3. Click “Login” (red button)

Sync your personal/student calendar

1. Click on your calendar icon on the left side panel or under Student Home ➔ Calendar.

2. On the right side of the calendar page is the settings and sync button, click.

3. Click “Set up sync…”

4. Choose your calendar application, we recommend using google calendar.

5. Choose the email address (or use another account) connected to the calendar you wish to sync.

Calendar sync information

Students have the option to sync one calendar to their Nanook Navigator account. No one has access to see the events on this calendar, it only triggers the system to mark you as busy and to add your Nanook Navigator appointments to your email calendar.

By syncing a calendar, a student can create a more accurate and efficient appointment scheduling process. Students not only have their synchronous or face to face class but they may have a work schedule, practice, events, club meetings, regular meetings, meal breaks, medical appointments, and etc. These usually need to be considered when scheduling appointments. Once the calendar is synced it will mark the student as busy and no one will be able to schedule during those blocked times.
