6. CURRENT CATALOG DESCRIPTION AS IT APPEARS IN THE CATALOG: including dept., number, title and credits

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

responsible for getting information <u>and</u> completing an independent research assignment to be presented at the next class meeting to compensate for missed instruction. Regular timely attendance and classroom participation will be considered in determination of the final grade. Late assignments will only be accepted for a legitimate and excused absence.

Readings

Assigned readings for each class are listed in the class outline. It is expected the material has been read prior to the start of class.

Plagiarism

Academic integrity is a basic principle that requires all students to take credit only for the ideas and efforts that are their own. Plagiarism is defined as appropriating passages or ideas from another person's work and using them as one's own. Lifting passages of text from the Web is also plagiarism. Plagiarism is taken very seriously and may result in a student's dismissal from the teacher education program. Assignments will be typed and submitted in standard written English, observing rules of grammar, spelling, punctuation and syntax. Research citations will be written APA style in all work, as this is the designated style and format for the field of educational research. Internet citations must include the title of the website, universal resource locator, date of posting, date of access and other information included on APA format.
