Notes to the University of Alaska Approved Operating and Capital Budgets Fiscal Year 2019

This publication was prepared by the University of Alaska Statewide Strategy, Planning, and Budget Office. It presents the University of Alaska's actual and budget information in accordance with the State of Alaska reporting requirements. This report includes revenue by funding source and expenditures by NCHEMS for the fiscal years ended June 30, 2017 and June 30, 2018 and the management plan authorized budgets for the fiscal year ending June 30, 2019. The UA audited financial statements can be found at <http://www.alaska.edu/fund-accounting/>.

1. In prior publications, State Appropriations included General Fund, General Fund Match, General Fund Mental Health Trust and Technical Vocational Education Program funds. Effective FY2016, State Appropriations have been replaced with Unrestricted General Funds (UGF). Throughout this publication, unless otherwise noted, UGF includes: General Funds, General Fund Match, and General Fund Mental Health Trust.
2. License Plate Revenue is pass-thru funding for Alumni at Anchorage Campus, Fairbanks Campus, and Juneau Campus. In Banner, the actuals occur at the campus, but the state requires it be reported in the Systemwide Component (SYSBRA) where it is appropriated. Revenue fund (1234 DGF) was established in FY2015 to record UA Alumni License Plate revenue. In FY2018 the appropriation was moved from the language to the numbers section of the operating bill.
3. In accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities, the university is required to report student tuition and fee revenue net of allowances and discounts.

The tuition allowance is defined as the difference between the stated price for tuition and fees (and room and board) and the amount(s) paid by the student or directly by third parties on the student's behalf (i.e. Scholarships, Federal Aid, etc.). In other words, the allowance is the amount of institutional resources provided to the student for tuition. One of the benefits in recording the tuition allowance is the elimination of the double-counting of revenue previously inherent in university fund accounting. This occurs when Pell grants, for example, are recorded as both federal receipts and as tuition revenue.

From an accounting budgetary perspective, the effect of recording the tuition allowance (as compared to years prior to FY03) is a reduction in student tuition and fee revenue (unrestricted funds) and an equal reduction in student aid or miscellaneous expense (restricted funds) at the allocation level. These transfers between unrestricted revenue and restricted expenditures cause unrestricted expenditures in the Scholarship NCHEMS category to show as a negative number when reported separately.

4. In prior publications, Unrestricted Expenditures/Encumbrances included Unrestricted (10) and Designated (15) fund types. Throughout this publication, Unrestricted Expenditure/Encumbrances will include Unrestricted (10) fund type only.
5. In FY2019 the University of Alaska Foundation and the Education Trust of Alaska were transferred from Statewide Services into a separate RDU, Enterprise Entities.
6. The State of Alaska budget system (ABS) requires financial reporting in the thousands of dollars. This may cause minor rounding disparities between this publication and State reports.

Notes:

- (1) The Department of Revenue's Spring 2018 oil forecast for FY18 is 0.550 mbd at \$61.00 per barrel; the FY19 forecast is 0.546 mbd at \$63.00 per barrel.
- (2) In both FY18 and FY19, the operating budget appropriated only the Constitutional minimum of 25% of royalties to the Permanent Fund, resulting in an increase of \$55 million in UGF revenue in FY18 and \$79 million in FY19. The revenue forecast for FY18 reflects this, but the FY19 revenue forecast does not. This adjustment for FY19 aligns the revenue forecast with appropriations.
- (3) The operating budget appropriated 5.25% of the Permanent Fund's market value from the Permanent Fund Earnings Reserve Account to the general fund. Of this \$2.7 billion, the amount necessary to pay a dividend of \$1,600 per recipient is appropriated to the dividend fund; the remaining \$1.7 billion is available for public services. The split shown in this summary is an estimate based on the previous year's number of dividend recipients.
- (4) Carryforward is money that was appropriated in a prior year that is made available for spending in a later year via multiyear appropriations. Repeals increase revenue by reducing prior year authorization. Total carryforward into FY19 will be unknown until the close of FY18. Reappropriations to operating budget funds are counted as UGF revenue.
- (5) Restricted revenue equals spending for each category. Designated general funds include 1) program receipts that are restricted to the program that generates the receipts and 2) revenue that is statutorily designated for a specific purpose. Other funds have stricter restrictions on usage, and federal funds originate from the federal government and can be used only for a particular purpose.
- (6) Duplicated authorization is in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. Duplicated authorization also includes the expenditure of bond proceeds when debt service on bonds (which includes repayment of principal) will be reflected in future operating budgets.
- (7) The fiscal note to HB 331 (Ch. 33, SLA 2018) included a \$100 million appropriation to the Oil and Gas Tax Credit Fund, effective only if legal issues prevent bonds from being issued, and a \$27 million appropriation for debt service. It also included a \$738 million appropriation of bond proceeds, which is counted under duplicated funds.
- (8) Including duplicated fund sources in the amount of capital spending provides a valuable measure of "money on the street" because it includes projects funded with bond proceeds and other duplicated fund sources.
- (9) The post transfer deficits for FY18, estimated to be \$2.1 billion, and FY19, estimated to be \$700 million, will be drawn from the Constitutional Budget Reserve Fund.
- (10) "Fund Transfers" refer to appropriations that move money from one fund to another within the Treasury. Although transfers are not true expenditures, they reduce the amount of money available for other purposes so must be included in the calculation of the surplus/deficit. For reserve accounts, a positive number indicates a deposit and a negative number indicates a withdrawal. When money is withdrawn and spent, the expenditure is included in the operating or capital budget, as appropriate.

