**A. CHANGE IN DEGREE REQUIREMENTS: (Brief statement of program/degree changes and objectives)**

The BEM degree program is adding courses, removing some that are less relevant, and updating program requirements to include new courses. This is a fast-growing field with a growing literature. The objective is to keep requirements up to date with the changing field and to offer increasingly relevant courses. Increasingly there is a career track in both Homeland Security and Emergency Management. Students want to choose one based on their career interests. This change together with the new topics courses below begins to define that split.

#### D. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

**None, faculty, instructors and adjunct faculty are already in place to teach new courses. The 200-level HSEM courses are already being taught by adjunct faculty. Courses are being offered as special topics and scheduled in spring 2014 so there is some minor impact on rooms required.**

#### E. IMPACTS ON PROGRAMS/DEPTS:

What programs/departments will be affected by this proposed action?  
Include information on the Programs/Departments contacted (e.g., email, memo)

**Students will have more options for their courses, but this could increase enrollment in the courses listed in 2c above by a few students.**

**F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:**

*Description of the student learning outcomes assessment process.)*

**The student learning outcomes assessment process is reviewed annually as part of the School of Management assessment process. As the program grows the department will research additional learning goals if deemed necessary. Currently a standardized exam in the field is used to assess student outcomes.**

**JUSTIFICATION FOR ACTION REQUESTED**

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

**This set of changes increases the quality of the program and its graduates by adding choice to sections of the curriculum and by updating to reflect the current needs for graduates in the industry. This is a growing field and the program director is in touch with agencies and programs who hire our graduates and with alumni and specialists in the field. Feedback from these sources helps inform the changes to separate tracks for Emergency Management and Homeland Security. Adding course options in Political Science, Psychology, Sociology, Justice and the Legal Environment of Business assure that our graduates are familiar with these subjects that are often linked with EM or HS in real, on-the-ground situations.**
