum Engineers (n)
4 Credits  Offered Fall Odd-numbered Years
Origin and distribution of sedimentary rocks including depositional environments, stratigraphic relationships and structures. Emphasis on the relationship to petroleum occurrences and petroleum exploration. Laboratory exercises on mapping, structural problems and facies relationships in petroleum exploration. Special fees apply. Prerequisites: GEOS F101X or GE F261. Cross-listed with PETE F370. (3+3)

GEOS F377 O  Ice in the Climate System
3 Credits  Offered Spring Even-numbered Years
Earth's cryosphere includes seasonal snow, permafrost, sea ice, mountain glaciers, and ice sheets. This course will cover the formation of each of these forms of snow and ice and their response to changing environmental conditions. Interdisciplinary perspectives allow study of the role snow and ice plays within the Arctic system (including atmosphere, ocean, and ecosystems), with an emphasis on Alaska. The cryosphere will also be placed in context of the global climate system. Oral intensive will include instructor and peer feedback. Special Fees apply. Prerequisites: PHYS F103X and MATH F200X or instructor permission. (2+3)

GEOS F401  Invertebrate Paleontology (n)
3 Credits  Offered Fall Even-numbered Years
Study of invertebrate phyla with extensive geologic records. Emphasis on principles of biostratigraphy and paleoecology, application to geologic problems and case studies from Alaska. Laboratory study of fossil assemblages with emphasis on stratigraphically significant groups. Design to complement GEOS F322. Special fees apply. Prerequisites: GEOS F315 or permission of instructor. Recommended: GEOS F322. (2-3)

GEOS F406  Volcanology
3 Credits  Offered Spring Even-numbered Years
Physical processes of volcanism. Topics include physical properties of magmas, eruption mechanisms, deposition mechanism and volcanic hazards. Emphasis on explosive volcanism and its products, pyroclastic rocks. Geochemistry and petrology will not be emphasized in this course. Prerequisites: Permission of instructor. (3+0)

GEOS F408  Photogeology (n)
2 Credits  Offered Spring Even-numbered Years
Use of topographic maps, geologic maps, aerial photographs and satellite imagery in interpretation of geological structures, landscapes, landforms and geomorphic processes. Techniques included are map compilation, photo mapping, statistical treatment of map data and composite mapping for planning. Special fees apply. Prerequisites: GEOS F304 or permission of instructor. (1+3)

GEOS F417  Introduction to Geochemistry
3 Credits  Offered Fall
Application of chemical principles and elemental/isotopic behavior to the study of the Earth. Topics include: aqueous geochemistry, high-temperature mineral-elemental chemistry, isotopic chemistry, kinetics and thermochemistry. Prerequisites: CHEM F106X; GEOS F322 or CHEM F202. Stacked with GEOS F618. (3+0)

GEOS F421  Sedimentology
3 Credits  Offered Spring Odd-numbered Years
Origin, classification, composition, transportation, deposition and diagenesis of sediments. Emphasis on sedimentary processes, sedimentary petrology and interpretation of ancient sedimentary rocks. Laboratory covers identification and description of hand specimens as well as techniques of textural and compositional analysis. Special fees apply. Prerequisites: GEOS F213 or permission of instructor. (2+3)

GEOS F422  Geoscience Applications of Remote Sensing (n)
3 Credits  Offered Fall
Remote sensing and its applications to geologic, environmental and physical sciences. Includes physical principles, digital image processing and hands-on project experience using satellite images for mapping and
change detection. Course is not available for audit. **Prerequisites: GEOS/GEOG F222 or permission of instructor.** (2+3)

**GEOS F428 Elementary Scanning Electron Microscopy**  
1 Credit  
Offered Spring  
Basic theory and operating procedures for scanning electron microscopy. Includes sample preparation, imaging and qualitative elemental analysis. Biological and nonbiological applications are covered. Graded Pass/Fail. Special fees apply. **Prerequisites: Junior standing or permission of instructor.** Stacked with GEOS F628. (0.5+1.5)

**GEOS F430 Statistics and Data Analysis in Geology**  
3 Credits  
Offered Spring  
Computer-supported geologic applications of elementary statistics, Markov chains, time-series analysis, trend-surface analysis, factor analysis, cluster analysis, discriminant analysis, and multiple regression. **Prerequisites: GEOS F225; STAT F200X.** (3+0)

**GEOS F431 Foundations of Geophysics**  
4 Credits  
Offered Fall  
Applications of continuum mechanics, heat flow theory, and potential theory to geophysical, geologic and glaciological problems. Topics such as postglacial rebound, non-Newtonian fluid flow, thermal convection, stress-relaxation, rheology of earth materials, gravity, and magnetics will be discussed. Emphasis will be placed on methods and tools for solving a variety of problems in global and regional geophysics and the geophysical interpretation of solutions. **Prerequisites: GEOS F318, MATH F302, and MATH F314 or permission of instructor.** Stacked with GEOS F631. (3+3)

**GEOS F436 Beyond the Mouse: Computer Programming and Automation for Geoscientists**  
2 Credits  
Offered Fall  
Basic concepts of computer programming and effective automation of tasks using a computer, with an emphasis on tools and problems common to the geosciences and other physical sciences. Use of MATLAB, shell scripting and various command line tools for data analysis, making scientific figures, maps and visualizations. Graded Pass/Fail. **Prerequisites: Senior standing or permission of the instructor.** Stacked with GEOS F636. (1+3)

**GEOS F438 Basin Analysis**  
3 Credits  
Offered Spring Odd-numbered Years  
Examines sedimentary basins as a record of subsidence. Review and discuss techniques used to image basin stratigraphy as well as the quantitative techniques which can be used to recover basin history. **Prerequisites: GEOS F322 or GEOS F370. Recommended: GEOS F314; GEOS F416; GEOS F418.** Stacked with GEOS F638. (3+0)

**GEOS F452 Quaternary Seminar**  
3 Credits  
Offered As Demand Warrants  
Learning about the Quaternary Period (relatively recent past — spanning the past two million years) in order to gain a better understanding of the landscape, biota and climate of the present day. Quaternary studies are concerned with the historical dimension of the natural sciences. This seminar will range widely over diverse interdisciplinary subjects of Quaternary interest, such as paleoclimatology, paleobiogeography, vertebrate paleontology and sedimentology. **Prerequisites: GEOS F304; GEOS F315; GEOS F322.** Cross-listed with ANTH F451. (3+0)

**GEOS F453 Palynology and Paleopalynology**  
4 Credits  
Offered Fall Even-numbered Years  
Survey of the evolutionary record of palynomorphs and their uses in biostratigraphy and paleoclimatology. Focus on evolution of palynomorphs from Precambrian to the present and concurrent evolutionary developments of producing plants. Use of Quaternary palynomorphs in reconstructing global climates. Labs involve collection of herbarium specimens, processing of fossil palynomorphs, study of type slides and a survey of palynomorphs from each geologic period. Special fees apply. **Prerequisites: BIOL F115X or GEOS F315; senior standing.** Stacked with GEOS F653. (3+3)

**GEOS F456 Paleopedology**  
3 Credits  
Offered Fall Even-numbered Years  
A survey course focusing on the recognition and use of paleosols (fossil soils) as paleoenvironmental indicators, stratigraphic markers and in paleogeographic reconstructions from Precambrian to Holocene. Examination of theories of soil formation, major soil processes and approaches to soil classification. Review of geochemical, mineralogical, morphological and micromorphological techniques. Use of paleosols for paleolandscape evolution and basin analysis. Geological, tectonic, archaeological and environmental applications of paleosols are discussed. **Prerequisites: GEOS F322 or GEOS F111 or NRM F380 or permission of instructor.** Stacked with GEOS F656. (3+0)

**GEOS F458 Geoscience Applications of GPS and GIS**  
3 Credits  
Offered Spring  
Aspects of GPS data collection, including hands-on experience with different GPS units, differential GPS methods, real-time and post processing corrections. Concepts of Geographic Information Systems (GIS). Working with real-world data and software tools such as Excel spreadsheets and ArcGIS, students will learn to organize and integrate multisource data, analyze spatial relationships and generate maps for digital and print media. Course is not available for audit. **Prerequisites: GEOS/GEOG F222 or permission of instructor.** Stacked with GEOS F658. (2+3)

**GEOS F463 O Glacial and Periglacial Geology**  
4 Credits  
Offered Fall Odd-numbered Years  
Glaciers and their geological processes. Emphasizes recognition and understanding of glacial landforms, sediments and stratigraphic relations, and implications for paleoclimatology and paleogeography. Includes non-glacial techniques and methods for interpreting Quaternary sediments. Special fees apply. **Prerequisites: COMM F131X or COMM F141X; GEOS F304.** Stacked with GEOS F663. (3+3)

**GEOS F475 W,O Presentation Techniques in the Geosciences**  
2 Credits  
Offered Spring  
Instruction and practice in oral and written communication skills specifically related to the geosciences. Oral and written presentation of abstracts, resumes, proposals and reports required. Works critically analyzed by instructor(s) and peers for both geoscience content and communication effectiveness. **Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing.** Stacked with GEOS F675. (1+3)

**GEOS F482 Geology Seminar**  
1 Credit  
A weekly seminar series on a geologic theme of current interest for a complete semester. Stacked with GEOS F682. (1+0)

**GEOS F483 Mass Extinctions, Neocatastrophism and the History of Life**  
3 Credits  
Offered Spring Odd-Numbered Years  
In-depth analysis of the literature regarding mass extinction, focusing on evidence for catastrophes and impact on the uniformitarian paradigm. Effects of mass extinctions on the evolutionary history of extant and fossil animals and plants will be explored through readings from classic and current literature in paleontology. The course will emphasize critical reading and application of scientific methods to reconstruction of geologically rapid events in deep time. **Prerequisites: GEOS F322 and GEOS F315W, or permission of instructor.** (3+0)

**GEOS F486 Vertebrate Paleontology**  
3 Credits  
Offered Spring Odd-numbered Years  
The study of vertebrate evolution through geologic time. Covers the temporal range, diversity and systematics of major vertebrate groups as documented in the fossil record, with an emphasis on current problems in vertebrate evolutionary patterns and process. Labs emphasize comparative morphology and identification of major vertebrate groups. **Prerequisites: BIOL F310 or BIOL F317 or GEOS F315 or permission of instructor.** Cross-listed with BIOL F486. (2+3)

### Course Descriptions

**GEOS F488 Undergraduate Research**

1 – 3 Credits

Advanced research topics from outside the usual undergraduate requirements. **Prerequisites:** Permission of instructor. **Recommended:** A substantial level of technical/scientific background. (1 – 3+0)

**GEOS F600 Introduction to X-ray Spectrometry**

3 Credits

Offered Fall

Theory of X-ray spectrometry, qualitative and quantitative elemental analysis. Mechanics of electron, microprobe and X-ray fluorescence analysis. Applicable to geologic, materials science and biologic samples. Required for use of the microprobe at UAF. Special fees apply. **Prerequisites:** PHYS F212X; STAT F300; GEOS F417; graduate standing in the sciences or engineering; or permission of instructor. (2+3)

**GEOS F602 Geophysical Fields**

3 Credits

Offered Spring Odd-numbered Years

Introduction to the application of potential theory and its associated mathematical tools to fields of geophysical interest, namely gravity, magnetics, and heat flow. Emphasis will be placed on methods and tools for solving a variety of problems in global and regional geophysics, and the geophysical interpretation of solutions. **Prerequisites:** MATH F421 and MATH F422 and permission of instructor; or graduate standing. (3+0)

**GEOS F604 Seismology**

3 Credits

Offered Spring Odd-numbered Years

Sources of ground motion including local mechanisms, magnitude and propagation of waves within the earth. Measurement of seismic data by analog and digital techniques and subsequent treatment of seismic data by various techniques including inversion. (3+0)

**GEOS F605 Geochronology**

3 Credits

Offered Fall Even-numbered Years

Application of the most commonly used radiometric dating methods to geologic problems. Fundamentals of the K-Ar, Rb-Sr, fission-track, U-Th-Pb and C methods. Laboratory training in K-Ar and fission-track dating techniques. **Prerequisites:** Graduate standing or permission of instructor. (3+0)

**GEOS F606 Volcanology**

3 Credits

Offered Fall Odd-numbered Years

Physical processes of volcanism. Topics include physical properties of magmas, eruption mechanisms, deposition mechanism and volcanic hazards. Emphasis on explosive volcanism and its products, pyroclastic rocks. Geochemistry and petrology will not be emphasized in this course. Special fees apply. **Prerequisites:** Graduate standing or permission of instructor. (3+0)

**GEOS F611 Advanced Structural Geology and Tectonics**

3 Credits

Offered Fall Even-numbered Years

An advanced course providing an in-depth treatment of specific aspects of structural geology and tectonics. Topics to be considered in different semesters include tectonics and sedimentation, mountain belts of the world, structural analysis, structural geology of a specific tectonic setting (such as fold-and-thrust belts or rifts), (E) active tectonics and topography, (F) structural interpretation of seismic reflection data, and (G) other special topics in structural geology or tectonics. **Prerequisites:** GEOS F314; graduate standing; or permission of instructor. Note: Course may be repeated for different topics up to three times for credit. (3+0)

**GEOS F612 Geologic Evolution of Alaska**

3 Credits

Offered Fall Even-numbered Years

An overview of the geological provinces of Alaska and neighboring continental and oceanic regions. Emphasis will be on the geologic history and tectonic evolution of Alaska. **Prerequisites:** GEOS F314 and GEOS F322; OR graduate standing. (3+0)

**GEOS F613 Global Tectonics**

3 Credits

Offered Fall Odd-numbered Years

An advanced course dealing with tectonic theory. Emphasis on plate tectonics with discussions of the evidence supporting the plate hypothesis and the interaction of plates both past and present. **Prerequisites:** GEOS F314 and GEOS F322; OR graduate standing. (3+0)

**GEOS F614 Ice Physics**

3 Credits

Offered Spring Even-numbered Years

A survey of the physics of ice. Topics will include the crystal structure and properties of ice, high pressure phases, hydrogen bonding, mechanical, thermal, electrical and acoustic properties, nucleation and growth, and optical and surface properties (adsorption, friction). **Prerequisites:** MATH F421 and MATH F422 and permission of instructor; OR graduate standing. Cross-listed with PHYS F614. (3+0)

**GEOS F615 Sea Ice**

3 Credits

Offered Fall Even-numbered Years

A study of sea ice in the natural environment including sea ice properties and processes on the micro-scale and the macro-scale, freezing processes and sea ice growth, ice decay and ice dynamics. Special fees apply. **Prerequisites:** Graduate standing or permission of instructor. (3+0)

**GEOS F616 Permafrost**

3 Credits

Offered Spring Odd-numbered Years

Study of the occurrence, thickness, environmental problems, and mass and energy transport of permafrost, including soil and ice interaction, freezing and thawing processes, and mechanical and electrical properties and processes. **Prerequisites:** Graduate standing or permission of instructor. (3+0)

**GEOS F617 Glaciers**

3 Credits

Offered Fall Odd-numbered Years

The mechanisms responsible for the existence, motion and variations of present-day glaciers and ice sheets, the paleoclimate information they contain and their role in engineering hydrology. Special fees apply. **Prerequisites:** Graduate standing or permission of instructor. (3+0)

**GEOS F618 Introduction to Geochemistry**

3 Credits

Offered Fall

Application of chemical principles and elemental/isotopic behavior to study of the Earth. Topics include: aqueous geochemistry, high-temperature mineral-elemental chemistry, isotopic chemistry, kinetics and thermochemistry. **Prerequisites:** CHEM F106X; GEOS F322 OR CHEM F331 and CHEM F332; graduate standing. Stacked with GEOS F417. (3+0)

**GEOS F619 Advanced X-ray Spectroscopy**

2 Credits

Offered As Demand Warrants

Advanced X-ray techniques. Topics include preparation of unusual samples, quantification methods, x-ray mapping and classification, and error analysis. Each student will develop a project to explore the the limits of x-ray analysis. Note: Course may be repeated three times for credit. Special fees apply. **Prerequisites:** GEOS F600 or permission of instructor. (1+3)

**GEOS F620 Geodynamics**

3 Credits

Offered Fall Even-numbered Years

Applications of continuum mechanics and heat flow theory to geophysical, geologic and glaciological problems. Topics such as postglacial rebound, non-Newtonian fluid flow, thermal convection, stress-relaxation and the rheology of earth materials will be discussed. **Prerequisites:** MATH F421 and MATH F422 and permission of instructor; OR graduate standing. (3+0)

**GEOS F621 Advanced Petrology**

4 Credits

Offered As Demand Warrants

A detailed treatment of various aspects of petrology. Specific topics to be considered in different semesters include metamorphic petrology, igneous petrology, and igneous and metamorphic petrography. Each time
GEOS F622  Digital Image Processing in the Geosciences 3 Credits  Offered Fall Odd-numbered Years
Image processing and analysis techniques as they relate to remote sensing and other applications in the geosciences. Apart from lectures and demonstrations, the advantages and drawbacks of different methods and approaches and their applicability to geoscience problems will be evaluated through exercises and a course project. (3+0)

GEOS F626  Applied Seismology 3 Credits  Offered Spring Even-numbered Years
Presentation of modeling techniques for earthquakes and Earth structure using wave propagation algorithms and real seismic data. Covers several essential theories and algorithms for applications in seismology, as well as the basic tools needed for processing and using recorded seismograms. Topics include the seismic wavefield (body waves and surface waves), earthquake moment tensors, earthquake location, and seismic tomography. Assignments require familiarity with vector calculus, linear algebra, and computational tools such as Matlab. Prerequisites: GEOS F431 or GEOS F631 or permission of instructor. (3+0)

GEOS F627  Inverse Problems and Parameter Estimation 3 Credits  Offered Spring Odd-numbered Years
A forward problem uses a model to make predictions; an inverse problem uses observations to infer properties of an unknown physical model. One example of an inverse problem is how to use seismometer recordings to infer the location of an earthquake. This course covers inverse theory and methods for solving inverse problems, including numerous examples arising in the natural sciences. Topics include linear regression, method of least squares, discrete ill-posed inverse problems, estimation of uncertainties, iterative optimization, and probabilistic (Bayesian) and sampling approaches. Assignments require familiarity with linear algebra and computational tools such as Matlab. Prerequisites: MATH F202X and MATH F314 or permission of instructor. (3+0)

GEOS F628  Elementary Scanning Electron Microscopy 1 Credit  Offered Spring
Basic theory and operating procedures for scanning electron microscopy. Includes sample preparation, imaging and qualitative elemental analysis. Biological and non-biological applications are covered. Graded Pass/Fail. Special fees apply. Prerequisites: Graduate standing or permission of instructor. Stacked with GEOS F428. (0.5+1.5)

GEOS F629  Geologic Hazards and Natural Disasters 3 Credits  Offered Spring Odd-numbered Years
Examination of hazardous geologic processes which produce natural disasters, including volcanoism, tectonism, flooding, etc. Includes scientific approaches to evaluating the magnitude and probability of risk from future hazardous events. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (3+0)

GEOS F631  Foundations of Geophysics 4 Credits  Offered Fall
Applications of continuum mechanics, heat flow theory, and potential theory to geophysical, geologic and glaciological problems. Topics such as postglacial rebound, non-Newtonian fluid flow, thermal convection, stress-relaxation, rheology of earth materials, gravity, and magnetics will be discussed. Emphasis will be placed on methods and tools for solving a variety of problems in global and regional geophysics and the geophysical interpretation of solutions. Prerequisites: GEOS F318, MATH F302, and MATH F314 or permission of instructor. Stacked with GEOS F431. (3+3)

GEOS F633  Environmental Geochemistry 3 Credits  Offered Spring Even-numbered Years
Advanced topics and methods in chemistry of aquatic and soil environments. Detailed treatment of the thermodynamic, kinetic and structural principles involved in the description and modeling of low-temperature aqueous geochemical systems. Particular emphasis will be placed on heterogenous interactions, including dissolution/precipitation, sorption and microbial processes, involved in the partitioning, transformation and transport of chemical species in the environment. Prerequisites: ENVE F641 or GEOS F618 or permission of instructor. Cross-listed with CHEM F609. (3+0)

GEOS F635  Advanced Economic Geology 1 – 4 Credits  Offered As Demand Warrants
An advanced course providing an in-depth treatment of various aspects of economic geology. Specific topics will be considered in different semesters. They include ore microscopy, industrial minerals, economics of minerals, geochemistry of ore deposits, modern fossil fuel exploration and detailed study of particular ore deposit type. Each time the course is offered, only one topic will be presented. May be repeated for credit. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (1 – 4+0 – 3)

GEOS F636  Beyond the Mouse: Computer Programming and Automation for Geoscientists 2 Credits  Offered Fall
Basic concepts of computer programming and effective automation of tasks using a computer, with an emphasis on tools and problems common to the geosciences and other physical sciences. Use of MATLAB, shell scripting and various command line tools for data analysis, making scientific figures, maps and visualizations. Graded Pass/Fail. Prerequisites: Graduate standing. Stacked with GEOS F436. (1+3)

GEOS F637  Rock-Forming Minerals 4 Credits  Offered Spring Odd-numbered Years
Examination of the rock-forming minerals, their structure and composition, application of mineral data to problems in geochemistry, petrology and ore deposits. Laboratory involves analysis of minerals by various analytical techniques. Special fees apply. Prerequisites: GEOS F417 and permission of instructor; OR graduate standing. (3+3)

GEOS F638  Basin Analysis 3 Credits  Offered Spring Odd-numbered Years
Examines sedimentary basins as a record of subsidence. Review and discuss techniques used to image basin stratigraphy as well as the quantitative techniques which can be used to recover basin history. Prerequisites: Graduate standing or permission of instructor. Stacked with GEOS F438. (3+0)

GEOS F639  InSar and its Applications 3 Credits  Offered As Demand Warrants
Introduction to the concepts of repeat-pass spaceborne SAR interferometry. Practical use of the technique to derive displacements of the solid earth, glaciers and ice sheets to a precision of a few centimeters and accurate digital elevation models of the earth's surface. Prerequisites: Basic remote sensing course or permission of instructor. Cross-listed with PHYS F639. (2+2)

GEOS F640  Petrology of Carbonate Rocks 4 Credits  Offered Spring Even-numbered Years
Origin, depositional environments, diagenesis and classification of limestones, dolostones and related rocks. Special fees apply. Prerequisites: Graduate standing or permission of instructor. (3+3)

GEOS F643  Sandstone Depositional Environments 3 Credits  Offered Fall Even-numbered Years
Sedimentary depositional environments treating the hydrodynamics, sediment dispersal patterns and preservation potential of modern terrigenous clastic depositional environments and criteria for recognizing their ancient counterparts in the geologic record. Special fees apply. Prerequisites: GEOS F322 and GEOS F421; OR graduate standing. (3+0)

GEOS F647  Advanced Sedimentology and Stratigraphy 3 Credits  Offered Spring Even-numbered Years
Various topics in sedimentology and stratigraphy. Specific offerings to be presented at various times include sequence stratigraphy and sea-level
GEOS F651 Quaternary Seminar
3 Credits
Offered As Demand Warrants
Seminar about the Quaternary Period (relatively recent past — spanning the past two million years) in order to gain a better understanding of the landscape, biota and climate of the present day. Quaternary studies are concerned with the historical dimension of the natural sciences. This seminar will range widely over diverse interdisciplinary subjects of Quaternary interest, such as paleoclimatology, paleobiogeography, vertebrate paleontology and sedimentology. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ANTH F651. (3+0)

GEOS F653 Palynology and Palaeopalynology
4 Credits
Offered Even-numbered Years
Survey of the evolutionary record of palynomorphs and their uses in biostratigraphy and paleoclimatology. Focus on evolution of palynomorphs from Precambrian to the present and concurrent evolutionary developments of producing plants. Use of Quaternary palynofloras in reconstructing global climates. Labs involve collection of herbarium specimens, processing of fossil palynomorphs, study of type slides and a survey of palynofloras from each geologic period. Special fees apply. Prerequisites: Graduate standing or permission of instructor. Stacked with GEOS F453. (3+3)

GEOS F654 Visible and Infrared Remote Sensing
3 Credits
Offered Spring Even-numbered Years
In-depth coverage of the principles, physics, sensor technology, processing and applications of remote sensing in the visible and infrared region, including but not limited to electromagnetic spectrum, radiation laws, spectral signatures, atmospheric interactions, temperature emissivity estimation, analysis and feature extraction from data sets. The laboratory portion of the course will provide hands-on experience on special processing techniques, and the possibility of using these techniques for a student-defined term project in areas of geology, volcanology, glaciology, hydrology, environmental sciences, etc. Prerequisites: GEOS F422 or permission of instructor. (3+0)

GEOS F655 Tectonic Geodesy
3 Credits
Offered Spring Even-numbered Years
Introduction to modern space geodetic methods and details their application to the study of active earth processes such as plate tectonics, fault mechanics and volcanology. Includes space geodesy methods such as global positioning system, as standard geophysical tools for the study of earthquakes, active tectonics and volcanology. Prerequisites: MATH F314; MATH F421; MATH F422; graduate standing; or permission of instructor. (3+0)

GEOS F656 Paleopedology
3 Credits
Offered Fall Even-numbered Years
A survey course focusing on the recognition and use of paleosols (fossil soils) as paleoenvironmental indicators, stratigraphic markers and in paleogeographic reconstructions from Precambrian to Holocene. Examination of theories of soil formation, major soil processes and approaches to soil classification. Review of geochemical, mineralogical, morphological and micromorphological techniques. Use of paleosols for paleolandscape evolution and basin analysis. Geological, tectonic, archaeological and environmental applications of paleosols are discussed. Prerequisites: Graduate standing or permission of instructor. Cross-listed with GEOS F456. (3+0)

GEOS F657 Microwave Remote Sensing
3 Credits
Offered Spring Even-numbered Years
The principles and applications of active and passive microwave remote sensing with emphasis on spaceborne remote sensing of the Earth’s atmosphere, land and oceans. The laboratory section will provide hands-on experience on special processing techniques, and the possibility of using these techniques for a student-defined term project in areas of geology, volcanology, glaciology, hydrology, environmental sciences, etc. Prerequisites: GEOS F422 or equivalent. (2+2)

GEOS F658 Geoscience Applications of GPS and GIS
3 Credits
Offered Spring
Aspects of GPS data collection, including hands-on experience with different GPS units, differential GPS methods, real-time and post processing corrections. Concepts of Geographic Information Systems (GIS). Working with real-world data and software tools such as Excel spreadsheets and ArcGIS, students will learn to organize and integrate multisource data, analyze spatial relationships and generate maps for digital and print media. Course is not available for audit. Prerequisites: GEOS/GEOG F222 or permission of instructor Stacked with GEOS F458. (2+3)

GEOS F663 Glacial and Periglacial Geology
4 Credits
Offered Fall Odd-numbered Years
Glaciers and their geological processes. Emphasizes recognition and understanding of glacial landforms, sediments and stratigraphic relations, and implications for paleoclimatology and paleogeography. Includes non-glacial techniques and methods for interpreting Quaternary sediments. Special fees apply. Prerequisites: GEOS F304 or graduate standing. Stacked with GEOS F463. (3+3)

GEOS F666 Scientific Teaching
2 Credits
Offered Spring Even-numbered Years
This course explores methods for teaching science at the university level. Emphasis is placed on methods of course design, instructional techniques, assessment and course management that have been shown by research to improve student learning. This course is intended for graduate students in the sciences who have an interest in improving their teaching skills. The course format will be a mixture of discussion, workshops and seminars. If the course is over-enrolled, priority will be given to teaching assistants who are assigned to teach large, introductory level (100 or 200 level) courses during the semester they are taking this course. Prerequisites: Graduate standing or permission of the instructor. Cross-listed with CHEM F666 and BIOL F666 (2+0)

GEOS F670 Selected Topics in Volcanology
1 – 3 Credits
Offered Fall
Survey course in subjects relating to volcanology. Possible subjects include, but are not limited to, eruption dynamics, geophysics of eruptions, volatiles in volcanic systems, modeling volcanic systems. May be repeated for credit. Prerequisites: GEOS F621 and GEOS F417; OR graduate standing. (1 – 3+0)

GEOS F671 Volcano Seismology
3 Credits
Offered Spring Odd-numbered Years
Survey of seismic behavior of volcanoes. Topics include instrumentation, terminology, swarms and their attributes, high-frequency events, volcanic explosions, volcanic tremor, attenuation and velocity structure, cycles of activity, eruption forecasting, detection of magma chambers, case studies and selected topics. Oral and written student presentations will be required. Prerequisites: Graduate standing or permission of instructor. (3+0)

GEOS F675 Presentation Techniques in the Geosciences
2 Credits
Offered Spring
Development of oral and written presentation skills in the geological sciences with emphasis on the critical analysis of both peers and the instructor(s). Oral and written presentations of abstracts, resumes, proposals and reports. Prerequisites: Graduate standing. Stacked with GEOS F475. (1+3)

GEOS F676 Remote Sensing of Volcanic Eruptions
3 Credits
Offered As Demand Warrants
Focuses on the use of satellite images to detect, monitor and mitigate volcanic hazards, and to understand eruption processes. Thermal anomalies, volcanic clouds and surface morphological features will be discussed in the lecture and test cases analyzed in the laboratory. Satellite data
include GOES, AVHRR, MODIS, ASTER, Landsat and SAR. Course may be repeated twice for credit. Recommended: GEOG F422 or equivalent Remote Sensing Class or permission of instructor. (2+3)

**GEOG F682 Geology Seminar**

1 Credit

A weekly seminar series on a geologic theme of current interest for a complete semester. Prerequisites: Graduate standing or permission of instructor. Stacked with GEOG F482. (1+0)

**GEOG F686 Vertebrate Paleontology**

3 Credits

Offered Spring Odd-numbered Years

The study of vertebrate evolution through geologic time. Covers the temporal range, diversity and systematics of major vertebrate groups as documented in the fossil record, with an emphasis on current problems in vertebrate evolutionary pattern and process. Labs emphasize comparative morphology and identification of major vertebrate groups. Prerequisites: BIOL F310 or BIOL F317 or GEOG F315 or permission of instructor. Cross-listed with BIOL F486; GEOG F486. (2+3)

---

**GERMAN**

**GER F101 Elementary German I (h)**

5 Credits

Introduction to the German language and culture: development of competence and performance in the language through understanding, recognition and use of linguistic structures; increasing emphasis on listening comprehension and speaking; basic vocabulary of approximately 1,000 words; exploration of the cultural dimension, implicitly through language, and explicitly through texts and audiovisual materials. (5+0)

**GER F102 Elementary German II (h)**

5 Credits

Introduction to the German language and culture: development of competence and performance in the language through understanding, recognition and use of linguistic structures; increasing emphasis on listening comprehension and speaking; basic vocabulary of approximately 1,000 words; exploration of the cultural dimension, implicitly through language, and explicitly through texts and audiovisual materials. Prerequisites: GER F101 or equivalent. (5+0)

**GER F201 Intermediate German I (h)**

3 Credits

Continuation of GER F102. Increasing emphasis on reading ability and cultural material. Conducted in German. Prerequisites: GER F102 or equivalent. (3+0)

**GER F202 Intermediate German II (h)**

3 Credits

Continuation of GER F201. Increasing emphasis on reading ability and cultural material. Conducted in German. Prerequisites: GER F201 or equivalent. (3+0)

**GER F301 W,O Advanced German (h)**

3 Credits

Discussions and essays on more difficult subjects or texts. Translations, stylistic exercises and special grammatical problems. Conducted in German. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; GER F301 or equivalent. (3+0)

**GER F302 W,O Advanced German (h)**

3 Credits

Discussions and essays on more difficult subjects or texts. Translations, stylistic exercises and special grammatical problems. Conducted in German. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; GER F301 or equivalent. (3+0)

**GER F311 Studies in the Culture of the German Speaking World (h)**

3 Credits

Offered Spring Even-numbered Years

Study of the cultures of the German-speaking world. Students may repeat course for credit if topic varies. Note: Course may be repeated for credit if topic varies. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; GER F301 or equivalent; junior standing; or permission of instructor. (3+0)

**GER F312 Studies of German Literature (h)**

3 Credits

Offered Spring Odd-numbered Years

Intensive study of authors, literary texts, movements, genres, themes and/or critical approaches. Student may repeat course for credit when topics vary. Note: Course may be repeated for credit if topic varies. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; GER F302 or equivalent; junior standing; or permission of instructor. (3+0)

---

**HEALTH**

**HLTH F100 Medical Terminology**

3 Credits

Study of medical terminology including analysis and origin of word roots, prefixes and suffixes. Understanding the word components, students will be able to build, spell and define medical words. Content will be presented by body systems focusing on terms for anatomy, diagnostic, laboratory and medical specialties. Includes use of medical dictionary, word pronunciation and abbreviations. Designed for health care professionals. (3+0)

**HLTH F105 Introduction to Health Careers**

2 Credits

Introduction to health careers and the psychology of patient care. Roles and responsibilities of different members/functional units of the health care team; information on related job and educational opportunities; needs and roles of health providers in rural and urban Alaska settings. Prerequisites: High school graduation or GED or permission of program coordinator. (2+0)

**HLTH F106 Human Behavior in Health Care (s)**

3 Credits

Discussion of general concepts in human behavior and the specialized psychological issues when dealing with patients and loved ones in health care settings. Students perform self-evaluation and survey other cultures to allow examination of perceptions, individual biases, beliefs and their impacts on behavior. (3+0)

**HLTH F107 Nurse Aide Training**

9 Credits

Teaches basic nursing skills necessary to assist the nurse and be an efficient health care team member. Presents positive communication skills while providing care of residents' physical and emotional needs in a variety of health care settings. Content satisfies the theory and clinical skills needed to take the State of Alaska exam to become a Certified Nurse Aide. Prerequisites: High school graduation or GED; Accuplacer reading score of 65 or permission of instructor. Student must be in good physical condition and have the following immunizations: Chikenpox, Hepatitis B series, two MMRs, a PPD two-step testing process within previous 12 months of the clinical component of class. (5+8)

**HLTH F110 Professional Skills for the Workplace**

2 Credits

Presents skills to ensure success for the professional secretary, receptionist, medical worker and others. Includes interview skills, business manners, customer service and dressing for success. (2+0)

**HLTH F111 Personal Care Attendant Training**

4 Credits

Designed to train personal care attendants in basic care necessary to assist nurses and to be efficient health care team members. It qualifies
students for state certificate of completion as personal care attendants. Eighty-eight (88) hours of class, lab and clinical practice is included. Requires criminal background check. Prerequisites: Proof of immunity to chicken pox, MMR and Hepatitis B; negative PPD within the last year; high school graduation or GED or 10th grade reading level by exam. Students must be in good physical condition. Co-requisites: Health care provider CPR and First Aid card. (2.5+3)

**HLTH F113**  
**Personal Care Attendant to Nursing Assistant Bridge**  
5 Credits  
Offered as Demand Warrants  
Trains personal care attendants to become Certified Nurse Assistants. Students build upon basic PCA skills and experience. Provides the additional classroom, laboratory and clinical hours necessary to sit for the state Certified Nurse Assistant exam. Prerequisites: High school graduation or GED; a 10th grade reading level by exam; HLTH F111 or on the job agency training plus two years experience and instructor approval. Students must be in good physical condition, have current immunizations, and health care provider CPR card. (3+4)

**HLTH F114**  
**Fundamentals of Anatomy and Physiology**  
4 Credits  
Provides a basic understanding of human anatomy and physiology. Recommended for individuals interested in health careers or students desiring an introduction to anatomy and physiology prior to taking in-depth course work in this field. Recommended: HLTH F100; high school biology and chemistry. (3+3)

**HLTH F116**  
**Mathematics in Health Care**  
3 Credits  
Practical application of mathematics in health care, including arithmetic review, percentages, interest, ratio, proportion, dimensional analysis, metric system, medication calculation, graphs, charts and measurement instruments. Prerequisites: DEV M050 or placement in DEV M060 or higher. (3+0)

**HLTH F118**  
**Medical Law and Ethics**  
2 Credits  
In-depth coverage of legal and ethical issues encountered in health care settings. Students will gain a practical knowledge of legal and ethical principles and application of these principles in health care settings. (2+0)

**HLTH F122**  
**First Aid and CPR**  
1 Credit  
Provides instruction on emergency first aid theory and techniques. Students acquire knowledge and skills necessary for dealing with emergencies in a medical/dental office and other clinical settings. Includes First Aid Certification and health care provider (adult, child and infant) CPR Certification. Graded Pass/Fail. (0.5+1)

**HLTH F130**  
**Medical Office Technology**  
3 Credits  
Offered Spring  
Introduces current and potential health care workers to computers in the medical office. Will study medical office management software and electronic health record systems. Includes discussion of computer hardware and software, working with operating systems, keyboarding, word processing, spreadsheets, presentation creation and formatting, and database concepts. (3+0)

**HLTH F132**  
**Administrative Procedures I**  
2 Credits  
Administrative responsibilities performed by medical/dental assistants and other health care providers in outpatient facilities. Includes duties of the office assistant, receptionist or secretary. Focus on reception, telephone procedures, public relations and professionalism. Prerequisites: High school graduation or GED or permission of instructor. (2+0)

**HLTH F135**  
**ICD-9 Coding**  
3 Credits  
In-depth study of the International Classification of Diseases (ICD), designed for classification of patient morbidity and mortality information for statistical purposes and for the indexing of health records for the health care profession. Prerequisites: HLTH F112 or both HLTH F100 and HLTH F114. (3+0)

**HLTH F142**  
**Clinical Procedures I**  
4 Credits  
Introduction to the theoretical basis and performance competencies for the clinical duties performed by medical assistants in outpatient facilities. Includes care of patients in the examining room, use and care of medical instruments and supplies, assisting physicians with clinical procedures, administering medications and introduction to clinical laboratory procedures. Special fees apply. Prerequisites: HLTH F100; HLTH F116; HLTH F122 or current First Aid & CPR. Documentation of positive antibody titer for hepatitis B; current immunizations for measles, mumps, rubella, hepatitis A, varicella and tetanus; negative TB test within the past year and departmental approval. (3+2)

**HLTH F203**  
**Science of Nutrition**  
3 Credits  
Introduction to the principles of nutrition and its relationship to the life cycle. Focus on the importance nutrition plays in personal health and how to objectively evaluate nutritional intake using scientifically sound resources. Also available via e-Learning and Distance Education. (3+0)

**HLTH F207**  
**Medication Aide Course**  
6 Credits  
Basic pharmacology and medication administration for certified nurse aides and personal care attendants. Includes drug delivery routes, classifications, effects and side effects. Communication principles, ethics, nursing process, and body structure and function will be reviewed. This course prepares the CNA to assist the RN or LPN to pass medications in health care settings as approved by the Alaska Board of Nursing and to sit for the National Council State Board of Nursing Medication Aide Certification Exam. The CNA student is not required to sit for the NCSBN MA Examination to pass the course. It will prepare the PCA to assist in the delivery of medications in ALH and private homes. Prerequisites: Current license as a CNA or PCA by the State of Alaska, have at least one full year of experience as a CNA/PCA, supply three letters of reference from healthcare professionals, Accuplacer math score of 48 or higher, be 18 years of age or older, be immunized as required by the training site/facility. (4+4)

**HLTH F208**  
**Human Diseases**  
3 Credits  
Introduction to the study of human diseases. Pathogenesis, etiology and predisposing factors will be examined. The most common diseases and disorders of each body system are presented along with a review of the pertinent anatomy and physiology. Includes the effects of aging on the system and the relationship of aging to disease. Prerequisites: HLTH F100 or permission of instructor. (3+0)

**HLTH F234**  
**Administrative Procedures II**  
4 Credits  
Office management and financial procedures used in medical offices. Includes medical financial recordkeeping systems and computerized office management systems. Includes ICD-9, CPT coding system, patient insurance billing/reimbursement procedures, the demonstration of computational skills in accounts payable/accounts receivable, and office management in the health care setting. Prerequisites: CIOS F150; HLTH F100; HLTH F132; test scores sufficient for placement in ENGL F111X; or permission of instructor. (3+2)
HLTH F235  Medical Coding
4 Credits
The current procedural terminology (CPT) and the international classification of diseases (ICD) systems used in the medical setting. Examines the medical and legal uses of the CPT and ICD systems in inpatient and outpatient medical settings, urgent care settings, billing departments and ancillary medical professions. Prepares students to take national certification exams. Recommended: HLTH F100; HLTH F132; HLTH F208; HLTH F234. (4+0)

HLTH F236  Outpatient Health Care Reimbursement
3 Credits
Outpatient reimbursement issues including documentation, insurance carriers, schedules and payment profiles. Collection strategies and legal issues, and the importance of educating the patient to the financial policies of the practice. Prerequisites: HLTH F132; concurrent HLTH F234; or permission of instructor. (3+0)

HLTH F237  Inpatient Health Care Reimbursement
3 Credits
Rules and regulations governing the reimbursement of inpatient and hospital coding. Includes HIPAA regulations, Medicare, Medicaid, third party billing, and the legal and ethical guidelines of inpatient billing. Prerequisites: HLTH F132; HLTH F135; HLTH F234; or permission of instructor. (3+0)

HLTH F244  Clinical Procedures II
4 Credits
Offered As Demand Warrants
Theoretical basis and performance competencies for the clinical duties performed by medical assistants in outpatient facilities. Includes urinalysis, electrocardiograph, subcutaneous and intramuscular injections, routine laboratory procedures, venipuncture, emergencies and assisting with specialty examinations. Special fees apply. Prerequisites: HLTH F100; HLTH F114 or BIOL F100X; HLTH F116; HLTH F142; HLTH F122 or current First Aid & CPR. Documentation of positive antibody titer for hepatitis B, current immunizations for measles, mumps, rubella, hepatitis A, varicella and tetanus; negative TB test within the past year and departmental approval. (3+2)

HLTH F245  Phlebotomy Principles and Methods
3 Credits
Proper blood collection and handling techniques, function of the circulatory system, quality control in the medical laboratory, universal precautions, asepsis and disinfection, OSHA regulations, basic laboratory testing and microbiology concepts will be addressed. Completion of this course, followed by completion of the phlebotomy externship, HLTH F265, prepares students for the national ASCP phlebotomy technician certification exam. Special fees apply. Prerequisites: HLTH F112 or current First Aid and CPR. Placement into ENGL F111X; DEV M060. Documentation of positive antibody titer for hepatitis B; current immunization to measles, mumps, rubella, hepatitis A, varicella, and tetanus; negative TB test within the past year and departmental approval. (2.5+1)

HLTH F247  Introduction to Pharmacology
2 Credits
Introduction to the use of therapeutic medications in medical settings. Includes classifications of drugs, clinical use and adverse effects of the 50 most commonly prescribed medications. Prerequisites: HLTH F100; HLTH F114 or BIOL F100X. (2+0)

HLTH F261  Medical/Dental Office Reception Practicum
2 Credits
Offered As Demand Warrants
Provides the student with 80 hours of practicum work in a medical or dental office, with additional time required for meeting with the campus practicum coordinator. Students will be expected to perform any and all duties of a receptionist in a medical/dental office setting. Satisfies practicum experience requirement for Medical/Dental Reception certificate. May be used to partially satisfy practicum experience requirement of Medical Assistant A.A.S. degree certificate. Graded Pass/Fail.

Prerequisites: HLTH F122; HLTH F132; HLTH F234; enrollment by special permission only. (0+3)

HLTH F265  Phlebotomy Externship
3 Credits
Clinical experience in phlebotomy and lab assisting. Requires 120 hours of hands-on experience in the clinical setting and eight hours in extern seminars. Progress is assessed by work supervisor and externship coordinator. Satisfies the clinical externship requirement for certification as a phlebotomist by the American Society of Clinical Pathology. Graded Pass/Fail. Prerequisites: HLTH F245; enrollment by special permission only. (0+8.5+0.5 – 1)

HLTH F267  Medical Assisting Practicum Completion
2 – 4 Credits
Provides 100 hours of practicum work in the back office of a medical clinic for medical assisting students. Additional contact time required for meeting with the campus practicum coordinator. HLTH F267 combined with HLTH F261 provides experience equivalent to that in HLTH F268, and satisfies the practicum requirement for the medical assistant certificate and AAS. Graded Pass/Fail. Prerequisites: HLTH F122; HLTH F132; HLTH F234; HLTH F142; HLTH F244; enrollment by special permission only. (0+0+8)

HLTH F268  Medical Assisting Practicum
4 Credits
Provides the student with 180 hours of hands-on practicum work in a medical office, with additional time required for meeting with the campus practicum coordinator. This is the last course in the medical assistant A.A.S. degree and certificate program for students who have not taken any specialized certificates during their course of study. Students will be expected to perform any and all duties of a medical assistant in a health care setting. The combination of HLTH F261 and HLTH F267 may be substituted for HLTH F268 to satisfy the degree requirements. Graded Pass/Fail. Prerequisites: HLTH F122, HLTH F132, HLTH F142, HLTH F234, HLTH F244; enrollment by special permission only. (0+0+12)

HIGH LATITUDE RANGE MANAGEMENT

HLRM F120  History of Domesticated Alaskan Ungulates
1 Credit
Offered Spring
Review the history of domesticated ungulate populations, free-ranging and fenced systems, in Alaska beginning from the 1890s to present. Emphasis will be placed on traditional activities on the Seward Peninsula. Prerequisites: ENGL F111X or permission of instructor. (1+0)

HLRM F130  Research Field Logistics
2 Credits
Offered Summer
Learn the skills, techniques, and equipment used in remote scientific fieldwork in Alaska. Course includes methods for processing and storing animal/plant tissue samples, orienteering, navigation, GPS, wilderness first aid, arctic survival, bear safety, boat safety, as well as ATV, boat, and snowmachine operation, maintenance and repair. (1+3)

HLRM F140  High Latitude Range Management
2 Credits
Offered Fall
Policies and terminology of range and range management specific to Alaska and the Arctic. Review current vegetation inventory techniques used by federal and state agencies. Identify and sample Alaska forage plants. Examine range production systems in Alaska for a variety of species; domesticated and wild. Development of a high latitude range management plan. Prerequisites: BIOL F104X OR (BIOL F104 and BIOL F104L); NRM F101; or permission of instructor. (1.5+0+1.5)

HLRM F150  Alaskan Ungulate Husbandry
2 Credits
Offered Summer
Students will be introduced to management skills, facilities design and nutritional needs for domesticated ungulates in Alaska. Provides
exposure and examines traditional knowledge combined with contemporary research in herding and husbandry for open range and fenced systems. Field trips to reindeer, elk, bison, and/or cattle operations will demonstrate husbandry techniques and data collection procedures.

**Prerequisites:** HLRM F140 or permission of instructor. (1.5+0+1.5)

**HLRM F160**  
**Meat Production**  
2 Credits  
Offered Spring  
A study of the meat animal processing sequence. The production of meat-type domesticated ungulates in Alaska and the science and technology of their conversion to food, value-added products and by-products. A review of the current state regulations and methods on proper field slaughtering, and the preparation, handling and storage of meat will be introduced.

**Prerequisites:** HLRM F140 or permission of instructor. (1.5+0+1.5)

**HLRM F170**  
**Health Issues in Domesticated Ungulates**  
2 Credits  
Offered Fall  
Ruminant anatomy and physiology specific to high latitude ungulates. Overall health issues and problem solving techniques for domesticated ungulates, including a review of indicators for disease or parasitic infections. Vaccinations and Rx treatments; including use in food animals. Field necropsy techniques and blood and tissue collection procedures. State monitoring and identification policies.

**Prerequisites:** HLRM F150 or permission of instructor. (1.5+0+1.5)

**HLRM F201**  
**Field Techniques for Range Management**  
2 Credits  
Offered Summer  
Provides hands-on instruction in field and laboratory techniques in range evaluation for domesticated ungulates. Basic methods for sampling and studying grazing systems at the high latitudes will be introduced. Students will participate in data collection and analysis procedures as part of an independent research project.

**Prerequisites:** ABUS F135 or MATH F103X; HLRM F130; HLRM F140; or permission of instructor. (1+3)

**HLRM F205**  
**Report Writing in Range Management**  
2 Credits  
Offered Fall  
Provides the basic technical reporting methods, writing, and research skills necessary to analyze, interpret, and document field and laboratory data. Incorporating field data collected in HLRM F201 and the skills, knowledge, and techniques learned in other required courses, the student will produce a written technical report and make a presentation.

**Prerequisites:** ENGL F111X; HLRM F201; or permission of instructor. (2+0)

### HISTORY

**HIST F100X**  
**Modern World History (s)**  
3 Credits  
Significant aspects of modern world history, using either a chronological or an issues approach to be announced when offered. The chronological approach will examine major global developments in the twentieth century, while the issues approach will deal with such aspects of the modern world as revolutionary change, the interaction of peoples, ideology and the historical background of significant contemporary events. Also available via e-Learning and Distance Education.

**Prerequisites:** Placement in ENGL F111X or higher; or permission of instructor. (3+0)

**HIST F101**  
**Western Civilization (s)**  
3 Credits  
Offered Fall  
Origins and major political, economic, social and intellectual developments of western civilization to 1500. Also available via e-Learning and Distance Education.

**HIST F102**  
**Western Civilization (s)**  
3 Credits  
Offered Spring  
Major political, economic, social and intellectual developments of western civilization since 1500. Also available via e-Learning and Distance Education.

**HIST F105**  
**Introduction to the History and Culture of the Seward Peninsula (s)**  
1 Credit  
Offered As Demand Warrants  
Cultural history of the Seward Peninsula peoples for the last 10,000 years using physical anthropology, ethnography, ethnohistory, linguistics, archaeology, social anthropology, ecology and climatology. Eskimo and Euro-American cultures which have existed in western Alaska. Cross-listed with ANTH F105. (1+0)

**HIST F110**  
**History of Alaska Natives (s)**  
3 Credits  
Offered Fall  
The history of Alaska Natives from contact to the signing of the Land Claims Settlement Act. Cross-listed with ANS F111. (3+0)

**HIST F115**  
**Alaska, Land and Its People (s)**  
3 Credits  
Offered Spring Even-numbered Years  
A survey of Alaska from earliest days to present, its peoples, problems and prospects. (3+0)

**HIST F121**  
**East Asian Civilization (s)**  
3 Credits  
Offered Fall Odd-numbered Years  
Origin and development of the civilizations of China, Japan and Korea from the beginning to 1800, with emphasis on traditional social, political and cultural institutions. (3+0)

**HIST F122**  
**East Asian Civilization (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
East Asia from 1800 to the present with emphasis on patterns of social cohesion, transition and revolutionary change. (3+0)

**HIST F124**  
**African Studies: Introduction to Contemporary Sub-Saharan Africa (s)**  
3 Credits  
Offered As Demand Warrants  
A thematic overview of (sub-Saharan) Africa, covering it’s geography and environment, early human evolution, social, economic and political diversity, early external influences, European Imperialism and the African responses, transatlantic slavery and its impact, African struggle for independence. Focuses on the challenges and achievements, future trends and prospect in the context of Africa today. (3+0)

**HIST F131**  
**History of the U.S. (s)**  
3 Credits  
Offered Fall  
The discovery of America to 1865. Colonial period, revolution, formation of the constitution, western expansion, Civil War. Also available via e-Learning and Distance Education.

**HIST F132**  
**History of the U.S. (s)**  
3 Credits  
Offered Spring  
From the reconstruction to the present. Also available via e-Learning and Distance Education.

**HIST F202**  
**History of Women in America (s)**  
3 Credits  
Offered Fall Odd-numbered Years  
A chronological approach to the history of women in America. Introduction to major issues of concern to historians of women, as well as different approaches utilized in analysis of women’s past; consideration of multiracial backgrounds of American women. Cross-listed with WGS F202. (3+0)

**HIST F244**  
**Movies: Mirror of the World (s)**  
3 Credits  
Offered As Demand Warrants  
World history using the medium of film to highlight cultural, economic and political conditions of each country. Films will be from the USA, Mexico, Central America, South America, England, France, Russia, Turkey, India, China, Japan, Australia, Africa and the Arctic.

