AGENDA
UAF FACULTY SENATE MEETING #202
Monday, November 3, 2014
1:00 p.m. – 3:00 p.m.
Wood Center Carol Brown Ballroom

1:00  I  Call to Order – Cécile Lardon  4 Min.
   A. Roll Call
   B. Approval of Minutes to Meetings #201
   C. Adoption of Agenda

1:04  II  Status of Chancellor's Office Actions  1 Min.
   A. Motions Approved:
      1. Motion to reaffirm the Unit Criteria for the Marine Advisory Program
      2. Motion to reaffirm the Unit Criteria for the Department of Mathematics
   B. Motions Pending: None

1:05  III  A. President's Remarks – Cécile Lardon
       B. President-Elect's Remarks – Debu Misra

1:15  IV  A. Chancellor’s Remarks – Brian Rogers
       B. Provost’s Remarks – Susan Henrichs

1:30  V  Governance Reports
       A. Staff Council – Chris Beks
       B. ASUAF – Mathew Carrick
       C. Athletics – Dani Sheppard
       D. UNAC – Tim Wilson
       UAFT – Jane Weber

1:40  VI  Guest Speaker
       A. Mae Marsh Director of Diversity and Equal Opportunity
       Topic: Title IX Mandatory Reporting

1:55  BREAK

2:05  VII  Old Business
       A. Motion to Require Baccalaureate Degree Programs include a Capstone Experience, submitted by the Curricular Affairs Committee (Attachment 202/1)

2:15  VIII  New Business
       A. Motion to Approve Deletion of the Bachelor of Arts and Sciences Degree Program, submitted by Curricular Affairs Committee (Attachment 202/2)
B. Resolution concerning Smoking and Tobacco Use at UAF, submitted by the Administrative Committee (Attachment 202/3)

2:30 IX DISCUSSION ITEM 20 Min.
A. Common General Education Requirements, submitted by the Curricular Affairs Committee – Rainer Newberry (Attachment 202/4)

2:50 X Public Comment*  5 Min.

2:55 XI Members' Comments/Questions/Announcements  5 Min.
A. General Comments/Announcements
B. Committee Chair Comments
Curricular Affairs – Rainer Newberry, Chair (Attachment 202/5)
Faculty Affairs – Chris Fallen, Chair (Attachment 202/6)
Unit Criteria – Chris Coffman, Chair
Committee on the Status of Women – Jane Weber, Chair (Attachment 202/7)
Core Review Committee – Leah Berman, Chair (Attachment 202/8)
Curriculum Review – Rainer Newberry, Chair
Student Academic Development & Achievement – Cindy Hardy, Chair
Faculty Development, Assessment & Improvement – Franz Meyer, Chair (Attachment 202/9)
Graduate Academic & Advisory Committee – Donie Bret-Harte, Chair
Research Advisory Committee – Orion Lawlor, Chair (Attachment 202/10)
Information Technology Committee – Rorik Peterson, Convener

3:00 XII Adjournment

*Comments from the public are welcomed. Any subsequent assignment of an issue arising from public comment to a Senate committee is made by the Faculty Senate President.
MOTION:

The UAF Faculty Senate moves to change the UAF baccalaureate requirements so that each student must complete a capstone experience in the student’s major or program, as broadly described below. It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience. Each Dean’s office will have a copy of the capstone requirements for all programs in the College/School on file.

RATIONALE: This change is proposed in support of satisfying UAF's Learning outcome #4: "Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection."

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. We envision this proposed change as not adding a significant burden to most UAF faculty and students.

EFFECTIVE: Fall 2016 (AY2016-17)

General Suggestions for Capstone Experience
The Capstone experience should demonstrate students’ ability to integrate a wide range of learning. Students should make connections among ideas, skills, and bodies of knowledge, and will synthesize and transfer their learning to new, complex areas of inquiry, products, or situations within or beyond conventional coursework. Specifically, the Capstone should:

- Require that students demonstrate the appropriate skill levels in communication and (as appropriate) quantitative and (or) qualitative analysis.
- Integrate learning from major requirements.
- Guide students through a project or experience relevant to their educational goals.
- Provide a basis for evaluating student performance.
- Be suitable as a potential means for assessing the major requirements.

Suggested General Instructional Objectives
- The student should integrate and apply learning from multiple disciplines and skill sets.
- The student should demonstrate an ability to contribute to existing knowledge, work in professional settings, and (or) create products relevant to the student’s further educational, career and life goals.
- The experience should demonstrate the student possesses intellectual and practical capabilities at a level expected of one receiving a baccalaureate degree from a major
The student should complete the experience or work as a culmination of the student’s baccalaureate education.

