D. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

None.

E. IMPACTS ON PROGRAMS/DEPTS:

What programs/departments will be affected by this proposed action?

Include information on the Programs/Departments contacted (e.g., email, memo)

English and Psychology Department (dropping Engl 300 level literature and Psy 101, adding Engl 273 as an option to the Engl 300 level writing focus). Dr. Carol Barnhardt Elementary Department chair met with Dr. Carr, English Department Chair relative to the two English course requirement changes and he agreed that these were appropriate changes. The undergraduate Psychology faculty approved changing the course prerequisites for ED/PSY 245 for the BA in Elementary Education degree.

F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:

Description of the student learning outcomes assessment process.)

These courses whose credits are being changed are internship/senior year courses, required during the internship year. The BA in Elementary Education internship year is standards-based and there is a tightly developed year-long assessment plan in which students are assessed at multiple times throughout the year by university faculty, classroom mentor teachers and university supervisors relative to UAF, Alaska, and national standards for teachers.

The deletion of the Psych 101 and 3 credit upper division English literature course requirements will not have a major impact on the BAE outcomes assessment plan or process. In addition to meeting instructor and program assessments, BAE students must also have passing scores in reading, writing and mathematics on the on the ETS-developed Praxis I exam and passing scores in English, Mathematics, Social Studies and Science on the Praxis II exam. BA in Elementary Education students at UAF score very well on these external exams.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

Teacher education programs are under a great deal of scrutiny to assure policy makers and the general public that future elementary teachers have sufficient content knowledge and skills in the areas in which they have teaching responsibilities and that they have clearly defined coursework to assure that they also have opportunities to acquire the methods needed to successfully teach and develop meaningful curriculum in multiple content areas.

UAF elementary teacher education interns (i.e., students in their senior year of the BA in Elementary Education degree and elementary post-baccalaureate students completing their year-long internship) currently DO have these opportunities and requirements but this has not been accurately reflected in the current distribution of credits during their internship year. As an artifact of the process of development of the original BAE degree, the number

of hours that interns spend in their elementary classroom placements and in their university methods and curriculum development courses has never been accurately reflected in the course credit allocations.

It is important that we correct these inaccuracies now for the following reasons:

- 1. External agencies (political entities and accreditation groups) now want more specific evidence that elementary teacher education students have dedicated coursework and internship requirements to prepare them to teach reading, writing, math, science, PE/Health and the Arts. This evidence needs to be reflected more directly and more accurately on our program requirements than it has been. Some of the work currently completed by students as part of ED 468 (a 6 credit course currently co-taught by 4 instructors) is being distributed to other courses so that the content of the courses is more clearly evident to reviewers.*
- 2. To be eligible for the newly created Alaska Performance Scholarship, university students must be enrolled in 30 credits per academic year. The intern year requirements in the current BA in Elementary Education degree include only 26 credits. These 26 credits are not an accurate representation of the amount of coursework and fieldwork that students actually complete.*

UAF elementary faculty have made no major revisions to BAE degree requirements since the degree was designed in 2001 in collaboration with faculty from CLA and CNSM and with elementary teacher education colleagues at UAA and UAS. Over the past few years, however, faculty and academic advisors have done a careful review of BAE degree requirements in an effort to decrease the total number of credits in the BA in Elementary Education degree.

Based on our analysis and our experiences with students and assessments over the past 12 years, we feel confident that our students will continue to be fully prepared as elementary teachers without completing Psychology 101 and without completing a 5th English course. We believe that Psychology 245 “Child Development” is the psychology course that is most appropriate and essential for future elementary teachers and several of our required education courses, particularly the six credits in special education, focus on many of the components described in the PSY 101 course description..

We feel certain that BAE students will continue to demonstrate competence in English through their successful completion of ENGL 111, ENGL 211/213, ENGL 200X, and one of the following English courses. We know of no other elementary teacher education program that requires 15 credits of English.

ENGL 271 – Intro to Creative Writing - Fiction

ENGL 272 – Intro to Creative Writing - Poetry

ENGL 314 (W, O/2) – Technical Writing

JRN 311 (W) – Magazine Article Writing