**HIST F275**  
**Perspectives on History (s)**  
3 Credits  
Offered Fall  
An introduction to the variety of historical approaches and to the “uses” of history. (Course is required for history majors and should be taken
soon after declaring a History major as possible; non-majors are strongly discouraged from taking this course.) (3+0)

**HIST F305**  
**Europe: 1789 – 1850** (s)  
3 Credits  
Offered Fall Even-numbered Years  
The French Revolution, Napoleon, the Industrial Revolution, the Revolutions of 1848, their impact on political, economic, social and intellectual history. **Prerequisites:** Junior standing or permission of instructor. (3+0)

**HIST F306**

3 Credits  
Offered Fall Odd-numbered Years  
Europe through two world wars, the Russian Revolutions the depression, the development of fascism, the evolution of Russian communism. **Prerequisites:** Junior standing or permission of instructor. (3+0)

**HIST F316**  
**Europe Since 1945** (s)  
3 Credits  
Offered Spring Even-numbered Years  
Germany and problems of the peace, the Soviet Union and the satellites, the Cold War, economic problems and recovery, European integration and the common market, Europe and the world. **Prerequisites:** Junior standing or permission of instructor. Cross-listed with WGS F325. (3+0)

**HIST F325**  
**The History of Sexuality** (s)  
3 Credits  
Offered Summer  
The history of sexuality from a worldwide comparative perspective. We will consider theories and debates about the history of sexuality, and then focus on the history of sexuality in selected times and places, with an emphasis on the modern period. **Recommended:** ENGL F211X or ENGL F213X; HIST F100X; or permission of instructor. Cross-listed with JRN F368. (3+0)

**HIST F330**  
**Modern China** (s)  
3 Credits  
Offered Fall Odd-numbered Years  
From 1800 to the present: resistance to change, rebellion, reform, revolution and the rise of the People's Republic. **Prerequisites:** Junior standing or permission of instructor. (3+0)

**HIST F331**  
**Modern Japan** (s)  
3 Credits  
Offered Spring Even-numbered Years  
From 1600 to the present: change within tradition, rise to world power and the position of Japan in the modern world. **Prerequisites:** Junior standing or permission of instructor. (3+0)

**HIST F333**  
**Foundations of Japanese History** (s)  
3 Credits  
Offered Fall Even-numbered Years  
The history of Japan from earliest times to 1600: the aristocratic culture of classical Japan, the rise of the samurai in medieval Japan, the “warring states” period and national unification. Myths, religion and philosophy, and culture, arts and literature will also be covered from a historical point of view. **Prerequisites:** ENGL F211X or ENGL F213X; HIST F100X; or permission of instructor. **Recommended:** HIST F121. (3+0)

**HIST F361**  
**Early American History** (s)  
3 Credits  
Offered Fall Odd-numbered Years  
An advanced survey that examines economic, political and social developments related to the establishment of European colonies, Indian-white relations, slavery, American Revolution, constitutional debate and the Early Republic through the War of 1812. **Recommendations:** HIST F131; sophomore standing. (3+0)

**HIST F362**  
**History of the United States 1815 – 1877** (s)  
3 Credits  
Offered Spring Even-numbered Years  
An advanced survey that examines economic, political and social developments related to Jacksonian America, western expansion, slavery and sectionalism, the Civil War and reconstruction to 1877. **Recommendations:** HIST F131; sophomore standing. (3+0)

**HIST F363**  
**History of the United States 1877 – 1945** (s)  
3 Credits  
Offered Fall Even-numbered Years  
An advanced survey that examines economic, political, and social developments related to Gilded Age America, progressive reform efforts, colonialism and the United States during two world wars. **Recommendations:** HIST F132; sophomore standing. (3+0)

**HIST F364**  
**History of the United States 1945 to Present** (s)  
3 Credits  
Offered Spring Odd-numbered Years  
An advanced survey course that examines economic, political and social developments related to the Cold War, Civil Rights movement, rise of a counter-culture, Vietnam war and its legacy, and America after the fall of Soviet Union. **Recommendations:** HIST F132; sophomore standing. (3+0)

**HIST F368**  
**Topics in American Film History** (s)  
3 Credits  
Offered As Demand Warrants  
An in-depth study of American film and how it shapes and warps popular perceptions of America's past. A historical contrast according to Hollywood with the views and interpretations of historians. Content will vary depending on the specific genre or period of focus, such as World War II, the Vietnam War, the Great Depression, the Cold War and development of the west, etc. Course may be repeated for credit when content varies. **Prerequisites:** ENGL F111X; junior standing; or permission of instructor. Cross-listed with JRN F368. (3+0)

**HIST F401**  
**Renaissance and Reformation Europe** (s)  
3 Credits  
Offered Fall Even-numbered Years  
Political, economic and intellectual developments during the 15th and 16th centuries in Europe. (3+0)

**HIST F402**  
**Seventeenth and Eighteenth Century Europe** (s)  
3 Credits  
Offered Fall Odd-numbered Years  
Political, social, economic, and cultural developments during the 17th and 18th centuries in Europe. (3+0)

**HIST F404 W**  
**Modern Scandinavia** (s)  
3 Credits  
Offered As Demand Warrants  
Scandinavia (Denmark, Finland, Iceland, Norway and Sweden) from the 19th century to the present: the development of parliamentary democracy and welfare systems, cooperation and neutrality, and Scandinavia's experience in the world wars. (3+0)

**HIST F405**  
**Modern Germany** (s)  
3 Credits  
Offered As Demand Warrants  
The history of Germany from 1848 to the present. Topics include German unification under Prussian leadership; the nature and problems of the Bismarckian Reich; the outbreak of World War I and the war's impact on Germany; the rise and fall of the Weimar Republic and the Third Reich; World War II and Germany's defeat; and the postwar division, reconstruction, and reunification of Germany. Special attention given to social developments in Germany. (3+0)

**HIST F411**  
**Environmental History** (s)  
3 Credits  
Offered Spring Even-numbered Years  
Discussion of significant works of environmental history. Cultural history of the landscape in world civilization with emphasis on Western Europe and North America. Discussion of interdisciplinary approaches to the history of the environment and cooperative work across disciplines. **Prerequisites:** ENGL F211X or ENGL F213X; HIST F100X; HIST F275; or permission of instructor. **Recommended:** An introductory biology course. Stacked with NORS F611. (3+0)
HIST F414  Women and Gender in East Asian History (s) 3 Credits  Offered As Demand Warrants
An in-depth seminar on the history of East Asia, with a special emphasis on the experiences of women and on the issue of gender. This seminar will focus on the modern period, and on China and Japan especially, though other regions of East Asia may also be considered. Prerequisites: ENGL F211X or ENGL F213X; HIST F100X; or permission of instructor. Recommended: HIST F122 and/or HIST F275. (3+0)

HIST F424  Topics in Women's History (s) 3 Credits  Offered As Demand Warrants
An in-depth seminar on a specific topic of current interest. Topics may change and may cover the history of European or American women from the 18th century to the present. Prerequisites: HIST F275 or permission of instructor. Cross-listed with WGS F424. (3+0)

HIST F434  Topics in History (s) 3 Credits  Offered As Demand Warrants
An in-depth seminar on various topics in History. Approach will vary depending on the subject of the study, but will emphasize reading, critical analysis and writing on a major issue in history. Content will vary to take advantage of different directions in history, such as cultural, intellectual or economic history. Course may be repeated for credit when content varies. (3+0)

HIST F442  History of the American Military (s) 3 Credits  Offered Fall
The military's place in American life and society from the Colonial era to the present. Role of the military institution in shaping the nature of American society while reflecting the character of the society it serves. Also available via e-Learning and Distance Education. Prerequisites: HIST F275 or permission of instructor. Cross-listed with MILS F442. (3+0)

HIST F445  History of the American West (s) 3 Credits  Offered Fall Even-numbered Years
Seminar with emphasis on readings and analysis of primary and secondary sources dealing with the American West to present. Major themes include historiography, expansion, the Federal government, environment, ethnicity and economic development. (3+0)

HIST F446  American Indian History (s) 3 Credits  Offered as Demand Warrants
Seminar with emphasis on readings and analysis of primary and secondary resources related to American Indians from the pre-contact era to present. Major themes include historiography, inter-cultural relations, subsistence and environment, federal policy and contemporary issues. (3+0)

HIST F455  Military History (s) 3 Credits  Offered Fall Even-numbered Years
Warfare from classical times to the present, with an emphasis on the interrelationships of warfare and society, the role of technology and the development of tactics and strategy. Prerequisites: Junior standing or permission of instructor. (3+0)

HIST F461 W  History of Alaska (s) 3 Credits  Offered Fall
Alaska from prehistoric times to the present, including major themes such as Native Alaska, colonial and military Alaska, statehood, Alaska Native Claims Settlement Act of 1971 and the Alaska National Interest Lands Act of 1980. Also available via e-Learning and Distance Education. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; HIST F275; or permission of instructor. Stacked with HIST F662; NORS F661. (3+0)

HIST F463  Imperial Russia, 1700 – 1917 (s) 3 Credits  Offered Fall Odd-numbered Years
This course covers Russian history from the reign of Peter the Great (1682 – 1725) until the collapse of the Tsarist regime in February 1917. Topics will include Russia's complex relationship with Western Europe, the challenges posed by modernization, and the emergence of the revolutionary movement. Prerequisites: HIST F275 or permission of instructor. Stacked with HIST F663; NORS F663. (3+0)

HIST F464  Soviet and Post-Soviet Russia (s) 3 Credits  Offered Fall Even-numbered Years
Russia from the 1917 Revolution to the present. This course examines the attempts to build a socialist utopia in the former Russian empire and its impact on the peoples of that region and the modern world. We will consider the political, economic, social, and cultural nature of the Soviet state. Major themes include cultural transformation, industrialization, Stalinism, the Soviet Union as a multi-national empire, the Cold War, the collapse of the Soviet state, and the new Russia of Yeltsin and Putin. Prerequisites: HIST F275 or permission of instructor. Stacked with HIST F664; NORS F664. (3+0)

HIST F476 W  Political Development in Latin America and the Caribbean (s) 3 Credits  Offered Fall Odd-numbered Years
Explores the major issues and concepts in the development and governance of modern Latin America and the Caribbean region, including the legacies of colonialism, revolution, military rule, economic challenges and the quest for democratic stability. Includes a historical overview of the region and cases drawn from the Caribbean, Mexico, Central and South America. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; HIST F275; or permission of instructor. Recommended: SPAN F221. Cross-listed with PS F467. (3+0)

HIST F475 W  Historiography (s) 3 Credits  Offered Fall
Seminar discussions and lectures introduce philosophical approaches to history. Examines various methodological approaches to historical inquiry. Includes the nature of historical evidence, questioning of the role of truth and objectivity in history, an examination of the role of the historian in interpreting historical evidence, and different interpretations of historical events and actions. Designed for history majors and minors, and graduate students seeking to conduct historical research. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; HIST F275; history major with senior standing; or permission of instructor. (3+0)

HIST F476 W,O  Senior Thesis (s) 3 Credits  Offered Spring
Preparation and writing of a senior thesis using primary research materials on a topic of the student's choosing. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; HIST F475; permission of instructor. (3+0)

HIST F481  Polar Exploration and its Literature (s) 3 Credits  Offered Spring Even-numbered Years
A survey of polar exploration efforts of all Western nations from A.D. 870 to the present and a consideration of the historical sources of this effort. Stacked with HIST F681; NORS F681. (3+0)

HIST F483 W  20th Century Circumpolar History (s) 3 Credits  Offered Spring Even-numbered Years
A comparative history of the circumpolar North, including Alaska, Siberia, Scandinavia, Greenland and Canada. Focus on social, economic, political and environmental issues of the 20th century, such as exploration, aboriginal land claims, subsistence, military strategy, transportation, oil development, Arctic haze and scientific research in the Arctic. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; HIST F275; or permission of instructor. Stacked with HIST F683; NORS F683. (3+0)

HIST F490 W  Researching and Writing Northern History 3 Credits  Offered Spring Odd-numbered Years
Exploration of the craft and methodology of historical research in the North. Course may be repeated for credit when content varies. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; HIST F275; or permission of instructor. Stacked with NORS F690. (1+3)
HIST F600 Perspectives on the North  
3 Credits  
Offered Fall  
Basic knowledge of the circumpolar North — the social, economic, political and scientific facets of northern life. Consideration of major cultural groups of the north and their histories, the environmental settings and patterns of settlement and development in northern regions and systems of governance in different northern countries. Broad overview of the major policy issues of the North in education, justice, health care, and environmental and wildlife protection. Course is also available online. Cross-listed with NORS F600. (3+0)

HIST F662 History of Alaska  
3 Credits  
Alaska from prehistoric times to the present, including major themes such as Native Alaska, colonial and military Alaska, statehood, Alaska Native Claims Settlement Act of 1971 and the Alaska National Interest Lands Act of 1980. Also available via e-Learning and Distance Education. Cross-listed with NORS F661. (3+0)

HIST F663 Imperial Russia, 1700 – 1917  
3 Credits  
Offered Fall Odd-numbered Years  
This course covers Russian history from the reign of Peter the Great (1682 – 1725) until the collapse of the Tsarist regime in February 1917. Topics will include Russia's complex relationship with Western Europe, the challenges posed by modernization, the Russian Empire as a multinational state, and the emergence of the revolutionary movement. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F463. (3+0)

HIST F664 Soviet and Post-Soviet Russia  
3 Credits  
Offered Fall Even-numbered Years  
Russia from the 1917 Revolution to the present. This course examines the attempts to build a socialist utopia in the former Russian empire and its impact on the peoples of that region and the modern world. We will consider the political, economic, social, and cultural nature of the Soviet state. Major themes include cultural transformation, industrialization, Stalinism, the Soviet Union as a multi-national empire, the Cold War, the collapse of the Soviet state, and the new Russia of Yeltsin and Putin. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F664. Stacked with HIST F464. (3+0)

HIST F681 Polar Exploration and its Literature  
3 Credits  
A survey of polar exploration efforts of all Western nations from A.D. 870 to the present and a consideration of historical sources of this effort. Also available via e-Learning and Distance Education. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F681. (3+0)

HIST F683 20th Century Circumpolar History  
3 Credits  
A comparative history of the circumpolar north, including Alaska, Siberia, Scandinavia, Greenland and Canada. Focus on social, economic, political and environmental issues of the 20th century, such as exploration, aboriginal land claims, subsistence, military strategy, transportation, oil development, arctic haze, and scientific research in the Arctic. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F683. (3+0)

HIST F687 As Demand Warrants  
HIST F688 As Demand Warrants  
HIST F689 As Demand Warrants  
HIST F691 As Demand Warrants  
HIST F692 As Demand Warrants
HONORS

HONR F241  Honors Viewpoints of Humanity I (h)  3 Credits  Offered Fall
This course will provide a deep exposure to the core concepts and themes of modern civilization through interdisciplinary study based in primary literature. Course readings will span the range of humanities and social sciences readings; readings in HONR F241 and F242 are distinct but complementary. Open only to Honors students; required of all second-year Honors students. Prerequisites: ENGL F211X or ENGL F213X; COMM F131X or COMM F141X. (3+0)

HONR F242  Honors Viewpoints of Humanity II  3 Credits  Offered Spring
This course will provide a deep exposure to the core concepts and themes of modern civilization through interdisciplinary study based in primary literature. Course readings will span the range of humanities and social sciences readings; readings in HONR F241 and F242 are distinct but complementary. Open only to Honors students; required of all second-year Honors students. Prerequisites: ENGL F211X or ENGL F213X and of COMM F141X or COMM F131X. (3+0)

HONR F290  Summer Reading Program (h)  2 Credits  Offered Fall
Selected readings in a variety of disciplines. Group discussions and written responses to the readings follow in the fall. Students keep a summer journal. May be repeated for credit. Prerequisites: ENGL F111X; enrollment in the Honors Program; or permission of instructor. (2+0)

HONR F381  Honors Capstone Development  1 Credit
The single greatest part of the Honors education at UAF is the student's capstone project, which uniquely defines them as a scholar. In recognition of the value of the capstone project, and to support each student's goal to successfully complete their capstone project, the sequence of Honors courses is required of Honors students during their last two years of study. This course is the last in the sequence. Students in this course will present their work to an audience of their peers, and practice the skills of posing substantive questions to speakers outside their own fields. Open only to Honors students; required of all fourth-year Honors students. Prerequisites: HONR F381; HONR F382; ENGL F211X or ENGL F213X; COMM F141X or COMM F131X. Recommended: Honors sections of ENGL F211X or ENGL F213X and of COMM F141X. (1+0)

HONR F390  Liability and Values  3 Credits  Offered As Demand Warrants
The study of standards of conduct and moral judgement. The professional, moral and ethical responsibilities of the individual to employers, employees and society will be examined. Prerequisites: Sophomore standing; permission of the Honors Director or instructor. (3+0)

HUMAN SERVICES

HUMS F101  Introduction to Human Services  3 Credits  Offered As Demand Warrants
Provides an overview and orientation for individuals who have either started or are exploring human service careers. Designed for entry level behavioral health providers with an emphasis in understanding social service systems in rural and frontier Alaska. Learners will consider the theoretical foundations of the helping process both personal and external-driven while setting a career path that builds on individual strengths. Students should come away knowing their current worker competencies and those yet to be developed. Recommended: Should be taken within the first academic year when possible. Strongly encourage students to be accepted into the Human Services Degree Program. (3+0)

HUMS F102  Standards of Practice  2 Credits
Designed to provide an integrative approach for ongoing development of critical thinking skills, best practices evaluation, and application of skills based competencies. Students will be challenged to integrate their learning from any previous human service or related training and education, past and present work settings as well as life experiences. This process will be facilitated through the development of a professional portfolio, collaborative group learning, class discussions and the use of blended learning approaches. Recommended: This course should be taken as soon as possible upon acceptance into the Human Services Program. (2+0)

HUMS F105  Personal Awareness and Growth  2 – 3 Credits
Interpersonal and intrapersonal communication explored. Personal growth process presented from a holistic perspective. Focus will identify opportunities for personal enrichment through increased awareness of self and others. (2 – 3+0)

HUMS F117  Math Skills for Human Services  1 – 3 Credits  Offered As Demand Warrants
Computation involving percentages, estimation, problem-solving, reading and creating graphs and tables, data organization and interpretation. Applications of computational skills will be emphasized. Cross-listed with ECE F117. (1 – 3+0)

HUMS F120  Cultural Diversity in Human Services  3 Credits  Offered Spring
The impact of culture on the delivery of human services including Alaska Native cultures; examination of relationship of multicultural and multi-ethnic concepts; issues of age, class, disablement, race, gender and sexual orientation will also be discussed. Student exploration of personal values and cultural world view included. (3+0)

</table>
HUMS F272  Attachment, Separation, and Loss 1 Credit  Offered As Demand Warrants
Understanding of the components of the attachment cycle and effects on children when the cycle is disrupted by abuse, neglect, separation and placement. Includes strategies to deal with the losses. Prerequisites: HUMS F170. (1+0)

HUMS F280  Prevention and Community Development 3 Credits  Offered Fall
Examine the historical evaluation, conceptual framework, practical realities of community development and prevention in rural Alaska. Surveys various approaches to addressing community needs, with examples from developing countries and the lower-48 as well as offers a multiplicity of approaches which can be considered in designing and implementing effective and culturally sound community projects. Collecting data to ascertain which needs exist, skills on how to build community consensus as well as exposure to the community readiness model are also covered in this course. Evaluation of efforts in terms of their success and effectiveness will also be introduced. Prerequisite: HUMS F101; HUMS F102; or departmental approval. (3+0)

HUMS F290  Case Management 3 Credits  Offered Fall
Challenge and broaden students' understanding, thinking and conceptualizing of case management. Investigate the case management model emphasizing its useful application to various client groups with an emphasis on Alaska and rural communities. The different roles and aspects of effective case management will be explored and students will practice case management skills both at the individual level and as part of an interdisciplinary team. The role of the community in supporting such efforts as well as providing resources such as natural supports will be emphasized. Use of and knowledge of local, regional and statewide and national resources will be highlighted. Several specific functions of case management will be specifically emphasized, including that of advocate and broker. Prerequisite: HUMS F101; HUMS F102; or departmental approval. (3+0)

HUMS F301  Ethics in Human Service 3 Credits  Offered Spring
Professional and ethical issues related to the helping professions. Ethical concerns in multicultural and rural human service delivery. Ethics and legal issues related to substance abuse counseling in Alaska. Prerequisites: PSY F101 or SOC F100X. (3+0)

HUMS F305  Substance Abuse Counseling 3 Credits  Offered Spring
Introduction to the basic principles of substance abuse counseling. Application of counseling modalities to intervention and treatment of individuals, families and groups experiencing alcohol and drug abuse or dependence. Cross-cultural issues addressed. Prerequisites: HUMS F125. (3+0)

HUMAN SERVICES

HMSV F340  Peer Advisor Training 1 Credit  Offered Spring
Emphasis on developing skills needed to assist exploratory/undecided students with their academic planning and decision making. Topics include resource referral, communication/active listening, academic and career planning, time and stress management, group dynamics, and values clarification. Graded Pass/Fail. Prerequisites: Sophomore standing; application. (1+0)

HMSV F342  Peer Advising Practicum 1 – 3 Credits
Supervised peer advising experience (both individually and paired with faculty member) in the Academic Advising Center or appropriate department, allowing for application of theory and skills gained in HMSV F340. Course may be repeated once for credit. Graded Pass/Fail. Prerequisites: HMSV F340. (0+0)

HUMANITIES

HUM F101  The Humanities: A Cultural Perspective (h) 3 Credits  Offered As Demand Warrants
Examination of humanities using a non-Yup’ik culture and the Yup’ik culture as bases. Introduction of fundamental principles of Yup’ik and non-Yup’ik performing and visual arts, ideas and cultural developments that have stirred and enriched civilization, and aspects of Yup’ik and non-Yup’ik culture to help students develop greater awareness of forces that affect them. Offered only at the Kuskokwim campus. (3+0)

HUM F201X  Unity in the Arts (h) 3 Credits
Concentration on the interdependence of the visual arts, the performing arts, and literature, as set against a specific social, political and cultural background of selected eras. Prerequisites: Placement in ENGL F111X or higher; sophomore standing; or permission of instructor. (3+0)

HUM F469 W  Architecture: Art, Design, Technology and Social Impact (h) 3 Credits  Offered Fall Even-numbered Years
Concepts of environmental, urban and industrial design. Relationship of human and natural environment is stressed in this history of architecture with special attention given to contemporary conditions in urban areas and effects of industrialization and mechanization on human living and working spaces, artistic design and aesthetics. Prerequisites: ART F261 and ART F262 or HUM F201X; ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Cross-listed with ART F469. (3+0)

HUM F492  Senior Seminar (h) 3 Credits  Offered Fall Even-numbered Years
Consideration of the humanities at the University of Alaska and on alternate approaches elsewhere. Student project paper required with oral presentation and defense. Prerequisites: Open requirements or permission of instructor. (3+0)

ITALIAN

ITAL F100A  Elementary Italian I (h) 3 Credits  Offered as Demand Warrants
Introductory study of the Italian language, culture and geography. Focuses on language skills to include grammar, vocabulary, pronunciation, and contemporary use of the language. Students will be introduced to the written and spoken language while learning about Italian culture. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. (3+0)

ITAL F100B  Elementary Italian II (h) 3 Credits  Offered as Demand Warrants
For students already in the process of learning Italian. Will be working individually, in pairs and in small groups toward reading, writing, listening and speaking. Focuses on language skills to include vocabulary terms, grammatical structures and conversational abilities. Will also learn about different cultures in the Italian-speaking world. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. Prerequisites: ITAL F100A or permission of instructor. (3+0)
JPN F100A  Japanese Culture and Conversation 1A (h) (h) 3 Credits  Offered As Demand Warrants
Courses JPN F100A and JPN F100B are introductory courses in the Japanese language and culture with an emphasis on the spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. (3+0)

JPN F100B  Japanese Culture and Conversation 1B (h) (h) 3 Credits  Offered As Demand Warrants
Courses JPN F100A and JPN F100B are introductory courses in the Japanese language and culture with an emphasis on the spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. Prerequisites: JPN F100A or instructor permission. (3+0)

JPN F101  Elementary Japanese I (h) 5 Credits  Offered Fall
Introduction to spoken and written Japanese. The student will acquire a vocabulary of approximately 1,000 words and will learn to read and write the two syllabaries, hiragana and katakana, as well as 150 kanji. Cultural dimension is explored implicitly through language and explicitly through audiovisual materials. Courses are taught in Japanese. (5+0)

JPN F102  Elementary Japanese II (h) 5 Credits  Offered Spring
Introduction to spoken and written Japanese. The student will acquire a vocabulary of approximately 1,000 words and will learn to read and write the two syllabaries, hiragana and katakana, as well as 150 kanji. Cultural dimension is explored implicitly through language and explicitly through audiovisual materials. Course is taught in Japanese. Prerequisites: JPN F101 or equivalent. (5+0)

JPN F201  Intermediate Japanese I (h) 4 Credits  Offered Fall
The student will learn to read and write an additional 250 kanji. Conversational ability and listening comprehension enhanced by using videotape materials. Course is taught in Japanese. Prerequisites: JPN F102 or equivalent. (4+0)

JPN F202  Intermediate Japanese II (h) 4 Credits  Offered Spring
The student will learn to read and write an additional 250 kanji. Conversational ability and listening comprehension enhanced by using videotape materials. Course is taught in Japanese. Prerequisites: JPN F201 or equivalent. (4+0)

JPN F210  Beginning Kanji (h) 2 Credits  Offered Fall
Students will learn to read and write 500 basic kanji (Chinese characters) through studying their history, composition and artistic value. Prerequisites: Hiragana and Katakana recognition. (2+0)

JPN F301  Advanced Japanese (h) 3 Credits  Offered Fall
Development of advanced conversational and reading skills. Topics may include: modern Japanese prose fiction; newspaper Japanese; advanced conversation through the study of common contractions and idiomatic usage in the standard Tokyo dialect; and a study of television drama series. May be repeated with different topics. Prerequisites: JPN F202 or equivalent. (3+0)

JPN F302  Advanced Japanese (h) 3 Credits  Offered Spring
Development of advanced conversational and reading skills. Topics may include: modern Japanese prose fiction; newspaper Japanese; advanced conversation through the study of common contractions and idiomatic usage in the standard Tokyo dialect; and a study of television drama series. May be repeated with different topics. Prerequisites: COMM F131X or COMM F141X; JPN F301 or equivalent. (3+0)

JPN F310  Intermediate Kanji (h) 2 Credits  Offered Spring
Continuation of JPN F210 Beginning Kanji. Students will learn to read and write additional 500 kanji (Chinese characters) through studying their history, composition and artistic value. Prerequisites: JPN F210. (2+0)

JPN F311  Advanced Kanji (h) 2 Credits  Offered As Demand Warrants
Continuation of JPN F310 Intermediate Kanji. Students will learn to read and write additional 1000 kanji (Chinese characters) through studying their history, composition and artistic value. Prerequisites: JPN F310. (2+0)

JPN F330  Classical Japanese Literature (h) 3 Credits  Offered As Demand Warrants
A survey of the major works and genres of Japanese prose and poetry from the 8th to 18th centuries including Heian tales (monogatari), medieval folk tales and military chronicles, and the playful literature of the Edo period. Major emphases include the Tale of Genji, the Tale of the Heike and mastering the conventions that continue to be both adapted and subverted in modern Japanese literature. Course is taught in English. Prerequisites: Junior standing or permission of instructor. (3+0)

JPN F331W  Women's Voices in Japanese Literature (h) 3 Credits
A close reading of selected novels, short stories, poems, and diaries by Japanese women from the tenth century to the present which reveal the personal, social, aesthetic and intellectual concerns of women in different periods of Japanese history. Focus on the changing role of women in Japanese society, the role of women writers as social critics, and cross-cultural differences and similarities in women's issues. Prerequisites: ENGL F111X; ENGL F211X or F213X or permission of instructor; ENGL F220X. Recommended: HIST F121 or HIST F122 or HIST F331. Cross-listed with WGS F331. (3+0)

JPN F332  Japanese Cultural Traditions and Arts (h) 3 Credits  Offered Fall Even-numbered Years
A study of Japanese cultural traditions and arts as influenced by the religious and philosophical systems of Shinto, Buddhism, Confucianism and Taoism. Lectures will cover a wide range of Japanese traditional arts such as tea ceremony, calligraphy, martial arts, Noh, Bunraku, and Kabuki. Course is taught in English. Prerequisites: Junior standing or permission of instructor. (3+0)

JPN F333  Twentieth Century Japanese Prose Fiction (h) 3 Credits  Offered Spring Odd-numbered Years
A study of selected novels, short stories and film scripts in translation representative of styles and themes which characterize twentieth century Japanese literature. Analysis of each work in terms of characterization, themes, structure, style and as an expression of social problems or intellectual issues in modern Japanese society. Course is taught in English. Note: Course may be repeated for credit when topic varies. Prerequisites: Junior standing or permission of instructor. (3+0)

JPN F431  Studies in Japanese Culture (h) 3 Credits  Offered Fall
Further study of advanced written and spoken Japanese through essays, newspaper and journal articles, and television documentaries dealing with topics in Japanese culture. Note: Course may be repeated for credit when topic varies. Prerequisites: JPN F302 or permission of instructor. (3+0)
JPN F432  Studies in Japanese Language (h)  3 Credits  Offered Spring  In-depth study of Japanese language or literature. Course may be repeated for credit when topics vary. Prerequisites: JPN F302 or permission of instructor. (3+0)

JPN F475  Seminar on Contemporary Japan (h)  3 Credits  Offered As Demand Warrants  Ties together various threads of the Japanese studies program and gives students an opportunity to apply their knowledge to contemporary issues in Japan. Prerequisites: Upper-division semester in Japan at pre-approved program. (3+0)

JOURNALISM

JRN F101  Introduction to Mass Communications (h)  3 Credits  Offered Fall and Spring  History and principles of mass communications and the role of information media in American society. Introduction to professional aspects of mass communications, including print and broadcast. Also available via e-Learning and Distance Education. (3+0)

JRN F102  Introduction to Broadcasting (h)  3 Credits  Offered As Demand Warrants  Principles of broadcasting as they relate to the people of the United States, including history, government involvement and social effects. Available via e-Learning and Distance Education only. (3+0)

JRN F105  History of the Cinema (h)  3 Credits  History and development of the medium of film in the United States and abroad during the last 100 years. Content will vary each semester. Cross-listed with FLM F105. (3+0)

JRN F202  News Writing for the Media (h)  3 Credits  Identifying and focusing news stories, writing the lead, developing story structure, writing on deadline, editing copy, writing headlines and captions, writing styles for print, broadcast and online news presentations. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. (3+0)

JRN F203  Basic Darkroom Photography (h)  3 Credits  Photography fundamentals, including use of an adjustable camera, film and exposure techniques, filters, and flash techniques. Darkroom procedures including black and white film processing and printing, photograph design and composition. Students must have use of an adjustable camera. Special fees apply. Cross-listed with ART F283. (2+3)

JRN F204  Basic Digital Photography (h)  3 Credits  Introduction to the technical and aesthetic aspects of basic digital photography via digital SLR cameras and editing through digital photo suites such as Adobe Photoshop. Students are expected to have intermediate computer knowledge. Topics include controlling digital SLRs on manual settings, photographing creatively, basic and advanced editing techniques, negative scanning and digital printing. Special fees apply. Cross-listed with ART F284. (3+0)

JRN F215  Radio Production  3 Credits  Offered Fall  Sound production techniques for radio and television. Emphasis on writing, recording, control room techniques and editing. Special fees apply. (2+3)

JRN F217  Introduction to the Study of Film (h)  3 Credits  Offered Spring  An appreciation course designed to introduce the student to the various forms of cinematic art with special emphasis on humanistic and artistic aspects. Prerequisites: ENGL F111X. Cross-listed with ENGL F217; FLM F217. (2+2)

JRN F220  Adobe Photoshop  3 Credits  Offered Fall  Create images that go beyond traditional photo editing and into the realm of painting with depth color manipulation. Includes use of a computer, scanner, analog images and digital camera. Includes ethical and copyright issues of photography manipulation. Prerequisites: JRN F250. Recommended: Advanced knowledge of Macintosh operating system. (3+0)

JRN F240  Foreign Corresponding (h)  3 Credits  Offered Spring  The U.S. tradition of “objective” journalism holds sway in very few countries. How did these varying approaches develop, and what do they mean for how Americans report overseas and how foreign journalists report about us? (3+0)

JRN F250  Web Site Design  3 Credits  Offered Fall  Create web-site projects. Includes the Internet, design, multimedia and the incorporation of text, sound, images, animation and video. Special fees apply. Prerequisites: Familiarity with the World Wide Web, Internet browsers, the Macintosh operating systems, and image editing software; or permission of instructor. (3+0)

JRN F251  Introduction to Video Production  4 Credits  Offered Fall  An introduction to video production with an emphasis on television studio production. Special fees apply. Cross-listed with FLM F251. (2+5)

JRN F280  Video Storytelling (h)  3 Credits  Offered Fall  Basics of digital video production technology, composition, audio, lighting and editing as it relates to primarily nonfiction filmmaking. Students will conclude the course by producing their own short videos. Special fees apply. Cross-listed with FLM F280. (3+0)

JRN F290  Digital Video Editing  3 Credits  Offered As Demand Warrants  Introduction to the technical and aesthetic aspects of non-linear digital video editing. Students will go from little or no experience in non-linear editing to being comfortable with some of the advanced editing techniques. Address motion picture editing theories that are not bound to time or specific editing technology. Special fees apply. Cross-listed with FLM F290. (3+0)

JRN F300  Internship  1 – 3 Credits  Practical experience working with campus media, individual media-related projects for business or media, or in a professional media environment. Prerequisites: JRN F202 or permission of instructor. (1+6)

JRN F305  Snedden Chair Lectures  3 Credits  Offered Fall  Rotating series of lectures and seminars with America’s leading journalists on topics ranging from war reporting to covering sports. Please contact Department of Journalism for current topic and instructor. Course may be repeated for credit. Special fees apply. Prerequisites: Junior standing or permission of instructor. (3+0)

JRN F308  Film Criticism (h)  3 Credits  Theoretical approaches to viewing, analyzing and evaluating film and television program content. Note: Available via e-Learning and Distance Education only. Cross-listed with FLM F308. (3+0)
JRN F311 W  Magazine Article Writing (h)  
3 Credits  Offered Fall  
Learn to identify great article ideas, turn them into finished products and pitch them to magazine editors. Workshops and extensive instructor feedback. Students repeating the course limited to six credits. Also available via e-Learning and Distance Education. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; JRN F202; or permission of instructor. (3+0)

JRN F323  Editing for Journalists  
3 Credits  Offered Spring  
Tricks of the trade, including copyediting; writing headlines and captions; basic page design using computers; and thinking like the editor-in-chief. Special fees apply. Prerequisites: JRN F202 or permission of instructor; junior standing. (3+0)

JRN F324  Typography and Publication Design  
3 Credits  Offered Spring  
Typography, layout and design, coupled with a study of the methods of printing production. Special fees apply. Prerequisites: Permission of instructor. (2+2)

JRN F347 O  Lighting Design (h)  
3 Credits  Offered Fall Even-numbered Years  
Principles and techniques of theatrical lighting design. The student will conduct practical experiments and design projects applying the experience gained from the experiments. Also available via e-Learning and Distance Education. Prerequisites: COMM F131X or COMM F141X; THR F343; or permission of instructor. May be taken concurrently with THR F343. Cross-listed with ART F347, THR F347. (3+0)

JRN F368  Topics in American Film History (s)  
3 Credits  Offered As Demand Warrants  
American film and how it shapes and warps popular perceptions of America's past. A historical contrast according to Hollywood with the views and interpretations of historians. Content will vary depending on the specific genre or period of focus, such as World War II, the Vietnam War, the Great Depression, the Cold War and development of the west, etc. Course may be repeated for credit when content varies. Available via e-Learning and Distance Education only. Prerequisites: HIST F131 or HIST F132; JRN F217 or JRN F308; or permission of instructor. Cross-listed with HIST F368. (3+0)

JRN F371 O  Digital Photography and Pixel Painting  
3 Credits  Offered Fall  
An introduction to the world of digital imaging with applications in fine and commercial art. It is expected that students will become competent in creating convincing images of impossible subjects as well as detecting their creation by others. The varied ethical issues engendered by this expertise will be addressed in depth. Students will be required to gain proficiency in visual design for electronic and print publication. Special fees apply. Prerequisites: COMM F131X or COMM F141X; Macintosh OS or Windows OS experience with graphic applications; one college level studio art course. Cross-listed with ART F371; FLM F371. (1+4)

JRN F380 O  Women, Minorities and the Media (h)  
3 Credits  Offered Fall  
Examination of how women and minorities are portrayed in the mass media, the employment of women and minorities in the media, as well as how accurately the media reflects our society demographically. Presented from a feminist, multi-culturalist perspective using a broad feminist analysis encompassing issues of gender as well as class, race, age and sexual orientation. Special fees apply. Prerequisites: COMM F131X or COMM F141X; junior standing. Cross-listed with WGS F380. (3+0)

JRN F390  New Media Toolkit (h)  
3 Credits  Offered As Demand Warrants  
Focus on the content and technology needed in today’s newsrooms. Students will explore blogging and its place in journalism, basic audio production, digital photography, multimedia package production, and the latest Web 2.0 technologies. History of “new media” and its place in the changing journalism landscape will also be discussed. Special fees apply. Prerequisites: ENGL F111X or ENGL F213X; JRN F202; or permission of instructor. (2.5+0.5)

JRN F400  Professional Media Internship  
1 – 3 Credits  
Practical training in a supervised, professional media environment. Participation at an approved publication, TV or radio station, or other media-related business or non-profit organization is required. Prerequisites: Senior standing or permission of instructor. (1+0)

JRN F401  Beat Reporting  
3 Credits  Offered Fall  
Intensive training in developing and covering a news beat (chosen by the student) and the basics of common news beats: police, courts and government. Includes cultivating sources, explaining complicated stories, reporting trends, improving interviewing techniques, and employing advanced writing skills. Writing for publication encouraged. Special fees apply. Prerequisites: JRN F202. (2+2)

JRN F402  Advanced Photography (h)  
3 Credits  Offered Spring  
Continuation of JRN F203. Emphasis on continuing development of photographic skills by application of basic technical skills to a variety of areas of photography. Special fees apply. Prerequisites: JRN F203, ART F283 or instructor permission. (2+3)

JRN F404  Photojournalism I (h)  
3 Credits  Offered Fall  
Fundamentals of visual communication through photography; issues and techniques of modern photojournalism; news, features, sports, and photo essay assignments as encountered at a daily newspaper; preparation of photographs for publication. Students must have basic 35mm camera equipment. Special fees apply. Prerequisites: JRN F203 or JRN F403 or permission of instructor. Cross-listed with ART F483. (2+3)

JRN F405  Advanced Photography Seminar  
3 Credits  Offered Spring  
Advanced discussion of photographic topics. Topics range from the photographic essay to the history of photography and working in series. Weekly classroom meetings supplemented by field, studio and darkroom sessions. Special fees apply. Prerequisites: JRN F402; JRN F404; or permission of instructor. Cross-listed with ART F465. Stacked with JRN F605. (2+3)

JRN F406  Photojournalism II  
3 Credits  Offered Spring Even-numbered Years  
Continuation of Photojournalism I. Emphasis on developing skills in photo essay and documentary photography, and working as a freelance photojournalist. Seminar-style class includes work with film and digital equipment. Special fees apply. Prerequisites: JRN F404. (2+2)

JRN F407  Digital Darkroom  
3 Credits  Offered Fall  
Learn to make ink jet prints from various photographic sources, including digital capture and scanned film. Emphasis on applying Photoshop methods for making fine prints in black and white and color. Special fees apply. Prerequisite: JRN F203 or permission of instructor. Cross-listed with ART F487. (2.5+2)

JRN F408  Media Management  
3 Credits  Offered As Demand Warrants  
Overview of media management, including management theories, media competition, media research, regulatory issues of concern to managers, organizational planning and future trends in media. Case studies in practical problem-solving techniques. Prerequisites: Junior standing or permission of instructor. (3+0)
JRN F411 W  Writing for a Living  
3 Credits  Offered As Demand Warrants  
Writing advanced prose for publication in books or magazines. May be repeated for credit with permission of instructor. Special fees apply.  
Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; JRN F311; or permission of instructor. (3+0)

JRN F413  Mass Media Law and Regulation (s)  
3 Credits  Offered Fall  
Common law, statutory law and administrative law that affects the mass media, including libel, copyright, access to the media, constitutional problems, privacy, shield laws and broadcast regulations. Also available via e-Learning and Distance Education. Prerequisites: JRN F202 or permission of instructor. (3+0)

JRN F421  Journalism in Perspective (h)  
3 Credits  Offered Fall  
Seminar-style exploration of the ethical, financial, corporate and international trends tugging at American journalism. Prerequisites: Junior standing. (3+0)

JRN F440  Ethics and Reporting in the Far North  
3 Credits  Offered As Demand Warrants  
Historical overview of media coverage of the northern frontier with focus on journalistic ethics. Comparison made to media climate in third world countries. Special fees apply. Stacked with JRN F640; NORS F640. (3+0)

JRN F444 W  Investigative Reporting (h)  
3 Credits  Offered Spring  
Advanced reporting of news with emphasis on public affairs. Develops sophisticated news judgment, writing and investigative reporting skills for print and electronic media. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; JRN F202; JRN F401; Junior standing; or permission of instructor. (2+3)

JRN F452 W  Radio and Television News Writing  
3 Credits  Offered Spring  
Overview of radio and television news writing. Emphasis on intensive news writing practice, including interviewing techniques, ethical issues and current controversies, and structure of television and radio news operations. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; JRN F202. (3+0)

JRN F453 O  Television News Reporting  
3 Credits  Offered Spring  
Electronic news gathering using videotape equipment, scriptwriting, location sound recording, interview techniques, editing, videography and other aspects of field news reporting. Special fees apply. Prerequisites: COMM F131X or COMM F141X; JRN F451; JRN F452. JRN F452 may be taken concurrently with JRN F453. (2+2)

JRN F454  Advanced TV News Production  
3 Credits  Offered Fall  
In-depth experience with television news production including electronic newsgathering. Emphasis on producing broadcast quality news footage and packages. May be repeated once. Only the first 3 credits count toward major approved-elective requirements. Special fees apply. Prerequisites: JRN F251; JRN F452; JRN F453. (1+3)

JRN F456 W  Science Writing for Magazines and Newspapers (h)  
3 Credits  Offered As Demand Warrants  
Students write and analyze science articles aimed at the general public. Course work includes writing and reading assignments, class workshops and conferences with the instructor. Emphasis on recognizing, finding and developing science stories; structuring articles; capturing reader interest; maintaining accuracy; and getting published. Scientists are welcome, but science background is not necessary. Repeatable once for additional credit with permission of instructor. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; JRN F202; or permission of instructor. Stacked with JRN F656. (3+0)

JRN F460  History of German Film (h)  
3 Credits  Offered As Demand Warrants  
In-depth study of a representative selection of films from the 1920's to the present, taught in English and German (films will be in German with English subtitles). Students of German will have a special discussion session in German and will do reading and writing in German. Prerequisites: Junior standing or permission of instructor. Cross-listed with GER F460. (3+0)

JRN F471 O  Advanced Digital Design (h)  
3 Credits  Offered Spring  
Project-oriented class in graphic design with applications from journalism to fine and commercial art. Students will be expected to have a background in programs likely to include web design, digital photography and graphic design. May be repeated for credit with permission of instructor. Special fees apply. Prerequisites: COMM F131X or COMM F141X; JRN F250; JRN F350; ART/JRN F371; one college level studio art course. Cross-listed with ART F471. (1+4)

JRN F472 O  Visualization and Animation (h)  
3 Credits  Offered Spring  
An introduction to visualization and animation with applications in fine and commercial art and science. Students will produce a series of three dimensional animation projects which will introduce them to the tools and concepts used by animation and visualization professionals. Note: May be repeated for credit. Special fees apply. Prerequisites: ART F471 or equivalent; COMM F131X or COMM F141X; plus UNIX experience. Cross-listed with ART F472; FLM F472. (1+4)

JRN F480  Documentary Filmmaking (h)  
3 Credits  Offered Spring  
Basics of hands-on documentary filmmaking techniques, including preproduction, production and postproduction. Different documentary filmmaking directing styles and the process of distributing a documentary. Each student will produce a short documentary as the capstone of the course. Special fees apply. Prerequisites: Basic experience in shooting and editing video or permission of instructor. Cross-listed with: FLM F480. (3+0)

JRN F484  Multimedia Theory and Practice (h)  
3 Credits  Offered Spring  
Study of techniques needed to produce multimedia with a special project for a university or community agency as the required final. For the purpose of this course, multimedia is defined as computer-based, user-driven products with audio, visual and text components and also video or film where appropriate. Primary program is Flash. Special fees apply. Prerequisites: Understanding of computer graphics programs like Illustrator, Freehand, etc. plus some mastery of a specialty like writing, art or television production. Cross-listed with ART F484. (2+3)

JRN F490  Online Publication: “Extreme Alaska”  
3 Credits  Offered Spring  
Using the department's multimedia newsroom facilities, senior-level students work on a team, under the guidance of an instructor, to publish an online publication. Students are expected to show substantial initiative and creativity as they make use of the skills they have acquired in other journalism courses. Course may be repeated once for credit. Special fees apply. Prerequisites: JRN F202; senior standing; or permission of instructor. (2+2)

JRN F601  Communication Research Methodologies: Social Science  
3 Credits  Offered Spring  
Introduction to the range of methodologies used to produce both practical and theoretic knowledge in the discipline. Presents the relationships between scientific questions, appropriate selection of methodology and types of knowledge products. Note: COMM/JRN F601 is a required core
Advanced discussion of photographic topics with field, studio, and darkroom sessions. Topics will range from the photographic essay to the history of photography and working in series. Weekly classroom meeting will be supplemented by field, studio, and darkroom sessions. Special fees apply. Prerequisites: JRN F402; JRN F404; or permission of instructor. Cross-listed with ART F465. Stacked with JRN F405. (2+3)

JRN F611 Advanced Writing for Publication
3 Credits
Offered As Demand Warrants
An intensive writing course focused on producing books and in-depth magazine features. Emphasis will be on writing, editing and research. The business and legal aspects of becoming an author will also be covered. Special fees apply. Prerequisites: JRN F202 or comparable upper-division ENGL courses; graduate standing; or permission of instructor. (3+3)

JRN F613 Advanced Mass Media Law and Regulation
3 Credits
Offered As Demand Warrants
Seminar on current issues, legal opinions and legislative actions which directly affect the mass media. Special emphasis on technological evolution, corporate growth and deregulation of administrative media law. Prerequisites: Graduate standing. (3+0)

JRN F625 Communication Theory
3 Credits
Offered Fall
Required course for the M.A. in Professional Communication. The course is designed to acquaint students with both the historical evolution of the discipline against the backdrop of the evolution of the social sciences and with the theoretical perspectives of knowledge-building that have marked that disciplinary evolution. Students will learn the contextual interconnectedness of philosophy and theory. Finally, Communication Theory will also make the essential connections between theoretical perspectives and their professional uses. Cross-listed with COMM F625. (3+0)

JRN F633 Public Relations Theory and Practice
3 Credits
Offered As Demand Warrants
Theory, practice and research in public relations. Emphasis on public relations in business, industry, government institutions and nonprofit organizations, as well as the role of public relations in American mass media. Prerequisites: Graduate standing. (3+0)

JRN F640 Ethics and Reporting in the Far North
3 Credits
Offered As Demand Warrants
Historical overview of media coverage of the northern frontier with focus on journalistic ethics. Comparison made to media climate in third world countries. Cross-listed with NORS F640. (3+0)

JRN F656 Science Writing for Magazines and Newspapers
3 Credits
Offered As Demand Warrants
Students write and analyze science articles aimed at the general public. Course work includes writing and reading assignments, class workshops and conferences with the instructor. Emphasis on recognizing, finding and developing science stories; structuring articles; capturing reader interest; maintaining accuracy; and getting published. Scientists are welcome, but science background is not necessary. Repeatable once for additional credit with permission of instructor. Special fees apply. Prerequisites: Graduate standing or permission of instructor. Stacked with JRN F456. (3+0)

JRN F684 Multimedia Theory and Practice
3 Credits
Offered Spring
Study of techniques needed to produce multimedia with a special project for some university or community agency as the required final. For the purpose of this course multimedia is defined as computer-based, user-driven products with audio, visual and text components and also video or film where appropriate. Primary program is Flash. Special fees apply. Prerequisites: Understanding of computer graphics [programs like Illustrator, Freehand, etc.] plus some mastery of a specialty like writing, art, or television production. Cross-listed with ART F684. (3+3)

</table>
LATIN

LAT F101 Beginning Latin I (h)
3 Credits
Introduction to ancient Latin language and Roman culture. Development of competence through reading original authors with emphasis on vocabulary, recognition and correct use of grammar. Does not satisfy core curriculum requirement. Note: Offered via e-Learning and Distance Education only. (3+0)

LAT F102 Beginning Latin II (h)
3 Credits
Continuation of the introduction to ancient Latin language and Roman culture, development of competence through reading original authors with emphasis on vocabulary, recognition and correct use of grammar. Does not satisfy core curriculum requirement. Note: Offered via e-Learning and Distance Education only. Prerequisites: LAT F101. (3+0)

LAT F201 Intermediate Latin I (h)
3 Credits
Continuation of LAT F102. Increasing development of competence through reading original authors with growing emphasis on grammar usage and vocabulary. Does not satisfy core curriculum requirement. Note: Offered via e-Learning and Distance Education only. Prerequisites: First year college Latin, or a functional equivalent. (3+0)

LAT F202 Intermediate Latin II (h)
3 Credits
Continuation of LAT F201. Increasing development of competence through reading original authors with growing emphasis on grammar usage and vocabulary. Does not satisfy core curriculum requirement. Note: Offered via e-Learning and Distance Education only. Prerequisites: LAT F201 or equivalent. (3+0)

LAW ENFORCEMENT

LE F110 Cultural and Behavioral Strategies for Law Enforcement Officers
1 Credit
Offered As Demand Warrants
Introduction to a number of behavioral strategies to facilitate interaction among various cultures to be found in Alaska. It also gives the student a strong concept of police ethics as it relates to everyday performance of police duties. The student receives an introduction to problems and strategies for law enforcement officers in their relationships to their marriages and families. Special fees apply. Special Conditions: Students must meet basic Police Standards qualifications for police officers. (1+0)

LE F115 Enforcement Skills for Law Enforcement Officers
3 Credits
Offered As Demand Warrants
Introduction to the basic skills necessary to use firearms (both pistol and shotgun), operate a motor vehicle under emergency conditions and use Oleo Capsicum (pepper) spray effectively. A continuum on the use of force, judgment in the use of deadly force, physical defense tactics and physical arrest. Special fees apply. Special Conditions: Students must meet basic Police Standards qualifications for police officers. (2+8)

LE F120 Law Enforcement Operations
4 Credits
Offered As Demand Warrants
Preparation to conduct specific investigations into auto theft, domestic violence events, DUI detection, juvenile procedures, care of the emotionally disturbed, report writing and jail procedures. Special fees apply. Special Conditions: Students must meet basic Police Standards qualifications for police officers. (3+3)

LE F125 Basic Police Procedures
4 Credits
Offered As Demand Warrants
Introduction to conducting investigations, using approved methods, at any major crime scene. Specific skills are presented for use in the investigation of sexual assaults, homicides, arson, gang related activity and death investigations. Skills are taught in: interview and interrogation, crime scene physical collection, hostage situations, scene investigation and mapping. Introduction to the danger of blood-bourne pathogens and protective measures. Special fees apply. Special Conditions: Students must meet basic Police Standards qualifications for police officers. (3+3)

LE F205 Criminal Law for Police
4 Credits
Offered As Demand Warrants
Introduction to the more complex issues of criminal law. The Alaska Statutes, constitutional law and court decisions as well as traffic law, search and seizure, rights of defendants and warrant procedures. Special fees apply. Special Conditions: Students must meet basic Police Standards qualifications for police officers. (4+0)

LEADERSHIP

LEAD F305 Leadership Alaska: Making a Difference (s)
4 Credits
Offered Spring
A leadership seminar and practicum which will involve building community, developing networks, learning leadership theories, understanding civic responsibility, and creating an action through which the student becomes a leader. Prerequisites: Either be an Alaska Scholar; an Honors student; a member of the National Society of Collegiate Scholars; have a 3.25 GPA; or permission of instructor. (4+0)

LEAD F456 W Leadership and Influence During Crisis
3 Credits
Offered As Demand Warrants
This course focuses on the challenges faced by those who serve as leaders during crisis and emergency circumstances. During emergency circumstances, leading others, being able to influence and motivate them during crisis is critical. Topics including leadership and followership, crisis decision making, fear and emotion and the unique circumstances of an emergency manager/homeland security professional are examined. Prerequisites: HSEM F301; ENGL F111x or ENGL F112X or ENGL F113x; or permission of instructor. Cross-listed with HSEM F456. (4+0)

LIBERAL ARTS AND SCIENCE

LAS F410 W,O/2 Scientific Research
3 Credits
Offered As Demand Warrants
Formulation and testing of hypotheses using field observation and experimentation. Includes collection of data, analysis using spreadsheets and statistical software, and oral/written presentation. Focus on individual and group participation in ongoing field or laboratory projects in the natural sciences. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior or senior standing as a major in the B.A.S. degree program. (2+3)

LAS F601 Responsible Conduct of Research
2 Credits
Maintaining the public trust and respect of fellow scientists requires a clear understanding of the basic principles under which research is conducted and reported. Introduces students to the basic principles and expectations that form the foundation of research integrity. Students will learn to recognize and address ethical dilemmas in research scenarios, thus preparing them for situations that will invariably arise during their career. This course fulfills National Science Foundation and National Institutes of Health requirements. Prerequisites: Senior undergraduate or graduate student standing. Interested post-doctoral fellows and other with terminal degrees are also invited to enroll with permission of instructor. (2+0)
**LINGUISTICS**

**LING F100** Language, Education, Linguistics (h) 3 Credits Offered Spring
Introduction to the field of linguistics as it pertains to the field of education. Includes discussions of language structure, acquisition and bilingualism, and variation and public policy. The course does not satisfy requirements for the B.A. in Linguistics. Cross-listed with ED F100. (3+0)

**LING F101** Nature of Language (h) 3 Credits Offered Fall
The study of language: systematic analysis of human language and description of its grammatical structure, distribution and diversity. Also available via e-Learning and Distance Education. (3+0)

**LING F216** Languages of the World (h) 3 Credits Offered As Demand Warrants
A comprehensive survey of the world’s languages — past and present. Topics include genetic relationships among languages, linguistic change, language universals, language classification and language families, as well as the interaction of culture and language. (3+0)

**LING F303 W,O** Language Acquisition 3 Credits Offered As Demand Warrants
Theories of the acquisition and development of first and second languages, including consideration of biological and sociocultural factors. Survey of traditional and contemporary theories, and implications for pedagogy and public policy. Prerequisites: COMM F131X or COMM F141X; ENGL F211X or ENGL F213X or permission of instructor. Recommended: LING F101. Cross-listed with ED F303. (3+0)

**LING F308 W,O** Language and Gender (s) 3 Credits Offered Fall Odd-numbered Years
Examination of relationships between language and gender, drawing on both ethnographic and linguistic sources. Topics include power, socialization and sexism. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with ANTH F308; WGS F308. (3+0)

**LING F318** Introduction to Phonetics and Phonology (h) 3 Credits Offered Spring
Scientific study of human speech sounds, mechanism of their production, and sound systems of languages. Prerequisites: Upper-division standing or permission of instructor. (3+0)

**LING F320** Introduction to Morphology (h) 3 Credits Offered Fall Odd-numbered Years
Study of principles and processes of word construction in language. Morphological structure of Alaska Native languages and other non-Indo-European languages. Prerequisites: LING F318 or permission of instructor. (3+0)

**LING F402** Second Language Acquisition 3 Credits Offered Fall
Central issues in second language acquisition research. Includes a critical review of SLA theories and research. Prerequisites: LING F101 or permission of instructor. (3+0)

**LING F410 O** Theory and Methods of Second Language Teaching 3 Credits Offered Fall Even-numbered Years
Theory and methods of teaching a second language, including various pedagogical approaches, overview of second language acquisition theory, discussion of materials and testing. Prerequisites: COMM F131X or COMM F141X. (3+0)

**LING F420** Semantics (h) 3 Credits Offered Spring Even-numbered Years
A systematic exploration of the nature of meaning in human language. Focus is on historical and contemporary approaches to understanding problems of reference, categorization and lexical relationships in meaningful contexts. Prerequisites: LING F101 or permission of instructor. Stacked with LING F620. (3+0)

**LING F430** Historical Linguistics (h) 3 Credits Offered Fall Even-numbered Years
Introduction to comparative and historical linguistics: methods of linguistic reconstruction, historical change, genetic relationships, dialectology. Includes Indo-European and Alaskan languages. Prerequisites: LING F318. Stacked with LING F630. (3+0)

**LING F431** Field Methods in Descriptive Linguistics I 3 Credits Offered Spring Odd-numbered Years
Introduction to general issues in language field work and to issues specific to working with little studied and/or endangered languages in particular. Focus on introduction to writing systems, making recordings, computers and transcriptions, planning consultant sessions, working with consultants, interviewing and ethics in the field. Projects include making transcriptions of familiar language, and later, working on an unfamiliar language with a language consultant, selecting and carrying out a well-defined project, resulting in a term paper. Prerequisites: LING F318; LING F320; or permission of instructor. Cross-listed with ANTH F432. (3+0)

**LING F434** Field Methods in Descriptive Linguistics II 3 Credits Offered Fall Odd-numbered Years
Second semester of Field Methods sequence. Plan linguistic field project, including field trip, caring for equipment, data handling, community contacts, intellectual property, and repatriation. Course work includes lectures and group elicitation with a speaker of a non-Indo-European language. Projects may involve either the traditional field work involving finding and working with a consultant, or work involving research of archival materials on languages no longer spoken. Prerequisites: ANTH F432 or LING F431. Cross-listed with ANTH F434. (3+0)

**LING F440 W** Aspects of Bilingualism (h) 3 Credits Offered As Demand Warrants
Cognitive, linguistic, sociopolitical and educational aspects of bilingualism at both the individual and societal levels, including factors contributing to language maintenance and language shift. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; LING F101; or permission of instructor. (3+0)

**LING F450 O** Language Policy and Planning (s) 3 Credits Offered Fall Even-numbered Years
Consideration of minority languages, including Alaskan Native Languages, in light of their histories, current status and factors affecting future maintenance. Prerequisites: COMM F131X or COMM F141X. Stacked with LING F650. (3+0)
LING F482 Seminar in Linguistics  
3 Credits  
Offered Spring Odd-numbered Years  
Current issues in various subfields of linguistics including semantics and pragmatics, discourse analysis, bilingualism, lexicography, language philosophy and issues within a particular language or language group, e.g. Eskimo phonology, Athabaskan morphology. May be repeated once. (3+0)

LING F600 Research Methods for Applied Linguistics  
3 Credits  
Offered Spring  
Review of quantitative and qualitative research paradigms, data gathering techniques and analytical tools (questionnaires, surveys, observations, testing) used in the study of applied linguistics. Topics will include ethical issues in human subjects research, how to conduct a literature review, how to conduct classroom-based research. Prerequisites: Graduate standing. (3+0)

LING F601 Principles of Linguistic Analysis  
3 Credits  
Offered Fall  
Provides experience in working with various languages to determine systematic principles of transcribing and organizing sounds; isolating morphemes; categorizing words into semantic categories; and understanding narrative and other rhetorical structures. For students whose specialty is other than linguistics who could benefit from a graduate-level introduction to linguistic methods. (3+0)

LING F602 Second Language Acquisition  
3 Credits  
Offered Fall  
Central issues in second language acquisition research. Includes a critical review of SLA theories and research. Prerequisites: LING F101 or LING F601; graduate standing; or permission of instructor. (3+0)

LING F603 Phonetics and Phonology  
3 Credits  
Scientific approach to the study of human speech sounds and the mechanism of their production (phonetics), as well as the exploration of the fundamental concepts of the sound systems of languages (phonology) and theories which allow for the analysis of real language data. (3+0)

LING F604 Morphology and Syntax  
3 Credits  
Offered Fall Even-numbered Years  
The study of how meaning is encoded in words in languages of the world. Morphological and morphophonemic processes, lexical categories, derivation and inflection, productivity, tense, aspect, mode, case, concord, valence changes, morphological typologies. Similarities and differences among languages in the grammatical devices used to signal relations between nouns and verbs, negation, comparison, attribution. Prerequisites: LING F101 or LING F601; graduate standing; or permission of instructor. (3+0)

LING F610 Theory and Methods of Second Language Teaching  
3 Credits  
Offered Spring  
Theory and practice of teaching a second language, including methodological approaches, second language acquisition theory, materials, and testing. (3+0)

LING F611 Second Language Curriculum and Materials Development  
3 Credits  
Offered Fall Even-numbered Years  
Exploration/discussion of theoretical perspectives in Second Language curriculum and materials development. Emphasis on the interconnectivity of materials, syllabus, curriculum and learning. As a result of this course, students will be able to choose, adapt and construct a variety of language teaching materials and understand the ramifications of syllabus and curriculum design. Prerequisites: LING F602; LING F610. Recommended: LING F601. (3+0)

LING F612 Assessment for the Second Language Classroom  
3 Credits  
Offered Spring Odd-numbered Years  
Exploration/discussion of theoretical perspectives in second language assessment, practical considerations in creating language tests, and statistical methods used for analyzing test data. As a result of this course, students will be able to choose, adapt and construct a variety of language assessments for classroom and institutional purposes as well as evaluate the validity of existing assessments. Prerequisites: LING F602; LING F610. Recommended: LING F601. (3+0)

LING F620 Semantics  
3 Credits  
Offered Spring Even-numbered Years  
A systematic exploration of the nature of meaning in human language. Focus is on historical and contemporary approaches to understanding problems of reference, categorization and lexical relationships in meaningful contexts. Prerequisites: Graduate standing or permission of instructor. Stacked with LING F420. (3+0)

LING F621 Cultural Aspects of Language Acquisition  
3 Credits  
An expanded view of the ways in which individuals become socialized into particular patterns of first and second language and literacy. The ongoing acquisition of both oral and written language(s) from early childhood through adult life. Topics will include the cultural dimensions of language development, the relationship between communication and culture, bilingualism and the role of language in the transmission of sociocultural knowledge. Cross-listed with ED F621. (3+0)

LING F627 Introduction to Linguistic Description and Documentation  
3 Credits  
Offered Fall Even-numbered Years  
General introduction to lexicography, field phonetics, grammatical documentation, investigation of narrative, other levels of linguistic documentation, the distinction between description and documentation, and differences in structure and method between pedagogical and academic materials resulting from field work. Prerequisites: LING F601 or equivalent; demonstrated background in phonology and morphology; or permission of instructor. (3+0)

LING F630 Historical Linguistics  
3 Credits  
Offered Spring Even-numbered Years  
Introduction to comparative and historical linguistics: methods of linguistic reconstruction, historical change, genetic relationships, dialectology. Includes Indo-European and Alaskan languages. Prerequisites: LING F318. Stacked with LING F430. (3+0)

LING F631 Field Methods in Descriptive Linguistics I  
3 Credits  
Offered Spring Odd-numbered Years  
Introduction to general issues in language field work and to issues specific to working with little studied and/or endangered languages in particular. Focus on introduction to writing systems, making recordings, computers and transcriptions, planning consultant sessions, working with consultants, interviewing, and ethics in the field. Projects include making transcriptions of familiar language, and later, working on an unfamiliar language with a language consultant, selecting and carrying out a well-defined project, resulting in a term paper. Prerequisites: LING F627 or permission of instructor. Cross-listed with ANTH F632. (3+0)

LING F634 Field Methods in Descriptive Linguistics II  
3 Credits  
Offered Fall Odd-numbered Years  
Second semester of Field Methods sequence. Plan linguistic field project, including field trip, caring for equipment, data handling, community contacts, intellectual property and repatriation. Course work includes lectures and group elicitation with a speaker of a non-Indo-European language. Projects may involve either traditional field work involving finding and working with a consultant, or work involving research of archival materials on languages no longer spoken. Prerequisites: ANTH F632 or LING F631. Cross-listed with ANTH F634. (3+0)
LING F630 Language Policy and Planning 3 Credits
Offered Fall Odd-numbered Years
Consideration of minority languages, including Alaska Native Languages, in light of their histories, current status, and factors affecting future maintenance. Stacked with LING F450. (3+0)

LING F651 Topics in Athabaskan Linguistics 3 Credits
Offered Fall Even-numbered Years
Graduate level introduction to important topics in Athabaskan linguistics, including both foundational literature and current research. Topics may include laryngeal features; tonogenesis; syntax-morphology interface; argument structure; lexical semantics; and discourse. Course may be repeated once. Prerequisites: LING F601 or equivalent; graduate standing. Recommended: LING F603; LING F604. Cross-listed with ANL F651. (3+0)

LING F652 Linguistics Applications 3 Credits
In-depth investigation of linguistic problems in selected languages. Includes phonological, morphological, syntactic and semantic issues. Students will produce a grammatical sketch of a chosen language. Prerequisites: LING F318; LING F320; LING F601; or relevant course work. (3+0)

LING F660 Internship 3 Credits
Offered Fall Even-numbered Years
Student works as an apprentice to a language teacher or a linguist doing fieldwork. Maintain a log and a portfolio of work. If teaching, goal would be to develop appropriate lesson plans and do mentored teaching. If doing fieldwork, goal would be to develop appropriate materials for teaching. Prerequisites: LING F603; LING F604; ANTH F632 or LING F610. (3+0)

MARINE SCIENCE AND LIMNOLOGY

MSL F111X The Oceans (n) 4 Credits
Study of the oceans from the broad perspective offered by combining insights from biology, physics, chemistry and geology. Topics include the evolution of the oceans and marine life, forces acting on water and the resulting currents and waves, and relationships between the physics and chemistry of water bodies and their biological productivity. Societal questions related to fisheries management, global climate change and pollution will be discussed. Special fees apply. Prerequisites: Place in ENGL F111X or higher; placement in DEV M105 or higher; or permission of instructor. (3+3)

MSL F211 Introduction to Marine Science I 3 Credits
Offered Fall
This is the first part of a two-semester sequence in Marine Science: MSL F211, F212, F213 (Lab). This course introduces students to the geology, chemistry and physics of the ocean as well as related topics in the cryosphere and climate. Students will gain a basic understanding of the interconnections between the ocean and atmosphere, and the oceans and the solid earth (the continents and sea floor). Prerequisites: Math F107. May be taken concurrently. (3+0)

MSL F212 Introduction to Marine Science II 3 Credits
Offered spring
This course explores the diversity of marine life, from microbes to mammals, and the interactions of marine organisms with each other and with their environment. Topics include primary productivity, marine food webs, physiological adaptations, and ecology of marine habitats from coastal to deep-sea systems. Students will also be introduced to current topics in marine and fisheries research. Prerequisites: MSL F211 (3+0)

MSL F213L Marine Science Laboratory 1 Credit
Offered spring
Introductory laboratory course designed to accompany MSL F211 – F212 series. Laboratory activities will provide students with hands-on experience to cement topics covered in lectures (MSL F211 – F212). Activities include exploration of physical and chemical properties of seawater; geologic and biological classification and introduction to tools for oceanographic data visualization. Special fees apply. Prerequisites: MSL F212 or concurrent enrollment. (0+3)

MSL F220 Scientific Diving 2 Credits
Offered Spring
Introduction to cold water diving and SCUBA techniques used in the research community. Includes familiarization with Alaska subtidal flora and fauna. Opportunity to work underwater and assist with diving projects conducted by MSL F421 students at the Kasitsna Bay Marine Lab during spring break. Completion of this course will allow students to be eligible to join the UAF (AAUS) dive program and to dive on the UAF sanctioned diving projects and have reciprocity to dive with other universities and other government agencies. Through this course, students also can be certified with a Research Diver Specialty (PADI) and a Dry Suit Specialty (PADI). CPR, First Aid (Red Cross), and Emergency Oxygen Administration (DAN) are offered through this course. Graded Pass/Fail. Special fees apply. Prerequisites: Basic biology/ecology courses, SCUBA (open water) certification. Special Conditions: Must have current SCUBA physical approved. (1+1+0)

MSL F317 Introduction to Marine Mammal Biology 3 Credits
Offered Spring Even-numbered years
The course will introduce students to the biology and diversity of cetaceans, pinnipeds, sirenians, and other marine mammals. Topics will include evolution, ecology, reproduction, and behavior of marine mammals, their special adaptations, such as diving, osmo- and thermo-regulation, and will explore some current conservation and management issues. The course will be structured in a lecture format. Prerequisites: BIOL F116 or MSL F212 or instructor permission. (3+0)

MSL F330 The Dynamic Alaskan Coastline 3 Credits
Offered Fall
Mountains, rivers, glaciers, fjords, estuaries, deltas, tidal zones, sediments, nutrients, elements, habitats, fish. This class will provide an interdisciplinary perspective on the dynamic Alaskan coastal landscape from Glacier Bay to the Arctic. We will delve into the driving geological, geochemical, and oceanographic processes occurring along Alaska's coast and linkages to various marine ecosystems. Students will learn the fundamental physical and geochemical processes in the coastal zone using various locations in Alaska as examples. Field trip required. Special fees apply. Prerequisites: Junior standing; MSL F111X or GEOS F101; CHEM F105X; PHYS F103X or PHYS F211X. (3+0)

MSL F403 Estuaries Oceanography 3 Credits
Offered Fall
Advanced class for Marine Science minors, offering an overview of the oceanography of estuaries. The class involves lectures, reading assignments, reviewing and criticizing scientific literature. Prerequisites: MSL F212, STAT F200 or permission of instructor. (3+0)

MSL F411 Current Topics in Oceanographic Research 3 Credits
Study of research problems from biology, chemistry, geology and physics. Topics include sea floor hydrothermal vents and their indigenous communities, manganese nodules, tsunami prediction, radioisotopes in the sea, Bering Sea productivity and the role of the ocean in global warming due to fossil fuel carbon dioxide. Prerequisites: Four semesters of natural sciences at F100-level or above or permission of instructor. (3+0)

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.

