

SUMMER INTERNSHIPS

ALASKA CENTER FOR ENERGY AND POWER

WANT TO EXPLORE YOUR PASSION FOR ENGINEERING, COMPUTER SCIENCE, OR COMMUNITIES IN ALASKA?

The Alaska Center for Energy and Power (ACEP) Summer Internship Program is an opportunity for students to gain hands-on research experience, faculty mentorship and applied skill development. We are building a diverse cohort of undergraduate interns who want to explore how to apply their curiosity and passions for energy, engineering, computer science, and communities in Alaska.

BENEFITS INCLUDE:

- 10 week research project
- ACEP faculty mentor
- Competitive hourly rate
- On-campus housing
- Professional development
- Cohort activities
- Local field trips

DECEMBER 1, 2024
Application opens

JANUARY 24, 2025
Application DUE
