

## EXAMPLE OF FOUR-YEAR PLAN FOR FOREIGN LANGUAGE MAJORS: FRENCH

### Notes:

1. Department offers 2 varieties of majors: in two languages or in one language. First languages can be Spanish, French or Japanese. Second languages can be Spanish, French, Japanese or German.
2. Japanese studies major also exists separately (please see the link)
3. This example concerns major in one language, in this given case French. Because of variations in class offerings Spanish has its own roadmap (please see the link).
4. While normally students go abroad to complete their major (summer, fall or spring semesters), bringing back from 6 to 12 credits, due to COVID 19 it is necessary to offer a possibility to finish studies in residence. Courses counting for major are in **bold**.

\*N.B. Some programs will require summer classes to be able to get the courses needed due to prerequisite requirements or for courses in other programs not offered regularly. Also, some programs require or highly encourage study abroad which may also affect their credits earned.