<tbody>
<tr>
<td>MSL F412</td>
<td>Early Life Histories of Marine Invertebrates</td>
<td>3</td>
<td>Offered Fall Odd-numbered Years</td>
<td>This course will explore the diversity of reproductive strategies and larval forms in marine invertebrates, and consider selective pressures governing the evolution of these forms. Topics include: larval ecology and evolution, environmental constraints on early life-histories, reproductive biology, population dynamics, sources of larval mortality, dispersal and recruitment. Graduate standing or instructor permission and invertebrate zoology recommended. Prerequisites: MSL F212 and upper-division standing or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>MSL F421</td>
<td>Field Course in Subtidal Studies</td>
<td>2</td>
<td>Offered Spring</td>
<td>Students will propose a hypothesis and experimentally test it during a one-week field trip to the Kasitsna Bay Lab. Prior to field trip, students will develop a proposal, dive plan and materials list in relation to their project. Undergraduates will present their findings in an oral presentation to the class while graduate students will present theirs in a public seminar and produce a conference-ready poster. Special fees apply. Prerequisites: MSL F420, basic biology/ecology courses, SCUBA (open water) certification. Special Conditions: Must have a current SCUBA physical approved. Stacked with MSL F623. (1+1+8)</td>
</tr>
<tr>
<td>MSL F431</td>
<td>Polar Marine Science</td>
<td>3</td>
<td>Offered Fall Even-numbered Years</td>
<td>Physical, biological, chemical and geological oceanography of the polar oceans with emphasis on comparing and contrasting the Arctic and Antarctic. Prerequisites: MSL F111; or graduate standing. (3+0)</td>
</tr>
<tr>
<td>MSL F433</td>
<td>Acoustical Oceanography</td>
<td>3</td>
<td></td>
<td>Principles and applications of underwater sound in solving oceanographic problems related to chemistry, physics, geology and biology, including hydroacoustical methods, acoustical phenomena, bioacoustics and fisheries acoustics, environmental noise and signal processing. Prerequisites: College physics and calculus. (3+0)</td>
</tr>
<tr>
<td>MSL F449</td>
<td>Biological Oceanography</td>
<td>3</td>
<td>Offered Fall</td>
<td>Survey of biological processes emphasizing organic matter synthesis and transfer including topics essential to a basic understanding of contemporary biological oceanography. Primary and secondary production, standing stocks, distribution, and structure and dynamics of phytoplankton and zooplankton populations. The transfer of organic matter to higher trophic levels and food webs. Nutrient cycling, especially but not exclusively nitrogen, phosphorus and silicon, microbiological processes relevant to nutrient cycling. Heterotrophic production, benthic communities, coastal ecosystems, the influence of organisms on the composition of seawater, particularly with reference to oxygen and carbon dioxide regimes. Aspects of regional oceanography. Prerequisites: Upper Division standing in a Science major; MSL F212 for undergraduate students. (3+0)</td>
</tr>
<tr>
<td>MSL F450</td>
<td>Marine Biology and Ecology Field Course</td>
<td>4</td>
<td>Offered Summer Odd-numbered Years; As Demand Warrants</td>
<td>Advanced understanding of marine organisms in an ecological and evolutionary context through field and laboratory work at the Kasitsna Bay Marine Lab. Includes collection of marine macroalgae, invertebrates and plankton and relating their anatomical organization to habitat, lifestyle and ecology. Emphasis on familiarization with Alaska’s nearshore flora and fauna, the ecological function of organisms and ecosystem dynamics. Includes employing different field sampling techniques and experimental designs in various habitats found around the Kasitsna Bay Marine Lab, e.g. rocky intertidal, open water, mudflats, seagrass beds and salt marshes. Prerequisites: One year of biology and permission of instructor. Recommended: Basic courses in ecology and invertebrate zoology. Stacked with MSL F651. (3+6)</td>
</tr>
<tr>
<td>MSL F456</td>
<td>Kelp Forest Ecology</td>
<td>4</td>
<td>Offered Summer Even-numbered Years; As Demand Warrants</td>
<td>Introduction to knowledge, hypotheses and disputes regarding communities of nearshore tidal communities and the ecological interactions that influence their structure and dynamics. Includes primary published literature in marine subtidal ecology, and local Alaska subtidal flora and fauna. Work underwater conducting ecological research. Includes formulating questions, collecting and analyzing ecological data, report writing and feedback. Special fees apply. Prerequisites: UAF Science Diver certification. Stacked with MSL F636. (28+35)</td>
</tr>
<tr>
<td>MSL F463</td>
<td>Chemical Coastal Processes</td>
<td>3</td>
<td>Offered Spring Odd-numbered years</td>
<td>A study of chemical processes in the coastal ocean. This course will examine chemical interactions at different boundaries, and explore physical and biological controls on the chemistry of coastal environments. Some of the topics to be covered include: The role of suspended particles; coastal acidification, photochemical processes; controls on coastal productivity; future challenges in coastal management. This course is intended for students with a background in general chemistry and marine science. Prerequisites: Upper-division standing, CHEM F105, CHEM F106 and MSL F111. (3+0)</td>
</tr>
<tr>
<td>MSL F467</td>
<td>Introduction to Marine Macroalgae (n)</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Introduction to marine macroalgae. Algal structure, function and ecology, basic knowledge of the major phyla, key and press algae, and local Alaska flora. Includes a four to five day field trip to Kasitsna Bay Marine Laboratory. Special fees apply. Prerequisites: Upper-division standing in a natural science for undergraduates or graduate standing. Stacked with MSL F667. (2+3)</td>
</tr>
<tr>
<td>MSL F601</td>
<td>Professional Development</td>
<td>1</td>
<td>Offered Fall</td>
<td>Improve ability to make oral and poster presentations and to write resumes and cover letters. Includes lectures, discussions, and four individual projects. Students are encouraged to use their thesis/dissertation material for the posters and oral presentations. Feedback on all projects will be given by both instructor and students. Recommended: Graduate status. (1+0)</td>
</tr>
<tr>
<td>MSL F602</td>
<td>Proposal Writing</td>
<td>1</td>
<td>Offered Fall; As Demand Warrants</td>
<td>Familiarize students with the proposal writing process. Writing proposals is a common requirement during graduate school and will be continuing during the career as a scientists and researcher. This class aims to cover some common rules about good proposal writing. Students will be required to write a proposal and to give feedback to 1 – 2 proposals of classmates. Graded Pass/Fail. Recommended: Graduate status. (1+0)</td>
</tr>
<tr>
<td>MSL F604</td>
<td>Modern Applied Statistics for Fisheries</td>
<td>4</td>
<td>Offered Odd-numbered Years</td>
<td>Covers general statistical approaches to quantitative problems in marine science and fisheries with guidance on how to collect and organize data, how to select appropriate statistical methods and how to communicate results. A variety of advanced statistical methods for analyzing environmental data sets will be illustrated in theory and practice. Prerequisites: STAT F200; STAT F401; proficiency in computing with R or permission of instructor. Cross-listed with: FISH F604. (3+3)</td>
</tr>
<tr>
<td>MSL F605</td>
<td>Controversies in Marine Science</td>
<td>1</td>
<td>Offered Spring Even-Numbered Years</td>
<td>Introduction to the idea that science is fluid and controversies and disagreements do occur. These disagreements are often published in the primary literature. This course will be a discussion/debate of various controversial topics in marine science. Graded Pass/Fail. Recommended: Graduate status. (1+0)</td>
</tr>

</table>
MARINE SCIENCE AND LIMNOLOGY (MSL)

MSL F610 Marine Biology
3 Credits Offered Spring
Biological study of the major plant and animal groups in the sea and their roles in pelagic and benthic systems. Physical, chemical and geological features affecting marine organisms and the role of bacteria in the sea. The basic biology and adaptations of selected species of zooplankton and nekton. The benthos-shore biota, shelf and deep-sea organisms: basic biology, trophic roles and adaptations of selected species. Prerequisites: Degree in biology or permission of instructor. Recommended: Courses in invertebrate zoology, ichthyology, and vertebrate zoology. (3+0)

MSL F612 Early Life-histories of Marine Invertebrates
3 Credits Offered Fall Odd-numbered Years
This course will explore the diversity of reproductive strategies and larval forms in marine invertebrates, and consider selective pressures governing the evolution of these forms. Topics include: larval ecology and evolution, environmental constraints on early life-histories, reproductive biology, population dynamics, sources of larval mortality, dispersal and recruitment. Graduate standing or instructor permission and invertebrate zoology recommended. (3+0)

MSL F615 Physiology of Marine Organisms
3 Credits
A study of the physiological systems of and adaptation to the marine environment, intertidal, pelagic, and deep benthos environment and energy flows will be discussed. Prerequisites: Graduate standing or permission of instructor. (3+0)

MSL F619 Biology of Marine Mammals
3 Credits Offered As Demand Warrants
Introduction to a broad range of research and conservation topics associated with marine mammals. Topics include physiological adaptations, phylogeny and evolution, behavior, ecology, population dynamics and conservation. Prerequisites: Graduate standing; or upper-division ecology. (3+0)

MSL F620 Physical Oceanography
4 Credits Offered Fall
Physical description of the sea, physical properties of seawater, methods and measurements, boundary processes, currents, tides and waves, and regional oceanography. Prerequisites: Math F202X; PHYS F103X or PHYS F211X; science or engineering degree; or permission of instructor. (3+3)

MSL F621 Polar Marine Science ★
3 Credits Offered Fall Even-numbered Years
Physical, biological, chemical and geological oceanography of the polar oceans with emphasis on comparing and contrasting the Arctic and Antarctic. Prerequisites: MSL F620; or graduate standing. (3+3)

MSL F622 Tides — Their Nature and Impact
3 Credits Offered Spring Even-numbered Years
This course will provide students in marine sciences with in-depth knowledge of tides and the role of tides in the physical, biological, chemical and geological processes in the oceans. We will investigate the importance of tides for the coastal regions of the Bering Sea and North Pacific. We will also cover associated aspects such as tidal currents and their role in transport of sediments, zooplankton and fish larvae, harnessing the tidal power for the generation of electricity, and impact of tides on climate. Prerequisites: MSL F620; MATH F201X; baccalaureate degree in physics, engineering, mathematics or equivalent. (3+0)

MSL F623 Field Course in Subtidal Studies
2 Credits Offered Spring
Students will propose a hypothesis and experimentally test it during a one-week field trip to the Kasitsna Bay Lab. Prior to field trip, students will develop a proposal, dive plan and materials list in relation to their project. Undergraduates will present their findings in an oral presentation to the class while graduate students will present theirs in a public seminar and produce a conference-ready poster. Special fees apply. Prerequisites: MSL F420; basic biology/ecology courses; SCUBA (open water) certification. Special Conditions: Must have a current SCUBA physical approval. Stacked with MSL F421. (1+1+8)

MSL F624 Oceanic-Atmospheric Gravity Waves
3 Credits Offered Spring: As Demand Warrants
Introduction to the dynamics of surface and internal gravity waves in non-rotating and rotating fluids including, derivation/solutions of the wave equation, approximations to the governing equations, particle motions and wave energetics, dispersion relationships, phase and group velocities, normal mode and WKB theory, refraction, reflection, critical layer absorption, wave instabilities. Prerequisites: MSL F620; MATH F302; or permission of instructor. Cross-listed with ATM F624. (3+0)

MSL F625 Shipboard Techniques
3 Credits Offered As Demand Warrants
Introduction to modern oceanographic shipboard sampling and analysis techniques. (2+3)

MSL F626 Continental Shelf Dynamics
3 Credits Offered As Demand Warrants
Geophysical fluid dynamics fundamentals appropriate to continental shelf circulation. Steady and time-dependent wind and buoyancy-forced flows in the presence of stratification and bathymetry. Prerequisites: MSL F620; MATH F421. (3+0)

MSL F627 Statistical Computing with R
2 Credits Offered Fall, As Demand Warrants
Using the free, open-source software R to teach computing, programming, and modeling concepts for the statistical computing of fisheries and biological data. Prepares students for other graduate-level, quantitative fisheries courses and covers exploratory statistical and graphical analyses, as well as computer-intensive methods such as bootstrapping and randomization tests. Prerequisites: STAT F200X or equivalent, STAT F401 or equivalent, and proficiency with Excel; or permission of instructor. Cross-listed with FISH F627. (1+3)

MSL F628 Sea Ice Ecology ★
1 Credit Offered As Demand Warrants
Provides students with an introduction into the physics, chemistry and biology of Arctic and Antarctic sea ice. Topics will include seasonality of sea ice extent, ice microstructure, diversity and activity of biological communities, and impacts of climate change on the ice biota. Recommended: MSL F650. (1+0)

MSL F629 Methods of Numerical Simulation in Geophysical Fluid Dynamics
4 Credits Offered Fall Odd-numbered Years
Fundamentals of computer simulation, including time and spatial differencing and stability theory applied to partial differential equations describing dynamic processes in the ocean and atmosphere. Numerical approximation schemes for geophysical fluid dynamics will be analyzed through equations of motion, continuity and transport. Special consideration given to description of frictional processes in turbulent flow and transport/diffusion phenomena. Includes laboratory practice. Prerequisites: MATH F310; MATH F421; MATH F422 or equivalent; baccalaureate degree in physics, engineering, mathematics or equivalent; experience with FORTRAN. (3+3)

MSL F630 Geological Oceanography
3 Credits Offered Spring
Topography and structure of the ocean floor. Theory of plate tectonics. Geology of ocean basins, continental slope, shelf and coastal environments. Major sediment types and distributions. Sediment transport and deposition. Interaction between seawater, rock, and sediment. Paleoceanography. Prerequisites: Graduate standing or permission of instructor. Upper-division standing are invited to contact the instructor. (3+0)
MSL F631  Data Analysis in Community Ecology  
3 Credits  Offered Spring Odd-numbered Years  
This course will provide an overview of statistical methods that have been specifically developed to aid our understanding and interpretation of the structure, abundance, and distribution of species and communities in relation to resources and the environment. Prerequisites: STAT F200, STAT F401 or equivalent; FISH 627 (Stat Comp. with R) or familiarity with R, General Ecology, Graduate standing in Fisheries or permission of instructor. Cross-listed with FISH F631. (3+0)

MSL F640  Fisheries Oceanography  
4 Credits  Offered Fall Odd-numbered Years  
Oceanography of marine processes affecting commercially important fisheries (finfish and shellfish) and species that affect them. Interactions between fisheries resources and physical, biological, geological and chemical oceanography, as well as climatological and meteorological conditions. Topics include recruitment, transport, natural mortality, predator-prey relationships, competition, distribution and abundance. El Nino/La Nina, regime shifts, and climate change. Emphasis on early life history of fishes. Examples from fisheries and ecosystems worldwide are used. Prerequisites: MSL F620; MSL F650; or permission of instructor. Recommended: FISH F400. (4+0)

MSL F650  Biological Oceanography  
3 Credits  Offered Fall  
Survey of biological processes emphasizing organic matter synthesis and transfer including topics essential to a basic understanding of contemporary biological oceanography. Primary and secondary production, standing stocks, distribution and structure and dynamics of phytoplankton and zooplankton populations. The transfer of organic matter to higher trophic levels and food webs. Nutrient cycling, especially but not exclusively nitrogen, phosphorus and silicon, microbial processes relevant to nutrient cycling. Heterotrophic production, benthic communities coastal ecosystems, the influence of organisms on the composition of seawater, particularly with reference to oxygen and carbon dioxide regimes. Aspects of regional oceanography. Prerequisites: Upper-division standing in a science major. (3+0)

MSL F651  Marine Biology and Ecology Field Course  
4 Credits  Offered Summer Odd-numbered Years; As Demand Warrants  
Advanced understanding of marine organisms in an ecological and evolutionary context through field and laboratory work at the Kasitsna Bay Marine Lab (Kachemak Bay). Includes collection of marine macroalgae, invertebrates and plankton and relating their anatomical organization to habitat, lifestyle and ecology. Emphasis will be on familiarization with Alaska's nearshore flora and fauna, the ecological function of organisms and ecosystem dynamics. Students will employ different field sampling techniques and experimental designs in various habitats found around the Kasitsna Bay Marine Lab, e.g. rocky intertidal, open water, mudflats, seagrass beds, and salt marshes. Graduate students will perform a research project related to the course subject matter. Prerequisites: One year of biology; graduate standing; permission of instructor. Recommended: Basic courses in ecology and invertebrate zoology. Stacked with MSL F450. (3+6)

MSL F652  Marine Ecosystems  
3 Credits  Offered Spring Even-numbered Years  
Understanding ecosystems of the sea in the context of evaluating the impact of human activities. Focus on current concepts, trends and perspectives. Prerequisites: BIOL F472; MSL F620; MSL F630; or permission of instructor. (3+0)

MSL F653J  Zooplankton Ecology  
3 Credits  Offered Fall Odd-numbered Years  
Survey of marine zooplankton including processes and variables which influence their production and dynamics. Emphasis on the north-east Pacific ocean zooplankton community. Field and lab methods for sampling include fixing, preserving, subsampling, identifying and quantifying zooplankton collections. Laboratory techniques for culture of zooplankton include physiological measurements of bioenergetic parameters. Course is taught in Juneau. Prerequisites: Invertebrate zoology course, MSL F610, or permission of instructor. Cross-listed with FISH F653J. (3+0)

MSL F654  Benthic Ecology  
3 Credits  Offered Spring Odd-numbered Years  
Ecology of marine benthos, from subtidal to hadal zone. Methods of collecting, sorting, narcotizing, preserving and analyzing benthic assemblages, including video analytical techniques from submersibles and ROV's. Hydrothermal vent and cold seep assemblages. Physiological and/or ecological adaptations of benthic communities, including animal-sediment relationships, feeding, reproduction and growth. Depth, spatial and latitudinal distribution patterns. Prerequisites: Invertebrate zoology course, marine biology course, or permission of instructor. (3+0)

MSL F654J  Benthic Ecology  
3 Credits  Offered Spring Odd-numbered Years  
Ecology of marine benthos, from subtidal to hadal zones. Methods of collecting, sorting, narcotizing, preserving and analyzing benthic assemblages, including video analytical techniques from submersibles and ROV's. Hydrothermal vent and cold seep assemblages. Physiological and/or ecological adaptations of benthic communities, including animal-sediment relationships, feeding, reproduction and growth. Depth, spatial and latitudinal distribution patterns. Prerequisites: Invertebrate zoology course, marine biology course, or permission of instructor. Cross-listed with FISH F654J. (3+0)

MSL F655  Phytoplankton Ecology, from Form to Function  
2 Credits  Offered Spring Odd-numbered Years  
Introduction to the diversity and functioning of aquatic (marine and limnic) phytoplankton taxa in a wide sense. Topics will include various adaptations to the environment (life cycles, physiology). Four lab sessions will intensify the understanding of the covered topics and give students hands-on experience in analyzing phytoplankton samples on algal diversity and activity using modern techniques (fluorescence microscopy, flow cytometry, PAM fluorometry). Recommended: Biological oceanography and/or graduate courses in algal ecology and aquatic ecosystems. (1+2)

MSL F656  Kelp Forest Ecology  
3 Credits  Offered Summer Even-numbered Years; As Demand Warrants  
Introduction to knowledge, hypothesis and discussion regarding components of nearshore tidal communities and the ecological interactions that influence their structure and dynamics. Includes primary published literature in marine subtidal ecology, and local Alaska subtidal flora and fauna. Work underwater conducting ecological research. Includes formulating questions, collecting and analyzing ecological data, report writing and feedback. Special fees apply. Prerequisites: UAF Science Diver certification. Stacked with MSL F456. (28+35)

MSL F660  Chemical Oceanography  
3 Credits  Offered Spring  
The chemical, biological and physical processes that determine the distribution of chemical variables in the sea. The distribution of stable and radiocaesium isotopes are used to follow complex chemical cycles, with particular emphasis on the cycles of nutrient elements. The chemistry of carbon is considered in detail. Implications of the mid-ocean ridge vent system to ocean chemistry are examined. Prerequisites: Graduate standing or permission of instructor. Cross-listed with CHEM F466. (3+0)

MSL F661  Stable Isotope Techniques in Environmental Research  
3 Credits  Offered Spring Even-numbered Years  
An examination of the use of added or naturally occurring isotope tracers in ecological studies. Demonstration of equipment and modern techniques. Prerequisites: MSL F660 or permission of instructor. (3+0)
Marine Science and Limnology (MSL) — Master of Business Administration (MBA)

MSL F663 Chemical Coastal Processes
3 Credits Offered Spring Odd-numbered years
A study of chemical processes in the coastal ocean. This course will examine chemical interactions at different boundaries, and explore physical and biological controls on the chemistry of coastal environments. Some of the topics to be covered include: the role of suspended particles; coastal acidification, photochemical processes; controls on coastal productivity, future challenges in coastal management. This course is intended for students with a background in general chemistry and marine science. Prerequisites: Upper-division standing, CHEM F105, CHEM F106 and MSL F111. (3+0)

MSL F667 Introduction to Marine Macroalgae
3 Credits Offered As Demand Warrants
Introduction to marine macroalgae. Includes algal structure, function and ecology, basic knowledge of the major phyla, key and press algae and local Alaska flora. Includes a four to five day field trip to Kasiltsna Bay Marine Laboratory. Special fees apply. Prerequisites: Upper-division standing in a natural science for undergraduates or graduate standing. Stacked with MSL F467. (2+3)

MSL F670 Nutrient Dynamics
2 Credits Offered Fall Odd-numbered Years
The dynamics of nitrogen, phosphorus and silicon cycles of the world oceans and the specific processes which transfer nutrients between ecosystems compartments. Analytical techniques employed in measurement of nutrient transfer rates. Prerequisites: MSL F650 or MSL F660 or permission of instructor. (2+0)

MSL F680 Marine Sustainability Internship
2 Credits Offered Fall
Internship program in marine ecosystem sustainability to broaden students’ interdisciplinary training, develop new research tools, build expertise outside their home discipline, gain exposure to careers, and gain a unique perspective on research problems. Internships are for a minimum of 8 weeks and take place during the summer. In the autumn students report on and meet to discuss their internship experiences. Prerequisites: MSL F652 or permission of instructor. Cross-listed with FISH F680 and ANTH F680 (0+0+5 – 16)

MBA F602 Accounting for Managers
3 Credits Offered Fall or Spring
A complete and balanced treatment of the concepts, procedures and uses of financial accounting. Coverage includes the accounting cycle, accounting principles, mass processing of transactions, internal control, inventories and merchandising operations, long-lived assets and liabilities, corporate accounting and reporting, partnership accounting, financial statements, funds flow analysis, cost systems for manufacturing operations, and managerial accounting. Prerequisites: Graduate standing; or permission of the M.B.A. Director. (3+0)

MBA F605 Contemporary Topics in Accounting
3 Credits Offered Fall or Spring, As Demand Warrants
An advanced seminar designed to meet the accounting needs of managers. These topics can range from taxes to management control systems. May be taken twice for credit when topic changes. Prerequisites: ACCT F602; graduate standing; or permission of the M.B.A. director. (3+0)

MBA F607 Human Resources Management
3 Credits Offered Fall or Spring, As Demand Warrants
The study of the effective management of human resources in organizations to include employee planning and recruiting, selection and orientation, training and career development, performance evaluation, compensation, EEO, occupational safety and health, and labor relations. Prerequisites: Graduate standing or permission of M.B.A. Director. (3+0)

MBA F617 Organizational Theory for Managers
3 Credits Offered Fall or Spring
Overview of the history, concepts, literature and applications in organizational theory. Emphasis on applications and cases applying organizational theory concepts to management. Prerequisites: Graduate standing or permission of M.B.A. Director. (3+0)

MBA F620 Portfolio Theory and Asset Pricing
3 Credits Offered As Demand Warrants
Examination of modern normative portfolio theory and asset pricing. Includes mathematics of portfolio analysis, single-period risk and return measures, and the process of optimal portfolio selection. Prerequisites: M.B.A. standing. (3+0)

MBA F621 Fundamentals of Economics
3 Credits Offered Spring
Analysis of demand and supply under various market forms, cost and theory of production, factor pricing and theory of distribution and survey of welfare economics. Prerequisites: Graduate standing or permission of MBA Director. (3+0)

MBA F628 Analytical Methods for Economics and Business
3 Credits Offered Spring
Covers the important analytical management tools and techniques and their application to business problems. In particular, we will cover both mathematical and statistical techniques that have direct applications in a variety of management situations. This course will serve as a foundation course for the MBA program. Prerequisites: Graduate standing or permission of M.B.A. Director. (3+0)

MBA F630 Derivative Securities
3 Credits Offered As Demand Warrants
Derivative securities including options strategies, binomial and Black-Scholes pricing models, commodity and interest-rate futures, hedging strategies using options and futures, and risk management. Prerequisites: M.B.A. standing. (3+0)

MBA F643 Marketing Management
3 Credits Offered Fall or Spring
Provides managerial approach to examining processes for identifying prospective opportunities, as well as review of marketing mix elements relating to planning, developing and implementing marketing plans. Topics include market segmentation, buyer behavior, product policy and strategy, pricing, promotion and sales force management, distribution channel policy, competitive behavior, market research and marketing ethics. Prerequisites: Graduate standing or permission of M.B.A. Director. (3+0)

MBA F652 Fundamentals of Business
3 Credits Offered Fall
Introduction to business and management. Class sessions will be used to overview all functional business disciplines and to discuss the disciplines in relation to one another. Graduate standing; or permission of M.B.A. Director. (3+0)

MBA F673 Technology Management
3 Credits Offered As Demand Warrants
Overview of the skills a manager needs to administer an information systems department, including extensive discussions of current trends in management of IS and the IS industry. Prerequisites: Graduate standing or approval of the M.B.A. Director. (3+0)

MBA F675 Quantitative Methods for Managers
3 Credits Offered Fall or Spring
An in-depth treatment of quantitative research methods in an applied context. The usefulness of those techniques to the managerial decision-making process. Research skills are presented as a set of tools that enable managers to make better decisions. Prerequisites: STAT F200X or equivalent and graduate standing; or permission of M.B.A. Director. (3+0)
MBA F680 Financial Markets and Strategy  
3 Credits  
Offered Fall or Spring  
Description of capital markets, development of the major financial theories that explain how to value financial instruments, and examination of how these theories can be used by corporations to evaluate real investments. How firms choose among the various instruments available to them for financing operations and how these instruments help firms manage risks. These corporate financial decisions are viewed as part of the overall corporate strategy of firms, affecting investment and operating strategies, product market strategies, and the ways in which executives are compensated. Prerequisites: ACCT F602; graduate standing; or permission of M.B.A. director. (3+0)

MBA F681 Fixed Income Securities and Markets  
3 Credits  
Offered Fall or Spring, As Demand Warrants  
Fixed income securities and markets including treasury, agency, mortgage-backed and corporate securities, municipal bonds and derivatives. Introduces technical issues relating to duration, convexity and bond-portfolio management. Prerequisites: M.B.A. standing. (3+0)

MBA F682 Financial Statement Analysis  
3 Credits  
Offered Fall or Spring, As Demand Warrants  
How to comprehend and critically evaluate financial statements. Building on topics introduced in a first-year course in financial accounting, analyze additional disclosures typically included in financial statements. These activities will be useful in tasks related to valuation, credit decisions, competitor assessment and bankruptcy predictions. Prerequisites: M.B.A. standing. (3+0)

MBA F683 Advanced Topics in Marketing  
3 Credits  
Offered Fall or Spring, As Demand Warrants  
Current topics and issues in marketing management, such as political and services marketing, marketing communications, marketing in Alaska or other relevant subjects. Note: May be taken twice for credit when topic changes. Prerequisites: M.B.A. standing. (3+0)

MBA F690 Corporate Strategy  
3 Credits  
Offered Fall or Spring  
An integrative approach to strategy formation and implementation (decision-making) to achieve organization goals. Students will be introduced to theoretical perspectives and associated methodologies directed toward resolving the unstructured problems and opportunities which confront general managers at the highest levels of an organization. MBA F690 is an advanced seminar taken during the student's last spring semester. Prerequisites: M.B.A. standing. (3+0)

MBA F691 Advanced Topics in Business  
3 Credits  
Offered Fall or Spring, As Demand Warrants  
Developing managers’ ability to excel in specialized areas of business such as entrepreneurship and risk management. Prerequisites: M.B.A. standing. (3+0)

MATHEMATICS

Developmental Mathematics

DEVM F050 Prealgebra  
3 Credits  
Operations with whole numbers, fractions, decimals, percents and ratios, signed numbers, evaluation of algebraic expressions and evaluation of simple formula. Metric measurement system and geometric figures. Also available via e-Learning and Distance Education. Prerequisites: Appropriate placement test scores. (3+0)

DEVM F051 Math Skills Review  
1 Credit  
Offered As Demand Warrants  
Develops and reviews basic mathematical terminology, theory and operations as outlined by the Alaska State Mathematics Standards.

Mathematics topics focus on reviewing the six basic “strands” of mathematical content: numeration, measurement, estimation and computation, function and relationship, geometry, and statistics and probability. Approaches to problem solving will emphasize the process of mathematically thinking, communication and reasoning. It is an appropriate course for those preparing for the High School Qualifying Exam in Alaska or those needing a review of basic math skills in preparation for a math placement test at UAF. May be repeated for a total of three credits. Graded Pass/Fail. Prerequisites: Placement into DEVM F050 or DEVM F060. (1+0)

DEVM F056 Math Fast Track: Prealgebra/Elementary Algebra Review  
1 Credit  
Offered 3 times per year: Augustmester, Wintermester, Maymester  
A 20-hour intensive review of math concepts offered prior to each semester. Covers prealgebra and elementary algebra topics to prepare qualified students to potentially improve their math course placement. Students should have a history of being successful in equivalent levels of math, although they may not recall enough information to place well on the placement test. Students who are successful in this class have the possibility of advancing through one or two semesters of development math. Graded Pass/Fail. Prerequisites: Placement into DEVM F050 or DEVM F060. (1+0)

DEVM F060 Elementary Algebra  
3 Credits  
First year high school algebra. Evaluating and simplifying algebraic expressions, solving first degree equations and inequalities, integer exponents, polynomials, factoring, rational expressions, equations and graphs of lines. Also available via e-Learning and Distance Education. Prerequisites: Grade of C or better in DEV F050; or ABUS F155, or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEVM F061 Review of Elementary Algebra  
1 Credit  
Designed to assist students in reviewing material covered by DEVM F060. Individuals who have not previously taken an elementary algebra course are recommended to enroll in DEVM F060. Available via e-Learning and Distance Education only. (1+0)

DEVM F062 Alternative Approaches to Math: Elementary Algebra  
3 Credits  
Algebraic topics. Includes operations with polynomial expressions, first- and second-degree equations, graphing, integral and relational exponents, and radicals using alternative teaching styles. Prerequisites: Grade of C or better in DEV F050; or ABUS F155, or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEVM F063 Mathematics Skills  
1 – 3 Credits  
Designed to assist students in reviewing and reinforcing course concepts covered by DEV F050, DEV F060, DEV F062, DEV F105 and DEV F106. Consists of instruction which may include lab instruction, individual student work or group work. May be repeated. Recommended for students who need more time and help to master the material in Developmental Math courses. (1 – 3+0)

DEVM F066 Advanced Math Fast Track: Elementary/Intermediate Algebra Review  
1 Credit  
Offered 3 times per year: Augustmester, Wintermester, Maymester  
A 20-hour intensive review of math concepts offered prior to each semester. Covers elementary and intermediate algebra topics to prepare qualified students to potentially improve their math course placement. Students should have a history of being successful in equivalent levels of
MATH F105 Intermediate Algebra
3 Credits
Second year high school algebra. Operations with rational expressions, radicals, rational exponents, logarithms, inequalities, quadratic equations, linear systems, functions, Cartesian coordinate system and graphing. To matriculate to MATH F107X from DEV F105 a grade of B or higher is required. Also available via e-Learning and Distance Education. Prerequisites: Grade of C or better in DEV F060; or DEV F062; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

DEV F071 Review of Intermediate Algebra
1 Credit
Course reviews material covered by DEV F105. Individuals who have not taken an intermediate algebra course on the high-school level are recommended to enroll in DEV F105. Available via e-Learning and Distance Education only. (1+0)

MATH F103X Concepts and Contemporary Applications of Mathematics (m)
3 Credits
Applications of mathematics in modern society. Topics include voting systems, probability and statistics and applications of graph theory in management science; uses of probability and statistics in industry, government and science; and applications of geometry to engineering and astronomy. Problem solving emphasized. Also available via e-Learning and Distance Education. Prerequisites: DEV F105 or DEV F106 or higher or two years of high school algebra. (3+0)

MATH F104X Precalculus (m)
3 Credits
Functions of one and several variables with attention to linear, polynomial, rational, logarithmic and exponential relationships. Geometric progressions as applied to compound interest and present value. Linear systems of equations and inequalities. Note: Credit may be earned for taking MATH F107X or MATH F161X, but not for both. Prerequisites: DEV F105 or DEV F106 or higher or two years of high school algebra and MATH F161X placement or higher. (3+0)

MATH F105X Intermediate Algebra
3 Credits
Second year high school algebra. Operations with rational expressions, radicals, rational exponents, logarithms, inequalities, quadratic equations, linear systems, functions, Cartesian coordinate system and graphing. To matriculate to MATH F107X from DEV F105 a grade of B or higher is required. Also available via e-Learning and Distance Education. Prerequisites: Grade of C or better in DEV F060; or DEV F062; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course. (3+0)

MATH F106X Intensive Intermediate Algebra
4 Credits
Algebraic topics. Includes exponents, radicals, graphing, systems of equations, quadratic equations and inequalities, logarithms and exponentials, and complex numbers using alternative teaching styles. Note: This course satisfies elective credit only. Prerequisites: Grade of C or better in DEV F060; or DEV F062; or DEV F105; or appropriate placement test scores. Prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the courses. (4+0)

MATH F107X Functions for Calculus (m)
4 Credits
A study of algebraic, logarithmic and exponential functions; sequences and series; conic sections; and as time allows, systems of equations, matrices and counting methods. A brief review of basic algebra in the first week prepares students for the rigor expected. The primary purpose of this course, in conjunction with MATH F108, is to prepare students for calculus. Note: Credit may be earned for taking MATH F107X or MATH F161X, but not for both. Also available via e-Learning and Distance Education. Prerequisites: DEV F105 with a grade of B (3.0) or higher; DEV F106; or two years of high school algebra and MATH F107X placement or higher. (4.5+0)

MATH F108X Trigonometry (m)
2 – 3 Credits
A study of the trigonometric functions. Also available via e-Learning and Distance Education. Prerequisites: MATH F107X or placement or concurrent enrollment in MATH F107X. (2 – 3+0)
MATH F215  Introduction to Mathematical Proofs (m) 3 Credits  Offered Spring
Emphasis on proof techniques with topics including logic, sets, cardinality, relations, functions, equivalence, induction, number theory, congruence classes and elementary counting. In addition, a rigorous treatment of topics from calculus or a selection of additional topics from discrete mathematics may be included. Prerequisites: MATH F200X, MATH F201X or concurrent with MATH F201X or permission of instructor. (3+0)

MATH F262X  Calculus for Business and Economics (m) 4 Credits  Ordinarily and partial derivatives. Maxima and minima problems, including the use of Lagrange multipliers. Introduction to the integral of a function of one variable. Applications include marginal cost, productivity, revenue, point elasticity of demand, competitive/complementary products, consumer's surplus, etc. Note: No credit may be earned for more than one of MATH F200X, MATH F262X or MATH F272X. Prerequisites: MATH F161X or placement. (4+0)

MATH F272X  Calculus for Life Sciences (m) 3 Credits  Offered Fall
Differentiation and integration with applications to the life sciences. Note: No credit may be earned for more than one of MATH F200X, MATH F262X or MATH F272X. Prerequisites: MATH F161X or MATH F272X. Prerequisites: MATH F107X and MATH F108 or MATH F272X. Prerequisites: MATH F107X and MATH F108 or placement. (3+0)

MATH F301  Topics in Mathematics 3 Credits  Offered Spring
An elective course in mathematics for majors. Topics will vary from year to year and may be drawn from mathematical biology, numerical linear algebra, graph theory, Gelos theory, logic or other areas of mathematics. May be repeated with permission of instructor for a total of nine credits. Prerequisites: MATH F215 or permission of instructor. (0+0)

MATH F302  Differential Equations 3 Credits  Offered Spring
Nature and origin of differential equations, first order equations and solutions, linear differential equations with constant coefficients, systems of equations, power series solutions, operational methods, and applications. Prerequisites: MATH F202X. (3+0)

MATH F305  Geometry 3 Credits  Offered Spring Even-numbered Years
Topics selected from such fields as Euclidean and non-Euclidean plane geometry, affine geometry, projective geometry, and topology. Prerequisites: MATH F202X and MATH F215 or permission of instructor. (3+0)

MATH F306  Introduction to the History and Philosophy of Mathematics 3 Credits  Offered Spring Odd-numbered Years
Important periods of history as exemplified by such thinkers as Plato, B. Russell, D. Hilbert, L.E.J. Brouwer and K. Godel. For students of mathematics, science, history and philosophy. Prerequisites: MATH F202X or permission of instructor. (3+0)

MATH F307  Discrete Mathematics 3 Credits  Offered Spring
Logic, counting, sets and functions, recurrence relations, graphs and trees. Additional topics chosen from probability theory. Prerequisites: MATH F201X or permission of instructor. Cross-listed with CS F307. (3+0)

MATH F310  Numerical Analysis 3 Credits  Offered Fall
Direct and iterative solutions of systems of equations, interpolation, numerical differentiation and integration, numerical solutions of ordinary differential equations, and error analysis. Prerequisites: MATH F302 or MATH F314 or permission of instructor. Recommended: Knowledge of programming. (3+0)

MATH F314  Linear Algebra 3 Credits
Linear equations, finite dimensional vector spaces, matrices, determinants, linear transformations and characteristic values. Inner product spaces. Prerequisites: MATH F201X. (3+0)

MATH F320  Topics in Combinatorics 3 Credits  Offered Fall Odd-numbered Years
Introduction to some fundamental ideas of combinatorics. Topics selected from such fields as enumerative combinatorics, generating functions, set systems, recurrence relations, directed graphs, matchings, Hamiltonian and Eulerian graphs, trees and graph colorings. Prerequisites: MATH F215 or permission of instructor. (3+0)

MATH F321  Number Theory 3 Credits  Offered Fall Even-numbered Years
The theory of numbers is concerned with the properties of the integers, one of the most basic of mathematical sets. Seemingly naive questions of number theory stimulated much of the development of modern mathematics and still provide rich opportunities for investigation. Topics studied include classical ones such as primality, congruences, quadratic reciprocity and Diophantine equations, as well as more recent applications to cryptography. Additional topics such as continued fractions, elliptical curves or an introduction to analytic methods may be included. Prerequisites: MATH F215 or permission of instructor. (3+0)

MATH F371  Probability 3 Credits  Offered Fall Odd-numbered Years
Probability spaces, conditional probability, random variables, continuous and discrete distributions, expectation, moments, moment generating functions, and characteristic functions. Prerequisites: MATH F202X. (3+0)

MATH F401 W  Introduction to Real Analysis 3 Credits  Offered Fall
Completeness of the real numbers and its consequences convergence of sequences and series, limits and continuity, differentiation, the Riemann integral. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or ENGL F211X or MATH F213X or permission of instructor; MATH F202X; MATH F215. (3+0)

MATH F404  Topology 3 Credits  Offered Fall Even-numbered Years
Introduction to topology, set theory, open sets, compactness, connectedness, product spaces, metric spaces and continua. Prerequisites: MATH F202X; MATH F215. Recommended: MATH F314 and/or MATH F405. (3+0)

MATH F405 W  Abstract Algebra 3 Credits  Offered Spring
Theory of groups, rings and fields. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; MATH F215; or permission of instructor. Recommended: MATH F307 and/or MATH F314. (3+0)

MATH F408  Mathematical Statistics 3 Credits  Offered Spring Even-numbered Years
Distribution of random variables and functions of random variables, interval estimation, point estimation, sufficient statistics, order statistics, and test of hypotheses including various criteria for tests. Prerequisites: MATH F371; STAT F200X. (3+0)

MATH F412  Differential Geometry 3 Credits  Offered Spring Odd-numbered Years
Introduction to the differential geometry of curves, surfaces, and Riemannian manifolds. Basic concepts covered included the Frenet-Serret apparatus, surfaces, first and second fundamental forms, geodesics, Gauss curvature and the Gauss-Bonnet Theorem. Time permitting, topics such as minimal surfaces, theory of hypersurfaces and/or tensor analysis may be included. Prerequisites: MATH F314 and MATH F401; or permission of instructor. (3+0)
COURS ES

MATH F421 Applied Analysis  
4 Credits  
Offered Fall  
Vector calculus, including gradient, divergence, and curl in orthogonal curvilinear coordinates, ordinary and partial differential equations and boundary value problems, and Fourier series and integrals. Prerequisites: MATH F302. (4+0)

MATH F422 Introduction to Complex Analysis  
3 Credits  
Offered Spring  
Complex functions including series, integrals, residues, conformal mapping and applications. May be taken independently of MATH F421. Prerequisites: MATH F302. (3+0)

MATH F430 Topics in Mathematics  
3 Credits  
Offered Spring  
An elective course in mathematics for majors. Topics will vary from year to year and may be drawn from mathematical biology, numerical linear algebra, graph theory, logic, or other areas of mathematics. May be repeated with permission of instructor for a total of nine credits. Prerequisites: MATH F215 or permission of instructor. (3+0)

MATH F460 Mathematical Modeling  
3 Credits  
Offered Fall Odd-numbered Years  
Introduction to mathematical modeling using differential or difference equations. Emphasis is on formulating models and interpreting qualitative behavior such models predict. Examples will be taken from a variety of fields, depending on the interest of the instructor. Students develop a modeling project. Prerequisites: COMM F131X or COMM F141X; ENGL F211X or ENGL F213X; MATH F201X, or permission of instructor. Recommended: One or more of MATH F302; MATH F310; MATH F314; MATH F401; STAT F300; some programming experience. (3+0)

MATH F490 O Senior Seminar  
2 Credits  
Offered Spring  
Advanced topics selected from areas outside the usual undergraduate offerings. A substantial level of mathematical maturity is assumed. Prerequisites: COMM F131X or COMM F141X, at least one of MATH F401 or MATH F405, senior standing. (2+0)

MATH F600 Teaching Seminar  
1 Credit  
Offered Spring  
Fundamentals of teaching mathematics in a university setting. Topics may include any aspect of teaching: university regulations, class and lecture organization, testing, book selection, teaching evaluations, etc. Specific topics will vary on the basis of student and instructor interest. Individual classroom visits will also be used for class discussion. May be repeated for credit. Graded Pass/Fail. Prerequisites: Graduate standing. (1+0)

MATH F611 Mathematical Physics  
3 Credits  
Offered Fall  
Mathematical tools and theory for classical and modern physics. Core topics: Linear algebra including eigenvalues, eigenvectors and inner products in finite dimensional spaces. Infinite series, Hilbert spaces and generalized functions. Complex analysis, including Laurent series and contour methods. Applications to problems arising in physics. Selected additional topics, which may include operator and spectral theory, groups, tensor fields, hypercomplex numbers. Prerequisites: MATH F302; MATH F314; MATH F421; MATH F422; or permission of instructor. Cross-listed with PHYS F611. (3+0)

MATH F612 Mathematical Physics  
3 Credits  
Offered Spring  
Continuation of Mathematical Physics I: mathematical tools and theory for classical and modern physics. Core topics: classical solutions to the principal linear partial differential equations of electromagnetism, classical and quantum mechanics. Boundary value problems and Sturm-Liouville theory. Green's functions and eigenfunction expansions. Integral transforms. Orthogonal polynomials and special functions. Applications to problems arising in physics. Selected additional topics, which may include integral equations and Hilbert-Schmidt theory, perturbation methods, probability theory. Prerequisites: PHYS/MATH F611 or equivalent; or permission of instructor. Cross-listed with PHYS F612. (3+0)

MATH F613 Applied Numerical Analysis  
3 Credits  
Offered Spring Odd-numbered Years  
Review of numerical differentiation and integration, and the numerical solution of ordinary differential equations. Main topics to include the numerical solution of partial differential equations, curve fitting, splines, and the approximation of functions. Supplementary topics such as the numerical method of lines, the fast Fourier transform, and finite elements may be included as time permits and interest warrants. Prerequisites: CS F201, MATH F310, MATH F314, MATH F421, MATH F422 or permission of instructor. (3+0)

MATH F617 Functional Analysis  
3 Credits  
Offered Spring Even-numbered Years  
Study of Banach and Hilbert spaces, and continuous linear maps between them. Linear functionals and the Hahn-Banach theorem. Applications of the Baire Category theorem. Compact operators, self adjoint operators, and their spectral properties. Weak topology and its applications. Prerequisites: MATH F314; MATH F401 or equivalent. Recommended: MATH F422; MATH F641 or equivalent. (3+0)

MATH F631 Algebra I  
4 Credits  
Offered Fall Even-numbered Years  
Rigorous development of groups, rings and fields. Prerequisites: MATH F405 or permission of instructor. (4+0)

MATH F632 Algebra II  
3 Credits  
Offered Fall Odd-numbered Years  
Advanced topics taken from group theory, category theory, ring theory, homological algebra and field theory. Prerequisites: MATH F631. (3+0)

MATH F641 Real Analysis  
4 Credits  
General theory of Lebesgue measure and Lebesgue integration on the real line. Convergence properties of the integral. Introduction to the general theory of measures and integration. Differentiation, the product measures and an introduction to LP spaces. Prerequisites: MATH F401-F402 or permission of instructor. (4+0)

MATH F643 Complex Analysis  
4 Credits  
Offered Spring Even-numbered Years  
Analytic functions, power series, Cauchy integral theory, residue theorem. Basic topology of the complex plane and the structure theory of analytic functions. The Riemann mapping theorem. Infinite products. Prerequisites: MATH F641 or permission of instructor. (4+0)

MATH F651 Topology  
4 Credits  
Offered Spring Odd-numbered Years  
Treatment of the fundamental topics of point-set topology. Separation axioms, product and quotient spaces, convergence via nets and filters, compactness and compactifications, paracompactness, metrization theorems, countability properties, and connectedness. Set theory as needed for examples and proof techniques. Prerequisites: MATH F401-F402 or MATH F404 or permission of instructor. (4+0)

MATH F660 Advanced Mathematical Modeling  
3 Credits  
Offered Spring Even-numbered Years  
The mathematical formulation and analysis of problems arising in the physical, biological, or social sciences. The focus area of the course may vary, but emphasis will be given to modeling assumptions, derivation of model equations, methods of analysis, and interpretation of results for the particular applications. Examples include heat conduction problems, random walk processes, molecular evolution, perturbation theory. Students will develop a modeling project as part of the course requirements. Prerequisites: Permission of instructor. (3+0)
ME F663  Applied Combinatorics and Graph Theory  
3 Credits  Offered Spring Even-numbered Years  
A study of combinatorial and graphical techniques for complexity analysis including generating functions, recurrence relations, theory of counting, planer directed and undirected graphs, and applications to NP complete problems. Prerequisites: MATH F307 and MATH F314. (3+0)

ME F665  Topics in Graduate Mathematics  
3 Credits  Offered As Demand Warrants  
Elective courses in graduate mathematics offered by faculty on a rotating basis. Topics may include, but are not limited to, graph theory, glaciology modeling, general relativity, mathematical biology, Galois theory and numerical linear algebra. May be repeated for credit with permission of instructor. (3+0)

MECHANICAL ENGINEERING

A per-semester fee for computing facilities will be assessed for one or more CEM courses. This fee is in addition to any materials fees.

ME F302  Dynamics of Machinery  
4 Credits  Offered Fall  
Kinematics and dynamics of mechanisms. Analysis of displacements, velocities, accelerations, and forces in linkages, cams and gear systems by analytical, experimental and computer methods. Design applications. Prerequisites: ES F210. Co-requisite: ES F301. (3+3)

ME F308  Measurement and Instrumentation  
3 Credits  Offered Spring  
Measurement theory and concepts. Includes sensors, transducers and complete measurement systems; input, output and processing of engineering parameters; telemetry, data acquisition and logging, and virtual instrument systems. Special fees apply. Prerequisites: ES F331. (2+3)

ME F313  Mechanical Engineering Thermodynamics  
3 Credits  Offered Spring  
Continuation of ES F346 including power and refrigeration cycles (Rankine, Brayton, Otto, and Diesel), compressible flow (isentropic, shock waves, and flow in ducts with friction), combustion and gas vapor mixtures. Prerequisites: ES F346. (3+0)

ME F321  Industrial Processes  
3 Credits  Offered Fall  
Manufacturing processes used in modern industry. Primary and secondary manufacturing processes, casting, hot and cold forming, machining, welding and mass and efficient product design. Special fees apply. (2+3)

ME F334  Elements of Material Science/Engineering  
3 Credits  Offered Spring  
Properties of engineering materials. Crystal structure, defect structure, structure and properties, aspects of metal processing, heat treatment, joining, testing and failure analysis for engineering applications and design. Special fees apply. Prerequisites: CHEM F106X and PHYS F212X. (2+3)

ME F402  Advanced Mechanical System Design  
3 Credits  Offered As Demand Warrants  
Advanced analysis of two- and three-dimensional multi-body mechanical systems. Rigid body system formulation and deformable body system formulation. Application of CAE software for rigid body and large deformable body systems. Prerequisites: ME F302; ME F408; or permission of instructor. Stacked with ME F602. (3+0)

ME F403  Machine Design  
3 Credits  Offered Spring  
Analysis and design of machine components using failure theories. Strength, life, and reliability analysis. Study of design principles and selection procedures for standard machine components. Design project. Prerequisites: ES F331. (3+0)

ME F405  Computer Aided Design  
3 Credits  Offered Every Other Fall  
Introduction to principles of computer aided design and engineering. Applications of software and hardware in solid modeling, design analysis, motion analysis, rapid prototyping, and interface between computer aided design and computer aided manufacturing. Special fees apply. Prerequisites: Senior standing or permission of instructor. (1.5+4.5)

ME F406  Computer Aided Manufacturing  
3 Credits  Offered Every Other Spring  
Introduction to computer aided manufacturing (CAM). This includes the principles of computer aided process planning (CAPP) and an introduction to computer numerical control (CNC) tools used in manufacturing. Emphasis will be on methodology with hands-on applications of computer software and specific machine tools. Prerequisites: ME F321; senior standing or instructor permission. (1.5+4.5)

ME F408  Mechanical Vibrations  
3 Credits  Offered Fall  
Response of mechanical systems to internal and external forces. Free and forced vibration, random vibration. Discrete and continuous systems. Vibration parameter measurements and stability criteria. Prerequisites: ES F201, ES F210, ES F301. (2+2)

ME F409  Controls  
3 Credits  Offered Fall  
Analysis and design of control systems. Block diagrams, transfer functions and frequency analysis. Closed loop systems and system stability. Industrial controllers and system compensation. Prerequisites: ES F201; ES F301. (2+2)

ME F414  Thermal Systems Design  
3 Credits  Offered Fall  
Introduction to the design of power and space conditioning systems, energy conversion, heating, ventilating, air conditioning, total energy systems and introduction to thermal system simulation and optimization. Prerequisites: ES F341; ES F346. (3+0)

ME F415 W  Thermal Systems Laboratory  
3 Credits  Offered Spring  
Testing and evaluation of components and energy systems such as pumps, fans, engines, heat exchangers, refrigerators and heating/power plants. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; ES F341; ME F313; ME F441. Co-requisite: ME F308. (1.5+4.5)

ME F416  Design of Mechanical Equipment for the Petroleum Industry  
3 Credits  Offered Fall  
Design, selection and operation of equipment used in production and processing of crude oil and gas. Instrumentation and control systems used with mechanical equipment. Prerequisites: ES F341; ES F346. (3+0)

ME F440  Introduction to Microfluidics  
3 Credits  Offered Spring Odd-numbered Years  
Overview of basic concepts and principles of fluids at the micron scale; introduction to the design and fabrication of microfluidic devices. Prerequisites: ES F341; PHYS F103X (for Math and non-Physics science major); PHYS F211X (for Engineering, Math and Physics major); junior standing or permission of instructor. Stacked with ME F640. (3+0)
ME F441 Heat and Mass Transfer
3 Credits Offered Fall
Fundamental concepts of heat and mass transfer including steady state and transient conduction, laminar and turbulent free and forced convection, evaporation, condensation, ice and frost formation, black body and real surface radiation, and heat exchangers. Prerequisites: ES F301; ES F341; ES F346. (3+0)

ME F443 Fluid Mechanics and Heat Transfer Characteristics of Nanofluids
3 Credits Offered As Demand Warrants
Description of nanofluids, nanostructured materials and dispersion in base fluids. Thermophysical properties: density, viscosity, thermal conductivity and specific heat. Theoretical equations and empirical correlations for properties. Principles of measurements of properties. Fluid dynamic losses and pumping power required for nanofluid flow in heat transfer systems. Experimental methods of determining the convective heat transfer coefficient of nanofluids. Practical application to heat exchangers in industries. Nanofluids flows in mini- and microchannels. Prerequisites: ES F341; ME F441; senior standing or permission of instructor. Stacked with ME F643. (3+0)

ME F450 Theory of Flight
3 Credits Offered Fall Even-numbered Years
Airfoil theory in subsonic flow. Performance, stability and control of aircraft. Aircraft design. Prerequisites: ES F346. (3+0)

ME F451 Aerodynamics
3 Credits Offered Spring Odd-numbered Years
Aerodynamics of non-lifting and lifting airfoils in incompressible irrotational flow, wings of finite span, the Navier-Stokes equations, boundary layers, numerical methods, supersonic and transonic flow past airfoils, rocket aerodynamics, rocket drag. Prerequisites: ES F301, ES F341, ES F346. Co-requisite: ME F313. (3+0)

ME F452 Introduction to Astrodynamics
3 Credits Offered Fall Odd-numbered Years
Geometry of the solar system, detailed analysis of two-body dynamics and introduction to artificial satellite orbits; Hohmann transfer and patched conics for lunar and interplanetary trajectories. Elements of orbit determination. Prerequisites: ES F208 or ES F210; and ES F301. (3+0)

ME F453 Propulsion Systems
3 Credits Offered Spring Even-numbered Years
Basic principles of propulsion: turbojet, turboprop and rocket engines. Fluid mechanics and thermodynamics of flow in nozzles, compressors, combustors and turbines. Liquid and solid propellant rockets. Heat transfer in rocket motors and nozzles. Design and testing methods for components of propulsion systems. Prerequisites: ES F341; Co-requisite: ME F313. (3+0)

ME F458 Energy and the Environment
3 Credits Offered Fall Odd-Numbered Years
Overview of basic concepts of energy supply, demand, production of heat and power impacts of energy use on the environment. Extensive discussion of mitigation technologies and strategies for meeting energy needs while preserving environmental quality. Prerequisites: CHEM F106X; ES F346 or equivalent; MATH F201X; PHYS F211X. Cross-listed with ENVE F458. (3+0)

ME F464 Corrosion Engineering
3 Credits Offered Spring
Principles and forms of corrosion and factors that affect it. Methods of testing and measurement, control and prevention are examined. Prerequisites: ME F334. (3+0)

ME F487 W.O Design Project
3 Credits Offered Spring
A real or simulated engineering design project selected jointly by student and instructor. Emphasis on design of practical mechanical engineering systems and/or components which integrate students’ engineering knowledge and skills. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; ME F441; senior standing. Co-requisite: ME F403. (3+0)

ME F601 Finite Element Analysis in Engineering
3 Credits Offered Every Third Semester
Formulation of the finite element method. Applications to problems of engineering in solid mechanics, fluid mechanics and heat transfer. Use and development of codes for computer solution of problems. Prerequisites: Graduate standing in engineering; ES F210; MATH F302 or equivalent. (3+0)

ME F602 Advanced Mechanical System Design
3 Credits Offered As Demand Warrants
Advanced analysis of two- and three-dimensional multi-body mechanical systems. Rigid body system formulation and deformable body system formulation. Application of CAE software for rigid body and large deformable body systems. Prerequisites: ME F302; ME F408; or permission of instructor. Stacked with ME F402. (3+0)

ME F608 Advanced Dynamics
3 Credits Offered Every Third Semester
Kinematics and kinetics of rigid bodies, introduction to analytical mechanics, Lagrange’s equations and Hamiltonian mechanics. Applications to engineering problems. Prerequisites: ES F210; MATH F302 or equivalent; graduate standing in engineering. (3+0)

ME F609 Advanced Vibrations
3 Credits Offered Every Third Semester
Analysis of discrete and continuous vibrations via energy methods, free and forced response of linear systems, stability criteria, and introduction to random and nonlinear vibration. Applications to engineering problems. Prerequisites: MATH F302 or equivalent; ME F408; graduate standing in engineering. (3+0)

ME F617 Power Analysis
3 Credits Offered As Demand Warrants
Fundamentals of power generation including piping, pumps, fuel and combustion, steam generators, condensers, deaerators, evaporators, feedwater treatment and heating, regeneration, fuel handling, heat balance, equipment, economics, and plant layout. Prerequisites: ME F313. (3+0)

ME F631 Advanced Mechanics of Materials
3 Credits Offered Every Third Semester
Theories of elasticity and plasticity for small and large deformations. Applications to engineering problems. Prerequisites: ES F331 or equivalent; graduate standing in engineering. (3+0)

ME F634 Advanced Materials Engineering
3 Credits Offered Every Third Semester
Atomic bonding, crystal structure, crystal imperfections, phases and interfaces, microstructures, phase diagrams, phase transformation, transport and diffusion, metal deformation, fracture of materials, deterioration of materials, electronic and physical properties of materials. Prerequisites: ME F334; MATH F302 or equivalent; graduate standing in engineering. (3+0)

ME F640 Introduction to Microfluidics
3 Credits Offered Spring Odd-numbered Years
Overview of basic concepts and principles of fluids at the micron scale; introduction to the design and fabrication of microfluidic devices. Prerequisites: ES F341; PHYS F103X (for Math and non-Physics science major); PHYS F211X (for Engineering, Math and Physics major); graduate standing or permission of instructor. Stacked with ME F440. (3+0)

ME F641 Advanced Fluid Mechanics
3 Credits Offered Every Third Semester
Introduction to viscous flows, laminar boundary layers, turbulent boundary layers, turbulent jets and wakes, applications to heat transfer and
MECN F103 Starting and Charging Systems
3 Credits
Starting and charging systems, diagnostic methods and specifications that are standard in the industry. Volt, amperage and load tests on a battery. (1+4)

MECN F104 Mobile Equipment Maintenance
1 Credit
Technical, financial and legal aspects of mobile equipment maintenance. Students will work in groups to perform a maintenance operation and create maintenance records on a variety of vehicle types. (0.5+1)

MECN F112 Basic Auto Maintenance
1 Credit
Covers basic automobile system functions, owner maintenance of electrical, cooling and fuel systems, auto lubricants and fluids, tires and wheels, tune-ups, and cold weather maintenance and operation. For the person without mechanical experience. (1+0)

MECN F139 Manual Transmissions and Clutches
2 Credits
Two major areas of automotive maintenance and repair: inspection and replacement of common clutch types; and maintenance, inspection and overhaul of automotive manual transmissions. (1+2)

MECN F201 Advanced Automobile Equipment Electronics
2 Credits
Troubleshooting and repairing a wide range of electronic systems found in both light and heavy equipment including, but not limited to, load moment limiting, motor speed control, electronic control of hydraulic systems and electronic governors for power generation. (1+2)

MECN F202 Principles of Electric Drive Vehicles
2 Credits
In-depth study of batteries: design, construction, testing and charging, currents and maintenance. Knowledge applied to DC motors, electronic controls and electronic traction motor controls. The in-shop training discusses environmental impacts of electric drive vehicles. (2+0)

MECN F203 Basic Power Generations
3 Credits
Portable and stationary electric power generators and the relationship of magnetism, AC/DC currents, motors, generators, transformers and electrical distribution. Special fees apply. Recommended: AUTO F110. (2+2)

MECN F204 Basic Alternating Current Electrician Skills
2 Credits
Basic residential and commercial electrician skills; current theory and applications; electrical measurement and circuitry. (1+2)

MECN F205 Uninterruptible Power Supplies
1 Credit
Residential and commercial power supplies; troubleshooting batteries; electronic components; reading UPS schematics. (0.5+1)

MECN F206 Emergency Backup Power Generation
1 Credit
Language and fundamentals of electricity; circuitry; conductor types and sizes; writing methods; system requirements of power generation. (0.5+1)

MECN F207 Power Generation Governors
2 Credits
Mechanically and electrically controlled engines with emphasis on what is a governor and what is its function in power generation will be covered in the hands-on diagnostic training. (1+2)

MECN F208 Alternative Fuels
2 Credits
History of fuels with emphasis on the known alternative fuels: natural gas, methanol, ethanol and propane. A research project is required. (1+2)

MECN F210 Hydraulics
3 Credits
Offered Spring
Theory of fluid power and the components that make up a hydraulic system found on heavy equipment. Identification and description of hydraulic cylinders, motors, directional valves commonly found on heavy equipment. Includes testing of equipment and performing hydraulic pressure and flow tests. Special fees apply. Prerequisites: DSLT F101; DSLT F103; DSLT F105. (1+4)
MILITARY SCIENCE

A per-semester fee for clothing, equipment and other safety items required to participate in mandatory Military Science labs. Lab fees apply only to the primary Military Science classes (MILS F101, F102, F201, F202, F301, F302, F401 and F402.)

