MINING ENGINEERING

College of Engineering and Mines
Department of Mining and Geological Engineering
907-474-7388
http://cem.uaf.edu/mingeo/

B.S. Degree

Minimum Requirements for Degree: 132 credits

As the nation’s northernmost accredited mining engineering program, our mission is to advance and disseminate knowledge for exploration, evaluation, development and efficient production of mineral and energy resources with assurance of the health and safety of persons involved and protection of the environment, through creative teaching, research and public service with an emphasis on Alaska, the North and its diverse peoples.

The mining engineering program emphasizes engineering as it applies to the exploration and development of mineral resources and the economics of the business of mining. The program offers specializations in exploration, mining or mineral beneficiation.

Students are prepared for job opportunities with mining and construction companies, consulting and research firms, equipment manufacturers, investment and commodity firms in the private sector, as well as with state and federal agencies.

The mining engineering program educational objectives are to graduate competent engineers who:

- are employed in the mineral and energy industries,
- can solve problems germane to Alaska, and
- are professionals and who understand the need to stay technically current.

Mining engineers may aspire to, and achieve, the highest positions in the industry: operating or engineering management, government agency director or entrepreneur. Starting salaries are among the highest in the engineering profession.

Students may initiate their mining engineering program in Anchorage and transfer to Fairbanks upon completion of their freshman or sophomore year. Anchorage students intending to transfer to Fairbanks should contact faculty of the UAF Mining Engineering Department.

Candidates for the B.S. degree in mining engineering must take the State of Alaska Fundamentals of Engineering examination. The Fundamentals of Engineering examination is a first step toward registration as a professional engineer.

The minor in mining engineering provides nonmining engineering students with an opportunity to acquire employable skills in the mining profession. Students in the mining engineering minor will be trained in a broad variety of topics such as mine ventilation, ground control, mine operation, economics, environmental law and labor management. Students will have the choice of other mining topics to make up the minor requirements.

For more information about the mining engineering program mission, goals and educational objectives, visit http://cem.uaf.edu/mingeo/abed/.

Major — B.S. Degree

1. Complete the general university requirements. (See page 180. As part of the core curriculum requirements, complete: CHEM F105X, CHEM F106X, LS F101X and MATH F251X.)

2. Complete the B.S. degree requirements. (See page 180. As part of the B.S. degree requirements, complete: MATH F252X, PHYS F211X and PHYS F212X.)

3. Complete the following program (major) requirements:
   MATH F208—Mechanics.................................................4
   ES F307—Elements of Electrical Engineering..................3
   ES F331—Mechanics of Materials ..................................3
   ES F341—Fluid Mechanics...........................................4
   ES F346—Basic Thermodynamics.................................3
   GE F261—General Geology for Engineers.......................3
   GEOS F262—Rocks and Minerals................................3
   GEOS F332—Ore Deposits and Structure.......................3
   MIN F103—Introduction to Mining Engineering..............1
   MIN F104—Mining Safety and Operations Lab................1
   MIN F202—Mine Surveying.........................................3
   MIN F225—Quantitative Methods in Mining Engineering......2
   MIN F226—Introduction to Mine Development................2
   MIN F301—Mine Plant Design.....................................3
   MIN F302—Underground Mine Environmental Engineering..3
   MIN F313—Introduction to Mine Preparation..................3
   MIN F370—Rock Mechanics.......................................3
   MIN F407W—Mine Reclamation and Environmental Management..........................3
   MIN F408O— Mineral Valuation and Economics................3
   MIN F409—Operations Research and Computer Applications in Mineral Industry..................3
   MIN F443—Principles and Applications of Industrial Explosives........................................3
   MIN F454—Underground Mining Methods....................3
   MIN F482—Computer-Aided Mine Design — VULCAN........3
   MIN F484—Surface Mining Methods II..........................2
   MIN F489W—Mining Design Project I.........................1
   MIN F490W—Mining Design Project II.........................2
   MIN F485—Mining Engineering Exit Exam......................0

4. Complete the following program (major) requirements:
   MATH F253X—Calculus III.........................................4
   MATH F302—Differential Equations.............................3

5. Complete 3 credits* from the following recommended technical electives:
   GE F440—Slope Stability...........................................3
   MIN F401—Mine Site Field Trip..................................2
   MIN F415—Coal Preparation......................................3
   GEOS F440—Slope Stability....................................3
   Approved technical electives..................................3–6

7. Minimum credits required ........................................132
   ** Students must plan their elective courses in consultation with their mining engineering faculty advisor. Technical electives are selected from the list of the approved technical electives for mining engineering program and other programs course listing. All elective courses must be approved by the department head.

Minor

1. Complete the following:
   MIN F103—Introduction to Mining Engineering...............1
   MIN F104—Mining Safety and Operations Lab................1
   MIN F226—Introduction to Mine Development................2

2. Complete 11-12 MIN credits from advisor-approved electives at 300 or 400 level* ........................................11-12

3. Minimum credits required ........................................15
   ** Students must earn a C- grade or better in each course.

