B.A., B.S. Degrees

Minimum Requirements for Degrees: 120 credits

The number of new fields in which professional mathematicians find employment grows continually. This department prepares students for careers in industry, government and education.

In addition to the major programs, the department provides a number of service courses in support of other programs within the university. Current and detailed information on mathematics degrees and course offerings is available from the department.

The department maintains a math lab which is available for assistance to all students studying mathematics at the baccalaureate level.

The Department of Mathematical Sciences also offers programs in computer science and statistics (see separate listings).

Major—B.A. or B.S. Degree

1. Complete the following pre-major requirement:
   a. Students must be ready to matriculate into MATH 200, before they will be allowed to declare mathematics as their major.

2. Complete the general university requirements (page 107).

3. Complete the B.A. or B.S. degree requirements. (See page 111 or 112. As part of the B.S. degree requirements, complete PHYS 103X and PHYS 104X, or PHYS 211X and PHYS 212X.)

4. Complete the following program (major) requirements:*

6. Minimum credits required 120

   * Student must earn a C grade or better in each course.

   ** Satisfies core or B.A. or B.S. degree requirements.

   *** An elective package must be approved by a mathematical sciences advisor and must include at least 12 credits at the 300-level or above. Students who are obtaining a single B.S. or B.A. with mathematics as a second major may substitute up to 9 credits of approved courses with strong mathematical content for mathematical sciences electives.

   ****We strongly recommend that prospective secondary science teachers seek advising from the UAF School of Education early in your undergradutae degree program, so that you can be appropriately advised of the state of Alaska requirements for teacher licensure. You will apply for admission to the UAF School of Education's post-baccalaureate teacher preparation program, a one-year intensive program, during your senior year.

   Note: All mathematics majors—including double majors—must have an advisor from the mathematical sciences department.

   Note: In addition to meeting all the general requirements for the specific degree, certain mathematics courses are required of all mathematics majors. (At least 12 approved mathematics credits at the 300-level or above must be taken while in residence on the Fairbanks campus.) All electives must be approved by the department.

Minor

1. Complete the following:
   Math 200X—Calculus 4
   Math 201X—Calculus 4
   Math 202X—Calculus 4
   At least 9 additional credits from MATH 215, STAT 300, any 300- or
      400-level MATH course; or electives approved by mathematics
      advisor 9

2. Minimum credits required 21

   Note: Courses completed to satisfy this minor can be used to simultaneously satisfy other major or general distribution requirements.
