PROGRAM IDENTIFICATION:

DEGREE PROGRAM	Bachelor of Emergency Management
Degree Level: (i.e., Certificate, A.A., A.A.S., B.A., B.S., M.A., M.S., Ph.D.)	B.E.M.

A. CHANGE IN DEGREE REQUIREMENTS: (Brief statement of program/degree changes and objectives)

This change replaces the in-depth Accounting F261 requirement with the new HSEM F271 course: Fiscal Management for Emergency Management Operations. HSEM F271 covers more of the fiscal material that managers of HSEM organizations might need which are not covered in ACCT 261. One example is grant writing, which is critical to Emergency Managers but not as much for CPA's. While ACCT F261 is directed more at those with an interest in being CPA's, the HSEM accounting course is focused on those managing public and private organizations.

D. ESTIMATED IMPACT

WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

The new course will be fitted into the accounting instructors' schedule and rotated through the offerings. The class will pull as many students out of Acct 261 as it registers in 271 so there is no impact on SOM, though some Accounting students may choose to take 271 as an additional elective. Classroom space will be required for Acct/HSEM 271.

[Empty box]

E. IMPACTS ON PROGRAMS/DEPTS:

What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo)

No impact on programs outside of SOM

F. IF MAJOR CHANGE - ASSESSMENT OF THE PROGRAM:

Description of the student learning outcomes assessment process.)

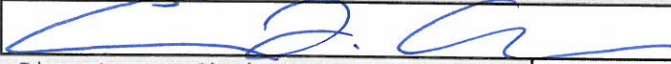

The student learning outcomes assessment process is reviewed annually as part of the School of Management assessment process. As the program grows, the department will research additional learning goals if deemed necessary. Currently, a standardized exam in the field is used to assess student outcomes. This change in the accounting courses will not affect the process of assessing student learning.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

The BEM is a rapidly growing program and the HSEM department increasingly gathers feedback from graduates who are now working (or again working) in the field. This change is in response to "I wish I'd had..." comments as students and graduates review their BEM experience in light of their working experience. Providing a targeted fiscal management course to BEM students made sense, given what the job demands are. For example, writing grants is increasingly a part of HSEM managers' jobs. Much of public safety is run on various grants. Exposing students in the BEM program to grant writing is an important part of their preparation for their working world.
