20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo)

The Counseling Department will be affected by this action. The number of credits required for the M. Ed. in Counseling and the School Counselor Certification program does not change. The internship credits are simply distributed between the existing internship classes and the new internship classes.

Advanced internship classes (Internship III and Internship IV) will provide students with new information and skills different than they received in their first year of internship. It will also provide a forum for discussion with students who have previously completed a year of internship placement

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

Positive: Students in the advanced internship classes will receive instruction tailored to their level of experience, separating them from students who are in introductory internship placements.

Negative: Another instructor is needed, impacting the budget.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

Students in the School Counseling concentration of the M. Ed. in Counseling degree or the School Counseling Certification program must complete two semester of Internship for EACH level of certification they are seeking (elementary and secondary). Currently students register for COUN F636, Internship I twice and COUN F690, Internship II twice. During the second semesters of these courses experienced students are grouped with initial students. Students in their second full year of internship require different knowledge, skills and discussion. Creating advanced internship classes answers this need. Students earning K-12 school counseling certification will complete Internship I, II, III, IV.

Students in the Community Counseling concentration of the degree must complete 3 semesters of Internship total. The addition of COUN 691, Internship III provides the same benefits mentioned above. Students in the Community Counseling program will complete Internship I, II, III.