MILS F101 Foundations of Officiership
2 Credits
Issues and competencies central to a commissioned officer's responsibilities. Presents a framework for understanding officiership leadership and Army values. Addresses life skills including fitness and time management. Designed to encourage insight into the Army as a profession and the officer's role within the Army. Special fees apply. (1+2)

MILS F102 Basic Leadership
2 Credits
Continuation of MILS F101. Focus on communications, leadership and problem solving. Life skills lessons include: problem solving, goal setting, interpersonal communication, and assertiveness. Lessons yield immediately useful skills. Provides accurate information about life in the Army, including the organization of the Army, employment benefits and work experiences of junior officers. Special fees apply. (1+2)

MILS F201 Individual Leadership Studies (s)
3 Credits
Communication and leadership theory and application. Focus on critical life skills. Emphasis on relevance of life skills to future success in the Army. Includes a major leadership and problem solving case study which draws on virtually all of the instruction in MILS F101 and MILS F102. Special fees apply. (2+2)

MILS F202 Leadership and Teamwork
3 Credits
Focus on officiership providing an extensive examination of the unique purpose, roles and obligations of commissioned officers. Includes a detailed look at the origin of our institutional values and their practical application in decision-making and leadership. Core focus is a capstone case study in officiership that traces the Army's successes and failures as it evolved from the Vietnam War to present, placing previous lessons on leadership and officiership in a real-world context that directly affects the future of cadets. Draws the various components of values, communications, decision-making, and leadership together to focus on a career as a commissioned officer. Special fees apply. (2+2)

MILS F250 Leaders Training Course
3 Credits
A four-week camp in basic military skills and leadership experience in preparation for entrance into the advanced course. For students who did not take the basic course. Prerequisites: At least two years of schooling remaining upon completion of camp; admission by arrangement with professor of military science. (3+0)

MILS F301 W Leadership and Problem Solving
4 Credits
Challenges cadets to study, practice and evaluate adaptive leadership skills as they are presented with the demands of preparing for the ROTC Leadership Development Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations are used to develop self awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership abilities. Cadets at the MSL III level begin to analyze and evaluate their own leadership values, attributes, skills and actions. Primary attention is given to preparation for LDAC and the development of leadership abilities. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing in MILS; permission of instructor. (3+2)

MILS F302 O Leadership and Ethics
4 Credits
Offered Spring
Interdisciplinary study of effective leadership techniques and preparation for attendance in MILS F350. Laboratory sessions offer practical application of concepts taught in classroom sessions. Special fees apply. Prerequisites: COMM F131X or COMM F141X; junior standing in MILS; permission of instructor. (3+2)

MILS F350 Leadership Development Assessment Course
3 Credits
Five-week course structured to assess and develop the leadership capabilities of the cadet by using a variety of situations in a military environment. Prerequisites: MILS F301; MILS F302; must be enrolled as an advanced course cadet; and have the recommendation of the Department Head. (3+0)

MILS F351 Cadet Troop Leadership Training
2 Credits
Three- to five-week full-time leadership training and development, serving in leadership positions with the active Army. Application of leadership and management principles in real life junior officer situations/positions. Prerequisites: MILS F101; MILS F350; must be enrolled as an advanced course cadet. (0+0)

MILS F401 Developmental Leadership (s)
4 Credits
Develops student proficiency in planning, executing and assessing complex operations, functioning as a member of a staff and providing leadership-performance feedback to subordinates. Students are given situational opportunities to assess risk, make ethical decisions and provide coaching to fellow ROTC students. MSL IV cadets are measured by their ability both to give and receive systematic and specific feedback on leadership abilities. Cadets at the MILS IV level evaluate and analyze the leadership values, attributes, skills and actions of MSL III cadets while simultaneously considering their own leadership skills. Attention is given to preparation for BOLC II and the development of leadership abilities. Special fees apply. Prerequisites: Senior standing in MILS and permission of instructor. (3+2)

MILS F402 Officiership
4 Credits
Continuation of MILS F401. Includes study of military ethics and law. Student role in laboratory sessions is to plan instruction and assess performance of MILS F100-F300-level students. Special fees apply. Prerequisites: Senior standing in MILS and permission of instructor. (4+0)

MILS F442 History of the American Military (s)
3 Credits
The military’s place in American life and society from the Colonial era to the present. Role of the military institution in shaping the nature of American society while reflecting the character of the society it serves. Also available via e-Learning and Distance Education. Prerequisites: Sophomore standing or permission of instructor. Cross-listed with HIST F442. (3+0)

MINERAL PREPARATION ENGINEERING

A per-semester student computing facility user fee is assessed for CEM engineering courses. This fee is in addition to any lab/material fees.

MPR F601 Froth Flotation
3 Credits
Offered Fall
Theory and application of bulk and differential froth flotation to metallic minerals, nonmetallic minerals and coal. Prerequisites: Admission by arrangement. (2+3)

<tbody>
<tr>
<td>AMIT F120</td>
<td>Explosives I</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Theory and safe use of explosives with a focus on blasting agents used for rock excavation. Special fees apply. (3+0)</td>
</tr>
<tr>
<td>AMIT F125</td>
<td>Mineral Exploration Techniques</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Modern, scientific exploration and prospecting techniques utilized in Alaska since the 1970s. Exploration design, ore deposit models, exploration geochemistry and geophysics, drilling sampling and geostatistics. Also available via Independent Learning. Special fees apply. (3+0)</td>
</tr>
<tr>
<td>AMIT F129</td>
<td>Surface Mine Safety</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Rights of miners, introduction to the work environment, ground control, hazard recognition, first aid and explosive safety. Course fulfills the Mine Safety Health Administration requirements for surface miner training. Students are awarded MSHA certificate upon completion of the class. Special fees apply. (1+0)</td>
</tr>
<tr>
<td>AMIT F130</td>
<td>Surface Mining Operations</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Safe operations of a surface mine. placer gold, sand and gravel, coal, and open pit metal mines. Special fees apply. (3+0)</td>
</tr>
<tr>
<td>AMIT F135</td>
<td>Introduction to Mining Systems and Equipment</td>
<td>4</td>
<td>Offered As Demand Warrants</td>
<td>An overview to the field of mining beneficiation and comminution, systems and equipment used for the mining and mineral processing industry. Fundamentals of basic separation and mineral beneficiation of surface and underground mining, economic planning, environmental concerns, safety and terminology will be explored. Special fees apply. (3+3)</td>
</tr>
<tr>
<td>AMIT F140</td>
<td>Environmental Permitting</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Mineral development permits required in Alaska. Students are encouraged to provide their own case histories. Special fees apply. (1+0)</td>
</tr>
<tr>
<td>AMIT F145</td>
<td>Introduction to Mineral Beneficiation</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Provides an overview or introduction into the field of mining beneficiation and comminution, systems and equipment used for the mineral processing industry. Fundamentals of basic separation and mineral beneficiation, environmental concerns, safety and terminology will be explored. Special fees apply. (3+0)</td>
</tr>
<tr>
<td>AMIT F152</td>
<td>Fire Assay Techniques</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Sampling, theory and practice of fire assaying. Fluxes, oxidation and reduction reactions, fusion of assay charges, cupellation, annealing, micro-weighing and assay charge calculation. Special fees apply. (1+0)</td>
</tr>
<tr>
<td>AMIT F153</td>
<td>Laboratory Analysis</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Production laboratory procedures for sample analysis, heap leaching and titrations. Individual projects required. Special fees apply. (1+0)</td>
</tr>
<tr>
<td>AMIT F154</td>
<td>Water Quality and Flocculants</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Water quality processes using flocculants and removal of total suspended solids from placer mining waste water. Design of settling ponds and recycle system. Students will work with individual case histories. Special fees apply. (3+0)</td>
</tr>
<tr>
<td>AMIT F161</td>
<td>Alaska Ore Deposits</td>
<td>1</td>
<td>Offered As Demand Warrants</td>
<td>Geology, ore reserves and preliminary mining plans of significant Alaska mineral deposits. Special fees apply. (1+0)</td>
</tr>
</tbody>
</table>
AMIT F162  Geochemoal Sampling  
1 Credit  Offered As Demand Warrants  
Hands-on scientific sampling methods for rock, soil, pan concentrates, 
stream sediments, air and water. Special fees apply. (1+0)

AMIT F170  Fundamentals of Coal Mining  
3 Credits  Offered As Demand Warrants  
Origin and types of Alaska and other coal deposits, exploration and planning 
methods, extraction processes for underground and surface mines, 
motivation, coal preparation and reclamation. Job requirements, safety 
and environmental consideration. Optional field trip to an active coal 
mine. Special fees apply. (3+0)

AMIT F205  Geomagnetic Surveying  
1 Credit  Offered As Demand Warrants  
Placer gold deposit prospecting using magnetic surveying. Study student 
work and data interpretation. Special fees apply. (1+0)

AMIT F210  Underground Mining II  
3 Credits  Offered As Demand Warrants  
Skill training conducted in safety, drilling, blasting, ground support, 
mucking, maintenance and utilities. Special fees apply. (3+0)

AMIT F220  Explosives II  
3 Credits  Offered As Demand Warrants  
Advanced techniques in safe use of explosives. Students get hands-on 
experience in blasting. Special fees apply. (3+0)

AMIT F230  Field Methods  
2 Credits  Offered As Demand Warrants  
Topographic map reading using a compass and basic field procedures. 
Map and chart preparation. Drafting skills for prospecting maps, mine 
maps, permits and data presentation. Special fees apply. (2+0)

AMIT F231  Heap Leaching  
1 Credit  Offered As Demand Warrants  
Heap leaching covering cyanide safety, leach pad construction and placement, 
cyanoide processing, thiourea, case histories, applications to Alaska 
and economics. Special fees apply. (1+0)

AMIT F282  Mining Coop Work Experience  
1 – 2 Credits  Offered As Demand Warrants  
Practical work experience in a professional mining environment. For 
the student who has mastered basic mining techniques and terminology. 
Placement and work assignments depend upon student experience. 
Special fees apply. (0+0)

MIN F202  Mine Surveying  
3 Credits  Offered Fall  
Surveying principles for surface and underground control of mining 
properties. Field and office procedures for preparation of maps and engineering 
data. Special fees apply. Prerequisites: MATH F107X, MATH F108 
or equivalents. (2+3)

MIN F225  Quantitative Methods in Mining Engineering  
2 Credits  Offered Fall  
Introduction to ore reserve estimation, classical estimation methods and 
techniques, error in estimations and pitfalls, introduction to classical 
statistics, introduction to geostatistics, ordinary kriging, block kriging, 
modeling the sample variogram, co-kriging and global estimation. 
Prerequisites: MATH 107X and MATH 108X; MATH F200X or equivalent; 
or permission of instructor. (2+0)

MIN F226  Mine Development  
2 Credits  Offered Spring  
Review of pre-mining activities. Access to mining property, haul road 
location and design. Access to ore body; shaft, slope and ramp locations; 
shape, sizing and development. Development of access in frozen ground 
environments. Layout of development mains, cross-cuts, raises and 
winnies for ventilation, transport and optimum extraction of ore body. 
Level intervals, size and location of ore passes, design and optimization. 
Prerequisites: MIN F103; MIN F225; or permission of instructor. 
Recommended: MATH F200X. (2+0)

MIN F301  Mine Plant Design  
3 Credits  
Quantitative study and design of various systems and equipment used in 
haulage, hoisting, drainage, pumping and power (compressed air 
and electricity). Importance of the natural conditions and production level in 
the equipment selection procedure emphasized. Prerequisites: ES F208 
and ES F307. Recommended: ES F341. (3+0)

MIN F302  Underground Mine Environmental Engineering  
3 Credits  
Analysis of underground mine ventilation systems, ventilation planning, 
design and engineering control, mine ventilation network. Prerequisites: 
MIN F103; MIN F226; ES F341 (2+3)

MIN F313  Introduction to Mineral Preparation  
3 Credits  Offered Fall Odd-numbered Years  
Elementary theory and principles of unit processes of liberation, concentration 
and solid-fluid separation as applied to mineral beneficences. 
Prerequisites: Junior standing or permission of instructor. (2+3)

MIN F370  Rock Mechanics  
3 Credits  
Physical and mechanical properties of rock; rock mass classification 
systems; stress distribution in the vicinity of mining openings, design 
criteria and support for structures in rock mass, instrumentation and 
monitoring of opening’s stability as well as strata control and surface 
subsidence. Co-requisite: ES F331. (2+3)

MIN F380  Computer Aided Orebody Modeling  
1 Credit  Offered Fall  
Develops a orebody model from drillhole data in a computer aided design 
environment. The data is converted into a drillhole database, following 
which, a 3D visual model is developed. Basic tools covered include 
concepts of computer aided design, database error checking and triangulation. 
Prerequisites: GEOS F332; or permission of instructor. (2+3)

MIN F401  Mine Site Field Trips  
1 Credit  
Field trips to active surface and underground mines to gain perceptual 
knowledge of modern mining systems by observation. Includes a systematic 
summarization and analysis of the mine after each visit to gain an 
in-depth understanding of mining engineering principles. Graded Pass/ 
Fail. Prerequisites: MIN F202; MIN F301; MIN F302; MIN F370. (0.5+3)

MINING ENGINEERING

A per-semester student computing facility user fee is assessed for 
CEM engineering courses. This fee is in addition to any lab/material 
fees.

MIN F101  Minerals, Man and the Environment  
3 Credits  
A general survey of the impact of the mineral industries on man’s economic, 
political and environmental systems. (3+0)

MIN F103  Introduction to Mining Engineering  
1 Credit  
Concepts and methods utilized in mining engineering and mining unit 
operations. (1+0)

MIN F104  Mining Safety and Operations Laboratory  
1 Credit  
Practical training at the Silver Fox Mine in mining operations and safety. 
Course complies with Mine Safety and Health Administration (MSHA) 40 
hour new miner training. Special fees apply. (0+3)
MIN F407 W  Mine Reclamation and Environmental Management
3 Credits  Offered Fall Even-numbered Years
Prerequisites: MIN F225; MIN F226; Junior or senior standing in techniques. Production planning and scheduling. Use of mine design
Modern methods of surface mine design. Strip and open pit optimization
2 Credits
MIN F484  Mining Engineering Exit Exam
0 Credits
Exam is designed to evaluate overall performance as mining engineering graduates. Covers various topics that students have learned in the field of mining engineering and related fields. Graded Pass/Fail. Prerequisites: Senior standing in mining engineering. (0+0)
MIN F485  Mining Design Project I
1 Credit  Offered Fall
This course is a pre-cursor to MIN F490. The student is expected to meet with the instructor to finalize the senior design project topic, lay out a project plan, gather data and prepare as necessary for the successful execution of the project in MIN F490. Note: Both MIN F489 and MIN F490 must be completed to fulfill the writing intensive requirement. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; MIN F301; MIN F302; MIN F370. (1+0)
MIN F490 W  Mining Design Project II
2 Credits  Offered Spring
Design of mine layout including extraction and beneficiation, and economic evaluation of a mining project. A comprehensive written report of the design and analysis is required. Note: Both MIN F489 and MIN F490 must be completed to fulfill the writing intensive requirement. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; MIN F301; MIN F302; MIN F370; MIN F454; MIN F489. (1+4)
MIN F601  Application of Artificial Neural Networks
3 Credits
Basic neural network architectures, including rules, training methods and practical applications. Training and application issues typical of earth sciences problems. Some topics require mathematical analysis. Genetic algorithms and use of network ensembles will be briefly presented. Prerequisites: Graduate standing in engineering; programming ability; knowledge of MATLAB, a plus. Recommended: MATH F202X, MATH F314; MIN F408; MIN F635. (3+0)
MIN F621  Advanced Mineral Economics
3 Credits
Introduction to options valuation of mineral projects; uncertainty and risk in mineral valuations; stochastic price models; dynamic programming and investment analysis; real options techniques. Prerequisites: Admission by arrangement. (3+0)
MIN F631  Research Methods in Mineral Engineering
4 Credits
Research methods including problem definition and statement, designing experiments, collecting and interpreting data. Methods of theoretical and experimental analysis will be reviewed and examples given. Prerequisites: Graduate standing or permission of instructor. (3+3)
MIN F633  Geostatistical Ore Reserve Estimation
3 Credits  Offered Spring
Introduction to the theory and application of geostatistics. Review of classical statistics, continuous and discrete distributions, hypothesis testing and global estimation. Presentation of fundamental geostatistical concepts including: variogram, estimation variance, block variance, kriging, geostatistical simulation. Emphasis on the practical application of geostatistical techniques. Prerequisites: MIN F408 or equivalent; graduate standing; or permission of instructor. Cross-listed with GE F635. (2+3)
MIN F637  Mine Systems Simulation
3 Credits
Application of computer simulation to the analysis of static and dynamic mine systems and the development of useful programs for mine operators. Design of simulation experiments in mining engineering. Prerequisites: MIN F409 or equivalent; graduate standing. (2+3)
### Museums Research Apprenticeship Program

**MRAP F288**  
**Museum Research Apprentice I**  
1–4 Credits  
Offered Fall and Spring  
Provides opportunities for undergraduate student research or scholarship in museum-based subjects not available in typical undergraduate courses. Students are required to perform research tasks associated with specimens or objects and their associated data and to turn in a final report. Opportunities range across several museum-based disciplines (archaeology, botany, earth science, entomology, ethnology and history, film, fine art, ichthyology, mammalogy, informal science education, and ornithology). Course may be repeated. Graded Pass/Fail. **Instructor permission required**: Student must contact a potential mentor before enrolling to determine whether experience is sufficient and matching opportunities exist. *(0-1+0+3-6)*

**MRAP F488**  
**Museum Research Apprentice II**  
1–2 Credits  
Offered Fall and Spring  
Provides opportunities for advanced undergraduate student research or scholarship in museum-based subjects not available in typical undergraduate courses, building upon prior experience. Students are required to perform tasks associated with specimens, objects, and associated data and to turn in a final report. Opportunities range across several museum-based disciplines (archaeology, botany, earth science, entomology, ethnology and history, film, fine art, ichthyology, mammalogy, informal science education, and ornithology). Course repeatable to a maximum of 12 credits. Graded Pass/Fail. **Prerequisite**: Permission of instructor. Student must contact potential mentor before enrolling to determine whether experience is sufficient and matching opportunities exist. *(0-1+0+3-6)*

### Courses

- **Course Title**: Numerical Methods in Mine Ventilation  
  **Code**: MIN F652  
  **Credits**: 3  
  **Description**: Differences in the partial differential equations of flow in mine networks, typical boundary conditions for mine ventilation systems, computer-aided solution techniques. Application of flow of fluids through porous media is covered. **Prerequisite**: MIN F302 or equivalent; graduate standing. *(2+3)*

- **Course Title**: Advanced Rock Mechanics  
  **Code**: MIN F673  
  **Credits**: 3  
  **Description**: The study of theoretical and experimental methods in rock mechanics. State of stress and potential failure zone around two- and three-dimensional structures in rock based on theoretical, numerical and experimental techniques and failure criteria are presented. **Prerequisite**: MIN F370 or equivalent or graduate standing. *(2+3)*

- **Course Title**: Advanced Ground Control  
  **Code**: MIN F674  
  **Credits**: 3  
  **Description**: A study of current rock mechanics problems related to advances in mining and construction technologies. Particular emphasis is placed on the importance of rock and frozen ground properties and stress evaluation in design and monitoring stability of structures for gas, oil and radioactive materials storage, geothermal energy recovery, solution mining, and those exposed to rock outbursts and earthquakes. Rock and frozen ground properties related to other dynamic loading conditions, such as in blasting, are also discussed. **Prerequisite**: MIN F370 or equivalent or permission of instructor. *(0+0)*

- **Course Title**: Computer-Aided Mine Design — VULCAN  
  **Code**: MIN F682  
  **Credits**: 3  
  **Description**: Familiarization with VULCAN mine design software to store, manage, model and display exploration data. Estimate volume, tonnage and quality of reserve, design declines and development drives in underground coal and hardrock mines, design underground coal mine plans and design of underground stopes, perform underground grade control. **Prerequisite**: Graduate standing in Mining Engineering or Geological Engineering or permission of instructor. Stacked with MIN F482. *(2+3)*

- **Course Title**: Graduate Seminar I  
  **Code**: MIN F688  
  **Credits**: 1  
  **Description**: Preparation and presentation of research outlines by graduate students and participation in regularly organized mineral engineering department seminars. **Prerequisite**: Admission to graduate program. Cross-listed with MPR F688. *(1+0)*

### Music

- **Course Title**: University Chorus  
  **Code**: MUS F101  
  **Credits**: 1  
  **Description**: A chorus serving both beginning and skilled singers presenting concerts each semester of popular and classic choral literature. *(0+3)*

- **Course Title**: Music Fundamentals  
  **Code**: MUS F103  
  **Credits**: 3  
  **Description**: An introductory study of the language of music. Includes basic notation, melodic and rhythmic writing, scales, bass and treble clefs, and basic harmony. Also available via e-Learning and Distance Education. *(3+0)*

- **Course Title**: UAF Steel Drum Ensemble  
  **Code**: MUS F105  
  **Credits**: 1  
  **Description**: Performance class designed to prepare performances of soca, calypso, and reggae music from the Caribbean Islands, as well as Latin style music. Ensemble includes percussion and a few other supporting instruments. May be repeated for credit. **Prerequisite**: Ability to sight-read music; permission of instructor. Recommended: MUS F103. *(0+3)*

- **Course Title**: Northern Lights String Orchestra  
  **Code**: MUS F117  
  **Credits**: 1  
  **Description**: Explore literature written primarily for string orchestra. Periodically, winds and percussion will join for performances of literature requiring additional instruments. Works studied vary from semester to semester depending on the instrumentation of those enrolled in the course. May be repeated for credit. **Prerequisite**: Previous instruction on a bowed string instrument; permission of instructor. *(0+3)*

- **Course Title**: History of Popular Music  
  **Code**: MUS F122  
  **Credits**: 3  
  **Description**: The development of American popular music from ragtime to rock to rap: its styles, artists, cultural origins, social symbolism and influence worldwide. How popular music in each decade reflects the social ethos of the times, expresses youth attitudes and mirrors lifestyle. An examination of music’s function in society. *(3+0)*

- **Course Title**: Music in World Cultures  
  **Code**: MUS F124  
  **Credits**: 3  
  **Description**: A survey of traditional and folk music around the world, with an emphasis on Oriental and African music. Examines different uses of music in various societies, and includes demonstration of ethnic musical instruments. *(3+0)*

- **Course Title**: Enjoying Jazz  
  **Code**: MUS F125  
  **Credits**: 2  
  **Description**: An overview of the jazz idiom. Learning about the performers, styles and the music by using records, CD’s, cassettes and video tapes. A listening intensive course that should provide students with a better understanding of this art form and the significant styles and artists in it. Also available via Independent Learning. *(2+0)*

- **Course Title**: Basic Music Theory I  
  **Code**: MUS F131  
  **Credits**: 3  
  **Description**: Intensive training in aspects of tonal harmony. Emphasis on acquiring skills in identification and notation of pitch, rhythm, scale, key, with introduction to principles of chord functions and techniques of harmonization. **Prerequisite**: Music majors must be concurrently enrolled in MUS F133. *(3+0)*
MUS F132  Basic Music Theory II (h)
3 Credits  Offered Spring
Emphasis on developing skills in voice leading, part writing and acquiring techniques for analysis of tonal harmony and musical form. Prerequisites: MUS F131 or equivalent. Music majors must be concurrently enrolled in MUS F134. (3+0)

MUS F133  Basic Ear Training (h)
2 Credits
Ear training skills including sight reading, sight singing, error detection and dictation. Use of programmed materials in a laboratory situation in addition to classroom instruction. Prerequisites: Concurrent enrollment in MUS F131. (2+0)

MUS F134  Basic Ear Training (h)
2 Credits
Ear training skills including sight reading, sight singing, error detection and dictation. Use of programmed materials in a laboratory situation in addition to classroom instruction. Prerequisites: MUS F133 or equivalent and concurrent enrollment in MUS F132 unless exempted by music theory placement test. (2+0)

MUS F151  Class Lesson (h)
1 Credit
Class instruction in piano, voice, orchestral instrument or guitar. May be repeated for credit. Course may not be audited. Special fees apply. (0+3)

MUS F153  Functional Piano (h)
1 Credit
Laboratory instruction to help music majors obtain performance, sight-reading and harmonization-transposition skills needed to pass the piano proficiency examination. It also provides non-music majors an opportunity to study basic piano skills on a space-available basis. Course may not be audited. Special fees apply. Prerequisites: For music majors, MUS F131 or equivalent or concurrent enrollment in MUS F132 unless exempted by music theory placement test. (1+0)

MUS F161  Private Lessons (h)
2 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2+0)

MUS F162  Private Lessons (h)
2 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2+0)

MUS F190  Recital Attendance
0 Credits
Recital and concert attendance. Graded Pass/Fail. (1+0)

MUS F200X  Aesthetic Appreciation: Interrelation of Art, Drama, and Music (h)
3 Credits
Understanding and appreciation of art, drama, and music through an exploration of their relationship. Topics include the creative process, structure, cultural application and diversity, the role of the artist in society, and popular movements and trends. Also available via e-Learning and Distance Education. Prerequisites: Placement in ENGL F111X or higher; sophomore standing; or permission of instructor. Cross-listed with ART F200X; THR F200X. (3+0)

MUS F203  Fairbanks Symphony Orchestra (h)
1 Credit
Prerequisites: Admission by audition. (0+3)

MUS F205  Wind Ensemble (h)
1 Credit
Prerequisites: Admission by audition. (0+3)

MUS F207  UAF Jazz Band (h)
1 Credit
A performance ensemble that performs a feature concert each semester and tours frequently within the state and occasionally outside the state. Prerequisites: Audition and permission of instructor. Course may not be audited. (0+3)

MUS F211  Choir of the North (h)
1 Credit
A mixed choir serving more advanced singers presenting concerts of more advanced choral music literature. Prerequisites: Admission by audition. (0+3)

MUS F221  History of Music (h)
3 Credits
Music before 1750. Prerequisites: MUS F131; MUS F132; or permission of instructor. (3+0)

MUS F222  History of Music (h)
3 Credits
Music since 1750. Prerequisites: MUS F131; MUS F132; or permission of instructor. (3+0)

MUS F223  Alaska Native Music (h)
3 Credits
Emphasis on the sound, effect and purpose unique to each and the collection methods, analysis and the development of a broad musical perspective. Cross-listed with ANS F223. (3+0)

MUS F231  Advanced Music Theory (h)
2 Credits  Offered Fall
Continued study of harmony and musical form through analysis of representative works from the standard repertoire. Prerequisites: Concurrent enrollment in MUS F233. (1+2)

MUS F232  Advanced Music Theory (h)
2 Credits  Offered Spring
Study and synthesis of 20th century stylistic and harmonic idioms. Prerequisites: MUS F231 or equivalent; concurrent enrollment in MUS F234 unless exempted by music theory placement test. (1+2)

MUS F233  Advanced Ear Training
1 Credit
Continued training in sight singing and melodic dictation skills begun in MUS F133 and MUS F134. Harmonic dictation and error detection skills also included. Prerequisites: MUS F134 or equivalent; concurrent enrollment in MUS F231. (0+2)

MUS F234  Advanced Ear Training
1 Credit
Continued training in sight singing and melodic dictation skills begun in MUS F133 and MUS F134. Harmonic dictation and error detection skills also included. Prerequisites: MUS F233 and concurrent enrollment in MUS F232 unless exempted by music theory placement test. (0+2)
MUSIC (MUS)

MUS F245 Singer's Diction I: English and Italian (h)
2 Credits
A systematic approach for singers through use of the International Phonetic Alphabet for the transcription and pronunciation of song texts in English and Italian. A singer's diction course would be valuable to radio announcers or anyone needing rules of pronunciation for names, titles, phrases, etc. in foreign languages. Recommended: One year of private voice lessons. (2+0)

MUS F246 Singer's Diction II: French and German (h)
2 Credits
A systematic approach for singers through use of the International Phonetic Alphabet for the transcription and pronunciation of song texts in French and German. A singer's diction course would be valuable to radio announcers or anyone needing rules of pronunciation for names, titles, phrases, etc. in foreign languages. Recommended: One year of private voice lessons. (2+0)

MUS F233 Piano Proficiency
0 Credits
Final phase of piano proficiency examination. Graded Pass/Fail. Prerequisites: MUS F153; music major; permission of instructor. (0+1)

MUS F261 Private Lessons (h)
2 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2+0)

MUS F262 Private Lessons (h)
2 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2+0)

MUS F307 Chamber Music (h)
1 Credit
String, brass or woodwind chamber music; piano chamber music and accompanying; stage band; and Alaska Camerata. Note: Course may not be audited. Prerequisites: Permission of instructor. (0+3)

MUS F313 Opera Workshop (h)
1 – 3 Credits
(0+3 – 9)

MUS F317 Arctic Chamber Orchestra (h)
1 Credit
The touring group of the Fairbanks Symphony Orchestra. Must be a member of the Fairbanks Symphony Orchestra. (MUS F203-EV1). Prerequisites: By audition only. (0+3)

MUS F331 Form and Analysis (h)
3 Credits
Formal and stylistic musical elements in historical context with special application to problems of proper stylistic performance. Prerequisites: MUS F232 or permission of instructor. (3+0)

MUS F332 Introduction to Computer-based Music Technology (h)
3 Credits
An introduction to personal computer-based software and music synthesis hardware to enable the student to print music scores and/or develop MIDI format sequencer files. May be repeated for credit. Prerequisites: MUS F232 or equivalent or permission of instructor. Recommended: MUS F432. (3+0)

MUS F331 O Conducting (h)
3 Credits
Principles of conducting; interpretation of vocal and instrumental ensemble music. Prerequisites: COMM F131X or COMM F141X; MUS F232. (3+0)

MUS F361 Private Lessons (h)
2 or 4 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2 or 4+0)

MUS F362 Private Lessons (h)
2 or 4 Credits
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. Prerequisites: Admission by audition. Special permission required. Note: Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2 or 4+0)

MUS F390 Junior Recital
0 Credits
Half-length solo music performance recital. Graded Pass/Fail. Prerequisites: MUS F262 or equivalent; music major; junior standing in music study; permission of instructor. (0+0)

MUS F410 W Women in Music History (h)
3 Credits
Lives and works of female musicians, composers and performers will be traced from the earliest days of the ancient and mythological periods through the medieval, Baroque, Classical and Romantic periods with special emphasis on composers of the 20th century. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; Junior standing; or permission of instructor. Cross-listed with WGS F410. (3+0)

MUS F421 W Music Before 1600 (h)
3 Credits
Music from its origins in Greek antiquity through the Middle Ages and the Renaissance up to and including the emergence of opera at the turn of the 17th century. Includes study of prominent composers, early musical forms, original sources in translation, development of musical notation and development of early musical instruments. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; MUS F221; MUS F222; or permission of instructor. (3+0)

MUS F422 W Music in the 17th and 18th Centuries (h)
3 Credits
Style and performance practices of opera, oratorio, cantata, sonata and concerto, as well as chamber music. Development of keyboard instruments as well as other instrumental genres: strings, winds and brasses. Style study of representative works from early Baroque composers
through Bach, Handel, Bach's sons, Haydn, Mozart, Beethoven and others. Musical developments in Italy, England, France, Germany, Austria and cross-cultural influences. **Prerequisites:** MUS F111X or MUS F211X or ENGL F213X; MUS F221; MUS F222; or permission of instructor. (3+0)

**MUS F423 W**  
**Music of the 19th Century**  
3 Credits  
Musical trends in the 19th century. Romanticism, nationalism, Italian opera and Wagnerian music drama, as exemplified by representative works, chosen from the music of Weber, Berlioz, Mendelssohn, Schumann, Brahms, Wagner, Chopin, Tchaikovsky and others. Related readings in other aspects of the Romantic movement. **Prerequisites:** MUS F111X; MUS F211X or MUS F213X; MUS F221 or MUS F222; or permission of instructor. (3+0)

**MUS F424 W**  
**Music since 1900**  
3 Credits  
Study of significant works from the modern repertoire, beginning with the later works of Strauss and continuing to the music of Stravinsky, the Expressionists, the Neoclassicists, Bartok, the Minimalists, and more recent developments. **Prerequisites:** MUS F111X; MUS F211X or MUS F213X; MUS F221 or MUS F222; or permission of instructor. (3+0)

**MUS F426**  
**Music Literature**  
2 Credits  
Music literature of brass, strings, keyboard, voice or winds, on a rotating basis as announced for the semester of offering. Course may be repeated four times for a total of 10 credits. **Prerequisites:** MUS F261 or equivalent; or permission of instructor. Recommended: MUS F221; MUS F222, and one course from the MUS F421 – F424 Period Music History course sequence. (2+0)

**MUS F431**  
**Counterpoint**  
3 Credits  
Contrapuntal techniques by means of analysis and synthesis of pieces in contrapuntal idioms. (3+0)

**MUS F432**  
**Orchestration and Arranging**  
3 Credits  
Instrumentation and arranging for vocal and instrumental ensembles. (3+0)

**MUS F433**  
**Seminar in Musical Composition**  
2 – 3 Credits  
Development of compositional skills based upon the works of predominately 20th-century composers. May be repeated for credit. **Prerequisites:** MUS F232 or equivalent; permission of instructor. (2 – 3+0)

**MUS F434**  
**Advanced Harmonic Analysis**  
3 Credits  
Strengthens understanding of functional harmony through a series of case studies with each gradually increasing in analytical difficulty. Chromatic music of late-19th century European art music, represented by composers such as Chopin, Franck and Scriagin. **Prerequisites:** MUS F232 or equivalent, or permission of instructor. (3+0)

**MUS F435**  
**Private Lessons in Music Composition**  
2 – 4 Credits  
Offered As Demand Warrants  
Private instruction in advanced music composition consisting of one private lesson per week. Repeatable for credit. **Prerequisites:** MUS F434 or equivalent; audition; permission of instructor. Course may not be audited. (1 – 2+3)

**MUS F461**  
**Private Lessons**  
2 or 4 Credits  
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. See accompanying box for private lesson fees. Special fees apply. **Prerequisites:** Admission by audition. Special permission required. **Note:** Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2 or 4+0)

**MUS F462**  
**Private Lessons**  
2 or 4 Credits  
Private instruction in piano, organ, voice, guitar, orchestral and band instruments. Private instruction shall consist of one private lesson per week. Music performance majors must enroll for 4 credits for MUS F361 – F462 levels of study. All other students will normally enroll for 2 credits, except where special permission is granted. Special fees apply. **Prerequisites:** Admission by audition. Special permission required. **Note:** Course may not be audited. Credit-No Credit grading not permitted. Concurrent enrollment in MUS F190: Recital Attendance required. (2 or 4+0)

**MUS F490**  
**Senior Recital**  
0 Credits  
Full length music solo recital. Graded Pass/Fail. **Prerequisites:** MUS F362 or equivalent; MUS F390 or equivalent; music major; senior standing in music study; permission of instructor. (0+0)

**MUS F601**  
**Introduction to Graduate Study**  
3 Credits  
Offered Spring  
Students will gain experience with materials, techniques, bibliographic sources and procedures for conducting scholarly research and writing music. **Prerequisites:** Graduate standing and permission of the instructor. (3+0)

**MUS F606**  
**Advanced Chamber Music**  
1 Credit  
Offered Fall and Spring  
Emphasizing advanced performance skills and experience in ensemble settings, including string, woodwind, brass, vocal chamber music, piano chamber music and accompanying. Course may not be audited. **Prerequisites:** MUS F307; graduate standing; and permission of instructor. (1+0)

**MUS F625**  
**Topics in Music History**  
3 Credits  
Detailed study of selected topics in music history and/or literature. Specific topic to be announced in advance of course offering. (3+0)

**MUS F626**  
**Advanced Music Literature**  
2 Credits  
Advanced music literature of brass, strings, keyboard, voice or winds, on a rotating basis as announced each semester. Course may be repeated up to four times for a total of 10 credits. **Prerequisites:** MUS F461 or equivalent, or permission of instructor. Recommended: MUS F221; MUS F222; and/or courses from the MUS F421 – F424 sequence. (2+0)

**MUS F631**  
**Seminar in Music Theory: History and Pedagogy**  
3 Credits  
Historical development of music theory and music theory pedagogy (current teaching practices and survey of available teaching materials). **Prerequisites:** Permission of instructor. (3+0)

**MUS F633**  
**Graduate Private Lessons in Composition**  
2 – 4 Credits  
Private instruction in advanced music composition consisting of one private lesson per week. Repeatable for credit. **Prerequisites:** Graduate standing; MUS F433 or equivalent; audition; permission of instructor. Course may not be audited. Recommended: Familiarity with computer-assisted music score preparation software. (1 – 2+3)

**MUS F661**  
**Advanced Private Lessons**  
2 or 4 Credits  
Private instruction in piano, voice, or orchestral instruments consisting of one private lesson per week. Repeatable for credit. Course may not be audited. Special fees apply. **Prerequisites:** Special permission required. Graduate standing; MUS F462 or equivalent; audition. (2 or 4+0)
MUS F690 Graduate Recital
0 Credits
Full length solo performance recital. Graded Pass/Fail. Prerequisites: MUS F490 or equivalent; graduate standing in applied music study; permission of instructor. (0+0)

MUSIC EDUCATION

MUED F110 Becoming a Music Teacher in the 21st Century
2 Credits
Introduction and exploration of the profession of music education. Focus on national educational policies and practices in education and music education. Opportunities for interaction with Alaska teachers, student teachers and students in the music education program. Prerequisites: ENGL F111X. (2+0)

MUED F201 Introduction to Music Education
2 Credits
Introduction to professional education with special emphasis on music education as practiced at the elementary, middle school and high school levels. Review of cultural, social, and current legal requirements that influence education and music education in the U.S. and Alaska. Prerequisites: ENGL F111X; ENGL F211X; MUED F110. (2+0+1)

MUED F309 Elementary School Music Methods
3 Credits
Principles, procedures and materials for teaching music to children at the elementary level. Cross-listed with ED F309. (3+0)

MUED F310 Practicum in Elementary Music Methods
1 Credit
Students will observe and reflect upon weekly fieldwork in elementary public school classrooms, grades K – 5. Additionally, students will assist with and lead live classroom activities. For preservice music educators. Co-requisites: MUED F309. Recommended: ED F201. (0.5+1.5)

MUED F315 Music Methods and Techniques
2 Credits
Instruction in voice and the basic instruments of band and orchestra. Emphasis on teaching methods. Course may be repeated for credit. See music department handbook. Special fees apply. Prerequisites: Permission of instructor. (1+2)

MUED F316 Practicum in Middle-Level Music Methods
1 Credit
Students will observe and reflect upon weekly fieldwork in grades 4 – 6 beginning instrumental music classes. Additionally, students will assist with and lead live classroom activities. For preservice music educators. Prerequisites: MUS F315; any music techniques/methods course plus concurrent enrollment in a second MUS F315 course. Recommended: ED F201. (0.5+1.5)

MUED F405 W Secondary School Music Methods
3 Credits
Principles and methods of teaching music in junior and senior high school with emphasis on philosophies, management, objectives, teaching techniques, choral and general music programs. Includes use of teaching plans in classroom and rehearsal settings. Note: Should be taken prior to ED F453. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; permission of instructor. (2+3)

MUED F406 Practicum in Secondary Music Methods
1 Credit
Students will observe and reflect upon weekly fieldwork in a local middle or high school. Additionally, students will assist with and lead live classroom activities. For preservice music educators. Taken concurrently with MUED F405, Secondary Schools Music Methods. (0.5+1.5)

NATURAL RESOURCES MANAGEMENT

NRM F101 Natural Resources Conservation and Policy
3 Credits
Offered Fall
Conservation of natural resources including history, ecological and social foundations. Examines principles of sustained yield, carrying capacity, supply and demand, and world population growth as applied to agriculture, range, forest, wildlife, fisheries, recreation, minerals and energy management. A wide range of perspectives is presented to help students develop a personal philosophy toward natural resources. Prepare a multiple resource observation plan for an undeveloped area on campus. Optional all-day field trips take place the first two Saturdays of the semester. Prerequisites: Placement in ENGL F111X. (3+0)

NRM F102 Practicum in Natural Resources Management
1 – 2 Credits
Practical experience in natural resources management. Supervised individual study on a farm, in a greenhouse, managed forest, agency or business, or another approved location. Graded Pass/Fail. Prerequisites: Natural Resource Management majors only and permission of instructor. (1 – 2+0)

NRM F106 Orientation to Natural Resource Management
1 Credit
Offered Spring
Overview of career opportunities in natural resources. Includes discussions with research faculty and upper class students involved in various aspects of resource management issues. Graded Pass/Fail. (1+0)

NRM F161 Wilderness Leadership Education
3 Credits
Offered Summer As Demand Warrants
Introduction to outdoor education. Includes both theoretical and practical exposure to quality judgment and decision-making, environmental education techniques and leadership development in the wilderness setting. Provides detailed exposure to the Wilderness Education Association's 18 essential components of wilderness leadership and backcountry safety. The field portion of the course includes detailed instruction in and mentored experience with modern backcountry travel techniques. Successful completion earns certification in the Wilderness Stewardship Program. Field program requires travel through rough un-trailed terrain with heavy packs and average strength and stamina. No use of alcohol, tobacco, illegal drugs or firearms. Special fees apply. Prerequisites: Permission of instructor. Recommended: BIOL F104X, NRM F101 and physical geography. (3+0)

NRM F204 Public Lands Law and Policy
3 Credits
Offered Fairbanks: Spring; Offered Palmer: Background on selected federal lands management legislation and agency policies affecting resources conservation, development and preservation. Prerequisites: Sophomore class standing. (3+0)

NRM F211 Introduction to Applied Plant Science
3 Credits
Offered Fall
Basic principles and requirements for plant growth and development with special attention to the production and management of field and greenhouse grown crops. (2+3)

NRM F212 Greenhouse Management
3 Credits
Offered Spring
The greenhouse as a controlled environment for research, education and commercial production of plants; the physical environment; environmental controls and monitors; plant cultivation techniques and crop scheduling useful in plant science and commercial production. (3+0)

NRM F215 Plant Propagation
3 Credits
Offered Fall
Principles and practices of plant propagation useful in horticulture, botany, forestry, agronomy, revegetation projects and plant research. Emphasis on both macro- and micro-propagation (tissue culture) of Alaska native plants by seeds, spores and vegetative propagules such as...

<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NRM F231</td>
<td>Silvics and Dendrology</td>
<td>4</td>
<td>Ecological requirements and characteristics of tree species of the Northern forest and western North American forest. Silvical characteristics including range, climate, soils, shade tolerance, growth and principal enemies. Family and species characteristics for identification on sight or with a key. Field trips required. Prerequisites: BIOL F115X; BIOL F116X; BIOL F271; or permission of instructor. (3+3)</td>
</tr>
<tr>
<td>NRM F277</td>
<td>Introduction to Conservation Biology</td>
<td>3</td>
<td>Introduction to the basic ecological, genetic, management, legal and historical developments in conservation biology and focused efforts to manage biological diversity resources, with a status review of important habitats and endangered species. Prerequisites: BIOL F115X; BIOL F116X. Cross-listed with BIOL F277. (3+0)</td>
</tr>
<tr>
<td>NRM F290</td>
<td>Resource Management Issues at High Latitudes</td>
<td>2</td>
<td>Broad perspective of high latitude resource management issues. On-site analyses of resource management needs, opportunities and/or conflicts in agriculture, forestry, mining, seafood, petroleum, recreation and tourism. Includes 10 day field trip at the end of spring semester. Students must provide own sleeping gear, rain gear and hiking boots. Students must be able to hike forest trails and camp under conditions of inclement weather. May be repeated for credit with instructor’s permission. Special fees apply. Prerequisite: Permission of instructor. (2+0)</td>
</tr>
<tr>
<td>NRM F300</td>
<td>Internship in Natural Resources Management and Geography</td>
<td>1 – 3</td>
<td>Supervised pre-professional experience in a business or agency (public or private). Open to students majoring or minoring in natural resources management and geography only. Course may be repeated for credit up to a maximum of 6 credits. Prerequisites: NRM F101 for natural resources management majors or GEOG F101 for geography majors; junior standing with 3.0 GPA; permission of instructor and an approved internship plan. Cross-listed with GEOG F300. (0+0+3 – 10)</td>
</tr>
<tr>
<td>NRM F303X</td>
<td>Environmental Ethics and Actions (h)</td>
<td>3</td>
<td>Exploration of the history of modern Western views of the relationship between people and nature, alternative foundations for an environmental ethic (utilitarianism, spiritual activity, rights-based and respect-based ethics) and practices of such ethics in business, profession and general lifestyle today. Prerequisites: Junior standing; placement in ENGL F111X or higher; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>NRM F304 W,O</td>
<td>Perspectives in Natural Resources Management</td>
<td>3</td>
<td>Analysis of philosophical/ethical, economic, scientific and political foundations of diverse natural resource management perspectives. Prerequisites: COMM F131X or COMM F141X; NRM F101; junior standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>NRM F312</td>
<td>Introduction to Range Management</td>
<td>3</td>
<td>Applied ecological treatment of soil, plant and grazing animal relationships on uncultivated lands. Origin of the discipline, management practices and important rangelands of North America; emphasis on Alaska’s rangelands and grazers. Prerequisites: BIOL F115X; BIOL F116X; BIOL F239; or permission of instructor. Recommended: NRM F320; NRM F321. (3+0)</td>
</tr>
<tr>
<td>NRM F313</td>
<td>Introduction to Plant Pathology</td>
<td>4</td>
<td>Plant pathology; non-parasitic and parasitic causes of plant diseases; methods of plant infestation and mechanism of plant defenses; epidemiology and disease control. Prerequisites: BIOL F115X; BIOL F116X. Recommended: BIOL F239. (3+3)</td>
</tr>
<tr>
<td>NRM F320</td>
<td>Animal Science</td>
<td>3</td>
<td>Introduction to the various disciplines that form the study of animal science. Topics include animal nutrition, physiology of reproduction and lactation, genetics and animal breeding, animal behavior, environmental physiology, animal health and welfare. Information is presented as it applies to traditional and non-traditional livestock species with emphasis on applications pertinent to Alaska. Prerequisites: BIOL F115X; BIOL F116X. (2+3)</td>
</tr>
<tr>
<td>NRM F338</td>
<td>Introduction to Geographic Information Systems</td>
<td>3</td>
<td>Geographic data concepts including mapping systems, data sources, editing data. GIS analysis and computer mapping. Introduction to global positioning systems. GIS applications in natural resources management. Prerequisites: Knowledge of PC's or Unix workstations desirable. Cross-listed with GEOG F338. (2+3)</td>
</tr>
<tr>
<td>NRM F340</td>
<td>Natural Resources Measurement and Inventory</td>
<td>3</td>
<td>Techniques and instrumentations used to measure and inventory natural resources, including land, timber, range, wildlife, water and recreation resources. Prerequisites: Junior standing or permission of instructor. (2+3)</td>
</tr>
<tr>
<td>NRM F361</td>
<td>Advanced Wilderness Leadership Education</td>
<td>3</td>
<td>The natural environment, concentrating on outdoor leadership, environmental ethics, minimum impact camping, forest and arctic natural history, and adaptable judgment and decision-making. Includes hiking through boreal forest and along tundra ridges, river crossing, glacier ascent, and skills to do these activities safely. Other mediums of travel could include sea kayaks, canoes or rock climbing. Three lecture sessions will preview a demanding educational field program of 5 – 15 days requires travel through rough un-trailed terrain with heavy packs or boats and average strength and stamina. No use of alcohol, tobacco, illegal drugs or firearms. Prerequisites: NRM F101 or equivalent; NRM F161 or equivalent; permission of instructor. Recommended: NRM/GEOG F463 and NRM F465. (3+0)</td>
</tr>
<tr>
<td>NRM F365</td>
<td>Principles of Outdoor Recreation Management</td>
<td>3</td>
<td>Theories, practices, economics and problems fundamental to the use of land and related natural resources for recreation. The course focuses on human dimension related issues faced by recreation managers and research to address those issues. Prerequisites: NRM F101; junior standing; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>NRM F369</td>
<td>GIS and Remote Sensing for Natural Resources</td>
<td>3</td>
<td>Official Spring-Numbered Years Introduces the principles and terminology of natural resources, ecosystem management and landscape ecology while developing analytical skills using spatial technologies consisting of geographic information systems, remote sensing, and global positioning systems. Prerequisites: NRM F338 Recommended: NRM F312 (1.5+1.5)</td>
</tr>
<tr>
<td>NRM F370</td>
<td>Introduction to Watershed Management</td>
<td>3</td>
<td>The hydrologic cycle and the influence of land management techniques on water quantity, quality and timing. Water yield, soil erosion and non-point pollution, snowpack management, and land use alternatives. Prerequisites: NRM F101 and GEOG F101X or permission of instructor. (2+3)</td>
</tr>
</tbody>
</table>
NRM F375 Forest Ecology
3 Credits
Offered Fall
Basic forest ecology concepts, including physical (wind, temperature, water, etc.), biotic (population and community dynamics), genetic suc-
cessional and landscape dynamics. Basic physiological characteristics of
trees, succession, vegetation classification, and related concepts.
Stand structure, diversity, competition, growth, forest-soil interactions,
biomass, nutrient distribution and dynamics, energy relations, ecology of
disturbances. How this basic information can be used in development of
wise management plans for forest ecosystems. Prerequisites: NRM F251.
(3+0)

NRM F380 W Soils and the Environment
3 Credits
Offered Fall
Soil development and classification; physical and chemical properties;
biological activity; water movement and nutrient cycling in natural and
manipulated ecosystems. Prerequisites: CHEM F105X; ENGL F111X;
ENGL F211X or ENGL F213X or permission of instructor. (2+0)

NRM F405 W Senior Thesis in Natural Resources Management I
2 Credits
Problem-solving with emphasis on writing and analysis. Individual
project under the guidance of faculty sponsor involving formulation of
a question in natural resources management and preparation of a
formal, comprehensive written report. Thesis proposal, presentation and
research. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; NRM
core; junior standing. (2+0)

NRM F406 W Senior Thesis in Natural Resources Management II
2 Credits
Problem-solving with emphasis on writing and analysis. Individual
project under the guidance of faculty sponsor involving formulation of
a question in natural resources management and preparation of a
formal, comprehensive written report. Final thesis and presentation.
Prerequisites: NRM F405 and permission of instructor. (2+0)

NRM F407 Environmental Law
3 Credits
Offered Spring Odd-numbered Years
The role of common law theory in regulatory, statutory and constitutional
interpretation in the field of environmental protection, including air and
water pollution, toxic/hazardous substances and land-use regulation.
Prerequisites: Junior or senior class standing or permission of instructor.
(3+0)

NRM F410 Numerical Methods for Natural Resources Management
4 Credits
Offered Fall
Teaches the most up-to-date numerical methods for natural resources
managers and researchers. Labs cover important computer skills to help
students excel in modern natural resources management. Recommended:
MATH F314 (3+3)

NRM F430 Resource Management Planning
3 Credits
Offered Spring
Application of planning and conflict resolution principles to natural
resources management. Examines plans prepared in response to current
Alaska resource disputes, including wolf, brown bear, boreal forest and
recreation river plans. Includes public involvement, consensus building,
the basic steps in the planning process and resource dispute simulations.
Review resource management plans and develop plans for a local resource
management issue. Prerequisites: Senior standing or permission of instruc-
tor. Stacked with NRM F630. (3+0)

NRM F435 GIS Analysis
4 Credits
Offered Spring
GIS analysis of natural resources including spatial query, attribute query,
vector, grid, image, topographic and network analysis techniques. Cross-
listed with GEOG F435. (3+3)
NRM F465 Survey Research in Natural Resources Management 3 Credits
Offered Spring Even-numbered Years
Research methods to support research and planning in recreation and human dimensions of natural resources management. Course topics include quantitative theories and concepts that have been applied to study human dimensions of natural resource management, study design, survey development and administration, sampling and data analysis. Prerequisites: ECON F235 or equivalent; NRM F101; or permission of instructor. (3+0)

NRM F466 Environmental Soil Chemistry 3 Credits
Offered Spring Odd-numbered Years
Basic principles of soil chemical processes. Covers soil solution chemistry; precipitation/dissolution and soil colloids; soil solid phase; soil acidity/alkalinity; adsorption and ion exchange; reduction/oxidation reactions; and kinetics of soil chemical processes. In the lab students will operate equipment for soil chemical analysis, experience computer simulation models for soil chemistry and become familiar with the terms and approaches for writing technical reports. Prerequisites: CHEM F103X; CHEM F106X; NRM F380. (2+3)

NRM F470 Terrestrial Carbon Management 3 Credits
Offered Spring
Climate change and its relationship to carbon dynamics have become elements of natural resource management options for land owners within the state and across the country and the globe. The course will present a broad scale description of the direction for forest carbon management and proposed methods for inventorying and documenting carbon dynamics attached to industry and down to the landowner. Prerequisites: BIOL F271 or NRM F375 or permission of instructor. (3+0)

NRM F480 Soil Management for Quality and Conservation 3 Credits
Offered Fall Odd-numbered Years
Managing soil in disturbed and natural ecosystems to reduce soil losses and maintain or improve soil quality. Methods for maintaining soil quality, preserving soil against loss from erosion, remediating contaminated soil and reclaiming degraded soils. Prerequisites: NRM F380. (3+0)

NRM F485 Soil Biology 3 Credits
Offered Spring Even-numbered Years
Major groups of organisms in the soil and their interrelationships; the major biological processes which take place in the soil and their significance to soil productivity, plant growth and environmental quality; and methodology for studying soil organisms and soil biological processes. Prerequisites: A course in biology or microbiology and a course in soils or permission of instructor. (3+0)

NRM F487 W,O Fisheries Management 3 Credits
Offered Spring
Theory and practice of fisheries management, with an emphasis on strategies utilized for the management of freshwater and marine fisheries. Application of quantitative methodologies for the assessment and manipulation of aquatic habitats, sport and commercial fish populations, and stock assessment are considered, as is the setting of appropriate goals and objectives for effective, science-based management. Prerequisites: BIOL F271; COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; ENGL F414; FISH F425; FISH F405 or FISH F410; or permission of instructor. Cross-listed with FISH F487. (3+0)

NRM F488 Land Management of Ecosystems 3 Credits
Offered Spring, As Demand Warrants
Natural resource topics related to the management of the terrestrial environment in regions such as the Pacific Northwest, Hawaii and the circumpolar North. A basic understanding of the ecology of a specific region is presented prior to a spring break field trip designed to give the student a broad understanding of important topics affecting the management of important natural resources in the selected region. Special fees apply.

