

Help shape UAF's budget priorities

Do you have an idea that will help UAF meet its strategic goals and has a high return on investment? With support from your dean or director, you can request funding for your idea. The chancellor and core cabinet select proposals for possible funding or inclusion in UAF's annual budget request to the UA president and Board of Regents. This year's submissions are for potential funding in FY27. Visit the UAF Office of Management and Budget website to find submission forms when they are available.
