

Then you can apply for the free MATH BRIDGE program.
It will help you master the skills you need to pass these courses.

As part of the program, students:

- attend one orientation meeting (dates below) where they will be given an initial assessment of their prerequisite knowledge for their upcoming math course.
- work through the online tutorial program Aleks to improve their skills before the semester begins.
- attend a Ramp-up meeting before the semester drop date where Math Bridge Advisors talk to you about your course and offer guidance.

Apply online at www.uaf.edu/dms/math-bridge

Attend one orientation meeting:

If you complete the program, then you can qualify for a

1-credit tuition waiver worth \$168
