Tribal Natural Resources Management Planning

Develop an effective tool to advocate for tribal management of traditional lands and resources.

Natural resources management planning is fundamental in developing effective local natural resource management.

Training & education in natural resource management
Managing fish & wildlife populations
Developing sustainable forestry & agriculture
Identifying & protecting cultural resources
Developing sustainable local energy resources

Sign up now to become one of the six Tribal Governments that partners with I-AC’s Tribal Management Program to implement a Tribal Natural Resources Management program.

Each Tribal Government partner receives:
♦ One-on-one mentoring
♦ Proactive solutions for your community’s needs
♦ Fully funded training and travel for two people
♦ Technical assistance

Each Tribal Government partner must:
♦ Complete application and readiness checklist
♦ Support two people committed to training and leading the process in their community

Spring/Summer 2014 courses:

Intro to Tribal Natural Resources Management Planning
Designing a Tribal Natural Resources Management Planning Project

Completion of coursework can lead to a university certificate and/or a degree in Tribal Management.

This project was supported by: Alaska Native-Serving and Native Hawaiian-Serving Institutions Education Competitive Grants Program (ANNH) Competitive Grant no. 2011-38426-30621 from the USDA National Institute of Food and Agriculture.