Course examples:
NORS 484 W/O Seminar in Northern Studies: An interdisciplinary seminar focusing on topics relating to the North with emphasis on the physical sciences, the peoples, and the socioeconomic and political aspects of the area. Specialists in the various fields will assign readings and conduct discussions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

PS F499 W Senior Thesis: Thesis will draw from the literature in at least two sub-fields of political science (U.S. government/politics, political theory, public law, comparative politics, international relations) in its analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; PS F222; senior standing; permission of instructor. (1.5+0+7.5)

Non-course examples:
- Portfolio
- Internship
- Performance / Exhibition
- Participation in competition
- Professional publication
- Student teaching
MOTION:

The UAF Faculty Senate agrees to the discontinuation of the Bachelor of Arts and Sciences degree program (housed in the School of Education).

EFFECTIVE: Fall 2015

RATIONALE: The need for the BAS degree decreased significantly after the BOR approval of the BA in Elementary Education in the early 2000s. The BAS was kept on a trial basis thereafter. With the availability of the Interdisciplinary General Studies degree options, need and demand for the BAS has further decreased and elimination of the program is now timely.

Background and Information:

The original reason for developing the degree no longer exists. The BAS was designed to serve as the undergraduate degree appropriate for students who planned to be elementary teachers but no longer had the option to pursue this degree as an undergraduate student — only through a post-baccalaureate "5th year" option when the UA Board of Regents made the decision to eliminate the undergraduate route for seeking a degree and license in elementary education in 1999. This decision was reversed by the Regents the following year. Many students were caught in the middle of the B.Ed. or BAS degree when the changes occurred. We kept the degree option open primarily for a very few number of student athletes who knew they wanted to be elementary teachers but who could not do this as an undergraduate because of their athletic training and travel schedules. They planned to complete their licensure requirements as a post-baccalaureate student- but usually at another institution.

There is no discernable or consequential effect of the program deletion. Students who are interested in becoming elementary teachers, but who are not able to complete the internship year requirements because of participation in a varsity level sport, are now able to complete all of the same content courses, along with an education minor, as a student in the General Studies Interdisciplinary degree. No one will be disadvantaged because of the deletion of this degree since there is an appropriate substitute degree available.

There were minimal costs associated with offering this degree because of the small number of students in the degree and because only there was only one required course that wasn't offered as a required course for students in other programs (i.e., there was only one required course that was designed specifically for this degree). No impact to the School of Education budget is expected.

Since there is now a good alternative for students seeking an interdisciplinary degree (i.e., the General Studies Interdisciplinary degree) and since there has been a marked decrease in the numbers of students pursuing this degree, deletion of the program is timely. The two students who are currently declared BAS majors will be able to successfully complete their degree requirements.
RESOLUTION:

The UAF Faculty Senate agrees with most of the concerns expressed in Staff Council Resolution 2014-254-1 and offers the following additional suggestions:

WHEREAS
Smoking has been proven to be addictive both mentally and physically; therefore, it will take time for habitual smokers and users to change their habits;

WHEREAS
Rates of tobacco use in the form of smoking vary widely across society, and are higher in some groups the university is seeking to serve;

WHEREAS
The existing policy of limiting smoking to at least 50 feet away from building entrances and fresh air intakes helps considerably in keeping the populated areas of the campus free of toxins;

AND WHEREAS
Under a complete ban we expect illicit smoking would harm indoor air quality and present a fire danger;

THEREFORE BE IT RESOLVED
The UAF Faculty Senate holds that campuses should maintain the ability to designate outdoor “quit areas” in which smokers can have safe access to ashtrays and tobacco cessation resources.
**Discussion item #1:**

In order to move UAF General Education Requirements so that they more closely resemble those of UAA and UAS, UAF will almost certainly need to change its GERS to a scheme similar to that below by Fall 2016. UAA and UAS take the ‘bucket list’ approach for the liberal arts GERs. UAF has specific course requirements (‘the core’). It’s easier for UAF to change to the UAS-UAA system than vice-versa. Given that, we might as well go ahead and plan to do so. The specific size and shape of the buckets will need to be negotiated. A comparison of UAA, UAS and current UAF GERs is on the next page.

Curricular Affairs Committee
Minutes for 17 Sept 2014  3-4 pm Reich 300

Present: Brian Cook, Catherine Hanks, Cindy Hardy, Dennis Moser (remote), Joan Hornig, Ken Abramowicz, Rainer Newberry, Rob Duke (remote), Todd Radenbaugh (remote), Doug Goering (remote), Jayne Harvie, Casey Byrne, Holly Sherouse, Libby Eddy (remote), Linda Hapsmith (remote), and Stacey Howdeshell (remote)

I. Minutes of Sept 3 meeting approved as revised Sept 17

II. Old business

A. proposed changes in Univ Regs RE General Education

David Valentine (pres, fac alliance) felt these should not go forward to various fac senates until each proposed change has a justification and an explanation. However, Fac Alliance has yet to take up the proposed changes, but is likely to do so at its next meeting. Fac Alliance is sending a letter to AAUP asking their opinion concerning the BOR ‘charge’ of last April. Depending on how that turns out, Fac Senates may be asked to send a resolution to BOR asking for reconsideration of their ‘charge’ to the faculty. In the meantime, Fac Alliance is setting up committees to look into (a) common GE Math courses, (b) common GE English courses, and (c) common UA academic calendar.

