The Ocean Acidification Research Center (OARC) is seeking two, upper level undergraduate students to participate in an oceanographic research cruise on the USCGC Healy. Students will collect seawater samples to study ocean acidification (OA) in the Arctic Ocean.

Research cruise dates will be July 22 – Aug 18, 2020 from Nome, AK. Participants will receive training in sample collection and analyses at the OARC July 6 -17, 2020. Travel dates may change one or two days.

Students with an interest in oceanography, chemistry, field work, and Arctic change are encouraged to contact the Undergraduate Research and Scholarly Activity (URSA) office for information about funding. Applications for Summer project awards are due **February 23, 2020**.