NRM F489 Alaska Soil Geography Field Trip 1 Credit
Offered Summer, As Demand Warrants
Soil geography along ecological transect in selected areas of Alaska. Hands-on experiences on soil morphology and exposure of the relationships between soil genesis and other ecological factors including vegetation, geology, landform, climate and hydrology. Includes discussion of soil classification and land use interpretations. Student must provide their own camp gear, be able to walk on uneven or rocky ground and be physically fit for field work. Graded Pass/Fail. Special fees apply. Prerequisites: NRM F380, or a course in soils, or permission of instructor. Stacked with NRM F689. (1+0)

NRM F601 Research Methods in Natural Resources Management 2 Credits
Offered Fall
Introduction for graduate students to the research methods employed in the various fields of resource management, including agriculture, forestry, ecology and social sciences. Designed to acquaint students with the relationship between theory and research, the nature of scientific inquiry, approaches to research, the sequence of steps involved in scientific investigation and the presentation of research results. Prerequisites: Graduate standing or permission of instructor. (2+0)

NRM F613 Resilience Internship 2 Credits
Offered Fall
Students of the Resilience and Adaptation Program participate in internships to broaden their interdisciplinary training, develop new research tools and build expertise outside their home disciplines. Internships are for eight to ten weeks of full-time commitment and take place during the student's first summer in the program. In the autumn students meet to discuss their internship experiences and make public presentations. Prerequisites: ANTH/BIOL/ECON/NRM F667; or ANTH/BIOL/ECON/NRM F668; or permission of instructor. Cross-listed with ANTH F617; BIOL F613; ECON F613. (2+0)

NRM F616 Ecological Background for Resilience and Adaptation 1 Credit
Offered Fall
Provides the ecological background that is necessary for understanding the role of ecology in complex systems involving interactions among biological, economic, and social processes. Designed for incoming students of the Resilience and Adaptation Program (RAP), who have not received training in ecology. Prerequisites: Graduate student enrollment or permission of instructor. Cross-listed with BIOL F616. (1+0)

NRM F630 Resource Management Planning 3 Credits
Offered Spring
Application of planning and conflict resolution principles to natural resources management. Examines plans prepared in response to current Alaska resource disputes, including wolf, brown bear, boreal forest and recreation river plans. Includes public involvement, consensus building, the basic steps in the planning process, and resource dispute simulations. Prerequisites: Graduate standing or permission of instructor. Stacked with NRM F430. (3+0)

NRM F634 Resource Management in Developing Countries 2 Credits
Offered Spring
Complex relationship between sustainable development and the social, economic and environmental conditions in low income countries of the “Global South.” Through lectures, readings, films and structured discussions, we examine major contemporary issues facing low-income societies (e.g. urbanization, migration, agricultural development, deforestation, water shortages, rural poverty, gender and development, environmental degradation and sustainable development). Case studies will read drawings and current empirical research from Latin America, Africa and Asia. (2+0)
NRM F637  Evolution of Conservation Concepts and Policy
3 Credits  Offered Spring
Resource policy issues development and implementation including forestry, mining, fisheries, oil, wildlife and other topics as demand warrants. Focus on policy issues involved in management of Alaska's resources. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ECON F637. (3+0)

NRM F638  GIS Programming
3 Credits  Offered Spring Odd-numbered Years
GIS programming for ArcView, Arc/Info and ArcGIS. Programming techniques for custom GIS, efficient batch processing, and development of custom tools for GIS display and analysis. Prerequisites: NRM F338 or equivalent. (3+0)

NRM F641  Natural Resource Applications of Remote Sensing
4 Credits  Offered Spring Even-numbered Years
Application of remote sensing for inventory and analysis of natural resources. Topics include aerial photography applications and digital remote sensing, including image display, rectification, classification and accuracy assessment. Prerequisites: NRM F338 or equivalent. (3+3)

NRM F647  Global to Local Sustainability
3 Credits  Offered Fall
Explores the basic principles that govern resilience and change of ecological and social systems. Principles are applied across a range of scales from local communities to the globe. Working within and across each of these scales, students address the processes that influence ecological, cultural and economic sustainability, with an emphasis on northern examples. Prerequisites: Graduate standing in a natural science, social science, humanities or interdisciplinary program at UAF; and permission of instructor. Cross-listed with ANTH F647; BIOL F647; ECON F647. (3+0)

NRM F649  Integrated Assessment and Adaptive Management
3 Credits  Offered Spring
Interdisciplinary exploration of theoretical and practical considerations of integrated assessment and adaptive management. Concepts important in understanding societal and professional-level decision-making. Students work as individuals and as a team to undertake case studies with relevance to integrated assessment and adaptive management. Collectively, the class builds a portfolio of cases and conducts an integrated assessment. Prerequisites: Graduate standing in a natural science, social science, humanities or interdisciplinary program at UAF or another university or permission of instructor. The course is designed to fit into the sequence of the Resilience and Adaptation program's core courses. It is open to other graduate students interested in and prepared to conduct interdisciplinary studies relating to sustainability. Recommended: ANTH/BIOL/ECON/NRM F647 and ANTH/BIOL/ECON/NRM F667 (previously or concurrently). In case of enrollment limits, priority will be given to graduate students in the Resilience and Adaptation program in order for them to be able to meet their core requirements. Cross-listed with ANTH F649; BIOL F649; ECON F649. (3+0)

NRM F651  Advanced Silviculture
3 Credits  Offered Spring Odd-numbered Years
Examines biological and environmental aspects of silviculture. Addresses stand manipulation from the “silvicultural system” approach and includes regeneration, vegetation management, stand tending, “harvest” with considerations for biodiversity, “old-growth,” wildlife habitat and timber production. Ecological classification, landscape management and pre-harvest silvicultural prescriptions will be addressed. Must be able to participate in one weekend field trip. Prerequisites: Graduate standing and permission of instructor. (3+0)

NRM F656  Sustainable Livelihoods and Community Well-Being
3 Credits  Offered Fall
Review the basic principles that govern the sustainability of systems and look at the cultural practices and individual behaviors that enhance or degrade sustainable livelihoods and community well-being. Emphasis is on understanding the historical context of ideas about sustainability, on understanding the nature and magnitude of the social, economic and ecological dimensions of contemporary change, and the “best practices” currently in place for communities to respond effectively to change. Prerequisites: Graduate standing or permission of instructor. Cross-listed with: NRM F656 and GEOG F656 (3+0)

NRM F663  Wilderness Concepts
3 Credits  Offered Fall
History and evolution of wilderness thought, the contemporary meaning of wilderness, and survey of economic and noneconomic wilderness values for individuals and society. Cross-listed with GEOG F663. (3+0)

NRM F665  Advanced Outdoor Recreation
3 Credits  Offered Fall Even-numbered Years
Evaluation of contemporary outdoor recreation management models and the linkage between management programming and visitor response. Development of a synthesized model and testing with contemporary problems. Prerequisites: Graduate standing. (3+0)

NRM F667  Resilience Seminar I
1 Credit  Offered Fall
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. A considerable portion of the seminar is student-directed, with students assuming leadership in planning seminar activities with the instructor. Graded Pass/Fail. Prerequisites: Must be enrolled in the Resilience and Adaptation graduate program; or permission of instructor. Recommended: ANTH/BIOL/ECON/NRM F647 (taken concurrently). Cross-listed with ANTH F667; BIOL F667; ECON F667. (2+0)

NRM F668  Resilience Seminar II
1 Credit  Offered Spring
Provides a forum for new students of the Resilience and Adaptation graduate program to explore issues of interdisciplinary research that are relevant to sustainability. The seminar provides support to each student planning his/her summer internship and preparing and presenting a thesis research prospectus. Graded Pass/Fail. Prerequisites: ANTH/BIOL/ECON/NRM F647; ANTH/BIOL/ECON/NRM F667; or permission of instructor. Cross-listed with ANTH F668; BIOL F668; ECON F668. (2+0)

NRM F670  Biometeorology
3 Credits  Offered Fall Odd-numbered Years
Radiation and energy balance relationships for natural and modified surfaces; physical environment in relation to biology and ecology of plants and animals; implications for resource and environmental management. Prerequisites: Biological or physical science background; graduate standing; or permission of instructor. (3+0)

NRM F672  Nutrient Cycling
3 Credits  Offered Spring Odd-numbered Years
Examination of physical, chemical and biological processes controlling nutrient element recycling, availability and retention in natural and managed ecosystems. Prerequisites: BIOL F271; CHEM F106X; NRM F380; or permission of instructor. (3+0)

NRM F675  Theoretical Forest Ecosystem Science
3 Credits  Offered Spring Even-numbered Years
Theoretical concepts of forest ecosystem dynamics including theoretical developments in the description of plant growth, ecosystem productivity, decomposition and plant carbon allocation. Development of a model using the basic theoretical constructs. Prerequisites: Undergraduate major in biological sciences or renewable resources including at least one course in ecology, one approved college-level mathematics course and graduate standing; or permission of instructor. (3+0)
NRM F676  Interdisciplinary Modeling of High Latitude Global Change  
4 Credits  Offered Fall Even-numbered Years
Introduces students to approaches to modeling how regional and global environmental change influences biological and social systems in high latitudes and how the responses of these systems influence the regional and global functioning of the earth system. Prerequisites: STAT F200X or equivalent; graduate standing; or permission of instructor. Cross-listed with BIOL F676. (3+3)

NRM F683  Soil Microbiology and Biochemistry  
3 Credits  Offered As Demand Warrants
Current topics in soil microbiology and biochemistry. Based on readings from the primary literature and discussions in class. Each student will be expected to lead at least one discussion, write a research proposal and present the proposal to class. Prerequisites: At least one course in soil science; one course in microbiology; or permission of instructor. (3+0)

NRM F688  Land Management of Ecosystems  
3 Credits  Offered Spring, As Demand Warrants
Natural resource topics related to management of the terrestrial environment in regions such as the Pacific Northwest, Hawaii and the circumpolar North. A basic understanding of the ecology of a specific region is presented prior to a spring break field trip designed to give the student a broad understanding of important topics affecting the management of important natural resources in the selected region. Special fees apply. Prerequisites: NRM F211; NRM F277; NRM F375 or BIOL F271. Stacked with NRM F488. (3+0+40)

NRM F689  Alaska Soil Geography Field Trip  
1 Credit  Offered Summer As Demand Warrants
Soil geography along an ecological transect in selected areas of Alaska. Hands-on experiences with soil morphology and exploration of the relationships between soil genesis and other ecological factors including vegetation, geology, landform, climate and hydrology. Includes discussion of soil classification and land use interpretations. Students must provide their own camp gear, be able to walk on uneven or rocky ground and be physically fit for field work. Graded Pass/Fail. Special fees apply. Prerequisites: NRM F380, or a course in soils, or permission of instructor. Stacked with NRM F489. (1+0)

NRM F692  Graduate Seminar  
1 – 3 Credits
Topics in natural resources management and geography explored through readings, student presentations, group discussions and guest speakers. Prerequisites: Graduate standing or permission of instructor. Cross-listed with GEOG F692 (1 – 3+0)

NORTHERN STUDIES

For information on studying at McGill University, Montreal, Canada; the University of Copenhagen, Denmark; or opportunity for study in Russia, see Study Abroad.

NORS F205  Leadership, Citizenship and Choice  
3 Credits
History of democratic principles in America and how people can contribute to political and community life in the local, state and national arenas as leaders and citizens. Examines ethical dilemmas of leadership, and political and social issues facing Alaska and American societies. Course includes an experiential learning component. Cross-listed with PS F205. (3+0)

NORS F425 W  Visual Images of the North  
3 Credits
Examination of the imagery of the people and landscapes of the polar regions, centering on such issues as depiction of arctic peoples and customs by Europeans, documentary versus artistic goals, translations from original sketches to published images, relationship of polar imagery to prevailing historical styles and the influence of changing world views on modes of polar representation between the 16th and 20th centuries. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with ART F425. (3+0)

NORS F470  Oral Sources: Issues in Documentation (h)  
3 Credits  Offered Alternate Fall
Preparation for recording and use of oral resources. Examines how meaning is conveyed through oral traditions and personal narratives and the issues involved with recording and reproducing narratives. Includes management of oral recordings, ethical and legal considerations, issues of interpretation and censorship, and the use of new technologies to access and deliver recordings. Prerequisites: At least one undergraduate ANTH course and one undergraduate HIST course, or permission of instructor. Cross-listed with ANTH F470. (3+0)

NORS F484 W,O  Seminar in Northern Studies (h)  
3 Credits  Offered Fall
An interdisciplinary seminar focusing on topics relating to the North with emphasis on the physical sciences, the peoples, and the socioeconomic and political aspects of the area. Specialists in the various fields will assign readings and conduct discussions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

NORS F600  Perspectives on the North  
3 Credits
Basic knowledge of the circumpolar North — the social, economic, political and scientific facets of northern life. Consideration of major cultural groups of the North and their histories, the environmental settings and patterns of settlement and development in northern regions and systems of governance in different northern countries. Broad overview of the major policy issues of the North in education, justice, health care, and environmental and wildlife protection. Course is also available online. Cross-listed with HIST F600. (3+0)

NORS F601  Research Methods and Sources in the North  
3 Credits
Development of students’ research skills so they can engage in their own research on northern issues. Includes techniques of interviewing, conducting surveys, and sampling; qualitative and quantitative methods of research design; and familiarity with library sources and archival records. Each student will develop a research project. Course is also available online. (3+0)

NORS F603  Public Policy  
3 Credits  Offered Spring Even-numbered Years
The processes of policy development, implementation and change are analyzed along with major policy frameworks and models used in contemporary political science. These frameworks and models will be applied to environmental sustainability and other social policy issues. Students will develop expertise in a specific policy area and skills in research design preparing them to analyze public policy. Prerequisites: Graduate Standing. Cross-listed with PS F603. (3+0)

NORS F610  Northern Indigenous People and Contemporary Issues  
3 Credits  Offered Fall Odd-numbered Years
Comparative examination of issues affecting northern indigenous people from Alaska, Canada, Greenland and Russia. Issues include the impact of the alienation of land on which these people depend; the relationships between their small, rural microeconomies and the larger agroindustrial market economies of which they are a part; education, language loss and cultural transmission; alternative governmental policies toward indigenous peoples and contrasting world views. Prerequisites: Graduate standing or upper-division standing with permission of instructor. Cross-listed with ANTH F610. (3+0)
NORS F611 Environmental History 3 Credits
Offered Spring Even-numbered Years
Discussion of significant works of environmental history. Cultural history of the landscape in world civilization with emphasis on Western Europe and North America. Discussion of interdisciplinary approaches to the history of environment and cooperative work across disciplines. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F411. (3+0)

NORS F620 Images of the North 3 Credits
Emphasis on the variety of images created about the people and environment of the circumpolar North. Examination and interpretation of conceptualizations of the North as expressed in such different media as film, art, literature, travel journals and oral traditions. Cross-listed with ENGL F620. (3+0)

NORS F624 Field Artists of the North 3 Credits
Offered As Demand Warrants
Study of field artists and their work, from the explorer artists of yesterday to today’s field artists using a variety of traditional and contemporary media in their creations. Students will conceive and conduct their own study projects, producing a body of work that will demonstrate the principles and practice of a field artist. Prerequisites: ART F105; studio art course (ART F161, ART F162, ART F163, ART F205, ART F211, ART F213 or JRN F203.) Cross-listed with ART F624. (3+0)

NORS F625 Visual Images of the North 3 Credits
Examination of the two-dimensional imagery of the people and landscapes of the polar regions, centering on such issues as depiction of arctic peoples and customs by Europeans, documentary vs. artistic goals, translations from original sketches to published images, relationship of polar imagery to prevailing historical styles, and the influence of changing world views on modes of polar representation between the 16th and 20th centuries. Cross-listed with ART F625. (3+0)

NORS F627 Polar Geography 3 Credits
Offered Spring Odd-numbered Years
Comparative physical, cultural, political and economic geography of the Circumpolar North and Antarctic regions. Special attention given to Arctic natural resource and climate change in both polar regions, and polar geopolitics. Prerequisites: GEOG F101 or GEOG F203 or GEOG F111X; or permission of instructor. Cross-listed with GEOG F627. (3+0)

NORS F640 Ethics and Reporting in the Far North 3 Credits
Historical overview of media coverage of the Northern frontier with focus on journalistic ethics. A comparison is made to the media climate in Third World countries. Cross-listed with JRN F640. (3+0)

NORS F647 U.S. Environmental Politics 3 Credits
Offered Spring
U.S. political institutions as they relate to making policies for protecting the quality of the natural environment. The politics of nuclear waste, endangered species, air and water pollution, and wilderness preservation. Analysis of the National Environmental Policy Act, sustainable development, limits to growth and other topics. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PS F647. (3+0)

NORS F648 Environmental Politics of the Circumpolar North 3 Credits
Overview of how environmental politics and policy as a field of study relates to the Arctic region. Analysis of various threats to the northern environment, focusing on the policy making institutions at selected Arctic Rim nations, as well as strategies to deal with environmental problems in an international context. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PS F648. (3+0)

NORS F652 International Relations of the North 3 Credits
Examination of the international strategies of circumpolar states. Consideration of theoretical and practical elements of strategy formation in major issue areas such as national security, the political economy, human rights and scientific exchange. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PS F652. (3+0)

NORS F654 International Law and the Environment 3 Credits
International environmental law. Includes international case law regulating the sea, airspace, outer space and the polar regions; comprehensive international regulatory and legal instruments to protect the environment (e.g. the U.N. Framework Convention on Climate Change); and the doctrines, principles, and rules of international law that are basic to an understanding of international legal regimes and the environment. Course is also available online. Prerequisites: Graduate standing; permission of instructor. Recommended: Undergraduate course in international law, organization or politics. Cross-listed with PS F654. (3+0)

NORS F655 Political Economy of the Global Environment 3 Credits
Interactions between basic aspects of the global economy (international trade, investment and development) and the natural environment. Topics include the economic impact of global environmental agreements and the environmental impact of global markets, transnational corporations and development assistance by organizations such as the World Bank. Prerequisites: Graduate standing and permission of instructor. Cross-listed with PS F655. (3+0)

NORS F656 Science, Technology, and Politics 3 Credits
Relationship of science, technology and politics. Connections among scientific knowledge, technology, technological innovations, politics and power. Gender roles and the influence of western science. Both historical and comparative aspects are included. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Recommended: PS F101. Cross-listed with PS F656. (3+0)

NORS F658 Comparative Environmental Politics 3 Credits
Offered Fall Odd-numbered Years
Enduring issues of the field of comparative politics and their relation to global environmental problems. Biodiversity, transboundary pollution capacity, political processes and organizations, and international commitments all potentially shape the nature and dynamics of global environmental politics and vice versa. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Recommended: PS F201 or equivalent comparative politics course. Cross-listed with PS F658. (3+0)

NORS F660 Government and Politics of Canada 3 Credits
Offered Spring Odd-numbered Years
The Canadian political system, covering the Canadian constitution, federal structure, parliamentary government and public policy, as well as contemporary issues concerning Native rights and the Canadian North. Students will complete a major research paper on specific policy areas. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PS F660. (3+0)

NORS F661 History of Alaska 3 Credits
Offered Fall
Alaska from prehistoric times to the present, including major themes such as Native Alaska, colonial and military Alaska, statehood, Alaska Native Claims Settlement Act of 1971 and the Alaska National Interest Lands Act of 1980. Also available via e-Learning and Distance Education. Cross-listed with HIST F662. (3+0)
NORS F662  Alaska Government and Politics ✴
3 Credits  Offered Spring Odd-numbered Years
Alaska’s government and politics, in the context of American state and local government, and politics and governments of circumpolar northern nations. Topics include political history, constitution, political parties, interest groups, elections, public opinion, governor, legislature, judiciary, administration and local governments. Compares Alaska to the contiguous 48 states and subnational governments of the circumpolar North; examines how government institutions and processes respond to social, environmental and political changes of northern communities. Prerequisites: Graduate standing or permission of instructor. Cross-listed with PS F662. (3+0)

NORS F663  Imperial Russia, 1700 – 1917 ✴
3 Credits  Offered Fall Odd-numbered Years
This course covers Russian history from the reign of Peter the Great (1682–1725) until the collapse of the Tsarist regime in February 1917. Topics will include Russia’s complex relationship with Western Europe, the challenges posed by modernization, the Russian Empire as a multi-national state, and the emergence of the revolutionary movement. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F663. Stacked with HIST F463. (3+0)

NORS F664  Soviet and Post-Soviet Russia ✴
3 Credits  Offered Fall Even-numbered Years
Russia from the 1917 Revolution to the present. This course examines the attempts to build a socialist utopia in the former Russian empire and its impact on the peoples of that region and the modern world. We will consider the political, economic, social and cultural nature of the Soviet state. Major themes include cultural transformation, industrialization, Stalinism, the Soviet Union as a multi-national empire, the Cold War, the collapse of the Soviet state, and the new Russia of Yeltsin and Putin. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F664. Stacked with HIST F464. (3+0)

NORS F668  Government and Politics of Russia ✴
3 Credits  Offered Spring Odd-numbered Years
Current developments in Russia from a number of perspectives. The effect of history and geography on political change; the nature of Russian government and society; the legacies of Lenin, Stalin, Gorbachev, and the ideological nature of regimes and leadership. Economic forces and the political struggle in governance; revolution, democracy and reform; and the international role of Russia, particularly in relation to the former Soviet republics, Eastern Europe and other border areas. Prerequisites: PS F201, graduate standing or permission of instructor. Cross-listed with PS F668. (3+0)

NORS F670  Oral Sources; Issues in Documentation ✴
3 Credits  Offered Alternate Fall
Preparation for recording and use of oral resources. Examines how meaning is conveyed through oral traditions and personal narratives and the issues involved with recording and reproducing narratives. Includes management of oral recordings, ethical and legal considerations, issues of interpretation and censorship, and the use of new technologies to access and deliver recordings. Prerequisites: At least one undergraduate ANTH course and one undergraduate HIST course, or permission of instructor. Cross-listed with ANTH F670. (3+0)

NORS F672  Culture and History in the North Atlantic ✴
3 Credits  Offered Spring Odd-numbered Years
Ancient Norse culture and society. Includes readings of Old Norse poetry and Icelandic sagas in translation, with secondary analyses and archaeological background. Includes Greenlandic myths and contemporary ethnographic accounts of Iceland, Greenland and the Faroe Islands. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ANTH F672. (3+0)

NORS F681  Polar Exploration and its Literature ✴
3 Credits  Offered Spring Odd-numbered Years
A survey of polar exploration efforts of all Western nations from A.D. 870 to the present and a consideration of the historical sources of this effort. Also available via e-Learning and Distance Education. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F681. (3+0)

NORS F683  20th Century Circumpolar History ✴
3 Credits  Offered Spring Even-numbered Years
A comparative history of the circumpolar North, including Alaska, Siberia, Scandinavia, Greenland and Canada. Focus on social, economic, political and environmental issues of the 20th century, such as exploration, aboriginal land claims, subsistence, military strategy, transportation, oil development, Arctic haze and scientific research in the Arctic. Prerequisites: Graduate standing or permission of instructor. Cross-listed with HIST F683. (3+0)

NORS F690  Researching and Writing Northern History ✴
3 Credits  Offered Spring Odd-numbered Years
Exploration of the craft and methodology of historical research in the North. Course may be repeated for credit when content varies. Prerequisites: Graduate standing, or permission of instructor. Cross-listed with HIST F690. (1+3)

OCCUPATIONAL SAFETY AND HEALTH

A per-semester fee for upgrade of equipment, instructional aids and supplies will be assessed for one or more OSH classes.

OSH F108  Injury Prevention and Risk Management
4 Credits  Offered Fall
Course identifies safety, health management and incident prevention in the workplace. Emphasis on materials handling, electrical and machine safety, first response to fire and medical emergencies, safety and health hazards, and accident prevention. Special fees apply. (3+2)

OSH F110  Program Assessments, Development and Implementation
4 Credits  Offered Fall
Examines the role of a safety program in the workplace. Emphasis on program assessment, design, development, implementation and evaluation of safety programs. Special fees apply. (4+0)

OSH F120  Safety Program Management and Recordkeeping
3 Credits  Offered Spring
The role of safety in the business community. Emphasis on philosophy of safety and health efforts by management. Examines the role of the safety manager and the types of and need for accurate recordkeeping. Special fees apply. Prerequisites: OSH F110. (3+0)

OSH F180  Introduction to Industrial Hygiene
4 Credits  Offered Spring
Acute and chronic health effects of exposures to chemical, physical and biological agents in the workplace. Emphasizes types of exposure and biological effects, exposure guidelines and basic workplace monitoring. Special fees apply. Prerequisites: PRT F110. (3+2)

OSH F201  Workplace Injury and Incident Evaluations
4 Credits  Offered Spring
Assessing and evaluating workplace hazards. Investigation of worker complaints and actual health and safety incidents. Includes practical applications and basic accident investigation case studies. Special fees apply. Prerequisites: OSH F108. (4+0)
OCCUPATIONAL SAFETY AND HEALTH (OSH) — PARALEGAL STUDIES (PLS)

PLS F250 Hazardous Material Operation
3 Credits  Offered Spring
Identifies the policies, procedures and equipment needed to deal with hazardous materials. Emphasizes the types of hazards, planning, organization and training needed to work safely with hazardous materials. Special fees apply. Prerequisites: OSH F180. (2+2)

PLS F102 Introduction to Paralegal Studies
3 Credits  Offered Spring
Sources of law in the American tripartite system of government, with emphasis on state and federal court systems. Substantive law is studied, including administrative law, business organization, civil procedure, contract, criminal, employment, family, probate, real estate and tort law. Introductory instruction in legal writing and legal research using the law library and Westlaw. (3+0)

PLS F105 Introduction to Paralegal Ethics
2 Credits  Offered Spring
Introduction to the ethical obligations owed by both lawyers and paralegals to their clients, other lawyers, the court systems where they work and the general public. Alaska Rules of Professional Conduct and the canons of ethics promulgated by the two nationwide paralegal associations. (2+0)

PLS F201 Practical Paralegal Skills
3 Credits  Offered Spring
The practical skills required of a paralegal in the job market, including drafting legal documents, pleadings and office correspondence, fact gathering through interviewing and investigating, use of the Internet for legal research, pretrial procedures, focusing primarily on civil rules 30, 33, 34, 35 and 36, and assisting at trial. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F203 Torts
3 Credits  Offered Spring
Study of the essentials needed to effectively assist an attorney in the filing or defense of claims based on personal injury and property damage. A basic vocabulary of legal terminology associated with tort law is studied together with important statutes and case law. Emphasis on Alaska law. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F210 Civil Procedure
3 Credits  Offered Fall
Basic vocabulary and concepts essential to effectively assist an attorney with the procedural aspects of civil litigation. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F213 Criminal Law for Paralegals
3 Credits  Offered Fall
Study of both the substantive criminal law and the rudiments of criminal procedure, focusing on both Alaska law and procedure and important constitutional considerations associated with due process, search and seizure and Fifth Amendment rights. Learn and work with a basic vocabulary unique to criminal law and procedure. Note: Does not substitute for JUST F352. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F215 Contracts/Real Property
3 Credits  Offered Spring
Basic vocabulary and concepts essential to effectively assist an attorney with the preparation of contracts and real property transactions. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F240 Family Law
3 Credits  Offered Fall
Basic vocabulary and concepts essential to understanding family law and assisting a practicing attorney in matters involving marriage issues, premarital contracts, annulment, divorce, dissolution, property division, child custody, support and visitation. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F242 Employment and Administrative Law
3 Credits  Offered Spring
Legal principles which define the relationship between employers and employees. Includes obligations imposed by Federal and Alaska state statutes and administrative regulations. Includes how administrative agencies are created and how they provide administrative law through promulgation of rules and regulations and through quasi-judicial decisions. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F250 Probate Law
3 Credits  Offered Spring
Basics of probate law and the uniform probate code. Includes the preparation and interpretation of wills, administration of decedent’s estates, intestate succession laws, guardianships and other related probate matters. Focus on Alaska statutes and probate rules. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F260 Computers in the Law Office
3 Credits  Offered Spring
Introduction to the role of computers in the law office. Includes hardware and software. Use of word processors, spreadsheets, databases, computer-assisted legal research, the Internet and electronic mail, and litigation support, case management and bookkeeping/billing software. Prerequisites: PLS F102, CIOS F150 or permission of instructor. (3+0)

PLS F273 Business Organizations
3 Credits  Offered Fall
Benefits and shortcomings of the three basic business forms: corporation, partnership, and sole proprietorship. How to form each business form, how to operate it according to relevant laws and regulations, and how to dissolve the business. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F280 Legal Research and Writing for Paralegals
3 Credits  Offered Fall
Legal research skills using law library methods, computer-assisted legal research and the Internet. Read and understand authorities from three branches of government: executive, legislative and judicial. Emphasis on precedent from Alaska and federal court systems. Includes writing skills from drafting of law office correspondence to preparation of court pleadings and briefs. Prerequisites: PLS F102 or permission of instructor. (3+0)

PLS F285 Advanced Legal Writing
2 Credits  Offered Spring
Expand on writing skills previously learned by drafting documents regularly assigned to practicing paralegals. For example, pleadings to be filed in court, legal documents, such as contracts, wills and those used by business organizations, office correspondence, deposition summaries and interoffice legal memorandums. Prerequisites: PLS F102; PLS F280. (2+0)

PLS F299 Paralegal Studies Internship
3 Credits  Offered Spring
An internship involving a minimum of 150 hours of work under the supervision of an attorney, and, when available, a practicing paralegal for that attorney in a local law office or law-related situation. Must seek approval of faculty advisor for admittance. Note: Students meet as a class only once. All subsequent classes or meetings with UAF faculty advisor are arranged by individual student(s) and advisor. Prerequisites: Must have completed at least 75% of paralegal studies degree requirements with a minimum 2.8 cumulative GPA or approval of UAF faculty advisor. (3+0)
PETROLEUM ENGINEERING

A per-semester student computing facility user fee is assessed for CEM engineering courses. This fee is in addition to any lab/material fees.

PETE F103  Survey of the Energy Industries
1 Credit  Offered Fall
Overview of global energy supply and demand, alternate energy options, Alaska alternate energy resources and impact on the state economy. (1+0)

PETE F104  Fundamentals of Petroleum
1 Credit  Offered Spring
Fundamental principles on the origin, migration, accumulation and exploration of petroleum. Influence of rock and fluid properties on the principles of petroleum recovery. (1+0)

PETE F205  Fundamentals of Drilling Practices
1 Credit  Offered Fall
Fundamental principles of drilling, drilling practices, drilling fluids and drilling problems dependent on mud control. Prerequisites: PETE F104 or permission of instructor. (1+0)

PETE F206  Introduction to Petroleum Production
1 Credit  Offered Spring
Overview of production practices, surface production equipment, special production problems and workforce and petroleum transportation. Prerequisite: PETE F205 or permission of instructor. (1+0)

PETE F301  Reservoir Rock and Fluid Properties
4 Credits  Offered Fall
Fundamental concepts of reservoir rock and fluid properties including porosity, permeability, fluid saturations, capillary pressure, relative permeabilities, classification of petroleum reservoirs by fluid phase contents, oil, gas and water properties, fluid sampling, and PVT analysis. Prerequisites: MATH F201X; ES F346; GEOS F101X or GE F261. (4+0)

PETE F302  Well Logging
3 Credits  Offered Spring
Comprehensive treatment of modern well logging methods including formation and production logging tools, and techniques and basic concepts of log interpretation. Prerequisites: PETE F205; junior standing in engineering or geoscience; or permission of instructor. (3+0)

PETE F303 W  Reservoir Rock and Fluid Properties Laboratory
1 Credit  Offered Spring
Measurement of properties of reservoir rock and reservoir fluids. Determination of porosity, permeability, fluid saturations, capillary pressures, specific gravity density, viscosity, surface tension, PVT properties and interpretation of PVT reports for reservoir fluid samples. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; PETE F301. (0+3)

PETE F370  Sedimentology and Structural Geology for Petroleum Engineers (n)
4 Credits  Offered Fall Odd-numbered Years
Origin and distribution of sedimentary rocks including depositional environments, stratigraphic relationships and structures. Emphasis on the relationship to petroleum occurrences and petroleum exploration. Laboratory exercises on mapping, structural problems and facies relationships in petroleum exploration. Prerequisites: GEOS F101X or GE F261. Cross-listed with GEOS F370. (3+3)

PETE F407  Petroleum Production Engineering
3 Credits  Offered Fall
Production system analysis, inflow performance analysis, gas lift design, sucker rod pumping and production decline analysis. Prerequisites: ES F341 and ES F346. (3+0)

PETE F411 W  Drilling Fluids Laboratory
1 Credit  Offered Spring
Design, composition and measurement of drilling fluid properties, evaluation of mud activities and chemical treatment of contaminated drilling fluid. Special fees apply. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; PETE F205; concurrent enrollment in PETE F426. (0+3)

PETE F421  Reservoir Characterization
3 Credits  Offered Spring
Reservoir rock properties and their spatial variations, estimation of reserves; introduction to theory and application of geostatistics to reservoir characterization; presentation of fundamental geostatistical concepts including variogram analysis, estimation variance, kriging and stochastic simulations. Impact of geologic structure on oil recovery methods. Prerequisites: PETE F301; PETE F302; GEOS F370. Stacked with PETE F621. (3+0)

PETE F426  Drilling Engineering
3 Credits  Offered Spring
Principles of drilling, drilling fluids and rheology, drilling problems, drilling hydraulics, well control techniques and casing seat selection. Prerequisites: ES F331; ES F341. (3+0)

PETE F431  Natural Gas Engineering
2 Credits  Offered Fall
Natural gas production and condensate reservoirs. Design of processing, transportation, distribution and flow measurement systems. Prerequisites: PETE F301. (2+0)

PETE F456  Petroleum Evaluation and Economic Decisions
3 Credits  Offered Spring
Economic appraisal methods for oil field developmental project evaluations including risk analysis, probability and statistics in decision making and evaluations. Case studies. Prerequisites: MATH F202X and PETE F476. (3+0)

PETE F458  Petroleum Engineering Internship
1 Credit  Offered As Demand Warrants
Practical experience in a supervised petroleum engineering environment. Participation in professional petroleum operations including drilling, production, formation evaluation, reservoir engineering, petroleum property evaluation, management and economics. Written and oral presentation of technical report describing experience is required. Course may be repeated for up to 4 credits. Prerequisites: Junior standing or permission of instructor. (0+0)

PETE F466  Petroleum Recovery Methods
3 Credits  Offered Fall
Flow and physicochemical principles of oil recovery by water, chemical, thermal and miscible floods. Prediction of recovery for each of these methods. Prerequisites: PETE F301 and PETE F476. (3+0)

PETE F476  Petroleum Reservoir Engineering
3 Credits  Offered Spring
Quantitative study and prediction of the behavior of oil and gas reservoirs under primary, secondary and tertiary recovery mechanisms. Prerequisites: PETE F301. (3+0)

PETE F478  Well Test Analysis
2 Credits  Offered Spring
Transient flow of fluids through porous media, application of solutions of the diffusivity equation to pressure buildup, drawdown, interference testing and log-log type curve analysis and effect of reservoir heterogeneities on pressure behavior. Prerequisites: PETE F407; PETE F476; MATH F302. (2+0)
PETE F481 W  Well Completions and Stimulation Design
3 Credits  Offered Fall
Design of casing programs, cementing, open-hole and set-through completions, well stimulation; completion and workover fluids; and evaluation of sand control and workover operations. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; ES F341; PETE F205; PETE F426. (2+3)

PETE F487A Petroleum Project Design
1 Credit  Offered Fall
Two-semester course with emphasis on design and analysis of petroleum exploration, production and reservoir engineering systems by analytical, experimental and computer methods. Identification of requirements, conceptual and detailed project design and cost analysis. Completion of an engineering project. Note: Oral communication intensive and writing intensive credits are earned upon successful completion of PETE F487B. Special fees apply. Prerequisites: Senior standing. (2+0)

PETE F487B W,O Petroleum Project Design
1 Credit  Offered Spring
Two-semester course with emphasis on design and analysis of petroleum exploration, production and reservoir engineering systems by analytical, experimental and computer methods. Identification of requirements, conceptual and detailed project design and cost analysis. Completion of an engineering project. Special fees apply. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; senior standing. (2+0)

PETE F489 Reservoir Simulation
2 Credits  Offered Spring
The theory and use of computer reservoir simulation in petroleum reservoir and production engineering. Special fees apply. Prerequisites: PETE F476; MATH F310 or ES F301. (2+0)

PETE F607 Advanced Production Engineering
3 Credits  Offered As Demand Warrants
Production system analysis, production optimization, downhole equipment design, surface facilities design, oil and gas processing, gas and oil treating systems, disposal well systems, project organization and field development. Special fees apply. Prerequisites: Graduate standing, PETE F407 or equivalent; or permission of instructor. (3+0)

PETE F608 Flow Assurance in the Petroleum Industry
3 Credits  Offered As Demand Warrants
Study of the thermodynamics of gas hydrates; paraffin waxes; asphaltenes; scale and chemistry of corrosion and erosion processes. Study of chemical and physical methods used for mitigation of solid phase formation. Experimental analysis and modeling of solid phase formation envelopes. Analysis of flow regimes resulting from the presence of solid phases in oil and gas flow lines. Special fees apply. Prerequisites: Permission of the instructor. (3+0)

PETE F610 Advanced Reservoir Engineering
3 Credits  Offered As Demand Warrants
Concepts and tools for solving petroleum reservoir engineering problems; advances in petroleum reservoir engineering. Emphasis on material balance methods and their application to estimate reserves and calculate water influx; diversity equations and solutions; gas and water coning; streamline tracking; and decline curve analysis, productivity index and well performance models for vertical, horizontal and multilateral wells. Special fees apply. Prerequisites: PETE F476 or permission of instructor. (3+0)

PETE F621 Applied Reservoir Characterization
3 Credits  Offered As Demand Warrants
Review of reservoir rock properties and their spatial variations; estimation of reserves; introduction to theory and application of geostatistics to reservoir characterization; presentation of fundamental geostatistical concepts including: variogram analysis, estimation variance, kriging and stochastic simulations. Impact of geologic structure on oil recovery. Use of computer software for reservoir characterization and class project. Special fees apply. Prerequisites: Graduate standing in Petroleum Engineering; or permission of instructor. Stacked with PETE F421. (3+0)

PETE F630 Water Flooding
3 Credits  Offered As Demand Warrants
A study of the fundamental concepts and procedures for the design of waterflooding processes in petroleum reservoirs. Special fees apply. Prerequisites: PETE F301; PETE F476; or permission of instructor. (3+0)

PETE F656 Advanced Petroleum Economic Analysis
3 Credits  Offered As Demand Warrants
Economic analysis of petroleum production leading towards increasing cost efficiency in the petroleum and related industries. Qualitative and quantitative description of production forecasts and reserve estimation; oil and gas pricing; cash flow analysis; risk and uncertainty of operation of oil and gas production (financing, debt/equity ratio, depreciation and taxation). Special fees apply. Prerequisites: PETE F407; PETE F456; or permission of instructor. (3+0)

PETE F661 Applied Well Testing
3 Credits  Offered As Demand Warrants
Equations for transient flow of single phase fluids through porous media, extension to sample multiphase flow, isolated and developed multi-well flow, conventional drawdown and buildup analysis, log-log type curve analysis, interference testing, fractured wells, pulse tests, and drill stem tests. Special fees apply. Prerequisites: PETE F476; PETE F610; or permission of instructor. (3+0)

PETE F662 Enhanced Oil Recovery
3 Credits  Offered As Demand Warrants
Secondary and tertiary oil recovery processes, including waterflooding and chemical and thermal recovery methods. Special fees apply. Prerequisites: PETE F476 or PETE F610 or permission of instructor. (3+0)

PETE F663 Applied Reservoir Simulation
3 Credits  Offered As Demand Warrants
Mathematical description of the reservoir, organization of reservoir simulation study, history matching and prediction for several published case studies of reservoir simulations. Special fees apply. Prerequisites: Reservoir Engineering course - e.g. PETE F476 or PETE F610 or permission of instructor. (3+0)

PETE F665 Advanced Phase Behavior
3 Credits  Offered As Demand Warrants
The development and application of phase equilibrium simulators to predict fluid properties for reservoir fluids. Special fees apply. Prerequisites: PETE F301 or permission of instructor. (3+0)

PETE F666 Drilling Optimization
3 Credits  Offered As Demand Warrants
Principles of drilling optimization: drilling cost analysis and control; rheological properties of drilling fluid for optimum hole cleaning; planning an optimum mud program for vertical, directional and horizontal wells; optimizing bit hydraulics. Use of software packages in optimized hydraulics. Special fees apply. Prerequisites: Graduate standing in engineering discipline or permission of instructor. (3+0)

PETE F670 Fluid Flow Through Porous Media
3 Credits  Offered As Demand Warrants
The study of transport phenomena in porous media and application to petroleum engineering. Special fees apply. Prerequisites: PETE F301; PETE F476; or permission of instructor. (3+0)

PETE F680 Horizontal Well Technology
3 Credits  Offered As Demand Warrants
Review of the state of the art of horizontal well technology covering recent advances in drilling and completion of horizontal wells. Emphasis on field practices, reservoir engineering aspects including well testing and well performance estimation, application of horizontal wells to gas
PHIL F341 O  Theories of Knowledge (h)  
3 Credits  Offered Fall Even-numbered Years  
The nature of knowledge, truth and certainty. Prerequisites: COMM F131X or COMM F141X; PHIL F102. (3+0)

PHIL F342  Theories of Reality (h)  
3 Credits  Offered Spring Even-numbered Years  
Theories of reality and their relationship to science, philosophy and religion. Prerequisites: PHIL F102. (3+0)

PHIL F351  History of Ancient Greek Philosophy (h)  
3 Credits  Offered Fall  
Review of the philosophy of Plato and Aristotle; minor attention to Presocratics. Prerequisites: PHIL F102 or its equivalent. Recommended: PHIL F351 strongly recommended. (3+0)

PHIL F352  History of Modern Philosophy: Descartes to Kant (h)  
3 Credits  Offered Spring  
Review of continental rationalist and British empiricist thought, 17th-19th centuries. Prerequisites: PHIL F102 or its equivalent. Recommended: PHIL F351 strongly recommended. (3+0)

PHIL F361  Philosophy in Literature (h)  
3 Credits  Offered As Demand Warrants  
Examination of philosophical issues in literary works. Topics include the nature of free will, the effects of choice in building a character, the desirable (and undesirable) ways of confronting morality, and the nature of evil. Topics and readings vary. (3+0)

PHIL F363 W  Philosophy of Religion (h)  
3 Credits  Offered As Demand Warrants  
Introduction to topics such as arguments for the existence and nature of God, the problem of evil, the relation of faith and reason, religious language and the connection of religion to the meaning of life. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Recommended: PHIL F102 and upper-division status. (3+0)

PHIL F402 W  Biomedical and Research Ethics (h)  
3 Credits  Offered Fall  
Issues in biomedical ethics. Topics will vary but include discussion of moral principles and problems of research ethics and medical ethics, such as: animal and human experimentation; data management; informed consent; therapeutic and non-therapeutic research; physician/patient relationship; autonomy; assisted reproductive technologies; euthanasia; organ transplantation; and allocation of scarce medical resources. Prerequisites: ENGL F111X; either ENGL F211X or ENGL F213X; junior or senior standing; a course in philosophy, science, or nursing; permission of instructor. Recommended: A course in philosophy, science or nursing. Cross-listed with BIOL F402. (3+0)

PHIL F411 W,O  Classical Political Theory (h)  
3 Credits  Offered Fall Odd-numbered Years  
Political ideas from ancient Greece, Rome, and the Judeo-Christian tradition. Theories of Plato, Aristotle, Cicero, Augustine and Aquinas. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; PHIL F102; PS F101; or permission of instructor. Cross-listed with PS F411. (3+0)
## PHYSICS (PHIL) — PHYSICS (PHYS)

**PHIL F412 W**  
Modern Political Theory (s)  
4 Credits  
Offered Spring Even-numbered Years  
Political ideas from the Renaissance to the modern world. Theories of Machiavelli, Hobbes, Locke, Rousseau, Burke, Marx and Lenin.  
Prerequisites: ENGL F111X; ENGL F211X or ENGL 213X; PHIL F102; PS F101; or permission of instructor.  
Cross-listed with PS F412.  
(3+0)

**PHIL F421**  
Aesthetics (h)  
3 Credits  
Offered Fall Odd-numbered Years  
The nature of aesthetic experience in poetry, music, painting, sculpture, architecture and other arts; studies in relation to artistic production and the role of art in society.  
Prerequisites: Junior/senior standing or permission of instructor.  
Recommended: PHIL F102 or HUM F201X.  
(3+0)

**PHIL F436**  
Ethical Theory (h)  
3 Credits  
Offered Fall Odd-numbered Years  
Major ethical theories. Includes virtue theory, social contract theory, deontology and utilitarianism with major arguments for and against.  
Prerequisites: Junior standing or permission of instructor.  
(3+0)

**PHIL F471**  
Contemporary Philosophical Problems (h)  
3 Credits  
Offered Fall Even-numbered Years  
Ideological issues facing the modern world.  
Prerequisites: PHIL F351; PHIL F352; or permission of instructor.  
(3+0)

**PHIL F472**  
Ethics in International Affairs (h)  
3 Credits  
Offered Spring Odd-numbered Years  
Examination of questions including: What is in the interest of the nation-state according to the logic of statecraft? How does the national interest relate to broader human interest? How does morality relate to the international legal order? Examination is through theory and case studies.  
Prerequisites: PHIL F322X or equivalent or PS F321; or permission of instructor.  
Cross-listed with PS F472.  
(3+0)

**PHIL F481**  
Philosophy of Science (h)  
3 Credits  
Offered As Demand Warrants  
Comparison and discussion of various contemporary methodological positions.  
Prerequisites: Junior standing.  
(3+0)

**PHIL F487**  
Conceptual Issues in Evolutionary Biology  
3 Credits  
Offered Spring Odd-numbered Years  
Analysis of some of the main models which explain evolutionary change, followed by consideration of the practical implications these models have on the study of biological phenomena in general.  
Cross-listed with BIOL F487.  
(3+0)

**PHIL F499 W**  
B.A. Thesis in Philosophy (h)  
3 Credits  
Offered As Demand Warrants  
Writing the senior thesis in philosophy.  
Prerequisites: ENGL F111X, ENGL F211X or ENGL F213X; or permission of instructor.  
(1+2)

**PHIL F687**  
Conceptual Issues in Evolutionary Biology  
3 Credits  
Offered Spring Odd-numbered Years  
Analysis of some of the main models which explain evolutionary change, followed by consideration of the practical implications these models have on the study of biological phenomena in general.  
Cross-listed with BIOL F687.  
(3+0)

---

**PHYS F102X**  
Energy and Society (n)  
4 Credits  
Offered Spring  
Exploring the concept of energy. Investigation of the sources, conversion, distribution and ultimate dispersion of energy, as well as the consequences of its use in the development and maintenance of modern society. May be used to fulfill part of the natural science requirement. Designed for non-science majors. Special fees apply.  
Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor.  
(3+3)

**PHYS F103X**  
College Physics (n)  
4 Credits  
Offered Fall  
Classical physics including vectors, kinematics, Newton's Laws, momentum, work, energy, rotational motion, oscillations, waves, gravity, fluids, heat, temperature, laws of thermodynamics and kinetic theory. For mathematics, science and liberal arts majors. Special fees apply.  
Prerequisites: High school algebra, trigonometry and geometry; placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor.  
(3+3)

**PHYS F104X**  
College Physics (n)  
4 Credits  
Offered Spring  
Coulomb's Law, electrical potential, capacitance, Kirchhoff's Laws, magnetic fields, Faraday's Law, electromagnetic waves, physical and geometrical optics, waves and particles, atomic and nuclear physics. For mathematics, science and liberal arts majors. Special fees apply.  
Prerequisites: PHYS F103X; placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor.  
Recommended: DEV M F105.  
(3+3)

**PHYS F115X**  
Physical Sciences (n)  
4 Credits  
Offered Spring  
Basic concepts and general overview in physics. Presents interrelatedness and interdependence within this scientific field. Special fees apply.  
Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher; or permission of instructor.  
Recommended: DEV M F105.  
(3+3)

**PHYS F173X**  
Introduction to Astronomy (n)  
4 Credits  
Offered Spring  
Examination of the science of astronomy and its social consequences, with an emphasis on the interrelationships between astronomy and other sciences. Topics covered: astronomical concepts and tools, the solar system, stellar astronomy and cosmology. Designed for non-science majors. Special fees apply.  
Prerequisites: Placement in ENGL F111X or higher; placement in DEV M F105 or higher.  
(3+3)

**PHYS F211X**  
General Physics (n)  
4 Credits  
Offered Fall  
Vectors, kinematics, Newton's Laws, momentum, work, energy, rotational motion, oscillations, waves, gravity and fluids. For engineering, mathematics and physical science majors. Special fees apply.  
Prerequisites: Concurrent enrollment in MATH F201X; placement in ENGL F111X or higher; or permission of instructor.  
Recommended: One year of high school physics.  
(3+3)

**PHYS F212X**  
General Physics (n)  
4 Credits  
Heat, temperature, laws of thermodynamics, Coulomb's Law, electrical potential, capacitance, Kirchhoff's Laws, Biot-Savart Law, Faraday's Law, and electromagnetic waves. For engineering, mathematics and physical science majors. Special fees apply.  
Prerequisites: Concurrent enrollment in MATH F201X; PHYS F211X or ES F208 or concurrent enrollment in ES F210; placement in ENGL F111X or higher; or permission of instructor.  
(3+3)

**PHYS F213X**  
Elementary Modern Physics (n)  
4 Credits  
Offered Fall  
Geometrical and physical optics, elementary-level modern physics including special relativity, atomic physics, nuclear physics, solid-state physics, elementary particles, simple transport theory, kinetic theory and concepts of wave mechanics. Special fees apply.  
Prerequisites: Placement in ENGL F111X or higher; C or better in MATH F201X and MATH F202X; PHYS F211X; PHYS F212X; or permission of instructor.  
(3+3)

**PHYS F220**  
Introduction to Computational Physics  
4 Credits  
Offered Spring  
Introduction to computational techniques for solving physics problems. The computer is used as a tool to provide insight into physical systems and their behavior in all areas of physics. Special fees apply.  
Prerequisites:
**MATH F202X; PHYS F211X; PHYS F212X; PHYS F213X; or permission of instructor. (3+3)**

**PHYS F301**  
**Introduction to Mathematical Physics**  
4 Credits  
Offered Spring  
Introduction to theoretical foundations of classical and modern physics. Includes calculus of vector fields, linear algebra and elementary tensor theory, complex analysis, ordinary linear differential equations, linear partial differential equations, Fourier analysis and probability. Physical applications include planetary motion, rotating bodies and inertia tensor, damped and driven harmonic oscillator, wave equation, Schrödinger's equation and diffusive systems. **Prerequisites:** PHYS F211X; PHYS F212X; PHYS F213X; MATH F202X; or permission of instructor. (4+0)

**PHYS F313**  
**Thermodynamics and Statistical Physics**  
4 Credits  
Offered Spring  
Thermodynamic systems, equations of state, the laws of thermodynamics, changes of phase, thermodynamics of reactions, kinetic theory and introduction to statistical mechanics. **Prerequisites:** PHYS F211X; PHYS F212X; PHYS F301; or permission of instructor. (4+0)

**PHYS F341**  
**Classical Physics I: Particle Mechanics**  
4 Credits  
Offered Fall  
Newtonian mechanics, conserved mechanical quantities, motion of systems of particles, rigid body statics and dynamics, moving and accelerated coordinate systems, rigid body rotations and Lagrangian mechanics. **Prerequisites:** PHYS F211X; PHYS F212X; PHYS F301; or permission of instructor. (4+0)

**PHYS F342**  
**Classical Physics II: Electricity and Magnetism**  
4 Credits  
Offered Spring  
Statics and dynamics of electric and magnetic fields in vacuum and in the presence of materials. Lorentz force law. Maxwell's equations. **Prerequisites:** PHYS F341 or permission of instructor. (4+0)

**PHYS F343**  
**Classical Physics III: Vibration and Waves**  
4 Credits  
Offered Fall  
Normal modes and small vibrations, continuum systems, wave mechanics, electromagnetic waves and radiation. Relativistic mechanics and electromagnetism. **Prerequisites:** PHYS F342 or permission of instructor. (4+0)

**PHYS F381 W,O**  
**Physics Laboratory (n)**  
3 Credits  
Offered Fall  
Laboratory experiments in classical and modern physics. Special fees apply. **Prerequisites:** COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; PHYS F211X; PHYS F213X; or permission of instructor. (1+6)

**PHYS F382 W**  
**Physics Laboratory (n)**  
3 Credits  
Offered Spring  
Laboratory experiments in classical and modern physics. Special fees apply. **Prerequisites:** ENGL F111X; ENGL F211X or ENGL F213X; PHYS F381; or permission of instructor. (1+6)

**PHYS F413**  
**Atmospheric Radiation**  
3 Credits  
Offered Fall Odd-numbered Years  
Atmospheric radiation including the fundamentals of blackbody radiation theory and radiative properties of atmospheric constituents. Discussion of gaseous absorption including line absorption, broadening effects and radiative transfer. Includes scattering, radiative properties of clouds and radiation climatology. **Prerequisites/Co-requisites:** ATM F401. Stacked with PHYS F613. Cross-listed with ATM F413. (3+0)

**PHYS F421**  
**Quantum Mechanics**  
4 Credits  
Offered Fall  
Schrödinger's equation, Born interpretation, operator formalism, measurement and projection, stationary states, one-dimensional systems, hydrogen atom, states of definite angular momentum, perturbation theory. **Prerequisites:** PHYS F213X; PHYS F220; PHYS F301; or permission of instructor. (4+0)

**PHYS F462**  
**Geometrical and Physical Optics (n)**  
4 Credits  
Offered Spring  
Geometrical optics, interference and diffraction theory, nonlinear optics, Fourier optics, and coherent wave theory. Special fees apply. **Prerequisites:** PHYS F213X; PHYS F301; or permission of instructor. (3+3)

**PHYS F471A**  
**Advanced Topics in Physics I: Condensed Matter Physics I**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471B**  
**Advanced Topics in Physics I: Condensed Matter Physics II**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471C**  
**Advanced Topics in Physics I: Space and Auroral Physics**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471D**  
**Advanced Topics in Physics I: Nonlinear Dynamics**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471E**  
**Advanced Topics in Physics I: Biophysics**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471F**  
**Advanced Topics in Physics I: Nuclear and Particle Physics**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471G**  
**Advanced Topics in Physics I: General Relativity**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)

**PHYS F471H**  
**Advanced Topics in Physics I: Astrophysics**  
1 Credit  
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. **Prerequisites:** PHYS F220; PHYS F301; or permission of instructor. (1+0)
PHYS F471I  Advanced Topics in Physics I: Topics in Modern Mathematical Physics
1 Credit
Emphasis topics provide increased breadth in basic physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472A  Advanced Topics in Physics II: Planetary Atmospheres
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472B  Advanced Topics in Physics II: Fluid Dynamics
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472C  Advanced Topics in Physics II: Plasma Physics
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472D  Advanced Topics in Physics II: Hamiltonian Mechanics
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472E  Advanced Topics in Physics II: Physics of Glaciers
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472F  Advanced Topics in Physics II: Remote Sensing
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472G  Advanced Topics in Physics II: Solar Physics
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472H  Advanced Topics in Physics II: Advanced Laboratory
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472I  Advanced Topics in Physics II: Spectroscopy
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472J  Advanced Topics in Physics II: Cosmology
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472K  Advanced Topics in Physics II: Quantum Computation
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F472L  Advanced Topics in Physics II: Covariant Kinematics/Dynamics
1 Credit
Application topics provide expanded exposure to subjects in physics. Three topics are offered within the fall and spring semesters of each academic year as compressed 14-lecture, one-credit courses. Prerequisites: PHYS F220; PHYS F301; or permission of instructor. (1+0)

PHYS F488  Undergraduate Research
1 – 3 Credits
Advanced research topics from outside the usual undergraduate requirements. Prerequisites: Permission of instructor. Recommended: A substantial level of technical/scientific background. (0+0)

PHYS F611  Mathematical Physics
3 Credits
Offered Fall
Mathematical tools and theory for classical and modern physics. Core topics: linear algebra including eigenvalues, eigenvectors and inner products in finite dimensional spaces. Infinite series. Hilbert spaces and generalized functions. Complex analysis, including Laurent series and contour methods. Applications to problems arising in physics. Selected additional topics, which may include operator and spectral theory, groups, tensor fields and hypercomplex numbers. Prerequisites: MATH F302; MATH F314; MATH F421; MATH F422; or permission of instructor. Cross-listed with MATH F611. (3+0)

PHYS F612  Mathematical Physics
3 Credits
Offered Spring
Continuation of Mathematical Physics I; mathematical tools and theory for classical and modern physics. Core topics: classical solutions to the principal linear partial differential equations of electromagnetism, classical and quantum mechanics. Boundary value problems and Sturm-Liouville theory. Green's functions and eigenfunction expansions. Integral transforms. Orthogonal polynomials and special functions. Applications to problems arising in physics. Selected additional topics, which may include integral equations and Hilbert-Schmidt theory, perturbation methods and probability theory. Prerequisites: PHYS/MATH F611 or equivalent; or permission of instructor. Cross-listed with MATH F612. (3+0)

PHYS F613  Atmospheric Radiation
3 Credits
Offered Fall Odd-numbered Years
Fundamentals of blackbody radiation theory and radiative properties of atmospheric constituents. Discussion of gaseous absorption, including line absorption, broadening effects and radiative transfer. Includes scattering, radiative properties of clouds, and radiation climatology. Prerequisites/co-requisites: ATM F601; graduate standing. Cross-listed with ATM F613. Stacked with PHYS F413 (3+0)

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.
PHYS F614  Ice Physics
3 Credits  Offered Spring Even-numbered Years
A survey of the physics of ice, including the crystal structure and properties of ice, high pressure phases, hydrogen bonding, mechanical properties, thermal properties, electrical and acoustic properties, nucleation and growth, optical properties and surface properties (adhesion, friction). Prerequisites: MATH F421; MATH F422; graduate standing; or permission of instructor. Cross-listed with GEOS F614. (3+0)

PHYS F621  Classical Mechanics
3 Credits  Offered Fall Odd-numbered Years
Lagrangian's equations, two-body problem, rigid body motion, special relativity, canonical equations, transformation theory, and Hamilton-Jacobi method. Prerequisites: Graduate standing or permission of instructor. (3+0)

PHYS F622  Statistical Mechanics
3 Credits  Offered Spring Even-numbered Years
Classical and quantum statistics of independent particles, ensemble theory and applications. Prerequisites: PHYS F621; graduate standing; or permission of instructor. (3+0)

PHYS F626  Fundamentals of Plasma Physics
3 Credits  Offered Fall
Single charge particle motion in the electromagnetic fields, plasma kinetic theory, Vlasov equations for collisionless plasmas, magnetohydrodynamic equations, linear plasma waves and instabilities, nonlinear plasma waves and instabilities. Prerequisites: Graduate standing; or permission of instructor. (3+0)

PHYS F628  Digital Time Series Analysis
3 Credits  Offered Spring Even-numbered Years
Applied time series analysis, including correlation, convolution, filtering and spectral estimation of multivariate data. The statistical properties of estimators; signal detection; and array processing. Prerequisites: MATH F401; familiarity with a programming language such as C or Fortran; graduate standing; or permission of instructor. (3+0)

PHYS F629  Methods of Numerical Simulation in Fluids and Plasma
3 Credits  Offered Spring Odd-numbered Years
The fundamentals of computer simulation for fluids and multi-particle systems. Topics include methods for the discretization of numerical solutions, and boundary and initial conditions. Methods will be applied to convection, diffusion, and steady states in fluids and plasmas. Prerequisites: Experience in programming; graduate standing; or permission of instructor. (3+0)

PHYS F631  Electromagnetic Theory
3 Credits  Offered Fall Even-numbered Years
Electrostatics, magnetostatics, Maxwell's equations, and potentials. Lorentz equations, field energy, gauge conditions, retarded potentials, waves, radiation and tensor formulations. Prerequisites: Graduate standing or permission of instructor. (3+0)

PHYS F632  Electromagnetic Theory
3 Credits  Offered Spring Odd-numbered Years
Electrostatics, magnetostatics, Maxwell's equations and potentials. Lorentz equations, field energy, gauge conditions, retarded potentials, waves, radiation and tensor formulations. Prerequisites: PHYS F631 or the equivalent; graduate standing; or permission of instructor. (3+0)

