#### 10. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

Little impact is expected. The class is currently repeatable, open to students in the Clinical-Community Psychology PhD program only and is taught in the Psychology Department Clinic and off site locations. Changing from 6 to 9 credits will increase the number of hours students may spend in the clinic and the number of hours faculty will be supervising students.

#### 11. LIBRARY COLLECTIONS

Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

#### 12. IMPACTS ON PROGRAMS/DEPTS:

What programs/departments will be affected by this proposed action? Include information on the Programs/Departments contacted (e.g., email, memo)

If students choose to repeat credit and gain hours in Psychology Department Clinic, the access the Counseling Program in the School of Education has to the clinic could potentially be impacted. DCT, (Dr. Chris Brems) has discussed this with the Director of the Counseling Program (Dr. Allan Morotti) on September 9, 2010.

#### 13. POSITIVE AND NEGATIVE IMPACTS

Please specify **positive and negative** impacts on other courses, programs and departments resulting from the proposed action.

See above. None other expected.

#### JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

An increase in maximum credits will allow doctoral students more access to clinical training in order to be more competitive for internship and post-doctoral placements.

# ATTACH COMPLETE SYLLABUS (as part of this application).

Note: The guidelines are online: http://www.uaf.edu/uafgov/faculty/cd/syllabus.html The department and campus wide curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course change will be denied.

#### SYLLABUS CHECKLIST FOR ALL UAF COURSES

During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this

document will contain the following information (as applicable to the discipline):
1. Course information:
$\Box$ Title, $\Box$ number, $\Box$ credits, $\Box$ prerequisites, $\Box$ location, $\Box$ meeting time (make sure that contact hours are in line with credits).
2. Instructor (and if applicable, Teaching Assistant) information: Name,  office location, office hours, telephone, email address.
3. Course readings/materials:
☐ Course textbook title, ☐ author, ☐ edition/publisher. ☐ Supplementary readings (indicate whether ☐ required or ☐ recommended) and ☐ any supplies required.
4. Course description: □ Content of the course and how it fits into the broader curriculum; □ Expected proficiencies required to undertake the course, if applicable. □ Inclusion of catalog description is strongly recommended, and □ Description in syllabus must be consistent with catalog course description.
5.  Course Goals (general), and (see #6)
6.  Student Learning Outcomes (more specific)
7. Instructional methods:
☐ Describe the teaching techniques (eg: lecture, case study, small group discussion, private instruction, studio instruction, values clarification, games, journal writing, use of Blackboard, audio/video conferencing, etc.).
8. Course calendar:
A schedule of class topics and assignments must be included. Be specific so that it is clear that the instructor has thought this through and will not be making it up on the fly (e.g. it is not adequate to say "lab". Instead, give each lab a title that describes its content). You may call the outline Tentative or Work in Progress to allow for modifications during the semester.
9. Course policies:
☐ Specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.
10. Evaluation:
lacksquare Specify how students will be evaluated, $lacksquare$ what factors will be
included, $lacksquare$ their relative value, and
$oldsymbol{\square}$ how they will be tabulated into grades (on a curve, absolute scores, etc.)
11. Support Services:
lacksquare Describe the student support services such as tutoring (local and/or

regional) appropriate for the course.

### 12. Disabilities Services:

The Office of Disability Services implements the Americans with Disabilities Act (ADA), and insures that UAF students have equal access to the campus and course materials.

lacksquare State that you will work with the Office of Disabilities Services (208 WHIT, 474-5655) to provide reasonable accommodation to students with disabilities."

## III. Instructional Goals and Student Outcomes

a. Instructional Goals

The instructor will:

Provide opportunity for students to learn procedural skills relevant to working in a
professional counseling/psychotherapy setting, including record keeping, implementation
of agency policies and procedures, scheduling, use of equipment, and other routine
responsibilities.

- Teach students professional communication skills, including report writing, referrals, intakes, staffing cases, and case presentations.
- Create learning environment in which students can understand the role of culture, gender, age, socioeconomic status, and other client characteristics that may affect the psychotherapy relationship.
- Provide opportunity for students to practice psychotherapy skills under close supervision.
- Provide students with opportunity to demonstrate ethical and professional behavior in a psychotherapy setting.
- Instruct students in methods for maintaining own personal wellbeing through teaching constructive selfcare procedures.

# b. Student Outcomes Students will be able to:

Outcomes	Assessment Methods
Demonstrate awareness and knowledge of psychotherapy techniques and their basic premises	Practicum performance; supervisor evaluation; demonstration of knowledge in group supervision
Evidence increased understanding of therapist and client dynamics	Practicum performance; supervisor evaluation; demonstration of knowledge in group supervision
Demonstrate competency in the following therapy skills: attending, identifying and reflecting feeling and content in communication, effective questioning, concretizing, self-disclosing, confronting, structuring, goal setting, and contracting	Practicum performance; supervisor evaluation; demonstration of knowledge in group supervision

Provide psychotherapy skills in a manner consistent with ethical guidelines	Practicum performance; supervisor evaluation; demonstration of knowledge in group supervision
Demonstrate sensitivity to cultural issues within the psychotherapy relationship	Practicum performance; supervisor evaluation; demonstration of knowledge in group supervision

#### IV. Course Activities

This course is a practicum course with students providing psychotherapy in an approved setting. Students provide mental health services under the close supervision of a faculty member or other approved supervisor. To provide oversight and monitoring of practicum experiences, students meet with the course instructor on a regular basis.

#### V. Guidelines for Evaluation

Grades are assigned on a letter (A-F) basis. Grading for practicum is based on performance at the practicum site and in class meetings. Evaluation is conducted by students' supervisors using a standardized evaluation form. Grade is based on the quality of the students' performance, compliance with agency policies and procedures, following of ethical guidelines,

and participation and performance in group supervision. Students document practicum activities and provide summary reports and logs.

#### VI. Course Level Justification

Course material is relevant to preparing individuals for practice as a psychologist within the scientist-practitioner model of clinical practice. Armed with the skills and knowledge base provided by successful completion of this course and the balance of their required courses, graduates will achieve the following professional activities:

- Competence in ethical guidelines and their applications in professional practice
- Extensive experience with ethical issues within the counseling/therapy relationship
- Application of expert knowledge of ethical guidelines within counseling/therapy practice
- Competence in the analysis and synthesis of ethics scholarship and research
- Self-directed written research projects on ethics within the counseling/therapy field
- Mastery of theoretical knowledge regarding ethics within the counseling/therapy field

# VII. Topical Course Outline

Students provide mental health services at their practicum placement under close supervision. Meetings with the course instructor are focused on oversight and monitoring of practicum experiences and includes case presentations and discussions.

# VIII. Suggested Text(s)
