

Registration Checklist for High School Students

Select your Summer Sessions & Lifelong Learning course from the class schedule at UAF Coursefinder or see the listing on our website.

Complete the High School Student Enrollment Form.

Complete the Outside Credit Request form if you are intending to use the Summer Sessions credits towards High School Graduation. Approval is given on a course-by-course basis. This process must be completed **prior** to attending courses at UAF.

Review the FERPA release form with your student. This allows UAF permission to discuss the student account with parents or guardians.

Review the course syllabus for the course(es) your student is registered for. They are available on our website under Courses.

Order textbooks for your courses. Textbooks can be ordered online from the UAF Bookstore, or purchased in person at the store on campus.

Payment for tuition and fees for all registered Summer Session courses is due the **FIRST DAY** of your **FIRST** scheduled class. See the Dates and Finances page for more details on specific deadlines.

Attend class beginning the **FIRST** day of instruction. Summer Sessions courses are very compressed and attendance is critical.

If you have any questions, speak with your school counselor or contact us! Stay on track, have fun, and visit us at our office in room 216, upstairs in the Eielson building if you have any questions!
