

CALL FOR ENTRY

THE

STUPID CUPID

VALENTINE'S EXHIBITION

Because nothing makes us crazier than love.

Human beings are capable of incredible things, from poignant movements in art to interstellar exploration. But for all our intellectual prowess, there's still one thing that continues to elude most of us: the complete inability to function like a normal human being when confronted with the world's most treasured—and cutthroat emotion—love. This non-juried call is open to all interpretations of the idea of love: the sweet, the silly, the cringeworthy and the triumphant. We also encourage you to explore other sides of love, including nostalgia, loss, attachment and loneliness.

*Work does not have to be new but should not have been shown in a previous Frozen Lenses show.
Open to all undergraduate and graduate students, faculty and staff.*

OPEN EXHIBITION – ALL MEDIUMS WELCOME!
