

Major & Career Exploration

1

What are your favorite academic subjects? What subjects are you strong in and what subjects do you find more challenging?

Strengths

Weaknesses

2

Think about your interests, hobbies, work and volunteer experiences. What did you enjoy doing? Where do you feel engaged and challenged? What types of activities do you NOT enjoy doing?

Favorite experiences

Least favorite experiences

3

What do you see yourself doing for work in the future? Majors do not always lead to specific jobs, but some careers require a specific academic background. Do you know what education you need to succeed in the field(s) you are interested in?

Possible Careers

Education Needed

- Do you know anyone in these jobs: Talk to people who have a degree or a job in an area you are interested in.
- Attend job fairs and department open houses: Ask questions!