B. Revised Capstone Motion to be submitted to AdComm as discussion item for October fac senate meeting.

Motion was approved as amended (BELOW). Doug Goering agreed to bring up at Dean’s Council the question of ‘what are various programs doing for a capstone requirement’ in order to better assess the extent to which capstone requirements are already in place. Holly brought up the question ‘will this requirement be something degreeworks will need to deal with?’ to which the answer is: it will depend on the individual program. Adding ‘C’ (= capstone) designators is not envisioned by the motion. Considerable discussion about the practical implications of the motion. All faculty members present endorsed the concept, with hesitations about the mystery program that doesn’t have a capstone and for which having one would be a burden. The plan: both pursue getting more information about the capstones that programs currently employ and get feedback from Faculty Senators on the motion.

C. Progress Report from O/W/C subcommittee

Problems with current O/W: no consistent outcomes assessments
W regulations are relatively complicated and subject to interpretation; O regulations are more flexible but very complicated (2+ pages to cover a variety of possibilities)

Look for more discussion on this topic in 2 weeks!!

MOTION    proposed Capstone Requirement       Effective  Fall 2016

The Curricular Affairs Committee moves that the Faculty Senate make the following changes to the UAF baccalaureate requirements:

Each student must complete a capstone experience in the student’s major or program, as described below. It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience. Each Dean’s office will have a copy of the capstone requirements for all programs in the school/college on file.

Rationale: This change is proposed in support of satisfying UAF’s Learning outcome #4: "Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly project
that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection."

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. Hence, we envision this proposed change as not adding a significant burden to UAF faculty and students.

**Proposed criteria for Capstone Experience**

The Capstone experience will demonstrate students’ ability to integrate a wide range of learning. Students will make connections among ideas, skills, and bodies of knowledge, and will synthesize and transfer their learning to new, complex areas of inquiry, products, or situations within or beyond conventional coursework. Specifically, the Capstone will:

- Require that students demonstrate the appropriate skill levels in communication and (as appropriate) quantification.
- Integrate learning from major requirements.
- Guide students through a project or experience relevant to their educational goals
- Provide a basis for evaluating student performance
- Be suitable as a potential means for assessing the major requirements

**Proposed Instructional Objectives**

The student will integrate and apply learning from multiple disciplines and skill sets. The student will demonstrate an ability to contribute to existing bodies of knowledge, work in professional settings, and (or) create products relevant to the student’s further educational, career and life goals.

The experience will demonstrate the student possesses intellectual and practical capabilities at a level expected of one receiving a baccalaureate degree from a major university.

Each student will complete a body of work as the culmination of the student's baccalaureate education

**Course examples**

NORS 484 W/O Seminar in Northern Studies: An interdisciplinary seminar focusing on topics relating to the North with emphasis on the physical sciences, the peoples, and the socioeconomic and political aspects of the area. Specialists in the various fields will assign readings and conduct discussions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

PS F499 W Senior Thesis: Thesis will draw from the literature in at least two sub-fields of political science (U.S. government/politics, political theory, public law, comparative politics, international relations) in its analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; PS F222; senior standing; permission of instructor. (1.5+0+7.5)

**Non-course examples**

Portfolio internship performance /exhibition participation in competition professional publication student teaching

**Curricular Affairs Committee**

**Minutes for 1 October 2014 3-4 pm Reich 300**

Present: Ken Abramowicz, Casey Byrne, Brian Cook, Rob Duke, , Alex Fitts, Doug Goering, Catherine Hanks, Linda Hapsmith, Cindy Hardy, , Joan Hornig, Rainer Newberry - Chair, Todd Radenbaugh (audio); Caty Oering (audio), Holly Sherouse (audio); Jayne Harvie
III. Approved revised minutes of Sept 17 meeting

IV. Old business: what to do about C/O/W??

D. Progress Report from O/W/C subcommittee

Problems with current O/W: no consistent outcomes assessments
W regulations are relatively complicated and subject to interpretation; O regulations are more flexible but very complicated (2+ pages to cover a variety of possibilities)
Proposed C: only writing is assessed
Proposed C regulations are both complex and vague

The committee agreed to send GERC Chair Leah Berman a letter asking the committee to again take up the question of what to do with oral- and written-intensive requirements in light of the proposed ‘C’ for communication. Feedback and questions from Curricular Affairs Committee will be included.

From October 1 Agenda:

We met with several GERC members and discussed the O/W/C issues.

