COURSE DESCRIPTION

Catalog listing

Conservation of natural resources including history, ecological and social foundations.

Examines principles of sustained yield, carrying capacity, supply and demand, and world population growth as applied to agriculture, range, forest, wildlife, fisheries, recreation, minerals and energy management. A wide range of perspectives is presented to help students develop a personal philosophy toward natural resources. Prepare a multiple resource observation plan for an undeveloped area on campus. Optional all-day field trips take place the first two Saturdays of the semester. *Note, this catalog description is somewhat outdated and a request for revision has been submitted.*

Additional course description

Natural resources form the basis of human existence, from food and shelter to non-essential goods we consume. While there are differing perspectives on the appropriate relationship between humans and the environment, there is a need to manage (even deciding to “leave alone” requires management actions). Lessons from the past have resulted in more sustainably managed natural resources, and perspectives on sustainability continue to evolve. This course will cover the historical aspects of natural resource conservation, current aspects of conservation, and explore case studies of current conservation issues faced by society.

COURSE GOALS

- Historical aspects of conservation
- Terminology: preservation, conservation, etc.
- Contemporary thoughts/practices: ecosystem services, sustainability, adaptive management
- Brief introduction to economics
- Key environmental laws
- State and Federal agencies involved in conservation
- AK Natives: ANCSA, AK Native Corporations and resource mgt.
- Non-governmental organizations (NGOs)
- Contemporary issues: waste, biodiversity, water, sustainable agriculture, transportation

STUDENT LEARNING OUTCOMES

After completion of this course, students will:

- Correctly identify the key events forming the foundations of the modern conservation era, as well as key environmental laws
- Accurately discuss the recent developments in the conservation field (e.g., resilience, adaptive management)
- Articulate the differences among natural resource management agencies, including the role they play in natural resources conservation and policy
- Apply critical thinking skills to contemporary conservation issues, applying course principles

COURSE READINGS/MATERIALS

We will use two text books for this course.

Sparling, D. W. (2014). *Natural resource administration: wildlife, fisheries, forests, and parks*. Waltham, MA: Elsevier, Inc. ISBN: 978-0-12-404647-4

Carolan, M. (2018). *Society and the environment*. 2nd ed. New York: Routledge.

TECHNICAL REQUIREMENTS FOR COURSE

Students must have regular access to the Internet to connect with Canvas. Students will be expected to download course material as well as upload assignments.

INSTRUCTIONAL METHODS

The course will consist of a combination of lectures, case studies and discussions.

COURSE CALENDAR

The general schedule is below. A detailed calendar, with daily tasks and assignments, is included at the end of the syllabus. Note, topics might change.

Week	Topics

COURSE POLICIES

You are expected to not only attend every class but to have read the materials assigned for that day (of course illness, family emergencies, travel for sports are an exception). Late assignments are accepted for reasons of illness or other unavoidable situation (e.g., family emergency), otherwise a 10% reduction in points will be applied each day the assignment is late. Notify me as soon as possible if you need to miss a class or have circumstances that result in a late assignment.

As part of this course, you will be asked to participate in discussion forums in Canvas. Your posts will be visible to those in the class, but not the general public. You will also be required to participate in class discussions.

EVALUATION POLICIES

Your grade will consist of attendance, weekly quizzes, six short written assignments, weekly discussion posts, class discussions, and four exams. The points assigned, total points, and weight are shown below. Note, the weight is what I will use to calculate the final score, for example, the total points of the exams are 20% of the overall class points, but will make up 25% of the final grade. Class discussion will be evaluated by an overall grade based on discussions throughout the semester. (Note, the weights are used to even out the components of the grade without adjusting the point values.)

Component	Total #	Pts per	Total points	Percent of total	Weight assigned
Attendance	42	2	84	4%	4%
14 quizzes	14	40	560	28%	25%
6 written assignments	6	50	300	15%	16%
14 discussions posts	14	40	560	28%	25%
Class discussion	14	6	84	4%	4%
4 exams	4	100	400	20%	25%
Total points			1988		

*Allows for 2 unexcused absences.

Class attendance is scored as 2 points per class period in attendance. Quizzes will be scored based on the correct answer as indicated in the class notes. Written assignments and discussion posts will be graded on critical thinking (70% of the grade) and writing (30% of the grade). Rubrics are posted below. Class discussion is not based on frequency of participation, but rather it is based on presenting ideas and responding thoughtfully and respectfully to others. Rubric are posted below. To receive full credit for class discussion you must demonstrate understanding of the topics and provide thoughtful comment at appropriate times (i.e., not necessarily at all times, nor in every discussion, but consistently adding to the class discussions throughout the semester). Exams will be scored based on the correct answer as indicated in the class notes.

