

Vegetables and Herbs 1999
by
Grant Matheke and Pat Holloway

The family food garden contains a wide variety of vegetables and herbs that can be grown in interior Alaska and shows some of the cultivation techniques necessary for optimum production. Cultivars include several developed at the Agricultural and Forestry Experiment Station in Fairbanks and Palmer; standard cultivars that have proven reliable in home hardens and commercial businesses; and new promising cultivars. Recent All America Selections winners are also grown here. Some vegetables such as carrots and beans are direct seeded in late May. Others are started in our greenhouse and transplanted in the garden by the first week of June. This year we are conducting special trials with red cabbage for Denali Seed Co., Anchorage. Special thanks to the following seed companies for providing free seeds for our trials: Ball Seed Co., Johnny's Selected Seeds, Harris Seeds, Geo. W. Park Seed Co., Stokes Seeds, Thompson and Morgan, Inc. and Vaughan Seed Co. (No endorsement of firms mentioned is intended, nor is criticism implied of those not mentioned.)

Vegetables

Asparagus, Purple Jumbo, Thompson & Morgan
Broccoli, Arcadia, Johnny's
Broccoli, Early Dividend, Twilley
Broccoli, Emperor, Stokes Seed
Broccoli, Eureka, Stokes Seed
