NOTES: Rates for use of Level III Bio-containment facility will be higher and can be negotiated through the IAB Business Office (e.g., Grizzly Bear Cub: Hrs/Day times \$35.49 plus Feed Costs/Day equals Per Diem. Indirect Charges for PI's outside of UAF are determined by multiplying the indirect rate times the appropriate per diem and adding the results to the regular per diem..

All rates are subject to change.

- 1) Regular per diem rates include feed, bedding, labor and basic veterinary service.
Veterinary expenses beyond routine care may be billable.
- 2) Rates for PI's outside UAF include Regular Per Diem and Indirect Costs. Personnel from Animal Quarters provide all labor, etc.
- 3) Rates when the primary care is provided by Graduate Student or PI technician. AQ supplies feed and oversees graduate student or technician. All are required to participate in training by AQ personnel before taking care of animals.
- 4) Rates for providing feed can be negotiated.
- 5) Rates for SPECIAL DIETS and care may be higher and can be negotiated
- 6) All new animals must be in quarantine for 14 days prior to research starting.
Animals purchased from IAB breeding colonies will not require the quarantine period.
- 7) Labor costs based on \$35.49/hour average.

8) External Rates will be updated on the new F&A rate for FY11 is released, this rate will not effect internal rates.