PHYS F639  InSAR and its Applications
3 Credits  Offered As Demand Warrants
Introduction to the concepts of repeat-pass spaceborne SAR interferometry and practical use of the technique to derive displacements of the solid Earth, glaciers, and ice sheets to a precision of a few centimeters and accurate digital elevation models of the Earth's surface. Prerequisites: Basic remote sensing course or permission of instructor. Cross-listed with GEOS F639. (2+2)

PHYS F640  Auroral Physics
3 Credits  Offered Spring Odd-numbered Years
Survey of aurora phenomena, the associated physical processes, and techniques used to investigate the aurora. Includes electron and proton impact spectra; physical processes that accelerate and precipitate electrons and protons; auroral currents; ionospheric effects of auroral activity; and principles for ground-based satellite spectroscopy and imaging and the measurements of magnetic and electric fields. Prerequisites: Graduate standing or permission of instructor. (3+0)

PHYS F647  Fundamentals of Geophysical Fluid Dynamics
3 Credits  Offered Fall Odd-numbered Years
Introduction to the mechanics of fluid systems, the fundamental processes, Navier-Stokes' equations in rotating and stratified fluids, kinematics, conservation laws, vortex motion, irrotational flow, laminar flow, boundary layer phenomena, waves, instabilities, turbulent flows and mixing. Prerequisites: Graduate standing or permission of instructor. Cross-listed with ATM F647. (3+0)

PHYS F648  Nonlinear Dynamics
3 Credits  Offered Spring Even-numbered Years
Introduction into the dynamics of nonlinear systems. Continuous and discrete dynamical systems, stability analysis, bifurcations, limit cycle, chaos and strange attractors, fractals and dimension algorithms, controlling chaos, synchronization processes, and stochastic dynamical systems. Prerequisites: Graduate standing or permission of instructor. (3+0)

PHYS F650  Aeronomy
3 Credits  Offered Fall Even-numbered Years
The physical and chemical processes that govern the response of planetary atmospheres to solar radiation and energetic particles. Formation of and characteristic processes in the layers within the ionosphere and basic magneto-ionic theory. Includes principles of remote sensing by lidar and radar techniques. Prerequisites: Graduate standing; or permission of instructor. (3+0)

PHYS F651  Quantum Mechanics
3 Credits  Offered Fall Even-numbered Years
Schrödinger's equations, operator formalism, correspondence principle, central force problems, perturbation theory, quantum statistical mechanics, and applications of quantum mechanics to collision problems, radiation and spectroscopy. Prerequisites: Graduate standing or permission of instructor. (3+0)

PHYS F652  Quantum Mechanics
3 Credits  Offered Spring Odd-numbered Years
Schrödinger's equations, operator formalism, correspondence principle, central force problems, perturbation theory, quantum statistical mechanics, and applications of quantum mechanics to collision problems, radiation and spectroscopy. Prerequisites: PHYS F651 or the equivalent; graduate standing; or permission of instructor. (3+0)

PHYS F672  Magnetospheric Physics
3 Credits  Offered Spring Even-numbered Years
The physics and dynamics of Earth's magnetosphere. Discusses the magnetosphere as a test bed for microscopic plasma processes equilibrium configurations, plasma instabilities, highly nonlinear eruptive plasma processes, and global dynamics which involve the interaction of various regions of the magnetosphere. Introduction to various aspects of magnetospheric physics with a systematic discussion of the various elements of the magnetosphere, their structure and dynamics, and a discussion of the relevant plasma physics. Prerequisites: PHYS F626; graduate standing; or permission of instructor. (3+0)
**POLITICAL SCIENCE**

**PS F100X**  
**Political Economy (s)**  
3 Credits  
Evolution and operation of the American domestic political economy with consideration of market failures and government responses. Review of major issues in political economy such as inflation, poverty and budget deficits. Exploration of linkages between American and global systems. Also available via e-Learning and Distance Education. Prerequisites: Placement in ENGL F111X or higher or permission of instructor. Cross-listed with ECON F100X. (3+0)

**PS F101**  
**Introduction to American Government and Politics (s)**  
3 Credits  
Principles, institutions and practices of American national government; the Constitution, federalism, interest groups, parties, public opinion and elections. Also available via Independent Learning. (3+0)

**PS F201**  
**Comparative Politics (s)**  
3 Credits  
Offered Fall  
Introduction to the systematic study of government and politics in countries other than the U.S. Students will explore such questions as why some countries are democracies and other countries dictatorships; why some remain stable and peaceful, while others seem in constant turmoil. This is a prerequisite for other courses in comparative politics. (3+0)

**PS F202**  
**Democracy and Global Society (s)**  
3 Credits  
Offered Spring Even-numbered Years  
Examination of the various definitions and types of democracy and the global contexts within which they develop. Cases used draw from a wide range of states, societies and world-historical contexts, and allow comparisons among developed and developing countries. (3+0)

**PS F203**  
**Peace, War and Security (s)**  
3 Credits  
Offered Fall Even-numbered Years  
Introduction to the major challenges of maintaining a peaceful and secure world. What are the major threats to our security and how are they met? The course analyzes political, cultural, moral and legal norms surrounding war and terrorism and different means of organizing for peace and security. (3+0)

**PS F212**  
**Introduction to Public Administration (s)**  
3 Credits  
Offered As Demand Warrants  
Theories and practice of public administration, especially as applied to federal agencies. Study of organization, planning and decision making in implementing public policy. (3+0)

**PS F222**  
**Political Science Research Methods (s)**  
3 Credits  
Offered Fall Even-numbered Years  
Familiarizes students with the research methods that have been used to produce political knowledge about significant political phenomena. Includes both qualitative and quantitative research methods. Prerequisites: PS F101; must be completed before a student advances to senior standing in the discipline. (3+0)

**PS F263**  
**Alaska Native Politics (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
Political development, organization, interests and activities of Alaska Natives; treatment of ethnic leadership issues, history of federal Indian policy, evolution of Native leadership, village and regional government, land claims, and community politics from the Alaska Native brotherhood to ANCSA to the Alaska Native Coalition. Compares Alaska Native political developments to those of other circumpolar Northern Native communities. (3+0)

**PS F300X**  
**Ethics and Society (h)**  
3 Credits  
What is the right thing to do? A presentation of important theories of values, morality and ethics. Application of theories to dilemmas of choice in the public world, such as euthanasia, abortion, animal rights, sexual morality and environmental ethics. Also available via Independent Learning. Prerequisites: Placement in ENGL F111X or higher; junior standing; or permission of instructor. Recommended: Two courses in the Perspectives on the Human Condition baccalaureate core. (3+0)

**PS F301**  
**American Presidency (s)**  
3 Credits  
Offered Fall Even-numbered Years  
The institution of the presidency in the American political system. Prerequisites: PS F101 or permission of instructor. (3+0)

**PS F302**  
**Congress and Public Policy (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
The American Congress in the political system. Prerequisites: PS F101 or permission of instructor. (3+0)

**PS F303**  
**Politics and the Judicial Process (s)**  
3 Credits  
Offered Fall  
The role of federal courts as political institutions. The politics of judicial selection, the nature of judicial decision-making and intracourt politics, litigations as a policy making device, changes in the nature and scope of judicial power, governmental attorneys, the legal bureaucracy, and judicial agenda setting. Prerequisites: PS F101 or permission of instructor. (3+0)

**PS F314 W**  
**Political Ideologies (s)**  
3 Credits  
Offered Fall Even-numbered Years  
An examination of the purpose of ideology as an orienting set of political ideas with mass appeal. Analysis of 20th century ideologies, including anarchism, communism, liberalisim, socialism, environmentalism and feminism. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; or permission of instructor. (3+0)

**PS F315**  
**American Political Thought (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
Political ideas in the U.S. from colonial times to the present: Puritanism, revolutionary ideas, Constitutionalism, nature of the Union, Progressive movement and pragmatism. Prerequisites: PS F101 or permission of instructor. Recommended: HIST F131 and HIST F132 strongly recommended. (3+0)

**PS F321**  
**International Politics (s)**  
3 Credits  
Offered Fall  
Introduction to the problems, literature and terminology of international relations. Provides a basis for understanding current international affairs. Examines relations between nations, regions and groups, as well as ideas of conflict, security, trade, technology, negotiation, cooperation, revolution, modernization and community. (3+0)

**PS F322 O**  
**International Law and Organization (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
Case studies in international law (rights and duties of states, jurisdiction and sovereignty, treaties, use of force and adjudication processes); development of regional organizations and integration; the United Nations. Prerequisites: COMM F131X or COMM F141X; PS F321; or permission of instructor. (3+0)

<th>Course Code</th>
<th>Course Description</th>
<th>Credits</th>
<th>Offered Years</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS F323</td>
<td>International Political Economy (s)</td>
<td>3</td>
<td>Offered Alternate Spring Odd-numbered Years</td>
<td>Exploration of the manner in which political and economic forces interact to affect international flows of goods, money, investments and technology. International political economic relations are examined in several contexts. Prerequisites: PS F100X or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>PS F325</td>
<td>Native Self-Government (s)</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Indigenous political systems, customary law and justice in Alaska emphasizing the organization of Native governance, federal Indian Law and Alaska state chartered local government. Comparisons between Alaska Native political development and those of tribes in the contiguous 48 states and northern hemisphere tribal people. Prerequisites: Native American Studies F425. (3+0)</td>
</tr>
<tr>
<td>PS F340</td>
<td>Women and Politics (s)</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>In-depth examination of the relevance of gender in political thought and action. Topics will vary and may include: an historical perspective of political ideas on the nature and status of women; women's involvement in national and/or international political movements and organizations; feminist approaches to the social sciences; feminism as a political ideology. Prerequisites: Women's Studies F101. (3+0)</td>
</tr>
<tr>
<td>PS F401 W</td>
<td>Political Behavior (s)</td>
<td>3</td>
<td>Offered Spring Even-numbered Years</td>
<td>Attitudes, opinions and beliefs of the American electorate and the impact of these factors on political behavior; role of political organizations (parties and interest groups) in modern American politics. Prerequisites: English F111X; English F211X or English F213X or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>PS F403 W,O</td>
<td>Public Policy (s)</td>
<td>3</td>
<td>Offered Spring Even-numbered Years</td>
<td>The processes of policy development, implementation, and change are analyzed with major policy frameworks and models used in contemporary political science. These frameworks and models will be applied to environmental sustainability and other social policy issues. Students will develop expertise in a specific policy area and complete oral presentations related to their policy interests. Prerequisites: PS F101, upper division standing, or permission of instructor. Stacked with PS F403. (3+0)</td>
</tr>
<tr>
<td>PS F411 W,O</td>
<td>Classical Political Theory (h)</td>
<td>3</td>
<td>Fall Odd-numbered Years</td>
<td>Political ideas from ancient Greece, Rome and the Judaeo-Christian tradition. Theories of Plato, Aristotle, Cicero, Augustine, and Aquinas. Prerequisites: Communication F131X or Communication F141X; English F111X; English F211X or English F213X; Political Science F102; PS F101; or permission of instructor. Cross-listed with PHIL F411. (3+0)</td>
</tr>
<tr>
<td>PS F412 W</td>
<td>Modern Political Theory (s)</td>
<td>3</td>
<td>Offered Spring Even-numbered Years</td>
<td>Political ideas from the Renaissance to the modern world. Theories of Machiavelli, Hobbes, Locke, Rousseau, Burke, Marx and Lenin. Prerequisites: English F111X; English F211X or English F213X; Political Science F102; PS F101; or permission of instructor. Cross-listed with PHIL F412. (3+0)</td>
</tr>
<tr>
<td>PS F425</td>
<td>Federal Indian Law and Alaska Natives (s)</td>
<td>3</td>
<td>Offered Fall Even-numbered Years</td>
<td>The “special relationship” between the federal government and Native Americans based on land transactions and recognition of tribal sovereignty; Federal Indian law and policy evolving from this relationship; Legal rights and status of Alaska Natives. Prerequisites: PS F101; HIST F100X; or permission of instructor. Recommended: PS F263. Cross-listed with ANS F425. (3+0)</td>
</tr>
<tr>
<td>PS F435 W</td>
<td>Constitutional Law I: Federalism (s)</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>Constitutional doctrines and historical evolution of federalism and the separation of powers in the United States. Emphasis on the court's role in arbitrating intergovernmental and interbranch disputes, the constitutional status of the administrative bureaucracy, and the control of war power and foreign policy. Prerequisites: English F111X; English F211X or English F213X; Political Science F101; or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>PS F436 W</td>
<td>Constitutional Law II: Civil Rights and Liberties (s)</td>
<td>3</td>
<td>Offered Spring Even-numbered Years</td>
<td>Origin and development of civil rights and civil liberties in the U.S. Emphasis on the social, political and philosophical justifications of rights as expressed in judicial decision and constitutional doctrine. Prerequisites: English F111X; English F211X or English F213X; Political Science F101; or permission of instructor. Recommended: PS F435. (3+0)</td>
</tr>
<tr>
<td>PS F447</td>
<td>U.S. Environmental Politics (s)</td>
<td>3</td>
<td>Offered Spring</td>
<td>Examination of U.S. political institutions as they relate to making policies for protecting the quality of the natural environment. The politics of nuclear waste, endangered species, air and water pollution, and wilderness preservation. Analysis of the National Environmental Policy Act, sustainable development, limits to growth and other topics. Course is also available online. Prerequisites: Upper-division standing or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>PS F450</td>
<td>Comparative Indigenous Rights and Policies (s)</td>
<td>3</td>
<td>Offered As Demand Warrants</td>
<td>Comparative approach to analyzing Indigenous rights and policies in different nation-state systems. Multiple countries and specific policy developments examined for factors promoting or limiting self-determination. Prerequisites: Upper-division standing or permission of instructor. Cross-listed with ANS F450. (3+0)</td>
</tr>
<tr>
<td>PS F452</td>
<td>International Relations of the North (s)</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>Examination of the international strategies of circumpolar states. Consideration of theoretical and practical elements of strategy formation in major issue areas such as national security, the political economy, human rights and scientific exchange. Prerequisites: Upper-division standing or permission of instructor. Stacked with NORS F652; Political Science F652. (3+0)</td>
</tr>
<tr>
<td>PS F454</td>
<td>International Law and the Environment (s)</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>International environmental law. Includes international case law regulating the sea, airspace, outer space and the polar regions; comprehensive international regulatory and legal instruments to protect the environment (e.g. the U.N. Framework Convention on Climate Change); and the doctrines, principles, and rules of international law that are basic to an understanding of international legal regimes and the environment. Course is also available online. Prerequisites: Upper-division standing; permission of instructor. Recommended: Undergraduate course in international law, organization, or politics. Stacked with NORS F654; Political Science F654. (3+0)</td>
</tr>
</tbody>
</table>
PS F455 O  Political Economy of the Global Environment (s)  3 Credits  Offered Fall Even-numbered Years  Interaction between basic aspects of the global economy (international trade, investment and development) and the natural environment. Topics include the economic impact of global environmental agreements and the environmental impact of global markets, transitional corporations, and development assistance by organizations such as the World Bank. Prerequisites: COMM F131X or COMM F414X; upper-division standing; permission of instructor. Stacked with NORS F655; PS F655. (3+0)

PS F456 O  Science, Technology, and Politics (s)  3 Credits  Offered Spring Odd-numbered Years  Relationship of science, technology and politics. Connections among scientific knowledge, technology, technological innovations, politics and power. Gender roles and the influence of western science. Both historical and comparative aspects are included. Course is also available online. Prerequisites: COMM F131X or COMM F414X; upper-division standing or permission of instructor. Recommended: PS F401. Stacked with NORS F656; PS F656. (3+0)

PS F458  Comparative Environmental Politics (s)  3 Credits  Offered Fall Odd-numbered Years  Enduring issues of the field of comparative politics and their relation to global environmental problems. Biodiversity, transboundary pollution, and climate warming. Explores how state-society relations, political institutions, national political capacity, political processes and organizations, and international commitments potentially shape the nature and dynamics of global environmental politics and vice versa. Course is also available online. Prerequisites: Upper-division standing or permission of instructor. Recommended: PS F201 or equivalent comparative politics course. Stacked with NORS F658; PS F658. (3+0)

PS F460 W  Government and Politics of Canada (s)  3 Credits  Offered Spring Odd-numbered Years  The Canadian political system, covering the Canadian constitution, federal structure, parliamentary government and public policy, as well as contemporary issues concerning Native rights and the Canadian North. Students will complete a major research paper on specific policy areas (language, education, health care, environment, natural resources, foreign relations). Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F201; upper-division standing or permission of instructor. Recommended: PS F201 or equivalent comparative politics course. Stacked with NORS F660; PS F660. (3+0)

PS F462  Alaska Government and Politics (s)  3 Credits  Alaska's government and politics, in the context of American state and local government, and politics and governments of circumpolar northern nations. Topics include political history, constitution, political parties, interest groups, elections, public opinion, governor, legislature, judiciary, administration and local governments. Compares Alaska to the contiguous 48 states and subnational governments of the circumpolar North; examines how government institutions and processes respond to social, environmental and political changes of Northern communities. Prerequisites: Upper-division standing or permission of instructor. Stacked with: NORS F662; PS F662. (3+0)

PS F464 W  East Asian Governments and Politics (s)  3 Credits  Offered Fall Even-numbered Years  Modern East Asia (including China, Taiwan, Japan, North and South Korea) politics and society, including governmental institutions, political processes and regional and global foreign relations. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F201; or permission of instructor. (3+0)

PS F467 W  Political Development in Latin America and the Caribbean (s)  3 Credits  Offered Fall Odd-numbered Years  Exploration of major issues and concepts in the development and governance of modern Latin America and the Caribbean region, including the legacies of colonialism, revolution, military rule, economic challenges and the quest for democratic stability. Includes a historical overview of the region and cases drawn from the Caribbean, Mexico, Central and South America. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F201 or HIST F102; or permission of instructor. Recommended: SPAN F221. Cross-listed with HIST F467. (3+0)

PS F468 W  Government and Politics of Russia (s)  3 Credits  Offered Spring Even-numbered Years  Current developments in Russia from a number of perspectives. The effect of history and geography on political change; the nature of Russian government and society; the legacies of Lenin, Stalin, Gorbachev and the ideological effect of regimes and leadership. Economic forces and the political struggle in governance; revolution, democracy and reform; and the international role of Russia, particularly in relation to the former Soviet republics, Eastern Europe and other border areas. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F201; or permission of instructor. Stacked with NORS F668; PS F668. (3+0)

PS F472  Ethics in International Affairs (h)  3 Credits  Offered Spring Odd-numbered Years  Examination of questions including: What is in the interest of the nation-state according to the logic of statecraft? How does the national interest relate to the broader human interest? How does morality relate to the international legal order? Examination is through theory and case studies. Prerequisites: PHIL F322X or equivalent or PS F321; or permission of instructor. Cross-listed with PHIL F472. (3+0)

PS F475  Internship in Public Affairs  3 Credits  Individual study of public agencies or organizations through actual experience. Prerequisites: Permission of instructor. (3+0)

PS F499 W  Senior Thesis  3 Credits  Thesis will draw from the literature in at least two sub-fields of political science (U.S. government/politics, political theory, public law, comparative politics, international relations) in its analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; PS F222; senior standing; permission of instructor. (1.5+0+7.5)

PS F603  Public Policy  3 Credits  Offered Spring Even-numbered Years  The processes of policy development, implementation, and change are analyzed along with major policy frameworks and models used in contemporary political science. These frameworks and models will be applied to environmental sustainability and other social policy issues. Students will develop expertise in a specific policy area and skills in research design preparing them to analyze public policy. Prerequisites: Graduate Standing. Cross-listed with NORS F603. (3+0)

PS F647  U.S. Environmental Politics  3 Credits  U.S. political institutions as they relate to making policies for protecting the quality of the natural environment. The politics of nuclear waste, endangered species, air and water pollution, and wilderness preservation. Analysis of the National Environmental Policy Act, sustainable development, limits to growth and other topics. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F647. (3+0)

PS F650  Comparative Indigenous Rights and Policies  3 Credits  Offered As Demand Warrants  Comparative approach to analyzing Indigenous rights and policies in different nation-state systems. Multiple countries and specific policy developments examined for factors promoting or limiting self-determination. Prerequisites: Graduate Standing. Stacked with PS F450; ANS F450. (3+0)
PS F654  International Law and the Environment  
3 Credits  Offered Fall Odd-numbered Years  
International environmental law. Includes international case law regulating the sea, airspace, outer space and the polar regions; comprehensive international regulatory and legal instruments to protect the environment (e.g., the U.N. Framework Convention on Climate Change); and the doctrines, principles, and rules of international law that are basic to an understanding of international legal regimes and the environment. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Recommended: Undergraduate course in international law, organization, or politics. Cross-listed with NORS F654. (3+0)

PS F655  Political Economy of the Global Environment  
3 Credits  Offered Fall Odd-numbered Years  
Interactions between basic aspects of the global economy (international trade, investment and development) and the natural environment. Topics include the economic impact of global environmental agreements and the environmental impact of global markets, transnational corporations, and development assistance by organizations such as the World Bank. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F655. (3+0)

PS F656  Science, Technology, and Politics  
3 Credits  Relationship of science, technology and politics. Connections among scientific knowledge, technology, technological innovations, politics and power. Both historical and comparative aspects are included. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Recommended: PS F101. Cross-listed with NORS F656. (3+0)

PS F658  Comparative Environmental Politics  
3 Credits  Offered Fall Odd-numbered Years  
Enduring issues of the field of comparative politics and their relation to global environmental problems. Biodiversity, transboundary pollution and climate warming. Explores how state-society relations, political institutions, national political capacity, political processes and organizations, and international commitments potentially shape the nature and dynamics of global environmental politics and vice versa. Course is also available online. Prerequisites: Graduate standing or permission of instructor. Recommended: PS F201 or equivalent comparative politics course. Cross-listed with NORS F658. (3+0)

PS F660  Government and Politics of Canada  
3 Credits  Offered Spring Odd-numbered Years  
The Canadian political system, covering the Canadian constitution, federal structure, parliamentary government and public policy, as well as contemporary issues concerning Native rights and the Canadian North. Students will complete a major research paper on specific policy areas (language, education, health care, environment, natural resources, foreign relations). Prerequisites: PS F201; graduate standing; or permission of instructor. Cross-listed with NORS F660. (3+0)

PS F662  Alaska Government and Politics  
3 Credits  Offered Spring Odd-numbered Years  
Alaska’s government and politics, in the context of American state and local government, and politics and governments of circumpolar northern nations. Topics include political history, constitution, political parties, interest groups, elections, public opinion, governor, legislature, judiciary, administration and local governments. Compares Alaska to the contiguous 48 states and subnational governments of the circumpolar North; examines how government institutions and processes respond to social, environmental and political changes of Northern communities. Prerequisites: Graduate standing or permission of instructor. Cross-listed with NORS F662. (3+0)

PS F668  Government and Politics of Russia  
3 Credits  Current developments in Russia from a number of perspectives. The effect of history and geography on political change; the nature of Russian government and society; the legacies of Lenin, Stalin, Gorbachev, and the ideological nature of regimes and leadership. Economic forces and the political struggle in governance; revolution, democracy and reform; and the international role of Russia, particularly in relation to the former Soviet republics, Eastern Europe and other border areas. Prerequisites: PS F201; graduate standing; or permission of instructor. Cross-listed with NORS F668. (3+0)

PS F669  Arctic Politics and Governance  
3 Credits  Offered Fall  
This course traces current developments in Arctic politics and governance from multiple perspectives; exploring, interests, processes, and behaviors of Arctic state- and non-state actors, individually and collectively. The course surveys the formal and informal institutions that govern resource development, pollution, shipping, state-indigenous relations, and security. Prerequisites: PS F450, PS F452 or PS F454 or equivalent; graduate standing; or permission of instructor. A background in comparative politics and/or international relations is also recommended. (3+0)

POWER GENERATION

PGEN F101  Introduction to Power Generation, Distribution and Alternative Energy  
3 Credits  Designed for those interested in gaining knowledge of the modern methods of commercial power generation and its distribution. Provides an overview of current trends toward the development of stable, sustainable, alternative energy, production method(s) and terminology/concepts relative to modern industrial power generation. Recommended: ENGL F111X; any 100-level MATH. (3+0)

PGEN F102  Basic Electricity for Power Generation Operators  
4 Credits  Introduction to basic electrical theory and to hands-on training for basic electricity. Introduction to basic electrical equipment, systems, and instrumentation utilized in the production and control of commercial electrical power generation. Recommended: ENGL F111X; any F100-level MATH. (3+2)

PGEN F103  Introduction to Power Generation: Maintenance  
4 Credits  Designed for those interested in advancing their knowledge of maintenance relative to the commercial power industry. Provides overview of power generation equipment and the routine maintenance required to keep the equipment. Also provides an overview of safe working practices, tools, procedures, drawings, Piping and Instrumentation (P&ID’s) and Process Safety Management (PSM). Prerequisites: PGEN F101; PGEN F102; or permission of instructor. Recommended: Computation course. (3+2)

PGEN F104  Gas and Steam Turbines: Cogeneration and Combined Cycle Technologies  
4 Credits  Introduces basic information associated with modern gas and steam turbines, and the systems in which they are used to produce electrical power and/or steam for heating. Prerequisites: PGEN F101; PGEN F102; PGEN F103; or permission of instructor. Recommended: Computation course. (4+0)

PROCESS TECHNOLOGY

PRT F101  Introduction to Process Technology  
3 Credits  Introduction to process operations in industry. Non-mathematical overview of general information, processes, procedures and equipment a process operator would be expected to know and use. (3+0)
### PRT Technology (PRT) — Psychology (PSY)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRT F110</td>
<td>Introduction to Occupational Safety, Health and Environmental Awareness</td>
<td>3</td>
<td>Overview of the field of safety, health and environment within the process industry. Covers plant hazards, safety, and environmental systems and equipment, and applicable government regulations and industry standards. (3+0)</td>
</tr>
<tr>
<td>PRT F117</td>
<td>Drafting for Technicians</td>
<td>3</td>
<td>Offered As Demand Warrants Skills and techniques needed to produce process piping and instrumentation drawings. Special fees apply. (2+2)</td>
</tr>
<tr>
<td>PRT F120</td>
<td>Water Quality Management for Process Industries</td>
<td>4</td>
<td>Offered As Demand Warrants Overview of the chemistry, biology, hydraulics and hydrology related to water management in industries. Water distribution systems, water processing, operation of water works, wastewater processing, advanced wastewater treatment and water reuse. (3+3)</td>
</tr>
<tr>
<td>PRT F130</td>
<td>Process Technology I: Equipment</td>
<td>4</td>
<td>Offered As Demand Warrants Selected process equipment including rotating machinery and process units. Emphasis on equipment components, construction, preventative maintenance and safety. Includes hands-on experience. Prerequisites: PRT F101. (3+2)</td>
</tr>
<tr>
<td>PRT F135</td>
<td>Stationary Equipment</td>
<td>4</td>
<td>Offered Fall A detailed hands-on lecture/lab course covering stationary equipment used in a variety of process industries. Piping, valves, vessels, tanks, exchangers, heaters, boilers, mineral processing, mill equipment and distillation equipment are covered. (3+2)</td>
</tr>
<tr>
<td>PRT F140</td>
<td>Industrial Process Instrumentation I</td>
<td>3</td>
<td>Offered As Demand Warrants Physics of pressure, temperature, level and flow measurement; mechanical and electrical aspects of instruments used to control dynamics of processes. Emphasis on repair, maintenance and calibration, including hands-on physical training on a variety of process instruments. Prerequisites: PRT F140. (2+2)</td>
</tr>
<tr>
<td>PRT F144</td>
<td>Industrial Process Instrumentation II</td>
<td>3</td>
<td>Continuation of PRT F140. Emphasis on repair, maintenance and calibration, including hands-on physical training on a wide variety of process instruments. Prerequisites: PRT F140. (2+2)</td>
</tr>
<tr>
<td>PRT F160</td>
<td>Oil and Gas Exploration and Production I</td>
<td>3</td>
<td>Surveys oil and gas exploration and production issues including marketing, geology, reservoir economics, legal aspects of resource ownership, drilling and production technologies, product separation, safety and environmental issues. Course may not be audited. Prerequisites: Must be enrolled in the PRT program or permission of Program Chair. (3+0)</td>
</tr>
<tr>
<td>PRT F230</td>
<td>Process Technology II: Systems</td>
<td>4</td>
<td>Integration of equipment concepts to show how the individual components interact as part of a system and how each system works within an entire processing facility. Emphasis on the common systems found in each Alaska process industry. Systems topics include upstream oil and gas productions, petrochemicals and refinery processes, refrigeration, power generation, milling, boilers and heaters, coolers and heat exchangers. Prerequisites: PRT F130. (3+2)</td>
</tr>
<tr>
<td>PRT F231</td>
<td>Process Technology III: Operations</td>
<td>4</td>
<td>Duties and responsibilities of the process operator on the job. Includes the details of normal operation, upset conditions, emergency action plans, startups, shutdowns, operating modes, turnarounds and routing maintenance activity. Prerequisites: PRT F230. (3+2)</td>
</tr>
<tr>
<td>PRT F240</td>
<td>Industrial Process Instrumentation III</td>
<td>3</td>
<td>Offered As Demand Warrants A study of digital and analog industrial measurement and control instrumentation, including continuous analog control loops, relay logic and programmable logic controllers. Emphasis is on commonly used process measurement devices, control methods and strategies, and the proper selection, identification, design, installation and operation of instrumentation. Prerequisites: PRT F140; PRT F144; or permission of instructor. Recommended: MATH F103X or higher. (2+2)</td>
</tr>
<tr>
<td>PRT F248</td>
<td>Valve Maintenance and Instrumentation</td>
<td>3</td>
<td>Offered As Demand Warrants Specific advanced subjects of industrial process valve maintenance and instrumentation. Includes calibration, configuration, troubleshooting, and use of valves with instrumentation. Concepts of contemporary plant control systems, commonly used industrial process measurement, control communication protocols and topologies related to valve control will be discussed. Covers maintenance and operation of gate, globe, ball, plug, check and special-purpose valves. Details of actuators and various accessories related to valve maintenance and control will be explained and related to valve selection based on application. Recommended: PRT F130. (3+1)</td>
</tr>
<tr>
<td>PRT F250</td>
<td>Process Troubleshooting</td>
<td>3</td>
<td>Troubleshooting process operations and problems. Using indicators, variables and controllers along with a formalized process of troubleshooting. Troubleshooting examples will reflect current needs of industry. Prerequisites: PRT F231. (3+2)</td>
</tr>
<tr>
<td>PRT F255</td>
<td>Quality Concepts for the Process Industry</td>
<td>1</td>
<td>Offered As Demand Warrants Introduction to current quality concepts applied to role of process technician. Includes quality concepts with respect to the client and the role of statistical processes used by the operator in achieving quality. (1+0)</td>
</tr>
<tr>
<td>PRT F275</td>
<td>Process Technology Internship</td>
<td>1 – 9</td>
<td>Offered As Demand Warrants Working experience in and exposure to various stages and settings within the process industry. Endorsed and promoted by Alaska Process Industry Careers Consortium, the internship is an intensive exposure to the various duties and responsibilities of the process operator in Alaska. A maximum of 9 credits may be earned. Prerequisites: Permission of instructor. Recommended: PRT F101, PRT F110, PRT F140. (0+5 – 45)</td>
</tr>

### Psychology

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY F101</td>
<td>Introduction to Psychology</td>
<td>(s)</td>
<td>Offered As Demand Warrants Principles of general psychology emphasizing natural science and social science orientation. Cultural, environment, heredity and psychological basis for integrated behavior; visual, audition and the other senses; motivation and emotion; basic processes in learning, problem solving, and thinking; personality; psychological disorders — their prevention and treatment, and therapeutic strategies. Also available via e-Learning and Distance Education or via television as a self-paced, computer-aided course. (3+0)</td>
</tr>
<tr>
<td>PSY F240</td>
<td>Lifespan Developmental Psychology</td>
<td>(s)</td>
<td>Offered As Demand Warrants The psychology of human development from conception to death. Critical emphasis on theory and research within the field of developmental psychology with attention paid to similarities and differences in development across cultures. Topics include the psychological ramifications of physical development along with cognitive, personality, and social development. (3+0)</td>
</tr>
</tbody>
</table>
across the lifespan. Also available via e-Learning and Distance Education. 
**Prerequisites:** PSY F101. (3+0)

**PSY F245**  
Child Development  
3 Credits  
Physical, cultural, emotional, cognitive and social aspects of a child's development from the prenatal period through early adolescence. Focus on developmental theories including Erikson, Gardner, Gilligan, Kagen, Sternberg, Vygotsky and other contemporary theories of child and adolescent development. **Prerequisites:** PSY F101 or permission of instructor. Cross-listed with ED F245. (3+0)

**PSY F250**  
Introductory Statistics for Behavioral Sciences  
3 Credits  
Offered Spring  
Statistics applied to social scientific topics. Includes descriptive statistics, frequency distributions, sampling distributions, elementary probability, estimation of population parameters, hypothesis testing (one- and two-sample problems), correlation, simple linear regression and one-way analysis of variance. Also available via e-Learning and Distance Education. **Prerequisites:** MATH F103X or MATH F107X or MATH F200X. Cross-listed with SOC F250. (3+0)

**PSY F275**  
Introduction to Social Science Research Methods (s)  
3 Credits  
Offered Spring  
Introduction to research methods in psychology. Includes the scientific process, developing research ideas, experimental and non-experimental designs, sampling, surveys and data analysis. **Prerequisites:** PSY F101. (3+0)

**PSY F304**  
Personality (s)  
3 Credits  
Offered Fall  
Psychological and social/cultural determinants of personality formation including appropriate theories in both areas. **Prerequisites:** PSY F101. (3+0)

**PSY F310 O**  
Cross-Cultural Psychology (s)  
3 Credits  
Offered Spring  
Major theories and research related to understanding the impact of culture on psychological development, cognition, social behavior, perception, and models for the conceptualization of distress and disease. Models for research and inquiry across culture will be discussed in the context of examining cross-cultural research on selected topics. Note: Meets departmental community service requirement for Psychology major. **Prerequisites:** COMM F131X or COMM F141X; PSY F101; PSY F240. (3+0)

**PSY F320**  
History and Systems of Psychology (s)  
3 Credits  
Offered As Demand Warrants  
The history of present psychology from associationism to humanism with attention to both the philosophical and physiological foundations of psychology, the most important theorists and movements, and paradigm shifts in the history of contemporary psychological systems. **Prerequisites:** PSY F101. (3+0)

**PSY F330**  
Social Psychology (s)  
3 Credits  
Offered Spring  
Analysis of intergroup relationships in terms of process and value orientation, their influences on the personality, and aspects of collective behavior on group and person. Aspects of social interaction that have cultural and intercultural variation. **Prerequisites:** PSY F101 or SOC F100X. Cross-listed with SOC F330. (3+0)

**PSY F333**  
Human Sexualities Across Cultures (s)  
3 Credits  
Offered Fall Odd-numbered Years  
Exploration of how people in a variety of cultures, both contemporary and historical, construct the meaning and experience of sexuality, and express themselves as sexual beings. Interdisciplinary study includes psychology, sociology, anthropology, gender studies, and related fields, with particular focus determined by which department is offering the course. Also available via e-Learning and Distance Education. **Prerequisites:** SOC F100X; or SOC F201 or PSY F101 or WGS F210; or permission of instructor. Cross-listed with SOC F333, WGS F332. (3+0)

**PSY F335 O/2**  
Brain and Behavior  
3 Credits  
Offered Alternate Fall Odd-numbered Years  
Study of the biological bases of human behavior. Emphasis on functional anatomy of the nervous system to understand normal behavior and behavioral disorders in terms of their psychology, development, evolution and function. Meets one-half of core upper division oral communication intensive requirement. **Prerequisites:** COMM F131X or COMM F141X; PSY F101 plus previous or concurrent enrollment in PSY F275; or permission of instructor. Recommended: BIOL F112X or BIOL F116X (3+0)

**PSY F337 W**  
Sport Psychology  
3 Credits  
Offered As Demand Warrants  
Theoretical and practical applications of psychological issues related to participation in physical activities, including exercise adherence, performance enhancement, group dynamics, leadership and coaching behaviors, arousal/anxiety, intervention strategies and lifespan participation. **Prerequisites:** PSY F101 or WGS F201; or permission of instructor. (3+0)

**PSY F360 O**  
Psychology of Women Across Cultures (s)  
3 Credits  
Offered Spring Odd-numbered Years  
Major theories, research and empirical data which describes the psychology of women as a discrete field, philosophical values of feminism and history of women's roles in society. The impact of culture on women interpersonally and intrapsychically examined across cultures. **Prerequisites:** PSY F101 or permission of instructor. (3+0)

**PSY F370**  
Drugs and Drug Dependence (s)  
3 Credits  
Offered Fall Even-numbered Years  
A multidisciplinary approach emphasizing acute and chronic alcoholism, commonly abused drugs, law enforcement and legal aspects of drug abuse, medical uses of drugs, physiological, psychological and sociological aspects of drug abuse, recommended drug education alternatives and plans, and treatment and rehabilitation of acute and chronic drug users. Also available via e-Learning and Distance Education. **Prerequisites:** PSY F101 or permission of instructor. (3+0)

**PSY F390 W,O**  
Industrial and Organizational Psychology (s)  
3 Credits  
Offered As Demand Warrants  
Application of psychological principles, theories and methods to issues related to work processes and workplace. Includes employee selection, motivation, performance appraisal, decision-making, group dynamics, power and leadership, job design, and organizational change and development. **Prerequisites:** COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; PSY F101; or permission of instructor. (3+0)

**PSY F440**  
Learning and Cognition (s)  
3 Credits  
Offered Spring Odd-numbered Years  
Theory and research on the fundamentals of learning. Topics include information processing, attention and consciousness, learning processes, memory structures, retrieval, and the biological and cultural considerations relevant to each. Also available via e-Learning and Distance Education. **Prerequisites:** PSY F101; PSY F275. (3+0)

**PSY F445 W**  
Community Psychology (s)  
3 Credits  
Offered Fall  
Survey of principles and applications of community psychology, emphasizing person-environment interactions and societal and cultural
impacts upon individual and community functioning. Attention given to interventions which facilitate psychological competence and empowerment, prevent disorder, and promote social change. Experiential learning emphasized through community service requirement. Note: Meets departmental community service requirement for Psychology major. **Prerequisites:** ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; PSY F101; PSY F275. (3+0)

**PSY F475**  
**Clinical Psychology**  
3 Credits  
Offered As Demand Warrants  
Survey of clinical psychology methods and approaches with consideration of psychological assessment and treatment. Topics include specific counseling strategies, such as psychoanalysis, behavior therapy, crisis intervention, rational-emotive and humanistic approaches, along with ethics in clinical practice and issues in cross-cultural counseling and psychological assessment and treatment. A clinical lab will allow students to apply their classroom learning and acquire hands-on experience in clinical skills. **Prerequisites:** PSY F240; PSY F275; PSY F345. (2+3)

**PSY F469**  
**Health Psychology**  
3 Credits  
Offered Fall  
Scientific study of behaviors that relate to health enhancement, disease and injury prevention, safety and rehabilitation. While mental health is included, the emphasis is on physical health. Also available via e-Learning and Distance Education. **Prerequisites:** PSY F101; PSY F275; and junior standing. (3+0)

**PSY F470 W,O**  
**Sensation and Perception (s)**  
3 Credits  
Offered As Demand Warrants  
An integrated psychological and physiological approach to sensation, including the fundamental mechanisms of vision, hearing, taste, smell and movement. Emphasis will include theoretical models and systems of perception, and how they are influenced by cultural, developmental, hereditary, physiological, psychological and social factors. Meets core upper division writing and oral intensive requirements. **Prerequisites:** ENGL F111X; ENGL F211X or ENGL F213X; COMM F131X or COMM F141X; nine credit hours of PSY courses (which must include PSY F101 and PSY F275); or permission of instructor. (3+0)

**PSY F475 W**  
**Research Design and Analysis in Psychology (s)**  
3 Credits  
Offered Fall Even-numbered Years  
An integrated approach to the study of research design and analysis in psychology. Emphasis on research methodologies and techniques. Design, execution and analysis of social science research. **Prerequisites:** ENGL F111X; ENGL F211X or ENGL F213X; PSY F101; PSY/SOC F250 or STAT F200X; PSY F275; permission of instructor. (2+3)

**PSY F480 W**  
**Qualitative Social Science Research (s)**  
3 Credits  
Offered Spring Odd-numbered Years  
Introduction to classical and contemporary research within the qualitative (or interpretive) paradigm of social science. Discusses the theoretical frameworks, historical traditions, epistemological and ethical issues of qualitative approaches. Uses hands-on experience in the practicalities and excitement of a variety of methods for gathering qualitative data and conducting qualitative analyses. **Prerequisites:** ENGL F111X; ENGL F211X or ENGL F213X; one lower-division social science research methods course; or permission of instructor. Cross-listed with SOC F480. (3+0)

**PSY F485**  
**Senior Seminar (s)**  
3 Credits  
Offered Spring  
Synthesis and integration of knowledge and skills developed by psychology majors. Includes a general knowledge of psychology, a basic knowledge of the research process and methods, insights into the way culture, gender, ethnicity, social class, and other diversity issues influence research and practice in psychology. **Prerequisites:** PSY F275; Psychology major with senior standing. (3+0)

**PSY F488**  
**Practicum in Psychology**  
1 – 6 Credits  
Individual practice and training to work in a setting or experience the work of a psychologist. Faculty supervision on campus or on site. Requires 50 clock hours per credit hour. Placement must be arranged before registering for course. Graded Pass/Fail. **Prerequisites:** Permission of instructor. (1+0)

**PSY F601**  
**Clinical/Community/Cross-Cultural Integration Seminar**  
1 Credit  
Offered As Demand Warrants  
Introduces current trends in community, clinical and indigenous psychology. Students are encouraged to explore how these three fields complement each other to bring about positive change in community and clinical settings. Special emphasis on ways to conceptualize mental health and community issues in culturally appropriate ways. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. **Prerequisites:** Gradate standing in Psychology or permission of instructor. (1+0)

**PSY F602**  
**Native Ways of Knowing**  
3 Credits  
Offered Fall  
Covers the appropriate and valid ways of describing and explaining human behavior by using the social context, culture and history of indigenous groups. Includes indigenous approaches to values, health, the interconnection of family and community; the nature of spirituality and indigenous healing; and the importance of elders and spiritual healers. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. **Prerequisites:** Admission to the Psychology Ph.D. program or permission of instructor. (3+0)

**PSY F603**  
**Alaska and Rural Psychology**  
3 Credits  
Offered Spring  
Introduces rural community psychology, including the diversity of rural communities, with emphasis on Alaska and the rural circumpolar North. Provides an introduction to rural health promotion, prevention and behavioral health care, and a basis for understanding many of the issues of services planning and delivery in rural areas. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. **Prerequisites:** PSY F632; graduate standing in Psychology; or permission of instructor. (3+0)

**PSY F604**  
**Biological and Pharmacological Bases of Behavior**  
3 Credits  
Offered Fall  
Biological underpinnings of behavior and the basic principles of pharmacology. Deals with physiological causes and contributors to psychopathology and the medical sequelae of psychiatric disorders. Topics will include issues such as differential diagnosis, referral for medical or psychiatric evaluation and the functional and structural characteristics of relevant physiological systems. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. **Prerequisites:** PSY F622; graduate standing in Psychology; or permission of instructor. (3+0)

**PSY F605**  
**History and Systems of Psychology**  
1 Credit  
Offered Fall  
A brief philosophically oriented overview of the history of psychology. Compares Western psychology in the 19th and 20th centuries and selected indigenous psychologies of Asia and North America. Special attention is given to systems of thought that have emerged since the founding of psychology as an empirical science. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. **Prerequisites:** Graduate standing in Psychology or permission of instructor. (1+0)
PSY F606 Native Ways of Healing
3 Credits
Explores healing from a variety of Native perspectives, particularly from an Alaska Native perspective. Emphasizes the preparation and education of healers, their roles and work and integration within the community. Students will have the opportunity to examine the possible integration of clinical and community psychology with indigenous approaches to healing. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F607 Cognition, Affect and Culture
3 Credits
Offered Spring
Presents an overview of attention, memory, appraisal and emotion with applications to clinical psychology in a cultural context. Cultural influences on emotional experience and cognition are explored. The etiology and treatment of psychological disorders with significant cognitive and affective disturbances are explored. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F611 Ethics and Professional Practice
3 Credits
Offered Spring
Comprehensive overview of ethical principles and legal statutes involved in clinical and community practice and research. Designed as a forum for discussion of ethical issues and other concerns relevant to professionals in psychology, with particular emphasis given to ethical issues in cross cultural and rural contexts in Alaska. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Admittance to the Psychology Ph.D. program or permission of instructor. (3+0)

PSY F612 Human Development in a Cultural Context
3 Credits
Offered Spring
Study of development theory, research and substantive applied issues across the life span. Particular emphasis on understanding how culture and sociocultural context impact the interplay of biology and environment in development of essential qualities and characteristics of individuals. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F616 Program Evaluation and Community Consultation I
3 Credits
Offered Fall
The first in a two-course series, providing an overview of theories, methods and applications of program evaluation and community consultation as tools for facilitating systemic and programmatic changes in community and clinical settings. Seminar covers techniques of entry into various settings and designing program evaluations in collaboration with various community organizations. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F639; graduate standing in Psychology; or permission of instructor. (3+0)

PSY F617 Program Evaluation and Community Consultation II
3 Credits
Offered Spring
The second in a two-course series, introducing the principles and dynamics involved in various types of consultative relationships in community and clinical settings, with a focus on cross-cultural and ethical issues. Covers methods of program evaluation implementation and use of program evaluation findings for consulting with relevant stakeholders. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F616; graduate standing in Psychology or permission of instructor. (3+0)

PSY F622 Multicultural Psychopathology
3 Credits
Offered Fall
An overview of contemporary views on child and adult psychopathology from a multicultural perspective. The fundamentals of clinical interviewing and diagnostics. Includes training in the DSM-IV diagnostic system. The role of culture, ethnicity, gender and social class in symptom formation and the experience of psychological disorders will be examined. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F623 Intervention I
3 Credits
Offered Fall
Increases knowledge and skills related to traditional and nontraditional therapeutic interventions. Students are provided with a range of theoretical perspectives, a conceptual understanding of and an opportunity to practice a wide range of culturally relevant and appropriate techniques that are applicable in traditional and non-traditional community mental health settings. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F629 Intervention II
3 Credits
Offered Spring
Deepens understanding of the variety and application of intervention techniques in diverse settings. Directs students to explore the efficacy of specific interventions in a range of settings and with a variety of populations. Shapes critical thinking and basic intervention evaluation skills. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F623; admittance to Psychology Ph.D. program or permission of instructor. (3+0)

PSY F632 Community Psychology Across Cultures
3 Credits
Offered Fall
An overview of theory, research and practice of community psychology with particular emphasis on cross-cultural themes, design and evaluation of interventions in remote and rural community settings, prevention and health promotion, and social change. Particular emphasis will be on issues relevant to Alaska Native communities. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F633 Tests and Measurement in Multi-Cultural Context
3 Credits
Offered Fall
Principles of construction, analysis and evaluation of psychological tests in a multicultural context. Emphasizes culturally sensitive application of psychological tests and measurements. Focuses on the history, theory and methods of psychological testing by examining intelligence, personality and vocation. Discusses widely-used intelligence and personality tests and procedures. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F639 Research Methods
3 Credits
Offered Spring
Methods used for research in community, clinical and cross-cultural settings. Introduces epistemologies and ethics relevant to research with rural and indigenous people. Includes a variety of designs and data-gathering methods to improve understanding of behavior in social settings. Quantitative, qualitative and mixed method approaches will be presented. Course will be video-conferenced between UAA and UAF campuses. The
PSY F646 School Counseling
3 Credits  Offered Fall
Topics related to the role of the school counselor such as consultation, career guidance, and culturally appropriate assessment. Prerequisites: Graduate standing or permission of instructor. Cross-listed with COUN F646. (3+3)

PSY F647 Professional Ethics
3 Credits  Offered Fall
The ethical standards of the American Psychological Association and American Counseling Association will be examined, discussed and compared. Students will be provided with opportunities to apply these general principles to specific cases. Students will be expected to demonstrate a knowledge of the principles of these three ethical codes and an ability to apply them. Also available via Independent Learning. Prerequisites: Admission to Master’s program in Psychology or Counseling, or permission of instructor. (3+0)

PSY F650 Cross-Cultural Psychopathology
3 Credits  Offered Fall
An overview of contemporary perspectives on child and adult psychological disorders from the perspective of cultural psychology. Fundamentals of therapeutic interviewing. Training in use of the DSM-IV diagnostic system. Examination of the role of culture, ethnicity, gender, and social class in symptom formation and the experience of illness, and critical examination of these issues in clinical application of the DSM-IV. Training in DSM-IV cultural formulation. Prerequisites: PSY F335 or equivalent; admittance to Counseling program; or permission of instructor. Cross-listed with COUN F650. (3+0)

PSY F652 Practicum Placement — Clinical I
1 – 3 Credits  Offered Fall
Supervised clinical practicum experience in psychological interviewing, diagnosis and psychotherapy. Applied techniques focusing on delivery of clinical services in traditional or non-traditional clinical settings. Cultural factors are considered in each of these areas. May be repeated for a maximum of 9 credits. Special fees apply. Prerequisites: PSY F611; PSY F622; PSY F623; PSY F645; admittance to the Psychology Ph.D. program; or permission of instructor. May be repeated for a maximum of 9 credits. (1 – 3+0+7 – 20)

PSY F653 Practicum Placement — Clinical II
1 – 3 Credits  Offered Spring
Advanced clinical practicum experience designed to provide increased depth in applying theory to the practice and improving skills as a clinician. Covers application of psychological assessment principles. Impact of cultural factors continues as a major aspect of the practicum experience. May be repeated for a maximum of 9 credits. Prerequisites: PSY F652; admittance to Psychology Ph.D. program; or permission of instructor. (1 – 3+0)

PSY F657 Quantitative Analysis
3 Credits  Offered Fall
The underlying principles of statistics, including the logic of statistical inference, probability, power, effect size, and type one and two errors. Uses statistics for designs including the description of groups (data reduction), correlation, predictive models (regression), inferential statistics, analysis of mixed- method designs, and common nonparametric techniques. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F639; admittance to Psychology Ph.D. program; or permission of instructor. (3+0)

PSY F658 Qualitative Analysis
3 Credits  Offered Fall
Introduction to the theory of qualitative inquiry, qualitative methodologies and basic techniques of qualitative research. Enables the student to use qualitative methods in research. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F639; graduate standing in Psychology; or permission of instructor. (3+0)

PSY F659 Multivariate Statistics
3 Credits  Provides a conceptual discussion of and statistical software training in advanced statistical analysis, including multivariate regression, canonical correlation, discriminant analysis, multivariate analysis of variance, principle component analysis, factor analysis, logistic regression, and cluster analysis. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F639; PSY F657; admittance to Psychology Ph.D. program; or permission of instructor. (3+0)

PSY F661 Cross-Cultural Counseling
3 Credits  Offered Spring: As Demand Warrants
An examination of cultural and ethnic variables in human nature and their effect on the counseling process. Specific focus will be placed on the nature and function of culture, cultural variables in the context of the human experience, universal and culture-specific aspects of the counseling process, barriers to effective cross-cultural counseling, specific ethnic and cultural considerations, and methods of intellectual training with special emphasis on Alaskan applications. Prerequisites: Admittance to the Counseling program; or permission of instructor. Cross-listed with COUN F660. (3+0)

PSY F666 Family and Network Therapy
3 Credits  Offered Spring
Survey of concepts and theories of function and dysfunction in the area of couples and families as social networks. Introduction to the skills necessary for intervention in these systems. Prerequisites: COUN F623; admittance to the Counseling program; or permission of instructor. Cross-listed with COUN F666. (3+0)

PSY F669 Health Psychology
3 Credits  Offered Fall
Scientific study of behaviors relating to health enhancement, disease and injury prevention, safety and rehabilitation. While mental health is included, the emphasis is on physical health. Prerequisites: Graduate standing or permission of instructor. Stacked with PSY F469. (3+0)

PSY F672 Practicum Placement — Community I
3 Credits  Offered Fall
Community practicum experience designed to provide increased depth in applying theory to practice and improving skills as a community psychologist. Impact of cultural factors will be a major aspect of the practicum experience. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Students will also be under close supervision with a community organization. May be repeated for a maximum of 9 credits. Special fees apply. Prerequisites: Graduate standing in Psychology or permission of instructor. (3+0)

PSY F673 Practicum Placement — Community II
3 Credits  Offered Spring
An advanced community practicum experience designed to provide increased depth in applying theory to practice and improving skills as a community psychologist. Impact of cultural factors will be a major aspect of the practicum experience. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Students will also be under close supervision with a community organization. Second phase of PSY F672. Prerequisites: PSY F672; graduate standing in Psychology; or permission of instructor. (3+0)
PSY F674 Group Counseling
3 Credits Offered Spring, Alternate Summer
Kinds and types of groups with emphasis on methods, problems and skills needed in working with groups in a counseling situation.
Prerequisites: COUN F623/PSY F660; admittance to the Counseling program; or permission of instructor. Cross-listed with COUN F674. (3+0)

PSY F679 Multicultural Psychological Assessment I
3 Credits Offered Spring
Introduces administration, scoring and interpretation of various intellectual and objective personality assessment instruments, as well as their psychometric properties, for children and adults. Emphasis on the meaningful integration of test results into a culturally sensitive assessment report. Highlights professional and ethical issues related to multicultural assessment practices emphasizing Alaska Natives. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Special fees apply. Prerequisites: PSY F633; admittance to the Psychology Ph.D. program; or permission of instructor. (3+0)

PSY F681 Substances of Abuse in Alaska
1 Credit Offered Fall
Overview of the most prevalent substances of abuse in Alaska including physical, psychological, social and medical consequences of use and abuse. Prerequisites: Admittance into the Psychology Ph.D. program or permission of instructor. First in the sequence PSY F681, PSY F682, and PSY F683. For doctoral students in the program. In exceptional cases to students not in the doctoral program, but with appropriate background and training will be given special permission to take the course. (1+0)

PSY F682 Substance Abuse Assessment and Treatment Planning
1 Credit Offered Fall
Specialized tests, measurement and treatment planning for substance abuse. Emphasis on integrating results into culturally relevant treatment plans following the American Society for Addiction Medicine dimensional criteria. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: Admittance to Psychology Ph.D. program or permission of instructor. PSY F682 is the second in a continuing series that includes PSY F681 and PSY F683. For doctoral students in the program, it is to be taken as a series. In exceptional cases, students not in the doctoral program but with the appropriate background and training will be given special permission to take the course. (1+0)

PSY F683 Clinical Interventions in Substance Abuse
1 Credit Offered Fall
Conceptualizing substance abuse as a continuum from intervention to after-care. Relevant evidence-based interventions and therapeutic communities are addressed within the context of rural Alaska Native communities. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. PSY F683 is the third in a continuing series that includes PSY F681 and PSY F682. For doctoral students in the program, it is to be taken as a series. In exceptional cases, students not in the doctoral program but with the appropriate background and training will be given special permission to take the course. Prerequisites: Admittance to the Psychology Ph.D. program or permission of instructor. (1+0)

PSY F684 Clinical Supervision
3 Credits
The clinical, ethical and cultural issues involved in supervision. Contemporary, empirically supported information regarding various approaches to supervision will be examined. Covers both the relationship inherent in clinical supervision and training in leadership and supervision of employees in other work settings. Course will be video-conferenced between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery. Prerequisites: PSY F639; admittance to Psychology Ph.D. program; or permission of instructor. (3+0)

PSY F686 Predoctoral Internship
6 Credits
Understanding and application of assessment and intervention techniques in diverse settings. Students are placed in clinical or community settings for 40 hours per week to apply and sharpen skills. Students work under a local supervisor who manages student caseloads and assignments in collaboration with the course instructor. Graded Pass/Fail. Approval contingent upon approval of Dissertation proposal and of DCT's (Directors of Clinical Training). (6+0)

PSY F687 Multicultural Psychological Assessment II
3 Credits
Advanced psychological assessment tools including interviews, projective techniques and neurocognitive assessment. Emphasis on the integration of cognitive personality and other test results derived from an assessment battery into a meaningful and culturally sensitive psychological assessment report. Course will be video-conference between UAA and UAF campuses. The course will make use of Blackboard and E-res to support distance delivery Special fees apply. Prerequisites: PSY F679; admittance to Psychology Ph.D. program or permission of instructor. (3+0)

RECREATION
RECR courses are available to all UAF students who meet stated prerequisites. Students with disabilities are encouraged to participate. Any students requiring special accommodations are asked to contact the department office as soon as possible.
RECR F110 – F170 courses include instruction, practice and activity in physical activities, sports and dance. Courses may be taken for credit once. Courses are graded Pass/Fail.

