PS 675, Syllabus

Course Scope and Objectives

PS 675 provides academic credit for graduate students' internship experiences in both agencies of government (federal, state, local) and non-profit organizations. The internship will be of particular value for students who plan to use the MA in political science as a springboard into a job. To meet graduation requirements for either the EPP or AP track, students may complete one year of internship work (a total of 6 credits) or they may elect to write a thesis. The 6 credits of internship may be taken in the same agency/organization or in different ones, dependent on consultations between the student and his/her committee. The normal required time for a semester-length internship is at least 15 hours/week in the 14-week semester.

Placement

The PS 675 instructor insures that the placement meets student needs and satisfies university requirements (for example, that an agency employee guides and supervises the student's work). Based on the department's historical record of relationships with agencies and organizations, it expects to be able to place students in federal agencies (for example, BLM, NPS, USFWS, BIA), state agencies (DNR, DEC, ADFG, DOTPF), and local governments (for example, the planning department or mayor's office of the Fairbanks North Star Borough). Historically, the department also has arranged internship opportunities with public service and nonprofit organizations, for example in Native organizations (such as Tanana Chiefs Conference, Fairbanks Native Association, Doyon), environmental organizations (for example, the Northern Center), and volunteer organizations (for example, the American Red Cross).

The department also has coordinated internships outside the Fairbanks area—in Anchorage, Juneau, New York City, and Washington, DC. Students seeking to complete most of their MA degree work online may be able to earn internship credit in their home region, if appropriate supervision can be arranged. (Internship credit is not available for the agency in which the graduate student might be employed.)

Stipend

The department is not able to guarantee that stipends will be provided for interns. The department does keep a file of paid internships, most of which are competitive.

Requirements

- Students will be expected to meet agency expectations for hours worked, completion of tasks assigned, good work habits (e.g., punctuality, reliability, demonstration of respect for agency clients and staff), apparel and conduct appropriate to office norms.
- 2. The internship instructor will attempt to insure that in addition to learning the normal routines of the agency/office, the intern will work on a semester- or year-long special project. The internship instructor will provide a list of readings (at least one book and several research articles) which reflect the academic literature in the area of the internship.
- 3. The graduate intern will write a 15-page paper demonstrating: 1) how the special project has been conducted; 2) the relationship between the student's internship experience and the academic literature of political science in this area.

Grading System

- 1. The internship instructor will be in regular contact with the intern's supervisor. The supervisor will evaluate the performance of the intern at the end of the semester, and this evaluation will be a basis of the course grade.
- 2. The instructor will evaluate the log of the intern's activity in the agency and the paper. This will be the second basis of the course grade.

Other regulations and resources pertaining to internships