The GERC members attending agreed that ‘C’ proposal was left in an undeveloped state, and that it isn’t ready to go forward as a motion to the faculty senate. We also discussed that the bulk of the C dealt with writing instruction and written outcomes assessment (the signature assignment). The regulations for ‘C’ classes are still quite nebulous relative to the existing W and O requirements. However, it would appear that an existing ‘W’ class could qualify for a ‘C’ designator with a small amount of tweaking. Conversely, an existing ‘O’ class would need to be extensively modified to qualify as ‘C’. One GERC member stated ‘that wasn’t what we had in mind!’.

We were unhappy with the proposed mechanism for assessment (‘write an essay concerning your C class’) because it (a) wasn’t necessarily the best sort of essay to judge writing for all students in all majors and (b) writing about non-written communication doesn’t assess non-written communication abilities. We agreed that assessment of writing ability could be of the sort proposed (‘write an essay..’) and agreed to ask Vice Provost Alex Fitts for her comments and suggestions.

We all agreed that the C is not ready to go forward as a motion to the Senate. If we do nothing, the W/O stand as they are. At a minimum, however, we need to generate an assessment mechanism for student communication skills. We present to CAC several options for moving forward:

1. Ask GERC to either propose modifications to the current W/O or to add detail to the C proposal to come up with a more fleshed-out version that can be considered for faculty senate action.
2. Do something by revising an updating the W/O to take out indefinite language ("instructors should" or "are encouraged to") and to add clear methods of assessment and "enforcement."
3. A learning community is supposedly discussing the W (and O?) requirements. Wait for that Learning Community to come up with something.

In both meetings, we all agreed that students need work on writing consistently throughout their degree programs. It’s less clear that students need oral communication instruction beyond the 131/141 class, however. Our experience is that students in O classes do receive adequate training in oral communication, and indeed, the ‘C’ –as currently proposed--is essentially a glorified ‘W’ but with vague guidelines.
Courteous would suggest that we ask GERC to take another look at the proposed C and to provide a clearer set of proposed regulations to replace the existing O and W OR to think about modifications in the existing O and W. Many of us on the COW subcommittee think that fixing the model that we’re already using--recycling, as it were--is a more productive way to go than trying to reinvent upper division writing across the curriculum from scratch. If we go this route, we need to come up with some language as the request to GERC their further consideration of the O/W/C requirement.

A. General guidelines for 3-credit course with "W" designator
1. The lower-division writing sequence will be a prerequisite for all "W"-designated courses.
2. Instructors are encouraged to have students write an ungraded diagnostic composition on or near the first day of class to help assess writing ability and general competence in the discipline.
3. Teachers regularly evaluate students’ writing and inform students of their progress. If a major written project (research project) is part of the course, the project should be supervised in stages. If possible, a writing activity should comprise a major portion of the final examination.
4. At least one personal conference should be devoted to the student's writing per term and drafts of papers should receive evaluation from the teacher and/or peers.
5. Written material should comprise a majority of the graded work in the course for it to be designated “intensive.” “Written material” can consist of quizzes and exams with short answers or essay sections, journals, field notes, informal responses to reading or class lectures, structured essays, research projects, performance reviews, lab reports, or any forms suitable to the discipline being taught.

B. Guidelines for the "W" designator in Technical courses
6. In order to ensure that technical disciplines can meet the goals of the writing intensive requirements without compromising the technical quality of their courses, such disciplines may substitute longer courses or a series of courses (typically 1-credit labs) for each of the two necessary 3-credit writing intensive or "W"-designated courses. Courses meeting all the general guidelines will, of course, also be acceptable.
7. The longer course option allows the "W" designator for a 4- or 5-credit course in which written material comprises a portion of the grade equivalent to "a majority" of a 3-credit course. The course must also meet the other general guidelines.
8. The series option allows a student to replace one or both 3-credit "W" courses with a series of courses, each of which may be less than three credits—e.g., a series of 1-credit or 1-credit-equivalent laboratories. Each series, however, must sum to the equivalent of at least one 3-credit "W"-designated course. The initial course in the series will be designated "W1" and, while less than three credits, will fulfill all the other general requirements for a "W." The subsequent courses will base a majority of the grade on written material. Students must take the "W1" course before taking the other courses in the series.

Requirements for O and O/2 courses are two pages long. They include variations on public speaking vs. discussions and large class vs. small class.

Syllabus Statement Regarding the Oral-Intensive (O) Requirement:
This statement, or a statement similar to it, MUST appear in the syllabus of each "O" or "O/2" course. Courses failing to provide this information jeopardize their continuing status as "O" or “O/2” courses.
This course is designated as Oral-Intensive (O). This designation means that the “O” or “O/2” is evident in the course number on the syllabus (e.g., Education F452 O). The designation applies to upper-division courses.

**ORAL ACTIVITIES IN THIS COURSE WILL FOLLOW THESE RULES:**

- A minimum of 15 percent of the graded work in the O course (7.5 percent for “O/2”) will be based on effectiveness of oral communications.
- Students will receive intermediate instructor assistance in developing presentational competency.
- Students will utilize their communication competency across the semester, not just in a final project.
- Students will receive instructor feedback on the success of their efforts at each stage of preparing their presentations.

_____________________________

**Excerpts from the original GERC proposal regarding the “C” requirement:**

**Sample signature assignment guidelines for C courses:**
A signature “C” assignment would be one that asks the student to reflect in writing on the choices behind a “C” paper, presentation, or project. The assignment should be a 750-1000 word reflective paper, written in edited U.S. English, that asks students to do one of the following:

- Select at least one moment in a critical or creative process where a decision was made and discuss its relevance to the final product (presentation, paper, or project).
- Imagine a different audience or medium for the paper, presentation, or project and ask students to discuss what they would change about it in order to make the paper, project, or presentation successful in this new situation.
- Compare two different papers, presentations or projects and explain how certain features of these examples reflect audience, purpose and context.

**Instructional objectives for C courses**

- Students will be able to revise written work in response to instructor and peer feedback. ([W])
- Students will be able to write effectively for diverse audiences. ([W])
- Students will be able to recognize and navigate the concepts, genres, and conventions of the course discipline. (what exactly does this mean?? [W])
- Students will be able to select appropriate writing technologies to collaborate in personal, professional and civic relationships. ([W])
- Students will be able to listen effectively and respond effectively to communication practices in the course. ([receive oral instructions (lectures); respond oral or W])

**Minimum criteria for course approval:**

- Explicitly address at least three of the objectives listed above
- At least 50% of the grade must come from assignments utilizing the types of writing and combination of written and non-written forms of communication most appropriate to disciplinary needs and standards and course content.
- Provide guided and prompt feedback and opportunities for student revision
on student projects, presentations, and papers.

- In addition to written and spoken communication, address other forms of communication in the course discipline, such as reading and listening and multimodal, digital, or visual communication. [WHAT EXACTLY DOES THIS REQUIRE??]

- Address and practice accurate and ethical referencing/citation practices of source material as it pertains to source authority, academic honesty, and personal credibility.

- Faculty must have attended a training workshop, to be offered every semester. [How is this a criteria for Course APPROVAL?]
Faculty Affairs Committee

Minutes: Monday, September 29, 2014
2:30 PM, IAB Library, Room 311-C Irving Building, UAF

Present: Elizabeth Allman, Chris Fallen, Bella Gerlich (Ex officio), Galen Johnson (by phone), Leslie McCartney, Walter Skya, David Valentine

Guests: Bill Bristow, Debu Misra

Minutes: September 2, 2014 Minutes approved.

Joint Appointments ad-hoc Committee:
Bill Bristow said this committee was formed two years ago. Their charge was to recommend policy to evaluate faculty with joint appointments. This policy will go into new Blue Book; the previous Blue Book does not contain much about joint appointments so there needs to be more about this in the regulations. All those on this Committee held joint appointments. Bill reviewed the different types of appointments and said that the policy that was written needed to be accepted by administration. The biggest issue was the desire to have the evaluation committee of a faculty member be representative of their appointment. Three new definitions were put forth in their final report and a new category put in the tenure track for joint appointments. Minimum academic appointment is 25% which equals 1 course to be taught per year. It is up to the Dean to negotiate between colleges and how the evaluation committee is to be made up. The policy also outlines evaluations and responsibilities.

Old Business:
The FAC by-laws need to be reviewed. The by-laws should separate out scope, voting procedures and who can be a member. If the following sentence is to be kept, ‘The committee will act as a faculty advocate with legislators and candidates’ the word candidates needs to be defined. The Committee’s role should be to bring issues and possible solutions to Faculty Senate. Chris and Galen will look at the by-laws and propose revisions.

Faculty Alliance is trying to develop a relationship and enhance lines of communication with the Board of Regents. Several Regents will be stepping down in the near future. Faculty alliance is drafting a memo to Governor Sean Parnell and Bill Walker urging them to look for key characteristics in new Regent appointments.

New Business:
Everyone is to review the Joint Appointments Final Report. We will discuss this online and then give our recommendations to Cecile.

Revision of Department Chair Policy needs to be completed. Elizabeth is to contact the department chairs to get their input (sending the monochrome copy and existing policy so they can compare the two). Elizabeth will have their responses by our next meeting so we can complete this task.

Other Business:
The notion of a faculty regent is to be discussed at our next meeting.

Next Meeting:
Monday, October 20, 2014. A Doodle Poll will be send around to confirm the time.
Committee on the Status of Women
Minutes Wednesday, Oct 1, 2014; 10:30 - 11:30 am, Gruening 718

Members Present: Jane Weber, Kayt Sunwood, Mary Ehrlander, Ellen Lopez, Derek Sikes, Megan McPhee

Guest: Sine Anahita

Members absent: Michelle Bartlett, Diana Di Stefano, Erin Pettit,
Members on sabbatical: Amy Barnsley, Jenny Liu

1. Snapshot – UAF Faculty: Sine is working with Ian Olson, head of PAIR, to get latest data on salary, rank, and gender at UAF – should be available today. New dataset to analyze with some new variables (date of last rank movement, birthdate), useful since there are age differences in the data. The 2013 data had 1034 UAF faculty in the data (55% men, 45% women).

