

Outcomes Assessment Implementation Summary

Academic Year

	2007-2008	2008-2009	2009-2010
Assessment Information Collected	1) 100% of the paramedic students were able to pass the Academy's practical & written final. 2) 90% pass rate on first attempt at national paramedic written exam.	1) 100% of the paramedic students were able to pass the Academy's practical & written final. 2) 90% pass rate on first attempt at national paramedic written exam.	1) 100% of the paramedic students were able to pass the Academy's practical & written final. 2) 90% pass rate on first attempt at national paramedic written exam. 3) Surveys & portfolio reviewed by advisory committee.
Conclusions drawn from this information	1) The program maintains consistent quality in instruction.  2) Faculty continually discusses any needed curriculum adjustments based on exam scores and employers.	1) The program maintains consistent quality in instruction.  2) Faculty continually discusses any needed curriculum adjustments based on exam scores and employers.	1) The program maintains consistent quality in instruction.  2) Faculty continually discusses any needed curriculum adjustments based on exam scores and employers.
Curricular changes resulting from conclusions	1) The capacity of the class is limited due to the limited clinical sites in Fairbanks.  2) Other clinical and field internship possibilities being addressed by faculty.	1) Program completed national accreditation through CoAEMSP . First nationally accredited paramedic program in Alaska.	1) Facility has maintenance problems related to ventilations. Classrooms are cold. Possibility of impacting program in the future and being addressed by the administration.
