1. ACTION D	Trial	Cour	se	х	New Co	ourse			
2. COURSE I	Dept	BI	OL	Course #	194	No. of Credits			
	degree. This course does not require much background apart from basic math and English and therefore it is designated as a lower division (100 level) course. The topics and material covered in the course will require 2400 minutes of lecture time (plus 4800 minutes of study on part of the students) during a normal 14-week semester and therefore this course is for Three (3) credits.								
3. PROPOSED	COURSE TITLE:			BIG	DLOGY OI	F ADDICT	ION

5. To be STA	No	I	f yes,		Cou	rse #			
How will the two course levels differ from each other? How will each be taught at the appropriate level?:									
* Use only one Format 1 form for the stacked course (not one for each level of the course!) and attach syllabi. Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi (undergraduate and graduate versions) will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online – see URL at top of this page.									
6. FREQUENCY	OF OFFERING:	Every F							
Fall, Spring, Summer (Every, or Even-numbered Years, or Odd- numbered Years) — or As Demand Warrants						or Odd-			
7. SEMESTER & YEAR OF FIRST OFFERING (Effective AY2015-16 if approved by 3/31/2015; otherwise AY2016-17) Fall 2017									

8. COURSE FORMAT: NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the Core Review Committee.								
COURSE FORMAT: (check all that apply)	1	2	3	4		5	х	6 weeks to full semester

12.	COURSE REPEATABILITY:					
	Is this course repeatable for credit? YES NO X If yes, fill out boxes below.					
	Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).					
	How many times may the course be repeated for credit?					
	If the course can be repeated for credit, what is the maximum number of credit hours that may be earned for this course?					
	If the course can be repeated with <u>variable</u> credit, what is the maximum number of credit hours that may be earned for this course? CREDITS					
13.	GRADING SYSTEM: Specify only one. Note: Changing the grading system for a course later on constitutes a Major Course Change - Format 2 form. LETTER: X PASS/FAIL:					
REST	RICTIONS ON ENROLLMENT (if any)					
14.	Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or permission of instructor.					
	These will be required before the student is allowed to enroll in the course.					
	SPECIAL RESTRICTIONS, None DITIONS					
16.	PROPOSED COURSE FEES \$0					
	Has a memo been submitted through your dean to the Provost for fee approval? Yes/No					
17.	PREVIOUS HISTORY					
	Has the course been offered as special topics or trial course previously? Yes/No					
	If yes, give semester, year, course #, etc.:					
18.	ESTIMATED IMPACT WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.					
	Apart from the 3 credit workload of a faculty who will be teaching this course no impact on the					
	budget or facilities is expected.					
	LIBRARY COLLECTIONS					
4	Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and					
1	No X Yes We do not anticipate the need of any special library/media collections, equipment and services for the proposed.					
20	IMPACTS ON PROGRAMS/DEPTS					
	What programs/departments will be affected by this proposed action?					
	Include information on the Programs/Departments contacted (e.g., email, memo)					
1	The proposed course will increase the choice of distant delivered courses for the students of the Associate					

The proposed course will increase the choice of distant delivered courses for the students of the Associate of Science degree.

21. POSITIVE AND NEGATIVE IMPACTS

Please specify **positive and negative** impacts on other courses, programs and departments resulting from the proposed action.

Positive impact: Students pursuing the Associate of Science degree will have more courses to choose from to complete their electives.

Negative impact: None expected.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

It is known that drug abuse and alcoholism are a major health and social problem in communities across Alaska. This course is designed to teach the neurobiological mechanism by which the process of addiction to alcohol and pharmacological substances occurs. It is intended to highlight major pharmacological substances that have addictive liability. As such it will help young as well as mature students understand what happens in the human body in general and the human brain in particular during the process of addiction and informs them to stay away from addictive substances.

The course is suitable for non-science majors and those seeking preliminary instruction before beginning study in health-related areas. It is imperative that such a course be offered not only with an academic perspective but also with a social and community health perspective in mind.

In order to ensure that the quality of UAF education is not lowered the testing and evaluation of students taking the course will be rigorous and up to the highest standard.

Ultimately, the purpose of this course is the wider dissemination of knowledge, specially such knowledge that can improve lives by preventing a person from falling into the evil trap of addiction of any form.

APPROVALS: Add additional signature lines as needed.

