- Who has the duty to report to appropriate school officials sexual harassment or any other misconduct by students or employees
- Any individual who a student could reasonably believe has this authority or responsibility
“Supervisors and faculty will promptly respond to complaints of sexual harassment to determine what, if any, remedial action may be warranted. Title IX Disclosure
Requests for Confidentiality

• Disregarding requests can have a chilling effect and discourage other students from reporting
• Requests are taken seriously
• All reasonable steps will be taken to honor requests of confidentiality and protect the student
• Overrides of confidentiality will be limited
Factors to Consider

- Risk of the alleged perpetrator committing additional acts of sexual or other violence
- Sexual violence complaints about the same perpetrator
- Perpetrator history of violence and arrests
- If the perpetrator threatened further violence
- If the sexual violence was perpetrated with a weapon
- The age of the student subjected to the sexual violence
What should a responsible employee tell a student who discloses an incident of sexual violence?

**Answer:** Before a student reveals information that he or she may wish to keep confidential, a responsible employee should make every effort to ensure that the student understands:

(i) the employee’s obligation to report the names of the alleged perpetrator and student involved in the alleged sexual violence, as well as relevant facts regarding the alleged incident (including the date, time, and location), to the Title IX coordinator or other appropriate school officials,

(ii) the student’s option to request that the school maintain his or her confidentiality, which the school (e.g., Title IX coordinator) will consider, and

(iii) the student’s ability to share the information confidentially with counseling, advocacy, health, mental health, or sexual-assault-related services (e.g., sexual assault resource centers, campus health centers, pastoral counselors, and campus mental health centers).