RECR F110A Beginning Swimming
1 Credit Offered As Demand Warrants
Beginning level swimming skills, proper breathing techniques and beginning strokes. Emphasizes personal water safety. Graded Pass/Fail. (0+3)

RECR F110B Intermediate Swimming
1 Credit Offered As Demand Warrants
Intermediate-level swimming skills, proper breathing techniques and beginning strokes. Emphasizes personal water safety. Graded Pass/Fail. (0+3)

RECR F110C Advanced Swimming
1 Credit Offered As Demand Warrants
Advanced-level swimming skills, proper breathing techniques and beginning strokes. Emphasizes personal water safety. Graded Pass/Fail. (0+3)

RECR F110D Conditioning Swimming
1 Credit Offered As Demand Warrants
Covers proper warm-up and warm-down techniques, lap swim etiquette, and proper use of workout equipment. Graded Pass/Fail. (0+3)

RECR F110E Beginning Scuba
1 Credit Offered As Demand Warrants
Instruction and practice in beginning underwater aquatic activities. Graded Pass/Fail. (0+3)

RECR F110J Fundamentals of Competitive Water Polo
1 Credit Offered As Demand Warrants
Introduction to the game of water polo. Students will learn techniques used in water polo, as well as the basic rules and regulations of the sport. Graded Pass/Fail. Graded Pass/Fail. Prerequisites: RECR H10D or instructor permission. (0+3)
COURSES

RECR F120A Aerobics
1 Credit Offered As Demand Warrants
Moderate to high impact dance routines set to music designed to increase cardiovascular strength, promote coordination, and increase overall body strength and flexibility. Graded Pass/Fail. (0+3)

RECR F120C Beginning Yoga
1 Credit Offered As Demand Warrants
Beginning concepts and philosophy of yoga, breathing, postures, meditation, Sanskrit names of exercises, increased muscle tone and flexibility. Graded Pass/Fail. (0+3)

RECR F120D Intermediate Yoga
1 Credit Offered As Demand Warrants
Intermediate concepts and philosophy of yoga, breathing, postures, meditation, Sanskrit names of exercises, increased muscle tone and flexibility. Graded Pass/Fail. (0+3)

RECR F120F Exercise And Fitness
1 Credit Offered As Demand Warrants
Instruction and practice in activities at beginning through advanced levels including (but not limited to) multi-fitness conditioning, recreational fitness activities, running, cycling, walking, weight training, aerobics, power lifting, tai chi chuan and yoga. Graded Pass/Fail. (0+3)

RECR F120G Military Fitness Training
1 Credit Offered As Demand Warrants
Instruction and practice in fitness activities concentrating on flexibility, strength, and muscular and cardiovascular endurance. Graded Pass/Fail. (0+3)

RECR F120H Multi Fitness Conditioning
1 Credit Offered As Demand Warrants
An overview of medium to high intensity aerobic exercise and muscle strengthening, conditioning and toning. Graded Pass/Fail. (0+3)

RECR F120J Weight Training
1 Credit Offered As Demand Warrants
Design and perform strength training routines using resistance to achieve overall fitness. Graded Pass/Fail. (0+3)

RECR F120K Advanced Weight Training
1 Credit Offered As Demand Warrants
Design and perform strength training routines using resistance to achieve overall fitness. Graded Pass/Fail. (0+3)

RECR F120L Zumba Fitness
1 Credit Offered As Demand Warrants
Introduction to basic Zumba Fitness/Latin dance steps from salsa, merengue, cumbia, reggaeton, and belly dance along with other international rhythms. Students will learn to identify the music, as well as a brief history of the dance. Graded Pass/Fail. (0+3)

RECR F130A Beginning Jazz Dance
1 Credit Offered As Demand Warrants
Develop a repertoire of jazz dance movement and terminology including plies, isolations, stretches, traveling steps, battements, pas de dehors, jazz slides and turns. History of jazz dance. Graded Pass/Fail. Cross-listed with THR F130A. (0+3)

RECR F130B Intermediate Jazz Dance
1 Credit Offered As Demand Warrants
Develop a repertoire of jazz dance movement and terminology including plies, isolations, stretches, traveling steps, battements, pas de dehors, jazz slides and turns. History of jazz dance. Graded Pass/Fail. Cross-listed with THR F130B. (0+3)

RECR F130C Advanced Jazz Dance
1 Credit Offered As Demand Warrants
Develop a repertoire of jazz dance movement and terminology including plies, isolations, stretches, traveling steps, battements, pas de dehors, jazz slides and turns. History of jazz dance. Graded Pass/Fail. Cross-listed with THR F130C. (0+3)

RECR F130D Modern Dance
1 Credit Offered As Demand Warrants
Develop a repertoire of modern dance movement and terminology including contraction and release, swings, triplets, fall and recovery, rolls and improvisations. Graded Pass/Fail. Cross-listed with THR F130D. (0+3)

RECR F130E Beginning Ballroom Dance
1 Credit Offered As Demand Warrants
Students with little or no background in social dance. Our aim is to have a good time and build a strong foundation for future learning. Dances covered include waltz, foxtrot, single-count swing, east coast swing, salsa, cha cha, merengue and, time permitting, polka. Graded Pass/Fail. Cross-listed with THR F130E. (0+3)

RECR F130F Intermediate Ballroom Dance
1 Credit Offered As Demand Warrants
Dances covered include waltz, foxtrot, single-count swing, east coast swing, salsa, cha cha, merengue and, time permitting, polka. Our aim is to have a good time and build a strong foundation for future learning. This course is for students with a beginning background in social dance. Graded Pass/Fail. Cross-listed with THR F130F. (0+3)

RECR F130G Advanced Ballroom Dance
1 Credit Offered As Demand Warrants
Dances covered include waltz, foxtrot, single-count swing, east coast swing, salsa, cha cha, merengue and, time permitting, polka. Our aim is to have a good time and build an even stronger foundation for future learning. This course is for students with an intermediate background in social dance. Graded Pass/Fail. Cross-listed with THR F130G. (0+3)

RECR F130H Beginning Ballet
1 Credit Offered As Demand Warrants
Instruction and practice in ballet at beginning levels. Graded Pass/Fail. Cross-listed with THR F130H. (0+3)

RECR F130J Intermediate Ballet
1 Credit Offered As Demand Warrants
Instruction and practice in ballet at intermediate levels. Graded Pass/Fail. Cross-listed with THR F130J. (0+3)

RECR F130K Advanced Ballet
1 Credit Offered As Demand Warrants
Instruction and practice in ballet at advanced levels. Graded Pass/Fail. Cross-listed with THR F130K. (0+3)

RECR F130N Middle Eastern Dance
1 Credit Offered As Demand Warrants
Designed for students with some or no background in Middle Eastern dance or anyone who wants to refine their technique and gain a deeper understanding of the different styles, history and evolution of Middle Eastern dance from social dance to performance art. Majority of semester will focus on basic dance vocabulary and choreography as well as dancing with props such as veils and finger cymbals. Graded Pass/Fail. Cross-listed with THR F130N. (0+3)

RECR F130Q Beginning Hip Hop
1 Credit Offered As Demand Warrants
Introduction to basic movements and terminology of hip hop dances and associated body movements. Students will gain these principles and ability to execute maneuvers presented in class. Graded Pass/Fail. Cross-listed with THR F130Q. (0+3)

RECR F130R Beginning Break Dance
1 Credit Offered Fall
Introduction to basic movements and terminology of break dancing, and an understanding of associated body movements. Students will gain an
RECR F140A  Beginning Fencing
1 Credit  Offered As Demand Warrants
Beginning classical Italian style fencing, stresses form and bradework for both defense and offense. This style is difficult to learn, but when mastered is extremely effective. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140B  Intermediate Fencing
1 Credit  Offered As Demand Warrants
Intermediate classical Italian style fencing, stresses form and bradework for both defense and offense. This style is difficult to learn, but when mastered is extremely effective. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140C  Advanced Fencing
1 Credit  Offered As Demand Warrants
Advanced classical Italian style fencing, stresses form and bradework for both defense and offense. This style is Graded Pass/Fail. Special fees apply. (0+3)

RECR F140E  Beginning Pistol Marksmanship
1 Credit  Offered As Demand Warrants
Knowledge, skills and attitudes necessary for owning and using a pistol safely and to advance through the NRA marksmanship program. Pistol parts, operation, ammunition, gun safety, and shooting fundamentals. Safety will be the foremost concern. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140F  Intermediate Pistol Marksmanship
1 Credit  Offered As Demand Warrants
Intermediate knowledge, skills and attitudes necessary for owning and using a pistol safely and to advance through the NRA marksmanship program. Pistol parts and their operation, ammunition, gun safety, and shooting fundamentals. Safety will be the foremost concern. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140G  Advanced Pistol Marksmanship
1 Credit  Offered As Demand Warrants
Advanced knowledge, skills and attitudes necessary for owning and using a pistol safely and to advance through the NRA marksmanship program. Pistol parts and their operation, ammunition, gun safety, and shooting fundamentals. Safety will be the foremost concern. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140H  Beginning Rock Climbing
1 Credit  Offered As Demand Warrants
Introduction to rock climbing, knots, risk evaluation, gear, rope skills, belaying, rappelling, jumaring, prusiking and top rope techniques. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140J  Intermediate Rock Climbing
1 Credit  Offered As Demand Warrants
Intermediate rock climbing, knots, risk evaluation, gear, rope skills, belaying, rappelling, jumaring, prusiking and top rope techniques. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140K  Advanced Rock Climbing
1 Credit  Offered As Demand Warrants
An extension of beginning rock climbing. Hauling, aid climbing, advanced Jumar techniques, lead climbing, portaledge set up and taping. Graded Pass/Fail. Special fees apply. (0+3)

RECR F140L  Technical Climbing
1 Credit  Offered As Demand Warrants
Introduction to high-angle technical climbing, top-rope rock and ice, movement on rock and ice, rope work, anchor systems, climbing ethics. Graded Pass/Fail. Special fees apply. (0+3)

RURAL DEVELOPMENT (RD)

RD F351 Strategic Planning for Rural Communities ✺
3 Credits Offered Spring
Examination of the major components of planning and grant writing processes as they relate to community land use, business and social service projects. Prerequisites: Junior standing or permission of instructor. (3+0)

RD F352 Rural Business Planning and Proposal Development ✺
3 Credits Offered Spring
Provides undergraduate students with an understanding of the principles and processes involved in strategic planning, business planning and proposal development with the focus on applications in rural Alaska. Focus is on meeting the unique planning needs of rural Alaska communities and organizations. (3+0)

RD F400 Rural Development Internship ✺
3 Credits
Structured experience in an appropriate agency or corporate setting. Student and instructor work collaboratively to identify appropriate internship. Designed primarily for students with limited managerial experience. Approved project required. Enrollment only by prior arrangement with the instructor. (3+0)

RD F401 Cultural Knowledge of Native Elders (h) ✺
3 Credits Offered Fall
Study with prominent Native tradition-bearers in Native philosophies, values and oral traditions. Traditional knowledge elicited through the cultural heritage documentation process. Analysis of existing interactions between cultural traditions and contemporary American life as experienced by Native elders. Cross-listed with ANS F401. (3+0)

RD F425 Cultural Resource Issues (s) ✺
3 Credits Offered As Demand Warrants
An examination of the potential impacts of development projects on cultural systems. Explores data gathering, analytical techniques and use of impact data. Prerequisites: Junior standing or permission of instructor. (3+0)

RD F427 Tribal Contracting and Compacting ✺
3 Credits Offered As Demand Warrants
Examines the history of federal Indian policy that led to self-determination tribal contracting and compacting. Public Law 93-638 will be studied and analyzed. Challenging issues that hampered tribal contracting will be identified. Case studies involving both tribal organizations and tribal governments will be studied. Current issues, such as the proposed regionalization of tribes for the purpose of contracting and compacting, will be examined. (3+0)

RD F430 Indigenous Economic Development and Entrepreneurship ✺
3 Credits Offered As Demand Warrants
An understanding of the principles, strategies and practices of economic development and entrepreneurship with a focus on indigenous Alaska communities. Focus is on those sustainable economies, through culturally appropriate practices. (3+0)

RD F450 Managing Rural Projects and Programs ✺
3 Credits Offered Fall
Examines appropriate management and accountability approaches for community-based programs and projects, particularly those found in rural and/or cross-cultural contexts. Prerequisites: RD F350 and RD F351 or permission of instructor. (3+0)

RD F451 Human Resource Management for Indigenous Communities ✺
3 Credits Offered Fall
Provides an understanding of the principles and processes involved in human resource management especially as they apply within indigenous communities. Focus is on the relevance of human resource management in every unit, project or team, and on the unique human resource management needs of rural Alaska communities and organizations and how they can be met. (3+0)

RD F460 Women and Development (s) ✺
3 Credits Offered As Demand Warrants
The effect of modernization and development processes on the role of women in a variety of Third World and tribal world contexts as well as the increasingly important “new” role women play in these complex processes. Cross-listed with WGS F460. (3+0)

RD F462 Rural Health and Human Service Systems ✺
3 Credits Offered As Demand Warrants
Examines the potential impacts of development projects on cultural systems. Explores data gathering, analytical techniques and use of impact data. Prerequisites: Junior standing or permission of instructor. (3+0)

RD F465 Community Healing and Wellness ✺
3 Credits Offered Fall
The history of education and the impact of religion and assimilation policies on the emotional and physical health of Alaska Natives and their communities. Traditional wellness issues and systems will also be researched from a global perspective. Prerequisite: Junior standing or permission of instructor. (3+0)

RD F470 The Alaska Native Claims Settlement Act: Pre-1971 to present
3 Credits Offered Fall
Overview and analysis of the Alaska Native Claims Settlement Act. An in-depth examination of the land claims movement of the 1960s and resulting legislative process. Firsthand accounts from Native leaders will be featured. Case studies describing challenges of individual Native villages and regions. Contemporary issues facing ANCSA corporations will be examined. Prerequisites: Junior standing or permission of instructor. Stacked with RD F670 (3+0)

RD F475 W Rural Development Senior Project ✺
3 Credits
Under faculty supervision, the student will complete a major theoretical, research and/or applied project which relates the student’s applied emphasis area. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; senior standing; or permission of instructor. (3+0)

RD F492 Rural Development Leadership Seminar ✺
1 – 3 Credits
Various topics of current interest and importance to the rural development majors. Topics announced prior to each offering. The course may be repeated for credit. Enrollment priority given to rural development majors. (1 – 3+0)

RD F600 Circumpolar Indigenous Leadership Symposium ✺
3 Credits Offered Fall
Intensive face-to-face graduate seminar over a week-long period. Held every fall either in Fairbanks or Anchorage. This is a cornerstone course for all M.A. students in the program. The content focuses on indigenous leadership and includes presentations by practitioners from throughout Alaska and the circumpolar North. It also presents an orientation in depth to the graduate program. This course may be repeated once for elective credit. Prerequisites: Graduate standing or permission of instructor. Note: RD F600 is required of all graduate students in the Rural Development program. May be repeated once for credit. (3+0)

RD F601 Political Economy of the Circumpolar North ✺
3 Credits Offered Fall
Interrelationships among rural communities in the circumpolar North and global socioeconomic, political and ecological systems. Includes major theoretical advances in our understanding of development in the 20th century. Uses a comparative case study approach to understand
rapid socioeconomically and cultural change in the north. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F608 Indigenous Knowledge Systems  
3 Credits Offered Fall  
A comparative survey and analysis of the epistemological properties, world views and modes of transmission associated with various indigenous knowledge systems. Emphasis on knowledge systems practiced in Alaska. Prerequisites: Graduate standing or approval of instructor. Cross-listed with CCS F608; ED F608; ANL F608. (3+0)

RD F612 Traditional Ecological Knowledge  
3 Credits Offered Spring  
Examines the acquisition and utilization of knowledge associated with long-term inhabitation of particular ecological systems and adaptations that arise from the accumulation of such knowledge. Attention will be given to the contemporary significance of traditional ecological knowledge as a complement to academic fields of study. Prerequisites: Graduate standing or approval of the instructor. Cross-listed with CCS F612. (3+0)

RD F625 Community Development Strategies: Principles and Practices  
3 Credits Offered Spring  
Provides graduate students with a detailed overview of principles and strategies of community development in rural Alaska and throughout the circumpolar North. Through in-depth case studies, it expands on materials and topics covered in Rural Development undergraduate courses on community development to explore how rural communities in diverse cultural, political and economic setting can build on local assets, skills and capacities to improve the lives of indigenous and other Northern residents. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F650 Community-Based Research Methods  
3 Credits Offered Spring  
This graduate course provides students with opportunities for advanced exploration of community-based research principles and practices. In the course, emphasis is placed on developing a thorough understanding of the community research process from conceptualization to implementation and evaluation. It includes skill development of skills applicable to both quantitative and qualitative research. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F651 Management Strategies for Rural Development  
3 Credits Offered Spring  
Provides an overview of the management by change and development within indigenous communities in the Circumpolar North. Looks closely at recent management strategies implemented in Alaska such as co-management of renewable resources, land management of Alaska Native corporations, cultural resource management, and the management of Alaska Native tribal governments, corporations and other organizations. Uses comparative case studies and effects of cultural and traditional values on management practices in different northern socio-cultural environments. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F652 Indigenous Organization Management  
3 Credits Offered As Demand Warrants  
Purposes, structure and methods of management of particularly Northern indigenous organizations. The management of Alaska Native organizations will be compared with formal organizations established by indigenous peoples in other regions of the Circumpolar North. The concept of ‘indigenous management’ will be reviewed, as well perceptions of differences between leadership and management in both western and indigenous settings. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F655 Circumpolar Health Issues  
3 Credits Offered As Demand Warrants  
Provides a comprehensive overview of major circumpolar health issues affecting Northern residents. Includes an analysis of health and traditional healing practices prior to contact. Examines the emergence of chronic diseases, problems of alcohol abuse and violence, efforts to combine traditional healing practices and Western medicine. Includes environmental health issues, including water, sewer, and food contamination. Overview of health care systems and public health infrastructure in the North. Prerequisites: Graduate standing or permission of instructor. (3+0)

RD F670 The Alaska Native Claims Settlement Act: Pre-1971 to present  
3 Credits Offered Fall  
Overview and analysis of the Alaska Native Claims Settlement Act. An in-depth examination of the land claims movement of the 1960s and resulting legislative process. Firsthand accounts from Native leaders will be featured. Case studies describing challenges of individual Native villages and regions. Contemporary issues facing ANCSA corporations will be examined. Prerequisite: Junior standing or permission of instructor. Stacked with RD F470. (3+0)

RD F690 Seminar in Cross-Cultural Studies  
3 Credits Offered As Demand Warrants  
Investigation of current issues in cross-cultural contexts. Opportunity for students to synthesize their prior graduate studies and research. Seminar is taken near the terminus of a graduate program. Prerequisites: Advancement to candidacy and permission of student’s graduate committee. Cross-listed with CCS F690; ED F690; ANL F690. (3+0)

RURAL HUMAN SERVICES

RHS F110 Cross-Cultural Bridging Skills  
1 Credit Offered As Demand Warrants  
Issues and impacts relevant to effective cross-cultural communication. Understanding barriers to effective cross-cultural communication in rural settings and development of effective cross-cultural communication skills from a Native perspective. Development of bridging and networking skills that integrate Native values and principles. Student must spend one week in intensive study at selected delivery site. (1+0)

RHS F115 Issues of Personal Development  
2 Credits  
Dynamics and impacts of personal development issues relevant to the delivery of rural human services focusing on understanding types, application and processes of personal development. Facilitating personal development through processes that integrate or reflect Native values and principles. Student must spend one week in intensive study at selected delivery site. (2+1)

RHS F120 Family Systems I  
2 Credits  
Survey of historical forces that exerted influence on Alaska Native families, the impacts of those forces and discussion of their contemporary effects from a Native perspective. Focus on developing options and strategies for developing healthy Native families as the foundation for healthy Native communities. Emphasis on developing the understanding and skills necessary to facilitate development and maintenance of healthy families through healthy individuals. Student must spend one week in intensive study at selected delivery site. (2+1)

RHS F130 Processes of Community Change  
2 Credits  
Contemporary foundations of rural social development and relevant issues from a Native perspective. Developing the understanding and skills necessary for facilitating positive individual, family and community development based on an ecological systems approach. Emphasis on developing the skills necessary to identify, develop and mobilize individual, family and community resources in rural Native communities. Student must spend one week in intensive study at selected delivery site. (2+1)
**Rural Human Services (RHS) — Rural Nutrition Services (RNS)**

### RHS F140 Alaska Native Values and Principles

1 Credit  
Traditional Native values and principles, their applicability to today’s world and issues relevant to their integration into today’s lifestyles. Developing understanding and skills necessary for facilitating formulation of positive world views within Native individuals, families and communities. Explores the role of spirituality in a variety of Alaska Native cultures. Student must spend three days in intensive study at selected delivery site. (1+0)

### RHS F150 Introduction to Rural Counseling

2 Credits  
Identification and examination of issues relevant to the delivery of rural counseling services focusing on developing the understanding and skills necessary for the effective delivery of rural counseling services. Opportunities for development of basic rural counseling skills with emphasis on integration of Native values and principles and exploring strategies that facilitate positive individual, family, and community growth and development through enhancement of healthy lifestyles in rural Native communities. Student must spend one week in intensive study at selected delivery site. (2+1)

### RHS F220 Family Systems II

2 Credits  
The dynamics and issues relevant to personal healing and recovery from a Native perspective focusing on developing the understanding and skills necessary to healing and recovery in Native individuals, families and communities. Emphasis on achieving healthy lifestyles through self-understanding based on truth, grieving and positive proactive repositioning. Student must spend one week in intensive study at selected delivery site. (2+1)

### RHS F230 Rural Counseling II

2 Credits  
Differences and similarities between Native and Western counseling skills. Issues relevant to the development and delivery of basic rural counseling skills and services. Focuses on identifying and building on individual, family and community strengths as the foundation for development of intervention strategies. Addresses the importance of integrating Native traditional values and principles into intervention strategies and service delivery. Emphasis on developing and enhancing basic rural counseling skills and short- and long-term intervention strategies. Student must spend one week in intensive study at selected delivery site. (2+1)

### RHS F260 Addictions: Intervention and Treatment

2 Credits  
Dynamics, issues, impacts, treatment options and intervention strategies relevant to behavioral and chemical addictions. Understanding addictive processes and developing treatment options and intervention strategies from a Native perspective. Emphasis on development of treatment options and intervention strategies that integrate Native values and principles. Student must spend one week in intensive study at selected delivery site. (2+1)

### RHS F265 Interpersonal Violence

2 Credits  
Offered As Demand Warrants  
Types, causes and impacts of interpersonal violence focusing on developing an understanding of interpersonal violence and development of treatment options and intervention strategies from a Native perspective. Emphasis on development of treatment options and intervention strategies that integrate Native values and principles. Student must spend one week in intensive study at selected delivery site. (2+1)

### RHS F275 Introduction to Recovery and Mental Illness

2 Credits  
Offered As Demand Warrants  
Overview of mental illness and recovery issues. Emphasis on issues for practitioners in small, rural communities in Alaska. Prerequisites: RHS F150 or instructor permission. Recommended: RHS F250, RHS F115. (2+1)

### RHS F285 Case Management

2 Credits  
Identification and discussion of issues, components, procedures, responsibilities, skills and processes for case management in rural settings with diverse populations. Emphasis on case management processes unique to rural and village Alaska and to the fields of mental health, addictions and interpersonal violence. Oral and written communication skills essential to effective case management explored. Student must be willing and able to work independently outside the classroom and in the community. (2+1)

### RHS F287 Rural Human Services Practicum

4 Credits  
Personal and professional development, self-analysis and growth. Emphasis on developing the understanding and skills necessary to integrate Native healing theory and problem solving into the delivery of rural human services. Student must be willing and able to work independently outside the classroom and in the community. Taken as part of the final sequence of courses in the Rural Human Services certificate program. Practicum provides students with 100 hours of supervised learning experience in an approved rural human service organization/agency. (4+0)

### RHS F290 Grief and Healing

2 Credits  
Offered As Demand Warrants  
Exploration of the dynamics of grief and healing from an Alaska Native perspective. Special emphasis on Native values and principles focused on developing culturally relevant, understandings, awarenesses and professional skills. (2+1)

### RNS F101 Rural Nutrition and Health Change

1 Credit  
Offered As Demand Warrants  
Introduction to healthful nutrition and tools for making health changes in a rural context. A beginning knowledge of healthy foods and activity for improved wellness outcomes. Skill development in meal planning, preparation and portioning, healthy meal makeovers, goal setting and maintenance. (1+0)

### RNS F105 Nutrition Science for the Generations

3 Credits  
Offered As Demand Warrants  
Basic applied nutrition science concepts in context of the life cycle presented in a culturally relevant framework. Introductory study of macro- and micro-nutrient requirements, food sources and physiologic and metabolic function with focus on relationship with health and change from traditional diets to contemporary Alaska Native diets. Overview of common nutritional problems affecting rural Alaskans. (0+0)

### RNS F120 Alaska Native Food Systems

3 Credits  
Offered As Demand Warrants  
A comprehensive overview of Alaska Native food systems including harvest methods, nutrient values, cultural, political and economic impacts and changing relationships (spiritual, personal, environmental, community and diet). Traditional common elements of regional diets and nutrients that support health are identified, compared and contrasted with modern diets. Current food system issues are addressed. Co-requisite: RNS F105 or permission of instructor. (0+0)

### RNS F201 Community Nutrition Interventions

2 Credits  
Offered As Demand Warrants  
Students learn a broad range of skills for leading culturally relevant nutrition outreach and extension interventions in rural Alaska with attention to learning styles, lesson planning, project design, media and delivery methods. Focus on addressing nutrition and lifestyle changes to promote wellness and prevent nutrition-related diseases. Prerequisites: RNS F105 or permission of instructor. Recommended: RNS F120. (0+0)

www.alaska.edu/titleIXcompliance/nondiscrimination.
RUSS F100A  Elementary Russian 1A (h)  
3 Credits  
Offered Fall  
An introductory course in the Russian language and culture with an emphasis on the spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. (3+0)

RUSS F100B  Elementary Russian 1B (h)  
3 Credits  
Offered Spring  
An introductory course in the Russian language and culture with an emphasis on the spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. Prerequisites: RUSS F100A; or permission of instructor. (3+0)

RUSS F101  Elementary Russian I (h)  
5 Credits  
Offered Fall  
Introduction to language and culture: development of competence and performance in the language through understanding, recognition and use of linguistic structures; increasing emphasis on listening comprehension and speaking; basic vocabulary of approximately 750 words; exploration of the cultural dimension, implicitly through language, and explicitly through texts and audiovisual materials. Prerequisites: RUSS F101 or equivalent. (5+0)

RUSS F103  Conversational Russian I (h)  
3 Credits  
Offered Spring Odd-numbered Years  
Verbal skills improvement. Vocabulary is presented to improve speaking on specific topics. Note: Does not satisfy core curriculum or foreign language major requirements. Graded Pass/Fail. Prerequisites: RUSS F101 and RUSS F102 or above or permission of instructor. (3+0)

RUSS F201  Intermediate Russian I (h)  
4 Credits  
Offered Fall  
Continuation of RUSS 102. Increasing emphasis on reading ability and cultural materials. Conducted in Russian. Prerequisites: RUSS F102 or equivalent. (4+0)

RUSS F202  Intermediate Russian II (h)  
4 Credits  
Offered Spring  
Continuation of RUSS 102. Increasing emphasis on reading ability and cultural materials. Conducted in Russian. Prerequisites: RUSS F201 or equivalent. (4+0)

RUSS F203  Conversational Russian II (h)  
3 Credits  
Offered Spring Odd-numbered Years  
Oral skills improvement. Vocabulary is presented to improve speaking on specific topics. Graded Pass/Fail. Prerequisites: RUSS F202 or above or permission of instructor. Does not satisfy core curriculum or foreign language major requirements. (3+0)

RUSS F301 W,O  Advanced Russian (h)  
3 Credits  
Offered Fall  
Discussions and essays on more difficult subjects or texts. Translations, stylistic exercises and special grammatical problems. Conducted in Russian. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; RUSS F202; or instructor permission. (3+0)

RUSS F302 W,O  Advanced Russian (h)  
3 Credits  
Offered Spring  
Discussions and essays on more difficult subjects or texts. Translations, stylistic exercises and special grammatical problems. Conducted in Russian. Prerequisites: COMM F131X or COMM F141X; ENGL F111X; ENGL F211X or ENGL F213X; RUSS F301 or equivalent; or permission of instructor. (3+0)

RUSS F431  Studies in Russian Culture (h)  
3 Credits  
Offered Fall Odd-numbered Years  
Study of the cultures of the Russian-speaking world. May be repeated for credit if topic varies. Prerequisites: RUSS F301 or equivalent; junior standing or permission of instructor. (3+0)

RUSS F432  Studies of Russian Literature (h)  
3 Credits  
Offered Spring Even-numbered Years  
Intensive study of authors, literary texts, movements, genres, themes and/or critical approaches. May be repeated for credit when topics vary. Prerequisites: RUSS F302 or equivalent, and at least junior standing, or permission of instructor. (3+0)

RUSS F482  Selected Topics in Russian Literature (h)  
3 Credits  
Offered Fall Even-numbered Years  
Intensive course in literature focusing on nineteenth-century writers. Conducted in English. Note: Course may be repeated once. Prerequisites: Junior standing, or permission of instructor. (3+0)

RUSS F484  Russian and Soviet Cinema (h)  
3 Credits  
Offered Fall Odd-numbered Years  
Study of Russian culture and society through the medium of film, focusing on the history of Russian cinema and genres. Films by award-winning directors. Designed to familiarize students with Russian history and culture from 1900s to the present. Readings and topics discussed reflect issues of current interest. Course may be repeated once. Prerequisites: Junior standing, or permission of instructor. (3+0)

RUSS F105  
Introduction to Rural Nutrition Counseling  
2 Credits  
Offered As Demand Warrants  
Identification and exploration of issues relevant to rural nutrition counseling services with focus on development of understanding and skills necessary for the effective delivery of culturally competent services. Opportunities for development of basic rural nutrition counseling skills with emphasis on integration of Alaska Native values and principles; and strategies that facilitate positive individual, family and community wellness through healthy lifestyle choices. Prerequisites: RNS F105 or permission of instructor. Recommended: RNS F120. (0+0)

RNS F250  
Current Topics in Rural Nutrition Services  
1 – 3 Credits  
Various topics of current interest to students studying rural Alaskan community-based nutrition, behavioral health and health services. Topics announced prior to each offering and course may be repeated for credit. (0+0)

RNS F250P  
Current Topics in Rural Nutrition Services  
1 – 3 Credits  
Various topics of current interest to students studying rural Alaskan community-based nutrition, behavioral health and health services. Topics announced prior to each offering and course may be repeated for credit. Graded Pass/Fail. (0+0)

RNS F260  
Rural Nutrition Practicum  
2 – 3 Credits  
Offered As Demand Warrants  
Provides students a supervised, community-based learning experience as they apply information from the RNS curriculum to nutrition outreach/extension. Focus is on the integration of nutrition science information with development of understanding and skills to provide culturally relevant community outreach/extension to rural Alaskan communities. Prerequisites: RNS F105. Co-requisite: RNS F201. Recommended: RNS F120. (0+0)
RUSS F488 Individual Study: Senior Project (h)
3 Credits Offered As Demand Warrants
Analysis and presentation, in the language, of a problem chosen by the student in consultation with the department. The student must apply for senior project and submit a project outline by the end of the sixth week of the semester preceding the semester of graduation. Conducted in Russian. Prerequisites: At least 10 credits in upper division Russian or permission of instructor. (3+0)

SCIENCE APPLICATIONS

SCIA F105 Field Biology
2 Credits Offered Summer
Students will learn some of the techniques that are employed by wildlife biologists to study plants, fish and animals in the field and establish use of the scientific method through a student research project. (20+20)

SCIA F150 Subarctic Horticulture
1 Credit Offered As Demand Warrants
Soils, plant propagation, disease and insect control, variety selection, fertilization, greenhouse construction and care and gardening techniques. Emphasis on development and care of greenhouses and gardens in the Nome area. (0+3)

SCIA F157 Alaska Plants ♦
1 Credit Offered As Demand Warrants
Introduction to the topics of plant taxonomy and identification with specific reference to common Alaskan plants and vegetation types. (1+0)

SCIA F161 Birds of Alaska ♦
1 Credit Offered As Demand Warrants
Biology of birds including behavior, anatomy, physiology, ecology, systematics and field identification. (1+0)

SCIA F162 Mammals of Alaska ♦
1 Credit Offered As Demand Warrants
Introduction to the mammals of Alaska and their importance to the local ecology and economy from a scientific research standpoint. Emphasis on important and/or common species for study of classification, habitat, life cycle and economic importance. Prerequisites: Background or interest in general science or natural history or permission of instructor. (1+0)

SOCIAL WORK

SWK F103 Introduction to Social Work (s)
3 Credits
Introduction to the profession of social work and the human services delivery system. Examines historical development of social work focusing on the knowledge, values and skills that characterize the social worker. Orientation to the context for social work, including the diversity of human needs, human services, social policy and legislation. Services, programs, and career opportunities within rural and urban Alaska, as well as nationally, are discussed. (3+0)

SWK F220 Ethics, Values and Social Work Practice (s)
3 Credits
The professional nature and meaning of generalist social work practice. Examines the NASW code of ethics. Introduces interpersonal communication and interviewing. Assists students in making decisions about social work or other helping professions. Prerequisites: SWK F103 or permission of instructor. (3+0)

SWK F305 O Social Welfare History (s)
3 Credits Offered Fall
Analysis of social inequality and the U.S. social welfare system by tracing the historical development of government response to social inequality and exploring historical and persisting dilemmas in the provision of social welfare services. Prerequisites: COMM F131X or COMM F141X; SWK F103 or SOC/ANTH F100X. (3+0)

SWK F306 Social Welfare: Policies and Issues
3 Credits Offered Spring
Social policies and how they effect the delivery of social services. Factors influencing development of the current social service system. Analysis of dilemmas which develop in a welfare system attempting to deal with rapid social change. Alternative approaches to the solution of social problems and possible future developments. Prerequisites: ANTH F100X or SOC F100X or SWK F103. (3+0)

SWK F320 W Rural Social Work ♦
3 Credits Offered Spring
Preparation for practice in rural areas characterized by the need for multiple delivery systems, unique local customs and inadequate resources. Emphasis on preparation for practice nationally with unique features of Alaska incorporated at key points. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; SWK F103. (3+0)

SWK F330 Seminar in International Social Work
3 Credits Offered Fall
International issues related to social work practice and social welfare policy. The focus of the seminar will be on global and international issues related to social and economic justice, distributive justice, and human and civil rights. Specific content is announced at registration. Course may be repeated once for credit when content varies. Prerequisites: SWK F103 or permission of instructor. (3+0)

SWK F341 Human Behavior in the Social Environment I (s)
3 Credits Offered Fall
Theoretical frameworks for organizing knowledge about personality development, social behavior and the organization of groups and communities. An emphasis is placed on the bio-psycho-social perspective of human development from birth through adolescence. Prerequisites: PSY F101; SOC/ANTH F100X; SWK F103. (3+0)

SWK F342 Human Behavior in the Social Environment II
3 Credits Offered Spring
Theoretical frameworks for organizing knowledge, personality development, social behavior and the organization of groups and communities. An emphasis is placed on the bio-psycho-social of human development young adulthood through later life. Prerequisites: PSY F101; SOC/ANTH F100X; SWK F103; social work major. (3+0)

SWK F350 W Women's Issues in Social Welfare and Social Work Practices (s)
3 Credits
Examination of theories and research concerning women's issues in the field of social work and in the social welfare system, with particular emphasis on women in poverty and women of color. Contemporary policy issues and strategies of empowerment will be covered. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; SWK F103 or SOC F100X; or permission of instructor. Cross-listed with WGS F350. (3+0)

SWK F360 Child Abuse and Neglect
3 Credits Offered Spring
Dynamics, implications and treatments of child abuse and neglect for individuals and families in rural and urban Alaska. Prerequisites: Sophomore standing or permission of instructor. (3+0)

SWK F370 Services and Support for an Aging Society (s)
3 Credits Offered As Demand Warrants
An examination of the aging process, theories, political processes, social work generalist intervention and strategies and agency support for the aging population. The rapidly changing social and health issues of older adults are addressed in a multi-disciplinary and multi-cultural approach. (3+0)
SWK F375 W  Research Methods in Social Work 3 Credits  Offered Fall
Course has a two-fold objective: to help students become critical consumers of research in the social sciences and to allow students to carry out beginning research studies. Course sequentially covers phases of the research process, whether quantitative or qualitative. Prerequisites: ENGL 111X, ENGL 211X or ENGL 213X, SWK F103, or permission of instructor. (3+0)

SWK F440  Social Work Practice with Military Families 3 Credits
Explores the history and roles of social work with military families. Ethical concerns that emerge from social work practice with military families are addressed. Military social workers' roles in mental health programs, family advocacy, program administration, and policy making are examined. Addresses the issues that affect military families during times of deployment. Prerequisites: SWK F220; or permission of instructor. (3+0)

SWK F460  Social Work Practice I 3 Credits  Offered Fall
Development of beginning skills in interviewing and helping processes with individuals, families and groups. Application of intervention strategies and techniques made to case materials, primarily in family and child welfare services. Contracting, case management and social brokerage. Prerequisites: Concurrent enrollment in SWK F461; Social Work major; senior standing. (3+0)

SWK F461  Practicum in Social Work I 3 or 6 Credits  Offered Fall
Individual training and practice in a social service agency. Students signing up for 3 credits complete 100 hours; students signing up for 6 credits complete 200 hours of direct practice in an approved agency under the supervision of a field instructor. Prerequisites: Social Work major, senior standing; approval from practicum coordinator. (1+7 or 15)

SWK F463  Social Work Practice II 3 Credits  Offered Spring
Further development of student's knowledge of direct practice with clients and development of beginning skills in community work including social planning. Emphasis on aspects of rural practice such as use of community associations and the informal helping network. Taken concurrently with SWK F464. Prerequisites: Social work major, senior standing, and concurrent enrollment in SWK F464. (3+0)

SWK F464  Practicum in Social Work II 3 or 6 Credits  Offered Spring
Continuation of SWK F461; further direct practice experience in an agency. Students signing up for 3 credits complete 100 hours; students signing up for 6 credits complete 200 hours of practice in an approved agency under the supervision of a field instructor. Taken concurrently with SWK F463. Prerequisites: SWK F460; SWK F461; Social Work major; senior standing. (1+7 or 15)

SWK F466  Practicum in Social Work II 3 or 6 Credits
Further direct practice experience in an approved agency under the supervision of a field instructor. Students enrolled in 3 credits must complete 100 hours of practicum. Students enrolled in 6 credits must complete 200 hours of practicum. Prerequisites: SWK F460; SWK F461; SWK F463; SWK F464; Social Work major; senior standing. (0+7 or 15)

SWK F470  Substance Abuse Theories and Treatment (s) 3 Credits  Offered As Demand Warrants
Examination of research and theories of chemical dependency from a social work, systems/ecological framework. Critically examines current theory and practice in terms of effectiveness, cultural appropriateness and validity with vulnerable populations. Prerequisites: SWK F103 or permission of instructor. (3+0)

SWK F484  Seminar in Social Work Practice Areas 3 Credits  Offered As Demand Warrants
Problem areas in social work. Topics vary in different semesters, content announced in class schedule prior to each semester. Course may be repeated for credit when topic varies. Prerequisites: SWK F103 or permission of instructor. (3+0)

SOC F100X  Individual, Society and Culture (s) 3 Credits
An examination of the complex social arrangements guiding individual behavior and common human concerns in contrasting cultural contexts. Also available via e-Learning and Distance Education. Prerequisites: Placement in ENGL F111X or higher; or permission of instructor. (3+0)

SOC F201  Social Problems (s) 3 Credits  Offered Fall
A study of major contemporary social problems, analysis of factors causing these problems. Emphasis on cross-cultural differences in Alaska and other parts of the world. (3+0)

SOC F202  Sociology of Popular Culture (s) 3 Credits  Offered Spring Even-numbered Years
A critical examination of contemporary popular culture in sociological perspective. Introduces debates in the field of cultural sociology with special emphasis on the creation, distribution, consumption, and social impact of popular culture. Themes in course content will vary by semester including popular performances, leisure and entertainment, mass media, humor, food, and fashion. Recommended: SOC F100X. (3+0)

SOC F242  The Family: A Cross-Cultural Perspective (s) 3 Credits
Analysis of conceptual frameworks in family research, and a cross-cultural comparison of variations in family and kinship structures, both past and present. Examination of contemporary developments in family forms, the dynamic roles and patterns of relationships, and links with other social institutions. Emphasis on how social forces such as gender, race, ethnicity and social class shape the family and experiences of family life. Also available via e-Learning and Distance Education some semesters. Prerequisites: SOC F100X or permission of instructor. (3+0)

SOC F250  Introductory Statistics for Behavioral Sciences 3 Credits  Offered Spring
Statistics applied to social scientific topics. Includes descriptive statistics, frequency distributions, sampling distributions, elementary probability, estimation of population parameters, hypothesis testing (one and two sample problems), correlation, simple linear regression and one-way analysis of variance. Also available via e-Learning and Distance Education some semesters. Prerequisites: MATH F107X or MATH F103X or MATH F200X. Cross-listed with PSY F250. (3+0)

SOC F263  Social Inequality and Stratification (s) 3 Credits  Offered Spring
Comprehensive analysis of current sociological debates and diverse theoretical approaches used to address social stratification and inequality. Examines the various dimensions of inequality, including those related to race, class and gender at the local, national and global levels. Prerequisites: SOC F100X and SOC F201 or permission of instructor. (3+0)

SOC F301  Rural Sociology (s) 3 Credits  Offered As Demand Warrants
Analysis of sociological issues using rural communities and rurality as examples. Emphasis on issues of social justice and inequality. Part of focus is on rural communities of Alaska and the North. Prerequisites: One lower division social science course. (3+0)

UNIVERSITY OF ALASKA FAIRBANKS

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.

SOCIOLOGY
SOC F303 Early Sociological Thought (s) 3 Credits Offered Spring
The major sociological theories of the classical period (19th and early 20th centuries) that have influenced contemporary sociology. Prerequisites: SOC F100X; SOC F201; SOC F263. (3+0)

SOC F308 Race and Ethnic Relations (s) 3 Credits Offered Fall
A sociological analysis of the principles and processes that shape relationships among racial and ethnic groups in Alaska, the U.S. and elsewhere in the world. Focus on the relations among dominant and subordinate groups in these societies, using sociological theory to understand the structural factors that shape intergroup relations. Prerequisites: SOC F100X; SOC F201; SOC F263. (3+0)

SOC F310 Sociology of Aging (s) 3 Credits
A sociological analysis of the process of aging in the U.S., Alaska and globally, with special attention on structural inequality and social justice issues. Also available via e-Learning and Distance Education some semesters. Prerequisites: SOC F100X; junior standing or permission of instructor. (3+0)

SOC F320 Sociology of Gender (s) 3 Credits
Comprehensive survey of sociological inquiry and feminist revisions for studying gender in U.S. society and culture. Interrogates the meanings of gender and the interactional, cultural, organizational and institutional arrangements that underlie the social construction of gender and gender inequality. Prerequisites: One lower-division social science course; WGS F201; or permission of instructor. Cross-listed with WGS F320. (3+0)

SOC F330 Social Psychology (s) 3 Credits Offered Spring
Analysis of intergroup relationships in terms of process and value orientation, their influences on the personality, and aspects of collective behavior on group and person. Aspects of social interaction that have cultural and intercultural variation. Prerequisites: PSY F101 or SOC F100X. Cross-listed with PSY F330. (3+0)

SOC F333 Human Sexualities Across Cultures (s) 3 Credits Offered Fall Odd-numbered Years
Exploration of how people in a variety of cultures, both contemporary and historical, construct the meaning and experience of sexuality, and express themselves as sexual beings. Interdisciplinary study includes psychology, sociology, anthropology, gender studies, and related fields, with particular focus determined by which department is offering the course. Also available via e-Learning and Distance Education. Prerequisites: SOC F100X or SOC F201 or PSY F101 or WGS F201 or permission of instructor. Cross-listed with PSY F333; WGS F332. (3+0)

SOC F335 Deviance and Social Control (s) 3 Credits Offered Fall Odd-numbered Years
Analysis of classical and contemporary theoretical perspectives used to understand, explain and control criminal and non-criminal forms of deviance. Emphasis on the social dimensions of the creation of deviant categories and persons, the consequence of societal reactions to selected forms of deviance, and implications for social policy (prevention) and social control (corrections). Prerequisites: SOC F100X; SOC F201; or permission of instructor. (3+0)

SOC F340 Sociology of Education (s) 3 Credits Offered Fall Odd-numbered Years
Theoretical perspectives on various dimensions of the relationship between education and society, including the institutional context of schooling, the impact of schooling on social stratification, and social organization within the school and classroom. Special attention is given to issues of equity and contemporary educational reform efforts. Prerequisites: SOC F100X or permission of instructor. Cross-listed with ED F345. (3+0)

SOC F350 W Sociology of Childhood (s) 3 Credits Offered Fall Even-numbered Years
Concepts, theories and empirical research in the sociology of childhood. Broad themes include social structure and its consequences for children's lives, children's agencies, and the diversity of childhood experiences. Includes an overview of the problems children face, and recommendations for solutions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. (3+0)

SOC F373 W Research Methods in the Social Sciences (s) 3 Credits Offered Fall
Course helps students become critical consumers of research in the social sciences and enables them to develop research proposals. The course covers phases of the research process, which comprises problem formulation, research designs, conceptualization, sampling and ethical issues. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; SOC F100X; SOC F201; SOC F263. (3+0)

SOC F405 O Social Movements and Social Change (s) 3 Credits Offered Spring
Focus on collective behavior, social change and social movements at the local, national and global levels. Analysis will include historical, technological and legal implications of large-scale social change. Prerequisites: COMM F131X or COMM F141X; SOC F100X; SOC F201; SOC F263 and 3 credits of SOC at the F300-level; or permission of instructor. (3+0)

SOC F407 O Work and Occupations (s) 3 Credits Offered As Demand Warrants
The sociology of work and occupations. Local, regional, national and global industries, work sites and workers will be examined, using sociological theories and concepts. Analysis includes structural issues of inequality in employment practices and work sites. Prerequisite: COMM F131X or COMM F141X; SOC F100X; SOC F201; SOC F263; 3 credits in SOC at the F300-level. (3+0)

SOC F435 Sociology of Law (s) 3 Credits
Addresses the social nature of legal decision-making, the social context of law and the reciprocal relations between law, society and justice. Explores how race, class and gender are implicated in the law, and the role of law in social control, in social change and in our everyday lives. Prerequisites: SOC F100X; junior standing; or permission of instructor. Recommended: SOC F303. (3+0)

SOC F440 O Environmental Sociology (s) 3 Credits
Course considers how political, social and economic factors have come to shape human patterns of interaction with the natural environment. Provides a sociological perspective on environmental problems such as environment and health, disaster, environmental policy, environmental risk, sustainability, human and animal interactions, environmental justice and social movements. Prerequisites: COMM F131X or COMM F141X; SOC F100X; SOC F201; SOC F263; 3 credits in SOC at the F300-level; or permission of instructor. (3+0)

SOC F460 Global Issues in Sociological Perspective (s) 3 Credits
A sociological analysis of global issues, with different overarching themes depending on world events and the research interests of the instructor. Issues of global social justice and inequality are explored, and sociological and other theories are applied. Prerequisites: One lower social science course; junior standing or permission of instructor. (3+0)

SOC F480 W Qualitative Social Science Research (s) 3 Credits Offered Spring Odd-numbered Years
Introduction to classical and contemporary research within the qualitative (or interpretive) paradigm of social science. Discusses the theoretical frameworks, historical traditions, epistemological and ethical issues of qualitative approaches. Uses hands-on experience in the practicalities and excitement of a variety of methods for gathering qualitative data and
conducting qualitative analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; one lower-division social science research methods course; or permission of instructor. Cross-listed with PSY F480. (3+0)

SOC F490 Capstone Seminar (s) 3 Credits Offered Spring Review of the discipline of sociology with a focus on the theoretical perspectives and methodological tools of the discipline, key substantive issues in the field and the role of sociology in contemporary society. Prerequisites: SOC F303; SOC F373; Sociology major with senior standing; or permission of instructor. (3+0)

SOFTWARE ENGINEERING

SWE F471 W Software Engineering (m) 3 Credits Offered Fall Introduction to basic software engineering principles, techniques, methods and standards as applied to the engineering of complex software systems. Topics from software system development process models, multiple view system modeling and specification using UML, classification of software systems, project management and legal issues. Prerequisites: Graduate Standing. Cross-listed with CS F471. (3+0)

SWE F670 Computer Science for Software Engineers 3 Credits An overview and survey of the theoretical underpinnings of computer science. Topics are taken from the areas of algorithms and data structures; computer architecture; computer networks, communications and operating systems; computability and formal languages; languages and compilation. Also available via e-Learning and Distance Education. Prerequisites: Graduate Standing. Cross-listed with CS F670. (3+0)

SWE F671 Advanced Software Engineering 3 Credits Offered Spring Advanced software development as an engineering discipline. Includes investigation of current tools, standards, foundation and trends in software engineering, from component-wise, software system composition, e-systems, software architecture and CASE tools. Prerequisites: SWE F471. Cross-listed with CS F671. (3+0)

SWE F672 Software Process Improvement 3 Credits Offered Spring Odd-numbered Years Commonly applied methods for improving the software development process. Emphasis on the Software Engineering Institute’s capability maturity model, and specifically on the key process areas of level 2 and level 3 of that model. These include software standards. Prerequisites: SWE F671 or permission of instructor. Cross-listed with CS F672. (3+0)

SWE F673 Software Requirements Engineering 3 Credits Offered As Demand Warrants Focus on the requirements analysis phase of the software development life cycle. Ways to obtain, analyze and specify complete and correct sets of requirements. Critique of selected requirements analysis models. Study of current large scale software developments that have failed or are failing. Development of software requirements specifications for large and real software systems via team efforts. Also available via e-Learning and Distance Education. Prerequisites: SWE F671 or permission of instructor. Cross-listed with CS F673. (3+0)

SWE F674 Software Architecture 3 Credits Offered Spring Software architectural styles are introduced and defined as structural descriptions of software systems. Methods for constructing and binding software systems are introduced and specified as operational views. The architectural approach, as a classical engineering method for describing structure and behavior of technical artifacts, will be applied for the composition of software systems. Prerequisites: SWE F671. Cross-listed with CS F674. (3+0)

SWE F690 Graduate Seminar and Project 1 – 6 Credits Offered Fall First semester of a two-semester seminar in which students will, individually or in teams, work on and present the results of major programming or literature survey projects in computer science and software engineering. Written and oral reports will be required. Graded Pass/Fail. Prerequisites: 12 credits in graduate CS or SWE courses or permission of Computer Science or Software Engineering graduate advisor. Cross-listed with CS F690. (1 – 6+0)

SWE F691 Graduate Seminar and Project 3 Credits Offered Spring Second semester of a two-semester seminar in which students will, individually or in teams, work on and present the results of major programming or literature survey projects in computer science. Written and oral reports will be required. Graded Pass/Fail. Prerequisites: SWE F690, 12 credits in graduate CS or SWE courses; or permission of Computer Science or Software Engineering graduate advisor. Cross-listed with CS F691. (3+0)

SPANISH

SPAN F100A Elementary Spanish 1A (h) 3 Credits Offered As Demand Warrants Spanish language and culture with an emphasis on spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. (3+0)

SPAN F100B Elementary Spanish 1B (h) 3 Credits Offered As Demand Warrants Spanish language and culture with an emphasis on spoken and written language. Does not meet Perspectives on the Human Condition requirements, or Foreign Language major or minor requirements. Prerequisites: SPAN F100A; or permission of instructor. (3+0)

SPAN F101 Elementary Spanish 1 (h) 5 Credits Offered Fall Introduction to the language and culture: development of competence and performance in the language through understanding, recognition and use of linguistic structures; increasing emphasis on listening comprehension and speaking; basic vocabulary of approximately 1,000 words; exploration of the cultural dimension, implicitly through language and explicitly through texts and audiovisual materials. (5+0)

SPAN F102 Elementary Spanish 2 (h) 5 Credits Offered Spring Introduction to the language and culture: development of competence and performance in the language through understanding, recognition and use of linguistic structures; increasing emphasis on listening comprehension and speaking; basic vocabulary of approximately 1,000 words; exploration of the cultural dimension, implicitly through language and explicitly through texts and audiovisual materials. Prerequisites: SPAN F101; or SPAN F100A and SPAN F100B; or the equivalent. (5+0)

SPAN F103 Conversational Spanish 1 (h) 3 Credits Offered Fall, Summer, As Demand Warrants Verbal skills improvement. Includes role playing, problem solving and situational conversation. Conducted entirely in Spanish. Note: Does not satisfy core curriculum or foreign language major requirements. Graded Pass/Fail. Prerequisites: SPAN F100A and SPAN F100B; or Span F101; or permission of instructor. (3+0)

STAT F454  Statistical Consulting Seminar  
1 Credit   Offered Spring  
Introduction to statistical consulting and data analysis. Emphasis on interaction with researchers and identification of scientific and statistical issues relevant to the research problem. Includes regular class meetings as well as supervised meetings with researchers. Designed to combine mathematical statistics with applications from a variety of fields. Students from any field of study with strong quantitative skills are encouraged to enroll. Graded Pass/Fail. Prerequisites: STAT F200X or STAT F300; STAT F401; and completion or concurrent enrollment in MATH F408; or permission of instructor. Stacked with STAT F654. (3+0)

STAT F461  Applied Multivariate Statistics (m)  
3 Credits   Offered Spring Even-numbered Years  
Estimation and hypothesis testing, multivariate normality and its assessment, multivariate one and two sample tests, confidence regions, multivariate analysis of variance, discrimination and classification, principal components, factor analysis, clustering techniques and graphical presentation. Statistical computing packages utilized in assignments. Prerequisites: STAT F401 or permission of instructor. (3+0)

STAT F602  Experimental Design  
3 Credits   Offered Fall Even-numbered Years  
Constructing and analyzing designs for experimental investigations; completely randomized, randomized block and Latin-square designs, split-plot design, incomplete block design, confounded factorial designs, nested designs, treatment of missing data, comparison of designs. Prerequisites: STAT F401 or permission of instructor. (3+0)

STAT F605  Spatial Statistics  
3 Credits   Offered Spring Even-numbered Years  
Stochastic processes and variograms. Geostatistics including kriging and spatial design of experiments. Point processes including model selection and K-functions. Lattice process models and image analysis. Computer-intensive statistical methods. Prerequisites: STAT F401; MATH F200X-F202X or equivalent; or permission of instructor. (3+0)

STAT F611  Time Series  
3 Credits   Offered Spring Odd-numbered Years  
An applied course in time series and repeated measure analysis. Autoregression and moving average models. Estimation of parameters and tests. Prediction. Spectral analysis. Analysis of repeated measures data. Prerequisites: STAT F401 or permission of instructor. (3+0)

STAT F621  Distribution-Free Statistics  
3 Credits   Offered Fall Odd-numbered Years  
Methods for distribution-free (nonparametric) statistical estimation and testing. These methods apply to many practical situations including small samples and non-Gaussian error structures. Univariate, bivariate, and multivariate tests will be presented and illustrated using a variety of applications and data sets. Prerequisites: STAT F200X [STAT S273-J]. (3+0)

STAT F631  Categorical Data Analysis  
3 Credits   Offered Fall Odd-numbered Years  
Statistical methods designed for count and categorical data. Contingency tables. Logistic and related models. Loglinear models. Repeated categorical responses. Survival data. Prerequisites: STAT F401 or permission of instructor. (3+0)

STAT F641  Bayesian Statistics  
3 Credits   Offered Fall Even-numbered Years  
Bayes' Rule, univariate Bayesian models, conjugate models and noninformative priors. Multivariate models. Hierarchical models, general linear model and mixed models. Study of posterior simulation techniques including Markov Chain Monte Carlo and the Gibbs Sampler. Will involve analysis of data sets using WinBUGS and R. Prerequisites: MATH F201X; MATH F371-F408 or STAT F651; or permission of instructor. (3+0)

STAT F642  Bayesian Decision Theory for Resource Management  
4 Credits   Offered Spring Even-numbered Years  
Application of decision theory to problems in natural resources management. Students will learn to perform Bayesian calculations and uncomplicated decision analysis themselves. Prerequisites: FISH F621 of FISH F630; or permission of instructor. Cross-listed with FISH F642. (2+2)

STAT F651  Statistical Theory I  
3 Credits   Offered Fall  
Probability and distribution of random variables. Conditional probability and stochastic independence. Distributions of functions of random variables. Expected values. Limiting distributions. Distributions derived from the normal distribution. Designed to combine mathematical statistics with applications from a variety of fields. Students from any field of study with strong quantitative skills are encouraged to enroll. Prerequisites: MATH F202X; MATH F314; previous statistics course; or permission of instructor. (3+0)

STAT F652  Statistical Theory II  
4 Credits   Offered Spring Odd-numbered Years  
Estimation of parameters. Efficiency and sufficiency. Hypothesis testing. The Neyman-Pearson paradigm and likelihood ratio tests. Data summaries. Bootstrap. Comparison of two samples. Linear least squares. Analysis of categorical data. Bayesian inference. Designed to combine mathematical statistics with applications from a variety of fields. Students from any field of study with strong quantitative skills are encouraged to enroll. Prerequisites: STAT F651. (4+0)

STAT F653  Statistical Theory III — Linear Models  
3 Credits   Offered Spring Even-numbered Years  
Best linear unbiased estimation, Gauss-Markov theory and applications, maximum likelihood estimation for linear models, multivariate normal distributions, linear regression and analysis of variance, weighted regression, robust and nonlinear regression, logistic regression, Poisson regression, autoregressive models and the General Linear Model. Designed to combine mathematical statistics with applications from a variety of fields. Students from any field of study with strong quantitative skills are encouraged to enroll. Prerequisites: STAT F651 or STAT F401; MATH F202X; MATH F201X; MATH F202X; MATH F314. (3+0)

STAT F654  Statistical Consulting Seminar  
1 Credit   Offered Spring  
Introduction to statistical consulting and data analysis. Emphasis on interaction with researchers and identification of scientific and statistical issues relevant to the research problem. Includes regular class meetings as well as supervised meetings with researchers. Designed to combine mathematical statistics with applications from a variety of fields. Students from any field of study with strong quantitative skills are encouraged to enroll. May be repeated for a total of three credits. Graded Pass/Fail. Prerequisites: STAT F200X or STAT F300; STAT F401; and completion or concurrent enrollment in MATH F408; or permission of instructor. Stacked with STAT F654. (3+0)

STAT F661  Sampling Theory  
3 Credits   Offered Juneau As Demand Warrants  
Statistical theory for sampling and sample surveys. Choice of method, power and sample size considerations, treatment of sampling and non-sampling biases. Sampling methods based on detectability. Adaptive sampling, Spatial sampling, Mark and capture methods. The jackknife, the bootstrap and resampling plans. Prerequisites: STAT F200X [STAT S273-J]; STAT F401; or permission of instructor. (3+0)
### THEATRE (THR)

</tr>
</tbody>
</table>
| THR F130N   | Middle Eastern Dance                              | 1         | Offered As Demand Warrants

Designed for students with some or no background in Middle Eastern dance or anyone who wants to refine their technique and gain a deeper understanding of the different styles, history and evolution of Middle Eastern dance from social dance to performance art. Majority of semester will focus on basic dance vocabulary and choreography as well as dancing with props such as veils and finger cymbals. Graded Pass/Fail. Cross-listed with RECR F130N. (0+3) |
| THR F130Q   | Beginning Hip Hop                                | 1         | Offered As Demand Warrants

Introduction to basic movements and terminology of hip hop dances and associated body movements. Students will gain these principles and an ability to execute maneuvers presented in class. Graded Pass/Fail. Cross-listed with RECR F130Q. (0+3) |
| THR F130R   | Beginning Break Dance                             | 1         | Offered Fall

Introduction to basic movements and terminology of break dancing, and an understanding of associated body movements. Students will gain an understanding of these principles and an ability to execute maneuvers presented in class. Graded Pass/Fail. Cross-listed with RECR F130R. (0+3) |
| THR F161    | Introduction to Alaska Native Performance (h)     | 3         | Offered As Demand Warrants

For Native and non-Native students with no prior acting or theatre experience. Includes both academic and practical components to examine traditional Alaska Native theatre, mythology, ritual, ceremony and performance methods. Application of exercises and developmental scenes drawn from Alaska Native heritage. Cross-listed with ANS F161. (2+3) |
| THR F172    | Previsualization and Preproduction for Digital Cinema (h) | 3         | Offered Spring Even-numbered Years

Previsualization is a collaborative process that generates preliminary versions of shots or sequences, predominantly using 3D animation tools and a virtual environment. It enables filmmakers to visually explore creative ideas, plan technical solutions and communicate a shared vision for efficient production. Laying a foundation for cinema production, this course will explore screenwriting, storyboard, previsualization animation, animatics and film pre-production approaches. This course will focus on developing original stories for animation or dramatic film productions and preparing those concepts for cinematic production. Cross-listed with FLM F172 and ART F172. (3+0) |
THR F190  Audition or Portfolio Review Participation  
0 Credits  
Theatre majors are required to participate in auditions and/or portfolio reviews every semester. Theatre majors are also expected to attend all Theatre UAF productions (tickets are provided free) and to attend all theatre department “town” meetings. Graded Pass/Fail. (0+0)

THR F191  Audition or Portfolio Review Participation  
0 Credits  
Theatre majors are required to participate in auditions and/or portfolio reviews every semester. Theatre majors are also expected to attend all Theatre UAF productions (tickets are provided free) and to attend all theatre department “town” meetings. Graded Pass/Fail. (0+0)

THR F200X  Aesthetic Appreciation: Interrelation of Art, Drama and Music  
3 Credits  
Understanding and appreciation of art, drama and music through an exploration of their relationships. Topics include the creative process, structure, cultural application and diversity, the role of the artist in society, and popular movements and trends. Prerequisites: Placement in ENGL F111X or higher; sophomore standing; or permission of instructor. Cross-listed with ART F200X; MUS F200X. (3+0)

THR F215  Dramatic Literature  
3 Credits  
Reading, analyzing, and categorizing plays as maps for theatrical production. Students will be exposed to a broad range of plays from the classical and contemporary Western canon. Established theories and critical writings about the structure of plays will be explored and discussed to facilitate understanding of dramatic structure and drama- turgy. Prerequisites: ENGL F111X or concurrent enrollment, or permission of instructor. (3+0)

