

A photograph of a white plastic spill tray. In the center of the tray is a dark-colored bottle with a white cap. A spill of the dark liquid has occurred, spreading out on the tray's surface around the base of the bottle. The background is a light-colored surface, possibly a lab bench.

## Lids

**Close containers when not in use**

## LABELS

**Identify contents, owner and accumulation start date**

## LEAKS

**Use secondary containment to catch leaks**

## LOCATION

**Keep at or near the point of generation**
