Why choose to LIVE UNITED?

We're local – Funds raised here, stay here.

We're accountable – We treat your investment with care. Agencies must meet strict guidelines and prove exactly how they will improve lives. This investment strategy enables us to do the most good with donor dollars.

We're efficient – We focus on raising the greatest amount of revenue for the least possible cost so our agencies can focus on their mission of providing critical services.

We're effective – UWTV is committed to creating long-lasting change in the Tanana Valley. We focus our work locally on the underlying causes of our community's needs.

Where does the money go?

Community Care funds are allocated to all 20 United Way agencies through a volunteer-led rigorous agency review process so our community can provide a safety net of services for those in need.

Substance Abuse Initiative funds support projects and programs that offer preventative solutions to drug and alcohol abuse in our community.

Designated funds are donor dollars specified for a specific UWTV member agency or for any 501(c)(3) non-profit organization in Alaska.
