In what manners and for what reasons did the peoples of the Bible settle, build, irrigate, farm, hunt, fish, trade, and make war as they did? This course will examine textual sources as well as archaeological materials on behalf of reconstructing and comprehending such cultural ecosystems.

# **GENERAL DESCRIPTION OF GOALS:**

The instructor's goals for this course are, simply, to foster the student learning outcomes/ objectives—namely:

# **STUDENT LEARNING OUTCOMES / OBJECTIVES:**

The diligent student will achieve a solid foundational knowledge and appreciation of how the physical environment played a critical role in influencing the structure and functioning of ancient Levantine societies. This awareness will permit the student to engage the biblical texts (and related material artifacts) in a richly contextualized and substantive manner.

# **INSTRUCTIONAL METHODS:**

This course will be conducted in a lecture format, featuring presentations and questions by the instructor designed to engage the students in discussions about the materials and topics at hand.
