REQUEST FOR A NEW MINOR

SUBMITTED BY:

Department	Forest Sciences	College/School	SNRE
Prepared by	John Yarie	Phone	5650
Email Contact	jyarie@alaska.edu	Faculty Contact	John Yarie

See <http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures/> for a complete description of the rules governing curriculum & course changes.

PROGRAM IDENTIFICATION:

TITLE OF MINOR:	Forest Management	
	<i>*Number of credits required for completion (minimum is 15):</i>	16
<p>**Unless otherwise specified by the appropriate academic unit, a course may be used more than once toward fulfilling degree, certificate, major and minor requirements. Credit hours for these courses count only once toward total credits required for the degree or certificate. Certifying that [the student has] met all major and minor requirements is the responsibility of [the student's] department faculty, who notify the Registrar's Office." From the General University Requirements section of "How to Earn a Bachelor's Degree" in the UAF Catalog.</p>		
<i>Do all the required courses currently exist?</i>		YES
<i>If not, list the corresponding New Course paperwork associated with this request:</i>		

A. DESCRIPTION OF THE PROPOSED MINOR. Include reasons justifying its creation; objectives of the minor and relationship of the required courses to those objectives.

Forest Management

The Natural Resources Management degree will soon lose its three concentrations, including one in forestry accredited by the Society of American Foresters (SAF). To enable future students to learn the essentials of forestry and be eligible for certification by SAF, we propose a new minor in Forest Management. The minor will be available to students in any major that have satisfied course prerequisites. In combination with the NRM major, the Forest Management minor will prepare students for application for professional

certification by SAF. This credential identifies individuals with the training and knowledge required to manage the state's forest resources.

B. PROPOSED MINOR REQUIREMENTS AS THEY WILL APPEAR IN THE CATALOG:

See samples provided on page 3 of this form.

Forest Management Minor

1. Complete at least 16 credits from the following (cannot count toward major):*

NRM F240—Natural Resources Measurement and Inventory—3 credits

NRM F251—Silvics and Dendrology—4 credits

NRM F370—Introduction to Watershed Management—3 credits

BIOL F371 or NRM F375—Natural Resource Ecology—3 credits

NRM F440—Silviculture—3 credits

NRM F450—Forest Management—3 credits

NRM F452—Forest Health and Protection—3 credits

NRM F453—Harvesting and Utilization of Forest Products—3 credits

* Student must earn a C grade or better in each course.

C. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

All of these courses are currently being taught as part of the Forestry Option under the current (2013-2014) degree program. The minor primarily restructures our degree program and not the budget or facilities/space. It will have a minor effect on Faculty resulting from potentially larger class sizes or the need to restructure the class to an independent study for potentially smaller class sizes. In one case (NRM F453) an adjunct faculty will have to be located when the course is offered.

D. IMPACTS ON PROGRAMS/DEPTS:

What programs/departments will be affected by this proposed action?

*Include information on the **Programs/Departments** contacted (e.g., email, memo)*

The SNRE Natural Resources Management Program will be enhanced by this action. Students in biology interested in applying their expertise will also find it useful. The minor will help to maintain a student population that is strongly interested in Forestry and Forest Management in the state of Alaska.

F. PERSONNEL DIRECTLY INVOLVED WITH THE MINOR:

List faculty currently teaching the required and elective (if any) courses, with a brief statement of duties and qualifications.

Dr. J. Dawe – NRM251

Dr. J. Yarie – NRM240, NRM375, NRM440 and NRM450

Dr. N. Harris – NRM370

Dr. Jenifer McBeath – NRM452

Adjunct Hire – NRM453 (class is offered in odd-numbered years)

G. RELATIONSHIP OF THE PROPOSED MINOR'S OBJECTIVES TO THE "PURPOSES OF THE UNIVERSITY".

Include additional justifying information to support creation of the minor such as projected and present enrollments; need or public demand for the minor; support of other programs by the minor's creation, etc.

Projected enrollments 10 to 15 students/year

State Division of Forestry, USFS, native corporations, etc. will all need trained forestry professionals to fill the need for vital forest management tied to various resource uses (e.g. fuelwood, lumber, biomass, wildlife management, park management, etc.)

This minor will help to support the NRM program by attracting students that are interested in the forestry profession. The minor will help to prepare NRM students for the certification exam that is conducted by the Society of American Foresters.

APPROVALS:

	Date	3/13/14
Signature, Chair, Program/Department of:	Forest Sciences	

	Date	3/13/14
Signature, Chair, College/School Curriculum Council for:	SNRAS	

	Date	17 March 2014
Signature, Dean, College/School of:	SNRAS	

ALL SIGNATURES MUST BE OBTAINED PRIOR TO SUBMISSION TO THE GOVERNANCE OFFICE

	Date	
Signature, Chair, UAF Faculty Senate Curriculum Review Committee		

Final approval will be at the level of the Chancellor or Chancellor's Designee, following vote of approval by the Faculty Senate.
