4-5 p.m.	<b>West Ridge Tour</b> <i>West Ridge is home to many of UAF's science and research areas. The campus tour doesn't go this far up the hill, so we're hosting an "exclusive" tour at the end of the day.</i>	

# ACADEMIC OPEN HOUSE AND PRESENTATIONS

## Alaska Native Studies and Rural Development

Brooks 302

Improve the quality of life in Alaska's indigenous and rural communities through preparation for management and leadership positions in village governments, corporations, organizations and government agencies.

## Business and Management

Duckering 342

Innovation in teaching, discovery and service prepares students for professional success in the fields of accounting, business administration, economics and emergency management.

## Career and Technical Education

Gruening 409

The Community and Technical College programs prepare students for the workforce in public safety, technical and trade fields, and the healthcare industry.

## Education

Gruening 301

Prepare for a career in K-12 education while developing a deep understanding of the cultural, environmental and emotional context of education in Alaska's diverse communities.

## Engineering and Mining

ELIF 301/305

Engineers invent, design or improve machines, structures and systems we use every day. Help build a better world through civil and environmental, computer science, electrical and computer, mechanical, mining and geological and petroleum engineering.

## Liberal Arts — Humanities, Social Sciences, Languages and the Arts

Wood Center ballroom

The liberal arts examines the human experience by studying arts, humanities, social sciences, human behavior and languages to better understand and interpret the world and our place in it. Join the College of Liberal Arts for their annual Open House and connect with all of the academic departments to explore degree programs and opportunities.

## Marine Biology, Fisheries and Ocean Sciences

O'Neill 201

Healthy communities, cultures and economies depend on healthy oceans and waterways. You can help protect and promote this vital resource through fisheries, marine biology or oceanography.

## Natural Sciences and Mathematics

Reichardt Building

Studying natural sciences opens a world of career possibilities. Explore geosciences, forensic chemistry, physics, space science, biomedicine, wildlife conservation, environmental science or mathematics, to name just a few.

## General Studies — Undecided and Undeclared

Schaible Auditorium

Unsure what you want to study? Not ready to declare a major? Learn how you can explore academic and career interests.
