To honor Alaska’s first people and strengthen the bridge between their cultures and higher education, we will develop the Troth Yeddha’ Park and an indigenous studies center. In celebration of the Troth Yeddha’ Legacy initiative, Chancellor Brian Rogers, Sherry Modrow and Vice Chancellor Evon Peter, in partnership with Jones and Jones Architects + Landscape Architects, cordially invite you and a guest to an evening reception at the Seattle architects’ Pioneer Square location. Join us and learn more about the progress of this meaningful initiative.
