20. IMPACTS ON PROGRAMS/DEPTS

What programs/departments will be affected by this proposed action?

Include information on the Programs/Departments contacted (e.g., email, memo)

Department of Music, College of Liberal of Arts, University of Alaska of Fairbanks, and the local community.

21. POSITIVE AND NEGATIVE IMPACTS

Please specify **positive and negative** impacts on other courses, programs and departments resulting from the proposed action.

There are no negative impacts of offering this course in our university.

Positive impacts include dramatic increases in student recruitment that will be attending UAF to take part in this course and the four-semester sequence. This offers an opportunity to local musicians to take Suzuki Pedagogy for further enrichment in their teaching. This connects UAF with one of the strongest Educational communities present in our community for the last 36 years.

This will draw much more students in to our University because this course has an international reputation for being one of the most effective music education tools.

Our University will be one of only 13 programs in the nation that offers this special training.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

This course is the fourth and final course/semester of a larger 4 semester program that will give students a comprehensive knowledge of this teaching tradition.

This course would grow recruitment for the Music Department and all UAF departments because it allows students that successfully complete the program to apply for jobs in the field. There are 13 schools that have this program currently and all of the programs claim that numbers of students dramatically rose when this program was offered. This program coincides with new efforts across the community for programs that benefit all students from all majors and disciplines.

For instance an Engineering Major at UAF, who demonstrates the required musical training, could complete the four-semester sequence of Suzuki Pedagogy and be qualified to teach and run a private upper string studio in any community. Offering this course further strengthens music educator's efficacy in the field of education and performance. This helps music majors, and all string teachers and players in our department, community, and University. Just at UAF, we have over two full string orchestras of qualified

teachers and students that would love an opportunity to take this course.

Offering this course connects UAF with a local community of teachers, students, and families that has been thriving for over 36 years in Fairbanks and the North Star Borough. Offering this course, also connects UAF with a internationally renowned music education association: The Suzuki Association of the Americas.

This program has a 100% placement in the employment field at the other 13 schools, in the nation, that offer a similar pedagogy course. I myself am a student of this tradition and began studying violin in the Suzuki Method as early as two years old. I now have this same teacher training and just this past summer have traveled the world from Bali, Indonesia; to Ottawa, Kansas; to Honolulu, Hawaii; and back to Fairbanks, Alaska teaching thousands of students in this method.

Further Justification/description is included by our teacher for this course 40 year veteran, Dr. Gail Johansen:

The University of Alaska Fairbanks offers undergraduate students specific study and training in the Suzuki Method of music teaching and learning. The seminar is a 12 credit hour program that offers comprehensive teacher training to violinists and violists pursuing a degree in music performance or education. Students in other disciplines who are able to pass the entrance audition requirements may also register for these courses to fulfill elective requirements in the arts and humanities, with instructor approval. Viola teacher training through Unit 4 is included in this seminar.

The Suzuki Violin Pedagogy Seminar includes 4 semesters of classroom study and observation of experienced Suzuki teachers in the Fairbanks School of Talent Education Suzuki Music Program. Upon completion, participants will be able to register their teacher training courses with the Suzuki Association of the Americas, a nationally recognized registry of Suzuki trained teachers.

In Suzuki Violin Pedagogy seminar classes, students study the philosophy of Dr. Shinichi Suzuki's Talent Education Method and his impact on current learning theories about early childhood education. They learn skills for teaching fundamental techniques of string playing, from the beginning steps to the advanced levels. They study the music and teaching points of eight volumes of the Suzuki Violin Method.

Classroom instruction is complimented by guided observation of trained Suzuki Method violin and viola instructors, with an emphasis on live lesson observations. Group lesson observations are available through the Fairbanks School of Talent Education Suzuki Music Program, held weekly at nearby University Park Elementary School. Guided teaching includes serving as a practice partner to students and parents. Self-evaluation techniques are taught while feedback and assessment is given from mentor teacher, Dr. Gail Johansen.

Students who graduate with Suzuki pedagogy training go on to establish successful private studios, join established university and community music school programs or combined positions as symphony performers with educational outreach programs. Suzuki Method teaching is now the standard of music education for children. Graduates from the UAF Suzuki Violin Pedagogy Seminar will have the knowledge and skill to impact any community they choose, from the villages of Alaska to major cities across the United States.

They will be handled on an individual basis and will require appropriate documentation and significant prior notification (at least 24 hours) before the start of class for either to be considered.

Unexcused Absences:
