

Drug-free Schools and Communities Act amendments

The Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989 require that each college and university receiving federal financial assistance provide annually the following information in writing to all students and employees:

- Standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on its property or as part of its activities.
- A description of the applicable legal sanctions under local, state or federal law for the unlawful possession or distribution of illicit drugs and alcohol.
- A description of the health risks associated with the use of illicit drugs and the abuse of alcohol.
- A description of any drug or alcohol counseling, treatment or rehabilitation or reentry programs that are available to employees or students.
- A clear statement that the institution will impose disciplinary sanctions on students and employees (consistent with local, state and federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

In accordance with these laws the information below is presented for your knowledge.

A. Standards of Conduct

1. Students: The unauthorized use, distribution or possession of illicit drugs or alcohol in violation of Alaska Statutes or federal law on university premises or at activities sponsored by or affiliated with the university is in violation of the [university Code of Conduct](#) and is prohibited.

Unlawful Use of Alcoholic Beverages: It is unlawful to consume alcoholic beverages in the State of Alaska and on the University of Alaska Fairbanks campus if you are under 21 years of age. It is also unlawful to supply alcoholic beverages to persons under 21 years of age. Consumption, possession or display of beer, wine or other alcoholic beverages is prohibited in university public places except for licensed areas such as Wood Center Pub, or at approved events.

Use of Illicit Drugs: Possession, use or sale of marijuana and other controlled substances, such as, but not limited to, cocaine, heroin or LSD is a crime under federal and state law. The possession, distribution, or use of such substances is prohibited.

2. Employees: The sale, purchase, transfer, use or possession of illegal drugs by employees on university premises or while on university business is prohibited. Further, the use of any legally obtained drug, including alcohol, to the point where such use adversely affects the employee's job performance, is prohibited.

1. Alcohol Effects

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

D. Drug and Alcohol Counseling

Treatment for Students: On-campus programs available to students include the Student Health and Counseling Center and various support groups.

The University of Alaska Fairbanks Student Health and Counseling Center is located on the second floor of the Whitaker Building. All students who pay the health center fee are eligible for services. Individual counseling is available for free or for a minimal charge. Students may seek information, counseling and/or referral for their own use or for concerns about a friend or relative's use. Group counseling is available for students whose alcohol use has caused some problem in their lives. In general, students seeking counseling need to schedule an appointment. In an emergency, however, every effort is made to see a student as soon as possible.

The student health insurance program contains benefits for some inpatient and outpatient substance abuse treatment. Call the insurance coordinator at 474-7043, for more information.

Depending on student interest, a number of support groups related to substance abuse meet on campus. Included are Adult Children of Alcoholics (ACOA), Alcoholics Anonymous (AA) and Narcotics Anonymous (NA) groups. Information about time and location of these meetings can be obtained by calling the UAF Student Health and Counseling Center at 474-7043.

The university dedicates staff time at the Student Health and Counseling Center to do alcohol assessments and make appropriate referrals. Students may be directed to this service through judicial sanction, or may access this resource through self referral. Further information on this program can be obtained by contacting the Student Health and Counseling Center at 474-7043, or Student Services at 474-7317.

Treatment for Employees: Employees with substance abuse problems are strongly encouraged to seek assistance through one of the agencies in the Fairbanks area. Information about local agencies may be obtained by calling the UAF Student Health and Counseling Center at 474-7043 or by calling the agencies directly. Local agencies providing substance abuse treatment and assistance include:

- Al-Anon 456-6458
- Alcoholics Anonymous 456-7501
- Family Recovery Center
- (Fairbanks Memorial Hospital) 458-5540
- Narcotics Anonymous 452-7372
- Ralph Perdue Center 452-6251
- Tanana Chiefs Conference Counseling Center 459-3800

The University of Alaska employee health insurance program contains benefits for some in-patient and out-patient treatment. For further information, contact Human Resources at 474-7700.

E. University Sanctions

The university will impose appropriate sanctions on those individuals in violation of standards of conduct as set forth in Section A1 and 2 above.

Students: Violation of standards of conduct in Section A1 above will result in disciplinary action.

Sanctions may include, but are not limited to, the following actions: warning, probation, trespass, suspension, expulsion, referral for prosecution, and referral for treatment/rehabilitation. Procedures for disciplinary action are detailed [here](#).

Employees: Violations of standards of conduct in A2 above will result in disciplinary action. Sanctions may include, but are not limited to the following actions: suspension of work with or without pay during an investigation, a period of provisional employment (which may result in termination), referral for prosecution and referral for treatment/rehabilitation.

A person is guilty of **refusal to submit to a chemical test** if a person under arrest for DUI refuses the request of a law enforcement officer to submit to a chemical test to measure that person's breath alcohol. The penalties for refusal are exactly those of a conviction for DUI. A person is guilty of a **Class C Felony** if the person is convicted two or more times of DUI (or similar statutes in other jurisdictions) since January 1, 1996 and within 10 years preceding the date of the present offense.