2. Title IX & mandatory reporting: Oct 2, meeting in 208 Gruening, 7pm, on this issue, in attendance will be general council, provost, students, and faculty. May be video or audio taped. The issue being - all UAF staff are mandatory reporters – all would be required to report any possible Title IX offense (incl. gender stereotyping, sexual harassment, nonconsensual sex, etc) within 24h or face reprimands, including possible firing. This is a CSW issue because more women faculty are likely to end up in a situation of being reporters.

3. Women Faculty Luncheon: Was held September 16, Tuesday 12:30 pm to 2:00 pm, Wood Center Ballroom. There were 85 attendees and there was great feedback. Discussion on how to thank staff (Jayne, Ryan, et al.) and speakers for these sorts of events? No funds in CSW to pay for thank you gifts (e.g. Gulliver's gift cards traditionally paid for by a few CSW members).

4. Women’s Center Advisory Board: Met with Chancellor Sep 19th one area of focus is retaining women faculty to Full professor. CSW, with data from Snapshot (see#1) will proceed. Possibly add new workshop, or extend current P&T (“Planning Strategically”) workshop to add promotion of Associate to Full professor.

5. Expansion of Early Childhood program. CSW asked senate to endorse staff council resolution 2014-252-1 regarding the FY16 capital budget request "Expanding Early Childhood Program (Bunnell House)". The senate admin committee agreed and it will be on the Oct 6th Senate agenda.

6. Fall Conversation Café: moved to Nov 4th. Space TBD. Kayt will talk to Wood Center. Try to get Arctic Java, north end, or maybe Ballroom or nearby space. Attendees can get their own drinks etc. Topic: Experiences, challenges, and strategies (final title TBD). Subcommittee meeting next Tues (Oct 7, 1:30) in Ellen's office.

Respectfully Submitted, Derek Sikes, These minutes are archived on the CSW website:

Core Review Committee
Meeting Minutes for September 23, 2014 and October 8, 2014
This report covers two meetings of the committee.

Tuesday, September 23, 2014

Debu Misra graciously had agreed to convene the meeting in the absence of a chair. After some discussion, Leah Berman eventually volunteered to chair the committee and the rest of the committee agreed that would be fine.

Three petitions were discussed; two petitions were denied and one was approved.

Caty Oehring raised the issue of whether AP and CLEP scores should be treated similarly to transfer courses in terms of their substitution for Core requirements (specifically for the Perspectives on the Human Condition requirements). After discussion, the issue was tabled until the next meeting.

Tuesday, October 7, 2014

The committee discussed 5 petitions. Two petitions were denied.

The other three petitions were from students trying to complete degrees after a long hiatus. Two petitions wanted to use old courses (from the late 80s, prior to the current core) to satisfy W or O and one was simply a core waiver request (which is outside the mandate of the committee). Although the petitions were denied, the committee recommended that the provost waive the W and O requirements the students were trying to petition in order to facilitate their degree completion.

We continued the discussion of AP and CLEP scores and how/whether they should substitute for PHC requirements. The discussion was tabled until the committee could discuss specific case studies.

Finally, the committee discussed the problem of students trying to use individual study courses to fulfill their W (or hypothetically, their O) requirements. In the past—and indeed, at this meeting—the committee has received petitions for courses that are either in progress or have already been completed. The committee feels that being asked to evaluate whether a course satisfies the W or O requirement at that time is inappropriate in general, and places the student in a bad position.

A form for individual study courses is already required. We are proposing the following modification of the form and approval process:

- Add a line to the form under course information which would say something like, “Is this a Writing or Oral Intensive Course?” Yes/No W or O (syllabus must be included already with the individual study request)

- Include a statement that W or O must be approved prior to the beginning of the individual study class.
- Add an additional signature line for the Core Review Committee. These would be submitted to the Office of Admissions and the Registrar (OAR) once the dean has signed them and a representative from the registrar’s office who sits on Core Review would bring them to Core Review Committee for discussion and a final signature, if approved.

Discussions are underway to determine the appropriate procedure to determine whether this should be implemented and if so, what the process is.

Core Review Committee
Meeting Minutes for Tuesday 10/21/14

CLA:
Jennifer Schell, English (15)
Brian Kassof, Social Sciences (16)
Kevin Sager, Communication (CLA 16)

CNSM:
Leah Berman, Math (16) - Chair

LIBRARY:
Tyson Rinio (LIB 15)
At-Large:

Unit Core Assessment: Tony Rickard,
CNSM Kevin Berry, SOM
Ex Officio:
Dean's Council Rep - Allan Morotti OAR: Caty
Oehring, Holly Sherouse Academic Advising Ctr.:
Ginny Kinne
Rural Student Services: Gabrielle Russell

Meeting began at 4:03.