Notes:

- (1) The Department of Revenue's Spring 2018 oil forecast for FY18 is 0.550 mbd at \$61.00 per barrel; the FY19 forecast is 0.548 mbd at \$63.00 per barrel.
- (2) In both FY18 and FY19, the operating budget appropriated only the Constitutional minimum of 25% of royalties to the Permanent Fund, resulting in an increase of \$55 million in UGF revenue in FY18 and \$79 million in FY19. The revenue forecast for FY18 reflects this, but the FY19 revenue forecast does not. This adjustment for FY19 aligns the revenue forecast with appropriations.
- (3) The operating budget drew a 5.25% percent of market value (POMV) draw from the Permanent Fund Earnings Reserve, equal to \$2.7 billion in total. The amount necessary to pay a dividend of \$1,600 per recipient is deposited in the dividend fund, the rest is available for public services. The split shown in this summary is an estimate based on the previous year's number of dividend recipients.
- (4) Carryforward is money that was appropriated in a prior year that is made available for spending in a later year via multiyear appropriations. Repeals increase revenue by reducing prior year authorization. Total carryforward into FY19 will be unknown until the close of FY18. Reappropriations to operating budget funds are counted as UGF revenue.
- (5) Restricted revenue equals spending for each category. Designated general funds include 1) program receipts that are restricted to the program that generates the receipts and 2) revenue that is statutorily designated for a specific purpose. Other funds have stricter restrictions on usage, and federal funds originate from the federal government and can be used only for a particular purpose.
- (6) Duplicated authorization is in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. Duplicated authorization also includes the expenditure of bond proceeds when debt service on bonds (which includes repayment of principal) will be reflected in future operating budgets.
- (7) The fiscal note to HB 331 (Ch. 33, SLA 2018) included a \$100 million appropriation to the Oil and Gas Tax Credit Fund, effective only if legal issues prevent bonds from being issued, and a \$27 million appropriation for debt service. It also included a \$738 million appropriation of bond proceeds, which is counted under duplicated funds.
- (8) Including duplicated fund sources in the amount of capital spending provides a valuable measure of "money on the street" because it includes projects funded with bond proceeds and other duplicated fund sources.
- (9) The post transfer deficits for FY18, estimated to be \$2.1 billion, and FY19, estimated to be \$700 million, will be drawn from the Constitutional Budget Reserve.
- (10) Fund Transfers refer to appropriations that move money from one fund to another within the Treasury. Although transfers are not true expenditures, they reduce the amount of money available for other purposes so must be included in the calculation of the surplus/deficit. For reserve accounts, a positive number indicates a deposit and a negative number indicates a withdrawal. When money is withdrawn and spent, the expenditure is included in the operating or capital budget, as appropriate.

FY19 Appropriation and Allocation Structure

The University of Alaska has a single appropriation structure. For organizational and managerial purposes, the university's budget is grouped into Results Delivery Units (RDU) with related components (allocations) as outlined below. The legal effect of this structure is that budget controls are established at the allocation level, but adjustments can be made between those allocations with the concurrence of the Office of the Governor through the revised program process. The Management Plan scenario allows agencies to adjust their budgets and reflect management decisions in allocating staff and funding to implement their current year programs and services within their existing budget. These budget adjustments are called revised programs.