ATTACH COMPLETE SYLLABUS (as part of this application). This list is online at: http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/uaf-syllabus-requirements/
The Faculty Senate curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed cours (or changes to it) may be <u>denied</u> .
SYLLABUS CHECKLIST FOR ALL UAF COURSES During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):
1. Course information: ☐ Title, ☐ number, ☐ credits, ☐ prerequisites, ☐ location, ☐ meeting time
(make sure that contact hours are in line with credits).
2. Instructor (and if applicable, Teaching Assistant) information: □ Name, □ office location, □ office hours, □ telephone, □ email address.
3. Course readings/materials: ☐ Course textbook title, ☐ author, ☐ edition/publisher. ☐ Supplementary readings (indicate whether ☐ required or ☐ recommended) and ☐ any supplies required.
 4. Course description: □ Content of the course and how it fits into the broader curriculum; □ Expected proficiencies required to undertake the course, if applicable. □ Inclusion of catalog description is strongly recommended, and □ Description in syllabus must be consistent with catalog course description.
5. Course Goals (general), and (see #6)
6. Student Learning Outcomes (more specific)
7. Instructional methods:
Describe the teaching techniques (eg: lecture, case study, small group discussion, private instruction, studio instruction, values clarification, games, journal writing, use of Blackboard, audio/video conferencing, etc.).
8. Course calendar:
A schedule of class topics and assignments must be included. <u>Be specific</u> so that it is clear that the instructor has thought this through and will not be making it up on the fly (e.g. it is not adequate to say "lab". Instead, give each lab a title that describe its content). You may call the outline Tentative or Work in Progress to allow for modifications during the semester.
9. Course policies:
\square Specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.
10. Evaluation:
\square Specify how students will be evaluated, \square what factors will be included, \square their
relative value, and \square how they will be tabulated into grades (on a curve, absolute
scores, etc.) Depublicize UAF regulations with regard to the grades of "C" and below as applicable to this course. (Not required in the syllabus, but is a convenient way to publicize this.) Link to PDF summary of grading policy for "C": http://www.uaf.edu/files/uafgov/Info-to-Publicize-C_Grading-Policy-UPDATED-May-2013.pdf
11. Support Services:
☐ Describe the student support services such as tutoring (local and/or regional)
appropriate for the course.
12. Disabilities Services: Note that the phone# and location have been updated. http://www.uaf.edu/disability/faculty/ Americans with Disabilities Act (ADA), and ensures that UAF students have equal access to the campus and course materials.
☐ State that you will work with the Office of Disabilities Services (208 WHITAKER BLDG, 474-5655) to provide reasonable accommodation to students with disabilities.

Course Syllabus

Course Title: Biology of Addiction

Course Number: BIOL 194

Number of Credits: 3

Meeting Time: Asynchronous student learning on blackboard (see Calendar)

Semester: Fall 2017

Prerequisites: Placement in ENGL F111X or higher; placement in DEVM F105 or higher; or

permission of instructor (3+0).

Instructor Information:

Instructor Name: Dr. Anshul Pandya

E-mail: aapandya@alaska.edu

Phone: (907) 474-2748

Office Hours: 11 AM to 4 PM Monday to Thursday.

Please use the email address provided, it is the best way to contact the instructor. All emails will be

responded within 48 hours.

Course Textbook and Materials:

Required Textbook

Title: Drug Use and Abuse. 6th Edition.

Author: Stephen A. Maisto, Mark Galizio and Gerard J. Connors

ISBN-10: 0495814415

Other Class Resources: Other class resources such published research articles relevant to the topics discussed in this course will be provided by the instructor.

Materials or supplies required: Students will need to have regular access to a computer and the

internet. The students are required to check the blackboard site for the course regularly.

Course Description:

This course covers various chemical substances of abuse and neurobiological mechanism of addiction. Functioning of the nervous system, actions of addictive drugs, ways of avoidance and treatment of addiction will be discussed. Information course only, should not be used for treatment or counseling in any form. May not be used as biology elective credit for a major in biological sciences. Note: Suitable for non-science majors and those seeking preliminary instruction before beginning study in health-related areas.

Course Goals:

- 1) Provide an overview of neuro-physiological process of addiction and related behaviors.
- 2) Explain the pharmacological action of alcohol and common substances of abuse.
- 3) Provide strategies for avoidance and treatment of addiction.

