DEGREE PROGRAM	Social Work
Degree Level: (i.e., Certificate, A.A., A.A.S., B.A., B.S., M.A., M.S., Ph.D.)	B.A.

A. CHANGE IN DEGREE REQUIREMENTS: (Brief statement of program/degree changes and objectives)

In order to align with institutional accreditation, we have been asked to include a statement of student learning outcomes distinct from any jobs/career preparation. Additionally, we are no longer offering a minor in Gerontology and we no longer have the Title IV-E entitlement grant. We are adding an elective course to the list of elective courses—it has just never been added. The minimum credits required for the degree reduced from 123 to 120, and finally adding “0” credits to Practicum 466 (since not all students need to take this course.)

Minimum Requirements for Degree: 123 credits

Graduates in social work qualify for beginning practice positions in child welfare, mental health, services for the aged, family agencies, youth programs, health services, Native corporations and other social agencies. Social work applies knowledge in the behavioral sciences to deal with the emotional and social problems of individuals, families and

communities.

The curriculum includes a liberal arts base, foundation requirements in the behavioral sciences, and sequences in social policy and services, practice methods and field instruction. A major emphasis is the preparation of the student for beginning social work practice with rural and Alaska Native populations.

Students learn to work with people on a personal level and are placed in a social agency as part of their course work during the senior year. A Title IV-E entitlement grant provides stipends to senior students doing practicums in child protection.

Students wishing to focus on understanding the aging process from a social work perspective and working with older adults may specialize in gerontology. Majors will take SWK F342-- Human Behavior in the Social Environment II, SWK F370--Services and Support for an Aging Society, and an approved elective with gerontology content. Students minoring in social work can choose either the general social work minor or a social work minor with a specialization in gerontology.

The UAF baccalaureate social work program is accredited by the Council on Social Work Education. This degree program is delivered collaboratively within the UA system.

Minimum Requirements for Degree: ~~123~~ 120 credits

We educate generalist social work practitioners to promote the health and well being of individuals, families and communities, emphasizing the diversity and uniqueness of rural Alaska.

We create a community of critical thinkers dedicated to becoming competent, culturally-sensitive professionals engaged in lifelong learning. We prepare students: for generalist social work practice with individuals, families, groups, organizations and communities; to integrate the values and ethics of the social work profession into generalist practice; to apply critical thinking to inform and communicate professional judgments; to engage diversity in generalist practice to advance human rights and advocate for social and economic justice; and, to understand bio-psycho-social, spiritual, and cultural functioning and apply it to all client systems.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

The specialization in Gerontology was created as the result of a restricted grant the department had at that time. Since it's inception no students have taken advantage of the opportunity and we no longer have the grant.

Credits above 30 in the major can also be counted towards the 18 credits of soc sci/hum, the actual minimum credits required are <120, thus the minimum number or credits should be listed as 120, not 123

SWK 466 (Practicum III) should be changed to "0, 3, or 6 credits" Students are required to take 12 credits of Practicum and can take 3 or 6 credits of Practicums I & II and in theses cases those students would not need to take 466.