* Students must earn a C- grade or better in each course.
Baccalaureate Core Requirements

Communication .................................................. 9 Credits
• ENGL F111X—Introduction to Academic Writing.................................(3)
Complete one of the following:
• ENGL F211X—Academic Writing about Literature ................................(3)
• ENGL F213X—Academic Writing about the Social and Natural Sciences ...(3)
Complete one of the following:
• COMM F121X—Introduction to Interpersonal Communication ..............(3)
• COMM F131X—Fundamentals of Oral Communication: Group Context ...(3)
• COMM F141X—Fundamentals of Oral Communication: Public Context....(3)
Perspectives on the Human Condition ............ 18 Credits
Complete all of the following four courses:
• ANTH F100X/SOC F100X—Individual, Society and Culture..................(3)
• ECON F100X or PS F100X—Political Economy ....................................(3)
• HIST F100X—Modern World History .................................................(3)
• ENGL/FL F200X—World Literature .....................................................(3)
• Complete the following at the upper-division level:
  • Upper-Division Writing and Oral Communication
  • Library and Information Research
  • Natural Sciences

Complete any two (4-credit) courses.
• ATM F101X—Weather and Climate of Alaska .....................................(4)
• BIOL F100X—Human Biology ............................................................(4)
• BIOL F101X—Introduction to Animal Behavior ....................................(4)
• BIOL F103X—Biology and Society ......................................................(4)
• BIOL F104X—Natural History ..............................................................(4)
• BIOL F115X—Fundamentals of Biology I .............................................(4)
• BIOL F116X—Fundamentals of Biology II ..........................................(4)
• BIOL F210X—Introduction to Human Nutrition ...................................(4)
• BIOL F211X—Human Anatomy and Physiology I ...............................(4)
• BIOL F214X—Human Anatomy and Physiology II ...............................(4)
• CHEM F100X—Chemistry in Complex Systems ...................................(4)
• CHEM F103X—Basic General Chemistry ..........................................(4)
• CHEM F104X—Beginnings in Biochemistry ........................................(4)
• CHEM F105X—General Chemistry ......................................................(4)
• CHEM F106X—General Chemistry ......................................................(4)
• GEOG F111X—Earth and Environment: Elements of Physical Geography ..(4)
• GEOS F100X—Introduction to Earth Science .....................................(4)
• GEOS F101X—The Dynamic Earth .....................................................(4)
• GEOS F106X—Life and the Age of Dinosaurs .....................................(4)
• GEOS F112X—History of Earth and Life .............................................(4)
• GEOS F210X—Glaciers, Earthquakes and Volcanoes ...........................(4)
• GEOS F212X—Humans, Earth and Environment ...............................(4)
• PHYS F102X—Energy and Society .....................................................(4)
• PHYS F103X—College Physics ............................................................(4)
• PHYS F104X—College Physics ............................................................(4)
• PHYS F115X—Physical Science I .........................................................(4)
• PHYS F175X—Astronomy .................................................................(4)
• PHYS F211X—General Physics ............................................................(4)
• PHYS F212X—General Physics ............................................................(4)
• PHYS F213X—Elementary Modern Physics ....................................(4)

Library and Information Research .................. 0-1 Credit
• Successful completion of library skills competency test or LS F100X or
  LS F101X prior to junior standing

Upper-Division Writing and Oral Communication
Complete the following at the upper-division level:
• Two writing intensive courses designated (W) and one oral communication
  intensive course designated (O), or two oral communication intensive courses
  designated (O/2) (see degree and/or major requirements)

Total credits required 38-39

All degrees (e.g. B.A., B.S., etc.) require additional courses.
Refer to specific degree and program requirements.
Students must earn a C- grade or better in each course
used toward the baccalaureate core.

Or complete 12 credits from the above courses plus one of the following:
• Two semester-length courses in a single Alaska Native language or other non-
  English language
• Three semester-length courses (9 credits) in American Sign Language taken at
  the university level.

Mathematics .................................................. 3 Credits
Complete one of the following:
• MATH F113X—Concepts and Contemporary Applications of
  Mathematics .................................................................................(3)
• MATH F151X—College Algebra for Calculus* .....................................(4)
• MATH F152X—Trigonometry ............................................................(3)
• MATH F156X—PreCalculus ...............................................................(4)
• MATH F122X—Algebra for Business and Economics** ....................(3)
• STAT F200X—Elementary Probability and Statistics ........................(3)
  * No credit may be earned for more than one of MATH F151X or F122X.
Or complete one of the following:
• MATH F251X—Calculus I** ...............................................................(4)
• MATH F252X—Calculus II .................................................................(4)
• MATH F253X—Calculus III .................................................................(4)
• MATH F222X—Calculus for Business and Economics ......................(4)
• MATH F232X—Calculus for Life Sciences ........................................(4)
  * Or any math course having one of these as a prerequisite
  ** No credit may be earned for more than one of MATH F251X, F222X or F232X.

Universities of Alaska Fairbanks