Petition #1: student under 13-14 catalog wanted to use a D in MATH 103 to satisfy a core requirement. Petition was denied.

New course proposals for Core:
1. A new course Math 110 (precalculus) has been submitted and wants to satisfy the math requirement for Core. This was approved.
2. Elementary Education wants to remove a W from ED 412 and put both a W and an O on ED 486 (Media Literacy).

The committee has no problem removing the W from ED 412 but opted to wait until we’ve dealt with ED 486. Tabled.
The committee had concerns about the specific distribution of assessments in the ED 486 syllabus vis a vis the proportion of O and W material precisely, in conjunction with the O and W listed guidelines. Brian agreed to follow up. Tabled.

3. Alaska Native Studies proposed that ANS 101 receive an X designation. The form didn’t explain why/what for/what category. Leah had emailed the faculty contact prior to the meeting, but apparently the faculty contact is no longer employed at UAF (?) Tyson agreed to follow up. Tabled.

Meeting adjourned at 4:36.
I. Franz Meyer called the meeting to order at 3:00 pm.

II. Roll call and Introduction of Committee Members

Present: Bill Barnes, Diana DiStefano, Cindy Fabbri, Andrea Ferrante, Mark Herrmann, Brian Himelbloom, Kelly Houlton, Duff Johnston, Chris Lott, Franz Meyer, Debu Misra (visiting), Channon Price, Leslie Shallcross, Amy Vinlove
Excused: Trina Mamoon, Joy Morrison

III. Welcome of Faculty Senate President-Elect Dr. Debu Misra

It was a real treat to welcome Debu to our meeting. He explained that he is trying to gauge where we stand as faculty and where we are going by visiting all standing and permanent Faculty Senate committees as well as some sub-committees. In particular, he is looking for where committees may be stalled and would like to assist them in moving forward. He meets with Provost Henrichs twice a month and will make sure that issues are heard.

IV. Summary of activities of the Office for Faculty Development

Since Joy is currently traveling for the Teaching Professor Technology conference, she sent a brief email regarding the three remaining events for October:

Oct 14 is the Fulbright folks visit. They will talk to both students and faculty interested in a teaching or research scholarship abroad. RASM 340, 1-2 pm

Oct 21 is the mentoring lunch for all new faculty and their mentors

Oct 28 Walter Crary, the new veterans’ affairs officer, will talk about the needs of vets returning to university. We have so many that this new office was created.

Joy also states, “I am interested in finding teaching faculty to attend the Feb 20-22 Lilly West Teaching Conference. Because my budget for the year is already gone I am taking a month of Leave Without Pay next May and will put the savings back into the budget.”

V. Report by UAF eLearning & Distance Education on recent faculty development activities

We happily welcomed new ex-officio member Chris Lott to our committee, and he shared a handout summarizing the eLearning and Distance Education’s recent faculty development efforts. He articulated their top three challenges: 1) how to reach all faculty members; 2) how to inform them of faculty development opportunities; and 3) how to get faculty members to commit to the necessary timeframe for both short- and long-form development sessions. Franz stated that he believes the FDAI committee should determine how to support eLearning and Distance Ed in their faculty development efforts. Chris
added that they are trying to overcome the image that they are only providing development for e-
learning and distance courses. Since eLearning and Distance Ed will be moving into the Bunnell
building in May, their closer proximity will certainly help. Parking issues for students needing to test in
a proctored setting will be an issue, so they are looking into what options may be available to students.
Chris noted that one option is to move away from proctored exams.

Debu voiced concern that some faculty that have developed distance and/or online courses did not have
their worked valued by deans or colleagues. The Provost has asked that faculty increase the amount of
online offerings in the future. Chris noted that developing online courses is a considerable amount of
work, and while it does not work for everyone or every course, the work that goes into such
development should be recognized and valued for what it is.

Franz asked us to focus for the next few months on how we can support and promote eLearning’s efforts
regarding faculty development.

VI. News on the establishment of a sub-committee on Electronic Course Evaluations

A sub-committee of the FDAI committee will be formed to create new questions and formats for
electronic course evaluations to pilot in spring 2015. The sub-committee will consist of volunteers from
FDAI along with a few people outside our committee so that all types of course deliveries will be
represented. This sub-committee will report to FDAI at our monthly meetings. Franz will send out an
email to the FDAI committee to ask for more volunteers and to ask what types of courses each volunteer
has experience in teaching. Volunteers so far include Duff Johnston, Kelly Houlton, Andrea Ferrante
and Franz Meyer. The sub-committee will need to be chaired and will follow the same common
guidelines as other Faculty Senate committees. The new vendor (eXplorance/Blue) will provide a
sample of their forms and questions. In addition to developing new questions, the sub-committee will
also look at how to implement the pilot in the spring and will look at any kinks that may arise and how
to fix them.

