

Alaska Native Studies Student Learning Outcomes Assessment Report 3/17/06

1. Please find attached the ANS SLOA plan. The plan was created in Spring of 2000 and implemented in Spring of 2001.

2. The major effort was to collect sample student papers from ANS majors. We currently have 8 majors. We have created 21 files since 2001. We currently have 14 files that we believe are active. 6 papers were collected this year. 4 were collected in 2004-2005.

a. We have had 3 senior exit interviews done since 2002. We collected one last year and expect to collect one this year.

3. We plan to collect more sample student papers for the portfolios and to administer 2 exit interviews.

4. No faculty group has reviewed the data since we do not yet have a significant body of information to analyze.

5. No curriculum changes were made last year related to assessment

6. No budget implications.

James Ruppert, Chair
Alaska Native Studies