THR F220  Voice and Speech for the Actor  
3 Credits  
Vocal training for actors through introduction to Fitzmaurice and Linklater techniques. Course will include basic vocal anatomy, introduction to the International Phonetic Alphabet and monologue performance. Special fees apply. Prerequisites: THR F121 or permission of instructor. (2+2)

THR F221  Acting II  
3 Credits  
Continued development of physical, emotional and imaginative awareness. This is a scene study class with emphasis on naturalistic modern material. Prerequisites: THR F121 and THR F215; or permission of instructor. (1+4)

THR F225  Movement for the Actor  
3 Credits  
Introduces principles of stage movement for actors. Attention will be paid to physical exercise, relaxation, centering and expressing creative impulse. Course will include introduction to the contact improvisation technique, clowning, stage combat, physical character development and scene work. Special fees apply. Prerequisites: THR F121. (1+4)

THR F235  The Collaborative Process  
3 Credits  
Offered Spring Even-numbered Years  
Interactive role-based course providing insight, practice and theory in the process of collaboration across specialties when foraging a theatrical production. Hierarchical and consensus-based models for artistic collaboration will be introduced and discussed in light of artistic concept, resource allocation, production budgets and individual personalities and temperaments inherent in the field of theatrical production, with an emphasis on a best-practice approach in the field. Students will incur additional expenses of $50 - $100 for supplies and theatre tickets. Prerequisites: THR F215 (3+0)

THR F241  Basic Stagecraft  
4 Credits  
Materials of scene construction, painting, lighting design and their use, safe use of standard construction tools, fundamentals of theatre drafting. Theatre majors are encouraged to fulfill this requirement by their junior year. Special fees apply. (2+3)

THR F245  Stage and Film Production Management  
3 Credits  
Define and develop organizational skills to be a successful stage or film production manager. Creation of a prompt script including all forms and schedules necessary, working with actors, directors and designers. Creation of film production schedules, call sheets, shooting scripts, location management, and union requirements. Cross-listed with FLM F245. (3+0)

THR F247  Introduction to Theatrical Design  
3 Credits  
Introduction to all the design elements used in the theatre. Analysis of line, texture, color, and how they relate to designing for the theatre including costumes, scenery and lighting. Cross-listed with ART F247. (3+0)

THR F254  Costume Construction  
3 Credits  
Offered Fall  
Introduction to basic methods of construction used by professional shops and costume houses to create theatrical costumes. Students will complete several projects, covering hand and machine sewing, cutting, fabric identification, simple alterations and costume crafts. Class also includes lectures on shop organization, jobs and policies. Special fees apply. (2+3)

THR F271  Let’s Make a Movie!  
3 Credits  
Offered Fall  
Produce a short dramatic video including concept and script development, basic camera and shooting techniques, working with actors, directing fundamentals, location scouting, production schedule development, basic non-linear editing techniques, and DVD authoring. Students do not need previous experience making movies to take this class. Special fees apply. Recommended: THR F121; THR F241. Cross-listed with FLM F271. (3+0)

THR F280  Modern Dance  
2 Credits  
Introduction to dance combines elements of modern, jazz and improvisational styles. Includes warm-up, stretches, locomotor movements (walking, running and leaping), set dance combinations, and improvisational activities. Specific readings, individual journals and informal dance presentations required. Open to all experience levels. (1.5+1.5)

THR F290  Audition or Portfolio Review Participation II  
0 Credits  
Theatre majors are required to participate in auditions and/or portfolio reviews every semester. Theatre majors are also expected to attend all Theatre UAF productions (tickets are provided free) and to attend all theatre department “town” meetings. Graded Pass/Fail. (0+0)

THR F291  Audition or Portfolio Review Participation II  
0 Credits  
Theatre majors are required to participate in auditions and/or portfolio reviews every semester. Theatre majors are also expected to attend all Theatre UAF productions (tickets are provided free) and to attend all theatre department “town” meetings. Graded Pass/Fail. (0+0)

THR F301  Theatre Practicum  
1 - 3 Credits  
Participation in drama workshop or lab production as performer or technical staff member. Credit in this course may not be applied to a major program in Theatre. (0+0)

</tbody>
</table>

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/titleIXcompliance/nondiscrimination.
THR F412 W  Theatre History II (h) 3 Credits
Theatrical form and practice from the English Restoration through the present. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

THR F413 W  Playscript Analysis (h) 3 Credits
Investigation of the structure of playscripts designed to develop skills in analysis and interpretation for performance. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

THR F416 W  Performance Studies Abroad (h) 6 Credits
Intensive course for actors, directors, designers, technicians and playwrights interested in script development/training with the participation of international theatre professionals. Develop new scripts and performances in a multicultural environment under the supervision of a theatre faculty member. Previous faculty and student work abroad includes: Russia, Zambia, South Africa and Scandinavia. Course requirements vary according to the project. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Stacked with NORS F616. (3+9)

THR F417  Internship in Theatre Practice 1 – 6 Credits Offered As Demand Warrants
Supervised practical work experience to provide application of course work in a professional, semi-professional or community theatre environment. Internships can be in direction, acting, design, management and technical theatre. Internships have included Peninsula Theatre, Fairbanks Shakespeare Theatre, Fairbanks Drama Association, and Out North Theatre. Course may be repeated twice for a maximum of 12 credits. Note: Internship must be arranged in coordination with advisor, student and host institution. Prerequisites: Completed at least 18 THR credits; upper-division standing; permission of instructor. Recommended: Previous THR credits should be in the student’s concentration area: direction, design, etc. (0+0)

THR F423  Acting IV (h) 3 Credits
Offered Spring Even-numbered Years
This course will focus on the refinement of physical, vocal, emotional, and imaginative awareness. This is a scene study class which will include audition technique, acting for the camera skills, and preparation for the professional world of acting. Prerequisites: THR F421, THR F415, THR F220, THR F221 and THR F321; or permission of instructor. (3+0)

THR F431  Advanced Film Production 3 Credits
Offered Spring Even-numbered Years
In depth investigation into the history, theory and concepts of film and video direction. Script preparation, storyboarding and animatics, blocking actors and staging the camera, sound design, special effects, and editing techniques will be explored. Each student will produce their own capstone film project. Prerequisites: FLM F273, FLM F331, FLM/JRN F290. Recommended: FLM F271, FLM F334. Cross-listed with FLM F431 (3+0)

THR F432  Stage Directing II (h) 3 Credits
Offered As Demand Warrants
In seminar and practicum form, the practice, discussion and analysis of the myriad responsibilities of the Stage Director. Aspects of Stage Direction that can be practiced within a class context will be given a practical frame for experimental learning. Other aspects will either be simulated or engaged in theoretically. Business practices and ethics will be addressed. An attempt will be made to accommodate the specific aesthetic and artistic goals of the participating students. Prerequisites: THR F332 and at least one of the following: THR F321, THR F343, THR F347, THR F351 or THR F356. (3+0)

THR F447  Lighting Design II (h) 3 Credits
Further exploration and application of elements of design (color, texture, intensity, line, composition) as they relate to lighting for theatre, dance, other art forms and life. Production work required. Prerequisites: THR F347 or permission of instructor. (2+2)

THR F456  Advanced Topics in Costume Design and Construction (h) 3 Credits
Rotating thematic topics in advanced methods and materials used in the design and construction of costumes for the theatre. Topics may include projects in design, advanced sewing and pattern drafting, millinery, masks, corsetry, or painting and dyeing, as demand warrants. May be repeated twice for credit. Special fees apply. Prerequisites: THR F254 or permission of instructor. (3+0)

THR F470  Advanced Film and Video Directing (h) 3 Credits
In depth investigation into the history, theory, basic concepts of film and video direction, script preparation, story board, blocking actors and staging the camera and sound, editing. Projects include directing and shooting short videos. Special fees apply. Recommended: THR F280 or movement performance experience. (1.5+1.5)

THR F482  Dance Performance (h) 2 Credits
Exploration and performance of expressive dance and movement. Includes development of an original choreography for public performance. Course is for advanced dance, acting and directing students with varying experience. Prerequisites: THR F280 or movement performance experience. (1.5+1.5)

THR F485  Edward Albee Prince William Sound Theatre Conference (h) 3 Credits
Intensive, practical theatre experience in new play development, workshops and readings. Offered in conjunction with the 10-day Edward Albee Prince William Sound Theatre Conference in Valdez, Alaska. Includes working with leading American playwrights and directors to develop new plays. (Student pays separate conference fee of about $150 directly to conference.) Prerequisites: Theatre experience or courses in any of the following areas: acting, directing, playwriting, dramaturgy and design; or permission of instructor. (1+6)

THR F488 W  Dramatic Writing (h) 3 Credits
Offered Even Alternate Fall
Introduction to the craft of dramatic writing for theater and film, with an emphasis on dramatic storytelling. Course will focus on giving students a practical understanding of the uses of story structure, setting, character, plot and dialog, and how these elements work together to create compelling drama. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; or permission of instructor. Cross-listed with ENGL F488, FLM F488. (3+0)

THR F499  Thesis Project (h) 3 Credits
Final step in acting/directing/design or playwright training which involves performing a leading role on main stage, or a one-person show, or a directing/designing/writing project for the UAF season. Prerequisites: Permission of instructor. (1+4)
TRAVES AND TECHNOLOGY (TTCH)

TRAVES AND TECHNOLOGY

TTCH F099 Practicum
1 – 3 Credits
Individual work and development of skills learned in prior courses. (0+0)

TTCH F101 Machine Woodworking I
2 Credits
Introduction to woodworking power machines (circular saw, jointer, radial arm saw), joints, fasteners, and different stains and finishes used on wood. (2+0)

TTCH F105 Basic Electrical Wiring
1 Credit
Fundamental skills and career opportunities in electrical wiring. (1+0)

TTCH F110 Basic Safety Training for Building Maintenance and Repair
2 Credits
How to care for tools and use them safely, properly and efficiently using HILTI standards, follow OSHA standards to maintain a safe workplace and identify unsafe workplace situations. These standards ensure safety in construction operations. Upon passing the HILTI and OSHA testing standards, certification will be given. (2+0)

TTCH F113 Basic Plumbing
3 Credits
Introduction to methods and materials used in household plumbing. Topics include pipe fittings and valves, pipe hangers and brackets, copper and plastic pipe fitting and plumbing fixtures. (3+0)

TTCH F117A Four-Cycle Engine Repair
1 Credit
Four-cycle engine theory and principles of operation. Classroom activities include step-by-step disassembly, inspection and assembly of a four-cycle engine. Graded Pass/Fail. (1+0)

TTCH F117B Two-Cycle Engine Repair
1 Credit
Two-cycle engine theory and principles of operation. Classroom activities include step-by-step disassembly, inspection and assembly as well as familiarization with tools used in small engine repair. Graded Pass/Fail. (1+0)

TTCH F120 Refrigeration and Air Conditioning
4 Credits
Fundamentals of refrigeration and air conditioning theory in preparation for further study. Topics include compressors, condensers, evaporators, metering devices and related components. Assumes no previous knowledge. (4+0)

TTCH F125 Introduction to Carpentry for Building Maintenance and Repair
3 Credits
Offered As Demand Warrants
Uses of lumber, commonly used hardware fasteners, types of tools and their uses, how to care for tools and use them safely, properly and efficiently. Building projects are completed which apply what was learned in the classroom. These skills are needed in maintenance positions in private businesses, schools and hospitals and in residential construction and renovation. (2+2)

TTCH F130 Blueprint and Schematic Reading
3 Credits
Basic blueprint and schematic reading skills used by building maintenance personnel. Introduction to machine drawings, building drawings, hydraulic and pneumatic drawings, electrical schematics and symbols, air conditioning and refrigeration drawings, welding and joining symbols. (3+0)

TTCH F131 Mathematics for the Trades
3 Credits
Practical application of mathematics for industry and preparation for union apprenticeship programs, including arithmetic review, ratios and proportion, powers and roots, algebra, geometry and trigonometry. Mathematical applications of basic physics with reference to units of measurement, use of precision measuring tools, measurement of forces, temperature, fluids and electricity. (3+0)

TTCH F132 Building Maintenance Materials
3 Credits
Basic properties, processes and uses of metals and non-metals in tools, machines and building materials. Practical application to building maintenance situations will be emphasized. (3+0)

TTCH F133 Basic Hand and Power Tools
3 Credits
Uses, care and maintenance of hand and power tools. Familiarity and skill development with these tools through construction of shop projects. (3+0)

TTCH F134 Maintenance Safety
1 Credit
Industrial safety including recognizing safety hazards, working safely, handling materials safely, using machinery safely, personal protective equipment, electrical safety, fire protection and government safety regulations. (1+0)

TTCH F138 Introduction to Electricity for Building Maintenance and Repair
2 Credits
Offered As Demand Warrants
Commonly used materials in the electrical trade. Provides basic understanding of the National Electrical Code, local codes and schematic drawings. Stresses safe installation and correct tool usage. Familiarity and skills are cultivated through projects. (1.5+2)

TTCH F140 Introduction to Plumbing for Building Maintenance and Repair
2 Credits
Basic plumbing materials that may be used in any plumbing system, how to use plumbing tools and completing selected projects. Includes using drawings to identify types of plumbing branches and bends, pipefittings, correct plumbing layout aids, and installation applications. (1.5+2)

TTCH F147 Burner Maintenance and Repair
1 Credit
Instruction in troubleshooting 10 common problems, reading manuals, changing parts, setting electrodes, changing nozzles, understanding controls and ordering replacement parts. (1+2)

TTCH F148 Heating Systems for Building Maintenance and Repair
2 Credits
Comprehensive instruction for people employed in installation and maintenance of heating systems. Installation and maintenance applications of fuel transfer, theories of combustion, nozzles, combustion chambers, heat exchangers, draft regulators, stacks, controls and sizing of systems. Recommended: TTCH F138. (1+1.5)

TTCH F150 Introduction to Painting for Building Maintenance and Repair
2 Credits
Surfaces and surface protection, sealants and fillers, paint categories and application tools. Hands-on projects are completed which apply skills learned in the classroom. These skills are needed in facility maintenance positions in businesses such as schools and hospitals, and in residential construction and renovation. (1+1.5)

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>TTCH F151</td>
<td>Hazardous Paint Certification</td>
<td>1</td>
<td>Potential health hazards and information on safety practices will be addressed. (1+0)</td>
</tr>
<tr>
<td>TTCH F214</td>
<td>Heating Systems Design</td>
<td>3</td>
<td>Comprehensive instruction in installation and systems approach to design of heating systems including installation procedures of current systems, heat loss calculation, heat distribution through hydronic and air systems, and boiler and furnace sizing. (3+0)</td>
</tr>
<tr>
<td>TTCH F225</td>
<td>Advanced Carpentry for Building Maintenance and Repair</td>
<td>3</td>
<td>Offered As Demand Warrants Expand carpentry skills in measuring, plan reading, site layout skills and working with elevations. Prerequisites: TTCH F125 or permission of instructor. (2+2)</td>
</tr>
<tr>
<td>TTCH F250</td>
<td>Advanced Painting for Building Maintenance and Repair</td>
<td>2</td>
<td>Proper methods for finishing, patching and spray painting drywall. Skills studied in the classroom will be developed in various projects. Prerequisites: TTCH F150 or permission of instructor. (1+2)</td>
</tr>
<tr>
<td>TTCH F282</td>
<td>Selected Topics in Process Unit Design</td>
<td>4</td>
<td>Hands-on execution and application of automated process designs as they evolve from ideas to implementation. Emphasis will be on the expanded study of the purpose, utilization and adaptation of tools, machines, materials and systems to the solutions of automated process unit design problems. Course may be repeated three times for credit. Special fees apply. Prerequisites: PRT F101; PRT F110; or permission of instructor. Recommended: PRT F130; PRT F140. (2+4)</td>
</tr>
<tr>
<td>TTCH F300</td>
<td>Internship in Technology</td>
<td>1 – 3</td>
<td>Supervised practical experience working with private industry, government units or agencies in technologies. Opportunities to apply theories and practical application and to observe procedures and operations of the businesses or agencies. May be repeated for a maximum of 9 credits. Graded Pass/Fail. Prerequisites: Upper-division standing and permission of instructor. (1+0)</td>
</tr>
<tr>
<td>TTCH F301</td>
<td>Technology and Society</td>
<td>3</td>
<td>Concepts of social change related to the effects of technology on society, and application of the concepts and processes of technology as they evolve from ideas to implementation. Emphasis on expanded study of the creation, use and adaptation of tools, machines, materials and systems to the solutions of problems and the extension of human potential. Available via Independent Learning. Prerequisites: Upper-division standing or permission of instructor. (3+0)</td>
</tr>
<tr>
<td>TTCH F485</td>
<td>Advanced Technical Experiences: Discipline Area</td>
<td>1 – 6</td>
<td>Formal technical upgrade training provided by various agencies, manufacturers, businesses or industries which are evaluated on an individual basis and must support the student's professional objectives. For Bachelor of Technology students only. The National Guide to Educational Credit for Training Programs will be used. Graded Pass/Fail. Prerequisites: Upper-division standing and permission of instructor. (1 – 6+0)</td>

**TRIBAL MANAGEMENT**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>TM F101</td>
<td>Introduction to Tribal Government</td>
<td>3</td>
<td>Comprehensive study of tribal government and politics in rural Alaska. Explores the differences and relationships among tribal, state and federal government. Presents key concepts for building and enhancing tribal government for building program and institutional development. Prerequisites: Must be familiar with computer and related word processing and spreadsheet programs. (3+0)</td>
</tr>
<tr>
<td>TM F103</td>
<td>Introduction to Tribal Finance Applications</td>
<td>3</td>
<td>Tools and methods for the management and oversight of tribal government programs and organizations in rural Alaska. Student evaluation includes how well the student affects changes in tribal operations and tribal management. Prerequisites: Must be familiar with computer and related word processing and spreadsheet programs. (3+0)</td>
</tr>
<tr>
<td>TM F110</td>
<td>Tribal Court Development for Alaska Tribes</td>
<td>1</td>
<td>An introduction to tribal court development in Alaska. Will focus on a practical understanding of key concepts for developing a tribal court process in rural Alaska. Will explore the differences and relationships between tribal, state, and federal justice systems, including concepts of jurisdiction and due process. Graded Pass/Fail. (1+0)</td>
</tr>
<tr>
<td>TM F111</td>
<td>Children's Topics in Tribal Justice</td>
<td>1</td>
<td>Offered As Demand Warrants Overview of children's cases in tribal justice. Preparation for informed participation in the tribal justice system as it affects children and families. Topics such as the Indian Child Welfare Act, child protection, child custody and tribal adoptions will be addressed. Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
<tr>
<td>TM F112</td>
<td>Federal Indian Law for Alaska Tribes</td>
<td>1</td>
<td>Offered As Demand Warrants Introduction to federal Indian law, focusing on the impacts to modern Alaskan tribal governments. Particular attention will be given to the relationship between federal Indian law and tribal justice systems in Alaska. Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
<tr>
<td>TM F113</td>
<td>Tribal Code Development</td>
<td>1</td>
<td>Offered As Demand Warrants Focuses on development of written tribal codes, including the importance of incorporating traditional unwritten laws and values into modern written codes. Particular attention will be given to the relationship between written tribal laws and tribal justice systems. Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
<tr>
<td>TM F114</td>
<td>Tribal Justice Responses to Community and Domestic Violence</td>
<td>1</td>
<td>Offered As Demand Warrants Focuses on role of the tribal justice system in responding to community and domestic violence, including the use of tribal protective orders under the federal Violence Against Women Act (VAWA). Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
<tr>
<td>TM F115</td>
<td>Tribal Court Administration</td>
<td>1</td>
<td>Offered As Demand Warrants Focuses on the administration of tribal courts in Alaska and the role of the tribal court clerk. Key concepts and strategies related to the effective administration and operation of tribal justice systems in Alaska will be discussed. Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
<tr>
<td>TM F116</td>
<td>Juvenile Justice in Tribal Court</td>
<td>1</td>
<td>Offered As Demand Warrants Focuses on concepts and strategies impacting juveniles in tribal justice systems. Special focus will be given to issues of juvenile delinquency, juvenile custody and tribal adoptions will be addressed. Graded Pass/Fail. Recommended: TM F110. (0+0)</td>
</tr>
</tbody>
</table>
strategies in sentencing and community monitoring, as well as, youth courts and community justice theories. Graded Pass/Fail. **Recommended:** TM F110. (0+0)

**TM F117**  
**Tribal Court Enforcement of Decisions ✫**  
1 Credit  
Offered As Demand Warrants  
Focuses on role of the tribal government and justice system in enforcement of tribal court decisions in rural Alaska, including monitoring of offenders. Key concepts and strategies related to enforcement of tribal court decisions, including writing effective orders and monitoring of offenders, will be discussed. Graded Pass/Fail. **Recommended:** TM F110. (0+0)

**TM F118**  
**Tribal Community and Restorative Justice ✫**  
1 Credit  
Offered As Demand Warrants  
Focuses on concepts and strategies in community justice, restorative justice, tribal peacemaking and other prominent judicial theories impacting modern Alaskan tribal jurisprudence. Graded Pass/Fail. **Recommended:** TM F110. (0+0)

**TM F120**  
**Introduction to Tribal Natural Resource Management ✫**  
3 Credits  
Introduction to natural resource management, including tribal natural resource management. Examines the basic goals and principles of tribal natural resource management, including the roles of traditional knowledge and scientific research in supporting management activities. (3+0)

**TM F130**  
**Introduction to Utility Management ✫**  
2 Credits  
Principles and practices involved in managing small water and wastewater facilities in rural Alaskan communities, including basic terms, key concepts and an overview of five management functions: organizational, financial, personnel, planning and operational management. Graded Pass/Fail. (2+0)

**TM F131**  
**Organizational Management for Utilities ✫**  
2 Credits  
Organizational principles and practices involved in managing small water and wastewater facilities in rural Alaskan communities, including an overview of responsibilities, governance authority and accountability. Graded Pass/Fail. (2+0)

**TM F132**  
**Operations Management for Utilities ✫**  
2 Credits  
Focus is on specific skills and knowledge that a rural utility manager needs to efficiently oversee a rural utility. Includes understanding what the operators' duties are and how much time is needed to perform them, as well as related knowledge and skills about safety, scheduling, data collection, public relations, inventory control and contingency planning. Graded Pass/Fail. **Recommended:** TM F130. (2+0)

**TM F134**  
**Financial Management for Utilities ✫**  
2 Credits  
The components of financial management needed to successfully oversee a rural utility. Basic procedures and process will be covered, including materials on financial reporting, fund accounting, budgeting, collections, risk management and financial audits. Graded Pass/Fail. **Recommended:** TM F130. (2+0)

**TM F136**  
**Personnel Management for Utilities ✫**  
2 Credits  
Tools a rural utility manager needs to keep the work force performing to its fullest. Topics include: personnel policies and procedures; safety policy and programs; selecting and hiring staff; orientation and training; regulations and the law; people, communications and conflict; motivation and management. Graded Pass/Fail. **Recommended:** TM F130. (2+0)

**TM F138**  
**Planning for Utilities ✫**  
2 Credits  
Leads the student through the whole planning process as it applies to managing small water and wastewater facilities in rural Alaska communities. Includes why it is important to get the public involved, how to develop water/sewer alternatives and evaluate them, and how to get a construction project started. Graded Pass/Fail. **Recommended:** TM F130. (2+0)

**TM F170**  
**Fundamentals of Rural Transportation ✫**  
4 Credits  
Offered As Demand Warrants  
Provides an introduction to managing the unique multi-modal transportation system in rural Alaska. Course is designed for entry-level transportation managers or those new to rural transportation issues. Graded Pass/Fail. (4+0)

**TM F171**  
**Introduction to the Indian Reservation Roads Program ✫**  
1 Credit  
Offered As Demand Warrants  
Introduction to the federal Indian Reservation Roads (IRR) program. The course will cover the history of the program, including recent program changes and their applicability to and effect on Alaska Native Tribes and communities in rural Alaska. The fundamentals of implementing a tribal IRR program will be presented. Graded Pass/Fail. (1.25+0)

**TM F172**  
**Conducting a Rural Transportation Inventory ✫**  
1 Credit  
Offered As Demand Warrants  
Provides students with hands-on experience in conducting a field inventory of transportation facilities. Emphasis on meeting the inventory requirements for the Indian Reservation Roads program Graded Pass/Fail. **Recommended:** TM F171. (1.75+0)

**TM F173**  
**Traffic Monitoring for Rural Transportation ✫**  
1 Credit  
Offered As Demand Warrants  
Provides students with the basic tools to conduct a traffic monitoring program in rural Alaska. Topics covered include: the purpose of traffic monitoring; terms, definitions and acronyms commonly used in traffic monitoring; deciding where and when to monitor; required and optional data; data collection tools and techniques; adjustment factors and adjusted average daily traffic (ADT) calculations and data reporting. Emphasis is placed on meeting the ADT requirements of the Indian Reservation Roads program. Graded Pass/Fail. TM F172. (2+0)

**TM F174**  
**Basics of a Good Gravel Road ✫**  
1 Credit  
Offered As Demand Warrants  
Provides students with a basic understanding of what makes a good gravel road. This course is designed for entry-level transportation managers as well as transportation maintenance and operations staff. Graded Pass/Fail. **Recommended:** TM F171; TM F172; TM F173. (2+0)

**TM F182**  
**Introduction to NEPA for Rural Transportation ✫**  
1 Credit  
Offered As Demand Warrants  
An introduction to the federal National Environmental Policy Act (NEPA) and its applicability to rural transportation projects in Alaska. The course will cover the history of NEPA, including recent policy changes affecting Alaska Native Tribes. The course will present an overview of the NEPA process, the categories of NEPA documents, the NEPA requirements for different types of transportation projects, and how to effectively participate in agency-led NEPA processes. Graded Pass/Fail. (1+0)

**TM F199**  
**Tribal Management Practicum I ✫**  
3 Credits  
Professional and personal development while working in a rural service organization. Emphasis on developing the understanding and skills necessary for delivery of rural services. Course is guided by an academic advisor. Student must be willing and able to work independently outside the classroom and in the community. **Prerequisites:** Must be familiar with computer and related word processing and spreadsheet programs. (3+0)
TM F201  Advanced Tribal Government  3 Credits  Offered Spring
Comprehensive study of tribal government and politics in rural Alaska. Explores the differences and relationships among tribal, state and federal government. Presents key concepts for building and enhancing tribal government for building program and institutional development. Prerequisites: Must be familiar with computer and related word processing and spreadsheet programs. (3+0)

TM F205  Advanced Tribal Finance Applications  3 Credits  Offered Spring
Advanced tools and methods for the management and oversight of tribal government programs and organizations in rural Alaska. Student evaluation includes how well the student affects changes in tribal operations and tribal management. Prerequisites: TM F105 and must be familiar with computer and related word processing and spreadsheet programs. (3+0)

TM F223  Cross Connections: Adapting and Integrating Principles of Management and Conservation  3 Credits  Offered Spring
Skills, abilities and knowledge needed to adapt traditional Western science and management principles to indigenous resource concepts and values are crucial when dealing with contemporary natural resource, land and environmental management issues in rural Alaska. To prepare students and provide tools and methods for considering cross-cultural concepts and values in resource management and conservation decisions. (3+0)

TM F250  Current Topics in Tribal Government  1 Credit  Offered Fall.
Various topics of current interest to Tribal Governments and Tribal Management students. Topics announced prior to each offering and course may be repeated for credit. (1+0)

TM F271  Rural Transportation Planning  1 Credit  Offered As Demand Warrants
Provides an introduction to the planning requirements of rural transportation programs, with emphasis on the Indian Reservation Roads (IRR) program. This course gives an overview of a transportation planning cycle, from grounding and visioning through plan development, implementation, evaluation and re-visioning. The planning elements that can be included under the IRR program regulations will be reviewed and discussed. Graded Pass/Fail. Prerequisites: TM F171 or TM F172 or TM F173 or TM F174 or permission of instructor. (1+0)

TM F272  Finance Applications for Rural Transportation  1 Credit  Offered As Demand Warrants
Prepares students and provides financial tools and methods for the management and oversight of rural government transportation programs. Familiarity with rural transportation issues and basic finance applications recommended. Prerequisites: TM F171. Recommended: TM F105. (21+0)

TM F273  Transportation Improvement Programs and Control Schedules  1 Credit  Offered As Demand Warrants
Provides students with the basic skills to develop a Transportation Improvement Program (Tribal TIP) and a supporting Control Schedule for rural transportation programs. The course will cover the process and minimum requirements for developing a TIP, how to develop the supporting control schedule and how to tie the control schedule to internal budget processes. Emphasis will be placed on meeting the requirements for the Indian Reservation Roads program. Graded Pass/Fail. Prerequisites: TM F272. (17+0)

TM F274  Road Inventory Field Data System  1 Credit  Offered As Demand Warrants
Introduction to the BIA Road Inventory Field Data System (RIFDS). Students will learn to navigate RIFDS and to enter, modify, and delete inventory data. The relationship between RIFDS, other databases, and fund allocation will be examined. Students may apply for RIFDS access upon completion of course. Graded Pass/Fail. Prerequisites: Basic computer literacy equivalent to CIOS F100 and familiarity with the BIA Indian Reservation Roads program or permission of the instructor. (1+0)

TM F276  Project Management for Rural Transportation  4 Credits  Offered As Demand Warrants
Introductory course on project management, focusing on transportation projects in rural Alaska. Designed for individuals familiar with rural transportation programs but new to project management. Prerequisites: TM F170 or TM F171; TM F172; TM F173; TM F174 or permission of instructor. (4+0)

TM F299  Tribal Management Practicum II  3 Credits  Offered Spring.
Professional and personal development while working in a rural service organization. Emphasis on developing the understanding and skills necessary for delivery of rural services. Course is guided by an academic advisor. Student must be willing and able to work independently outside the classroom and in the community. Prerequisites: Must be familiar with computer and related word processing and spreadsheet programs. (3+0)

### VETERINARY SCIENCE

VTS F101  Introduction to Veterinary Sciences  2 Credits  Offered Fall.
Concepts of lifelong learning, research skills, techniques of observation, occupational and zoonotic safety, veterinary ethics, teamwork with sponsoring veterinarian/clinic, value of professional organizations, and animals and animal care in Alaskan culture. There also is a hands on veterinary science wet lab (physical examination, suturing, IV fluids, and splints). Graded Pass/Fail. (1.5+0+1.5)

VTS F110  Medical Terminology for Veterinary Sciences  3 Credits  Offered Fall.
Medical and prescription terminology as related to veterinary sciences. Some native Alaskan cultural perspectives on medical terminology included. (3+0)

VTS F130  Animal Anatomy and Physiology for Veterinary Sciences  4 Credits  Offered Spring.
Explores the anatomy of the dog, cat, avian, cattle, hog, sheep, goat, horse, reindeer, muskox, and bison. The anatomy is approached from a functional standpoint (body systems) and includes the physiology of each body system. In addition, Alaskan native terms for anatomical structures may be given. Prerequisites: VTS F101 prior to or concurrently; high school biology or equivalent; or instructor approval. (3+3)

VTS F140  Basic Animal Husbandry for Veterinary Sciences  3 Credits  Offered Spring.
Animal restraint, behavior, handling, species and breed identification, humane animal care, housing, management of farm animals, sled dog management, and reproduction. Species covered are canine, feline, goat/sheep, pig, horse, cattle, bison, reindeer, muskox, some exotics and lab animals. Prerequisites: VTS F101 prior to or concurrent with; or instructor approval. (2.5+1.5)

VTS F150  Basic Animal Nutrition and Feeding for Veterinary Sciences  3 Credits  Offered Spring.
Nutritional analysis of feed, soil sampling and nutritional requirements of domestic animals (cattle, hogs, sheep, goat, horse, reindeer, bison, muskox, cat, dog). Also discusses feeding techniques, storage of feeds, feed contamination analysis. Prerequisites: VTS F101; high school biology or equivalent; DEV M F105 or equivalent; or instructor approval. (3+0)
VTS F160 Animal Diseases for Veterinary Sciences
3 Credits
Discusses the infectious and noninfectious diseases and treatment of companion animals, domestic production animals (including reindeer, muskox and bison), exotic and lab animals. Prerequisites: VTS F101; VTS F110; VTS F130; or instructor approval. (3+0)

VTS F161 Introduction to Infectious Animal Diseases for Veterinary Science
3 Credits Offered Spring
Topics include general pathology, etiology, pathogenesis, epidemiology, management and general treatment options. Species covered are dog, cat, horse, cattle, pig, sheep, goat, bison and reindeer. Prerequisites: VTS F110; VTS F130 or instructor approval. (4+0)

VTS F170 Veterinary Office Management
3 Credits Offered Spring
Basic introduction of business practices as they pertain to the management of the veterinary office and the role of the veterinary technician in that management team. Concepts include communications skills, record keeping, use of computers in veterinary practice, inventory and office management, and related issues of law and ethics. Prerequisites: Permission of instructor. (4+0)

VTS F199 Veterinary Sciences Certificate Practicum I
2 Credits
On site participation at an approved large or small animal veterinary clinic, veterinary research laboratory, or fish and wildlife disease research project. Graded Pass/Fail. Prerequisites: VTS F101; VTS F130; VTS F140; VTS F160; or instructor approval. (0+6)

VTS F210 Pharmacology for Veterinary Sciences
2 Credits Offered Fall.
Introduction to the basics of pharmacology as applied to the veterinary sciences. Topics include the properties of different drug classes and their uses. Dosage calculation, measurement and administration as well as veterinary pharmacy management will be addressed. Alaskan traditional pharmacology and indigenous ethno-veterinary botanical knowledge will also be discussed. Prerequisites: VTS F110; VTS F130; VTS F160; or permission of instructor. (3+0)

VTS F220 Principles of Imaging for Veterinary Sciences
2 Credits Offered Spring.
Principles of imaging as they pertain to the practice of veterinary technology. Fundamental understanding of equipment used in radiology (such as, film type, screens, development systems, x-ray machines), generation of x-rays, safety issues for both patients and operators, image formation, technique charts, artifacts, and darkroom techniques. Equipment maintenance and record keeping will also be addressed. Prerequisites: VTS F110; VTS F130; VTS F160; or permission of instructor. (3+0)

VTS F230 Theory of Veterinary Nursing Practice
3 Credits Offered Fall.
Theory of practical aspects of nursing in a veterinary hospital such as taking patient history, obtaining and recording intake values, specimen collection, administration of medication, fluid therapy, and wound management. Nutrition of hospitalized patients, alternative and traditional nursing care topics will also be discussed. Both companion and large animal species will be addressed. The practical veterinary experience that leads to the expansion of student knowledge and builds proficiency of acquired skills through task specific exercises (i.e. patient restraint, patient assessment, patient therapeutics administration, husbandry, diagnostic specimen collection, fluid therapy, etc.) will occur during subsequent VTS courses, namely VTS F240 and VTS F299. Prerequisites: VTS F130; VTS F160; VTS F199; VTS F210; or permission of instructor. (4+0)

VTS F261 Introduction to Non-infectious Animal Diseases for Veterinary Sciences
3 Credits Offered Spring
A basic introduction to the study of non-infectious disease (e.g. endocrine, nutritional, immunologic, neoplastic, degenerative, developmental and genetics) for veterinary sciences. Basic pathologic mechanisms of diseases will be explored using common non-infectious animal disease examples. Species covered are dog, cat, horse, cattle, sheep, goat, pig, bison and reindeer. Topics: etiology, pathogenesis, management and general treatment options. Prerequisites: VTS F110; VTS F130; VTS F160 or permission of instructor. (3+0)

WELDING AND MATERIALS TECHNOLOGY

WMT F101 Introduction to Welding
4 Credits Offered As Demand Warrants
Introduction and orientation to the processes and procedures involved in the welding field including safe operational procedures for shielded metal arc welding (SMAW (Stick), mixed inert gas (MIG), tungsten inert gas (TIG) and oxy-acetylene welding; in addition to the appropriate personal protective equipment (PPE) and terminology related to the welding industry. Special fees apply. (2+4)

WMT F102 Intermediate Welding
3 Credits Continuation of WMT F101. Prerequisites: WMT F101. (2+2)

WMT F103 Welding I
3 Credits Entry-level course in basic oxyacetylene, arc welding and flame cutting. Attendance at first two classes is mandatory. Special fees apply. (3+0)

WMT F105 Welding II
3 Credits Arc welding techniques and basic MIG and TIG welding. Attendance at first two classes is mandatory. Special fees apply. Prerequisites: WMT F103 or permission of instructor. (3+0)

WMT F106 Heat Treating/Metal Finishing/Knife Making I
3 Credits Heat treating, metal finishing. Build two knives, heat treat and finish. Special Conditions: Must have excellent hand-eye coordination. Attendance at first class is mandatory. Special fees apply. Recommended: WMT F117; WMT F241. (2+3)

WMT F117 Oxy-Acetylene Welding and Cutting
3 Credits Safe oxyacetylene welding techniques and procedures of common metals. Welding of these metals in flat, horizontal, vertical and overhead positions. Attendance at first class meetings is mandatory. Special fees apply. (2+5)

WMT F130 Shielded Metal Arc Welding
1 – 3 Credits
All positions for multiple pass fillet welds. A maximum of 3 credits are awarded for successful completion of any of the four sections; 130A-Certif SMAW (1F); 130B-Certif SMAW (2F); 130C-Certif SMAW (3F); 130D-Certif SMAW (4F). Presented in competency-based manner. (1 – 3+0)

WMT F140 Metal Fabrication
1 – 3 Credits Offered As Demand Warrants
Metal fabrication done by hand and with the aid of equipment is the focus of this class. Plan, layout, bend, form raw metal and fabricate metal projects. May be repeated four times for a maximum of six credits. Attendance at first two classes is mandatory. Special fees apply. Prerequisites: WMT F103 or WMT F160 or WMT F241. (1.5+3.5)
**WMT F150**  
Gas Tungsten Arc Welding  
1 – 3 Credits  
Use of tungsten and argon gas for aluminum and stainless steel gas welding (formerly called Helvac or TIG). This is an entry level gas tungsten arc welding class concentrating on aluminum. Materials will be welded in all four welding positions. Special fees apply. (1.5+5.5)  

**WMT F160**  
Gas Metal Arc Welding  
1 – 3 Credits  
Offered As Demand Warrants  
Prepares student to work with wire-feed processes. Gas metal arc welding focuses on ferrous and nonferrous metals welded in all positions. Attendance at first two classes is mandatory. Special fees apply. (1.5+5.5)  

**WMT F206**  
Heat Treating/Metal Finishing/Knife Making II  
3 Credits  
Second level of knife making and heat treating using more complex metals and additional equipment. Must have excellent hand-eye coordination. Attendance at first class is mandatory. Special fees apply.  
Recommended: WMT F106; WMT F117; WMT F241. (2+2)  

**WMT F210**  
Pipe Welding  
3 Credits  
Prepare and weld pipe in an uphill or downhill position. Special fees apply.  
Prerequisites: Permission of instructor. (2.5+3.5)  

**WMT F241**  
Gas Tungsten Arc and Gas Metal Arc Welding  
3 Credits  
Enter-level gas tungsten arc welding concentrating on aluminum. Materials will be welded in all positions. Gas metal arc welding focuses on ferrous and nonferrous metals welded in all positions. Attendance at first two classes is mandatory. Special fees apply. (1.5+5.5)  

**WMT F290**  
Welding Proficiency Maintenance  
3 Credits  
Maintenance of a high degree of welding proficiency through practice of previously-learned processes. Review of safety procedures. Special fees apply.  
Prerequisites: WMT F170; WMT F270; WMT F280; or permission of instructor. (2+4.5)

---

**WLF F101**  
Survey of Wildlife Science  
1.5 Credits  
Offered Fall  
An introduction to wildlife biology for conservation and management. Lectures will describe the research of local wildlife biologists and the programs of management agencies. Weekend field trips will be used to introduce practical problems and approaches in wildlife science. (1+0+1.5)  

**WLF F301**  
Design of Wildlife Studies  
3 Credits  
Offered Spring  
Design of wildlife studies. Study designs for wildlife populations and their habitats. Probability theory, finite population sampling, capture-mark-recapture sampling and research design will be examined through lectures, labs and a term project.  
Prerequisites or co-requisites: WLF F101, MATH F107X or MATH F161X, or permission of the instructor.  
Recommended: STAT F200X or F300. (2+3)  

**WLF F303 W**  
Wildlife Management Techniques  
3 Credits  
Offered Fall  
Study of procedures used by wildlife biologists and managers to collect, analyze and disseminate information. Topics include using wildlife literature and scientific writing; behavioral sampling; nomenclature, identification, and sexing and aging of wildlife; census methods; habitat evaluation and manipulation; biotelemetry; home range; food habits and modeling; and necropsy procedures, animal condition and wildlife diseases. Term paper required.  
Prerequisites: BIOL F271; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; WLF F201 or equivalent. (2+3)  

**WLF F304**  
Wildlife Internships  
1 – 3 Credits  
Practical experience in wildlife management in public or private agencies. Projects are approved by faculty member and supervised by professional agency staff. May not be substituted for courses required for major.  
Prerequisites: Permission of instructor. (1 – 3+0)  

**WLF F305**  
Wildlife Diseases  
3 Credits  
Offered Spring Odd-numbered Years  
Basic concepts of parasitic, infectious, environmental and nutritional diseases. Specific study of Alaska wildlife diseases. Basic necropsy technique and chemical immobilization.  
Prerequisites: BIOL F113X and BIOL F161X or equivalent; or permission of instructor.  
Recommended: BIOL F310; BIOL F317. (2+3)  

**WLF F322 W**  
Principles and Techniques of Wildlife Management  
3 Credits  
Offered Spring  
This course applies ecology to the study and management of animals and their habitats. We will discuss management for consumptive and non-consumptive uses of birds, mammals, reptiles and amphibians.  
Prerequisites: BIOL F271; WLF F101; ENGL 111X; ENGL F211X or ENGL F213X. (2+3)  

**WLF F410**  
Wildlife Populations and Their Management  
3 Credits  
Offered Fall  
Characteristics and ecology of wildlife populations and the knowledge necessary for their wise management. Measures of abundance, dispersal, fecundity and mortality, population modeling, competition and predation, and the management of rare species and their habitats.  
Prerequisites: BIOL F271; calculus course; introductory STAT course; WLF F303 or BIOL F471. (2+3)  

**WLF F421**  
Ecology and Management of Large Mammals  
3 Credits  
Offered Fall Even-numbered Years  
Identification, taxonomy, distribution, life history and ecology of North American large mammals. Exploration of roles of reproduction, predation, nutrition, habitat alteration and competition in population dynamics of large mammals, and management practices designed for conservation of habitats and populations.  
Prerequisites: BIOL F271; WLF F201 or permission of instructor.  
Recommended: WLF F303. (3+0)  

**WLF F425 O**  
Ecology and Management of Birds  
3 Credits  
Offered Spring Odd-numbered Years  
Ecology of avian populations with a focus on harvest and habitat management for North American birds. Distributions, life-history, population dynamics, and monitoring and research techniques will be considered.  
Prerequisites: BIOL F271; COMM F313X or COMM F414X; WLF F222; or permission of instructor. (3+0)  

**WLF F433**  
Conservation Genetics  
3 Credits  
Offered Spring  
Concepts of population genetics, phylogenetics, pedigree analysis, systematics and taxonomy as they apply to conservation of species. Evaluating the impact of small population size, population fragmentation, inbreeding, hybridization, taxonomic uncertainties and other factors on viability and management of species.  
Prerequisites: BIOL F271 and BIOL F362 or equivalents; or permission of instructor.  
Recommended: BIOL F314; NRM F277. Cross-listed with BIOL F433. (3+0)  

**WLF F460 O/2**  
Wildlife Nutrition  
4 Credits  
Offered Fall  
The energy nutrient requirements of vertebrate animals in relation to the ecology, physiology and life history. Concepts and techniques used by wildlife biologists to understand relationships between wild animals and their habitats. Techniques for constructing energy and nutrient budgets of wild animals and applications of these budgets to population level processes and habitat management.  
Prerequisites: COMM F313X or COMM F414X; BIOL F271; BIOL F310; or permission of instructor.  
Recommended: BIOL F459. Cross-listed with BIOL F459. Stacked with WLF F660; BIOL F659. (3+3)

<tbody>
<tr>
<td>WLF F469 O</td>
<td>Landscape Ecology and Wildlife Habitat</td>
<td>3</td>
<td>Offered Spring</td>
<td>A problem-based learning and critical thinking approach to modern methods in landscape ecology, including geographic information systems, remote sensing, modeling, software, and the Internet. Graduate students are expected to help undergraduates with problems and questions. Special fees apply. <strong>Prerequisites:</strong> BIOL F271 or equivalent; COMM F131X or COMM F414X. Cross-listed with BIOL F469. (2+3)</td>
</tr>
<tr>
<td>WLF F485</td>
<td>Global Change Biology</td>
<td>3</td>
<td>Offered Fall Odd-numbered Years</td>
<td>Contemporary science and policy concerns of global change that involve biological processes. Includes structural and functional responses and sensitivities of biological processes to environmental changes (such as climate and human uses of land and biological resources); implications of biological responses to global change for conservation and management of biological resources; and the social and economic consequences of biological responses to global change. <strong>Prerequisites:</strong> BIOL F271; CHEM F105X; CHEM F106X. Cross-listed with BIOL F485. (3+0)</td>
</tr>
<tr>
<td>WLF F602</td>
<td>Research Design</td>
<td>3</td>
<td>Offered Fall</td>
<td>An introduction to the philosophy, performance and evaluation of hypothetical/deductive research in the biological sciences, with emphasis on hypothesis formulation and testing. Each student will develop a research proposal. <strong>Prerequisite:</strong> Graduate standing or permission of instructor. Cross-listed with BIOL F602. (3+0)</td>
</tr>
<tr>
<td>WLF F604</td>
<td>Scientific Writing, Editing and Revising in the Biological Sciences</td>
<td>3</td>
<td>Offered Spring</td>
<td>For students who are ready to produce a manuscript or thesis chapter. Topics include the publishing process (e.g., the role of editors and reviewers), preparing to write (selecting a journal, authorship), the components of the scientific paper, revising and editing manuscripts, and responding to reviews. Students will produce a complete manuscript. <strong>Prerequisites:</strong> Graduate standing in Biology, Wildlife, or related discipline and permission of instructor. Cross-listed with BIOL F604. (3+0)</td>
</tr>
<tr>
<td>WLF F614</td>
<td>Foraging Ecology</td>
<td>2</td>
<td>Offered Fall Even-numbered Years</td>
<td>The dynamics of herbivory, emphasizing the foraging process and including mechanisms of feeding, feeding behavior, habitat and plant selection, physiological influences on feeding, plant and community level responses, plant defenses against herbivory and management of plant-herbivore systems. <strong>Prerequisites:</strong> Graduate standing or approval of instructor. Cross-listed with BIOL F614. (2+0)</td>
</tr>
<tr>
<td>WLF F622</td>
<td>Current Issues in Conservation Biology</td>
<td>3</td>
<td>Offered Spring Odd-numbered Years</td>
<td>Critical discussion of contemporary issues concerning extinction patterns, population viability and the preservation, design and management of habitats for populations/species of concern. Stresses integration of principles and policies into strategies for biological conservation. <strong>Prerequisites:</strong> BIOL F471 or WLF F410; graduate standing; or permission of instructor. Cross-listed with BIOL F622. (3+0)</td>
</tr>
<tr>
<td>WLF F625</td>
<td>Population Dynamics of Vertebrates</td>
<td>4</td>
<td>Offered Spring Odd-numbered Years</td>
<td>Sampling vertebrate populations, modeling their population dynamics and the implications for management. Focus will be on study design, model assumptions, estimation of population parameters, and population projections. State-of-the-art computer applications will be employed in laboratory exercises of actual and simulated data. <strong>Prerequisites:</strong> BIOL F271; STAT F401. Cross-listed with FISH F625. (3+3)</td>
</tr>
<tr>
<td>WLF F633</td>
<td>Conservation Genetics</td>
<td>4</td>
<td>Offered Spring</td>
<td>Concepts of population genetics, phylogenetics, pedigree analysis, systematics and taxonomy as they apply to conservation of species. Evaluating the impact of small population size, population fragmentation, inbreeding, hybridization, taxonomic uncertainties and other factors on viability and management of species. <strong>Prerequisites:</strong> BIOL F271 and BIOL F362 or equivalents or permission of instructor. Recommended: BIOL/NRM F277. Cross-listed with BIOL F633. (3+3)</td>
</tr>
<tr>
<td>WLF F660</td>
<td>Wildlife Nutrition</td>
<td>4</td>
<td>Offered Fall</td>
<td>The energy nutrient requirements of vertebrate animals in relation to their ecology, physiology and life history. Concepts and techniques used by wildlife biologists to understand relationships between wild animals and their habitats. Techniques for constructing energy and nutrient budgets of wild animals and applications of these budgets to population level processes and habitat management. Special fees apply. <strong>Prerequisites:</strong> BIOL F271; BIOL F310; graduate standing; or permission of instructor. Cross-listed with BIOL F659. Stacked with WLF F460; BIOL F459. (3+3)</td>

<tr>
<td>WLF F669</td>
<td>Landscape Ecology and Wildlife Habitat</td>
<td>3</td>
<td>Offered Spring</td>
<td>A problem-based learning and critical thinking approach to modern methods in landscape ecology, including geographic information systems, remote sensing, modeling, software, and the Internet. Graduate students are expected to help undergraduates with problems and questions. Special fees apply. <strong>Prerequisites:</strong> Graduate standing in a biologically oriented field; or permission of instructor. Cross-listed with BIOL F669. (2+3)</td>
</tr>
<tr>
<td>WLF F680</td>
<td>Data Analysis in Biology</td>
<td>3</td>
<td>Offered Fall Even-numbered Years</td>
<td>Biological applications of nonparametric statistics, including tests based on binomial and Poisson distributions, analysis of two-way and multi-way contingency tables, and tests based on ranks; multivariate statistics, including principal component analysis, ordination techniques, cluster and discriminate analysis; and time-series analyses. Introduction to the use of the computer and use of statistical packages. Each student will analyze a data set appropriate to the student's research interests. <strong>Prerequisites:</strong> STAT F200X, STAT F401; graduate standing in a biologically oriented field; or permission of instructor. Cross-listed with BIOL F680. (2+3)</td>
</tr>
<tr>
<td>WLF F692</td>
<td>Graduate Seminar</td>
<td>1 – 6</td>
<td>Graduated Pass/Fail</td>
<td>Topics in fish and wildlife management explored through readings, talks, group discussions and guest speakers with a high level of student participation. Graded Pass/Fail. <strong>Prerequisites:</strong> Graduate standing or permission of instructor. (0+0+1 – 6)</td>
</tr>

<tbody>
<tr>
<td>WGS F201</td>
<td>Introduction to Women's and Gender Studies (s)</td>
<td>3</td>
<td></td>
<td>An interdisciplinary introduction to the field of women's and gender studies, exploring its development, subject matter and methodologies. Readings from studies that have become classic examples of the importance of gender in research in many disciplines are examined. Also available via Independent Learning. (3+0)</td>
</tr>
<tr>
<td>WGS F202</td>
<td>History of Women in America (s)</td>
<td>3</td>
<td>Offered Fall Odd-numbered Years</td>
<td>A chronological approach to the history of women in America. Introduction to major issues of concern to historians of women, as well as different approaches used in analysis of women's past. Consideration of multicultural backgrounds of American women. Cross-listed with HIST F202. (3+0)</td>
</tr>
</tbody>
</table>
WGS F308 W,O Language and Gender (s) 3 Credits
Offered Fall Odd-numbered Years
Examination of relationships between language and gender, drawing on both ethnographic and linguistic sources. Topics include power, socialization and sexism. Prerequisites: COMM F313X or COMM F411X; ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor. Cross-listed with ANTH F308; LING F308. (3+0)

WGS F320 Sociology of Gender (s) 3 Credits
Comprehensive review of sociological inquiry and feminist revisions for studying gender in U.S. society and culture. Interrogates the meanings of gender, and the interactional, cultural, organizational and institutional arrangements that underlie the social construction of gender and gender inequality. Prerequisites: One lower-division social science course, WGS F201, or permission of instructor. Cross-listed with SOC F320. (3+0)

WGS F325 The History of Sexuality (s) 3 Credits
Offered Summer
The history of sexuality from a worldwide comparative perspective. Theories and debates about the history of sexuality in selected times and places, with an emphasis on the modern period. Prerequisites: HIST F100X; ENGL F211X or ENGL F213X. Cross-listed with HIST F325. (3+0)

WGS F331 W Women's Voices in Japanese Literature (h) 3 Credits
Selected novels, short stories, poems and diaries by Japanese women from the tenth century to the present which reveal the personal, social, aesthetic and intellectual concerns of women in different periods of Japanese history. Focus on the changing role of women in Japanese society, the role of women writers as social critics, and cross-cultural differences and similarities in women's issues. Prerequisites: ENGL F111X; ENGL F211X or F213X or permission of instructor; ENGL/FL F200X. Recommended: HIST F121, F122 or F331. Cross-listed with JPN F331. (3+0)

WGS F332 Human Sexualities Across Cultures (s) 3 Credits
Offered Alternate Fall Odd-numbered Years
Exploration of how people in a variety of cultures, both contemporary and historical, construct the meaning and experience of sexuality and express themselves as sexual beings. Interdisciplinary study includes psychology, sociology, anthropology, gender studies and related fields, with particular focus determined by which department is offering the course. Also available via e-Learning and Distance Education. Prerequisites: SOC F100X or SOC F201 or PSY F101 or WGS F201 or permission of instructor. Cross-listed with PSY F333; SOC F333. (3+0)

WGS F333 Women's Literature (h) 3 Credits
Offered Fall
Reading, discussing and analyzing literary works dealing with the social, cultural and political implications of patriarchal social structures and traditions from the perspective of feminist theory and criticism. Focus may be on a particular theme, period or genre, but readings will include both primary and secondary texts. Prerequisites: ENGL F111X. Recommended: ENGL F211X. Cross-listed with ENGL F333. (3+0)

WGS F335 W Gender and Crime (s) 3 Credits
Offered Spring
An exploration of gender and crime including the extent of female crime, victimization, masculinities and violence, and women professionals in the justice system. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X or permission of instructor; JUST F110; junior standing. Cross-listed with JUST F335. (3+0)

WGS F340 Women and Politics (s) 3 Credits
Offered Spring Odd-numbered Years
In-depth examination of the relevance of gender in political thought and action. Topics vary and may include: an historical perspective of political ideas on the nature and status of women; women's involvement in national and/or international political movements and organizations; feminist approaches to the social sciences; feminism as a political ideology. Prerequisites: One political science course or permission of instructor. Recommended: WGS F201. Cross-listed with PS F340. (3+0)

WGS F348 W Native North American Women (s) 3 Credits
Offered As Demand Warrants
Interdisciplinary examination of the relationship between Native American women and their social settings and cross-cultural experiences. Includes issues of political, economic and social solutions as employed by women in a large multi-ethnic nation-state. Prerequisites: ANS F101; ANTH F100X; ENGL F111X; ENGL F211X or ENGL F213X; SOC F100X; or permission of instructor. Cross-listed with ANS F348. (3+0)

WGS F350 W Women's Issues in Social Welfare and Social Work Practice (s) 3 Credits
Offered Fall
Examination of theories and research concerning women's issues in the field of social work and in the social welfare system, with particular emphasis on women in poverty and women of color. Contemporary policy issues and strategies of empowerment will be covered. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; SWK F103 or SOC F100X; or permission of instructor. Cross-listed with SWK F350. (3+0)

WGS F351 Gender and Communication (s) 3 Credits
Offered Fall
Basic socialization differences exist in the communication practices of women and men in every culture, resulting in differing cultural constructions of male and female gender. Those differences are addressed in interpersonal, organizational and cultural contexts. Explores cultural female/male dichotomy as well as individual similarities. Prerequisites: Any lower-division communication course or permission of instructor. Cross-listed with COMM F331. (3+0)

WGS F360 O Psychology of Women Across Cultures (s) 3 Credits
Offered Spring Odd-numbered Years
Major theories, research and empirical data which describes the psychology of women as a discrete field, philosophical values of feminism and history of women's roles in society. The impact of culture on women interpersonally and intrapsychically examined across cultures. Prerequisites: COMM F131X or COMM F411X; PSY F101; or permission of instructor. Cross-listed with PSY F360. (3+0)

WGS F362 Feminist Philosophy (h) 3 Credits
Offered As Demand Warrants
Examination of contemporary feminist philosophical positions. Emphasis on feminist ethics, social and political philosophy, and epistemology. Cross-listed with PHIL F362. (3+0)

WGS F380 O Women, Minorities and the Media (h) 3 Credits
Offered Fall
Examination of how women and minorities are portrayed in the mass media, the employment of women and minorities in the media, and how accurately the media reflects our society demographically. Presented from a feminist, multi-culturalist perspective using a broad feminist analysis encompassing issues of gender as well as class, race, age and sexual orientation. Prerequisites: COMM F131X or COMM F411X; junior standing. Cross-listed with JRN F380. (3+0)

WGS F403 Theories in Women's and Gender Studies 3 Credits
Offered Fall Odd-numbered Years
This class will explore the intellectual history of women and gender studies. We will start our exploration in the late 18th century, and follow feminist theoretical ideas about women and gender through to the present. Although we will mostly focus on western theoretical work, we will also delve into non-western ideas, especially as these critique western ideas about women and gender. Prerequisites: WGS F201 or permission of instructor. (3+0)
WGS F410 W  Women in Music History (h)  
3 Credits  
Lives and works of female musicians, composers and performers will be traced from the earliest days of the ancient and mythological through the medieval, Baroque Classical, and Romantic periods with special emphasis on composers of the 20th century.  
Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing or permission of instructor. Cross-listed with: MUS F410. (3+0)

WGS F414  Women and Gender in East Asian History (s)  
3 Credits  
Offered As Demand Warrants  
Seminar on the history of East Asia with special emphasis on the experiences of women and the issue of gender. This seminar will focus on the modern period and on China and Japan especially, though other regions of East Asia may also be considered.  
Prerequisites: HIST F100X; ENGL F211X or ENGL F213X; or permission of instructor. Recommended: HIST F122 and/or HIST F273. Cross-listed with HIST F414. (3+0)

WGS F424  Topics in Women’s History (s)  
3 Credits  
Offered As Demand Warrants  
An in-depth seminar on a specific topic of current interest. Topics may change and may cover the history of European or American women from the 18th century to the present. Course may be repeated for credit when content varies.  
Prerequisites: A lower-division history course; junior standing; or permission of instructor. Cross-listed with HIST F424. (3+0)

WGS F440  Gender and Education (s)  
3 Credits  
Offered Alternate Spring Even-numbered Years  
Educational practices and processes and their relation to the changing situation of women in society. Examination of schools as sites of pervasive gender socialization and discrimination as well as offering new possibilities for liberation. Topics include social construction of gender; patterns of access and achievements; gender as an organizing principle in schools and classrooms; and feminist agendas and strategies for change.  
Prerequisites: Junior standing or permission of instructor. Cross-listed with ED F440. (3+0)

WGS F445  Gender in Cross-Cultural Perspective (s)  
3 Credits  
Offered Spring Even-numbered Years  
Gender as cultural construction and social relationship is examined through readings in comparative ethnographies portraying gender roles in a broad variety of societies, from hunter-gatherer to industrial. New theoretical and methodological approaches in anthropology for exploring and understanding women’s and men’s experiences in their cultural variety are presented.  
Prerequisites: ANTH F215 or WGS F201 or permission of instructor. Cross-listed with ANTH F445. (3+0)

WGS F460  Women and Development (s)  
3 Credits  
Explores interrelationships over time of women, gender roles and development in the dynamic global economy, including issues in Alaska and the circumpolar north. Examines the historical marginalization of women in developmental processes, special issues affecting women in indigenous communities, and changing socio-economic and cultural gender roles of women and men in community development. Examines life histories of women that illustrate emerging principles and strategies for individual and community empowerment. Cross-listed with RD F460. (3+0)
