

Vegetables and Herbs 1995

by
Pat Wagner, Grant Matheke and Pat Holloway

The family food garden contains a wide variety of vegetables and herbs that can be grown in interior, Alaska and shows some of the cultivation techniques necessary for optimum production. Cultivars include several developed at the Agricultural and Forestry Experiment Station in Fairbanks and Palmer; standard cultivars that have proven reliable in home gardens and commercial businesses; and new promising cultivars. Recent All-America Selections winners are also grown here. Some vegetables such as carrots and beans are direct seeded in late May. Others are started in our greenhouse and transplanted into the garden in June.

Special thanks to the following seed companies for providing free seeds this year: Ball Seed, Johnny's Selected Seeds, Geo. W. Park Seed Co., Stokes Seeds and Vaughan's Seed Co.

No endorsement of firms mentioned is intended, nor is criticism implied of those not mentioned.

Anise-Hyssop		Richters
Basil	Genovese	Stokes
Basil	Lettuce Leaf	Stokes
Basil	Mammoth	Richters
Basil	Purple Ruffles	Burpee
