How will the two course levels differ from each other? How will each be taught at the appropriate level?:

Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi—undergraduate and graduate versions—will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. 20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action?

Include information on the Programs/Departments contacted (e.g., email, memo)

N/A

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

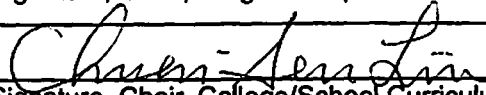

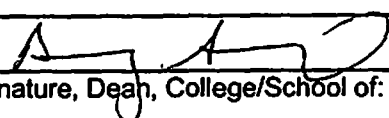

This course follows the New Degree Program Request which examined the growth in the CEE department. No additional positive or negative impacts from this course are likely.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This course is part of a UAF CEE outreach to package our graduate classes in a way that is convenient to students and their employers. This outreach was formalized in a New Degree Program Request for a Graduate Certificate in Construction Management which was approved by the UA Board of Regents in September 2009. The courses in this program grew out of a needs assessment by UAF CEE of Alaska engineering employers, including governments, consultants, and contractors, that indicated that courses of about one credit's intensity were best. The classes are being taught by UAF faculty, emeritus faculty, or appropriate adjuncts approved by the CEE faculty and Chair. All classes feature an assessment process: tests, reports, presentations, and/or graded homework.

5. Course Goals (general), and (see #6)

Improve the student's skills in managing construction projects.

6. Student Learning Outcomes (more specific)

Understand the needs of design phase issues to be able to establish scope and schedule and estimates.

Understand the different types of contracts available as well as procurement methods allowed.

7. Instructional methods:

Face to face lecture and remote lectures via video conferencing, guest presentations. Students will use the Internet to download some instruction material.

8. Course calendar:

Week 1 Introduction, Design Professional Selection

Week 2 Pre-Construction Contracts

Week 3 Design Sub Consultants, Scheduling

Week 4 Engineers Estimates, Early Contractor Involvement

Week 5 Contractor Selection, Exam

9. Course policies:

Attendance and class participation is expected in all classes, unless arranged otherwise with the instructor, and will be considered in determining final grade. Plagiarism will not be tolerated.

10. Evaluation:

The final grade will be determined on the following basis:

Homework	25%
----------	-----

Final Exam	50%
------------	-----

Class participation	15%
---------------------	-----

Insightful interaction with the instructor and other students in one or more class on relevant subject matter, such as assigned reading material, demonstrating an understanding of subject material and a level of self-study initiative and competence.

Attendance (5 @2%)	10%
--------------------	-----

90-100% – A

80-89% – B

70-79% – C

65-69% – D

< 65% - F

No +/- grades will be given

11. Support Services:

Administrative services for the course are provided by the Center for Distance Education 907-479-4757 and technical assistance by Video Conferencing Services 1-800-910-9601
