

SEMINAR

## HELPING ANIMALS, PEOPLE AND THE PLANET- WHAT CAN WE DO TOGETHER IN ONE HEALTH?

Dean Mark Stetter, CSU, College of Veterinary  
Medicine and Biomedical Sciences

**August 7, 2014**, Murie Auditorium, 12:15 to 1:15 pm

Join us afterward for Q&A and light lunch  
*and meet the veterinarian who*

- leads the Colorado team in the new **Doctor of Veterinary Medicine** program in collaboration with University of Alaska Fairbanks;
- oversaw the health and daily care of several thousand animals at **Walt Disney Co.** and parks around the world;
- served as chair of the **American Association of Zoo Veterinarians Research Committee**;
- is president and founder of **The Elephant Population Management Program**, which helps African countries address biodiversity issues associated with elephant overpopulation while assisting in wildlife conservation;
- was a veterinarian with the Wildlife Conservation Society's Animal Health Center including the **Bronx and Central Park zoos**, and the NY Aquarium.

The Department of Veterinary Medicine is hosting this seminar.

UAF is an AA/EO employer and educational institution.