Debu pointed out that “evaluation” should be associated with a faculty member’s peers while “opinion”
should be associated with students. There was some discussion on this as on the one hand, students are
not qualified to evaluate their professors, while on the other, students’ assessment of instruction are very
helpful for faculty in revising their courses. We also discussed the issue of low response rates. Andrea
pointed out the importance of creating an awareness of how helpful and important student assessment is
and how it is used by faculty. Franz added that the new vendor was recommended in part because of
their proactive process of helping institutions address low response rates.

VII. FDAI Committee mission and bylaws

Faculty Senate has asked that all committees develop or update their mission statements and bylaws and
send them in for review so that identified bylaws common to all committees can be stated up front. Each
committee will then list any specific bylaws under their particular section without having to restate all
the common bylaws. In addition, common themes will be identified and separated among the
committees accordingly. Franz will start an online discussion comparing our committee’s mission
statement and bylaws with the other committees so we can help identify any overlap. He will also be
seeking input on such questions as: 1) who can vote; 2) what is a quorum; and 3) how are absences dealt
with?
Debu added that we should gather faculty members’ thoughts on Faculty 180. He also asked if our meetings were open, and if so, our agendas should be posted online. Franz will talk to Jayne Harvey about this.

VIII. Other Business

No other business was discussed.

IX. Upcoming Events

   a. Next FDAI meeting: 11-10-14 at 3:00 pm
   b. Next Administrative Committee meeting: 10-24-14
   c. Next Faculty Senate meeting: 11-3-14

IX. Adjourned at 4:05 pm (Respectfully submitted by Kelly Houlton.)
Research Advisory Committee
Meeting Minutes for September 22, 2014

Present: Orion Lawlor, Kris Hundermark, Andrew McDonnell, Georgina Gibson, Anna Berge, and Andrew Mahoney

Actions:
Orion Lawlor was elected as chair.

The committee discussed the recent UAF Research Review effort, led by Dan White. One unexpected observation from the review was the wide variability in grant proposal submission rates at various units across campus. This has many possible causes, for example some unit peer and university-wide faculty review committees might not even consider “research” to include grant writing, and not all deans encourage external funding.

Regarding the purpose of future research reviews, Andrew Mahoney suggested collecting some information on “what research means” in various departments, since there is quite a bit of variation. Andrew McDonnell suggested “What can we do to promote research in this unit?” Georgina suggested “Steer them away from places to cut,” since an explicit cost-saving goal would produce defensive reviews instead of productive improvements. One option is for RAC to interview faculty from various departments, and ask “How could we make you a more productive researcher?”

What does “research” mean in different units represented on the committee?

Kris Hundermark: IAB Wildlife. The institute is 100% research funded, and faculty evaluation depends on money in and publications out. Typically Kris teaches two courses per year, so 53% research, 37% teaching, 10% service. A few faculty focus on teaching, and give up their research appointment. Overhead-bearing grants are prized, and there is lower overhead available for cooperative research grants.

Andrew Mahoney: GI. 10% service isn’t listed on any grant proposals. He hasn’t gotten a substantive annual review yet, in 4.5 years (how often do research faculty get reviewed?), and can’t imagine finding the time to fill out a promotion packet (nobody is demanding it, it’s just “add-on” stuff). Teaching appointments in the GI are often 25% or less, sometimes with no teaching portion. There is still administrative push-back if fund 1 exceeds 10%, for things like writing proposals.

Orion Lawlor: CEM Computer Science. As a tripartite academic unit, a typical teaching load of four courses per year, and all faculty do some research including publication, but funding varies widely. A few superstars have research buyouts, and bring in million-dollar grants, but some do not even write proposals. INE returns a portion of ICR to the PI, in a real account.

Georgina Gibson: IARC. In some institutions, some faculty haven’t had a substantive review in 10 years. The director is very busy, if they’re even in town; and with 50+ FTE reporting the workload for robust reviews would be substantial. IARC is having a difficult time because the Japanese government funding went away last year.

Andrew McDonnell: SFOS. Working on a research initiation grant, for equipment. The classic SFOS grant is a big, interdisciplinary research project, and typical funding is from NSF, NOAA, Sea
Grant, and some other agencies. An SFOS PI doesn't get any ICR recovery.

Anna Berge: Alaska Native Language Center within CLA. 75% research appointment, teaches two classes/year. Applies for grants with NSF, NIH, and some smaller agencies. ICR recovery is possible, if the PI knows to ask for it. School of Education grants with lower ICR have a difficult time getting back support. Some departments, such as foreign languages or history, have a difficult time finding large grant proposals.

Future topics for the committee to look at:

- Distribution of ICR back to the PI
- Type of support available while pursuing grants
- Post-award project management tools: business office support for hiring, budgeting
- The provost would like RAC to suggest a *process* for evaluation of research faculty, revising the blue book, since there are now many more research faculty.
