

Summary of the Major

The interdisciplinary studies AAS degree allows students the flexibility to create a custom major with a technical or applied focus, and when their educational goals do not fit into one of the established AAS degrees offered by UAF. This approval form is reviewed and approved by a faculty committee, who are selected by the student. In this form you will be creating your:

- Major's title
- Major's Course List
- Major's Proposal Narratives
- Student Checklist to verify your understanding of expectations
- Faculty Committee list on the Signature Page

Students who are interested in an interdisciplinary studies program should meet with an advisor in the office of Undergraduate Interdisciplinary Studies or the CTC Advising Center to discuss their educational plan. Appointments can be scheduled by clicking the "schedule an appointment" link on the <u>undergraduate interdisciplinary studies website</u> or by calling the CTC Advising Center at 907-455-2800.

The Deadline to submit this form is the last day of final exams, the semester PRIOR to your graduation term.

Guidelines

Title

- > An Interdisciplinary Studies Major title cannot be redundant with or too similar to an existing UAF major.
- > The title must be an accurate representation of courses, capstone and the major's theme.
- Your title can't make your major appear to be something it is not, and it can't sound like a degree that has specialized accreditation (e.g. nursing).

Course List

- Individual courses must have a grade of CR, P, or C- or better.
- Examples of how to enter courses are provided in the top two boxes on page two. *ABUS F101 how you enter a UAF course or transfer course that transfers as an equivalent to a UAF course. ** JUST F2 is how you enter a transfer course that transfers as a departmental elective.
- Courses must be from at least two different academic departments.
- > Collectively, the major's courses must demonstrate a cohesive body of knowledge and skills.
- > 60 total credits are needed to complete any AAS degre. On this form, students only need to list the courses in the Major Specialty. A minimum of 30 credits must be in the Major Specialty. 6Major courses can't share with AAS degree requirements.

Faculty Committee

- Faculty committees must include a minimum of three members including the committee chair.
- The committee members must represent at least two different academic department and should be selected based on their knowledge of the students interdisciplinary interests.
- > The faculty committee members should be full-time UAF teaching or research faculty.
- The committee chair should be a full time teaching faculty member from a college or school that offers the same degree level as your interdisciplinary degree. The committee chair will serve as the student's faculty advisor once their interdisciplinary studies major has been approved.
- An additional (forth) committee member is allowed but is optional. The fourth committee member should be affiliated with the University of Alaska, but the other committee guidelines don't apply. This can be a mentor or advisor that has helped the student develop their interdisciplinary plan or who offers specialized expertise related to the student's interdisciplinary studies major.