Learning Outcomes:

After successful completion of this course the student will be able to:

- 1) Describe the common substances of abuse and what is harmful drug use
- 2) Identify the structure of the brain and different brain regions
- 3) Explain the structure of a single nerve cell and its function
- 4) Explain the basics of pharmacology
- 5) Recognize the pharmacology of common substances of abuse and addiction
- 6) Recognize the symptoms of addiction and know how tolerance develops
- 7) Identify the ways of avoiding substances abuse and treatment for common substances of addiction

Instructional Methods:

Course offered asynchronously through UAF eLearning & Distance Education every Fall semester. Lectures which will cover the course material will be in form of video that will be available on Blackboard. **Blackboard Web Site:** http://classes.uaf.edu/

All course information, supporting documents, and exam scores for this course will be maintained on the UAF Blackboard website. It is therefore important that you check the site regularly for updates. Moreover, time-sensitive information and reminders will occasionally be sent, so it is important to verify that your email address is correct and current.

Course Policies:

Students are expected to complete all lessons on a timely basis. Students are expected to participate in all online discussions, exercises, tests and quizzes.

Late assignments: Students are expected to complete all the assignments and exams by the deadlines provided. I will not accept late submissions. If you have extenuating circumstances, please contact the instructor by the deadline for extension. Remember extensions will be granted only in very serious situations or circumstances. Any extension not discussed with the instructor will not be accepted. The instructor reserves the right to deny extensions resulting in an incomplete grade.

Important Dates: Check the UAF Academic Calendar for important dates related to fee payment, class registration and last day to drop courses. The calendar can be viewed online at: http://www.uaf.edu/catalog/current/acad_calendar.html

Amending this Syllabus: The instructor may change this syllabus and any changes will be clearly communicated to the students immediately via email and posted on Blackboard. The instructor reserves to make changes to the grading policy that are of benefit to ALL students enrolled in the course. None of the changes to the syllabus subject to student vote or approval.

Privacy: The student's privacy with regards to performance will be respected at all times in the class. Please do not discuss your grades or ask others about theirs within the classroom context. **Plagiarism/Academic Integrity:** Plagiarism and cheating are serious offenses and may result in failure on exams, papers, projects, or courses. The entire purpose of this class is to acquire useful skills. To cheat is to lose the opportunity to acquire skills. Please cite all your sources to avoid plagiarism. Contents in the assignment from unreferenced source will be caught and given an F-grade instantly.

Support Services:

Support can be obtained through the University of Alaska Library system, online resources, and the instructor. Additional services are available through Student Support Services (http://www.uaf.edu/sssp/) at UAF.

Disabilities Services:

UAF has a Disability Services office that operates in conjunction with the College of Rural Alaska's (CRA) campuses and UAF's Center for Distance Education (CDE). Disability Services, a part of UAF's Center for Health and Counseling, provides academic accommodations to enrolled students who are identified as being eligible for these services. If you believe you are eligible, please visit http://www.uaf.edu/chc/disability.html on the web or contact a student affairs staff person at your nearest local campus. You can also contact Disability Services on the Fairbanks Campus at (907) 474-7043, fydso@uaf.edu.

Method of Evaluation & Grading

Grading will be based as follows:

A = 90+%, B = 80+%, C = 70+%, D = 60+%, F < 60%.

Evaluations will be based on following:

Class participation – 160 points (16 %)

Students will be expected to take part in online discussion on a topic given by the instructor. 8 topics of discussion will be introduced. Each topic will be open for discussion for a period of 10 days. Each topic will be worth 20 points. Students will be assessed on the following: writing pertinent to the subject, quality of student's contribution (points made and arguments presented), and evidence of external reading on the topic.

Weekly homework – 140 points (14 %)

Students will be given 7 homework assignments. The topics and rubric for the written homework assignment will be provided. Each homework assignment will be worth 20 points.

Student presentation – 200 Points (20%)

Students will prepare a PowerPoint presentation with audio or a video on a topic chosen by the student and approved by the instructor.

Major written assignment (1000 words) – 200 Points (20 %)

The topic and rubric for the written assignment will be provided on blackboard.

Mid-term test (take home) – 150 Points (15 %)

Final exam (take home) – 150 Points (15 %) Cumulative

Total – 1000 points (100 % of course grade)