	General Letter Grade (specific points will be determined based on the degree meeting the standards for the letter grade)			
	A	B	C	D
Critical thinking	Issue/problem clearly & comprehensively stated; position is soundly supported; problem identified and supporting material correctly follow from lecture materials, and is creative in identifying an application.	Issue/problem statement not seriously impeded by omissions; position is adequately supported; problem identified and supporting material follow from lecture materials with few errors, and application is moderately novel.	Issue/problem statement not fully developed; position has weak support; problem identified and supporting material loosely follow from lecture materials with some errors, and/or application lacks novelty.	Issue/problem statement lacks clarity; position has weak support; problem identified and supporting material loosely follow lecture materials but contain several key errors, and/or application lacks novelty.
Written Comm. for discussion post	Clear, error-free language; language is professional in tone; response to posts is constructive, relevant, respectful, and contributes to the class's understanding of the topic.	Clear language, but may contain some errors; language is professional in tone; response to posts is constructive, relevant, respectful, and moderately contributes to the class's understanding of the topic.	Language contains errors and is difficult to follow; response to posts contains some extraneous material that limits the contribution to the class's understanding of the topic.	Language contains errors and is difficult to follow; response to posts mostly irrelevant with limited contribution to the class's understanding of the topic.
Written Comm. for written assignments	Clear, error-free language; highly effective organization. Arguments are clearly identified. No extraneous material. Cited as appropriate.	Clear language, but may contain some errors; effective organization. Arguments are clearly identified, might contain some extraneous material. Cited as appropriate.	Language contains errors and is difficult to follow; organization limits presentation of arguments, contains irrelevant material. Inconsistent citations.	Language contains errors and is difficult to follow; arguments are not clear; lacks organization and does not cite sources.
Class Discussion rubric	Comments are relevant to topic being discussed, provide novel thoughts, and are clear; respectful of others' opinions.	Comments at times are slightly off topic, some gaps in critical thinking, clearly stated; respectful of others' opinions.	Comments at times off topic, often gaps in critical thinking, clarity could be improved; respectful of others' opinions.	Comments often off topic, often gaps in critical thinking, lacks clarity; disrespectful of others' opinions.

Plus and minus grading will be used, cut off for grades are as shown below.

Requirements for letter grade				
A + > 96% ^a	B+ 87% to 89%	C+ 77% to 79%	D+ 67% to 69%	F < 60%
A 93% to 96%	B 83% to 86%	C 73% to 76%	D 63% to 66%	
A- 90% to 92%	B- 80% to 82%	C- 70% to 72%	D- 60% to 62%	

^aScores will be rounded, e.g., a 89.8 will be rounded to 90%.

“C” (including C+ and C-) indicates a satisfactory level of acquired knowledge and performance in completion of course requirements.

C- (1.7) is the minimum acceptable grade that undergraduate students may receive for courses to count toward the major or minor degree requirements, or as a prerequisite for another course. A minimum grade of C (2.0), however, MAY be required by specific programs for prerequisite and/ or major / minor courses. Please consult specific program listings in the UAF Catalog.

C- (1.7) is the minimum acceptable grade required for all Core (X) Courses.

“D” (including D+ and D-) indicates a minimal level of acquired knowledge and minimal performance in completion of course requirements. This grade does not satisfy requirements for courses in the major, minor, Core, or graduate programs.

ACADEMIC INTEGRITY

As described by UAF, scholastic dishonesty constitutes a violation of the university rules and regulations and is punishable according to the procedures outlined by UAF. Scholastic dishonesty includes, but is not limited to, cheating on an exam, plagiarism, and collusion. Cheating includes providing answers to or taking answers from another student. Plagiarism includes use of another author’s words or arguments without attribution. Collusion includes unauthorized collaboration with another person in preparing written work for fulfillment of any course requirement. Scholastic dishonesty is punishable by removal from the course and a grade of “F.” For more information go to [Student Code of Conduct](#).

EXPLANATION OF NB/I/W GRADES

This course adheres to the UAF regarding the granting of NB Grades *The NB grade is for use only in situations in which the instructor has No Basis upon which to assign a grade. In general, the NB grade will not be granted.*

Your instructor follows the University of Alaska Fairbanks Incomplete Grade Policy:

“The letter “I” (Incomplete) is a temporary grade used to indicate that the student has satisfactorily completed (C or better) the majority of work in a course but for personal reasons beyond the student’s control, such as sickness, he has not been able to complete the course during the regular semester. Negligence or indifference are not acceptable reasons for an “I” grade.”

Successful, timely completion of this course depends on committing yourself early and maintaining your effort. Failure to submit assignments in a timely manner may result in faculty-initiated Withdrawal from the course, which can result in a **W** on your transcript.

INSTRUCTOR RESPONSE TIME

I will typically respond within a few hours to emails sent during the day. However, emails sent in the evening may not be answered until the next day. While I do check email on weekends, there are some weekends in which I do not check email. Quizzes and exams are in Canvas (with the exception of the final exam) and will be graded automatically (unless there are questions with essay responses). Written assignments will be returned within a week, hopefully sooner.

HOW TO CHECK YOUR GRADE

To check your grades for assignments/quizzes and find comments from your instructor, click “Grades” in the sidebar menu in Canvas. All assignments and due dates are listed in Canvas.

Specific instructions for viewing instructor comments and other nuances of checking grades in Canvas will follow.

EXPECTATION OF STUDENT EFFORT

The expectations for a 3-credit lecture course are 3 hours of in-class meeting time (i.e., lecture) and 6 hours of work outside of class (course readings, assignments).

COVID-19 statement: Students should keep up-to-date on the university’s policies, practices, and mandates related to COVID-19 by regularly checking this website:

<https://sites.google.com/alaska.edu/coronavirus/uaf?authuser=0>

Further, students are expected to adhere to the university’s policies, practices, and mandates and are subject to disciplinary actions if they do not comply.

Student protections statement: UAF embraces and grows a culture of respect, diversity, inclusion, and caring. Students at this university are protected against sexual harassment and discrimination (Title IX). Faculty members are designated as responsible employees which means they are required to report sexual misconduct. Graduate teaching assistants do not share the same reporting obligations.
