

Physics Graduate Program Evaluation of Thesis/Dissertation

The purpose of this form is for the Department of Physics to ensure quality of its graduate program. This form is filled out for every student in the following physics programs: M. S. Physics, Ph.D. Physics, Ph.D. Space Physics. The form is filled by all advisory committee members and the department chair at the time of the thesis/dissertation review.

This form is anonymous and is not used to grade individual students.

The chair of the committee will collect the completed forms and bring them to the Department's administrative assistant in an envelope with the name of the student on the outside of the envelope. The administrative assistant will separate the forms from the envelope, assuring anonymity, and store them in the Department's records.

Current Academic Year:	
-------------------------------	--

Degree (M.S., Ph.D. Physics, Ph.D. Space Physics):	
---	--

	Excellent	Very Good	Good	Fair	Poor
Introduction					
Literature survey					
Motivation for the study					
Methodology					
Description of experimental design and/or model					
Results of publishable quality					
Discussion of results					
Conclusions supported by the results					
Format					
Quality of diagrams and/or tables					
Quality of writing
