

PIN my advisee page errors

This page has a known bug. OIT has a fix but we aren't sure when it will be migrated into UAOnline. In the meantime, here's how to handle it if the bug affects you.

Users report getting this message:

You should click "Return Home." Then you'll see a page like this:

The screenshot shows the UAOnline interface. At the top right, it says "University of Alaska" and "Sign In". The main content area is divided into several sections:

- Virtual Domain Composer**: Includes "Export Domains" and "Domain Roles".
- Visual Page Composer**: Includes "Export Pages" and "Page Roles".
- CSS Manager**: Includes "Export CSS Stylesheets".
- Import**: A button for importing content.
- Application Pages**: A list of pages with columns for name and last updated date. The list includes: resourceBundleAdmin, uaGOA2PHN, stuDataListEmails, uaSSA2DMU, uaFAR2EEI, and stuDataSOR2CTC.
- Search Pages**: A search interface with a dropdown menu set to "All application pages" and a list of pages including: genDataGOB2DIR, resourceBundleAdmin, stuDataListEmails, stuDataSOR2CTC, twbValTWVROLE, and uaFAR2EEI.

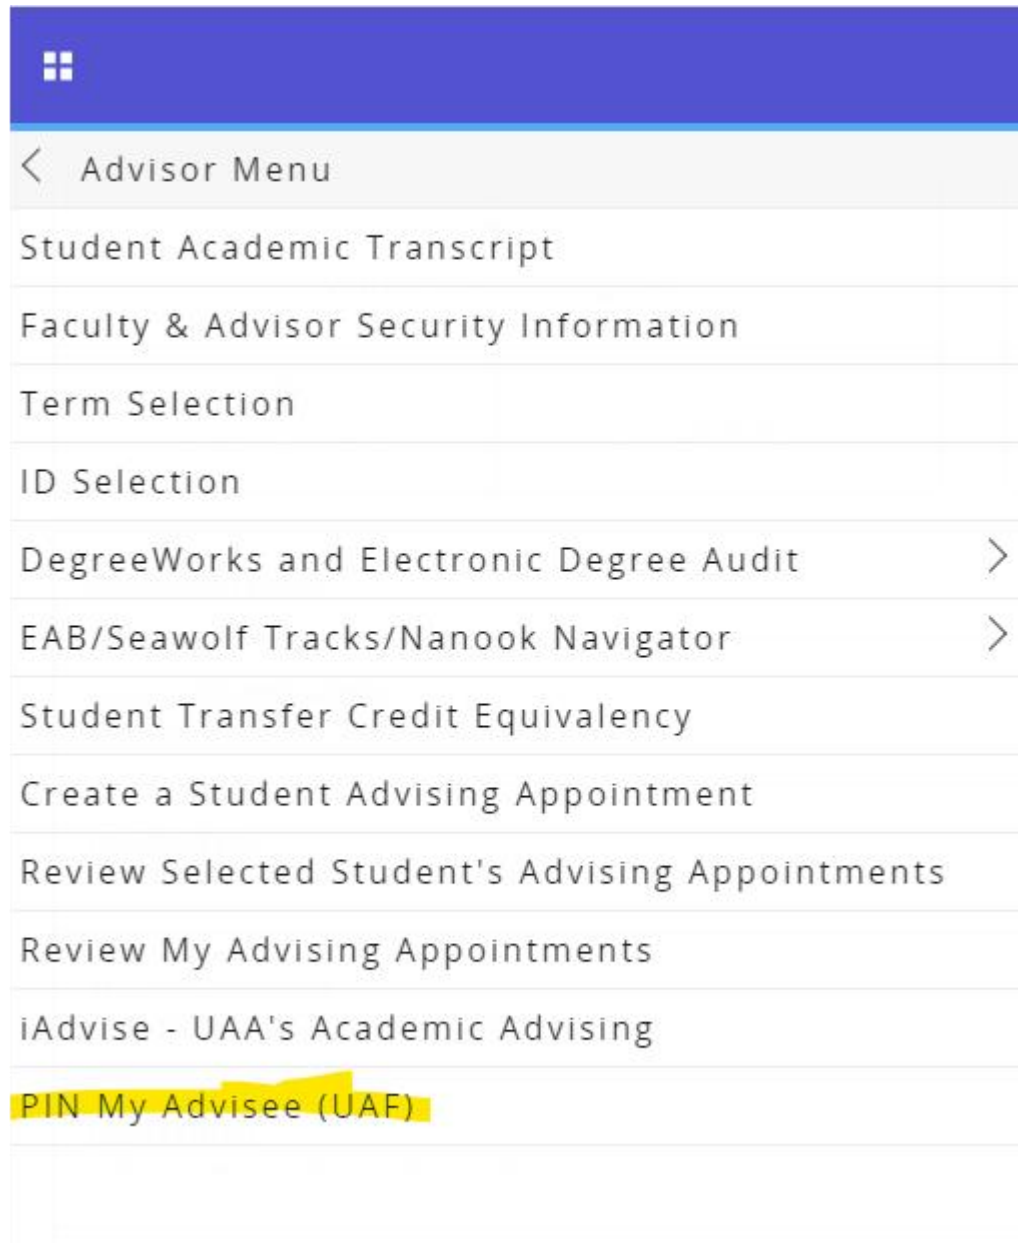

At the bottom of each list, there are navigation controls showing "1/3" and arrows.

If you get this page, use the four squares icon in the top left of the blue bar to navigate back to the "PIN my advisee" page.

Clicking this icon will bring up a menu. Follow this path:

Banner > Faculty Services > Advisor Menu > PIN my advisee (UAF)

When you get back to the form, it should work as normal.