Descriptions**

State Fund Groups ¹

Unrestricted General Funds (UGF): As the name indicates, there are no statutory designations or restrictions on funding included in this group. Funding in this group can be (and is) appropriated for any purpose.

Designated General Funds (DGF): Although the Constitution prohibits the dedication of funds (with a few exceptions), and the Governmental Accounting Standards Board indicates that all state funds are technically part of the general fund, the legislature has statutorily designated some revenue sources for a specific purpose. For instance, by statute, § 37.05.146 (b)(2) program receipts for the University of Alaska (as defined in AS 14.40.491) are accounted for separately, and appropriations from these program receipts are not made from the unrestricted general fund.

Federal Funds (Fed): Contains funding received from the federal government and the legislature has limited discretion over the use of this funding. Typically, federal funds must be spent as specified by the federal program.

Other Funds (other): Contains fund codes over which the legislature has limited discretion. It also includes duplicated funding (such as interagency receipts).

State Expenditure Categories (Natural Classifications) ¹

The State requires agencies to report actual and budgeted expenditures in specific categories. The State's definition of these categories is as follows:

Commodities: Proposed expenditures for the purchase of items normally consumed or expended within one year of being acquired or equipment purchases valued under \$5,000.

Contractual Services: Proposed expenditures for services provided by a 3rd party including communications, printing and advertising, utilities, repairs and maintenance, equipment rentals and lease/purchases, judicial expense, professional services, and data processing chargeback costs.

Capital Outlay (Equipment/Land/Buildings): Proposed expenditures for the purchase of durable items with a unit value between \$5,000 and \$25,000.

Miscellaneous (UA Debt Service): This line item is used for expenditures that are not specifically covered by other line items. For budget and actuals, UA uses this line item for debt service payments only.

Personal Services (UA Salaries & Benefits): Proposed expenditures for the staffing costs of the budget request unit or allocation. The costs include salaries, premium pay and benefits for all permanent and non-permanent positions.

Grants/Benefits (UA Student Aid): Funds disbursed by the state to units of local government and to individuals in payment of various benefits and claims. Types of grants include: Designated, Municipal, Named Recipient, Unincorporated, Competitive, Grants to Individuals, etc.

Travel: Proposed transportation and per diem expenditures incurred while traveling on authorized state business and proposed expenditures associated with the moving or relocation of an employee.

Revenue Descriptions

Unrestricted General Funds (UGF):

General Fund-1004 (UGF): Monies received from the general operating fund of the state used to finance the general operations of the university.

General Fund Match-1003 (UGF): Monies received from the general operating fund of the state specifically authorized for funding matching requirements of restricted funds and are reserved for these purposes exclusively.

GF/Mental Health-1037 (UGF): GF/Mental Health revenues help fund the Masters of Social Work program at UAA as well as other programs approved by the Mental Health Trust. These programs provide specialized curriculum for working with the beneficiary groups of the Mental Health Trust Authority and Alaska Native populations, providing an in-state avenue for social workers in Alaska to earn a Master's Degree. These degrees are required for licensing for many federal and state positions, including clinical social workers. Licensed clinical social workers are the primary providers of mental health services in much of Alaska, particularly communities served by and dependent upon community mental health centers.

Designated General Funds (DGF):

License Plates-1234 (DGF): Fund was established in FY2015 to record UA Alumni License Plate revenue.

Technical and Vocational Education-1151 (DGF): Since 2001 Senate Bill 137 (established in 2000 by SB289), has provided Technical Vocational Education Program (TVEP) funding to be used for workforce development (WFD) programs at UA.

University Receipts:

Interest Income-1010 (DGF): Interest Income includes revenue generated from short-term investments of grant receipts and auxiliary enterprise receipts.

Auxiliary Receipts-1015 (DGF): Auxiliary Receipts include all revenues associated with self-support activities such as the bookstore, food service and housing operations.

Student Tuition/Fees-1038 (DGF): Student Tuition/Fees includes revenues generated from tuition charged to students for instructional programs as well as fees charged in support of specific activities such as material, lab, activity and health center fees.

Indirect Cost Recovery-1039 (DGF): Indirect Cost Recovery (ICR) revenues are generated from federal and other restricted grants, and are used to help offset administrative and support costs that cannot be efficiently tracked directly to grant programs. ICR rates vary according to rates audited and approved by the university's cognizant federal oversight agency.

University Receipts-1048 (DGF): University Receipts include restricted revenues received from corporate sources, private donations, and local governments, as well as revenues received from publication sales, non-credit self-support programs, recreational facility use fees, and other miscellaneous sources.

Federal Funds (Fed) and Other Funds (other):

Federal Receipts-1002 (Fed): Federal Receipts include all revenues received from the federal government. These include restricted federal grants from such agencies as the National Science Foundation, U.S. Small Business Administration, U.S. Dept. of Defense and other federal agencies, as well as federal funding for student financial aid and work-study programs.

Revenue Descriptions (continued)

Federal Receipts-ARRA-1212 (Fed): Federal Receipts received from federal agencies related to the American Recovery and Reinvestment Act of 2009 (ARRA). These include restricted federal grants from such agencies as the National Science Foundation, Department of Health and Human Services National Institutes of Health, and other federal agencies, as well as additional federal funding for student financial aid and work-study programs. Except for Pell Grants and Federal Work Study Grants, which are part of the Operating Budget, authority for ARRA receipts are contained in the Capital Budget.

State Inter-Agency Receipts-1007 (other): State Inter-Agency Receipts includes contractual obligations between state agencies. University account code 9330 only. In FY10, ARRA funds became available from the Federal Government and may be passed through to the University of Alaska on an RSA. These funds would be identified by University account code 9332, but will roll up to State Inter-Agency Receipts on all state reports.

MHTAAR-1092 (other): Mental Health Trust Authority Authorized Receipts directed toward University of Alaska projects and programs in support of initiatives of mutual interest to the Trust, the University and the Alaska Health Workforce Coalition.

CIP Receipts-1061 (other): Capital improvement project (CIP) receipts are generated by chargeback to capital improvement projects to support CIP personal service administrative costs.

UA Intra-Agency Receipts-1174 (other): UA Intra-Agency Receipts include all internal charges for services provided by central service departments to other university departments. This includes services such as physical plant work orders, printing, and computer repairs, and certain administrative functions such as risk management and labor relations.

*Fund Types*²:

Unrestricted Funds (10): Unrestricted funds are those current funds which are available for use within the current operating period, i.e., fiscal year, for which there is no apparent use restriction.

Match Funds (14): Match funds are a hybrid fund type between unrestricted and restricted; while they are an integral part of restricted program management, the funding for them derives from unrestricted sources. They are subject to the rules associated with restricted funds, UA accounting regulations associated with unrestricted funds, and are also included as part of the reporting requirements to the sponsoring agency.

Designated Funds (15): Designated funds are unrestricted current funds which have internal restrictions but which do not meet the accounting guidelines for restricted funds. Funds for UA Scholars is an example of designated funds.

Restricted Funds (20): Restricted funds are current funds received by the university but their use is limited to specific projects or purposes by grantors, donors or other external sources.

Auxiliary Funds (30): Auxiliary funds are unrestricted current funds of enterprises which furnish services directly or indirectly to students, faculty or staff and which charge fees directly relating to, but not necessarily equal to, the costs of the services. Bookstores and housing systems are examples of enterprises which generally meet the accounting criteria for classification as auxiliary enterprises.

NCHEMS Descriptions

The University of Alaska classifies all expenditures into standardized categories that are nationally recognized and are generally utilized by most institutions of higher education. These categories, which were first developed by the National Center for Higher Education Management Systems (NCHEMS), are described below:

Instruction and Student Related:

Academic Support: The academic support category includes expenditures related to academic administration and governance to the institution's academic programs; academic program advising; course and curriculum planning, research, development and evaluation, including faculty development; and academic computing, including regional academic mainframes and the student micro-computer labs.

Instruction: The instruction service category includes expenditures for all activities, which are part of the system's instruction programs. Instructional services include all credit and non-credit courses for academic and vocational instruction.

Intercollegiate Athletics: Intercollegiate athletic sports are organized in association with the NCAA or NAIA. The intercollegiate athletics category includes expenditures for the necessary support staff associated with the athletic programs.

Library Services: The library services category includes expenditures for services, which directly support the collection, cataloging, storage and distribution of published materials -- periodical, subscription and book holdings, microfiche and other reference technology aids and inter-library bibliographic access through networks such as Online Computer Library Center (OCLC) and Alaska Library Network.

Scholarships: The scholarships category includes scholarships and fellowships in the form of grants to students, as well as trainee stipends, prizes, and student awards.

Student Services: The student services category includes expenditures related to admissions, the registrar and those activities whose primary purpose is to contribute to the students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Student services include social recreational, and cultural activities; counseling services which include personal, career guidance and placement, and vocational testing; student health medical services; financial aid management and student employment; student admissions, registration and student records administration; and student recruitment marketing and counseling.

Other:

Institutional Support: The institutional support category includes expenditures related to executive services including the office of the President, chancellors' offices, and other institutional support functions including business offices, accounting, budget, EEO/AA, educational properties management, facilities planning and construction, finance, human resources, information services, institutional research, internal audit, investment properties management, legal counsel, payroll, procurement, records, risk and hazardous materials management, systems maintenance, university relations and support for the assemblies and the Board of Regents.

Physical Plant: The physical plant category includes expenditures related to plant administrative services; building maintenance services including routine and preventative repair and maintenance of buildings and structures; remodeling and renovation projects; custodial services including janitorial and elevator operations; landscaping and grounds maintenance services; utilities services including electricity, heating fuel, garbage and sewage disposal; and specialized safety and code compliance management services including campus security and hazardous materials management. Also included are expenditures for fire protection, property insurance, and similar items.

NCHEMS Descriptions (continued)

Public Service: The public service category includes expenditures for activities whose primary purpose is to make available to the public the various unique resources and capabilities of the university in response to a specific community need or problem. The major public service units are the Cooperative Extension Service, KUAC Radio and TV, small business development programs and other community service programs produced in cooperation with community organizations and local governments.

Research: The research category includes expenditures for activities directly related to scientific and academic research. The majority of the research is funded by non-general funds.

Auxiliary Services: The auxiliary services category includes expenditures for conveniences and services needed by students to maintain an on-campus, resident student body. These services include resident student housing, food service dining halls, retail stores' operations such as the bookstore and vending machines, and specialized services such as child care.

Unallocated Authority: The unallocated authority category is not part of the standardized NCHEMS categories used by other institutions of higher education. It is a special category created by the University of Alaska to hold additional budget authority separate from other NCHEMS until such a time as it is needed.

FY97	(In FY97, the UA requested \$3.5 million GF for full funding for covered and non-covered employees. The Governor's amended budget included \$2.6 million GF, which represented full funding for covered employees but only an amount equivalent to 1.5% for non-covered employees. This latter amount was combined with salary increases for State of Alaska employees, and was then appropriated in its entirety to the Office of the Governor to be transferred out to agencies. However, the legislature reduced the total amount appropriated for all these needs by approximately \$1.7 million for anticipated savings for RIP and other changes to the retirement system. As a result, the amount to be distributed to the university was reduced from \$2,556.9 to \$2,183.2, necessitating an internal reallocation of approximately \$1.3 million to cover the balance of the cost of FY97 salary increases.) <u>Year</u>	<u>UA Salary Adjustment</u>	<u>State Approp.</u>	<u>SLA</u>
FY98	- Non-covered staff Average 2% step increase; (Funding to cover salary increases for contract employees that were included in the Governor's original budget was appropriated in its entirety to the Office of the Governor, to be transferred to agencies as appropriate. This appropriation included a specific line item for the University of Alaska in the amount of \$233.2 total funds, which represents amounts requested for the CEA. These funds were subsequently established in the UA state accounts as 63.8 GF, 166.4 Investment Loss Trust Fund (ILTF), and 3.0 other non-GF. 	- ACCFT 3% COLA (effective 7/1/97); (This request was not included in the original request because the contract was still under negotiation, but was later requested as a budget amendment. Both the House and the Senate originally rejected the budget amendment, but subsequently included it in the end-of-the-session funding for contract employees in the amount of \$482.0 GF, \$16.5 non-GF.)	482.0	SLA97/Ch100/P33/L10
	- United Academics 2.6% salary adjustments for promotion, equity and merit per BOR policy, pending negotiation of new contract; (This represents partial funding for the United Academics. The BOR's FY98 request included \$936.6 GF (\$1,604.7 total funds) for FY98 salary increases for the United Academics. The Governor's request included a base adjustment for only \$540.3 GF (\$925.8 total funds) of this request, an amount which was to represent a 1.5% adjustment instead of 2.6% as called for in BOR policy. Since the base adjustment was subsequently reversed as an unallocated reduction, the amount included in the Governor's base adjustment was moot. However, during the legislative session, the Legislature agreed to include the difference between the amount originally requested by the BOR (\$936.6 GF) and the amount included in the Governor's base adjustment (\$540.3 GF) in its end-of-the-session funding for contract employees in the amount of \$396.3 GF, \$282.7 non-GF.)	396.3	SLA97/Ch100/P33/L19
